This price list provides you with the product information you need to specify and order Knoll Morrison.

Morrison is a completely integrated office system, capable of all types of office planning. Morrison may plan as a panel system, with panel mounted components, or as a freestanding desk system. Morrison can also be combined with the Currents service wall for superior wire management, cable access and off-module planning. Major components – panels, worksurfaces and storage – may be configured or reconfigured in all types of planning listed above.

Information about Morrison is found in three companion books: this Price List, the Planning Guide and the Brochure.

The Price List arranges components in a logical sequence.

The first section includes all major components required for panel system planning: Morrison and Options panels, add-on panels, connectors, doors, Morrison Access, top cap kits, stackable add-up panels and power distribution.

The second section includes those components required for worksurface planning and support: Morrison and Options worksurfaces, Currents worksurfaces for Morrison, desk panels, Morrison Network desk supports, brackets, and power components.

The third section includes storage components for panel based or freestanding planning: pedestals, Intermediate shelves, Morrison, Options and Reuter overhead storage and lighting, screens, and vertical storage.

The fourth section includes accessories. The complete range of computer support and accessories can be found in the KnollExtra price list.

## How to order Morrison

Morrison is a component-based system. To ensure a complete order for a workstation or project, specify components in the same order as the price list.

You will find that Morrison pattern numbers contain a logical, alphanumeric sequence describing the type, size, features, and finish of the component.

To specify components, consult the ordering code examples and application notes provided.

For example, to order a 1 3/4" light grey laminate worksurface with grommets, 48"W by 24"D specify: **MW2-S4824A114**. Details follow:

<b>MW2</b>	1 3/4" worksurface
<b>S</b>	Straight
<b>48</b>	Width
<b>24</b>	Depth
<b>A</b>	With grommets
<b>114</b>	Folkstone Grey laminate

For further assistance with ordering or specifying Morrison, consult your Knoll representative or Knoll dealer.

Please note that pattern numbers beginning with the letter **A-** are Currents pattern numbers.

## KnollNow

This price list includes products offered in the KnollNow  program.

To obtain pricing and place a KnollNow order, contact your Knoll dealer. For the Knoll dealer nearest you, visit knoll.com.

All KnollNow orders are manufactured by the fifth business day after receipt of the order from a Knoll dealer. Shipping and delivery time may vary depending upon the "ship to" location. Also keep in mind:

- No changes or cancellations are permitted.
- Knoll Now products are available only in the continental United States and Canada.

Order quantities of certain items may be limited and are subject to fabric availability. For more information, contact Knoll Customer Resources at 1-215-679-7991 or 1-800-343-5665.

### Order Code

Example:	<b>MP2-3930-15-W210/20</b>
<b>MP2</b>	Panel
<b>39</b>	Height
<b>30</b>	Width
<b>15</b>	Surface type and group no.
<b>W210/20</b>	Upholstery

Products indicated with ✪ are available on KnollNow.

### Specification Information

#### Surface type/finish suffixes

For upholstered panels, specify upholstery pattern number after the fabric group number.

- 10- Fabric group 10 ✪
- 15- Fabric group 15 ✪
- 20- Fabric group 20 ✪
- 30- Fabric group 30
- 35- Fabric group 35
- 40- Fabric group 40
- 45- Fabric group 45

Upholstered panels may be ordered in a combination of fabrics. List price is the average of the two fabric grades.

For combinations of fabrics list both suffixes (e.g. 10/20) and upholstery pattern numbers.

### Application Notes

Top caps/raceway covers are specified as separate kits, and are bulk shipped to facilitate installation.

Non-powered panel raceways accommodate 96 or more 4-pair unshielded twisted pair cables (Category 5, 5E or 6). Powered panel raceways accommodate up to 48 4-pair cables. Power components are ordered separately and field-installed.

*High performance panel acoustical ratings:  
NRC .80, STC 24*

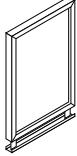

Upholstered panels may be specified to achieve ASTM E-84 Class "A" flamespread rating.

<b>613</b>	Frame finish

Products indicated with are available on KnollNow.

### Specification Information

For glazed panels specify:

C- Clear tempered glass  
T- Translucent acrylic

### Frame finish

Panel stiffeners should be specified with glazed panels in straight or corner configurations. See page 40 .

### Application Notes

Top caps/raceway covers are specified as separate kits, and are bulk shipped to facilitate installation.

Non-powered panel raceways accommodate 96 or more 4-pair unshielded twisted pair cables (Category 5, 5E or 6). Powered panel raceways accommodate up to 48 4-pair cables. Power components are ordered separately and field-installed.

Glazed panels may not be powered. Divided translucent fiberglass glazed panels may be powered. 60" W glazed panels are not available.

High performance panel acoustical ratings:  
NRC .80, STC 24

Upholstered panels may be specified to achieve ASTM E-84 Class "A" flamespread rating.

<b>613</b>	Frame finish

**Specification Information**

Specify glazing for windows:  
 C- Clear tempered glass ↗  
 T- Translucent acrylic ↗  
 F- Divided translucent fiberglass

**Frame finish****Application Notes**

Windows mount on any height Morrison vertical panel of the same width with add-on connectors or full height connectors.

All windows are  $\frac{1}{4}$ " less than nominal height to allow for a  $\frac{1}{4}$ " horizontal reveal with light seal.

9"H windows may be mounted on 30"H and 39"H vertical panels and connected, respectively, with standard 39"H and 48"H connector tracks and post assemblies.

16"H windows may be mounted on 48"H and 64"H vertical panels and connected, respectively, with standard 64"H and 80"H connector tracks and post assemblies.

18"H windows may be mounted on 30"H and 56"H vertical panels and connected, respectively, with standard 48"H and 74"H connector tracks and post assemblies.

22"H windows may be mounted on 42"H vertical panels and connected with standard 64"H connector tracks and post assemblies.

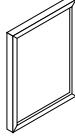

32"H windows may be mounted on 48"H vertical panels and connected with standard 80"H connector tracks and post assemblies.

Full height 48" and 64" connectors permit cantilevered shelves and overhead cabinets.

Two 16"H windows may be mounted on a 48"H upholstered panel only when using 80"H full height connector tracks and post assemblies.

Products indicated with ↗ are available on KnollNow.

- 15- Fabric group 15
- 20- Fabric group 20
- 30- Fabric group 30
- 35- Fabric group 35
- 40- Fabric group 40
- 45- Fabric group 45

To order veneer on both sides, follow panel size with suffix V- and veneer finish code.

Example: MP3-A2230-V-8.

**Application Notes**

Add-on panels mount on any height Morrison vertical panel of the same width with add-on connectors or full height connectors.

All add-on panels are  $\frac{1}{4}$ " less than nominal height to allow for a  $\frac{1}{4}$ " horizontal reveal with light seal.

16"H add-on panels may be mounted on 48"H and 74"H vertical panels and connected, respectively, with standard 64"H and 80" connector tracks and post assemblies.

18"H add-on panels may be mounted on 30"H and 56"H vertical panels and connected, respectively, with standard 48"H and 74" connector tracks and post assemblies.

22"H add-on panels may be mounted on 42"H vertical panels and connected with standard 64"H connector tracks and post assemblies.

32"H add-on panels may be mounted on 48"H vertical panels and connected with standard 80"H connector tracks and post assemblies.

Full height 48" and 64" connectors permit cantilevered shelves and overhead cabinets.

Veneer Group 2 add-on panels are rift cut Techgrain®.

- 20- Fabric group 20 ↗
- 30- Fabric group 30
- 35- Fabric group 35
- 40- Fabric group 40
- 45- Fabric group 45

## Application Notes

Post assembly pricing includes connector tracks, posts, and trim covers when required. Top caps/raceway covers are specified as separate kits and bulk shipped to facilitate installation.

Add-on connectors include brackets to add panels or windows to the top of any Morrison vertical panel except glazed panels.

Add-on connectors must be specified in the same height as the add-on panel or window.

Add-on connectors do not support cantilevered shelves or overhead cabinets. For these applications, specify full height connectors.

Add-on end post should be specified when add-on panels end over L or T post.

2-way straight post should be specified when add-on panels connect in a straight line over an X or T post.

<b>MC1</b>	Connector
<b>42</b>	Height
<b>L2</b>	2 way "L"
<b>V</b>	Surface type
<b>4</b>	Veneer

Product indicated with ↗ are available on KnollNow.

#### Specification Information

<b>S1-</b>	<i>Straight connector</i>
<b>L2-</b>	<i>90° 2-way post assembly</i>
<b>T3-</b>	<i>90° 3-way post assembly</i>
<b>X4-</b>	<i>90° 4-way post assembly</i>
<b>E1-</b>	<i>End connector assembly</i>

#### Application Notes

Post assembly pricing includes connector tracks, posts and trim covers when required. Top caps and raceway covers are specified as separate kits and bulk shipped to facilitate installation.

Veneer Group 1 trim covers are quartered Techgrain®.

Veneer Group 2 trim cocers are rift cut Techgrain®.

Veneer Group 3 trim covers are narrow heart, flat cut natural veneer.

**Order Code**Example: **M2-5040-613-15-W210/20****M2** Connector**5040** Configuration**613** Top cap finish**15** Surface type and group no.**W210/20** Upholstery

Products indicated with ✪ are available on KnollNow.

**Specification Information**

First finish suffix is for top cap, second is surface type.

*Surface type:*

- 10- Fabric group 10 ✪
- 15- Fabric group 15 ✪
- 20- Fabric group 20 ✪
- 30- Fabric group 30
- 35- Fabric group 35
- 40- Fabric group 40
- 45- Fabric group 45

For a high-low configuration with wood top caps, change pattern number prefix to M3. For V3 finishes, add \$60 to the price listed above.

Specify finish for top cap as shown (included in high-low post assemblies).

**Application Notes**

High-low connectors are used to join panels of two heights in a straight line. Assemblies come complete with connector track, hardware and trim as required.

Order dedicated high-low top caps separately for the lower panel in a straight high-low configuration.

All high-low pattern numbers contain a logical four digit code to accommodate the range of high-low connections in which 30" is 3, 39" is 9, 42" is 4, 48" is 8, 56" is 5, 64" is 6, and 80" is 1. To specify a straight high-low connection between a 54" panel and a 42" panel:

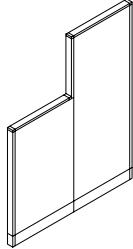

1. Start with the highest panel, 56" = "5".
2. Proceed either clockwise or counter-clockwise; hold this digit with a "0".
3. Denote the next highest panel, 42" = "4".
4. Hold the next place with a "0".

The correct code is M2-5040.

