# Knoll and Sustainable Design

---

Each year Knoll sets key initiatives in our journey to sustainability. We are members of a global consortium on energy, have adopted a scientific, metrics-based approach to sustainable product design, and maintain a leadership position in establishing universal, verifiable, sustainability standards for our industry.

Knoll promotes independent third-party certification because it provides the most impartial and trustworthy foundation for industry-wide environmental compliance. Certification by established and respected third parties ensures that all manufacturers are held to the same high standards and that customers can trust a company's declaration about the environmental benefits of its products. Knoll third-party partners include: the International Standards Organization (ISO); Forest Stewardship Council (FSC®); Rainforest Alliance; GREENGUARD® Environmental Institute; and The Business and Institutional Furniture Manufacturer's Association (BIFMA) level® certification from Scientific Certification Systems (SCS).

In addition, Knoll is aligned with the U.S. Green Building Council and can help companies, healthcare organizations and educational institutions achieve Leadership in Energy and Environmental Design (LEED®) workplace certification.

## Global Climate Change

- Knoll is a sponsor of the Clinton Global Initiative, which brings together a community of global leaders to devise and implement solutions to some of the world's most pressing challenges, including environmental change.
- Knoll has a comprehensive Energy Management Program to increase energy efficiency in products and processes.

## Life Cycle Assessment (LCA) Tool

- Life Cycle Assessment is a science-based measurement of a product's environmental impacts throughout its life cycle, from raw materials sourcing through manufacture, shipping, use and re-use or end-of-life. LCA enables cradle-to-cradle implementation of sustainable practices.
- Knoll has partnered with The Green Standard.org to develop an affordable, universal ISO-compliant computer-based LCA tool that can be used by the entire contract furniture industry and is partnering on the development of an Environmental Product Declaration System (EPDs) for Knoll products. EPDs are verified documents containing LCA results and additional environmental performance information about a product.

## Setting Industry Standards

- Knoll partners with MTS (The Institute for Market Transformation to Sustainability) to develop the SMaRT® Consensus Sustainable Products Standards, a set of consensus-based sustainable product standards based on the LEED® model, for all building products, fabric, apparel, flooring and carpet. MTS, the developer of SMaRT®, is an accredited American National Standards Institute (ANSI) standard developer.
- Knoll also partners with BIFMA (Business and Institutional Furniture Manufacturers Association) to promote level® sustainability standards for the contract furniture industry.
- Knoll has established FSC® (Forest Stewardship Council) certified wood as the standard for general office open plan office systems, casegoods and tables.
- Knoll has launched Full Circle, a resource recovery program developed with ANEW, to help customers extend the life cycle of surplus furniture, fixtures and equipment (FF&E) in an economically, socially and environmentally responsible manner.
- Our goal is to encourage all manufacturers in the contract furniture industry and related industries to adopt standards that will lead to sustainable products and practices.

*For more information about Knoll and sustainable design, visit [knoll.com/environment](http://knoll.com/environment).*

Currents creates dynamic, advanced performance work environments from coordinated, independent elements – Service Walls, Fence frames, plannable desks, mobile storage – and existing Knoll office products.

Currents workspaces may be spine-supported or freestanding, or planned in combination with conventional panel systems.

### Currents Service Walls

Currents Service Walls form the structural core and primary path of services distribution for a cluster of workstations. Currents Service Walls may also create borders for team workspaces, conference areas, or corridors. Service Walls are 5" thick, and are available in three heights: 39" for seated visual access; 48" for seated privacy, the most versatile height for open plan areas requiring some overhead storage; and 64" for standing privacy in executive or conference areas.

Service Walls are composed of frames and covers. Frames include studs on 12" centers, base raceway with levelling glides, crown and base. Frames may be specified with 1"H compact crown or 4"H standard crown. All studs have brackets to support covers at 5", 21", 30", 39", 48" and 64" above the floor. Crown and raceway covers, structural base covers from 5" to 21" above the floor, and covers above 21" must be specified separately.

Structural base covers enable perpendicular panels, worksurface supports, or outriggers to be attached at any point. Structural base covers may be painted steel, perforated, or upholstered.

Wall covers above 21" snap into wall frame brackets at 12" intervals, and are removable without tools. Covers may be painted, upholstered, acoustical/tackable upholstered, cable tray, slat wall, or marker surface.

Currents Walls plan in any combination of 48", 60" or 72" widths corresponding to the total length of Wall required. Add outriggers, T-end and L-end panels, or 90° or 120° post connections at each end of Service Wall spine. Straight connectors are included with each frame kit to join frames of the same height in a straight line. High-low straight connectors are available separately. Service Walls require outriggers or perpendicular systems panels every 8'.

Power components are specified separately. Knoll universal 2+2 or 3+3 power components may be installed in the base of the Wall or at worksurface height. Base power rails accept two duplex outlets on each side of a panel at raceway height. Desk-height outlet modules accept two duplex outlets on each face above or below the worksurface. One or two modules (four duplex outlets each side) may be located in any 12" wide stud bay. Locate outlet modules and related 12"W outlet covers before specifying widths of adjacent panel covers.

The interior of the Wall between 21" and the crown offers unobstructed, 1" deep, lay-in cabling on each surface. Vertical wire management and excess cord capability is unobstructed 2½" x 10" between studs.

Service Walls with standard 4"H crown enable upmounted shelves, overhead storage cabinets, and canopy lighting at any point on one or both sides. Upholstered or frameless glass add-up panels fit into a center channel anywhere along the crown for 12", 21" or 28" of additional enclosure.

Stackable add-up panels are also available in upholstered, marker or glazed surface. First up panels are 12", 21" or 28" high; next up stacking panels are 16" high.

First up panels can be mounted on any 3" increment along Service Wall crown, or correspond in width to linkable screens.

### Wall mounted components

Worksurface supports, perpendicular linkable screens, and systems panels may be connected to the Currents Wall at any point. Mobile screens are also available, in an upholstered surface.

Currents linkable screens, in glazed, upholstered or marker surface, define workstations and extend the Service Wall horizon. Linkable screens connect in L, T, X, Y and V configurations and accept stackable add-up panels. First up panels are 16", 25" or 32"H. Next up panels are 16"H.

Currents worksurfaces are designed for computer use as the primary work activity. Deep corners are shaped for large monitors, and include wide keyboard/mouse areas. Straight worksurfaces feature softly curved or flat fronts. Extended corners incorporate an adjacent work area and a computer corner into a single, uninterrupted surface. Universal worksurfaces include a steel stiffener for high load capacity and cord management.

Service Walls cantilever worksurfaces up to 24"D, or provide end support for any size worksurface. Support columns, independent C-legs, and floorstanding pedestals are also available for worksurface support. Cantilevers are adjustable in 1" increments for 24"-34"H worksurface. End support brackets and C-legs are fixed height for 28"H worksurface, or adjust for 24"-34" worksurface height.

Service Wall standard height 4"H crowns can upmount open shelves, overhead storage, task and ambient lighting, and add-up panels.

Service Wall standard height 4"H crowns can upmount or downmount Reuter overhead storage, open shelves, or Equity overhead at any point. Reuter storage and Equity overheads can only be downmounted from Walls with 1"H compact crown. Brackets are available to downmount Morrison Options, Series 2 for Morrison, Dividends, Series for Dividends or Equity overhead cabinets from 64"H Service Wall with either compact or standard crown.

**Currents Desks**

Currents desks are freestanding furniture elements optimized for the high-mobility, computer-based office. Currents corner desks and mobile pedestals can work together to form efficient, two-element workstations.

Currents desks are height-adjustable. Pin-set version has range of 24" to 30"H in 1" increments. Handcrank version lets the user adjust continuously from 24" to 34"H. Desks have C-legs for knee clearance, and have interchangeable rear casters or glides for easy mobility.

All desks include horizontal and vertical cable managers.

Desks are available in corner, extended corner, and curved-front straight shapes. Worksurface corners are eased to make alignment of mobile units less critical.

Desks and wall-mounted worksurfaces accept clamp-on workshelves. Workshelves provide convenient binder/book access adjacent to computer displays.

**Currents Worktables**

Currents mobile worktables extend the worksurface area and provide flexible guest/conference spaces. Rounded corners enable informal placement near other workspaces. All worktables are available with casters or levelling glides.

Adjustable height worktables adjust from 24" to 30" high in 1" increments.

**Currents Storage**

Currents freestanding storage components are designed for mobility and space efficiency.

Pedestals are available mobile or fixed, with 2 files or combination 4" personal, 7" data, and 11" file drawer fronts, fitting below standard 28" worksurface height. Data/file mobile pedestals are low enough to roll under desks set lower than 28".

Mobile pedestals include top, casters and handle. Fixed pedestals include 2" levelling glides.

Reuter vertical storage has a rotating door, shelves and pull-out file frames, and a wardrobe area. Reuter storage is 21" wide so open door fits within 24" planning footprint.

Reuter vertical storage is available 48"H, with painted or worksurface top, or 64"H with painted top only.

**Approved for Wall covers, mobile screens and privacy screens.**

Specify legacy finishes to match existing product only. Legacy finishes are not available for new customers.

Trim grey is the integral color for worksurface, desk and worktable top edge, mobile screen and add-up panel trim, privacy screen and window trim, pedestal pulls Wall, screen and storage glides, glide cones and casters are integral color Black.

Wall frames and pedestal drawer interiors are painted Black.

Ambient lights are painted Light grey

Fiberglass surfaces for mobile screens, linkable screens and add-up panels is Translucent crystal

Linkable screen feet are painted Trim grey

**Note: Add 10% to the list price of any laminate product when specifying a legacy laminate.**

Knoll Upstart is a collection of tables, screens and services distribution components for computer-intensive, active, and open work environments.

Upstart plans as single-surface, L- or U-shape workstations, or freestanding worktables in combination with other systems furniture. Tables are available on casters or glides and are adjustable in height.

Original Upstart tops have a plastic laminate surface with a continuous T-mold edge. The corners of Original Upstart tops are rounded. Original Upstart legs are curved.

New Plannable Upstart tops have a plastic laminate or Veneer surface with a T-mold edge on the front and a thin edgeband on the sides and back. The corners of Plannable Upstart tops are 90 degrees and allow two tables to meet at right angles. Plannable Upstart legs are straight.

Complementary products include Currents workshelves, which clamp on to Upstart tables, mobile screens, linkable screens and Service Wall, monitor supports and desktop accessories. Consult the Currents and KnollExtra price lists for product details and pricing.

