General Ordering Information >>		221

This price list provides you with the product information you need to specify and order Knoll Morrison.

Morrison is a completely integrated office system, capable of all types of office planning. Morrison may plan as a panel system, with panel mounted components, or as a freestanding desk system. Morrison can also be combined with the Currents service wall for superior wire management, cable access and off-module planning. Major components – panels, worksurfaces and storage – may be configured or reconfigured in all types of planning listed above.

Information about Morrison is found in three companion books: this Price List, the Planning Guide and the Brochure.

The Price List arranges components in a logical sequence.

The first section includes all major components required for panel system planning: Morrison and Options panels, add-on panels, connectors, doors, Morrison Access, top cap kits, stackable add-up panels and power distribution.

The second section includes those components required for worksurface planning and support: Morrison and Options worksurfaces, Currents worksurfaces for Morrison, desk panels, Morrison Network desk supports, brackets, and power components.

The third section includes storage components for panel based or freestanding planning: pedestals, Intermediate shelves, Morrison, Options and Reuter overhead storage and lighting, screens, and vertical storage.

The fourth section includes accessories. The complete range of computer support and accessories can be found in the KnollExtra price list.

How to order Morrison

Morrison is a component-based system. To ensure a complete order for a workstation or project, specify components in the same order as the price list.

You will find that Morrison pattern numbers contain a logical, alphanumeric sequence describing the type, size, features, and finish of the component.

To specify components, consult the ordering code examples and application notes provided.

For example, to order a 1³/₄" light grey laminate worksurface with grommets, 48"W by 24"D specify: **MW2-S4824A114**. Details follow:

MW2	1 ³ / ₄ " worksurface
S	Straight
48	Width
24	Depth
A	With grommets
114	Folkstone Grey laminate

For further assistance with ordering or specifying Morrison, consult your Knoll representative or Knoll dealer.

Please note that pattern numbers beginning with the letter **A-** are Currents pattern numbers.

KnollNow

This price list includes products offered in the KnollNow  program.

To obtain pricing and place a KnollNow order, contact your Knoll dealer. For the Knoll dealer nearest you, visit knoll.com.

All KnollNow orders are manufactured by the fifth business day after receipt of the order from a Knoll dealer. Shipping and delivery time may vary depending upon the "ship to" location. Also keep in mind:

- No changes or cancellations are permitted.
- Knoll Now products are available only in the continental United States and Canada.

Order quantities of certain items may be limited and are subject to fabric availability. For more information, contact Knoll Customer Resources at 1-215-679-7991 or 1-800-343-5665.

Example:	MP2-3930-C-3
MP2	Panel
39	Height
30	Width
C	Clear acrylic glazing
613	Frame finish

Specification Information

For glazed panels specify:

C- Clear tempered glass
 T- Translucent acrylic
 F- Divided translucent fiberglass

Frame finish

Application Notes

Top caps/raceway covers are specified as separate kits, and are bulk shipped to facilitate installation.

Non-powered panel raceways accommodate 96 or more 4-pair unshielded twisted pair cables (Category 5, 5E or 6). Powered panel raceways accommodate up to 48 4-pair cables. Power components are ordered separately and field-installed.

Glazed panels may not be powered. Divided translucent fiberglass glazed panels may be powered. 60"W glazed panels are not available.

High performance panel acoustical ratings:
 NRC .80, STC 24

Upholstered panels may be specified to achieve ASTM E-84 Class "A" flamespread rating.

MP2	Panel
48	Height
30	Width
15	Surface type and group no.
W210/20	Upholstery

Products indicated with ➔ are available on KnollNow.

Specification Information

Surface type/finish suffixes

For upholstered panels, specify upholstery pattern number after the fabric group number.

- 10- Fabric group 10 ➔
- 15- Fabric group 15 ➔
- 20- Fabric group 20 ➔
- 30- Fabric group 30
- 35- Fabric group 35
- 40- Fabric group 40
- 45- Fabric group 45

Upholstered panels may be ordered in a combination of fabrics. List price is the average of the two fabric grades.

For combinations of fabrics list both suffixes (e.g., 15/40) and upholstery pattern numbers.

Application Notes

Top caps/raceway covers are specified as separate kits, and are bulk shipped to facilitate installation.

Non-powered panel raceways accommodate 96 or more 4-pair unshielded twisted pair cables (Category 5, 5E or 6). Powered panel raceways accommodate up to 48 4-pair cables. Power components are ordered separately and field-installed.

High performance panel acoustical ratings:
NRC .80, STC 24

Upholstered panels may be specified to achieve ASTM E-84 Class "A" flamespread rating.

Example:	MP2-6430-15-W210/20
MP2	Panel
64	Height
30	Width
15	Surface type
W210/20	Upholstery

Products indicated with ➔ are available on KnollNow.

Specification Information

Surface type/finish suffixes
Upholstered panels:

For upholstered panels, specify upholstery pattern number after the fabric group number.

- 10- Fabric group 10 ➔
- 15- Fabric group 15 ➔
- 20- Fabric group 20 ➔
- 30- Fabric group 30
- 35- Fabric group 35
- 40- Fabric group 40
- 45- Fabric group 45

Upholstered panels may be ordered in a combination of fabrics. List price is the average of the two fabric grades.

For combinations of fabrics list both suffixes (e.g., 20/40) and upholstery pattern numbers.

Application Notes

Top caps/raceway covers are specified as separate kits, and are bulk shipped to facilitate installation.

Non-powered panel raceways accommodate 96 or more 4-pair unshielded twisted pair cables (Category 5, 5E or 6). Powered panel raceways accommodate up to 48 4-pair cables. Power components are ordered separately and field-installed.

High performance panel acoustical ratings:
NRC .80, STC 24

Upholstered panels may be specified to achieve ASTM E-84 Class "A" flamespread rating.

Panel Planning

Order Code

Example:	MP2-8030-V-8
MP2	Panel
80	Height
30	Width
V	Veneer both sides
8	Veneer finish

Specification Information

For veneer panels specify:

Veneer finishes

Top caps/raceway covers are specified as separate kits, and are bulk shipped to facilitate installation.

Application Notes

Non-powered panel raceways accommodate 96 or more 4-pair unshielded twisted pair cables (Category 5, 5E or 6). Powered panel raceways accommodate up to 48 4-pair cables. Power components are ordered separately and field-installed.

Veneer Group 1 vertical panels are quartered Techgrain®.

Veneer Group 2 vertical panels are rift cut Techgrain®.

Veneer Group 3 vertical panels are narrow heart, flat cut natural veneers.

60"W panels are not available with veneer surfaces

Order Code

Example: **MP2-3918-P-15-W210/20**

MP2	Panel
39	Height
18	Width
P	Ported panel
15	Fabric group
W210/20	Upholstery

Specification Information

Surface type/finish suffixes
Upholstered panels:

For upholstered panels, specify upholstery pattern number after the fabric group number.

10-	Fabric group 10
15-	Fabric group 15
20-	Fabric group 20
30-	Fabric group 30
35-	Fabric group 35
40-	Fabric group 40
45-	Fabric group 45

Ported panels are upholstered both sides and may be upholstered with textiles approved for application on Reff panels only.
For combination of fabrics list both suffixes and upholstery pattern numbers. List price is the average of the two fabric grades.

Application Notes

Top caps/raceway covers are specified as separate kits, and are bulk shipped to facilitate installation.

Vertical duplexes, power and data ports and connectors are specified separately.

MP2	Panel
64	Height
36	Width
M	Markerboard
15	Fabric group
W210/2	Upholstery

Specification Information

When specifying combination panels, follow panel size with markerboard code, then the upholstery finish code and pattern number.

Surface type/finish suffixes:

M-	Markerboard surface
10-	Fabric group 10
15-	Fabric group 15
20-	Fabric group 20
30-	Fabric group 30
35-	Fabric group 35
40-	Fabric group 40
45-	Fabric group 45

Application Notes

Top caps/raceway covers are specified as separate kits, and are bulk packed to facilitate installation.

Non-powered panel raceways accommodate 96 or more 4-pair unshielded twisted pair cables (Category 5, 5E or 6). Powered panel raceways accommodate up to 48 4-pair cables. Power components are ordered separately and field-installed.

Markerboard surface is non-metallic.

M	Morrison
RD	Rolling door
64	Height
36	Width
L	Left
C	Door finish
613	Frame finish
N	No lock

Specification Information

Specify:

Left / Right Hand

Glazing for rolling door:

C- Clear tempered glass
 T- Translucent acrylic
 RC- Ribbed polycarbonate

Frame finish

Lock / No Lock

Rolling doors mount to the outside of Morrison workstations.

Application Notes

64"H rolling door kit includes door panel, post with mounting bracket, and door jamb (for door side opposite to mounting bracket). Specify post high-low top cap (see page) for Morrison panel adjacent to the door jamb.

80"H rolling door kit includes door panel, post with mounting bracket, door jamb (for door side opposite to mounting bracket), header, top cap for header and two corner brackets. Top caps for panels adjacent to 80" rolling doors must be modified in the field. Header for 80" door mounts with two corner brackets.

Specify separately straight connector tracks to connect door post and door jamb to adjacent panels.

Rolling door post with mounting bracket must attach to a Morrison panel, or panel run, of width equal or greater than the nominal width of the door. When fully open, the door will extend 1 3/16" (half the width of a universal post) beyond a panel of corresponding width.

Door jamb may be attached to a Morrison panel or to a universal post. When attaching to a post, specify separately dedicated vertical trims for 90° 2-way L or 3-way T connections.

Masts for doors combine with panel stiffeners for 80" doors to mount stackable add-up panels over Morrison doors.

Application Notes

Specify separately two straight connector tracks to connect door to adjacent panels or posts. When attaching to a post, specify separately dedicated vertical trims for 90° 2-way L or 3-way T connections.

Hinged door with no lock is a solid panel. It is not drilled for lock assembly. Lock and handle must be field drilled and installed.

Masts for doors combine with panel stiffeners for 80" doors to mount stackable add-up panels over Morrison doors.

Application Notes

Windows mount on any height Morrison vertical panel of the same width with add-on connectors or full height connectors.

All windows are 1/4" less than nominal height to allow for a 1/4" horizontal reveal with light seal.

9"H windows may be mounted on 30"H and 39"H vertical panels and connected, respectively, with standard 39"H and 48"H connector tracks and post assemblies.

16"H windows may be mounted on 48"H and 64"H vertical panels and connected, respectively, with standard 64"H and 80"H connector tracks and post assemblies.

18"H windows may be mounted on 30"H and 56"H vertical panels and connected, respectively, with standard 48"H and 74"H connector tracks and post assemblies.

22"H windows may be mounted on 42"H vertical panels and connected with standard 64"H connector tracks and post assemblies.

32"H windows may be mounted on 48"H vertical panels and connected with standard 80"H connector tracks and post assemblies.

Full height 48" and 64" connectors permit cantilevered shelves and overhead cabinets.

Two 16"H windows may be mounted on a 48"H upholstered panel only when using 80"H full height connector tracks and post assemblies.

Order Code

Example: **MP3-A2230-T-15-W210/20**

MP3	Panel
A	Add-on
22	Height
30	Width
T	Veneer finish
15	Fabric group
W210/20	Upholstery

Specification Information

Surface type/finish suffixes:

When specifying combination panels, follow panel size with veneer finish code, the upholstery finish code and pattern number. For upholstered panels, specify upholstery pattern number after the fabric group number.