High-low connectors

Order Code	Specification Information	Application Notes
Example: <b>M2-5400-613-613-V-T</b>		
<b>M2</b> Connector	First suffix is for top cap finish, second is for raceway cover finish.	High-low post assemblies are used to join panels of two heights in a corner configuration. Assemblies come complete with post, hardware, and trim as required.
<b>5400</b> Configuration	Final suffix is for trim covers surface type. When ordering non-upholstered trims, surface type must match top cap type.	
<b>613</b> Top cap finish		
<b>613</b> Raceway finish		
<b>V</b> Surface type		
<b>T</b> Veneer		

Products indicated with ↗ are available on KnollNow.

First suffix is for top cap finish, second is for raceway cover finish. Final suffix is for trim covers surface type. When ordering non-upholstered trims, surface type must match top cap type.

*Non-upholstered surface types:*  
 ( ) Painted (finish code)  
 V( ) Veneer (finish code)

For a high-low configuration with wood top caps, change pattern number prefix to M3. For V3 finishes, add \$60 to the price listed above.

Painted high-low connectors are not available with wood top caps.

Specify finish for top cap and raceway covers, as shown (included in high-low post assemblies).

Order dedicated high-low top caps separately for the lower panel in a corner high-low configuration.

All high-low pattern numbers contain a logical four digit code to accommodate the range of high-low connections in which 30" is 3, 39" is 9, 42" is 4, 48" is 8, 56" is 5, 64" is 6, and 80" is 1. To specify an L high-low connection between a 54" panel and a 42" panel:

1. Start with the highest panel, 56"="5".
2. Proceed either clockwise or counter-clockwise to the lower panel, 42"="4".
3. Hold the next two places with a "0".

The correct code is M2-5400.

#### Order Code

Example: **M2-5404-613-613-15-W210/20**

**M2** Connector

**5404** Configuration

**613** Top cap finish

**613** Raceway finish

**15** Fabric group

**W210/20** Upholstery

Products indicated with are available on KnollNow.

#### Specification Information

All high-low pattern numbers contain a logical four digit code in which 30" is 3, 39" is 9, 42" is 4, 48" is 8, 56" is 5, 64" is 6, and 80" is 1.

\*Indicate height of lower panels replace \* with one of the following:

3	30"H
9	39"H
4	42"H
8	48"H
5	56"H
6	64"H
1	80"H

The following high-low connections are available as standard product:

panel connection to ht.  
39" 30"  
48" 42", 39", 30"  
56" 48", 42", 30"  
64" 56", 48", 42", 30"  
80" 64", 48"

For all other connections, please contact your Custom Product Development representative.

#### Application Notes

First suffix is for top cap finish (integral color or P2), second is for raceway cover finish. Final suffix is for trim covers surface type. Surface type:

10-	Fabric group 10
15-	Fabric group 15
20-	Fabric group 20
30-	Fabric group 30
35-	Fabric group 35
40-	Fabric group 40
45-	Fabric group 45

Fabrics Groups can be found on page 4.

Specify finish for top cap and cover.

For a high-low configuration with wood top caps, change pattern number prefix to M3. For V3 finishes, add \$60 to the price listed above.

High-low post assemblies are used to join panels of two heights in a T configuration. Assemblies come complete with post, hardware, and trim as required.

Order dedicated high-low top caps separately for the lower panels in a T-configuration.

To specify a 90° 3-way high-low connection of 42" panels with a 56" panel between:

1. Start with the highest panel, 56"="5".
2. Proceed either clockwise or counter-clockwise to the next highest panel, 42"="4".
3. Hold the next digit with a "0".
4. Continue in the same direction to the last panel, 42"="4".

The correct code is M2-5404.

#### Specification Information

All high-low pattern numbers contain a logical four digit code in which 30" is 3, 39" is 9, 42" is 4, 48" is 8, 56" is 5, 64" is 6, and 80" is 1.

\* Indicate height of lower panels replace \* with one of the following:

- 3      30"H
- 9      39"H
- 4      42"H ↗
- 8      48"H ↗
- 5      56"H ↗
- 6      64"H
- 1      80"H

The following high-low connections are available as standard product:

- panel connection to  
 39H. 30"  
 48" 42", 39", 30"  
 56" 48", 42", 30"  
 64" 56", 48", 42", 30"  
 80" 64", 48"

For all other connections, please contact your Custom Product Development representative. First suffix is for top cap finish, second is for raceway cover finish. Raceway covers will always be matched with the metallic finish corresponding to top cap finish. Final suffix is for trim covers surface type. When ordering non-upholstered trims, surface type must match top cap type.

#### Surface type:

- 10     Fabric group 10 ↗
- 15     Fabric group 15 ↗
- 20     Fabric group 20 ↗
- 30     Fabric group 30
- 35     Fabric group 35
- 40     Fabric group 40
- 45     Fabric group 45

For a high-low configuration with wood top caps, change pattern number prefix to M3. For V3 finishes, add \$60 to the price listed above.

#### Application Notes

High-low post assemblies are used to join panels of two heights in an X configuration. Assemblies come complete with post, hardware, and trim as required.

Order dedicated high-low top caps separately for the lower panel in an X configuration.

To specify a 90° 4-way high-low connection of a 56" panel and three 42" panels:

1. Start with the highest panel, 56"="5".
2. Proceed either clockwise or counter-clockwise to the next highest panel, 42"="4".
3. Continue in the same direction to the next panel, 42"="4".
4. Continue in the same direction to the last panel, 42"="4".

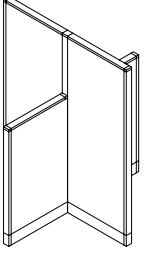

The correct code is M2-5444.

#### Order Code

Example: **M2-5444-613-V8**

**M2** Connector

**5444** Configuration

**613** Top cap finish

**V** Veneer

**8** Finish

Products indicated with ↗ are available on KnollNow.

#### Specification Information

All high-low pattern numbers contain a logical four digit code in which 30" is 3, 39" is 9, 42" is 4, 48" is 8, 56" is 5, 64" is 6, and 80" is 1.

\*Indicate height of lower panels replace \* with one of the following:

- 3    30"H
- 9    39"H
- 4    42"H ↗
- 8    48"H ↗
- 5    56"H ↗
- 6    64"H
- 1    80"H

The following high-low connections are available as standard product:

panel connection to  
39"t. 30"  
48" 42", 39", 30"  
56" 48", 42", 30"  
64" 48", 42", 30"  
80" 64", 48"

For all other connections, please contact your Custom Product Development representative. First suffix is for top cap finish (integral color or P2), second is for raceway cover finish. Raceway covers will always be matched with the metallic finish corresponding to top cap finish. Final suffix is for trim covers surface type. When ordering non-upholstered trims, surface type must match top cap type (integral color or P2). *Surface type:*

- ( )    Painted (finish code)
- V( )    Veneer (finish code)

#### Application Notes

For a high-low configuration with wood top caps, change pattern number prefix to M3. Painted high-low connectors are not available with wood top caps. For V3 finishes, add \$60 to the price listed above.

High-low post assemblies are used to join panels of two heights in an X configuration. Assemblies come complete with post, hardware, and trim as required.

Order dedicated high-low top caps separately for the lower panel in an X configuration.

To specify a 90° 4-way high-low connection of a 56" panel and three 42" panels:

1. Start with the highest panel, 56"="5".
2. Proceed either clockwise or counter-clockwise to the next highest panel, 42"="4".
3. Continue in the same direction to the next panel, 42"="4".
4. Continue in the same direction to the last panel, 42"="4".

The correct code is M2-5444.

# Panel accessories

## *wall starters*

Morrison

description	type	w	d	h	pattern no.	Paint
Wall starter		1"	2 1/4"	30"	<b>MM1-WS30()</b>	\$146.

		1"	2 1/4"	80"	<b>MM1-WS80()</b>	225.

Order Code	
Example:	<b>MM1-WS56-613</b>
<b>MM1</b>	Morrison accessory
<b>WS</b>	Wall starter
<b>56</b>	Height
<b>613</b>	Finish

### Specification Information

Specify painted finishes for wall starter.

### Application Notes

Wall starters connect a panel run perpendicular to a fixed wall. Wall starter includes connector track, wall mount bracket, and painted end top cap.

For wood top caps, order wood end trim top cap (MT5-CE1) separately.

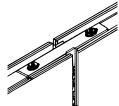

Products indicated with ↗ are available on KnollNow.

# Panel accessories

## *accessories*

Morrison

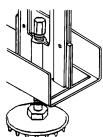

description	type	w	d	h	pattern no.	list price
Panel stiffeners	Corner	—	—	—	<b>MM1-PSL2</b>	\$35.
	Straight	—	—	—	<b>MM1-PSS1</b>	18.
Stabilizer foot		2"	13"	14"	<b>MM1-SF()</b>	216.
Carpet grips (10)					<b>MM2-CG</b>	16.

Stabilizer foot

Carpet grips (10)

### Order Code

Example: **MM1-PSS1**

**MM1** Morrison accessory

**PSS1** Panel stiffener

### Specification Information

Specify paint finish for stabilizer foot.

### Applicatin Notes

Panel stiffeners add rigidity to straight or corner connections, and should be used with glazed panels. Bracket is concealed under top caps.

Stabilizer foot attaches to connector track to stabilize panel runs.

Carpet grips snap onto panel glides to prevent panel runs from shifting on carpet. Glide rotates in carpet grip to permit leveling.

# Trim covers for reconfiguration *upholstered*

Products indicated with ↗ are available on KnollNow.

**Specification Information**

For face plates, specify surface paint finish. n/c = No charge.

Vertical raceway extends panel base raceway to top cap, providing desk-height access and continuity with Highway and top cap raceway. Vertical raceway plans as 6" wide panel, requiring standard connectors to join to adjacent vertical panels. Specify 6" top cap and raceway cover kit separately.

Vertical raceway panel has two full 2" x 2" lay-in channels for power track, PDC connectors or lay-in cable management, and one center easy-access channel.

**Application Notes**

Specify face plates kit with covers for all vertical raceway panels, with outlets one or both sides. Kit with four openings has two outlet openings just above worksurface and two outlets below the worksurface, in one channel. Other channel and all other covers have no outlet openings. Face plates kit with eight openings has four outlets above and four below, in two channels.

All kits include covers for both sides of vertical raceway.

Outlet openings accept PDC modules, blank filler plates, or power outlets (specify outlets and power components separately).

**Specification Information**

Highway for panels is black anodized aluminum with black vinyl flaps. Highway connectors are black color-integral molded plastic.

Highway snaps onto top of vertical panel to provide accessible horizontal cable channel on each side of panel.

Highway may be planned on all same-height panels in a cluster or only on center spine panels.

Highway accepts standard top caps.

Highway capacity is approximately thirty-two Category 5 4-pair UTP cables (3/16"dia. or equivalent), or sixteen each side.

Highways for high-low panels are sized for the lower panel in straight high-low configurations.

**Application Notes**

When Highway is planned only on the center spine of a cluster specify straight post Highway connectors at T and X connections; specify Highway end post connector at corner or T at end of spine. Specify straight post or end post top caps separately (see page 0). for all L, T and X connections.

