

A3™

Product Information

Designed by Asymptote for Knoll, the compound curves of individual A3 workstations generate useful, interstitial spaces and lively topography. Translucent mesh screens stretch across elliptical frames, offering privacy while enabling communication.

A3 and LEED®

Knoll is aligned with the U.S. Green Building Council and can help companies, healthcare organizations and educational institutions achieve Leadership in Energy and Environmental Design (LEED®) workplace certification.

A3 and GREENGUARD®

A3 is GREENGUARD Indoor Air Quality Certified® and can contribute to LEED® certification.

A3 and FSC

A3 is available with materials certified by the Forest Stewardship Council.

Color Integral Plastics

A3 storage components are made of injection-molded, color integral ABS

GREENGUARD®

A3 is GREENGUARD Indoor Air Quality Certified®

VOC-Free Metal Coating

Powder coating on metal is virtually VOC-free with a resin usage rate of up to 95%

Environmental Fabrics

100% polyester mesh fabric comes in solid colors or four gradation patterns, with the option for customized prints

Recycled Particleboard

A3 uses 100% recycled content particleboard

Powder Coating

UV-cured, powder-coat painted worksurfaces have seamless edges and resilient palm rests and trim

VOC-Free Wood Coating

Powder coating on wood is virtually VOC-free

FSC-Certified

Wood components are available with FSC-certified materials

Minimal Materials

Mesh fabric reduces overall material content in panels