- 10- Fabric group 10
- 15- Fabric group 15
- 20- Fabric group 20
- 30- Fabric group 30
- 35- Fabric group 35
- 40- Fabric group 40
- 45- Fabric group 45

To order veneer on both sides, follow panel size with suffix V- and veneer finish code.
Example: MP3-A2230-V-T.

Application Notes

Add-on panels mount on any height Morrison vertical panel of the same width with add-on connectors or full height connectors.

All add-on panels are 1/4" less than nominal height to allow for a 1/4" horizontal reveal with light seal.

16"H add-on panels may be mounted on 48"H and 74"H vertical panels and connected, respectively, with standard 64"H and 80" connector tracks and post assemblies.

18"H add-on panels may be mounted on 30"H and 56"H vertical panels and connected, respectively, with standard 48"H and 74" connector tracks and post assemblies.

22"H add-on panels may be mounted on 42"H vertical panels and connected with standard 64"H connector tracks and post assemblies.

32"H add-on panels may be mounted on 48"H vertical panels and connected with standard 80"H connector tracks and post assemblies.

Full height 48" and 64" connectors permit cantilevered shelves and overhead cabinets.

Veneer Group 1 add-on panels are quartered Techgrain®.

15-	Fabric group 15 →
20-	Fabric group 20 →
30-	Fabric group 30
35-	Fabric group 35
40-	Fabric group 40
45-	Fabric group 45

Application Notes

Post assembly pricing includes connector tracks, posts, and trim covers when required. Top caps/raceway covers are specified as separate kits and bulk shipped to facilitate installation.

Add-on connectors include brackets to add panels or windows to the top of any Morrison vertical panel except glazed panels.

Add-on connectors must be specified in the same height as the add-on panel or window.

Add-on connectors do not support cantilevered shelves or overhead cabinets. For these applications, specify full height connectors.

Add-on end post should be specified when add-on panels end over L or T post.

2-way straight post should be specified when add-on panels connect in a straight line over an X or T post.

Add-on connectors, post assemblies non-upholstered

Order Code

Example:	MC1-64V2-613-613
MC1	Connector
64	Height
V2	120° 2-way "V"
613	Outside trim finish
613	Inside trim finish

Specification Information

Assembly:
V2- 120° 2-way
Y3- 120° 3-way

Outside and inside trim paint finish.

Veneer trim finishes are not available on 120° post assemblies.

Application Notes

Post assembly pricing includes connector tracks, posts and trim covers when required.

2-way "V" post assemblies include one outside trim and one inside trim, painted.

3-way "Y" post assemblies include three inside trims, painted.

Top caps and raceway covers are specified separately.

Panel Planning

Order Code

Example: **M2-5040-613-15-W210/20**

M2	Connector
5040	Configuration
613	Top cap finish
15	Surface type and group no.
W210/20	Upholstery

Products indicated with ➔ are available on KnollNow.

Specification Information

First finish suffix is for top cap, second is surface type.

Surface type:

10-	Fabric group 10	➔
15-	Fabric group 15	➔
20-	Fabric group 20	➔
30-	Fabric group 30	
35-	Fabric group 35	
40-	Fabric group 40	
45-	Fabric group 45	

For a high-low configuration with wood top caps, change pattern number prefix to M3. For V3 finishes, add \$60 to the price listed above.

Specify finish for top cap as shown (included in high-low post assemblies).

Application Notes

High-low connectors are used to join panels of two heights in a straight line. Assemblies come complete with connector track, hardware and trim as required.

Order dedicated high-low top caps separately for the lower panel in a straight high-low configuration.

All high-low pattern numbers contain a logical four digit code to accommodate the range of high-low connections in which 30," is 3, 39" is 9, 42" is 4, 48" is 8, 56" is 5, 64" is 6, and 80" is 1. To specify a straight high-low connection between a 54" panel and a 42" panel:

1. Start with the highest panel, 56" = "5".
2. Proceed either clockwise or counter-clockwise; hold this digit with a "0".
3. Denote the next highest panel, 42" = "4".
4. Hold the next place with a "0".

The correct code is M2-5040.

		2 1/4"	–	80"	M2-1080 -()-()	152.	228.	236.	283.

Order Code

Example: **M2-5040-613-V-T**

M2	Connector
5040	Configuration
613	Top cap finish
V	Surface type
T	Veneer

Products indicated with ➔ are available on KnollNow.

Specification Information

First finish suffix is for top cap, second is surface type.

When ordering non-upholstered trims, surface type must match top cap type.

Non-upholstered surface type:

() Painted (finish code)
 V() Veneer (finish code)

For a high-low configuration with wood top caps, change pattern number prefix to M3. Painted high-low connectors are not available with wood top caps. For V3 finishes, add \$60 to the price listed above.

Specify finish for top cap as shown (included in high-low post assemblies).

Application Notes

High-low connectors are used to join panels of two heights in a straight line. Assemblies come complete with connector track, hardware and trim as required.

Order dedicated high-low top caps separately for the lower panel in a straight high-low configuration.

All high-low pattern numbers contain a logical four digit code to accommodate the range of high-low connections in which 30" is 3, 39" is 9, 42" is 4, 48" is 8, 56" is 5, 64" is 6, and 80" is 1. To specify a straight high-low connection between a 54" panel and a 42" panel:

1. Start with the highest panel, 56"="5".
2. Proceed either clockwise or counter-clockwise; hold this digit with a "0".
3. Denote the next highest panel, 42"="4".
4. Hold the next place with a "0".

The correct code is M2-5040.

Specification Information
All high-low pattern numbers contain a logical four digit code in which 30" is 3, 39" is 9, 42" is 4, 48" is 8, 56" is 5, 64" is 6, and 80" is 1.
*Indicate height of lower panels replace * with one of the following:
3 30"H
9 39"H
4 42"H ➔
8 48"H ➔
5 56"H ➔
6 64"H
1 80"H
The following high-low connections are available as standard product:
panel connection to ht.
39" 30"
48" 42", 39", 30"
56" 48", 42", 30"
64" 56", 48", 42", 30"
80" 64", 48"

For all other connections, please contact your Custom Product Development representative.

Application Notes
First suffix is for top cap finish (integral color or P2), second is for raceway cover finish. Final suffix is for trim covers surface type. <i>Surface type:</i>
10- Fabric group 10 ➔
15- Fabric group 15 ➔
20- Fabric group 20 ➔
30- Fabric group 30
35- Fabric group 35
40- Fabric group 40
45- Fabric group 45
Fabrics Groups can be found on page 4.
<i>Specify finish for top cap and cover.</i>
For a high-low configuration with wood top caps, change pattern number prefix to M3. For V3 finishes, add \$60 to the price listed above.

Application Notes
High-low post assemblies are used to join panels of two heights in a T configuration. Assemblies come complete with post, hardware, and trim as required.
Order dedicated high-low top caps separately for the lower panels in a T-configuration.
To specify a 90° 3-way high-low connection of 42" panels with a 56" panel between:
1. Start with the highest panel, 56"="5".
2. Proceed either clockwise or counter-clockwise to the next highest panel, 42"="4".
3. Hold the next digit with a "0".
4. Continue in the same direction to the last panel, 42"="4".
The correct code is M2-5404.

Specification Information
All high-low pattern numbers contain a logical four digit code in which 30" is 3, 39" is 9, 42" is 4, 48" is 8, 56" is 5, 64" is 6, and 80" is 1.
* Indicate height of lower panels replace * with one of the following:
3 30"H
9 39"H
4 42"H ➔
8 48"H ➔
5 56"H ➔
6 64"H
1 80"H
The following high-low connections are available as standard product:
panel connection to
39" 30"
48" 42", 39", 30"
56" 48", 42", 30"
64" 56", 48", 42", 30"
80" 64", 48"

For all other connections, please contact your Custom Product Development representative. First suffix is for top cap finish, second is for raceway cover finish. Raceway covers will always be matched with the metallic finish corresponding to top cap finish. Final suffix is for trim covers surface type. When ordering non-upholstered trims, surface type must match top cap type.

Surface type:

- 10- Fabric group 10 ➔
- 15- Fabric group 15 ➔
- 20- Fabric group 20 ➔
- 30- Fabric group 30
- 35- Fabric group 35
- 40- Fabric group 40
- 45- Fabric group 45

For a high-low configuration with wood top caps, change pattern number prefix to M3. For V3 finishes, add \$60 to the price listed above.

Application Notes

High-low post assemblies are used to join panels of two heights in an X configuration. Assemblies come complete with post, hardware, and trim as required.

Order dedicated high-low top caps separately for the lower panel in an X configuration.

To specify a 90° 4-way high-low connection of a 56" panel and three 42" panels:

1. Start with the highest panel, 56"="5".
2. Proceed either clockwise or counter-clockwise to the next highest panel, 42"="4".
3. Continue in the same direction to the next panel, 42"="4".
4. Continue in the same direction to the last panel, 42"="4".

The correct code is M2-5444.

Panel Planning

Order Code

Example:	MM1-WS56-613
MM1	Morrison accessory
WS	Wall starter
56	Height
613	Finish

Products indicated with → are available on KnollNow.

Specification Information

Specify painted finishes for wall starter.

Application Notes

Wall starters connect a panel run perpendicular to a fixed wall. Wall starter includes connector track, wall mount bracket, and painted end top cap.

For wood top caps, order wood end trim top cap (MT5-CE1) separately.

Panel accessories accessories

Morrison

description	type	w	d	h	pattern no.	list price
Panel stiffeners 	Corner	-	-	-	MM1-PSL2	\$35.
	Straight	-	-	-	MM1-PSS1	18.
Stabilizer foot 		2"	13"	14"	MM1-SF()	216.
Carpet grips (10) 					MM2-CG	16.

Order Code

Example: MM1-PSS1	
MM1	Morrison accessory
PSS1	Panel stiffener

Specification Information

Specify paint finish for stabilizer foot.

Applicatin Notes

Panel stiffeners add rigidity to straight or corner connections, and should be used with glazed panels. Bracket is concealed under top caps.

Stabilizer foot attaches to connector track to stabilize panel runs.

Carpet grips snap onto panel glides to prevent panel runs from shifting on carpet. Glide rotates in carpet grip to permit leveling

Trim covers for reconfiguration upholstered

H	Highway
42	Width

Specification Information

Highway for panels is black anodized aluminum with black vinyl flaps. Highway connectors are black color-integral molded plastic.

Highway snaps onto top of vertical panel to provide accessible horizontal cable channel on each side of panel.

Highway may be planned on all same-height panels in a cluster or only on center spine panels.

Highway accepts standard top caps.

Highway capacity is approximately thirty-two Category 5 4-pair UTP cables (3/16" dia. or equivalent), or sixteen each side.

Highways for high-low panels are sized for the lower panel in straight high-low configurations.

Application Notes

When Highway is planned only on the center spine of a cluster specify straight post Highway connectors at T and X connections; specify Highway end post connector at corner or T at end of spine. Specify straight post or end post top caps separately (see page 0). for all L, T and X connections.

Highway connectors permit continuous lay-in cabling at all post connections. For full cable enclosure over L or T connections specify top cap raceway connectors (page 76).

36 Width

Specification Information

End and top trims are trim grey integral finish.
Specify painted finish for raceway cover.

Application Notes

Currents-style trim covers found on this page may be retrofitted to new and existing Morrison panels.