Highway connectors permit continuous lay-in cabling at all post connections. For full cable enclosure over L or T connections specify top cap raceway connectors (page 76).

<b>MA1</b> Morrison Access	Top Cap Raceway for panels is black anodized aluminum.	When Top Cap Raceway is planned only on the center spine of a cluster specify straight post top cap raceway connectors at T and X connections; specify end post connector at corner or T at end of spine. Specify straight post or end post top caps separately (see pages 0-79).
<b>TC</b> Top Cap Raceway	Connectors are black color-integral molded plastic.	
<b>42</b> Width		
	Top Cap Raceway snaps onto top of vertical panel to provide horizontal cable channel.	
	Top Cap Raceway accepts standard panel top caps.	
	With top caps removed, unobstructed, lay-in cable capacity is approximately thirty three 4-pair UTP cables (3/16" diameter). Cross-section area is 1 1/2 square inches.	
	Top Cap Raceway connectors provide full cable enclosure above any panel connection. No connector is required above X posts. Top cap raceway connectors may also be used with Highway (see page 74) for full cable enclosure over L or T connections.	
		Specify Vertical Raceway (see page 75) to distribute cables from top cap raceway to worksurface height or panel base raceway. Cables also may pass from Top Cap Raceway to panel base raceway in L, T, or X connector post (six 25-pair cables).
		Top Cap Raceway does not accept power components.

Multiple power outlets

Order Code	Specification Information	Application Notes
Example: <b>MT5-PDC-48612</b>	Specify paint finish.	Specify PDC covers when planning voice/data outlets in a powered panel. PDC covers provide one protected opening for PDC modules 6" from each end of panel, in addition to standard power outlet openings.
<b>M</b> Morrison		
<b>T5</b> Top cap		
<b>PDC</b> PDC raceway		
<b>48</b> Width		Specify multiple power outlet covers in addition to standard panel top cap/raceway cover kits, when planning more than two duplex outlets on a panel face.
<b>612</b> Finish		Multiple outlet covers have openings for four duplex outlets.
		Power, data and communications outlets covers cannot be used with Morrison panels produced prior to 1995; specify standard powered or multiple outlet covers and plan data/communications outlets in pass-through or non-powered panels.
		For Chicago code PDC covers, refer to page 102.

Example: <b>MR3-E-30</b>		
<b>MR3</b> Morrison raceway	Morrison 2 +2™ Raceway is a four-circuit, eight-wire modular power distribution system, for use in Morrison panels and Network desk supports. 2 + 2™ Raceway components distribute two 20-amp convenience circuits (A and B), with neutral and ground, and two protected 20-amp circuits (X and Y) with separate neutral and ground.	Power rails are the primary power distribution component of the Morrison 2 + 2 Raceway. Each rail provides outlet mounting positions on both sides, and receptacles for two branching power connectors at each end. Center supports permit lay-in cabling from either side of the raceway, shielded from power conductors and outlets by grounded steel barriers.
<b>E</b> Eight wire 2 + 2		
<b>30</b> For 30" panel		Power rail for vertical raceway accepts up to four duplex outlets each side, two above and two below standard worksurface height. Power rail for vertical raceway includes power connector from adjacent powered panel base.
Products indicated with ↗ are available on KnollNow.		
	Rail for 24" wide panel accepts one duplex outlet or power infeed centered on each side. Rails for 30" and wider panels accept two outlets (or one outlet and one infeed) each side, 12" from either end of the panel. Multiple outlet power rails accept up to four duplex outlets each side.

Example: <b>MR3-EPVR</b>		
<b>MR3</b> Morrison raceway	Morrison 2 +2™ Raceway is a four-circuit, eight-wire modular power distribution system, for use in Morrison panels and Network desk supports. 2 + 2™ Raceway components distribute two 20-amp convenience circuits (A and B), with neutral and ground, and two protected 20-amp circuits (X and Y) with separate neutral and ground.	Power infeeds connect building power supply to a cluster of interconnected power rails. Panel base infeed snaps into any outlet position in rail, 12" from either side of panel, and includes 6 foot liquid-tight conduit and pigtail for connection to floor or wall electrical box.
<b>E</b> Eight wire 2 + 2		Ceiling infeeds include 12'-6" pigtail for connection into panel base through Morrison vertical raceway and ceiling infeed panel, or through standard power pole (supplied by others) adjacent to Morrison panel with power rail.
<b>P</b> Power infeed		Hardwire infeed, used in all New York City installations, includes junction box that mounts within non-powered panel base (any width 24" or greater). Electrical contractor supplies conduit from building power supply to panel, punches infeed hole in raceway cover, and trims power connectors to length. MR3-EPNY2 includes two power connectors to power panels on both sides of infeed panel; MR3-EPNY1 includes only one power connector. Template is included to modify standard N-type raceway cover (without outlet openings).
<b>VR</b> For vertical raceway		
Products indicated with  are available on KnollNow.		
	Duplex outlets are preconfigured to access one of the four circuits, A, B, X, Y, and snap into any standard outlet location (12" from either end of panel). Duplexes on circuits X and Y may be specified with orange face or black face with orange triangle to signify protected circuits for electronic equipment.

<b>MW2</b>	Worksurface, 1 3/4" thick
<b>R</b>	Rounded end
<b>87</b>	Width
<b>30</b>	Depth
<b>E</b>	End grommets
<b>117</b>	Surface finish

Products indicated with  are available on KnollNow.

## Specification Information

### Grommets/no grommets:

- B- worksurface does not include grommets.
- E- rounded end worksurface includes 3" grommet in each straight end corner.
- R- rounded end worksurface includes 3" grommets recessed for use with 6" recessed desk support.

Specify surface finish.

Rounded end worksurfaces with recessed or no grommets are specified left or right (rounded end when seated at desk). All worksurfaces are U.L.-listed.

Recessed grommets align with desk support recessed 6".

## Application Notes

Rounded end worksurfaces may be used to create fully enclosed desks or open table/desks with support column. For front modesty, use 48"W desk support with 63" rounded end, 60"W desk support with 75" rounded end; 72"W desk support with 87" rounded end.

Use 18"D pedestal or end panel each end with 30"D rounded end with recessed grommets. Rounded end worksurfaces with end grommets are supported by 30"W or 36"W desk support and support column.

Worksurfaces with grommets are bored to accept and are shipped with wire manager clips.

Worksurfaces with end grommets may not be supported by conference end panels.

Plastic laminate worksurfaces have radiused T-mold edge.

Rounded end worksurfaces have threaded metal inserts for desk support, end panel each end, and at all bracket locations. End grommet worksurfaces have no pedestal inserts.

## Specification Information

B: Worksurface does not include grommets.

Specify surface finish.

1 1/4" worksurfaces are 3-ply, solid core construction with threaded metal inserts at all end panel, desk support and bracket locations and pilot holes at pedestal locations.

All worksurfaces are U.L.-listed.

## Application Notes

18"D worksurfaces are used interchangeably in desk and panel system applications as shallow main surfaces, extensions, or credenza tops. They may be supported at each end by an 18" end support bracket, 18" cantilever bracket, 18"W conference end panel, 18"D pedestal, or 12"W end panel (MN2-E12) in conjunction with a desk support.

18"D worksurfaces with desk supports do not accept pedestals.

All worksurfaces are  $\frac{3}{8}$ " less than nominal depth for rear wire clearance or privacy screens.

Panel-supported 1 1/4" worksurfaces over 48" must be mid-span supported by MB2-C18 bracket, specified separately.

Veneer Group 1 worksurfaces are quartered Techgrain®.

Veneer Group 2 worksurfaces are rift cut Techgrain®.

Veneer Group 3 worksurfaces are narrow heart, flat cut natural veneers.

Suspended pedestals may not be used with 1 1/4" worksurfaces.

  - B- worksurface does not include grommets
- Specify surface finish.

Right- and Left- hand are defined by applying trapezoidal tops as returns from rectilinear worksurfaces.R-Right hand 30"D Right, 24" D left edge L-Left hand 24" D Right, 30" D left edge

All worksurfaces are U.L.-listed.

Plastic laminate worksurfaces are post-formed top and bottom, front and back. All worksurfaces are 3/8" less than nominal depth for rear wire clearance or privacy screens. 1 1/4" worksurfaces are 3-ply, solid core construction with threaded metal inserts at all end panel, desk support and bracket locations and pilot holes at pedestal locations.

## Application Notes

Trapezoidal worksurfaces are used interchangeably in desk and panel system applications. They must be supported at each end by a pedestal, end panel, end support, cantilever or cantilever bridging bracket with a maximum span of 48" between supports. Panel-supported worksurfaces over 48" must be mid-span supported by MB2-C18 brackets, specified separately.

Veneer Group 1 worksurfaces are rift cut Techgrain.

Veneer Group 2 worksurfaces are quartered Techgrain.

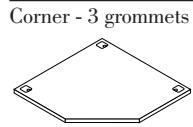

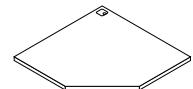

Veneer Group 3 worksurfaces are narrow heart, flat cut natural veneers.

## Specification Information

<i>Grommets/no grommets:</i>	
E-	rounded end worksurface includes 3" grommet in each straight end corner.
R-	rounded end worksurface includes 3" grommets recessed for use with 6" recessed desk support.
B-	rounded end worksurface does not include grommets

Specify surface finish.

1 1/4" worksurfaces are 3-ply, solid core construction with threaded metal inserts at all end panel, desk support and bracket locations and pilot holes at pedestal locations..

All worksurfaces are U.L.-listed.

End grommeted tops have inserts to accept desk support at straight end and no pedestal inserts.

Plastic laminate worksurfaces have radiused T mold edge and a flat self-edge in the straight edge.

Rounded end worksurfaces are used interchangeably in desk and panel system applications as main surfaces or extensions. They may be supported by 30" end support brackets, 30" cantilever bracket, 30" flat bracket or 30" conference end panel, and by a support column at the rounded end.

Use 18"D pedestal or end panel with desk support under rounded end worksurfaces with recessed grommets. Use 48"D desk support with 63" rounded end and 60"W desk support with 75" rounded end.

Worksurfaces with end grommets may not be supported by conference end panel.

Suspended pedestals may not be used with 1 1/4" worksurfaces.

Rounded end worksurfaces have threaded metal inserts for desk support, end panel each end, and at all bracket locations. End grommet worksurfaces have no pedestal inserts.

### Specification Information

Width dimension (W) refers to width of left-side back edge; depth dimension (D) indicates width of right-side back edge.  
 S - 24"D side edge  
 D - 30"D side edge  
 Specify surface finish.  
 1 1/4" curvilinear surfaces are solid core construction with threaded metal inserts at desk support and all bracket locations.

All worksurfaces are U.L.-listed.

All L-shape curvilinear worksurfaces have three grommets.

### Application Notes

Veneer Group 1 worksurfaces are quartered Techgrain®.

Veneer Group 2 worksurfaces are rift cut Techgrain®.