**Screens**

Upstart screens mount to the back edge of Original Upstart tables to provide seated visual privacy at a horizon of 39 or 48 inches. Upstart Screens are available in translucent or marker surface, and may be combined with magnet rail.

Plannable Upstart tables use Morrison Network upholstered screens, which are available in a variety of sizes.

**Accessories**

*Flat Bracket*

Bracket joins 2-legged table to another Upstart table at same height.

*Cable Tray*

Cable tray adds on to worksurface stiffener to control cable bundles and power strips (where permitted by code).

*Pencil Drawer*

Pencil drawer attaches to the underside of a worksurface at any location.

**Important Note: Plannable Upstart straight legs may not be used with Original Upstart tops due to stability issues.**

**Note to Knoll Dealer Sellers:**

The products contained in this price list are also available through the Knoll Essentials program, with limited exceptions. For additional information, please contact your customer service representative or visit Knoll Exchange.

**Primary and Secondary Worksurfaces**

**Original Upstart**

*Rectangular table desk/Return*

*Corner table desk, 120°*

*Extended Corner table desk*

*Y-shape table desk, M-shape table desk*

**Conference Worksurfaces**

**Original Upstart**

*Corner table desk, 90°*

*Extended Corner table desk*

*P-shape table desk*

**New Plannable Upstart**

*Half round table desk*

**48 x 24 Plannable Upstart**

**Basic stand-alone Y desk**

- the core Upstart application
- 30" x 72" nominal shown; conference depth is approximately 36"

**Oval table with Y desk**

- 36" x 66" oval table
- 30" x 72" Y return

**Curved wiper with Y desk**

- wiper 66" W
- 30" x 72" Y return

**Y desk with 42" round table**

- conference table

**Rectangular table with bracketed return surface**

- 72" x 76" approximate footprint
- optional work shelf

**Y and M back-to-back, with 42" conference tables**

**Y desk with tripod table**

- 30" x 72" Y desk, work shelf, and mobile pedestal

**Dual-monitor M desk workstation**

- 72" x 100" approximate footprint
- optional work shelf
- flat ends allow placement along wall

**Dual-monitor M desk with tripod table**

- 30" x 72" nominal M desk

**Y desks back-to-back, with half-round shared table**

- please note 1.75" setback from the back edge of each top to module line, same as Currents desks.

**Y desk with Upstart storage**

- 72" x 96" footprint
- 72" table with screen
- mobile pedestal and tower

**Extended corner desk and tower**

- 72" x 72" footprint
- 48" and 72" screens
- mobile pedestal and tower

**Extended corner desk and adjacent worktable**

- 72" x 96" footprint
- 72" x 48" corner and 48" straight desks
- mobile pedestal and privacy screen

**Upstart 120° planning**

- group of three 120° corners
- 48" shared privacy screens
- mobile pedestals

**U-shape plannable desks**

- 96" x 96" footprint
- two 48" x 72" extended corners
- mobile pedestal and tower
- 72" privacy screen

**Upstart work group**

- 120° corners and shared worktable 48 x 24"
- mobile pedestals and towers
- 48" privacy screens

**Default trim information:**

**Trim Grey** is the integral color for caster and glide leg levellers and screen corners

**Black:** flat bracket, cable tray and casters

Screen available in Ribbed Polycarbonate or Marker surface

For Plannable Upstart Veneer Group 1, only black or trim grey edgebands can be specified.

Translucent orange, Translucent blue, and Frosty white edgebands are not available for Plannable Upstart tables.

**NOTE: Add 10% to the list price of any laminate product when specifying a legacy laminate.**

**Order Code**

Example:	<b>APF 1872</b>
<b>APF</b>	Wall frame
<b>18</b>	Height
<b>72</b>	Width

**Specification Information**

*Specify painted finishes for legs and feet.*

Fence frames include four barrel connectors, crown and bottom rail covers in trim grey. Frames must be enclosed with two rows of 9"H Currents or AutoStrada wall covers on each face.

Specify Currents power components separately. Outlet modules mount at any point along the top row only.

Cable tray access covers mount in bottom row only.

**Application Notes**

Currents Fence provides independent services distribution to a cluster of tables, desks or workstations.

Fence legs may be specified at three heights to deliver an overall height of 40"H, 28"H or 27"H to the top of the crown. Specify AX1LEG( ) leg to get to 40"H; specify AX1LEG6( ) leg to get to 28"H; and specify AX1LEG5( ) leg to get to 27"H to the top of the crown.

Installed Fence frames include vertical studs with cover mounting clips and cable manager inserts every 12".

A continuous top channel accepts Currents or AutoStrada crown top caps and supports frameless glass add up panels, add up panels or stackable add up panels 12" high. 21"H stackable add up panels may be used on Fence runs supported by perpendicular panels or linkable screens.

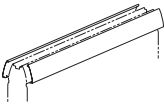

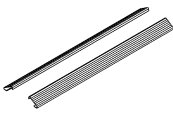

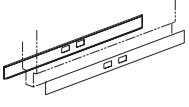

Fence legs with glides mount 12" from each frame side edge under the first full vertical stud. Stabilizer feet mount on both faces of Fence legs. For freestanding Fence runs, specify a leg with feet 12" from each run end plus a leg with feet for each intermediate frame connection. Intermediate legs may be positioned on either side of the frame connection.

Legs with feet 12" from each end of connected Fence frames can be replaced by stabilizer end cabinets or T-ends with panels or linkable screens. Intermediate support may also be provided by legs without feet in combination with perpendicular panels or linkable screens with Fence panel starters.

Fence frames can end support worksurfaces but cannot cantilever worksurfaces or upmounted storage.

When specifying frameless glass add-up panels on Fence, each Fence frame requires two legs.

Fence T-end adaptors, stabilizer end cabinet adaptors, high-low straight connectors, panel starters for Morrison panels and linkable screens, universal panel starters, and panel starter end trim for Morrison panels and linkable screens are only compatible with Fence frames that are specified at 40 inch high with the 18- 1/2" high leg (AX1 LEG). To use these components when Fence is planned with shorter legs that deliver overall heights of 27 or 28 inches high, please contact Knoll Custom Product Development for assistance.

### Order Code

Example:	<b>APC OC 612</b>
<b>APC</b>	Service wall cover
<b>OC</b>	Outlets cover
<b>612</b>	Finish

### Specification Information

*Specify finish.*

### Application Notes

Locate outlets covers on Service Wall or Fence frames before specifying other wall covers.

Outlets cover mounts between 21" and 30" (below standard desk height), 30" - 39" (above desk height) or 39" - 48" on Service Wall frame. Outlet cover mounts in top row of Fence only.

Outlets cover is 12" wide, and mounts anywhere on Service Wall frame between 21" and 48" above the floor. Outlets cover corresponds to power components (specified separately) mounted on Service Wall frame.

Outlets covers have four openings for power or PDC outlets. Specify outlet fillers for unused outlet openings in cover. Specify hinged outlet flap to conceal power or data outlet plugs. Each flap covers two openings; two flaps conceal all four openings in outlets cover.

For hardwire power applications (required in City of Chicago) specify hardwire outlets cover and hardwire outlets box. Do not specify cable tray covers at same level as hardwire power.

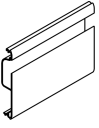

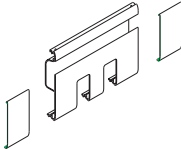

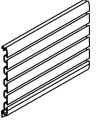

Hardwire outlet box accepts two Decora-style duplex outlets, and includes mounting brackets for one face of Service Wall between 21" and 48"H or one face of top row of Fence frames. Two quad hardwire outlet box accepts four duplex outlets on one face. Also specify hardwire outlets cover, which has four outlet openings. Specify outlet fillers for any unused outlet openings.

Outlet boxes include openings to permit continuous lay-in wiring with Wiremold® raceway. Electrical contractor supplies infeed cable, Wiremold 2400®, and duplex outlets. Outlet boxes can be planned back to back, with distribution on one side of Service Wall.

**NOTE:** Currents cable tray access covers and all AutoStrada access covers cannot be used in the same 9"H zone as the wiremold raceway as the wiremold will not fit behind the covers.

<b>APC</b>	Service wall cover
<b>09</b>	Height
<b>48</b>	Width
<b>C</b>	Surface type
<b>612</b>	Finish

**Specification Information**

*Specify finish.*

**Application Notes**

Cable tray and slat wall covers provide integral performance surface on one or both sides of a Service Wall or Fence frame. Cable tray and slat wall may be planned in combination with other painted or upholstered covers to enclose frames between 21"H and 48"H.

Cable tray mounts from 21" - 30" only on any Service Wall frame. Adjacent trays form continuous, easily accessible cable management at worksurface or table height. Shorter segments provide local cable management below outlet modules. Covers may span across a straight wall frame connection.

Bottom half of cable tray cover permits cables to be managed on surface of studs with one cable holder (55 CAT5 cables) or two clips (28 cables).

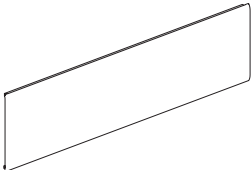

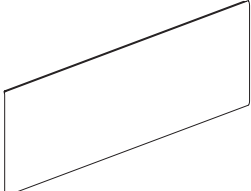

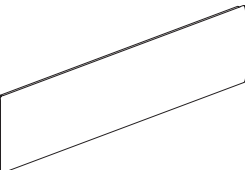

Cable tray exit cover permits power jumpers and data/communication cables to pass from wall to Currents desk service beam. Cable tray exit cover, 12"W only, has two openings with sliding covers.

Slat wall supports KnollExtra task lights, monitor arms, paper trays, file holders and other accessories.

Slat wall covers will support flat panel monitor arms with varying weight limitations based on mounting and application. Please refer to the KnollExtra price list for comprehensive mounting and weight limitation information by application.

55 Fabric group 55

**Application Notes**

Tackable upholstered Service Wall covers enclose wall frames between 21" and the top crown. Covers incorporate a tackable, acoustical core in the same outward profile as other upholstered covers.

Specify widths corresponding to wall frame width, or in any 12" increment to accommodate 12"W outlets covers or slat wall covers. Covers may span across a straight wall frame connection.

For active surfaces with access to cables and power/data/communications outlets, specify 9" and 16"H segmented covers as described in Specification Information. Normally, 9" cover from 21" to 30" above floor is cable tray or painted steel, and higher covers are painted, marker, upholstered, tackable, or slat wall surfaces.