When using Currents top trims, Currents for Morrison end correctors or end trims must also be used.

Top trim corresponds in width to Morrison panels.

Top cap for post assemblies can be retrofitted to Morrison post assemblies.

End connector includes top cap and connector track.

End trim may be specified instead of an end connector if cantilever capability is not required. End trim includes top cap.

Raceway cover encloses end of Morrison panel raceway under Currents end trim.

Example: MT5-HLC36-612
MT5 Top cap kit
HLC Type
36 Panel width
612 Paint finish

Products indicated with ➔ are available on KnollNow.

Specification Information

Specify finish for top cap and raceway covers.

Application Notes

For panels used in high-low configurations, order standard top cap/raceway cover kits on previous pages. Then order one dedicated width top cap for each of the lower panels in the high-low configuration. Install the standard raceway covers, but replace the standard top cap with the high-low top cap. Save the standard top cap for future reconfiguration.

High-low top caps for straight configurations are used only with high-low straight connectors. High-low top caps for post configurations are used with all corner, T, or X high-low post assemblies.

Top caps are painted, Techgrain® or natural veneer.

Order Code	Specification Information
Example: MT5-PDC-48612	
M Morrison	
T5 Top cap	
PDC PDC raceway	
48 Width	
612 Finish	

Specification Information

Specify paint finish.

Application Notes

Specify PDC covers when planning voice/data outlets in a powered panel. PDC covers provide one protected opening for PDC modules 6" from each end of panel, in addition to standard power outlet openings.

Specify multiple power outlet covers in addition to standard panel top cap/raceway cover kits, when planning more than two duplex outlets on a panel face.

Multiple outlet covers have openings for four duplex outlets.

Power, data and communications outlets covers cannot be used with Morrison panels produced prior to 1995; specify standard powered or multiple outlet covers and plan data/communications outlets in pass-through or non-powered panels.

For Chicago code PDC covers, refer to page 102.

Application Notes	
Stackable add-up panels provide adaptable privacy on Morrison panels.	Top and edge trim are Currents trim grey.
First up panels include top trim, edge trim in Currents trim grey and bayonet supports that bolt on to top of a Morrison panel.	Markerboard surface is non-metallic.
Next up panels include intermediate masts that engage into the sides of first up (or next up) panels of corresponding width. All stackable add-up panels may be removed without tools.	
Currents for Morrison end connector or end trim (page 77) must be specified when stacking over a Morrison panel in end condition.

Specification Information

Morrison 2 + 2™ Raceway is a four-circuit, eight-wire modular power distribution system, for use in Morrison panels and Network desk supports. 2 + 2™ Raceway components distribute two 20-amp convenience circuits (A and B), with neutral and ground, and two protected 20-amp circuits (X and Y) with separate neutral and ground.

Application Notes

Power rails are the primary power distribution component of the Morrison 2 + 2 Raceway. Each rail provides outlet mounting positions on both sides, and receptacles for two branching power connectors at each end. Center supports permit lay-in cabling from either side of the raceway, shielded from power conductors and outlets by grounded steel barriers.

Rail for 24" wide panel accepts one duplex outlet or power infeed centered on each side. Rails for 30" and wider panels accept two outlets (or one outlet and one infeed) each side, 12" from either end of the panel. Multiple outlet power rails accept up to four duplex outlets each side.

Power rail for vertical raceway accepts up to four duplex outlets each side, two above and two below standard worksurface height. Power rail for vertical raceway includes power connector from adjacent powered panel base.

Specification Information

Morrison 2 + 2™ Raceway is a four-circuit, eight-wire modular power distribution system, for use in Morrison panels and Network desk supports. 2 + 2™ Raceway components distribute two 20-amp convenience circuits (A and B), with neutral and ground, and two protected 20-amp circuits (X and Y) with separate neutral and ground.

Power connectors are enclosed in steel flexible conduit.

Application Notes

Jumpers connect rails on either side of a panel or panels without outlets. Extended jumpers for panels less than 60" wide (suffix -P) transmit power through an adjacent L, T or X post connection. Jumpers for wider panel runs accommodate an intermediate post connection.

Also specify extended jumper when connecting between vertical raceway power rail and a panel base power rail on either side of a panel or panels without outlets.

Power connectors transmit power between adjacent powered panels. Specify straight power connector for straight connections, and post power connector for L, T or X post connections.

Specification Information

Morrison 2 +2™ Raceway is a four-circuit, eight-wire modular power distribution system, for use in Morrison panels and Network desk supports. 2 + 2™ Raceway components distribute two 20-amp convenience circuits (A and B), with neutral and ground, and two protected 20-amp circuits (X and Y) with separate neutral and ground.

Duplex outlet circuits are designated by white letters on black background.

Application Notes

Desktop power module is power component for desktop power monument or overhead support stanchion. Power module includes two duplex outlets and power connector.

Grommet outlet module stands in any Morrison (not Options) worksurface grommet for convenient access. Grommet outlet module accepts only special duplexes (MR1-DA or MR1-DB) on circuits A or B.

Contact protectors enclose open conductors on power rail wherever outlets or power connectors are not planned.

Wire manager clips are included with Morrison worksurfaces with grommets.

High capacity wire manager fastens at any panel connection. Hinged flap contains 1" x 3" data/communications cables.

description	type	w	d	h	pattern no.	list price
PDC terminator 		4"	2"	3"	MA1-PDC-T	\$40.
Terminator adapter for ATT outlets		4"	2"	3"	MA1-TATT2	23.
		4"	2"	3"	MA1-TATT3	23.

Order Code	Specification Information	Application Notes
Example: MA1-PDC-T	Terminator is textured black plastic.	Terminator is two-part molded plastic housing for data and communications outlets. Terminator protects outlets and improves access to connections. Terminator adheres to raceway over PDC outlet opening or subway.
MA1 Morrison Access		
PDC Application		
T Terminator		
		Separate outlet components fit only the Terminator, which includes a faceplate with two outlet openings. Other outlet combinations are available on special request.

Specification Information

Specify finish for top cap and raceway cover.

Application Notes

For combinations of wood top caps with hardwire raceway covers, insert top cap finish before raceway cover finish.

Hardwire raceway components are approved for use in City of Chicago installations.

Receptacles kits and hardwire covers accommodate standard Decora-type architectural duplex outlets on one or both sides, 12" from each end of panel.

Hardwire outlet openings are in the same position as 2+2 modular raceway outlets. Top cap and raceway cover kits for hardwire raceway include two screws to enclose cable tray as code-approved electrical box.

Specification Information

Grommets/no grommets:
 A- Worksurfaces include 3" grommet in each back corner leading into desk support or wire manager.
 B- Worksurface does not include grommets.
 Specify surface finish
 All worksurfaces are U.L.-listed.

Application Notes

24"D worksurfaces are used interchangeably as shallow main surfaces, extensions or credenza tops. They must be supported at each end by a pedestal, end panel, end support cantilever or cantilever bridging bracket with a maximum span of 60" between supports.

All worksurfaces have threaded metal inserts at all end panel, desk support and bracket locations and pilot holes at pedestal locations.

Use 18"D pedestals with 24"D worksurfaces for full wire management capability in desk or panel applications.

All straight worksurfaces are ³/₈" less than nominal depth for rear wire clearance or privacy screens.

Plastic laminate worksurfaces are post-formed top and bottom, front and back.

Veneer Group 1 worksurfaces are quartered Techgrain®.

Veneer Group 2 worksurfaces are rift cut Techgrain®.

Veneer Group 3 worksurfaces are narrow heart, flat cut natural veneers.

Worksurfaces with grommets are bored to accept and are shipped with wire manager clips.

Panel supported worksurfaces over 60" must be mid-span supported by MB2-C18 bracket, specified separately.

B	No grommet
117	Surface finish

Products indicated with ➔ are available on KnollNow.

Specification Information

Grommets/no grommets:
B- worksurface does not include grommets.

Specify surface finish.

1 1/4" worksurfaces are 3-ply, solid core construction with threaded metal inserts at all end panel, desk support and bracket locations and pilot holes at pedestal locations.

Plastic laminate worksurfaces have radiused T mold edge.

All worksurfaces are U.L.-listed.

Application Notes

Half-round and extended half-round are used with back-to-back 24"D straight or VDT corner worksurfaces. Half round with vertical panel attaches to 24"D straight or VDT corner worksurfaces supported by vertical panel.

Conference worksurfaces must be supported by support column and flat bracket or bridging bracket to adjacent worksurface.

Specification Information

S-	24"D side edge
D-	30"D side edge
	Specify surface finish.
	1 1/4" curvilinear surfaces are solid core construction with threaded metal inserts at desk support and all bracket locations.
	All worksurfaces are U.L.-listed.
	All P-shape worksurfaces have 2 grommets at 48" end for use with 48" desk and overhead supports.

Application Notes

P-shape curvilinear worksurfaces may be used interchangeably in desk and panel system applications. They may be supported by a 48" VDT support bracket kit, or 48" desk support and 6" end panel, in conjunction with rounded end support column. Use flat bracket or bridging bracket to join to adjacent 1 1/4" work surface.

P-shape laminate surfaces have continuous T-mold edge in profile to match adjacent 1 1/4" worksurfaces.

Veneer Group 1 worksurfaces are quartered Techgrain®.

Veneer Group 2 worksurfaces are rift cut Techgrain®.

Veneer Group 3 worksurfaces are narrow heart, flat cut natural veneers.

A Grommets
R Right hand
L Laminate
117 Surface finish

Specification Information

Width dimension (w) refers to width of both back edges.

Specify surface finish.

1 1/4" worksurfaces are solid core construction with threaded metal inserts at desk supports and all standard bracket locations.

Grommets/no grommets:

A- worksurface includes 2 grommets in 2 back corners, creating Left- and Right-hand applications (see illustration).

B- worksurface does not include grommets. Worksurfaces with no grommets are not handed.

Application Notes

Worksurfaces are 3/8" less than nominal depth for rear wire clearance or privacy screens.

120° worksurfaces with 90° returns are used mainly in panel system applications. They can be supported at each end with 24" end support brackets, 24" cantilever bracket, 24"W end panel, 18"D and 24"D pedestal or end panel in conjunction with desk supports.

120° corner is supported by a standard (90°) 24"D cantilever bracket.

Use cantilever bridging brackets to join to adjacent worksurface or to transitional 120° worksurface.

Transitional worksurfaces connect two 120° corner tops with 90° returns.

Veneer Group 1 worksurfaces are quartered Techgrain®.

Veneer Group 2 worksurfaces are rift cut Techgrain®.

Veneer Group 3 worksurfaces are narrow heart, flat cut natural veneers.

Worksurface Planning

Order Code

Example:	LU1-T48B-R-117
LU1	Worksurface, 1 1/4" thick
T	Trapezoidal
48	Width
B	No grommets
R	Right hand
117	Surface finish

Specification Information

Grommets/ no grommets
 A- worksurface includes one edge grommet
 B- worksurface does not include grommets

Specify surface finish.

Edge grommets are centered at rear of worksurface. Right-and-Left and are defined by applying trapezoidal tops as returns from rectilinear worksurfaces.
 R- Right hand
 30" D Right, 24" D Left edge
 L- Left hand
 24" D Right, 30" D Left edge

Veneer Group 1 worksurfaces are rift cut Techgrain.
 Veneer Group 2 worksurfaces are quartered Techgrain.
 Veneer Group 3 worksurfaces are narrow heart, flat cut natural veneers.

