

Sapper 50 Monitor Arms

Sapper 50® Monitor Arms

With its slender form and clean lines, the Sapper Monitor Arm Collection, designed by Richard Sapper, provides simple, graceful solutions for mounting monitors. The Sapper 50 and Sapper 50 Double monitor arms integrate the defining features of the collection including interchangeability, adaptability and intuitive adjustment, and expands the capabilities of the collection to include support for single and double larger monitors and flat screen televisions.