For passive Service Wall surfaces (corridors or conference areas) specify 18"H or 27"H covers in place of two or three 9"H covers.

18"H covers may also be specified above 9"H covers including outlets covers below desk height on 48" or 64"H Service Walls.

Service Wall with upholstered tackable covers has been tested to NRC .40 and STC 22.

When ordering 60" or wider covers, please check width of fabric specified.

### Order Code

Example:	<b>AX1 L39 612 612</b>
<b>AX1</b>	Currents connector
<b>L</b>	Type
<b>39</b>	Height
<b>612</b>	Trim/raceway cover finish
<b>612</b>	Top/end cap finish

### Specification Information

For L, T, V, Y connectors specify:

*Seventh position:*  
painted finish for vertical trim cover and raceway cover

*Eighth position, and X connectors:*  
painted finish for top cap and crown end caps

*Specify painted finishes for connector trim covers and crown end caps.*

When ordering connectors for the Service Wall with 1"H compact crown, specify compact crown end caps separately.

### Application Notes

L, T, and X connectors join Currents Service Wall frames at 90° angles and include vertical trim covers, top cap and standard crown end caps, and one spare set of straight connectors.

V and Y connectors join Currents Service Wall frames at 120° angles and include vertical trim covers, top cap and standard crown end cap.

<b>AX1</b>	Currents connector
<b>HLS</b>	Type
<b>4839</b>	Height
<b>612</b>	Vertical cover finish
<b>612</b>	Crown end finish

### Specification Information

*Specify painted finishes for outrigger, high low straight connector and Service Wall starter.*

### Application Notes

Outrigger connects to structural base cover at any point. Outriggers (or perpendicular systems panels) are required every 8' and adjacent to flat end for adequate support. Specify deep outriggers when cantilevering 24"D worksurfaces without adjacent perpendicular systems panels or Service Wall connectors.

Standard outrigger should be specified when desks with service beam are positioned along Service Wall.

High-low straight connectors join Service Wall of different heights in a straight line.

Service Wall starter connects Service Wall to building wall.

Straight connector is replacement hardware kit to join Currents Wall frames of the same height end to end. Kit includes four barrel-shape connectors and hardware.

Top cap for vertical cover: 812=Easy Grey 813=Trim Grey And all standard paint finishes Spine end connectors on this page align with spine base covers <sup>13/16"</sup> above the floor.	Spine end connectors are complete vertical cover and top trim for the end of an AutoStrada or Currents spine. Side edges of end connectors accept end starters for linkable screens and other systems panels of the same height or lower. Spine end connectors include painted aluminum cover with beveled top cap and the specified flat, compact, or standard crown end cap. Spine end connectors to top of compact crown are a visual alternative that replaces the crown end cap with a taller aluminum end cover and flat top cap. Spine end connectors to top of Currents crown are recommended when attaching any end started panel that is between the nominal height of the spine and the actual height with crown, such as 42" h panel to 39" h spine with 4" h crown. Spine end connectors to top of Currents crown enclose the end of spine and standard crown and include flat top cap and inside top trim cover.

Spine ends and connectors

Order Code	Specification Information	Application Notes
Example: <b>AX1 SED 6448 613 812</b>	For spine end connectors with panel lower than spine specify crown type and finish for crown end cap. 1. Crown type: C=Currents standard 4" h L=low profile flat 1" h H=high profile flat 1 1/4" h F=compact 1" h  2. All crown end caps are available in all painted finishes.  For all spine end connectors specify vertical cover and top trim finish:  3. Vertical cover finish: All standard paint finishes  4. Top cap for vertical cover: 812=Easy Grey 813=Trim Grey And all standard painted finishes	Spine end connectors are complete end cover and trim for an AutoStrada or Currents spine. Side edges of spine end connectors accept end starters for Dividends Horizon panels and screens.  In most cases spine end connectors match the height of the attached Dividends Horizon panel/screen. When attached panel/screen is lower than the spine, the spine end connector is as high as the nominal height of the spine and the crown requires an end cap.  Specify low profile flat metal crown covers to align with a 50" h Dividends Horizon panel/screen.
<b>AX1</b> Spine connector		
<b>SED</b> Type		
<b>64</b> Panel height		
<b>48</b> Spine height		
<b>613</b> Vertical cover finish		
<b>812</b> Top cap finish	When attached panel/screen is between the nominal height of the spine and the top of the Currents 4" h crown, spine end connector must cover the entire height of the spine with crown.  Spine end connectors include painted aluminum outside cover with flat top cap and inside cover (where applicable) over the end of the spine.  Inside base trim for Currents raceway is recommended to finish inside when combined with standard Currents recessed base raceway covers. Base trim is not required with AutoStrada spine base covers.	

End connectors on this page begin 1/2" above floor.

*3 1/2" spine extender kit for use with ceiling infeed or panels*

description	application	h	w	d	pattern no.	list
Spine extender kit for use with Currents Spine	39"h spine	39"	5"	4"	<b>AX1SX39 C (L/C/P)( ) ( )</b>	\$519.
	48"h spine	48"	5"	4"	<b>AX1SX48 C (L/C/P)( ) ( )</b>	537.
	64"h spine	64"	5"	4"	<b>AX1SX64 C (L/C/P)( ) ( )</b>	634.
Spine extender kit for use with AutoStrada Spine	39"h spine	39"	5"	4"	<b>AX1SX39 A (L/C/P)( ) ( )</b>	634.
	48"h spine	48"	5"	4"	<b>AX1SX48 A (L/C/P)( ) ( )</b>	651.
	64"h spine	64"	5"	4"	<b>AX1SX64 A (L/C/P)( ) ( )</b>	755.

Order Code	Specification Information	Application Notes
Example: <b>AX1 SX 48 AL 613 613</b>	For all 3 1/2" spine extenders specify spine base type:	Spine extenders include brackets, side and top trim covers between the end of a spine and any spine end connector to add 3 1/2" to the length of a spine.
<b>AX1</b> Spine connector	A AutoStrada C Currents	Spine end connector must be specified separately to finish off face of spine extender.
<b>SX</b> Type		
<b>48</b> Spine height	Then specify crown end type.	Spine extender dimension matches that of the Currents 3 1/2" x 5" ceiling infeed panel which may be added between nominal spine height and ceiling for connection to building power, data and communications supply.
<b>A</b> Spine type	L=Flat low/high profile metal crown end cap C=Standard and compact sloped end cap	
<b>L</b> Crown end type	P=Power Pole	This extension can also make up for the dimensional gain of one Dividends Horizon panel or screen in the middle of a cluster of workstations.
<b>613</b> Vertical finish	Then specify finish for vertical trim covers, all standard painted finishes.	
<b>613</b> Base trim finish		
<b>613</b> Top cap finish	Then specify base cover finish. AutoStrada spine base covers are clear anodized aluminum (AA) or painted finish excluding silver. Currents spine raceway covers are available in any painted finish only.	In most cases the spine end connector matches the height of the attached Dividends Horizon panel or screen, but the extending area is only as high as the nominal height of the spine (bottom of crown) so the crown always requires an end cap.
	Then specify top cap finish (if applicable).	

To attach linkable screens or Morrison panels to spine end connector

description	application	h	w	d	pattern no.	00	02	04

Order Code	Specification Information	Application Notes
Example: <b>AA1 MPS48 612</b>		
<b>AA1</b> Accessory	<i>Specify paint finishes for panel starters, Morrison raceway shroud and end trim.</i>	Panel starters attach perpendicular panels or linkable screens to Service Wall structural base covers (5" - 21"H).
<b>M</b> Morrison		
<b>PS</b> Panel starter	Specify trim grey or easy grey integral color for Currents end trim.	Panel starters include clamp bracket to any height Service Wall and full height connector track with modified top wedge block. For Morrison also specify high/low corner top cap <b>MT5 HLC ( )</b> in width of first panel.
<b>48</b> Panel height		
<b>612</b> Finish		
		Optional Morrison end trim fills 5/8" reveal between panel end and Service Wall surface. End trim also includes end top cap (high/low corner top cap is not required in this application).
		Currents end trims are optional fillers for linkable screen starters. End trims may interfere with easy access to Service Wall covers.
		Top clip connects panel connector track to Service Wall crown. Specify top clip for added stiffness of panels higher than 48" or whenever cantilevering components from panel. Top clip is not compatible with end trim.
		Specify raceway shroud if connecting power from Service Wall to Morrison panel.

### Specification Information

*Specify paint finish for Equity end and panel starters, trim kits and crown end cap.*

#### Note:

For more specific application information, please refer to the 1999 Equity Planning Guide. Additional finishes are available for crown end cap.

### Application Notes

Equity panel starters attach perpendicular panels to Service Wall structural base covers. Equity panel starter includes clamp bracket and adapter. Both end and panel starters include top clip for added stiffness. No connector post is required for either starter.

Equity end starter supports perpendicular panel run on the centerline of the end of the Service Wall. Perpendicular panels should be at the same height or higher than the Service Wall.

The Equity end trim kit encloses and flushes out the end of the Service Wall with attached, end started Equity panels.

Specify trim kit suffix "T" for panels on both sides, "L" or "R" for attached panels only on left or right side of end of the Service Wall (as seen from outside of "T" end). Also specify crown end cap for all end conditions.

Gap fillers fill the gap when attaching a lower height Equity panel at the end of a 64"H Service Wall.

Example:	<b>R3B0P0F4207</b>
<b>R3B</b>	Reff
<b>0P0F</b>	Monolithic
<b>42</b>	Panel height
<b>07</b>	Width

### Specification Information

See Reff System for full selection of painted finishes, fabrics and wood veneers for T-end cover sets.

#### Specify:

1. Top trim profile
2. Panel finishes
3. Top trim finish
4. Base finish

#### Top trim profile:

- A Flat
- B Square
- C Bullnose

#### Base height:

- 4 4" base height

6" base height is currently not available.

### Application Notes

Specify covers in monolithic or tiled sets to complete T-end frames for Reff.

Monolithic cover sets include a raceway cover and a single snap-in panel above.

Tiled sets include raceway cover and segmented tiles corresponding to adjacent Reff tiled panels.

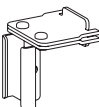

Reff tiled module horizontal reveals are at nominal 19", 34", 49" and 64" above the floor and do not align with service wall cover reveals.

When ordering T-ends for the Service Wall, specify crown end caps separately.