Veneer Group 3 worksurfaces are narrow heart, flat cut natural veneers.

L-shape curvilinear worksurfaces may be used interchangeably in desk and panel system applications. They may be supported by corner desk supports or by VDT end support bracket kit. Use cantilever bridging brackets or flat brackets to join to adjacent worksurfaces.

L-shape surfaces may also be supported by MNI- end panel in conjunction with desk support, or cantilever bracket in panel planning.

L-shape surfaces are veneer or post-formed plastic laminate on both back edges, matching profile T-mold on curvilinear front, and self-edge on sides.

Curvilinear worksurfaces are available only in 1 1/4" thickness.

L-shape surfaces are 3/8" less than nominal depth for rear wire clearance or privacy screens.

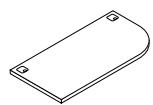

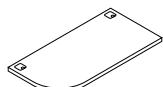

If specifying privacy screens on both back edges, one or both must be 48" back-of-VDT type.

Order Code	Specification Information	Application Notes
Example: <b>MU1-W48A117-L</b>		
<b>MU1</b> Worksurface, 1 1/4"	1 1/4" curvilinear surfaces are solid core construction with threaded metal inserts at desk support, and all bracket locations and pilot holes at pedestal locations.	Wave-end curvilinear worksurfaces may be used interchangeably in desk and panel system applications. They may be supported by straight desk support or cantilever brackets.
<b>W</b> Wave-end curvilinear	Specify surface finish.	Use flat bracket or bridging bracket to join to adjacent 1 1/4" worksurface.
<b>48</b> Width	All worksurfaces are U.L.-listed.	Wave-end surfaces are post-formed on back edge, matching profile T-mold on curvilinear front, and self-edge on sides.
<b>A</b> With grommets	Wave-end worksurfaces have 2 grommets for use with freestanding desk and overhead supports.	Wave-end surfaces are available only in plastic laminate, 1 1/4" thickness.
<b>117</b> Surface finish		Wave-end surfaces are nominal 30"D at left or right, and align with 24"D surface at the other end. Inserts for 24"D pedestal are standard at the wave end.
<b>L</b> Left		Wave-end surfaces are 5/8" less than nominal depth for wire clearance or privacy screens.

## Specification Information

### Grommet/no grommet:

- A- worksurface includes one edge grommet
- B- worksurface does not include grommet

Specify surface finish.

1 1/4" Options worksurfaces are 3-ply, solid core construction with pilot holes at all pedestal, end panel, and bracket locations.

Edge grommets are centered at rear of worksurface.

## Application Notes

18"D worksurfaces are used in panel system applications as shallow main surfaces, extensions or credenza tops. They may be supported at each end by an 18" end support bracket, 18"W cantilever bracket, 18"W desk end panel or 18"D pedestal.

Options worksurfaces cannot be used in conjunction with Network desk supports.

All straight worksurfaces are  $\frac{3}{8}$ " less than nominal depth for rear wire clearance.

Panel-supported 1 1/4" worksurfaces over 48" must be mid-span supported by MB2-C18 bracket, specified separately.

Panel-supported 1 1/4" worksurfaces over 96" must be pedestal or MB2-C24 cantilever bracket supported every 48".

Suspended pedestals may not be used with 1 1/4" worksurfaces.

### Order Code

Example:	<b>LU1-V4830-A-117</b>
<b>LU1</b>	Worksurface, 1 1/4" thick
<b>V</b>	VDT corner
<b>48</b>	Width
<b>30</b>	Depth of return
<b>A</b>	Corner grommet
<b>117</b>	Specify finish

Products indicated with  are available on KnollNow.

### Specification Information

#### Grommet/no grommet:

A- VDT corner includes one edge grommet in back corner. Straight split top has one center back edge grommet.

Specify surface finish.

1 1/4" Options worksurfaces are solid core construction with pilot holes at all bracket locations.

### Application Notes

VDT corners and split top straight surfaces are used in panel system applications. Options VDT corners may be supported by left or right hand 24" cantilever brackets at the rear corner, and cantilever bridging bracket on each side edge (see page 152).

Options straight split top should be supported by 18"D cantilever bracket.

Options worksurfaces cannot be used in conjunction with Morrison Network desk supports.

36"W x 18"D VDT corners accept 18"D returns, 36", 42", and 48"W x 24"D VDT corners accept 24"D returns, 42" and 48"W x 30"D VDT corners accept 30"D returns.

VDT corners are <sup>3</sup>/<sub>8</sub>" less than nominal depth for rear wire clearance.

Split top corners have counterbalanced adjustable keyboard/mouse surface with fingertip control. Front surface adjusts from 5" below to 7" above back surface, and adjusts in tilt from -10° to +10°.

### Order Code

Example: **LU1-C4860SD-117**

<b>LU1</b>	Options worksurface, 1 1/4"
<b>C</b>	L-shape curvilinear
<b>48</b>	Width left
<b>60</b>	Width right
<b>S</b>	Depth of left return
<b>D</b>	Depth of right return
<b>117</b>	Surface finish

Products indicated with ↗ are available on KnollNow.

### Specification Information

Width dimension (W) refers to width of left-side back edge; depth dimension (D) indicates width of right-side back edge.  
 S- 24"D side edge  
 D- 30"D side edge  
 Specify surface finish.  
 1 1/4" curvilinear surfaces are solid core construction with pilot holes at all bracket locations.

### Application Notes

Options L-shaped curvilinear worksurfaces may be supported by left- or right-hand cantilever brackets at the rear corner and cantilever bridging bracket on each side edge. Use mid-span support whenever Options worksurfaces span more than 48".

L-shape surfaces are veneer or post-formed plastic laminate on both back edges, matching profile T-mold on curvilinear front, and self-edge on sides.

Curvilinear worksurfaces are available only in 1 1/4" thickness.

L-shape surfaces are  $\frac{3}{8}$ " less than nominal depth for rear wire clearance or privacy screens.

<b>R</b>	Rounded end
<b>63</b>	Width
<b>30</b>	Depth
<b>B</b>	No grommets
<b>117</b>	Surface finish
<b>L</b>	Left hand

Products indicated with ↗ are available on KnollNow.

### Specification Information

*Grommets/no grommets:*  
 B- worksurface does not include grommets.  
 Specify surface finish.  
 1 1/4" worksurfaces are 3-ply, solid core construction. Plastic laminate worksurfaces have radiused T mold edge.  
 Rounded end worksurfaces have a flat self-edge in the straight end.

### Application Notes

Rounded end worksurfaces may be supported by 30" end support brackets, 30" flat bracket or 30" conference end panel, and by a support column at the rounded end.

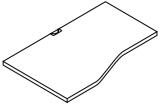

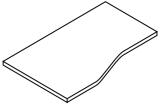

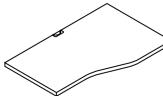

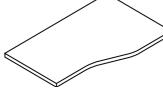

Suspended pedestals may not be used with 1 1/4" worksurfaces. Conference worksurfaces must be supported by support column and flat bracket or bridging bracket to adjacent desk.

Half round with vertical panel attaches to 24"D straight or VDT corner worksurfaces supported by vertical panel.

Order Code	Specification Information	Application Notes
Example: <b>AWM2 C3660S-119-119</b>		
<b>AWM2</b> Worksurface	Dimensions shown in "w" column are nominal width of left back edge.	Worksurfaces are sized for Morrison panel-based applications and may be supported by Morrison panel-planning brackets or end-supported and cantilevered from Currents wall. Extended side may also be supported with Currents C-legs. Underside of worksurface is drilled to accept all Morrison panel-planning brackets, Morrison and Currents pedestals, worksurface stiffeners and Currents C-leg on the extended side.
<b>C</b> Corner	Dimensions shown in "d" column are nominal width of right back edge.	
<b>36</b> Width left		
<b>60</b> Width right		
<b>S</b> Depth left and right	<i>Worksurface depths:</i> S 24"D both sides L 30"D left/24"D right R 24"D left/30"D right	
<b>119</b> Top finish	Specify top finish first, followed by trim finish.	When using Morrison end support brackets, order MB3-EC18, 24 or 30.
<b>119</b> Trim finish	Please refer to the Currents price list for finishes.	Currents worksurfaces for Morrison require stiffener when the span between structural supports exceeds 36". Specify worksurface stiffeners and supports separately (page 137).
		Currents worksurfaces for Morrison cannot be used in conjunction with Morrison Network desk supports.
		Actual worksurface is $\frac{3}{8}$ " less than nominal 24" and 30" for cable clearance.
		All worksurfaces include two edge grommets, centered on back edges of worksurface, with maximum clearance of 1 5/8".

Currents worksurfaces for Morrison  
*P-shape*

Order Code	Specification Information	Application Notes
Example: <b>MCE1W483024N-118</b>	<i>Specify:</i> Grommet / no grommet. Replace the "N" suffix from the pattern number with "G". Add \$20.	Cascade Edge worksurfaces are wrapped with a vinyl sheet heated and pressed around an MDF substrate. They are more susceptible to denting, impact, tearing and marring than conventional high pressure laminate and should be handled with care. Do not drag worksurfaces across any flooring surface during installation. Treat Cascade Edge worksurfaces like veneer worksurfaces and they will perform well under normal conditions. Cascade Edge worksurfaces have a 5 year warranty on defects in workmanship and materials. This warranty does not cover damage occurring during or after installation.
<b>MCE1</b> Cascade edge worksurface		Worksurfaces are 1/16" less than nominal width and 1/8" less than nominal depth for rear wire clearance.
<b>W</b> Wave end		Edge grommets are centered at rear edge of worksurface for maximum clearance of 1 1/8"
<b>48</b> Width		Worksurfaces require support every 48" in width. All supporting hardware is ordered separately.
<b>30</b> Depth left		Worksurfaces may be supported at each end by pedestals or end support "EC" brackets and cantilever brackets matching the worksurface depth. Use cantilever bridging bracket to join to adjacent worksurface.
<b>24</b> Depth right		Panel supported worksurfaces over 48" must be mid-span supported by cantilever brackets, specified separately.
<b>N</b> No Grommet		Order Morrison brackets with wood screws ( suffix -W ).
<b>118</b> Surface finish	<i>Finish:</i> 114 Folkstone Grey 117 Soft Grey 118 Bright White 119 Pumice	Cascade Edge worksurfaces are not drilled for wire management clips, pedestals or brackets.
		Cascade Edge worksurfaces are for panel-based planning only and cannot be used in conjunction with Network desk supports.

## Specification Information

## Application Notes

C-type cantilever brackets support worksurfaces from connector track at the back. Specify left or right.

Brackets with machine screws (suffix-M) are used with MW2- and MU1- worksurfaces.

AUX-C cantilever tie-clips tie together two adjacent cantilever brackets for added stability.

Brackets with wood screws (suffix-W) are used with LU1- and AWM2- worksurfaces.