Application Notes

1 1/4" Options worksurfaces are 3-ply solid core construction with pilot holes at all pedestal, end panel and bracket locations.

Trapezoidal worksurfaces must be supported at each end by a pedestal, cantilever or cantilever bridging bracket with a maximum span of 48" between supports. Panel-supported worksurfaces over 48" must be mid-span supported by MB2-C18 brackets, specified separately.

Options worksurfaces cannot be used in conjunction with Network desk supports.

All worksurfaces are 3/8" less than nominal depth for rear wire clearance or privacy screens.

Morrison Options worksurfaces, 1 1/4"

LU1	Worksurface, 1 1/4" thick
V	VDT corner
48	Width
30	Depth of return
A	Corner grommet
117	Specify finish

Products indicated with ➔ are available on KnollNow.

Specification Information

Grommet/no grommet:
 A- VDT corner includes one edge grommet in back corner. Straight split top has one center back edge grommet.
 Specify surface finish.
 1 1/4" Options worksurfaces are solid core construction with pilot holes at all bracket locations.

Application Notes

VDT corners and split top straight surfaces are used in panel system applications. Options VDT corners may be supported by left or right hand 24" cantilever brackets at the rear corner, and cantilever bridging bracket on each side edge (see page 157).

Options straight split top should be supported by 18"D cantilever bracket.

Options worksurfaces cannot be used in conjunction with Morrison Network desk supports.

36"W x 18"D VDT corners accept 18"D returns, 36", 42", and 48"W x 24"D VDT corners accept 24"D returns, 42" and 48"W x 30"D VDT corners accept 30"D returns.

VDT corners are 3/8" less than nominal depth for rear wire clearance.

Split top corners have counterbalanced adjustable keyboard/mouse surface with fingertip control. Front surface adjusts from 5" below to 7" above back surface, and adjusts in tilt from -10° to +10°.

R	Rounded end
63	Width
30	Depth
B	No grommets
117	Surface finish
L	Left hand

Products indicated with → are available on KnollNow.

Specification Information

Grommets/no grommets:
B- worksurface does not include grommets.

Specify surface finish.

1 1/4" worksurfaces are 3-ply, solid core construction. Plastic laminate worksurfaces have radiused T mold edge.
Rounded end worksurfaces have a flat self-edge in the straight end.

Application Notes

Rounded end worksurfaces may be supported by 30" end support brackets, 30" flat bracket or 30" conference end panel, and by a support column at the rounded end.

Suspended pedestals may not be used with 1 1/4" worksurfaces.
Conference worksurfaces must be supported by support column and flat bracket or bridging bracket to adjacent desk.

Half round with vertical panel attaches to 24"D straight or VDT corner worksurfaces supported by vertical panel.

Specification Information

Width dimensions (w) refers to width of both back edges.

Specify surface finish.

1 1/4" Options worksurfaces are solid core construction with pilot holes at standard support locations.

120° Options worksurfaces are available without grommets only.

Application Notes

Worksurfaces are 3/8" less than nominal depth for rear wire clearance.

120° Morrison Options worksurfaces with 90° returns are used in panel system applications only. They can be supported at each end by 24" end support brackets, 24" cantilever bracket or 18"D and 24"D pedestals. 120° corner is supported by a standard (90°) 24"D cantilever bracket.

Use cantilever bridging brackets to join to adjacent worksurfaces or to transitional 120° worksurfaces. Use mid-span support whenever Options worksurfaces span more than 48".

Transitional worksurfaces connect two 120° corner tops with 90° returns.

120° Morrison Options worksurfaces with 120° returns are used in panel system applications only. They can be supported at each return end by 24" end support brackets, 24" cantilever bracket or 18"D and 24"D pedestals. 120° corner is supported by standard (90°) 24"D cantilever bracket.

Order brackets with wood screws for Morrison Options worksurfaces.

Veneer Group 1 worksurfaces are quartered Techgrain®.

Veneer Group 2 worksurfaces are rift cut Techgrain®.

Veneer Group 3 worksurfaces are narrow heart, flat cut natural veneers.

117 Surface finish

Width dimension (w) refers to width of the three back edges.

Specify surface finish. Available in laminate only.

Morrison Options Arc worksurfaces are solid core construction with 0.8 mm flat pvc edge on all sides.

Arc worksurfaces always come with scalloped grommet openings on all 48" edges.

Worksurfaces are 3/8" less than nominal depth for rear wire clearance.

120° Arc worksurfaces are used in panel system applications. They must be supported by cantilever brackets at each connector/post location.

AWM1 Worksurface

S Stiffener

48 Type

Application Notes

Currents worksurfaces for Morrison require stiffener when the span between structural supports exceeds 36". Specify worksurface stiffeners and supports separately.

When using Morrison end support brackets, order MB3-EC18, 24 or 30.

Currents worksurfaces for Morrison cannot be used in conjunction with Morrison Network desk supports.

For 90" application span, use two AWM1-S42 stiffeners.

For 96" application span, use two AWM1-S48 stiffeners.

Stiffener mounts 18" from front edge of worksurface and will interfere with mobile or floorstanding pedestals greater than 18" deep.

To accommodate a floorstanding pedestal greater than 18" deep at one end of worksurface, specify stiffener for 12" narrower worksurface. To accommodate two floorstanding pedestals or double-wide at one end of worksurface, specify stiffener for 24" narrower worksurface.

Example:	MCE1R4824N, 118
MCE1	Cascade edge worksurface
R	Rectangular
48	Width
24	Depth
N	No grommets
118	Surface finish

Specification Information

Specify:
Grommet / No grommet.
Replace the "N" suffix from the pattern number with "G". Add \$20.

Finish:

114	Folkstone Grey
117	Soft Grey
118	Bright White
119	Pumice

Application Notes

Cascade Edge worksurfaces are wrapped with a vinyl sheet heated and pressed around an MDF substrate. They are more susceptible to denting, impact, tearing and marring than conventional high pressure laminate and should be handled with care. Do not drag worksurfaces across any flooring surface during installation. Treat Cascade Edge worksurfaces like veneer worksurfaces and they will perform well under normal conditions. Cascade Edge worksurfaces have a 5 year warranty on defects in workmanship and materials. This warranty does not cover damage occurring during or after installation.

Cascade Edge are not drilled for wire management clips, pedestals or brackets.

Cascade Edge worksurfaces are for panel-based planning only and cannot be used in conjunction with Network desk supports.

Worksurfaces are 1/16" less than nominal width and 3/8" less than nominal depth for rear wire clearance.

Edge grommets are centered at rear edge of worksurface for maximum clearance of 1 1/8"

Worksurfaces require support every 48" in width. All supporting hardware is ordered separately.

Worksurfaces may be supported at each end by pedestals or end support "EC" brackets and cantilever brackets matching the worksurface depth.

Panel supported worksurfaces over 48" must be mid-span supported by cantilever brackets, specified separately.

Order Morrison brackets with wood screws (suffix-W).

Products indicated with ➔ are available on KnollNow.

Specification Information

Surface type:
P- Painted ➔
V- Veneer

Specify L/R left or right hand application for conference end panels. Desk height end panels support worksurface at 28 1/4" or 28 3/4". 7"W end panels are used to support 18"D worksurfaces.

23"W end panels are used to support 24"D or 30"D worksurfaces with recessed grommets.

29"W end panels are used to support 30"D or 36"D worksurfaces.

35"W end panels are used to support 36"D worksurfaces.

Application Notes

Veneer Group 1 end panels are quartered Techgrain®.

Veneer Group 2 end panels are figured Techgrain®.

Veneer Group 3 end panels are narrow heart, flat cut natural veneers.

Universal end panels may be used as end support for a worksurface, in conjunction with vertical panels (specify MB1-N separately) or knee-hole filler panels.

Universal panels are predrilled to accept brackets or filler panels either direction.

A universal end panel includes bracket MB1-T desk end panel/worksurface.

Conference end panels are used for table desks and similar applications where neither pedestals nor filler panels are used.

Conference end panels cannot be mounted under rounded end surfaces with end grommets.

A conference end panel includes brackets MB1-T, desk end panel/worksurface and MB1-D, conference end panel/worksurface.

Universal and conference end panels are not used in conjunction with desk supports (see page 161).

V- Veneer

Application Notes

VDT corner end panel widths: *Corresponding worksurface widths:*

34"	36"
40"	42"
35"	36"
41"	42"

VDT corner panels are wood desk panels ordered and shipped in pairs: one left and one right.

34"W VDT corner end panels support both sides of 36" VDT corner worksurfaces.

40"W VDT corner end panels support both sides of 42" VDT corner worksurfaces.

VDT corner end panels include 2 MB1-T brackets, VDT corner end panels/worksurface and bracket MB1-L1, filler/desk end panel.

VDT transitional end panels are used when one back edge of a VDT surface is supported by a vertical panel.

A VDT transitional end panel includes bracket MB1-T, desk end panel/ worksurface. Specify bracket MB1-W 18 or 20(L or R) separately.

Veneer Group 1 end panels are quartered Techgrain®.

Veneer Group 2 end panels are figured Techgrain®.

Veneer Group 3 end panels are narrow heart, flat cut natural veneers.

Order Code	Specification Information	Application Notes
Example: MB2-RS2426-R-612	Specify left or right end of return or bridge worksurface.	N-type desk end panel/vertical panel brackets ensure alignment and rigidity between worksurface, universal end panel or pedestal extender, and back panel.
MB2 Bracket	<i>Bracket type:</i>	R-type pedestal extender brackets close the gap between a pedestal and a vertical panel. Pedestal extender brackets can receive an MB1-N bracket to secure to a vertical panel, or a kneehole filler panel. Description indicates application by worksurface depth/pedestal depth/pedestal height.
R Pedestal extender	N- Desk end panel/vertical panel	FV-type filler panel/vertical panel brackets are used when a return or bridge filler panel is adjacent to a vertical panel end connector.
S Pedestal depth	RS- 18"D pedestal extender	Brackets with machine screws (suffix-M) are used with MW2- and MU1- worksurfaces.
24 Worksurface depth	RD- 24"D pedestal extender	Brackets with wood screws (suffix-W) are used with LU1- and AWM2- worksurfaces.
26 Bracket height	FV- Filler panel/vertical panel	
R Right-hand	W- Transitional filler/worksurface	
612 Paint finish	<i>Specify paint finish.</i>	
Products indicated with → are available on KnollNow.		W-type filler panel/worksurface brackets are used at the end of a transitional filler panel nearest to the vertical panel. The same bracket MB1-W20(-)(L/R) is used for both machine and desk height.

Worksurface Planning

Order Code

Example: MB1-T18W	
MB1	Bracket
T	Bracket type
18	Bracket height
W	Wood screws

Products indicated with ➔ are available on KnollNow.

Specification Information

Bracket type:

T-	Desk end panel/worksurface
D-	Conference end panel/worksurface
AUX-D-	Filler panel/worksurface
L1-	Filler panel/desk end panel

Application Notes

Brackets on this page are replacement parts for Morrison desk panels.

T-type bracket joins desk end panel to worksurface (included in all end panels).

D-type bracket provides additional stability for conference end panels (included in all conference end panels.)

L-bracket joins end panel to knee-hole or return filler (included with all filler panels).

AUX-D bracket is included in all filler panels greater than 60" wide.

Brackets with machine screws (suffix-M) are used with MW2- and MU1- worksurfaces.