### Order Code

Example:	<b>AA1 UPS48 612</b>
<b>AA1</b>	Accessory
<b>UPS</b>	Panel starter
<b>48</b>	Panel height
<b>612</b>	Finish

### Specification Information

*Specify paint finishes for Universal end and panel starter.*

### Application Notes

Universal adapters and starters integrate other panel systems with the Service Wall. Vertical surface accepts architectural wall starter of most other systems.

T-end adapters include connector to corresponding height T-end for Currents screen (specified separately).

Panel starter includes clamp bracket to structural base cover on Service Wall.

Top clip gives added stability to attached panels of the same height or higher than the Service Wall.

Example: <b>ARE1 ET3</b>
<b>ARE1</b> Currents/Equity raceway
<b>E</b> Eight wire 2+2
<b>T</b> Transitional connector
<b>3</b> Width

Replacement duplexes for Equity convert existing 3+1 terminal blocks in Equity panels to 2+2 when connected to and supplied by Service Wall 2+2 or 3+3 power.

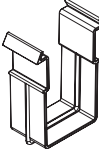

Transitional power connector connects Service Wall power components to Equity panel base power.

Application dimension indicates distance between Service Wall outlet module (at 30"-39"H) and perpendicular panel.

Specify replacement power infeed when supplying power to Service Wall from Equity panel base infeed.

Power, data and communications components for  
Service Walls  
*accessories, ceiling infeed panel*

description	w	d	h	pattern no.	no finish	paint
Cable clips for wall studs (100)	1/4"	1/2"	1 1/2"	<b>AR1 PCC 100</b>	\$82.	
						
High capacity cable holders (10)	1"	3/4"	2 1/2"	<b>AR1 HCC H10</b>	34.	
						
Raceway cable managers (10)				<b>AR1 RCM 10</b>	66.	
						
Ceiling infeed panel for stabilizer end cabinet, T-end or power monument	3 1/2"	5"	48"	<b>APX CIP4 ( )</b>		502.
	3 1/2"	5"	72"	<b>APX CIP6 ( )</b>		587.
	3 1/2"	5"	96"	<b>APX CIP8 ( )</b>		671.
						

Order Code	Specification Information	Application Notes
Example: <b>AR1 PCC 100</b>	Cable clips and cable managers are black plastic.	Specify cable clips, approximately 50 per wall frame to support and manage cables on the face of studs in the Service Wall frame. Each clip manages up to 14 Category 5 or fiber optic cables; four clips attach between 21"-30", 30"-39", 39"-48"; six between 48"-64"H. Only two clips fit behind a cable tray cover at the 21"-30" height.
<b>AR1</b> Raceway	Cable holders are light grey plastic.	Specify high capacity cable holders approximately 20 per Service Wall frame to support and manage larger bundles of cables. Each holds up to 55 Cat 5 cables; two holders attach to studs at each 9" level; three holders at the 16" level of a 64"H Service Wall. Only one holder fits behind a cable tray cover at the 21"-30" height (upside down).
<b>PCC</b> Cable clip	<i>Specify painted finish for hardwire outlets cover or ceiling infeed panel.</i>	Raceway cable managers are U-shape cable supports that snap into the underside of the Service Wall frame. Plan one per foot to contain data cables or power jumpers in the base raceway.
<b>100</b> Size/Quantity	High capacity cable holders may not be used in conjunction with AutoStrada access covers.	Ceiling infeed panel attaches to end of Service Wall adjacent to Currents, Morrison, or Reff T-end panel with 3 1/2" extension, or to power monument. Center channel, 2" x 2 1/2", accommodates one or two power infeed cables. Each side channel is 1 1/2" x 3 1/2" lay-in cable raceway, for continuous lay-in cabling from ceiling to Service Wall surface.
		Specify ceiling infeed separately.

N	Upholstered
A	High performance acoustical upholstered

*Specify fabric group:*

10	Fabric group 10
15	Fabric group 15
20	Fabric group 20
30	Fabric group 30
35	Fabric group 35
40	Fabric group 40
45	Fabric group 45
50	Fabric group 50
55	Fabric group 55

Specify trim grey or easy grey integral color for top cap.

Linkable screen legs are trim grey.

## Application Notes

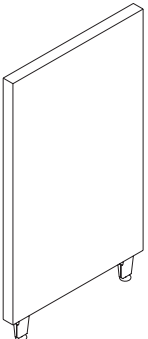

Linkable screens divide workstations perpendicular to Service Wall where base raceway is not required. Linkable screens connect with standard Morrison/Currents wall starters and Currents linkable screen connectors.

Screens are supported by two legs with leveling glides and include Currents top cap. Specify connectors separately.

Upholstered 39" and 48" screens use Morrison Options panel construction. Upholstered 64" screens use high performance acoustical Morrison panel construction.

Screens and add-up panels

### Order Code

Example:	<b>AP1 4824M20 813</b>
<b>AP1</b>	Currents screen
<b>48</b>	Height
<b>24</b>	Width
<b>M</b>	Surface type
<b>20</b>	Fabric group
<b>813</b>	Trim color

### Specification Information

*Specify fabric group:*

10	Fabric group 10
15	Fabric group 15
20	Fabric group 20
30	Fabric group 30
35	Fabric group 35
40	Fabric group 40
45	Fabric group 45
50	Fabric group 50
55	Fabric group 55

Specify trim grey or easy grey integral color for top cap.

Linkable screen legs are trim grey.

### Application Notes

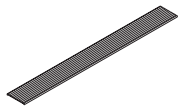

Linkable screens divide workstations perpendicular to Service Wall where base raceway is not required. Linkable screens connect with standard Morrison/Currents wall starters and Currents linkable screen connectors.

Screens are supported by two legs with leveling glides and include Currents top cap. Specify connectors separately.

Combination upholstered screens use Morrison veneer/combination panel construction.

# Linkable screens trim

Currents

description	type	w	d	h	pattern no.	price

## Order Code

Example: <b>AA1 T06 813</b>
<b>AA1 T</b> Top trim, panel
<b>06</b> Width
<b>813</b> Trim color

## Specification Information

Specify painted finish for raceway cover for Currents end connector.

Specify trim grey or easy grey integral color for end trim and top trim.

Linkable screen legs are trim grey.

## Application Notes

End trim is economical vertical trim cover for linkable screen where no end connector (or cantilever track) is required. End trim includes top cap.

Raceway cover encloses end of Morrison panel raceway under Currents end trim or end connector.

Top trim corresponds in width to linkable screens or Morrison panels. No Currents top trim is available for Morrison connectors (specify linkable screen connectors).

Top caps are included with Currents screen connectors.

Linkable screen feet may be ordered to convert Morrison panels with raceway to Currents linkable screens.

Specify screen starter to connect Wall-connected screen perpendicular to Service Wall face. Clamp bracket attaches Wall-connected screen anywhere along structural base. Outside surface of screen at end of Wall will be approximately 1" from end.

No screen starter is needed to attach Service Wall-connected screen to corresponding height Currents T-end at end of spine.

Screen-to-worksurface bracket stabilizes Wall-connected screen by attaching to underside of worksurface at any height.

Specify left or right end of worksurface.

<b>CL</b>	Connector type
<b>12</b>	Application

### Specification Information

Add-up fillers and alignment clip are painted trim grey finish.

Pattern numbers correspond to add-up panel height.

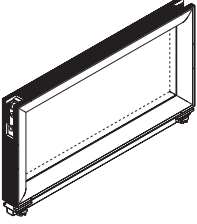

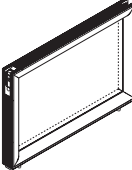

### Application Notes

Straight connector clips over adjacent non-stackable add-up panels.

Add-up fillers join between add-up panels over a service wall connection or a T-end to extend enclosure from bottom of crown to top of add-up. Fillers require retrofitting add-up panels with new trim.

Retrofit kits are no-charge items that are specified separately.

Stackable add-up panels

**Order Code**

Example: <b>AW1 S4830 117</b>
<b>AW1</b> Worksurface
<b>S</b> Straight
<b>48</b> Width
<b>30</b> Depth
<b>117</b> Top finish

**Specification Information**

Worksurface edges are trim grey.  
Specify top finish  
Veneer finishes for Currents worksurfaces are available through Custom Product Development.

**Application Notes**

Worksurfaces may be end-supported, cantilevered from Service Wall, or supported by C-leg or pedestal at each end. Universal worksurfaces are interchangeable with Currents desks. Specify supports separately.  
Straight worksurfaces have a 1"D curved front for additional surface area, or a flat front. Flat front allows two straight worksurfaces to meet at right angles.

24"D straight worksurfaces may be cantilevered with two cantilever brackets.  
24" and 30"D straight worksurfaces may be end supported with two Currents end support brackets.  
Universal straight worksurfaces 36" wide and greater include a steel stiffener that doubles as a horizontal cable manager.

Order Code	Specification Information	Application Notes
Example: <b>AWM2 F4830 117 111</b> <b>AWM2</b> Worksurface <b>F</b> Flat <b>48</b> Width <b>30</b> Depth <b>117</b> Top finish <b>111</b> Trim finish	Specify top finish first, followed by trim finish.  Veneer finishes for Currents worksurfaces are available through Custom Product Development.	Worksurfaces are sized for Morrison panel-based applications and may be supported by Morrison panel planning brackets or end-supported from Currents Wall. 24"D straight tops may also be cantilevered from Currents Service Wall. Underside of worksurfaces is drilled to accept all Morrison panel-planning brackets, Morrison and Currents pedestals, and worksurface stiffeners. 24"D straight tops are also drilled to accept Currents Wall cantilever brackets.  Currents worksurfaces for Morrison accept wood screws.  Currents worksurfaces for Morrison require stiffener when the span between structural supports exceeds 36". Specify worksurface stiffeners and supports separately.  Currents worksurfaces for Morrison cannot be used in conjunction with Morrison Network desk supports.
		Actual worksurface depth is 3/8" less than nominal 24" and 30" for cable clearance.  All worksurfaces include one edge grommet, centered at rear of worksurface, with maximum clearance of 1 5/8".  Currents for Morrison worksurfaces feature crisp 90° corners eliminating the corner kick detail typical of Currents universal and desk tops. Eliminating the corner kick will facilitate the use of brackets, pedestals and end panels at the side edge of worksurfaces and will eliminate undesired gaps at worksurface joints.  24"D straight Currents worksurfaces for Morrison up to 84" wide may be cantilevered from the Service Wall with two cantilever brackets and applicable width worksurface stiffener.  24"D straight Currents worksurfaces for Morrison wider than 84" require three cantilever brackets and applicable width worksurface stiffeners.