Y-type spacer brackets secure the end of pedestal-supported worksurfaces to a connector track. Y brackets maintain the  $\frac{3}{8}$ " wire drop and allow pedestal fronts to align with the end of the worksurface.

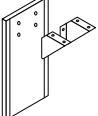

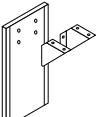

AUX-V VDT support bracket kits support the back corner of a VDT worksurface when side edges are cantilevered with MB2-C brackets.

Products indicated with ↗ are available on KnollNow.

**Specification Information**

<i>Bracket type:</i>	
T-	Desk end panel/worksurface
D-	Conference end panel/worksurface
AUX-D-	Filler panel/worksurface
L1-	Filler panel/desk end panel

**Application Notes**

Brackets on this page are replacement parts for Morrison desk panels.

T-type bracket joins desk end panel to worksurface (included in all end panels).

D-type bracket provides additional stability for conference end panels (included in all conference end panels.)

L-bracket joins end panel to kneehole or return filler (included with all filler panels.)

AUX-D bracket is included in all filler panels greater than 60" wide.

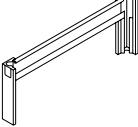

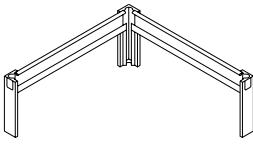

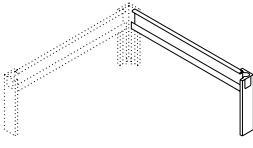

Brackets with machine screws (suffix-M) are used with MW2- and MU1- worksurfaces.

Brackets with wood screws (suffix-W) are used with LU1- and AW2- worksurfaces.

### Order Code

Example: **MN2-D4848-612**

**MN2** Network component

**D** Desk support

**48** Width of desk

**48** Width of return

**612** Paint finish

Products indicated with ↗ are available on KnollNow.

### Specification Information

Specify desk support the width of the worksurface to be supported.

Corner desk support is used under any combination of worksurfaces up to 72". Specify flat brackets separately.

Return support may be connected to straight desk support to form other 90° corner support combinations. Specify return support the sum of the width of the return and the depth of the desk (or width of VDT).

Desk spans wider than 60" require pedestal support at one end of the worksurface.

Specify painted finish.

### Application Notes

Corner legs include two grommets (3" x 2 1/2") in back and side, for cable and power distribution to adjacent desk supports. All grommets have caps, 3 1/4" x 3 1/4". Two grommet sleeves to protect cables are also provided.

Desk supports enclose the back 6" of freestanding Morrison System desks, enabling full horizontal and vertical wire management, and giving the structural support necessary for desk mounted overhead storage.

Straight desk supports are specified the same width as the desk (or VDT + return). Return supports continue the wireway for L-shape desks, supporting the end of the desk and width of the return. 90° corner supports may be used to support desk-and-return or VDT-with-extensions.

Desk supports consist of nominal 6" x 6" corner legs and horizontal modesty/wireway channel 8"H x 1 1/2"D.

Straight desk supports include 2 legs and 1 channel; 90° corner supports include 3 legs and 2 channels. Return supports include 1 leg and 1 channel and connect to straight desk support to form 90° corner. All components are interchangeable and non-handed.

Worksurfaces are supported by desk supports in conjunction with end panels, pedestals or brackets linking to adjacent desks.

MN2- desk support corner legs and wireway channels are interchangeable with original MN1- desk supports.

Hardware kits for beam and leg components include metal inserts. Tops will be drilled for field installation.

**Specification Information**

Morrison 2 +2™ Raceway is a four-circuit, eight-wire modular power distribution system, for use in Morrison panels and Network desk supports. 2 + 2™ Raceway components distribute two 20-amp convenience circuits (A and B), with neutral and ground, and two protected 20-amp circuits (X and Y) with separate neutral and ground.

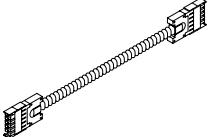

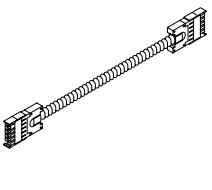

**Application Notes**

Power rails are the primary power distribution component of the Morrison 2 + 2 Raceway. Each rail provides outlet mounting positions and receptacles for branching power connectors at each end. End brackets permit lay-in cabling in the desk support trough.

Rails accept two outlets, 12" from either end of the desk. Multiple outlet rails for 48" - 78" desks accept 4 duplex outlets, 12" and 18" from either end of desk.

<b>MD6</b>	Pedestal
<b>D</b>	Deep
<b>2B1F</b>	Configuration
<b>612</b>	Paint finish for case
<b>612</b>	Veneer/paint finish for drawer fronts

Products indicated with ↗ are available on KnollNow.

## Specification Information

Specify finishes for case and front.	Veneer Group 1 drawerfronts are quartered Techgrain®.
All drawer pulls are matte black.	Veneer Group 2 drawerfronts are figured Techgrain®.
All pedestals are equipped with locks. Order pedestal locks with a KnollKey order form.	Veneer Group 3 drawerfronts are narrow heart, flat cut natural veneers.

## Application Notes

18"D pedestals may be used under any Morrison worksurface. 24"D pedestals can be used under 30" and 36"D worksurfaces, without obstructing wire management through worksurface grommets.

24"D pedestals may also be installed under 24"D surfaces without grommets; 30"D pedestals may be used only under 30"D surfaces without grommets.

Pedestals are bolted into either end of any worksurface over 30"W. Insert locations and case construction permit use of pedestals as worksurface support, with or without universal desk end panels.

One box drawer divider is included with each 2 box, 1 file and 1 box, 1 file pedestal. Drawers accept up to 7 dividers, or 6 stationery insert trays.

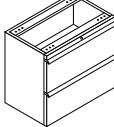

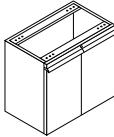

All file drawers accommodate letter width filing front-to-back. 18"D file drawers accommodate legal files side-to-side. 24" and 30"D file drawer pedestals include one file support for legal filing, side-to-side.

Order file supports separately to equip other drawer in 24" or 30" deep 2 file.

### Application Notes

Double-wide pedestals can be used under 18", 24", 30" and 36"D worksurfaces.
2-file pedestals allow legal filing side-to-side or front-to-back.
Double door cabinet includes one adjustable shelf.
30"W pedestals are bolted into either end of any worksurface, 30"W or more. Insert locations and case construction permit use of pedestals as worksurface support, with or without universal desk end panels.
Weight distribution limitations preclude using only double-width pedestals and worksurfaces to create freestanding credenzas.

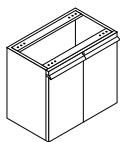

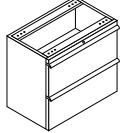

Letter filing partition kits include 2 vertical dividers and 2 movable backs, to allow side-to-side letter width filing.

### Specification Information

Specify finishes for case and front.  
 All drawer pulls are matte black.  
 All pedestals are equipped with locks.  
 Order locks with a KnollKey order form.

Veneer Group 1 drawer fronts are quartered Techgrain®.  
 Veneer Group 2 drawer fronts are figured Techgrain®.  
 Veneer Group 3 drawer fronts are narrow heart, flat cut natural veneers.

### Application Notes

Mobile pedestals include top with finger grip, locking casters, and counter weight. One box, one file mobile pedestal will fit under any Morrison worksurface at desk or machine height.

2 box/file or 2 file mobile pedestals are higher than standard desk height worksurfaces.

One box drawer divider is included with each 2 box, 1 file and 1 box, 1 file pedestal. Drawers accept up to 7 dividers or 5 stationery insert trays.

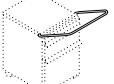

Mobile pedestal handle attaches to either height mobile pedestal top for easier movement around a facility. Handle stores on top of pedestal and unfolds for use.

Products indicated with ↗ are available on KnollNow.

<b>MN2</b>	Network
<b>S</b>	Overhead support
<b>72</b>	Width
<b>17</b>	Height
<b>612</b>	Paint finish

### Specification Information

Specify paint finish.

### Application Notes

Overhead supports are bolted to desk supported worksurfaces with grommets. Overheads may span over end of worksurface and width of return worksurface if grommets and desk support legs align with stanchions.

Overhead supports include 2 stanchions with cover plates, mounting hardware, and full platform for overheads.

Overhead supports are pre-configured for the following combinations of overhead storage units:

Support Overhead width	storage
30"	one 30"
36"	one 36"
42"	one 42"
48"	one 48"
54"	one 54"
60"	one 60" or two 30"
66"	one 30" and one 36"
72"	two 36"
78"	one 36" and one 42"

Stanchions may be equipped with desktop power module (page 164) and stanchion outlets cover (page 159).

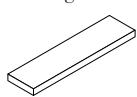

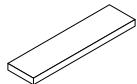

Overhead supports are used only with Morrison overhead cabinets. For desk-mounted Reuter overheads, specify stanchions (page 194).

Example: **LO2-60-612-612-N**

**LO2** Overhead cabinet

**60** Width

**612** Paint finish for case

**612** Surface finish for door

**N** No lock

Products indicated with ↗ are available on KnollNow.

## Specification Information

Order overhead cabinet locks with a KnollKey order form.

## Application Notes

Overhead cabinets are hung from vertical panels with integral brackets. Cabinet door opens over the top of the cabinet. Overhead cabinets cannot be used in Network freestanding applications.

Order vertical dividers separately.

13"D shelves hold binders, books and other reference material.

Bookshelves consist of two steel side panels with integral brackets.

All shelves accept task light fixtures.

For Options overheads or shelves, use MO6-WMSK to wall mount up to 9' of shelves or overheads. Kit includes wall mount rail and one vertical standard. Specify one additional MO6 WMSB for each shelf or overhead.

Wall mount rails may be trimmed to length.

**Morrison Options**

Example:	<b>RO3-OM24-612</b>
<b>RO1-O</b>	Reuter open overhead
<b>M</b>	Morrison panel mounted
<b>24</b>	Width
<b>612</b>	Finish

Products indicated with ✪ are available on KnollNow.

**Specification Information**

Specify finish for case and door.

**Application Notes**

Interior partitions are black painted steel finish.

Door retrofit kits convert an open overhead to an enclosed cabinet and include Reuter overhead door, left and right arm mechanisms, and lock or lock plug.

Reuter storage is a universal product applicable on Morrison or other Knoll systems. Open overheads may be mounted on any combination of vertical panels the same width or up to 12" less than shelf width.

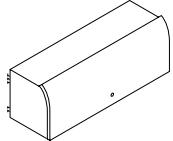

Reuter open overheads may be desk-mounted, mounted on other Knoll systems, cantilevered above panels, or wall-mounted. Specify open overhead with no mounting hardware separately.

Vertical interior partitions may be positioned on 1 1/2" increments of width anywhere across shelf, 1 1/2" from each side. Vertical partitions contain cutouts for mounting three horizontal partitions at 2" increments on either or both sides. Horizontals are suspended between two verticals, and may be positioned end-to-end in any combination up to 3" less than shelf width. Available in sets of 10; 6", 9", 12", 15" widths.