Brackets with wood screws (suffix-W) are used with LU1- and AWM2- worksurfaces.

Order Code

Example:	MN2-D4848-612
MN2	Network component
D	Desk support
48	Width of desk
48	Width of return
612	Paint finish

Products indicated with ➔ are available on KnollNow.

Specification Information

Specify desk support the width of the worksurface to be supported.

Corner desk support is used under any combination of worksurfaces up to 72". Specify flat brackets separately.

Return support may be connected to straight desk support to form other 90° corner support combinations. Specify return support the sum of the width of the return and the depth of the desk (or width of VDT).

Desk spans wider than 60" require pedestal support at one end of the worksurface.

Specify painted finish.

Application Notes

Corner legs include two grommets (3" x 2 1/2") in back and side, for cable and power distribution to adjacent desk supports. All grommets have caps, 3 1/4" x 3 1/4". Two grommet sleeves to protect cables are also provided.

Desk supports enclose the back 6" of freestanding Morrison System desks, enabling full horizontal and vertical wire management, and giving the structural support necessary for desk mounted overhead storage.

Straight desk supports are specified the same width as the desk (or VDT + return). Return supports continue the wireway for L-shape desks, supporting the end of the desk and width of the return. 90° corner supports may be used to support desk-and-return or VDT-with-extensions.

Desk supports consist of nominal 6" x 6" corner legs and horizontal modesty/wireway channel 8"H x 1 1/2"D.

Straight desk supports include 2 legs and 1 channel; 90° corner supports include 3 legs and 2 channels. Return supports include 1 leg and 1 channel and connect to straight desk support to form 90° corner. All components are interchangeable and non-handed.

Worksurfaces are supported by desk supports in conjunction with end panels, pedestals or brackets linking to adjacent desks.

MN2- desk support corner legs and wireway channels are interchangeable with original MN1- desk supports.

Hardware kits for beam and leg components include metal inserts. Tops will be drilled for field installation.

Worksurface Planning

Order Code

Example: MN2-E24-612
MN2 Morrison Network
E End panel
24 Depth
612 Finish

Products indicated with ➔ are available on KnollNow.

Specification Information

Specify desk end and filler panels to correspond with desk depth and width. End panels are nominally 6" less deep than desk to accommodate desk support. Actual filler panels are 12" less wide than desk, to fit between desk support corner legs.

Return support adapter attaches to front edge of end panel. Specify return support in same nominal width as return worksurface.

Specify painted finishes for end panels, filler panels and accessories.

Application Notes

Desk end panels are used to support an end of a freestanding desk without pedestal support. Integral brackets permit application on left or right end of desk.

For desk planning applications with full end panel and desk support:

Use MN2-E12 with 18"D worksurface

Use MN2-E18 with 24"D worksurface

Use MN2-E24 with 30"D worksurface

For 24"D VDT desks with extensions, specify MN2-E06 end panel and single bridging bracket. For 30"D VDT, specify MN2-E12 end panel and single bridging bracket.

For support of one end of 24"D return with desk support adjacent to freestanding Interaction corner table, specify MN2-E09.

Desk end panels do not permit adjacent pedestal attachment.

Transitional support panel secures a return desk support to Morrison vertical panel connector track in integrated desk and panel planning.

Transitional panel also acts as a leg or pedestal extender to stabilize vertical panels supporting overhead storage.

Use MN2-RDR to stabilize each side of vertical panel at half-round conference worksurface.

Transitional panel includes one grommet.

Return support adapter is specified when adding a return worksurface to a desk with end panel. Adapter extends from end panel to return support. End panel wireway attaches to inside of end panel to link desk support wireway to return support.

Filler panels provide full enclosure for desk supports, filling the knee-hole space between corner legs. They are specified in addition to corresponding desk supports.

Worksurface Planning

Order Code	Specification Information	Application Notes
Example: MB1-SB24-L	Specify paint finish for transitional support panel and light seal.	F-type flat brackets join worksurfaces at the same height, in desk or panel system application.
MB1 Bracket	All other brackets are black.	For pedestal or end panel supported worksurface to half-round or teardrop, use flat brackets and support column.
SB Type	Specify single bridging bracket left or right handed (left for conference top on left when seated at worksurface).	SB bridging brackets are used to join desk supported worksurface to 1/2 round or teardrop, when worksurface is not pedestal supported. SB brackets may also be used with transitional support panel to join worksurface to teardrop or 1/2 round with vertical panel.
24 Worksurface size		For clear access kneespace at half-round with vertical panel, use transitional support panel, single bridging bracket, and support column.
L Left		Desk support light seal wraps around corner legs of adjacent desk supports, and provides additional lay-in cable.
Products indicated with → are available on KnollNow.		Worksurface stiffeners may be used to span distances over 48" without pedestal support. (Use one size smaller than worksurface width when supporting one end with a pedestal.) Specify the pattern number which corresponds to the width to be spanned, e.g. MB1-WS54 enables a 3-ply MU1 or LU1 worksurface to span 54".
		MB1-SB18(L/R) single bridging bracket supports freestanding split VDT with 24" returns; it should be used on each side in combination with 9" end panels MNZE09().
		DB bridging bracket is used to join adjacent desk supports and worksurfaces.

Products indicated with ➔ are available on KnollNow.

Specification Information

Morrison 2 + 2™ Raceway is a four-circuit, eight-wire modular power distribution system, for use in Morrison panels and Network desk supports. 2 + 2™ Raceway components distribute two 20-amp convenience circuits (A and B), with neutral and ground, and two protected 20-amp circuits (X and Y) with separate neutral and ground.

Application Notes

Power rails are the primary power distribution component of the Morrison 2 + 2 Raceway. Each rail provides outlet mounting positions and receptacles for branching power connectors at each end. End brackets permit lay-in cabling in the desk support trough.

Rails accept two outlets, 12" from either end of the desk. Multiple outlet rails for 48" - 78" desks accept 4 duplex outlets, 12" and 18" from either end of desk.

Specification Information

Morrison 2 + 2™ Raceway is a four-circuit, eight-wire modular power distribution system, for use in Morrison panels and Network desk supports. 2 + 2™ Raceway components distribute two 20-amp convenience circuits (A and B), with neutral and ground, and two protected 20-amp circuits (X and Y) with separate neutral and ground.

Application Notes

Power infeeds connect building power supply to a cluster of interconnected power rails. Desk support infeed snaps into the end of any desk power rail, and includes 6 foot liquid-tight conduit and pigtail for connection to floor or wall electrical box. Panel/desk connector transmits power between the end of a desk support rail and any panel base power rail outlet position.

Hardwire infeed, used in all New York City installations, includes junction box that mounts to the inside of a desk support corner leg. Electrical contractor supplies conduit from building power supply to box and trims power connector to length. Hardwire kit includes painted finish cover panel.

Duplex outlets are preconfigured to access one of the four circuits, A, B, X, Y, and snap into any standard outlet location (12" from either end of desk). Duplexes on circuits X and Y may be specified with orange face or black face with orange triangle to signify protected circuits for electronic equipment; all other duplexes are black.

Power connectors transmit power between adjacent powered desks. Crossover transmits power "diagonally" between non-adjacent desks in a cluster of 3 or 4 desk supports.

Jumpers connect rails on either side of a desk end panel or desk support without outlets.

Specification Information

Morrison 2 +2™ Raceway is a four-circuit, eight-wire modular power distribution system, for use in Morrison panels and Network desk supports. 2 + 2™ Raceway components distribute two 20-amp convenience circuits (A and B), with neutral and ground, and two protected 20-amp circuits (X and Y) with separate neutral and ground.

Application Notes

Power infeeds connect building power supply to a cluster of interconnected power rails. Desk support infeed snaps into the end of any desk power rail, and includes 6 foot liquid-tight conduit and pigtail for connection to floor or wall electrical box. Panel/desk connector transmits power between the end of a desk support rail and any panel base power rail outlet position.

Hardwire infeed, used in all New York City installations, includes junction box that mounts to the inside of a desk support corner leg. Electrical contractor supplies conduit from building power supply to box and trims power connector to length. Hardwire kit includes painted finish cover panel.

Products indicated with ➔ are available on KnollNow.

Specification Information

Specify finishes for case and front.
 All drawer pulls are matte black.
 All pedestals are equipped with locks. Order pedestal locks with a KnollKey order form.

Veneer Group 1 drawerfronts are quartered Techgrain®.
 Veneer Group 2 drawerfronts are figured Techgrain®.
 Veneer Group 3 drawerfronts are narrow heart, flat cut natural veneers.

Application Notes

18"D pedestals may be used under any Morrison worksurface. 24"D pedestals can be used under 30" and 36"D worksurfaces, without obstructing wire management through worksurface grommets.

24"D pedestals may also be installed under 24"D surfaces without grommets; 30"D pedestals may be used only under 30"D surfaces without grommets.

Pedestals are bolted into either end of any worksurface over 30"W. Insert locations and case construction permit use of pedestals as worksurface support, with or without universal desk end panels.

One box drawer divider is included with each 2 box, 1 file and 1 box, 1 file pedestal. Drawers accept up to 7 dividers, or 6 stationery insert trays.

All file drawers accommodate letter width filing front-to-back. 18"D file drawers accommodate legal files side-to-side. 24" and 30"D file drawer pedestals include one file support for legal filing, side-to-side.

Order file supports separately to equip other drawer in 24" or 30" deep 2 file.

Order Code

Example:	MM3-IS72R-612
MM3	Accessory
IS	Intermediate shelves
72	Width
R	Return
612	Paint finish

Specification Information

Specify paint finish.
Specify return shelves by number that corresponds to total return dimension (depth of desk and width of return).

Application Notes

Intermediate shelves provide an additional level of storage between the worksurface and standard overhead storage. Use full width intermediate shelves that correspond with actual workstation width.

Intermediate shelves include brackets for cantilever support from vertical panel connector tracks.

Intermediate shelves may be mounted on 1" increments of height up to 1" from top of panel. Recommended position is 6" - 7" above the worksurface.

Use full width shelves with back panels of the same total width. Add returns to form a continuous "L". Half-round endpiece joins back-to-back shelves over a half-round conference worksurface. Quarter round terminates an intermediate shelf at a straight panel connection.

Intermediate shelves cannot be mounted to freestanding desks or overhead supports.

H With holes

Products indicated with  are available on KnollNow.

Specification Information

Specify finish.
Specify suffix H for shelf holes that accept shelf organizers.

Veneer Group 1 shelves are quartered Techgrain®.
Veneer Group 2 shelves are rift cut Techgrain®.
Veneer Group 3 shelves are narrow heart, flat cut natural veneer.

Application Notes

Panel mounted shelves are cantilevered from vertical panel connector tracks with bookend or undershelf brackets. 1 1/4" shelves must be midspan supported every 48".

13"D shelves hold binders, books and other reference material. Order brackets and shelf organizers, if applicable, separately.

Bookend-style brackets keep material upright when vertical panels are not used at the ends of shelves (brackets are shipped in pairs.)

Standard 13" deep shelves double as flush counter surfaces. Specify undershelf brackets or desk-mount stanchions for this application.

For wall mounted shelves see page 187.

All shelves accept task lights. Adjacent bookend-style shelves require MB1-TC tie clip to secure full width task light.

Transaction shelf brackets support panel-mounted shelves without holes. Each set supports a maximum span of 48".

	Wire managers (set of 10)		-	-	-	ML2-WM	96.		