**Specification Information**

*Specify:*  
Grommet / No grommet.  
Replace the "N" suffix from the pattern number with "G". Add \$40.

Available finishes:

Solid:

114	Folkstone Grey
117	Soft Grey
118	Bright White
119	Pumice

Woodgrain:

124	Medium Cherry
125	Natural Maple
126	Natural Cherry
127	Walnut

Note: When wood grain or brushed finishes are specified on Cascade corner worksurfaces with two "A" sides of equal length that do not exceed 42" you must select one of three grain direction options. Insert the desired grain direction "L"= Left hand, "R"= Right hand or "D"= Diagonal after the worksurface finish code to indicate the appropriate grain direction. When the "D" option is selected please add \$25.00 to the worksurface list price. 48" Cascade corners are not available with a diagonal grain option.

**Application Notes**

Cascade Edge worksurfaces are wrapped with a 3D laminate sheet heated and pressed around an FSC-certified substrate. 3D laminate is more susceptible to denting, impact, tearing and marring than conventional high-pressure laminate and should be handled with care. Do not drag worksurfaces across any flooring surface. Treat Cascade Edge worksurfaces like veneer worksurfaces for optimum performance under normal conditions. Cascade Edge worksurfaces have a 10 year warranty on defects in workmanship and materials. This warranty does not cover damage occurring during or after installation. Cascade edge worksurfaces in solid colors utilize a non-PVC construction and are also free of any plasticizers, phthalates and lead content.

Cascade Edge worksurfaces are not drilled for stiffeners, pedestals or brackets. Cascade Edge worksurfaces are sized for panel-based applications and may be supported by linkable screen in conjunction with Morrison panel planning brackets, or end support from the Currents wall. 24" D straight tops may also be cantilevered from the Service Wall.

Cascade Edge worksurfaces are not interchangeable with Currents desks surfaces and should not be used to create freestanding Currents desks. Worksurfaces are 1/16" less than nominal width and 3/8" less than nominal depth for rear wire clearance. Edge grommets are centered at rear edges of worksurface for maximum clearance of 1 3/8".

Worksurfaces require support every 48" in width. All supporting hardware is ordered separately. Use Morrison brackets with wood screws for Currents Linkable screen applications.

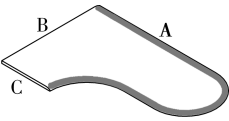

Worksurfaces may be supported by left or right hand 18" cantilever bracket at the rear corner, and cantilever bridging brackets on each side edge. Worksurfaces may also be end supported or cantilever-bracket supported from Currents wall. Extended side of blended L may also be supported with Currents C-legs.

Panel supported worksurfaces over 48" must be mid-span supported by cantilever brackets, specified separately.

119	Pumice

Woodgrain:

124	Medium Cherry
125	Natural Maple
126	Natural Cherry
127	Walnut

### Application Notes

Cascade Edge worksurfaces are wrapped with a 3D laminate sheet heated and pressed around an FSC-certified substrate. 3D laminate is more susceptible to denting, impact, tearing and marring than conventional high-pressure laminate and should be handled with care. Do not drag worksurfaces across any flooring surface. Treat Cascade Edge worksurfaces like veneer worksurfaces for optimum performance under normal conditions. Cascade Edge worksurfaces have a 10 year warranty on defects in workmanship and materials. This warranty does not cover damage occurring during or after installation. Cascade edge worksurfaces in solid colors utilize a non-PVC construction and are also free of any plasticizers, phthalates and lead content.

Cascade Edge worksurfaces are not drilled for stiffeners, pedestals or brackets. Cascade Edge worksurfaces are sized for panel-based applications and may be supported by linkable screen in conjunction with Morrison panel planning brackets, or end support from the Currents wall. 24" D straight tops may also be cantilevered from the Service Wall.

Cascade Edge worksurfaces are not interchangeable with Currents desks surfaces and should not be used to create freestanding Currents desks. Worksurfaces are 1/16" less than nominal width and 3/8" less than nominal depth for rear wire clearance. Edge grommets are centered at rear edge of worksurface for maximum clearance of 1 3/8".

Worksurfaces require support every 48" in width. All supporting hardware is ordered separately. Use Morrison brackets with wood screws for Currents Linkable screen applications.

Worksurfaces may be supported at each end by pedestals or end support "EC" brackets and cantilever brackets matching the worksurface depth. Use cantilever bridging bracket to join to adjacent worksurface. Panel supported worksurfaces over 48" must be mid-span supported by cantilever brackets, specified separately.

Worksurfaces

## Order Code

Example:	<b>AB1 CL24L 612 G</b>
<b>AB1</b>	Support
<b>CL</b>	C-leg
<b>24</b>	Depth
<b>L</b>	Left
<b>612</b>	Finish
<b>G</b>	Glides

## Specification Information

*Specify painted finishes for support column, C-leg, and brackets.*

### C-Leg casters/glides:

- C Rear casters/front glides
- G All glides

Casters/glides combination has no levelling. All-glides version provides 1 3/4" levelling range.

## Application Notes

Specify two straight legs under shared worksurface. Straight legs are fixed at 27"H (28" top height) or adjustable 23"-29" (24"-30" top height).

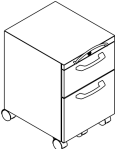

C-legs support one end of any corresponding depth Currents worksurface. Corner legs support only the back corner of a Currents corner worksurface. Specify C-legs for side edges of Currents corner and extended corner worksurfaces.

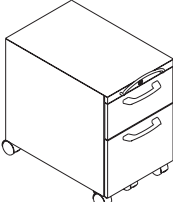

Adjustable C-legs and corner legs are adjustable in height to support underside of worksurface at 1" increments from 23" to 29" (24" to 30" Currents top height). Fixed height C-legs support desk at 28"H. Fixed height C-legs do not accept service beams.

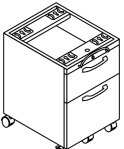

Straight legs may not be used with Currents universal worksurfaces or Currents worksurfaces for Morrison to create freestanding tables.

Example: **AS1 SDFM 612 612**

<b>AS1</b>	Pedestal
<b>S</b>	Depth
<b>DF</b>	Configuration
<b>M</b>	Mobile
<b>612</b>	Finish for case
<b>612</b>	Finish for fronts

## Specification Information

*Specify painted finish for case and for fronts.*

Veneer finishes for pedestal fronts are available through Custom Product Development.

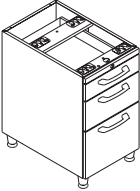

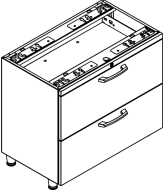

All pedestals include front lock with KnollKey lock system. Personal drawer is 4"H. Data drawer is 7"H. File drawers are 11"H. Deep file drawers include file support for letter (width) or legal (depth) suspended file folders. All drawers have full extension, ball bearing drawer slides.

## Application Notes

Mobile pedestals are independent storage components with locking casters and pull. Standard mobile pedestals roll under Currents worksurfaces set at 28" or higher. Deep mobile pedestals with two files or personal/data/file will not fit under stiffener of universal worksurface or Currents desk set at 29" or lower. Specify data/file mobile pedestal under worksurfaces adjusted lower than 28"H.

<b>AS1</b>	Pedestal
<b>S</b>	Depth
<b>PDF</b>	Configuration
<b>G</b>	Floorstanding
<b>612</b>	Finish for case
<b>612</b>	Finish for fronts

### Specification Information

*Specify painted finish for case and for fronts.*

Veneer finishes for pedestal fronts are available through Custom Product Development.

All pedestals include front lock with KnollKey lock system. Personal drawer is 4"H. Data drawer is 7"H. File drawers are 11"H. Deep file drawers include file support for letter (width) or legal (depth) suspended file folders. All drawers have full extension, ball bearing drawer slides.

### Application Notes

Floorstanding pedestals include levelling glides and open top to support one end of a worksurface at 28"H. 18"D pedestals fit under any Currents worksurface with standard stiffener. Deep floorstanding pedestals fit under Currents worksurfaces for Morrison with properly sized replacement worksurface stiffener.

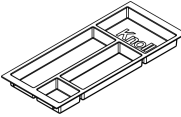

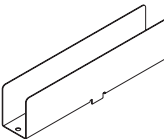

Pedestals may not be used in freestanding applications.

### Order Code

Example: **AS2 PT**

**AS2** Pedestal

**PT** Pencil tray

### Specification Information

Pencil tray is molded plastic and is available in black or clear.

Black : N

Clear : C

Drawer divider is black painted steel.

Replacement worksurface stiffeners are black painted steel.

Bumper kit is trim grey plastic.

### Application Notes

Pencil tray sets in top of personal or data drawer. Moveable dividers organize pencils, pens, and paper clips in separate compartments.

Drawer divider mounts in slots in bottom of personal or data drawer. U-shaped divider supports two rows of four CDs with titles visible in data drawer.

File support spans width of file drawer to support side-to-side letter or legal width suspended files.

Bumper kit protects back corners of mobile pedestals and adjacent furniture. Bumper kit includes two corner-bead shape extrusions with self-adhesive backer.

**Specification Information**

*Specify finish for case and door.*

**Application Notes**

Reuter storage is a universal product applicable on Knoll systems.

Cabinet door rotates above cabinet on side pivots, counterbalanced by two pneumatic cylinders. Two-door cabinets have center divider and four pneumatic cylinders. Vertical interior partitions may be positioned on 1 1/2" increments of width anywhere across shelf, 1 1/2" in from each side. Vertical partitions contain cutouts for mounting up to five horizontal partitions at 2" increments on either or both sides.

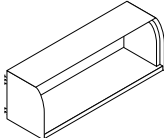

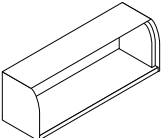

Horizontals are suspended between two verticals, and may be positioned end-to-end in any combination up to 3" less than cabinet width. Available in sets of 10; 6", 9", 12", 15" widths.

Order locks for overheads with a KnollKey order form. Please note that Reuter overhead cabinets 60"W or wider require two lock cores.

Reuter overhead doors without locks include black, Knoll-logo insert, in the same position. Insert may be removed to retrofit a lock later.

<b>612</b>	Finish

## Specification Information

*Specify paint finishes for shelf.*

## Application Notes

Interior partitions are black painted steel finish.

Reuter storage is a universal product applicable on Morrison or other Knoll systems.