<b>M</b>	Morrison panel mounted
<b>48</b>	Width
<b>612</b>	Case finish
<b>M</b>	Front finish
<b>L</b>	With lock

Products indicated with are available on KnollNow.

#### Specification Information

First suffix is for case, second is door finish.

*Specify finish for case and door:*  
Interior partitions are black painted steel finish.

#### Application Notes

Reuter storage is a universal product applicable on Morrison or other Knoll systems. Overhead cabinets may be mounted on any combination of vertical panels the same width or up to 12" less than cabinet width. Cabinet door rotates above cabinet on side pivots, counterbalanced by two pneumatic cylinders. Two door cabinets have center divider and four pneumatic cylinders.

Reuter overheads may be mounted on other Knoll systems, cantilevered above 42" or 56" Morrison panels, or wall-mounted. Specify Reuter overheads on the next page and mounting options on page .

Vertical interior partitions may be positioned on 1 1/2" increments of width anywhere across shelf, 1 1/2" in from each side. Vertical partitions contain cutouts for mounting five horizontal partitions at 2" increments on either or both sides. Horizontals are suspended between two verticals, and may be positioned end-to-end in any combination up to 3" less than cabinet width. Available in sets of 10; 6", 9", 12", 15" widths.

Ganging bracket (page 195) joins adjacent overheads or shelves for additional stiffness and alignment.

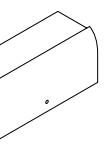

Order locks for overheads with a KnollKey order form. Please note that Reuter overhead cabinets 60"W or wider require two lock cores.

Reuter overhead doors without locks include black, Knoll-logo insert, in the same position.

Insert may be removed to retrofit a lock later.

Specification Information	Application Notes
<i>Specify paint finish for stanchions and upmount brackets.</i>	Reuter overhead cabinets and shelves may be mounted on Network desks or other Knoll systems, upmounted, or wall-mounted. Use bracket kits on this page with Reuter storage without mounting hardware.
Panel mount brackets are painted black finish.	Specify stanchion outlets cover when planning PDC modules and/or power module in overhead support. See page for information on desktop power module.
	Upmount brackets support bottom of Reuter storage 1" or 2" above, or flush with top of corresponding width Morrison, Equity or Reff panel.
	Overhead storage may be centered on, or mount to either side of Equity post. Note that full 6" modular width Reuter storage is wider than Equity centerline-width panel surrounds.
	Specify 22"H privacy screens (to 49"H) to enclose space between overhead and desk.

Ganging bracket

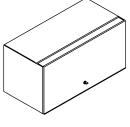

ADA pull

Order Code	Specification Information	Application Notes
Example: <b>RO1-GB</b>		
<b>RO1</b> Reuter overhead	Wall mount frames are painted black finish.	ADA pull mounts to Reuter painted front overhead door to allow seated users to close door easily. Specify one for each cabinet 24"- 48", two for cabinets 60"- 72".
<b>GB</b> Ganging bracket	ADA pull is stainless steel.	ADA pull cannot be mounted on wood front Reuter doors.
Products indicated with ↗ are available on KnollNow.		
	Wall mount frames secure Reuter overhead cabinet or shelf to wall (frame/wall mounting hardware is not included). Frame is concealed behind storage. Use two RO1-WMF2 to wall-mount 66"- and 72"-wide Reuter overheads.	Reuter open shelves 66" and 72"W are for stanchion support only.
		Wall mount wire manager is two-part wire concealment kit, 22"H (medium grey only).
		Ganging bracket joins adjacent Reuter overheads or shelves for additional stiffness and alignment when storage is planned on only one side of a panel run.

Order Code	Specification Information	Application Notes
<b>Example: RO3-A30PL-117-L-117</b>		
<b>RO3</b> Reuter overhead	Specify mounting hardware separately.	Reuter storage is a universal product applicable Knoll systems.
<b>A</b> flat front	Optional anodized aluminum front pull trims the entire width of cabinet door.	Cabinet door rotates above cabinet on side pivots, counterbalanced by two pneumatic cylinders. Two-door cabinets have center divider and four pneumatic cylinders. Vertical interior partitions may be positioned on 1 1/2" increments of width anywhere across shelf, 1 1/2" in from each side. Vertical partitions contain cutouts for mounting up to five horizontal partitions at 2" increments on either or both sides.
<b>30</b> width		Horizontals are suspended between two verticals, and may be positioned end-to-end in any combination up to 3" less than cabinet width. Available in sets of 10; 6", 9", 12", 15" widths.
<b>P</b> with pull		Order locks for overheads with a KnollKey order form. Please note that Reuter overhead cabinets 60"W or wider require two lock cores.

## Order Code

Example: RT1-TD36-L-612

**RT1** Reuter task light

**T** High efficiency

**D** With dimmer

**36** Width

**L** Cord exit left

**612** Paint finish

## Specification Information

Specify left or right cord exit.

Specify suffix -NY for New York City installations. ↗

Specify suffix -CH and add \$45 list for City of Chicago installations. ↗

Specify finish.

Products indicated with ↗ are available on KnollNow.

## Application Notes

Reuter task lights mount into a recess in the underside of Reuter overhead cabinets and Reuter open shelves. Cabinet width must be at least 6" wider than task light width.

High efficiency lights include Octron lamp, 9' grounded cordset, un tinted batwing lens, rocker switch, and integral mounting hardware.

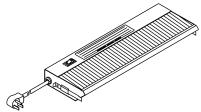

Task lights include fluorescent cool white lamp, 9' grounded cordset, prismatic lens, rocker switch and integral mounting hardware.

Lights with dimmer include 3-position rocker switch.

# T-5 Task lamp for Reuter overhead storage

Morrison

description	type	w	d	h	pattern no.	black
T-5 task lamp	For 30"-72" cabinet	22 1/2"	4 1/2"	1 1/2"	<b>RT1S24(L/R)</b>	\$360.
	For 42"-72" cabinet	34 1/2"	4 1/2"	1 1/2"	<b>RT1S36(L/R)</b>	379.
	For 60"-72" cabinet	46 1/2"	4 1/2"	1 1/2"	<b>RT1S48(L/R)</b>	394.

## Order Code

Example:	<b>RT1-S36L</b>
<b>RT1</b>	Reuter task light
<b>S</b>	T-5 lamp
<b>36</b>	Width
<b>L</b>	Cord exit left

## Specification Information

- Specify left or right cord exit. All housings are black.
- Specify suffix -NY for New York City installations.
- Specify suffix -CH and add \$45. list for City of Chicago installations.

## Application Notes

Reuter T-5 task lamps mount into a recess in the underside of Reuter overhead cabinets and Reuter open shelves. T5 task lamps can also mount to wood overhead storage with T5 mounting kit. Cabinet width must be at least 6" wider than task light width.

Task lamps include T-5 lamp, electronic ballast, 9' grounded cordset, prismatic lens, rocker switch and integral mounting hardware.

Order Code	Specification Information	Application Notes
Example: <b>MZ1-B6619-15-W210/2</b>	<i>Surface type:</i>	
<b>MZ1</b> Morrison Network privacy screen	10- Fabric group 10	Back of worksurface screens provide visual barrier and tackable surface from underside of worksurface to a height of 42", 46" or 49".
<b>B</b> Back of worksurface	15- Fabric group 15	
<b>66</b> Width	20- Fabric group 20	Screen widths should correspond to straight worksurface width, or sum of VDT corner and return widths.
<b>19</b> Height	30- Fabric group 30	Use back of worksurface screen for VDT applications where one side is backed by a vertical panel.
<b>15</b> Surface type and group no.	35- Fabric group 35	VDT worksurfaces will accept back screens on only one back edge.
<b>W210/2</b> Upholstery	40- Fabric group 40	Back screens may not be used at the end of a straight worksurface; use end screens in this application.
Products indicated with  are available on KnollNow.	45- Fabric group 45	Privacy screens are not available in a combination of fabrics.

\* Morrison Network screens may be used with Plannable Upstart tables. Refer to front of Upstart price book for planning information.

Products indicated with  are available on KnollNow.

Back of worksurface screens are full dimension: two smaller screens may be substituted for a larger one. For example, if using fabric grades 20-70, specify two 36" screens for a 72" surface.

Between back-to-back straight or VDT worksurfaces specify a single 3/4" back screen. This allows back-to-back 23 5/8"D or 29 5/8"D worksurfaces to plan on a precise 6" module.

15" high screens are used for a 42" horizon.

19" H screens are used to fill in space between worksurface and Morrison overhead.

22" H screens fill the space between worksurface and Reuter overhead.

All but shared end screens start at the bottom of the worksurface.

Privacy screens are supported by brackets fastened at worksurface inserts. Privacy screens include mounting brackets, insert kit, and stiffener clip.

For replacement screen stiffeners see Accessories page.

Privacy screens may be specified to achieve ASTM E-84 Class "A" flamespread rating.

Products indicated with  are available on KnollNow.

Products indicated with ↗ are available on KnollNow.

## Specification Information

### Surface type:

- 10- Fabric group 10 ↗
- 15- Fabric group 15 ↗
- 20- Fabric group 20 ↗
- 30- Fabric group 30
- 35- Fabric group 35
- 40- Fabric group 40
- 45- Fabric group 45

### End screens specify:

- W- For use with 1 3/4" thick worksurfaces
- U- For use with 1 1/4" thick worksurfaces

\* Morrison Network screens may be used with Plannable Upstart tables. Refer to front of Upstart price book for planning information.

## Application Notes

End screens must be used at the end of straight or rounded end worksurfaces.

End screens for outside application cover the end of the worksurface and align with adjacent back screens.

End screens for shared application begin above the worksurface to allow modular planning when straight worksurfaces are end-to-end.

When specifying end screens under 64"H panel mounted Morrison Network overheads with task lights, only screens to 42"H will fit.

With 64"H panel-mounted Reuter overheads any screen up to 49"H may be planned perpendicular to storage.

Privacy screens are supported by brackets fastened at worksurface inserts. Privacy screens include mounting brackets, insert kit and stiffener clip.

15" high screens are used for a 42" horizon.

19"H screens are used to fill in space between worksurface and desk mounted Morrison Network overheads.

22"H screens fill the space between worksurface and desk mounted Reuter overheads.

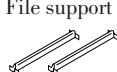

All but shared end screens start at the bottom of the worksurface.

Privacy screens may be specified to achieve ASTM E-84 Class "A" flamespread rating.

# Kiosk vertical storage freestanding

<b>MV3</b>	Vertical storage
<b>D</b>	30" deep
<b>64</b>	Height
<b>F</b>	Front access
<b>R</b>	Right door hinge
<b>V</b>	Case and front finish

## Specification Information

Specify Melamine finishes for sides, top, and back of Options Kiosk.

Options Kiosk fronts may be specified in any standard Morrison painted finish. Sides, top and back are available in melamine only. Kiosk storage is available in full painted finishes only.

