

Knoll Office

# k. lounge™

A modular, plannable soft seating series that delivers a broad range of capabilities, making it a go-to solution for the workplace.

Knoll

*k. lounge benches pair with Rockwell Unscripted Creative Wall to create a space for individual focus work, socialization or collaboration.*

**A go-to lounge collection for the workplace.**

A part of the k. collection, k. lounge is a modular, plannable soft seating series that can be scaled and configured to create any kind of space from small enclosed refuge to large, open communal areas. With 20 modular elements, k. lounge bridges the gap between object based furniture and a system.

**+ Modular**

Ranging in size and shape, k. lounge pieces use an integrated ganging system to scale for any space.

**+ Varying Horizons**

k. lounge offers backless, low back, and high back benches—adding the ability to play with horizons and offer different levels of support.

**+ Mobility**

Reverse braking casters are available on the stool, ottoman and single seat bench with low back to allow users to quickly reconfigure a space.

**+ Integrated Power**

Tables and benches can be specified with cutouts for cordset power modules that offer two standard power outlets or one outlet with one double USB port.

## k. lounge™

### Benches

k. lounge benches, ottomans, poufs and stools can be used to create a variety of work spaces from touch down areas to collaborative spaces or large assembly areas. Mix shapes, sizes, and horizons to offer varying levels of support for the activities at hand.