Open shelves may be mounted on any combination of vertical panels the same width. Reuter open shelves may be Morrison Network desk-mounted, mounted on other Knoll systems, cantilevered above panels, or wall-mounted. Specify Reuter shelves with no mounting hardware, and brackets separately.

Vertical interior partitions may be positioned on 1 1/2" increments of width anywhere across shelf, 1 1/2" in from each side. Vertical partitions contain cutouts for mounting three horizontal partitions at 2" increments on either or both sides. Horizontals are suspended between two verticals, and may be positioned end-to-end in any combination up to 3" less than shelf width. Available in sets of 10; 6", 9", 12", 15" widths.

Reuter ganging bracket  
*wall-mounting options and ADA pull*  
*Designed by Robert Reuter*

description	type	w	d	h	pattern no.	black
Ganging bracket					<b>RO1-GB</b>	\$14.
ADA pull					<b>RO1-PULL</b>	56.

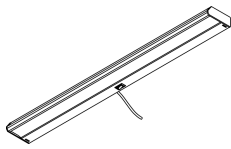

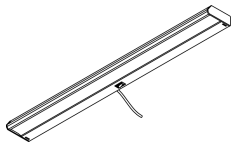

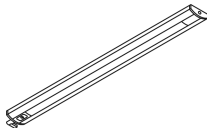

Order Code	Specification Information	Application Notes
Example: <b>RO1-GB</b>	Wall mount frames are painted black finish.	Wall mount frames secure Reuter overhead cabinet or shelf to wall (frame/wall mounting hardware is not included). Frame is concealed behind storage. Use two RO1-WMF2 to wall-mount 66"- and 72"-wide Reuter overheads.
<b>RO1</b> Reuter overhead	ADA pull is stainless steel.	Reuter open shelves 66" and 72"W are for stanchion support only.
<b>GB</b> Ganging bracket		Wall mount wire manager is two-part wire concealment kit, 22"H (medium grey only). Ganging bracket joins adjacent Reuter overheads or shelves for additional stiffness and alignment when storage is planned on only one side of a panel run.
		ADA pull mounts to Reuter painted front overhead door to allow seated users to close door easily. Specify one for each cabinet 24" - 48", two for cabinets 60" - 72". ADA pull cannot be mounted on wood front Reuter doors.

## Order Code

Example: <b>AL1 C48</b>
<b>AL1</b> Lighting
<b>C</b> Canopy
<b>48</b> Mounting height

## Specification Information

Canopy is white perforated aluminum. Light fixtures and posts are light grey finish.

Canopy and uplights utilize electronic ballasts, and 9' cordset.

Canopy uplight has a single 32 watt tri-biaxial compact fluorescent lamp.

18" linear uplight has two 36 watt biaxial compact fluorescent lamps.

24" linear uplight has two 50 watt biaxial compact fluorescent lamps.

For City of Chicago applications, specify fused cordset (suffix -CH), and add \$82 list.

## Application Notes

Canopy, linear, uplights attach to standard height Service Wall crown, on either side at any point. Lights mounted back-to-back allow space between for add-up panels.

Canopy and linear uplight include rectangular post to position top of light fixture at 73"H.

Canopy light is designed for interiors with high ceilings.

Integral white reflector of canopy is supported at 80"H.

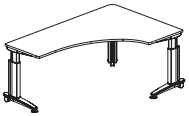

Linear ambient uplights are designed for interiors with ceilings from 8' to 10' high.

All lights include vertical cord manager from crown to fixture.

Consult your Knoll representative for photometric information on Currents ambient lighting.

## Specification Information

F	Fixed height
A	Adjustable height
<i>Specify top and base finish.</i>	
Veneer finishes for worktables are available through Custom Product Development.	

## Specify:

C	Casters
G	Glides

Fixed height tables are 28"H.  
Adjustable height worktables adjust 24"-30"H in one-inch increments.  
Glides adjust 1 3/4". Worktable top edge is trim grey.

## Application Notes

Worktables are independent, mobile tables designed for use with desks and panel-mounted worksurfaces.

Half round worktable aligns with back-to-back 24"D Currents desks or worksurfaces plus a Currents screen or Knoll systems panel between. Large half round table aligns with back-to-back 30"D desks or worksurfaces. Large wiper is shared conference extension for back-to-back 24"D desks. All tables have center edge offset to clear panel end trim.

Large half-round, round, and wiper tables have four legs with integral wire-manager channels. Half round worktable has center column, three-star base for clear knee space support.

<b>117</b>	Paint finish

## Specification Information

Specify surface type and painted finish for screen frame, brackets and magnet rail.

### Surface type:

RC Ribbed polycarbonate  
M Marker Surface

## Application Notes

Upstart screens mount on the back of Upstart tables to provide partial enclosure above and below worksurface height.

Screens have a translucent, ribbed polycarbonate or marker surface core. Perimeter frame is painted steel with trim grey molded corner blocks.

Screens include brackets that mount to matching holes under Upstart tables of the same width. Bracket holes are also provided for mounting two 36" wide screens on a 72" wide Upstart table.

Screen mounts in two positions, creating enclosure to a height of 39" or 48" when the table top is adjusted to 28".

Screens may be shared between desks in back to back configurations.

Magnet rails span between screen mounting brackets to hang paper documents.

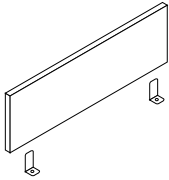

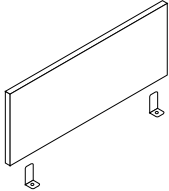

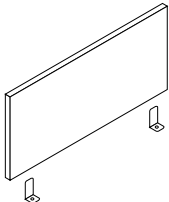

Magnet rails correspond in width to privacy screens.

Please refer to Introduction page for table and screen dimensions.

Order Code	Specification Information	Application Notes
Example: <b>MZ1-B6619-15-W210/20</b> <b>MZ1</b> Morrison Network privacy screen <b>B</b> Back of worksurface <b>66</b> Width <b>19</b> Height <b>15</b> Surface type and group no. <b>W210/20</b> Upholstery	<b>Surface type:</b> 10- Fabric group 10 15- Fabric group 15 20- Fabric group 20 30- Fabric group 30 40- Fabric group 40 45- Fabric group 45  Morrison Network screens may be used with Plannable Upstart tables. Refer to front of Upstart price book for planning information.  * Screens 66"w and wider are available with fabric railroaded to fit the screens' width. Please contact Knoll Custom Product Development to establish pattern numbers.	Back of worksurface screens provide visual barrier and tackable surface from underside of worksurface to a height of 42", 46" or 49".  Screen widths should correspond to straight worksurface width, or sum of VDT corner and return widths.  Use back of worksurface screen for VDT applications where one side is backed by a vertical panel.  VDT worksurfaces will accept back screens on only one back edge.  Back screens may not be used at the end of a straight worksurface; use end screens in this application.  Privacy screens are not available in a combination of fabrics.  Back of worksurface screens are full dimension: two smaller screens may be substituted for a larger one. For example, if using fabric grades 20-70, specify two 36" screens for a 72" surface.
		Between back-to-back straight or VDT worksurfaces specify a single 3/4" back screen. This allows back-to-back 23 5/8"D or 29 5/8"D worksurfaces to plan on a precise 6" module.  15" high screens are used for a 42" horizon.  19"H screens are used to fill in space between worksurface and Morrison overhead.  22"H screens fill the space between worksurface and Reuter overhead.  All but shared end screens start at the bottom of the worksurface.  Privacy screens are supported by brackets fastened at worksurface inserts. Privacy screens include mounting brackets, insert kit, and stiffener clip.  For replacement screen stiffeners see Accessories page.  Privacy screens may be specified to achieve ASTM E-84 Class "A" flamespread rating.

### Order Code

Example:	<b>MZ1-V4822-15-W210/20</b>
<b>MZ1</b>	Morrison Network privacy screen
<b>V</b>	VDT
<b>48</b>	Width
<b>22</b>	Height
<b>15</b>	Surface type and group no.
<b>W210/20</b>	Upholstery

### Specification Information

*Surface type:*

10- Fabric group 10  
 15- Fabric group 15  
 20- Fabric group 20  
 30- Fabric group 30  
 40- Fabric group 40  
 45- Fabric group 45

VDT worksurfaces will not accept back screens on both back edges. Use VDT screens on at least one back edge.

VDT screens are not in pairs; specify one for each back edge or one VDT screen and one back screen.

\* Screens 66" w and wider are available with fabric railroaded to fit the screens' width. Please contact Knoll Custom Product Development to establish pattern numbers.

### Application Notes

Privacy screens are supported by brackets fastened at worksurface inserts. Privacy screens include mounting brackets, insert kit and stiffener clip.

15" high screens are used for a 42" horizon.

19"H screens are used to fill in space between worksurface and desk mounted Morrison Network overheads.

22"H screens fill the space between worksurface and desk mounted Reuter overheads.

Privacy screens may be specified to achieve ASTM E-84 Class "A" flamespread rating.

\* Morrison Network screens may be used with Plannable Upstart tables. Refer to front of Upstart price book for planning information.

**Wall Mounting Suggestions**

The following information is provided only as a guide, and represents minimum recommendations only. Knoll does not accept responsibility for the attachment of any Knoll product to a Customer's site wall. Wall specification/construction is the responsibility of the Customer and its structural engineer/architect. Failure to properly attach Knoll products to adequate wall structures can lead to property damage and/or personal injury.

You should consult your own structural engineers and/or architects and must not rely on the information provided herein.

It is the responsibility of the Customer and its structural engineers/architects to verify that the permanent structural walls (studs, blocks, solid masonry, etc.) on which the Knoll products are intended to be mounted are designed appropriately to support the product weight, PLUS 3 lbs. per linear inch for each useable shelf length

**NOTE: A cabinet's top is considered a "useable shelf" and MUST be included in the calculation of the total load for an overhead cabinet.**

It is the responsibility of the Customer and its structural engineer/architects to specify the fasteners and method for attaching the Knoll supplied wall mounting cleat, bracket, frame, etc. to the supporting wall and to confirm that the installers have adhered to these specifications. For all local building standards and codes, and additional requirements (including, but not limited to, seismic conditions) the Customer should always consult local code agencies.