- S- 24"W x 24"D
- D- 24"W x 30"D
- L- Hinged door for coats (shelves) on left
- R- Hinged door for coats (shelves) on right

All kiosks have KnollKey lock for door, and internal sliding lock switch for files.

## Application Notes

Options Kiosks are freestanding wood construction vertical storage with four Morrison file drawers, hinged door cabinet, and coat storage with door. Options Kiosks have painted fronts and melamine sides, back and interior. The melamine top is finished, with lock cams and a few pilot holes visible.

Kiosks are identical to Options kiosks but painted on all surfaces.

64"H Kiosks include cabinet with hinged door over the file drawers.

18"H top cabinet attaches to 56"H Kiosk to create 74"H storage unit. Top cabinet includes front access hinged door storage over the coat storage and open shelves accessible from the sides.

File supports for kiosk drawers must be ordered separately.

Flat top caps may be specified separately to coordinate with Morrison panel top caps; vault-shaped cupolas may also be used to prevent storage above kiosk.

Kiosk back panels and extended depth top caps or cupolas are used with adjacent vertical panels.

Back panel is notched to connect to panel with brackets and trim included.

Specify straight connector track same height as vertical panel, and hi/low top cap for post configurations, in width of adjacent panel.

Products indicated with ↗ are available on KnollNow.

#### Specification Information

Specify paint finishes.

Coathooks engage below the top cap at any point on the vertical panel.

Pencil drawer secures underneath a worksurface.

Stabilizer foot attaches to connector track to stabilize panel runs.

Carpet grips snap under panel glides to prevent panel runs from sliding. Glide rotates in carpet grip to permit leveling.

# Selling Policy

	<p>This Selling Policy supercedes all previous selling policies. Prices, discounts and product offerings are subject to change without notice.</p>
<b>Terms &amp; Conditions of Sales</b>	<p>Sales by Knoll, Inc. or Knoll North America Corp. ("Seller") of Knoll Product Lines (hereinafter "Products") within the United States and Canada are made only on the terms which are contained in this Selling Policy. Seller hereby gives notice of its objection to any different or additional terms and conditions. This sale is expressly conditional upon Purchaser's assent to the terms and conditions set forth below. Additional terms and conditions may apply to KnollStudio and KnollTextiles orders. These terms and conditions may be modified or supplemented only by a written document signed by an authorized representative of Seller. These terms and conditions supercede any prior and/or contemporaneous agreements or correspondence between Purchaser and Seller. Written quotations expire thirty (30) days from the date of issuance and can be withdrawn by written notice anytime during that period. Where Purchaser and Seller have entered into the Knoll Electronic Terms and Conditions, all orders, acknowledgements, invoices and other business communications placed or transmitted in accordance with the Knoll Electronic Terms and Conditions shall be deemed to be in writing and signed and shall be valid for all purposes as if they were originated and maintained in documentary form.</p>
<b>Ordering Information</b>	<p>All orders must be in writing. The product pattern number(s) contained on Seller's order acknowledgement shall be the final expression of the order.</p>
<b>Order Confirmation</b>	<p>A purchase order is not binding on Seller until Purchaser has received Seller's order confirmation or acknowledgment.</p>
<b>Pricing Policies</b>	<p>List prices are subject to change without notice.</p> <p>List prices shall be those prices in effect on the date of receipt of a complete purchase order unless shipment is requested more than ninety (90) days after order entry in which case prices in effect on the date of shipment apply. List prices include specified freight costs. Unless specified in writing by Seller, no other charges are included in Seller's list prices.</p>
<b>Taxes</b>	<p>All sales, use, excise and other taxes applicable to the sale of the Products shall be paid by Purchaser. If Purchaser claims an exemption from any tax, Purchaser shall submit to Seller the appropriate exemption certificates.</p>
<b>Terms of Payment</b>	<p>Payment for one hundred percent (100%) of the net order amount is due within thirty (30) days of the date of invoice, which is issued upon shipment. In case of any discrepancies, such as shortages, and Seller is notified in writing within ten (10) days of receipt of Product, only that portion may be deducted and the balance paid. For orders greater than \$100,000 net, a one-third (1/3) deposit is due at the time of order placement, with the remainder due within thirty (30) days of the date of invoice.</p> <p>KnollStudio orders less than \$2,000 require payment for one hundred percent (100%) of the net order amount (including any applicable sales tax and charges for inside delivery, special packaging, etc.), due at time of order placement. For KnollStudio orders greater than \$2,000, a one-half (50%) deposit is due at time of order placement with the remainder (including any applicable sales tax and charges for inside delivery, special packaging, etc.) due prior to shipment.</p> <p>If, in the judgment of Seller, Purchaser's financial condition does not justify the terms of the payment, Seller may require full or partial payment in advance.</p> <p>Past due accounts shall be charged one and one-half percent (1.5%) per month, or the highest rate permitted by law, whichever is less, and will be added to the outstanding balance. In the event Purchaser defaults on payment, Purchaser shall be liable for all collection costs, including reasonable attorney's fees and costs.</p>
<b>Changes and Cancellation</b>	<p>Purchase orders may not be changed or cancelled, in whole or in part, without prior written consent of Seller. Changes may effect delivery dates. Expenses incurred because of changes shall be charged to Purchaser. In the event of cancellations, Purchaser will be liable for reasonable cancellation charges established by Seller. Orders for special Product, orders including "COM" (hereinafter defined) material and orders pursuant to expedited delivery programs, may not be canceled.</p>
<b>Freight Prepaid</b>	<p>Freight is prepaid and included in the price of all Products, except KnollTextiles, within the 48 contiguous United States and Canada, excluding the Yukon, Northwest Territories, Nunavut and Newfoundland. Packing is tested for rigorous motion and transportation but is not guaranteed to protect furniture from conditions over which the Seller has no control. If special packaging is required for any reason, please consult with your sales representative or dealer. Seller shall select the method of shipment and routing. All shipments shall be tailgate deliveries. Freight for all KnollTextiles orders is prepaid and added to the invoice.</p>
<b>Delivery/Freight Charges</b>	<p>Shipments outside the contiguous 48 United States and Canada shall be shipped F.O.B. Origin.</p> <p>For shipments outside the contiguous United States and Canada, Purchaser is responsible for the cost of freight from point of embarkation, including any handling and transportation charges incidental to loading at the point of departure and unloading at the final destination.</p> <p>Conditions beyond the control of Seller, including weather, available facilities and traffic conditions, may affect exact time of delivery. Seller shall not be responsible for specific carrier delivery date or time unless it has made a specific delivery commitment, in writing.</p> <p>Nonstandard methods of shipment and/or additional services are available upon request. Purchaser will be billed for the differential cost of any special services in excess of standard surface carrier freight costs. Premium charges, at Purchaser's request, will be added for airfreight, exclusive use of vehicle and extra, export or special packaging. Accessorial charges will be added for inside delivery, extra labor, reconsignment and redelivery.</p> <p>Partial shipments may be made and invoiced by Seller.</p>
<b>Claims</b>	<p>All shipments for all Knoll Products within the contiguous United States and Canada are F.O.B. Origin. Risk of loss passes to Purchaser at time of delivery to carrier. Purchaser shall inspect all Products upon receipt and notify Seller within ten (10) working days after receipt of any damage or defects which are, or should be, apparent from an inspection of the Product and its packaging. Failure of Purchaser to make a claim against carrier or notify Seller during the ten (10) working day period shall constitute acceptance of the Products and waiver of any apparent defects, errors or shortages. Seller will agree to repair or replace Product damaged in shipment if Purchaser has notified Seller of freight damage within ten (10) working days after receipt and assigns its rights against the carrier.</p>
<b>Seller's Security Interest</b>	<p>Until Seller receives the full payment for the Product, Seller shall have a security interest in the Product. Purchaser agrees to perform all acts, including but not limited to the execution and filing of documentation, which may be necessary to perfect and assure the security interest of Seller.</p>
<b>Returns</b>	<p>The return of Products without a written authorization by Seller shall not be accepted. To receive authorization for Product return, please call Customer Service. All Products that are returned pursuant to a valid authorization shall be subject to a twenty-five percent (25%) of list restocking charge. Products not currently offered for sale by Seller (including COM) shall not be authorized for return. All returned Products must be unused, in original condition and in the original Seller packing cartons. No refund or credit shall be given for damaged Products.</p>
<b>Held Orders/Storage</b>	<p>If Purchaser requests that an order be held or delayed, prices and terms and conditions in effect at the time of shipment shall apply. If Purchaser requests a delay after the time when Seller can defer production, Purchaser will be invoiced for the Product, payable in accordance with standard terms, when the order is ready for shipment. Seller may transfer the Product to storage, in which case all expenses incurred in connection with storage, including demurrage, preparation for storage, storage charges and handling shall be payable by Purchaser upon submission of invoices by Seller. Risk of loss to the Product shall pass to the Purchaser upon delivery of the Product into storage.</p>