Order Code

Example: **ML3-TD48-612**

ML3	Lighting
T	Fixture type
D	With dimmer
48	Width
612	Paint finish

Products indicated with ➔ are available on KnollNow.

Specification Information

Specify paint finish. Insert suffix "D" for dimmer switch after the T or F in pattern number. Insert suffix "E" for electronic ballast after the fixture width in pattern number - e.g. ML3T36E().

No dimmer on fluorescent lamps with electronic ballasts.

For Chicago task lights, add CH to pattern number and \$45 list. ➔

For New York task lights, add NY to pattern number.

Application Notes

High efficiency lights include Octron lamp, 9' grounded cordset, batwing lens, rocker switch, and integral mounting brackets. Lens is tinted to distribute an average 60 foot candles over entire worksurface without glare.

Task lights include standard fluorescent cool white lamp, 9' grounded cordset, prismatic lens, rocker switch, and integral mounting brackets.

Task and high efficiency task lights may be mounted to any equal-width combination of shelves or overheads; not for use with Morrison Options.

Lights with dimmer include 3-position rocker switch.

Reuter overhead cabinets do not accept ML1-, ML2- or ML3- task or ambient lights.

Morrison Network lighting is UL listed. UL File E 102458/E 102459. Can be hardwired where required.

Cordsets on 30"-72" lights exit at center of fixture. Cordsets on 78"-90" task lights and all ambient lights exit the right side of the fixture, and may be changed to the left side in the field.

N	Network mounted
60	Width
612	Paint finish for case
612	Surface finish for door
N	Black pulls
N	No lock

Products indicated with → are available on KnollNow.

Specification Information

Specify finish for case and front.

Order overhead cabinet locks with a KnollKey order form.

Veneer Group 1 cabinet doors are quartered Techgrain®.

Veneer Group 2 cabinet doors are figured Techgrain®.

Veneer Group 3 cabinet doors are narrow heart, flat cut natural veneer.

Interior shelves have slots for vertical dividers. Order vertical dividers separately.

Desk mounted MO8 overheads align with 64"H panel and vertical storage.

Overhead cabinet door pulls are matte black.

Application Notes

Stanchion mounted overhead cabinets attach to overhead supports. Specify overhead backs separately for finished appearance in back-to-back or exposed applications.

Specify conversion kit MO7-SMB only if converting panel hung overheads to stanchion mounted.

Wall-mounting Morrison overhead cabinets: Use MO8-WMR to mount up to 120" of MO8 overheads. Specify one MO8-WMB for each overhead.

For Options overheads or Morrison or Options shelves, use MO6-WMSK to wall mount up to 9' of shelves or overheads. Kit includes wall mount rail and one vertical standard. Specify one additional MO6 WMSB for each shelf or overhead. Morrison shelves also require MB1-B13 shelf brackets.

Wall mount rails may be trimmed to length.

Specify conversion kit MO7-PMB only if converting stanchion mounted overheads to panel hung.

Wall mount wire manager is two-part wire concealment kit, 22"H.

Kit includes wall mount rail and one vertical standard. Specify one additional MO6 WMSB for each shelf or overhead. Morrison shelves also require MB1-B13 shelf brackets. Wall mount rails may be trimmed to length. Specify conversion kit MO7-PMB only if converting stanchion mounted overheads to panel hung. Wall mount wire manager is two-part wire concealment kit, 22"H.

Order Code

Example: MN2-S7217-612
MN2 Network
S Overhead support
72 Width
17 Height
612 Paint finish

Specification Information

Specify paint finish.

Application Notes

Overhead supports are bolted to desk supported worksurfaces with grommets. Overheads may span over end of worksurface and width of return worksurface if grommets and desk support legs align with stanchions.

Overhead supports include 2 stanchions with cover plates, mounting hardware, and full platform for overheads.

Overhead supports are pre-configured for the following combinations of overhead storage units:

Support Overhead

<i>width</i>	<i>storage</i>
30"	one 30"
36"	one 36"
42"	one 42"
48"	one 48"
54"	one 54"
60"	one 60" or two 30"
66"	one 30" and one 36"
72"	two 36"
78"	one 36" and one 42"

Stanchions may be equipped with desktop power module (page 169) and stanchion outlets cover (page 164).

Overhead supports are used only with Morrison overhead cabinets. For desk-mounted Reuter overheads, specify stanchions (page 199).

Order Code

<i>Example:</i> ML-1-NT24N
ML-1-NT High efficiency
24N 26" wide

Specification Information

Task lights with dimmer:

Insert suffix "D" after T or F in pattern number.

Task lights with electronic ballast:

Insert suffix "E" after the fixture width in pattern number – e.g., ML1-NT36EN.

For New York task lights, add -NY to pattern number.

For Chicago task lights, add suffix -CH to pattern number and add \$45. list.

Application Notes

Morrison Network task lights are mounted inside the horizontal beam of the overhead support.

High efficiency lights include Octron lamp, 8' cordset, batwing lens, rocker switch, and mounting hardware. Lens is tinted to distribute an average 60 foot candles over entire worksurface without glare.

Task lights include standard fluorescent cool white lamp, 8' grounded cordset, prismatic lens, rocker switch, and mounting hardware.

Lights with dimmer include 3-position rocker switch.

Task lights include hardware to mount in overhead supports of width greater than fixture.

Task light cord may be managed in either stanchion to desk support wireway.

Order Code

Example: **LL1-T36-N**

LL1	Lighting
T	High efficiency light
36	Case width
N	Black

Products indicated with ➔ are available on KnollNow.

Specification Information

All housings are black.

For dimmer, add suffix (D) after the T or F in the pattern number (e.g. LL1-TD48N).

Insert suffix "E" for electronic ballast after the fixture width in the pattern number – e.g. LL1-T36EN.

Add suffix (NY) for New York City installations.

For Chicago task lights, add CH to pattern number and \$45. to list. ➔

Application Notes

Task lights include standard fluorescent cool white lamp, 9' grounded cordset, prismatic lens, rocker switch, and mounting hardware. Options lights may be used only with Morrison Options overheads and shelves.

High efficiency lights include Octron * lamp, 9' grounded cordset, batwing lens, rocker switch, and mounting hardware. Lens is tinted to distribute an average 60 foot candles over entire worksurface without glare.

Task lights include standard fluorescent warm white lamp, 9' grounded cordset, prismatic lens, rocker switch, and mounting hardware. They are to be used only with Morrison Options overheads and shelves.

Lights with dimmer include 3-position rocker switch.

*LL1-T18N lights utilize pre-heat Octron-type lamp.

612	Finish

Products indicated with ➔ are available on KnollNow.

Specification Information

Specify paint finishes for shelf.

Application Notes

Interior partitions are black painted steel finish.

Reuter storage is a universal product applicable on Morrison or other Knoll systems.

Open shelves may be mounted on any combination of vertical panels the same width. Reuter open shelves may be Morrison Network desk-mounted, mounted on other Knoll systems, cantilevered above panels, or wall-mounted. Specify Reuter shelves with no mounting hardware, and brackets separately.

Vertical interior partitions may be positioned on 1 1/2" increments of width anywhere across shelf, 1 1/2" in from each side. Vertical partitions contain cutouts for mounting three horizontal partitions at 2" increments on either or both sides. Horizontals are suspended between two verticals, and may be positioned end-to-end in any combination up to 3" less than shelf width. Available in sets of 10; 6", 9", 12", 15" widths.

M	Front finish
L	With lock

Products indicated with ➔ are available on KnollNow.

Specification Information

First suffix is for case, second is door finish.
Specify finish for case and door:
 Interior partitions are black painted steel finish.

Application Notes

Reuter storage is a universal product applicable on Morrison or other Knoll systems. Overhead cabinets may be mounted on any combination of vertical panels the same width or up to 12" less than cabinet width. Cabinet door rotates above cabinet on side pivots, counterbalanced by two pneumatic cylinders. Two door cabinets have center divider and four pneumatic cylinders.

Reuter overheads may be mounted on other Knoll systems, cantilevered above 42" or 56" Morrison panels, or wall-mounted. Specify Reuter overheads on the next page and mounting options on page .

Vertical interior partitions may be positioned on 1 1/2" increments of width anywhere across shelf, 1 1/2" in from each side. Vertical partitions contain cutouts for mounting five horizontal partitions at 2" increments on either or both sides. Horizontals are suspended between two verticals, and may be positioned end-to-end in any combination up to 3" less than cabinet width. Available in sets of 10; 6", 9", 12", 15" widths.

Ganging bracket (page 200) joins adjacent overheads or shelves for additional stiffness and alignment.

Order locks for overheads with a KnollKey order form. Please note that Reuter overhead cabinets 60"W or wider require two lock cores.

Reuter overhead doors without locks include black, Knoll-logo insert, in the same position.

Insert may be removed to retrofit a lock later.

Example: RO3-M48-612-M-L	First suffix is for case, second is door finish. <i>Specify finish for case and door:</i> Interior partitions are black painted steel finish.	Reuter storage is a universal product applicable on Morrison or other Knoll systems. Overhead cabinets may be mounted on any combination of vertical panels the same width or up to 12" less than cabinet width. Cabinet door rotates above cabinet on side pivots, counterbalanced by two pneumatic cylinders. Two door cabinets have center divider and four pneumatic cylinders. Reuter overheads may be mounted on other Knoll systems, cantilevered above 42" or 56" Morrison panels, or wall-mounted. Specify Reuter overheads on the next page and mounting options on page . Vertical interior partitions may be positioned on 1 1/2" increments of width anywhere across shelf, 1 1/2" in from each side. Vertical partitions contain cutouts for mounting five horizontal partitions at 2" increments on either or both sides. Horizontals are suspended between two verticals, and may be positioned end-to-end in any combination up to 3" less than cabinet width. Available in sets of 10; 6", 9", 12", 15" widths.

Order Code

Example:	RO1-GB
RO1	Reuter overhead
GB	Ganging bracket

Products indicated with → are available on KnollNow.

Specification Information

Wall mount frames are painted black finish.
 ADA pull is stainless steel.

Application Notes

Wall mount frames secure Reuter overhead cabinet or shelf to wall (frame/wall mounting hardware is not included). Frame is concealed behind storage. Use two RO1-WMF2 to wall-mount 66"- and 72"-wide Reuter overheads.

Reuter open shelves 66" and 72"W are for stanchion support only.

Wall mount wire manager is two-part wire concealment kit, 22"H (medium grey only).

Ganging bracket joins adjacent Reuter overheads or shelves for additional stiffness and alignment when storage is planned on only one side of a panel run.

ADA pull mounts to Reuter painted front overhead door to allow seated users to close door easily. Specify one for each cabinet 24" - 48", two for cabinets 60" - 72".

ADA pull cannot be mounted on wood front Reuter doors.