# Selling Policy

	<p>This Selling Policy supercedes all previous selling policies. Prices, discounts and product offerings are subject to change without notice.</p>
<b>Terms &amp; Conditions of Sales</b>	<p>Sales by Knoll, Inc. or Knoll North America Corp. ("Seller") of Knoll Product Lines (hereinafter "Products") within the United States and Canada are made only on the terms which are contained in this Selling Policy. Seller hereby gives notice of its objection to any different or additional terms and conditions. This sale is expressly conditional upon Purchaser's assent to the terms and conditions set forth below. Additional terms and conditions may apply to KnollStudio and KnollTextiles orders. These terms and conditions may be modified or supplemented only by a written document signed by an authorized representative of Seller. These terms and conditions supercede any prior and/or contemporaneous agreements or correspondence between Purchaser and Seller. Written quotations expire thirty (30) days from the date of issuance and can be withdrawn by written notice anytime during that period. Where Purchaser and Seller have entered into the Knoll Electronic Terms and Conditions, all orders, acknowledgements, invoices and other business communications placed or transmitted in accordance with the Knoll Electronic Terms and Conditions shall be deemed to be in writing and signed and shall be valid for all purposes as if they were originated and maintained in documentary form.</p>
<b>Ordering Information</b>	<p>All orders must be in writing. The product pattern number(s) contained on Seller's order acknowledgement shall be the final expression of the order.</p>
<b>Order Confirmation</b>	<p>A purchase order is not binding on Seller until Purchaser has received Seller's order confirmation or acknowledgment.</p>
<b>Pricing Policies</b>	<p>List prices are subject to change without notice.</p> <p>List prices shall be those prices in effect on the date of receipt of a complete purchase order unless shipment is requested more than ninety (90) days after order entry in which case prices in effect on the date of shipment apply. List prices include specified freight costs. Unless specified in writing by Seller, no other charges are included in Seller's list prices.</p>
<b>Taxes</b>	<p>All sales, use, excise and other taxes applicable to the sale of the Products shall be paid by Purchaser. If Purchaser claims an exemption from any tax, Purchaser shall submit to Seller the appropriate exemption certificates.</p>
<b>Terms of Payment</b>	<p>Payment for one hundred percent (100%) of the net order amount is due within thirty (30) days of the date of invoice, which is generally issued upon shipment. In case of any discrepancies, such as shortages, and Seller is notified in writing within ten (10) days of receipt of Product, only that portion may be deducted and the balance paid. For orders greater than \$100,000 net, a fifty percent (50%) deposit is due at the time of order placement, with the remainder due within thirty (30) days of the date of invoice.</p> <p>KnollStudio orders less than \$2,000 require payment for one hundred percent (100%) of the net order amount (including any applicable sales tax and charges for inside delivery, special packaging, etc.), due at time of order placement. For KnollStudio orders greater than \$2,000, a one-half (50%) deposit is due at time of order placement with the remainder (including any applicable sales tax and charges for inside delivery, special packaging, etc.) due prior to shipment.</p> <p>If, in the judgment of Seller, Purchaser's financial condition does not justify the terms of the payment, Seller may require full or partial payment in advance.</p> <p>Past due accounts shall be charged one and one-half percent (1.5%) per month, or the highest rate permitted by law, whichever is less, and will be added to the outstanding balance. In the event Purchaser defaults on payment, Purchaser shall be liable for all collection costs, including reasonable attorney's fees and costs.</p>
<b>Changes and Cancellation</b>	<p>Purchase orders may not be changed or cancelled, in whole or in part, without prior written consent of Seller. Changes may effect delivery dates. Expenses incurred because of changes shall be charged to Purchaser. In the event of cancellations, Purchaser will be liable for reasonable cancellation charges established by Seller. Orders for special Product, orders including "COM" (hereinafter defined) material and orders pursuant to expedited delivery programs, may not be canceled.</p>
<b>Freight Prepaid</b>	<p>Freight is prepaid and included in the price of all Products, except KnollTextiles, within the 48 contiguous United States for orders placed with Knoll, Inc. and within Canada, excluding the Yukon, Northwest Territories, Nunavut and Newfoundland for orders placed with Knoll North America Corp. Packing is tested for rigorous motion and transportation but is not guaranteed to protect furniture from all conditions. If special packaging is required for any reason, please consult with your sales representative or dealer. Seller shall select the method of shipment and routing. Freight for all KnollTextiles orders is prepaid and added to the invoice.</p>
<b>Delivery/Freight Charges</b>	<p>Shipments outside the contiguous 48 United States and Canada shall be shipped F.O.B. Origin.</p> <p>For shipments outside the contiguous United States and Canada, Purchaser is responsible for the cost of freight from point of embarkation, including any handling and transportation charges incidental to loading at the point of departure and unloading at the final destination.</p> <p>Conditions beyond the control of Seller, including weather, available facilities and traffic conditions, may affect exact time of delivery. Seller shall not be responsible for specific carrier delivery date or time unless it has made a specific delivery commitment, in writing.</p> <p>Nonstandard methods of shipment and/or additional services are available upon request. Purchaser will be billed for the differential cost of any special services in excess of standard surface carrier freight costs. Premium charges, at Purchaser's request, will be added for airfreight, exclusive use of vehicle and extra, export or special packaging. Accessorial charges will be added for inside delivery, extra labor, reassignment and redelivery.</p> <p>Partial shipments may be made and invoiced by Seller.</p>
<b>Claims</b>	<p>All shipments for Knoll Products within the contiguous United States and Canada are F.O.B. Origin. All risk of loss passes to Purchaser at time of delivery to carrier. Purchaser shall inspect all Products upon receipt and notify Seller within ten (10) working days after receipt of any damage or defects which are, or should be, apparent from an inspection of the Product and its packaging. Failure of Purchaser to notify Seller during the ten (10) working day period shall constitute acceptance of the Products and waiver of any apparent defects, errors or shortages. For all claims relating to Product damaged in transit or for any other claims relating to or arising out of the transportation of the Product, Purchaser must seek recovery from the carrier and Seller has no liability to Purchaser for such claims. Seller may, upon request, assist Purchaser with filing of such claims with the carrier, but Seller will not be liable for any of these transportation related claims.</p>
<b>Seller's Security Interest</b>	<p>Until Seller receives the full payment for the Product, Seller shall have a security interest in the Product. Purchaser agrees to perform all acts, including but not limited to the execution and filing of documentation, which may be necessary to perfect and assure the security interest of Seller.</p>
<b>Returns</b>	<p>The return of Products without a written authorization by Seller shall not be accepted. To receive authorization for Product return, please call Customer Service. All Products that are returned pursuant to a valid authorization shall be subject to a twenty-five percent (25%) of list restocking charge. Products not currently offered for sale by Seller (including COM) shall not be authorized for return. All returned Products must be unused, in original condition and in the original Seller packing cartons. No refund or credit shall be given for damaged Products.</p>
<b>Held Orders/Storage</b>	<p>If Purchaser requests that an order be held or delayed, prices and terms and conditions in effect at the time of shipment shall apply. If Purchaser requests a delay after the time when Seller can defer production, Purchaser will be invoiced for the Product, payable in accordance with standard terms, when the order is ready for shipment. Seller may transfer the Product to storage, in which case all expenses incurred in connection with storage, including demurrage, preparation for storage, storage charges and handling shall be payable by Purchaser upon submission of invoices by Seller. Risk of loss to the Product shall pass to the Purchaser upon delivery of the Product into storage.</p>