# Selling Policy

---

<b>Customer's Own Material</b>	A Purchaser who requests a fabric or other surface material not standard to Seller's line of Products ("COM") must submit samples of the requested material to Seller prior to entry of a purchaser order. Seller shall determine if the material is suitable to its manufacturing processes and meets any requirements of Underwriters Laboratories. If the COM is acceptable, Seller will then establish a price for using the COM or the Product in question. For a description of the procedures for submitting samples and testing, contact customer resources or your sales representative. Seller shall have no responsibility for the appearance, condition, performance, durability, colorfastness or any other physical attribute of the COM. Purchaser shall indemnify and hold Seller harmless for any damages, injuries or losses arising out of or related to use of the COM on the Product.
<b>Warranty</b>	<p>Seller warrants to the original Purchaser only that the Products Seller manufactures and sells to Purchaser are free of defects in workmanship and materials, during the applicable warranty period set forth below.</p> <p>Should any failure to conform with this limited warranty appear to a Product listed below during the applicable warranty period from the date of shipment, Seller shall, upon prompt written notice, repair or replace, at its option and costs, the affected part or parts.</p> <p><i>Product and Period of Warranty</i></p> <p><i>Lifetime:</i> AutoStrada, Calibre, Crinion Open Table, Currents, Dividends, Equity, Morrison, Reff laminate and other non-wood components (except cascade edge worksurfaces, operational parts, controls, electrical, special or custom products, see below)</p> <p><i>10 Years:</i> AutoStrada, Crinion Open Table and Reff wood components, wood casegoods, Interaction tables (except height adjustment mechanisms for Counterforce, crank-adjustable, and split-top tables and worksurfaces, see below), Reuter overheads, Reuter vertical storage, Bulldog, Chadwick, Essentials Work Chairs, Life, RPM and Sapper seating structural and operational parts, controls, casters, pneumatic cylinders (except seating upholstery, finishes and labor, see below)</p> <p><i>5 Years:</i> Operational parts, controls, electrical (except light ballasts and bulbs, see below), cascade edge worksurfaces, special or custom product, wood veneer products, A3, Currents handcrank, Interaction Counterforce, Interaction crank-adjustable, and split-top mechanisms, KnollStudio, KnollExtra adjustable keyboard supports, VDT carousel, monitor platform, equipment storage drawers and all universal storage drawers, Open Up, Visor and SoHo seating structural and operational parts, controls, pneumatic cylinders (except seating upholstery, finishes and labor, see below)</p> <p><i>3 Years:</i> Upholstery, finishes and labor to repair the following chairs: Bulldog, Chadwick, Life, Open Up, Parachute, RPM, Sapper and SoHo.</p> <p><i>2 Years:</i> All other KnollExtra product</p> <p><i>1 Year:</i> Light ballasts and bulbs and Equity fiberglass panels, seating upholstered armpads and soft armpads, Visor finishes and labor to repair.</p> <p>This warranty does not apply to:</p> <ul style="list-style-type: none"><li>• Damage caused by a carrier other than the Seller.</li><li>• Normal wear and tear or acts or omissions of parties other than Seller (including user modification).</li><li>• COM or other third party materials applied to Products.</li><li>• Products not installed by or under the auspices of a certified dealer of Seller.</li><li>• Dramatic temperature variations or exposure to unusual conditions.</li><li>• Except as specifically noted above, textiles and upholstery supplied by KnollTextiles (consult current KnollTextiles price list for applicable warranty).</li><li>• Labor to repair or replace Essential Work Chairs affected part or parts, unless affected part or parts are returned to Seller with freight charges prepaid.</li></ul> <p>Natural variations occurring in wood, marble, and leather shall not be considered defects, and the Seller does not guarantee the colorfastness or matching of the colors, grains or textures, or surface hardness of such materials. The Seller also does not guarantee the colorfastness of fiberglass panel surfaces.</p> <p>THE EXPRESS WARRANTIES CONTAINED HEREIN ARE IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTIES OF MERCHANTABILITY AND FITNESS FOR PARTICULAR PURPOSE AND ALL OTHER WARRANTIES ARISING FROM COURSE OF DEALING OR USAGE OF TRADE.</p> <p>The remedies provided above are the Purchaser's sole remedies for any failure of Seller to comply with its obligations regarding the workmanship of its Products. Correction of any nonconformity in the manner and for the period of time provided shall constitute complete fulfillment of all liabilities of Seller, with respect to or arising out of the Product furnished hereunder.</p>
<b>Delay/Force Majeure</b>	Seller shall not be liable for failure to perform or for delay in performance due to fire, flood, strike or other labor difficulty, act of God, act of any governmental authority or of the Purchaser, riot, embargo, fuel or energy shortage, wrecks or delay in transportation, inability to obtain necessary labor, materials or manufacturing facilities from usual sources or failure of suppliers to meet their contractual obligations, or due to any cause beyond its reasonable control. If any such event occurs, Seller may extend delivery dates by a period of time necessary to overcome the effect of such delay, allocate available Product or cancel any purchase order.
<b>Compliance with Law</b>	PURCHASER IS SOLELY RESPONSIBLE FOR COMPLIANCE WITH ALL APPLICABLE FEDERAL, STATE AND LOCAL LAWS, ORDINANCES, REGULATIONS, RULES AND STANDARDS RELATING TO THE INSTALLATION, MAINTENANCE, USE AND OPERATION OF THE PRODUCTS.
<b>Patents</b>	Subject to the following provisions, Seller shall, at its own expense, defend or, at its option, settle any claim, suit or proceeding brought against the Purchaser, and/or its vendees, mediate and immediate, so far as based on an allegation that any Product or any part thereof furnished hereunder constitutes a direct or a contributory infringement of any claim of any patent of the United States or Canada. This obligation shall be effective only if Purchaser shall have made all payments then due hereunder and if Seller is notified promptly in writing and given authority, information and assistance for the defense of said claim, suit or proceeding. Seller shall pay all damages and costs awarded in such suit or proceedings so defended.
<b>Limitations of Liability</b>	<p>The foregoing indemnity does not apply to the following:</p> <ul style="list-style-type: none"><li>• Products supplied according to a design other than that of Seller, and which is required by the Purchaser.</li><li>• Combination of the Product with another product not furnished hereunder unless Seller is a contributory infringer.</li><li>• Any settlements of a suit or proceeding made without Seller's written consent.</li></ul> <p><b>SELLER, ITS CONTRACTORS, AUTHORIZED DEALERS AND SUBCONTRACTORS OR SUPPLIERS OF ANY TIER SHALL NOT BE LIABLE TO PURCHASER FOR ANY SPECIAL, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING FROM A BREACH OF THIS AGREEMENT.</b></p> <p>Purchaser's remedies set forth herein are exclusive and the liability of Seller with respect to the breach of this agreement or any contract entered into between the parties pursuant hereto shall not exceed the price of the Product or part on which such liability is based.</p>

# KnollKey Lock Program

## KnollKey Lock Program General Information

Following is the KnollKey lock policy, applicable to all products.

### Key-alike

For the convenience of the user, furniture may be keyed alike at no charge. Write "Key-alike" in the description of your purchase order for any pedestal, overhead, file or other item you wish to have keyed alike.

Using the key-alike instructions, order cores and keys as line items on your purchase order. Do NOT submit a key-alike form. The Knoll East Greenville Lock Center will select key numbers from the standard range of K 001 - K 250. Key numbers will not be repeated unless over 250 sets are ordered. Lock cores keyed-alike will ship separately from the product, ready for field installation.

There is no charge for key-alike orders if placed with the furniture order.

**IF THE KEY-ALIKE ORDER IS NOT PLACED AT LEAST TWO WEEKS PRIOR TO THE FURNITURE SHIP DATE, A \$50 HANDLING CHARGE AND AIR FREIGHT CHARGES WILL APPLY.**

If product is ordered and shipped random-keyed, additional lock cores for key-alike are billable.

### Random-Keying

To specify product keyed-random, write "key-random" in the product description. Random-keyed product is shipped with the lock core factory installed. A shrouded key is included. Random means no effort has been made to match key numbers, or to make them different.

### Keys

A Knoll shrouded key is shipped with every lock core. 250 Key numbers are available. For numbers above 250, contact Custom Product Development. Additional keys and key blanks are available. See service parts for more information.

### Master Keying

Knoll locks can be controlled by means of a master key. There is no additional per-lock charge for master keying. A letter of approval from the client must accompany orders for master keys.

### Installing Lock Cores

Lock cores can be installed or removed in the field by using a change key. Cores must be in the unlocked position to be removed. See service parts for change key pattern number and pricing.

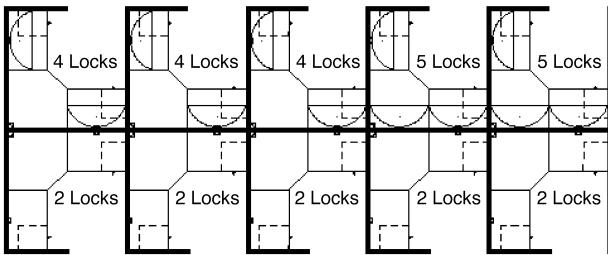

### Lock Distribution

All orders for key-alike lock cores/keys are packaged and shipped from the East Greenville Lock Center, regardless of where the pedestals, overhead, or other units are produced. KnollNow and random keyed product will have cores factory-installed.

## How to Specify Key-Alike

Following is an example of how to specify key-alike for a cluster of 10 workstations.

**Step 1** - Using the project floorplan, count the number of locks in each workstation.

**Step 2** - Count the number of workstations with the same quantity of locks. Group together the workstations with a like number of locks.

5 workstations with 2 locks per station

3 workstations with 4 locks per station

2 workstations with 5 locks per station

**Step 3** - For the first group (5 sets of 2 locks), enter the number of workstations in the quantity column.

Qty	Pattern #	Description	Unit List	Ext. List
5				

**Step 4** - Then enter the pattern number "KSPEC\_ \_" and add a suffix for the number of locks for that group (i.e., for 2 locks per station, add the suffix "2"). Up to 30 lock cores are available in a set (i.e., KSPEC 30).

Qty	Pattern #	Description	Unit List	Ext. List
5	KSPEC 2	Set of 2 cores/keys	N / C	N / C

**Step 5** - Repeat for other groups.

Qty	Pattern #	Description	Unit List	Ext. List
5	KSPEC 2	Set of 2 cores/keys	N / C	N / C
3	KSPEC 4	Set of 4 cores/keys	N / C	N / C
2	KSPEC 5	Set of 5 cores/keys	N / C	N / C

Your Key instructions are complete.

Knoll will select key numbers for each set from 250 available numbers.

Additional key numbers are available through Custom Product

Development. **For additions to existing installations, specify desired key numbers in the description.**

## Service Parts

Pattern #	Description	List Price
KKEY_ _ _	Shrouded Key Specify key number desired	\$5
KBLANK	Shrouded Key Blank	\$5
KSPECB_ _ _	Retrofit Universal Core/Key Specify key number desired	\$18
KCHANGE	Change Key	\$5
KMASTER*	Master Key	\$5

\*Note: A letter of approval on company letterhead from the client must accompany all orders for master keys.

# General Ordering Information

---

## The Products

This guide encompasses all standard products for this product group.

## Sizes

Dimensions listed in this guide are indicated as:

H = height

W = width

D = depth

Dia. = diameter

Rad. = radius

## Pricing

All prices shown are list.

## How to Order

Select pattern numbers and quantities required for your complete installation. Product questions can be addressed in the specific sections of this guide or by contacting your sales representative or customer resource representative at 1-800-343-5665.

Next, select options (if required), along with colors and finishes appropriate to each product. Reference the Finishes and Fabrics pages for color designations.

On large installations, an item's "designated area" can be specified to assist in product organization and handling.

To expedite complete / correct entry of your order, be certain all pattern numbers, quantities, colors and area identifications are completely specified. Also, include complete purchase order numbers, bill-to and ship-to addresses, a contact name and specific factory shipping dates required.

## Mail all orders to:

Knoll, Inc.

1235 Water Street

P.O. Box 157

East Greenville, PA 18041

Attention: Order Entry

Once your order is entered at Knoll, an acknowledgment will be mailed to you. You will be advised of your scheduled shipping date within five days of the original acknowledgment. If it is necessary to revise your order, please contact your customer resource representative.

---

## Sustainability Statement

---

Sustainable design is a key component of Knoll's environmental focus. Our commitment to social responsibility and a healthy environment has prompted us to further articulate our longstanding environmental programs and, with encouragement and support from our colleagues in the industry, we have re-energized our focus on such "green" initiatives as life cycle analysis and LEED™ certification. Knoll is proud to have contributed to projects that have received LEED certification from the U.S. Green Building Council.

For the latest information on Knoll products that help our customers achieve LEED certification, log on to knoll.com, click on "About Knoll" and then "Environmental Focus."