Order Code	Specification Information	Application Notes
Example: MZ1-B6619-15-W210/2	<i>Surface type:</i>	Back of worksurface screens provide visual barrier and tackable surface from underside of worksurface to a height of 42", 46" or 49".
MZ1 Morrison Network privacy screen	10- Fabric group 10 ➔	Screen widths should correspond to straight worksurface width, or sum of VDT corner and return widths.
B Back of worksurface	15- Fabric group 15 ➔	Use back of worksurface screen for VDT applications where one side is backed by a vertical panel.
66 Width	20- Fabric group 20 ➔	VDT worksurfaces will accept back screens on only one back edge.
19 Height	30- Fabric group 30	Back screens may not be used at the end of a straight worksurface; use end screens in this application.
15 Surface type and group no.	35- Fabric group 35	Privacy screens are not available in a combination of fabrics.
W210/2 Upholstery	40- Fabric group 40	Back of worksurface screens are full dimension: two smaller screens may be substituted for a larger one. For example, if using fabric grades 20-70, specify two 36" screens for a 72" surface.
Products indicated with ➔ are available on KnollNow.	45- Fabric group 45	
	* Morrison Network screens may be used with Plannable Upstart tables. Refer to front of Upstart price book for planning information.	Between back-to-back straight or VDT worksurfaces specify a single 3/4" back screen. This allows back-to-back 23 3/8"D or 29 3/8"D worksurfaces to plan on a precise 6" module.
		15" high screens are used for a 42" horizon.
		19"H screens are used to fill in space between worksurface and Morrison overhead.
		22"H screens fill the space between worksurface and Reuter overhead.
		All but shared end screens start at the bottom of the worksurface.
		Privacy screens are supported by brackets fastened at worksurface inserts. Privacy screens include mounting brackets, insert kit, and stiffener clip.
		For replacement screen stiffeners see Accessories page.
		Privacy screens may be specified to achieve ASTM E-84 Class "A" flamespread rating.

VDT worksurfaces will not accept back screens on both back edges. Use VDT screens on at least one back edge.

VDT screens are not in pairs; specify one for each back edge or one VDT screen and one back screen.

Application Notes

Privacy screens are supported by brackets fastened to worksurface inserts. Privacy screens include mounting brackets, insert kit and stiffener clip.

15" high screens are used for a 42" horizon.

19"H screens are used to fill in space between worksurface and desk mounted Morrison Network overheads.

22"H screens fill the space between worksurface and desk mounted Reuter overheads.

Privacy screens may be specified to achieve ASTM E-84 Class "A" flamespread rating.

* Morrison Network screens may be used with Plannable Upstart tables. Refer to front of Upstart price book for planning information.

U-	For use with 1 1/4" thick worksurfaces

* Morrison Network screens may be used with Plannable Upstart tables. Refer to front of Upstart price book for planning information.

End screens must be used at the end of straight or rounded end worksurfaces.

End screens for outside application cover the end of the worksurface and align with adjacent back screens.

End screens for shared application begin above the worksurface to allow modular planning when straight worksurfaces are end-to-end.

When specifying end screens under 64"H panel mounted Morrison Network overheads with task lights, only screens to 42"H will fit.

With 64"H panel-mounted Reuter overheads any screen up to 49"H may be planned perpendicular to storage.

Application Notes

Privacy screens are supported by brackets fastened at worksurface inserts. Privacy screens include mounting brackets, insert kit and stiffener clip.

15" high screens are used for a 42" horizon.

19"H screens are used to fill in space between worksurface and desk mounted Morrison Network overheads.

22"H screens fill the space between worksurface and desk mounted Reuter overheads.

All but shared end screens start at the bottom of the worksurface.

Privacy screens may be specified to achieve ASTM E-84 Class "A" flamespread rating.

Products indicated with ➔ are available on KnollNow.

Specification Information

Specify paint finishes.

Coathooks engage below the top cap at any point on the vertical panel.

Pencil drawer secures underneath a worksurface.

Stabilizer foot attaches to connector track to stabilize panel runs.

Carpet grips snap under panel glides to prevent panel runs from sliding. Glide rotates in carpet grip to permit leveling.

Selling Policy

	<p>This Selling Policy supercedes all previous selling policies. Prices, discounts and product offerings are subject to change without notice.</p>
Terms & Conditions of Sales	<p>Sales by Knoll, Inc. or Knoll North America Corp. ("Seller") of Knoll Product Lines (hereinafter "Products") within the United States and Canada are made only on the terms which are contained in this Selling Policy. Seller hereby gives notice of its objection to any different or additional terms and conditions. This sale is expressly conditional upon Purchaser's assent to the terms and conditions set forth below. Additional terms and conditions may apply to KnollStudio and KnollTextiles orders. These terms and conditions may be modified or supplemented only by a written document signed by an authorized representative of Seller. These terms and conditions supercede any prior and/or contemporaneous agreements or correspondence between Purchaser and Seller. Written quotations expire thirty (30) days from the date of issuance and can be withdrawn by written notice anytime during that period. Where Purchaser and Seller have entered into the Knoll Electronic Terms and Conditions, all orders, acknowledgements, invoices and other business communications placed or transmitted in accordance with the Knoll Electronic Terms and Conditions shall be deemed to be in writing and signed and shall be valid for all purposes as if they were originated and maintained in documentary form.</p>
Ordering Information	<p>All orders must be in writing. The product pattern number(s) contained on Seller's order acknowledgement shall be the final expression of the order.</p>
Order Confirmation	<p>A purchase order is not binding on Seller until Purchaser has received Seller's order confirmation or acknowledgment.</p>
Pricing Policies	<p>List prices are subject to change without notice.</p> <p>List prices shall be those prices in effect on the date of receipt of a complete purchase order unless shipment is requested more than ninety (90) days after order entry in which case prices in effect on the date of shipment apply. List prices include specified freight costs. Unless specified in writing by Seller, no other charges are included in Seller's list prices.</p>
Taxes	<p>All sales, use, excise and other taxes applicable to the sale of the Products shall be paid by Purchaser. If Purchaser claims an exemption from any tax, Purchaser shall submit to Seller the appropriate exemption certificates.</p>
Terms of Payment	<p>Payment for one hundred percent (100%) of the net order amount is due within thirty (30) days of the date of invoice, which is issued upon shipment. In case of any discrepancies, such as shortages, and Seller is notified in writing within ten (10) days of receipt of Product, only that portion may be deducted and the balance paid. For orders greater than \$100,000 net, a one-third (1/3) deposit is due at the time of order placement, with the remainder due within thirty (30) days of the date of invoice.</p> <p>KnollStudio orders less than \$2,000 require payment for one hundred percent (100%) of the net order amount (including any applicable sales tax and charges for inside delivery, special packaging, etc.), due at time of order placement. For KnollStudio orders greater than \$2,000, a one-half (50%) deposit is due at time of order placement with the remainder (including any applicable sales tax and charges for inside delivery, special packaging, etc.) due prior to shipment.</p> <p>If, in the judgment of Seller, Purchaser's financial condition does not justify the terms of the payment, Seller may require full or partial payment in advance.</p> <p>Past due accounts shall be charged one and one-half percent (1.5%) per month, or the highest rate permitted by law, whichever is less, and will be added to the outstanding balance. In the event Purchaser defaults on payment, Purchaser shall be liable for all collection costs, including reasonable attorney's fees and costs.</p>
Changes and Cancellation	<p>Purchase orders may not be changed or cancelled, in whole or in part, without prior written consent of Seller. Changes may effect delivery dates. Expenses incurred because of changes shall be charged to Purchaser. In the event of cancellations, Purchaser will be liable for reasonable cancellation charges established by Seller. Orders for special Product, orders including "COM" (hereinafter defined) material and orders pursuant to expedited delivery programs, may not be canceled.</p>
Freight Prepaid	<p>Freight is prepaid and included in the price of all Products, except KnollTextiles, within the 48 contiguous United States and Canada, excluding the Yukon, Northwest Territories, Nunavut and Newfoundland. Packing is tested for rigorous motion and transportation but is not guaranteed to protect furniture from conditions over which the Seller has no control. If special packaging is required for any reason, please consult with your sales representative or dealer. Seller shall select the method of shipment and routing. All shipments shall be tailgate deliveries. Freight for all KnollTextiles orders is prepaid and added to the invoice.</p>
Delivery/Freight Charges	<p>Shipments outside the contiguous 48 United States and Canada shall be shipped F.O.B. Origin.</p> <p>For shipments outside the contiguous United States and Canada, Purchaser is responsible for the cost of freight from point of embarkation, including any handling and transportation charges incidental to loading at the point of departure and unloading at the final destination.</p> <p>Conditions beyond the control of Seller, including weather, available facilities and traffic conditions, may affect exact time of delivery. Seller shall not be responsible for specific carrier delivery date or time unless it has made a specific delivery commitment, in writing.</p> <p>Nonstandard methods of shipment and/or additional services are available upon request. Purchaser will be billed for the differential cost of any special services in excess of standard surface carrier freight costs. Premium charges, at Purchaser's request, will be added for airfreight, exclusive use of vehicle and extra, export or special packaging. Accessorial charges will be added for inside delivery, extra labor, reconsignment and redelivery.</p> <p>Partial shipments may be made and invoiced by Seller.</p>
Claims	<p>All shipments for all Knoll Products within the contiguous United States and Canada are F.O.B. Origin. Risk of loss passes to Purchaser at time of delivery to carrier. Purchaser shall inspect all Products upon receipt and notify Seller within ten (10) working days after receipt of any damage or defects which are, or should be, apparent from an inspection of the Product and its packaging. Failure of Purchaser to make a claim against carrier or notify Seller during the ten (10) working day period shall constitute acceptance of the Products and waiver of any apparent defects, errors or shortages. Seller will agree to repair or replace Product damaged in shipment if Purchaser has notified Seller of freight damage within ten (10) working days after receipt and assigns its rights against the carrier.</p>
Seller's Security Interest	<p>Until Seller receives the full payment for the Product, Seller shall have a security interest in the Product. Purchaser agrees to perform all acts, including but not limited to the execution and filing of documentation, which may be necessary to perfect and assure the security interest of Seller.</p>
Returns	<p>The return of Products without a written authorization by Seller shall not be accepted. To receive authorization for Product return, please call Customer Service. All Products that are returned pursuant to a valid authorization shall be subject to a twenty-five percent (25%) of list restocking charge. Products not currently offered for sale by Seller (including COM) shall not be authorized for return. All returned Products must be unused, in original condition and in the original Seller packing cartons. No refund or credit shall be given for damaged Products.</p>
Held Orders/Storage	<p>If Purchaser requests that an order be held or delayed, prices and terms and conditions in effect at the time of shipment shall apply. If Purchaser requests a delay after the time when Seller can defer production, Purchaser will be invoiced for the Product, payable in accordance with standard terms, when the order is ready for shipment. Seller may transfer the Product to storage, in which case all expenses incurred in connection with storage, including demurrage, preparation for storage, storage charges and handling shall be payable by Purchaser upon submission of invoices by Seller. Risk of loss to the Product shall pass to the Purchaser upon delivery of the Product into storage.</p>

