

Generation Lumbar Support Installation

Generation by Knoll®

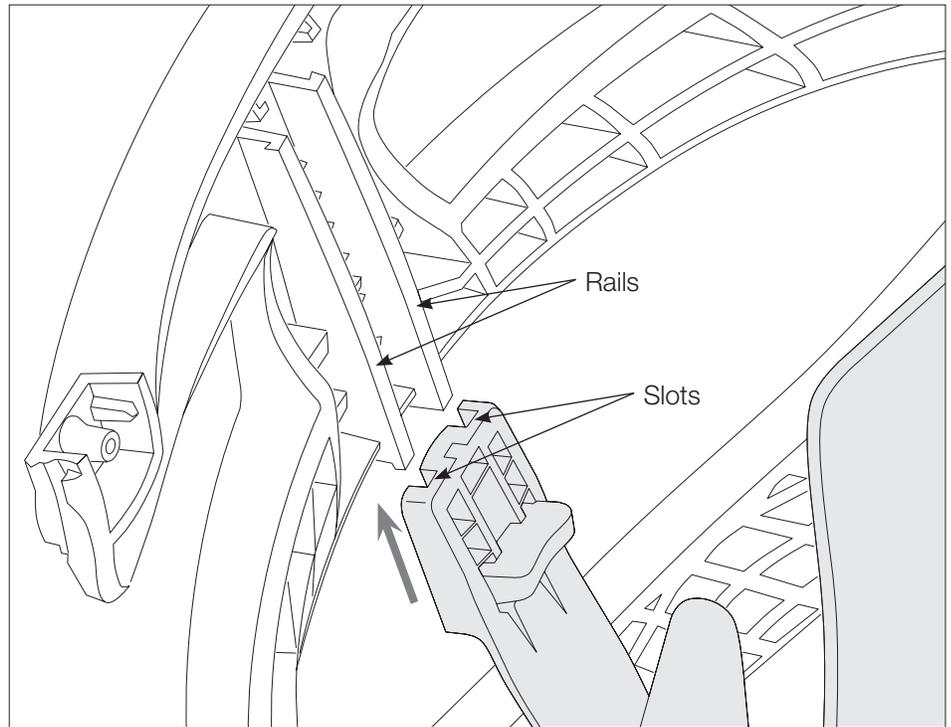

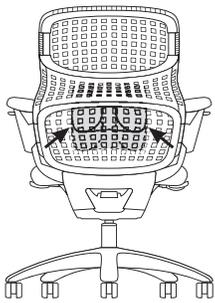

Pattern Number: 11LUMBAR

To install the optional lumbar support, align the slots in the top of the lumbar support with the bottom of the rails on the back frame.

Push the lumbar support upward until the attachment tab engages the lowest detent on the back frame.

Please note:

To adjust the lumbar support once installed, grasp both sides of the lumbar support and slide it to the desired position. No levers or knobs are required to adjust it.

Generation Lumbar Support Removal

Pattern Number: 11LUMBAR

To remove the lumbar support from the back frame, adjust the lumbar to the lowest detent on the back frame.

Standing behind the chair, place thumb on top of the lumbar support and fingers on the lever of the lumbar attachment tab. Pull upward on the lever with fingers while gently pushing the lumbar over the lowest detent with thumb. Use opposite hand on the neck of lumbar support to assist by pulling downward.
