Knoll and Sustainable Design

Each year Knoll sets key initiatives in our journey to sustainability. We are members of a global consortium on energy, have adopted a scientific, metrics-based approach to sustainable product design, and maintain a leadership position in establishing universal, verifiable, sustainability standards for our industry.

Knoll promotes independent third-party certification because it provides the most impartial and trustworthy foundation for industry-wide environmental compliance. Certification by established and respected third parties ensures that all manufacturers are held to the same high standards and that customers can trust a company's declaration about the environmental benefits of its products. Knoll third-party partners include: the International Standards Organization (ISO); Forest Stewardship Council (FSC); GREENGUARD® Environmental Institute; and Chicago Climate Exchange (CCX®).

In addition, Knoll is aligned with the U.S. Green Building Council and can help companies, healthcare organizations and educational institutions achieve Leadership in Energy and Environmental Design (LEED®) workplace certification.

1. Global Climate Change

- Knoll is a sponsor of the Clinton Global Initiative, which brings together a community of global leaders to devise and implement solutions to some of the world's most pressing challenges, including environmental change.
- Knoll is a member of the Chicago Climate Exchange, which promotes greenhouse gas reduction through the trading of credits earned for reducing emissions.
- Knoll has a comprehensive Energy Management Program to increase energy efficiency in products and processes.

2. Life Cycle Assessment (LCA) Tool

Life Cycle Assessment is a science-based measurement of a product's environmental impacts throughout its life cycle, from raw materials sourcing through manufacture, shipping, use, and re-use or end-of-life. LCA enables cradle-to-cradle implementation of sustainable practices.

- Knoll partners with The Green Standard.org (formerly the International Design Center for the Environment, or IDCE) to develop an affordable, universal, ISO-compliant computer-based LCA tool that can be used by the entire contract furniture industry.

An affordable universal LCA tool has enormous potential value to:

- Help stop dangerous and irreversible climate change
- Conserve natural resources and reduce waste
- Improve quality of life
- Eliminate market confusion about green products using real metrics and sound science
- Facilitate design innovation
- Advance the sustainability triple bottom line: environment, economics and social equity

3. Setting Industry Standards

- Knoll partners with MTS (Market Transformation to Sustainability) to develop the SMART® Standard, a set of consensus-based sustainable product standards based on the LEED® model, for all building products, fabric, apparel, flooring and carpet. MTS, the developer of the SMART Standard, is an accredited American National Standards Institute (ANSI) standard developer.
- Knoll also participates in an ongoing BIFMA (Business and Institutional Furniture Manufacturers Association) initiative to establish sustainability standards for the contract furniture industry.
- Our goal is to encourage all manufacturers in the contract furniture and related industries to adopt standards that will lead to sustainable products and practices.

For more information about Knoll environmental, health and safety programs, visit knoll.com/environment.

This price list provides you with the product information you need to specify and order Knoll Morrison.

Morrison is a completely integrated office system, capable of all types of office planning. Morrison may plan as a panel system, with panel mounted components, or as a freestanding desk system. Morrison can also be combined with the Currents service wall for superior wire management, cable access and off-module planning. Major components – panels, worksurfaces and storage – may be configured or reconfigured in all types of planning listed above.

Information about Morrison is found in three companion books: this Price List, the Planning Guide and the Brochure.

The Price List arranges components in a logical sequence.

The first section includes all major components required for panel system planning: Morrison and Options panels, add-on panels, connectors, doors, Morrison Access, top cap kits, stackable add-up panels and power distribution.

The second section includes those components required for worksurface planning and support: Morrison and Options worksurfaces, Currents worksurfaces for Morrison, desk panels, Morrison Network desk supports, brackets, and power components.

The third section includes storage components for panel based or freestanding planning: pedestals, Intermediate shelves, Morrison, Options and Reuter overhead storage and lighting, screens, and vertical storage.

The fourth section includes accessories. The complete range of computer support and accessories can be found in the KnollExtra price list.

How to order Morrison

Morrison is a component-based system. To ensure a complete order for a workstation or project, specify components in the same order as the price list.

You will find that Morrison pattern numbers contain a logical, alphanumeric sequence describing the type, size, features, and finish of the component.

To specify components, consult the ordering code examples and application notes provided.

