

MultiGeneration by Knoll®

Continue the conversation.

Meet our expanded MultiGeneration family of multipurpose chairs that let you sit how you want.

MultiGeneration by Knoll encourages collaboration with a responsive, open design that supports multiple postures and a diversity of people in shared, team and large group environments.

Recognizing that we fidget—from tapping our feet to twirling our pens—to keep alert and engaged, Formway Design gave MultiGeneration form and function that encourage natural movement, allowing us to focus, interact and communicate more effectively.

Compatible by design. MultiGeneration extends the benefits of the award-winning Generation by Knoll® work chair, promoting comfort and freedom of movement in collaborative work settings.

MultiGeneration—the stacking, hybrid, light task, high task and stool models—support a variety of applications, from guest seating to meeting areas and large multifunction spaces for a wide range of corporate, education and healthcare organizations.

Open to collaboration.

MultiGeneration allows you to fidget to focus, keeping you energized for more effective communication.

Sitting doesn't have to be a static state. MultiGeneration provides the right balance of responsiveness and support with innovative features.

Open design for 270° sitting

- + Full, curved back allows for upper body movement and supports the lower back for upright, interactive postures
- + Gently contoured seat with rounded corners lets you shift positions easily
- + Cantilevered arms feature contoured arm pads to lean against when side sitting

Passive flex encourages natural movement

- + Flexing shell promotes comfort and movement
- + Perforated back provides airflow

Rolled top edge for ease-of-use

- + An armrest for side sitting
- + A handle for easy transport

Unique hybrid chair design combines comfort and mobility

- + A bouyant, cantilevered form meets a 4-leg construction with the option of casters
- + The Dynamic Seat Structure creates an active ride for enhanced performance

Light task chair has added level of performance

- + Height adjustable to ensure comfort for extended work sessions
- + Swivel base provides additional movement for collaboration

Freedom for every body. MultiGeneration removes the constraints of the typical static side chair; the hybrid chair features an innovative Dynamic Seat Structure that adds comfort and performance.

Multiply your options.

A variety of chairs for a variety of spaces.

MultiGeneration offers a breadth of aesthetic choices. To complement your workplace, choose from six shell colors and three standard finishes—plus the option of chrome for the hybrid base—as well as an upholstered seat pad option available in nine Generation Fabric colors and many KnollTextiles fabrics.

With its lightweight, inventive use of materials to deliver performance, MultiGeneration is sustainably designed. It is SMaRT[®] Sustainable Gold, BIFMA level[®] 3 and GREENGUARD GoldSM certified and can contribute to achieving LEED[®] points.