Selling Policy

Customer's Own Material	<p>A Purchaser who requests a fabric or other surface material not standard to Seller's line of Products ("COM") must submit samples of the requested material to Seller prior to entry of a purchaser order. Seller shall determine if the material is suitable to its manufacturing processes and meets any requirements of Underwriters Laboratories. If the COM is acceptable, Seller will then establish a price for using the COM or the Product in question. For a description of the procedures for submitting samples and testing, contact customer resources or your sales representative. Seller shall have no responsibility for the appearance, condition, performance, durability, colorfastness or any other physical attribute of the COM. Purchaser shall indemnify and hold Seller harmless for any damages, injuries or losses arising out of or related to use of the COM on the Product.</p>
Warranty	<p>Seller warrants to the original Purchaser only that the Products Seller manufactures and sells to Purchaser are free of defects in workmanship and materials, during the applicable warranty period set forth below.</p> <p>Should any failure to conform with this limited warranty appear to a Product listed below during the applicable warranty period from the date of shipment, Seller shall, upon prompt written notice, repair or replace, at its option and costs, the affected part or parts.</p> <p><i>Product and Period of Warranty</i></p> <p><i>Lifetime: AutoStrada, Calibre, Crinion Open Table, Currents, Dividends, Equity, Morrison, Reff</i> laminate and other non-wood components (except cascade edge worksurfaces, operational parts, controls, electrical, special or custom products, see below)</p> <p><i>10 Years: AutoStrada, Crinion Open Table and Reff</i> wood components, wood casegoods, <i>Interaction</i> tables (except height adjustment mechanisms for <i>Counterforce</i>, crank-adjustable, and split-top tables and worksurfaces, see below), <i>Reuter</i> overheads, <i>Reuter</i> vertical storage, <i>Bulldog, Chadwick, Essentials Work Chairs, Life, RPM</i> and <i>Sapper</i> seating structural and operational parts, controls, casters, pneumatic cylinders, seat and back mesh (except seating upholstery, finishes and labor, see below)</p> <p><i>5 Years:</i> Operational parts, controls, electrical (except light ballasts and bulbs, see below), cascade edge worksurfaces, special or custom product, wood veneer products, <i>A3, Currents</i> handcrank, <i>Interaction Counterforce, Interaction</i> crank-adjustable, and split-top mechanisms, <i>KnollStudio, KnollExtra</i> adjustable keyboard supports, VDT carousel, monitor platform, equipment storage drawers and all universal storage drawers, <i>Open Up, Visor</i> and <i>SoHo</i> seating structural and operational parts, controls, pneumatic cylinders (except seating upholstery, finishes and labor, see below)</p> <p><i>3 Years:</i> Upholstery, finishes and labor to repair the following chairs: <i>Bulldog, Chadwick, Life, Open Up, Parachute, RPM, Sapper</i> and <i>SoHo</i>.</p> <p><i>2 Years:</i> All other <i>KnollExtra</i> product</p> <p><i>1 Year:</i> Light ballasts and bulbs and <i>Equity</i> fiberglass panels, seating upholstered arm pads and soft arm pads, <i>Visor</i> finishes and labor to repair.</p> <p>This warranty does not apply to:</p> <ul style="list-style-type: none">• Damage caused by a carrier other than the Seller.• Normal wear and tear or acts or omissions of parties other than Seller (including user modification).• COM or other third party materials applied to Products.• Products not installed by or under the auspices of a certified dealer of Seller.• Dramatic temperature variations or exposure to unusual conditions.• Except as specifically noted above, textiles and upholstery supplied by <i>KnollTextiles</i> (consult current <i>KnollTextiles</i> price list for applicable warranty).• Labor to repair or replace Essential Work Chairs affected part or parts. <p>Natural variations occurring in wood, marble, and leather shall not be considered defects, and the Seller does not guarantee the colorfastness or matching of the colors, grains or textures, or surface hardness of such materials. The Seller also does not guarantee the colorfastness of fiberglass panel surfaces. THE EXPRESS WARRANTIES CONTAINED HEREIN ARE IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTIES OF MERCHANTABILITY AND FITNESS FOR PARTICULAR PURPOSE AND ALL OTHER WARRANTIES ARISING FROM COURSE OF DEALING OR USAGE OF TRADE.</p> <p>The remedies provided above are the Purchaser's sole remedies for any failure of Seller to comply with its obligations regarding the workmanship of its Products. Correction of any nonconformity in the manner and for the period of time provided shall constitute complete fulfillment of all liabilities of Seller, with respect to or arising out of the Product furnished hereunder.</p>
Delay/Force Majeure	<p>Seller shall not be liable for failure to perform or for delay in performance due to fire, flood, strike or other labor difficulty, act of God, act of any governmental authority or of the Purchaser, riot, embargo, fuel or energy shortage, wrecks or delay in transportation, inability to obtain necessary labor, materials or manufacturing facilities from usual sources or failure of suppliers to meet their contractual obligations, or due to any cause beyond its reasonable control. If any such event occurs, Seller may extend delivery dates by a period of time necessary to overcome the effect of such delay, allocate available Product or cancel any purchase order.</p>
Compliance with Law	<p>PURCHASER IS SOLELY RESPONSIBLE FOR COMPLIANCE WITH ALL APPLICABLE FEDERAL, STATE AND LOCAL LAWS, ORDINANCES, REGULATIONS, RULES AND STANDARDS RELATING TO THE INSTALLATION, MAINTENANCE, USE AND OPERATION OF THE PRODUCTS.</p>
Patents	<p>Subject to the following provisions, Seller shall, at its own expense, defend or, at its option, settle any claim, suit or proceeding brought against the Purchaser, and/or its vendees, mediate and immediate, so far as based on an allegation that any Product or any part thereof furnished hereunder constitutes a direct or a contributory infringement of any claim of any patent of the United States or Canada. This obligation shall be effective only if Purchaser shall have made all payments then due hereunder and if Seller is notified promptly in writing and given authority, information and assistance for the defense of said claim, suit or proceeding. Seller shall pay all damages and costs awarded in such suit or proceedings so defended.</p> <p>The foregoing indemnity does not apply to the following:</p> <ul style="list-style-type: none">• Products supplied according to a design other than that of Seller, and which is required by the Purchaser.• Combination of the Product with another product not furnished hereunder unless Seller is a contributory infringer.• Any settlements of a suit or proceeding made without Seller's written consent.
Limitations of Liability	<p>SELLER, ITS CONTRACTORS, AUTHORIZED DEALERS AND SUBCONTRACTORS OR SUPPLIERS OF ANY TIER SHALL NOT BE LIABLE TO PURCHASER FOR ANY SPECIAL, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING FROM A BREACH OF THIS AGREEMENT.</p> <p>Purchaser's remedies set forth herein are exclusive and the liability of Seller with respect to the breach of this agreement or any contract entered into between the parties pursuant hereto shall not exceed the price of the Product or part on which such liability is based.</p>

KnollKey Lock Program

KnollKey Lock Program General Information

Following is the KnollKey lock policy, applicable to all products.

Key-alike

For the convenience of the user, furniture may be keyed alike at no charge. Write "Key-alike" in the description of your purchase order for any pedestal, overhead, file or other item you wish to have keyed alike.

Using the key-alike instructions, order cores and keys as line items on your purchase order. Do NOT submit a key-alike form. The Knoll East Greenville Lock Center will select key numbers from the standard range of K 001 - K 250. Key numbers will not be repeated unless over 250 sets are ordered. Lock cores keyed-alike will ship separately from the product, ready for field installation.

There is no charge for key-alike orders if placed with the furniture order.

IF THE KEY-ALIKE ORDER IS NOT PLACED AT LEAST TWO WEEKS PRIOR TO THE FURNITURE SHIP DATE, A \$50 HANDLING CHARGE AND AIR FREIGHT CHARGES WILL APPLY.

If product is ordered and shipped random-keyed, additional lock cores for key-alike are billable.

Random-Keying

To specify product keyed-random, write "key-random" in the product description. Random-keyed product is shipped with the lock core factory installed. A shrouded key is included. Random means no effort has been made to match key numbers, or to make them different.

Keys

A Knoll shrouded key is shipped with every lock core. 250 Key numbers are available. For numbers above 250, contact Custom Product Development. Additional keys and key blanks are available. See service parts for more information.

Master Keying

Knoll locks can be controlled by means of a master key. There is no additional per-lock charge for master keying. A letter of approval from the client must accompany orders for master keys.

Installing Lock Cores

Lock cores can be installed or removed in the field by using a change key. Cores must be in the unlocked position to be removed. See service parts for change key pattern number and pricing.

Lock Distribution

All orders for key-alike lock cores/keys are packaged and shipped from the East Greenville Lock Center, regardless of where the pedestals, overhead, or other units are produced. KnollNow and random keyed product will have cores factory-installed.

How to Specify Key-Alike

Following is an example of how to specify key-alike for a cluster of 10 workstations.

Step 1 - Using the project floorplan, count the number of locks in each workstation.

Step 2 - Count the number of workstations with the same quantity of locks. Group together the workstations with a like number of locks.

5 workstations with 2 locks per station
3 workstations with 4 locks per station
2 workstations with 5 locks per station

Step 3 - For the first group (5 sets of 2 locks), enter the number of workstations in the quantity column.

Qty	Pattern #	Description	Unit List	Ext. List
5				

Step 4 - Then enter the pattern number "KSPEC_ _" and add a suffix for the number of locks for that group (i.e., for 2 locks per station, add the suffix "2"). Up to 30 lock cores are available in a set (i.e., KSPEC 30).

Qty	Pattern #	Description	Unit List	Ext. List
5	KSPEC 2	Set of 2 cores/keys	N / C	N / C

Step 5 - Repeat for other groups.

Qty	Pattern #	Description	Unit List	Ext. List
5	KSPEC 2	Set of 2 cores/keys	N / C	N / C
3	KSPEC 4	Set of 4 cores/keys	N / C	N / C
2	KSPEC 5	Set of 5 cores/keys	N / C	N / C

Your Key instructions are complete.

Knoll will select key numbers for each set from 250 available numbers. Additional key numbers are available through Custom Product Development. **For additions to existing installations, specify desired key numbers in the description.**

Service Parts

Pattern #	Description	List Price
KKEY_ _ _	Shrouded Key Specify key number desired	\$5
KBLANK	Shrouded Key Blank	\$5
KSPECB_ _ _	Retrofit Universal Core/Key Specify key number desired	\$18
KCHANGE	Change Key	\$5
KMASTER*	Master Key	\$5

*Note: A letter of approval on company letterhead from the client must accompany all orders for master keys.

General Ordering Information

The Products

This guide encompasses all standard products for this product group.

Sizes

Dimensions listed in this guide are indicated as:

H = height

W = width

D = depth

Dia. = diameter

Rad. = radius

Pricing

All prices shown are list.

How to Order

Select pattern numbers and quantities required for your complete installation. Product questions can be addressed in the specific sections of this guide or by contacting your sales representative or customer resource representative at 1-800-343-5665.

Next, select options (if required), along with colors and finishes appropriate to each product. Reference the Finishes and Fabrics pages for color designations.

On large installations, an item's "designated area" can be specified to assist in product organization and handling.

To expedite complete / correct entry of your order, be certain all pattern numbers, quantities, colors and area identifications are completely specified. Also, include complete purchase order numbers, bill-to and ship-to addresses, a contact name and specific factory shipping dates required.

Mail all orders to:

Knoll, Inc.

1235 Water Street

P.O. Box 157

East Greenville, PA 18041

Attention: Order Entry

Once your order is entered at Knoll, an acknowledgment will be mailed to you. You will be advised of your scheduled shipping date within five days of the original acknowledgment. If it is necessary to revise your order, please contact your customer resource representative.

Sustainability Statement

Sustainable design is a key component of Knoll's environmental focus. Our commitment to social responsibility and a healthy environment has prompted us to further articulate our longstanding environmental programs and, with encouragement and support from our colleagues in the industry, we have re-energized our focus on such "green" initiatives as life cycle analysis and LEED™ certification. Knoll is proud to have contributed to projects that have received LEED certification from the U.S. Green Building Council.

For the latest information on Knoll products that help our customers achieve LEED certification, log on to knoll.com, click on "About Knoll" and then "Environmental Focus."