For example, to order a 1 3/4" light grey laminate worksurface with grommets, 48"W by 24"D specify: **MW2-S4824A114**. Details follow:

MW2	1 3/4" worksurface
S	Straight
48	Width
24	Depth
A	With grommets
114	Folkstone Grey laminate

For further assistance with ordering or specifying Morrison, consult your Knoll representative or Knoll dealer.

Please note that pattern numbers beginning with the letter **A-** are Currents pattern numbers.

This price list contains pricing for Core finishes. For detailed pricing of Legacy finishes, please refer to the latest release of CAP worksheet or contact your customer service representative.

The new, Core P1 finishes in Morrison have the same list prices as P2. Additionally, Pedestals and Reuter overhead storage have a separate P3 price point for Silver and Bright White.

The new Core finish 113 Dark Grey is not a match to the Morrison Legacy finish NV. It is a match to the Dividends Legacy finish Y3.

The new Core finish 115 Medium Grey is not a match to the Morrison Legacy finish NJ. It is a match to the Dividends Legacy finish Y2.

Patterned laminates (Micro, Brushed and Wood grain laminates) are available on Morrison postformed worksurfaces and shelves (straight, trapezoidal, VDT).

Wood grain laminates are also available on Cascade Edge worksurfaces.

MP2	Panel
42	Height
30	Width
15	Surface type and group no.
W210/20	Upholstery

Specification Information

Surface type/finish suffixes

For upholstered panels, specify upholstery pattern number after the fabric group number.

- 10- Fabric group 10
- 15- Fabric group 15
- 20- Fabric group 20
- 30- Fabric group 30
- 35- Fabric group 35
- 40- Fabric group 40
- 45- Fabric group 45

Upholstered panels may be ordered in a combination of fabrics. List price is the average of the two fabric grades.

For combinations of fabrics list both suffixes (e.g. 10/20) and upholstery pattern numbers.

Application Notes

Top caps/raceway covers are specified as separate kits, and are bulk shipped to facilitate installation.

Non-powered panel raceways accommodate 96 or more 4-pair unshielded twisted pair cables (Category 5, 5E or 6). Powered panel raceways accommodate up to 48 4-pair cables. Power components are ordered separately and field-installed.

60"W glazed panels are not available.

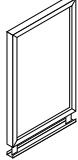

*High performance panel acoustical ratings:
NRC .80, STC 24*

Upholstered panels may be specified to achieve ASTM E-84 Class "A" flamespread rating.

MP2	Panel
80	Height
30	Width
15	Surface type and group no.
W210/20	Upholstery

Specification Information

*Surface type/finish suffixes
Upholstered panels:*

For upholstered panels, specify upholstery pattern number after the fabric group number.

- 10- Fabric group 10
- 15- Fabric group 15
- 20- Fabric group 20
- 30- Fabric group 30
- 35- Fabric group 35
- 40- Fabric group 40
- 45- Fabric group 45

Upholstered panels may be ordered in a combination of fabrics. List price is the average of the two fabric grades.

For combinations of fabrics list both suffixes (e.g., 20/40) and upholstery pattern numbers.

Application Notes

Top caps/raceway covers are specified as separate kits, and are bulk shipped to facilitate installation.

Non-powered panel raceways accommodate 96 or more 4-pair unshielded twisted pair cables (Category 5, 5E or 6). Powered panel raceways accommodate up to 48 4-pair cables. Power components are ordered separately and field-installed.

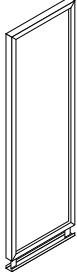

*High performance panel acoustical ratings:
NRC .30, STC 24*

Upholstered panels may be specified to achieve ASTM E-84 Class "A" flamespread rating.

Specification Information

For markerboard surface on both sides, no finish code is required.

Surface type/finish suffixes:

M- Markerboard surface

Application Notes

Top caps/raceway covers are specified as separate kits, and are bulk packed to facilitate installation.

Non-powered panel raceways accommodate 96 or more 4-pair unshielded twisted pair cables (Category 5, 5E or 6). Powered panel raceways accommodate up to 48 4-pair cables. Power components are ordered separately and field-installed.

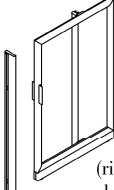

Markerboard surface is non-metallic.