# Selling Policy

<b>Customer's Own Material</b>	<p>A Purchaser who requests a fabric or other surface material not standard to Seller's line of Products ("COM") must submit samples of the requested material to Seller prior to entry of a purchaser order. Seller shall determine if the material is suitable to its manufacturing processes and meets any requirements of Underwriters Laboratories. If the COM is acceptable, Seller will then establish a price for using the COM or the Product in question. For a description of the procedures for submitting samples and testing, contact customer resources or your sales representative. Seller shall have no responsibility for the appearance, condition, performance, durability, colorfastness or any other physical attribute of the COM. Purchaser shall indemnify and hold Seller harmless for any damages, injuries or losses arising out of or related to use of the COM on the Product.</p>
<b>Warranty</b>	<p>Seller warrants to the original Purchaser only that the Products Seller manufactures and sells to Purchaser are free of defects in workmanship and materials, during the applicable warranty period set forth below.</p> <p>Warranty period set forth below is for 24-hour, 7 days a week, multi shift use (includes parts and labor to repair).</p> <p>Should any failure to conform with this limited warranty appear to a Product listed below during the applicable warranty period from the date of shipment, Seller shall, upon prompt written notice, repair or replace, at its option and costs, the affected part or parts.</p> <p><i>Product and Period of Warranty</i></p> <p><i>Lifetime: Antenna Workspaces, AutoStrada, Calibre, Crinion Open Table, Currents, Dividends Horizon, Equity, Morrison, Reff Profiles laminate, Series 2 Storage, Template and other non-wood components (except cascade edge worksurfaces, operational parts, controls, electrical, Lighting, Series 2 Veneer Front Storage, special or custom products, see below)</i></p> <p><i>12 Years: Chadwick, Essentials Work Chairs, Generation by Knoll, Life, Moment, MultiGeneration by Knoll, ReGeneration by Knoll, RPM, Sapper and Toboggan seating (except seating upholstery, textiles, leathers and finishes, see below).</i></p> <p><i>10 Years: Anchor Storage, Antenna Workspaces, AutoStrada, Crinion Open Table, Dividends Horizon, Reff Profiles, Template wood components, Series 2 Veneer Front Storage, cascade edge worksurfaces, Wood Casegoods (The Graham Collection) (except wood casegoods upholstered surfaces, see below), Interaction tables (except height adjustment mechanisms for Counterforce, crank-adjustable, and split-top tables and worksurfaces, see below), Reuter overheads, Reuter vertical storage, KnollExtra Sapper Monitor Arm Collection, Adjustable keyboard mechanisms and platforms, Communication Boards (except fabric board textiles, see below), Smokador collection (except leathers, see below), and Orchestra Universal Systems Accessories.</i></p> <p><i>5 Years: Operational parts, controls, electrical, Lighting (except light ballasts, bulbs and power supply, see below), special or custom product, wood veneer products, Currents handcrank, Interaction Counterforce, Interaction crank-adjustable, and split-top mechanisms, KnollStudio, Spark Series seating structural elements, Richard Schultz outdoor products, KnollExtra CPU storage and all universal storage drawers and Power Collection.</i></p> <p><i>3 Years: Seating upholstery, textiles, leathers and finishes. Fabric boards textiles and Smokador Collection leathers.</i></p> <p><i>2 Years: All other KnollExtra product</i></p> <p><i>1 Year: Light ballasts, bulbs and power supply, seating upholstered armpads and soft armpads, wood casegoods upholstered surfaces. KnollStudio Maya Lin and Spark Series seating finishes.</i></p> <p>This warranty does not apply to:</p> <ul style="list-style-type: none"><li>• Damage caused by a carrier other than the Seller.</li><li>• Normal wear and tear or acts or omissions of parties other than Seller (including user modification, improper use or installation of Products).</li><li>• COM or other third party materials applied to Products.</li><li>• Products not installed by or under the auspices of a Knoll Dealer.</li><li>• Dramatic temperature variations or exposure to unusual conditions.</li><li>• Changes in surface finishes, including colorfastness due to aging or exposure to light.</li><li>• Except as specifically noted above, textiles and upholstery supplied by <i>KnollTextiles</i> (consult current <i>KnollTextiles</i> price list for applicable warranty).</li></ul> <p>Natural variations occurring in wood, marble, and leather shall not be considered defects, and the Seller does not guarantee the colorfastness or matching of the colors, grains or textures, or surface hardness of such materials. The Seller also does not guarantee the colorfastness of fiberglass panel surfaces.</p> <p>THE EXPRESS WARRANTIES CONTAINED HEREIN ARE IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTIES OF MERCHANTABILITY AND FITNESS FOR PARTICULAR PURPOSE AND ALL OTHER WARRANTIES ARISING FROM COURSE OF DEALING OR USAGE OF TRADE.</p> <p>The remedies provided above are the Purchaser's sole remedies for any failure of Seller to comply with its obligations regarding the workmanship of its Products. Correction of any nonconformity in the manner and for the period of time provided shall constitute complete fulfillment of all liabilities of Seller, with respect to or arising out of the Product furnished hereunder.</p>
<b>Delay/Force Majeure</b>	<p>Seller shall not be liable for failure to perform or for delay in performance due to fire, flood, strike or other labor difficulty, act of God, act of any governmental authority or of the Purchaser, riot, embargo, fuel or energy shortage, wrecks or delay in transportation, inability to obtain necessary labor, materials or manufacturing facilities from usual sources or failure of suppliers to meet their contractual obligations, or due to any cause beyond its reasonable control. If any such event occurs, Seller may extend delivery dates by a period of time necessary to overcome the effect of such delay, allocate available Product or cancel any purchase order.</p>
<b>Compliance with Law</b>	<p>PURCHASER IS SOLELY RESPONSIBLE FOR COMPLIANCE WITH ALL APPLICABLE FEDERAL, STATE AND LOCAL LAWS, ORDINANCES, REGULATIONS, RULES AND STANDARDS RELATING TO THE INSTALLATION, MAINTENANCE, USE AND OPERATION OF THE PRODUCTS.</p>
<b>Patents</b>	<p>Subject to the following provisions, Seller shall, at its own expense, defend or, at its option, settle any claim, suit or proceeding brought against the Purchaser, and/or its vendees, mediate and immediate, so far as based on an allegation that any Product or any part thereof furnished hereunder constitutes a direct or a contributory infringement of any claim of any patent of the United States or Canada. This obligation shall be effective only if Purchaser shall have made all payments then due hereunder and if Seller is notified promptly in writing and given authority, information and assistance for the defense of said claim, suit or proceeding. Seller shall pay all damages and costs awarded in such suit or proceedings so defended.</p> <p>The foregoing indemnity does not apply to the following:</p> <ul style="list-style-type: none"><li>• Products supplied according to a design other than that of Seller, and which is required by the Purchaser.</li><li>• Combination of the Product with another product not furnished hereunder unless Seller is a contributory infringer.</li><li>• Any settlements of a suit or proceeding made without Seller's written consent.</li></ul>
<b>Limitations of Liability</b>	<p><b>SELLER, ITS CONTRACTORS, AUTHORIZED DEALERS AND SUBCONTRACTORS OR SUPPLIERS OF ANY TIER SHALL NOT BE LIABLE TO PURCHASER FOR ANY SPECIAL, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING FROM A BREACH OF THIS AGREEMENT.</b></p> <p>Purchaser's remedies set forth herein are exclusive and the liability of Seller with respect to the breach of this agreement or any contract entered into between the parties pursuant hereto shall not exceed the price of the Product or part on which such liability is based.</p>

# KnollKey Lock Program

## KnollKey Lock Program General Information

Following is the KnollKey lock policy, applicable to all products.

Knoll furniture can be ordered keyed-alike or random keyed. Key-alike and random keying instructions cannot be mixed on any single order. Only one of the two instructions can be used on an individual order. When an order is submitted with mixed (key-alike and random) instructions, Knoll will release the order as key-alike only and lock cores will have to be specified separately.

### Key-alike

For the convenience of the user, furniture may be keyed alike at no charge. Write "Key-alike" in the description of your purchase order for any pedestal, overhead, file or other item you wish to have keyed alike.

Using the key-alike instructions, order cores and keys as line items on your purchase order. Do NOT submit a key-alike form. The Knoll East Greenville Lock Center will select key numbers from the standard range of K 001 - K 250. Key numbers will not be repeated unless over 250 sets are ordered. Lock cores keyed-alike will ship separately from the product, ready for field installation.

There is no charge for key-alike orders if placed with the furniture order.

**IF THE KEY-ALIKE ORDER IS NOT PLACED AT LEAST TWO WEEKS PRIOR TO THE FURNITURE SHIP DATE, A \$50 HANDLING CHARGE AND AIR FREIGHT CHARGES WILL APPLY.**

**If product is ordered and shipped random-keyed, additional lock cores for key-alike are billable.**

### Random-Keying

To specify product keyed-random, write "key-random" in the product description. Random-keyed product is shipped with the lock core factory installed. A shrouded key is included. Random means no effort has been made to match key numbers, or to make them different.

### Keys

A Knoll shrouded key is shipped with every lock core. 250 Key numbers are available. For numbers above 250, contact Custom Product Development. Additional keys and key blanks are available. See service parts for more information.

### Master Keying

Knoll locks can be controlled by means of a master key. There is no additional per-lock charge for master keying. A letter of approval from the client must accompany orders for master keys.

### Installing Lock Cores

Lock cores can be installed or removed in the field by using a change key. Cores must be in the unlocked position to be removed. See service parts for change key pattern number and pricing.

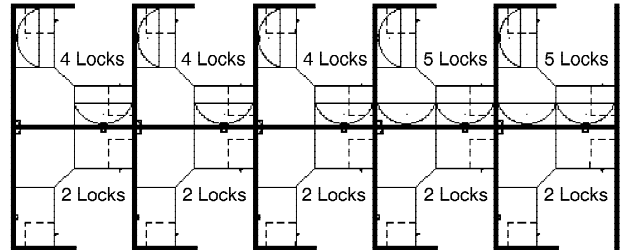

### Lock Distribution

All orders for key-alike lock cores/keys are packaged and shipped from the East Greenville Lock Center, regardless of where the pedestals, overhead, or other units are produced. Random keyed product will have cores factory-installed.

## How to Specify Key-Alike

Following is an example of how to specify key-alike for a cluster of 10 workstations.

**Step 1** - Using the project floorplan, count the number of locks in each workstation.

**Step 2** - Count the number of workstations with the same quantity of locks. Group together the workstations with a like number of locks.

5 workstations with 2 locks per station  
3 workstations with 4 locks per station  
2 workstations with 5 locks per station

**Step 3** - For the first group (5 sets of 2 locks), enter the number of workstations in the quantity column.

Qty	Pattern #	Description	Unit List	Ext. List
5				

**Step 4** - Then enter the pattern number "KSPEC\_ \_" and add a suffix for the number of locks for that group (i.e., for 2 locks per station, add the suffix "2"). Up to 30 lock cores are available in a set (i.e., KSPEC 30).

Qty	Pattern #	Description	Unit List	Ext. List
5	KSPEC 2	Set of 2 cores/keys	N / C	N / C

**Step 5** - Repeat for other groups.

Qty	Pattern #	Description	Unit List	Ext. List
5	KSPEC 2	Set of 2 cores/keys	N / C	N / C
3	KSPEC 4	Set of 4 cores/keys	N / C	N / C
2	KSPEC 5	Set of 5 cores/keys	N / C	N / C

Your Key instructions are complete.

Knoll will select key numbers for each set from 250 available numbers. Additional key numbers are available through Custom Product Development. **For additions to existing installations, specify desired key numbers in the description.**

## Service Parts

Pattern #	Description	List Price
KKEY_ _ _	Shrouded Key Specify key number desired	\$10
KBLANK	Shrouded Key Blank	\$10
KSPECB_ _ _	Retrofit Universal Core/Key Specify key number desired	\$22
KCHANGE	Change Key	\$10
HLKRKMASTER*	Master Key	\$10

\*Note: A letter of approval on company letterhead from the client must accompany all orders for master keys.

# General Ordering Information

---

## **The Products**

This guide encompasses all standard products for this product group.

## **Sizes**

Dimensions listed in this guide are indicated as:

H = height

W = width

D = depth

Dia. = diameter

Rad. = radius

## **Pricing**

All prices shown are list.

## **How to Order**

Select pattern numbers and quantities required for your complete installation. Product questions can be addressed in the specific sections of this guide or by contacting your sales representative or customer resource representative at 1-800-343-5665.

Next, select options (if required), along with colors and finishes appropriate to each product. Reference the Finishes and Fabrics pages for color designations.

On large installations, an item's "designated area" can be specified to assist in product organization and handling.

To expedite complete / correct entry of your order, be certain all pattern numbers, quantities, colors and area identifications are completely specified. Also, include complete purchase order numbers, bill-to and ship-to addresses, a contact name and specific factory shipping dates required.

## **Mail all orders to:**

Knoll, Inc.

1235 Water Street

P.O. Box 157

East Greenville, PA 18041

Attention: Order Entry

Once your order is entered at Knoll, an acknowledgment will be mailed to you. You will be advised of your scheduled shipping date within five days of the original acknowledgment. If it is necessary to revise your order, please contact your customer resource representative.

## Sustainability Statement

---

Sustainable design is a key component of Knoll's environmental focus. Our commitment to social responsibility and a healthy environment has prompted us to further articulate our longstanding environmental programs and, with encouragement and support from our colleagues in the industry, we have re-energized our focus on such "green" initiatives as life cycle analysis and LEED™ certification. Knoll is proud to have contributed to projects that have received LEED certification from the U.S. Green Building Council.

For the latest information on Knoll products that help our customers achieve LEED certification, log on to [knoll.com](http://knoll.com), click on "About Knoll" and then "Environmental Focus."