Example: MP3-A2230-15-W210/2	<i>Surface type/finish suffixes</i>	Add-on panels mount on any height Morrison vertical panel of the same width with add-on connectors or full height connectors.
MP3	Panel	22"H add-on panels may be mounted on 42"H vertical panels and connected with standard 64"H connector tracks and post assemblies.
A	Add-on	32"H add-on panels may be mounted on 48"H vertical panels and connected with standard 80"H connector tracks and post assemblies.
22	Height	Full height 48" and 64" connectors permit cantilevered shelves and overhead cabinets.
30	Width	Two 16"H add-on panels may be mounted on a 48"H upholstered panel only when using 80"H full height connector track and post assemblies.
15	Surface type and group no.	
W210/2	Upholstery	
	Upholstered add-on panels may be ordered in a combination of fabrics. List price is the average of the two fabric grades.	All add-on panels are 1/4" less than nominal height to allow for a 1/4" horizontal reveal with light seal.
	For combinations of fabrics list both suffixes (e.g. 10/20) and upholstery pattern numbers.	16"H add-on panels may be mounted on 30"H and 56"H vertical panels and connected, respectively, with standard 64"H and 80"H connector tracks and post assemblies.
		18"H add-on panels may be mounted on 30"H and 56"H vertical panels and connected, respectively, with standard 48"H and 74"H connector tracks and post assemblies.

Application Notes

Post assembly pricing includes connector tracks, posts, and trim covers when required. Top caps/raceway covers are specified as separate kits and bulk shipped to facilitate installation.

Add-on connectors include brackets to add panels or windows to the top of any Morrison vertical panel except glazed panels.

Add-on connectors must be specified in the same height as the add-on panel or window.

Add-on connectors do not support cantilevered shelves or overhead cabinets. For these applications, specify full height connectors.

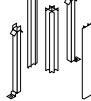

Add-on end post should be specified when add-on panels end over L or T post.

2-way straight post should be specified when add-on panels connect in a straight line over an X or T post.

Order Code

Example:	M2-5444-613-15-W210/5
M2	Connector
5444	Configuration
613	Top cap finish
15	Fabric group
W210/5	Upholstery

Specification Information

All high-low pattern numbers contain a logical four digit code in which 30" is 3, 39" is 9, 42" is 4, 48" is 8, 56" is 5, 64" is 6, and 80" is 1.

* Indicate height of lower panels
replace * with one of the following:

3 30"H
9 39"H
4 42"H
8 48"H
5 56"H
6 64"H
1 80"H

The following high-low connections are available as standard product:

panel	connection to
39"	30"
48"	42", 39", 30"
56"	48", 42", 30"
64"	56", 48", 42", 30"
80"	64", 48"

For all other connections, please contact your Custom Product Development representative. First suffix is for top cap finish, second is for raceway cover finish. Raceway covers will always be matched with the metallic finish corresponding to top cap finish. Final suffix is for trim covers surface type. When ordering non-upholstered trims, surface type must match top cap type.

Surface type:

10-	Fabric group 10
15-	Fabric group 15
20-	Fabric group 20
30-	Fabric group 30
35-	Fabric group 35
40-	Fabric group 40
45-	Fabric group 45

For a high-low configuration with wood top caps, change pattern number prefix to M3. For V3 finishes, add \$60 to the price listed above.

Application Notes

High-low post assemblies are used to join panels of two heights in an X configuration. Assemblies come complete with post, hardware, and trim as required.

Order dedicated high-low top caps separately for the lower panel in an X configuration.

To specify a 90° 4-way high-low connection of a 56" panel and three 42" panels:

1. Start with the highest panel, 56"="5".
2. Proceed either clockwise or counter-clockwise to the next highest panel, 42"="4".
3. Continue in the same direction to the next panel, 42"="4".
4. Continue in the same direction to the last panel, 42"="4".

The correct code is M2-5444.

MA1 Morrison Access	For face plates, specify surface paint finish. n/c = No charge.	Specify face plates kit with covers for all vertical raceway panels, with outlets one or both sides. Kit with four openings has two outlet openings just above worksurface and two outlets below the worksurface, in one channel. Other channel and all other covers have no outlet openings. Face plates kit with eight openings has four outlets above and four below, in two channels.
V Vertical raceway		All kits include covers for both sides of vertical raceway.
42 Height	Vertical raceway extends panel base raceway to top cap, providing desk-height access and continuity with Highway and top cap raceway.	Outlet openings accept PDC modules, blank filler plates, or power outlets (specify outlets and power components separately).
06 Width	Vertical raceway plans as 6" wide panel, requiring standard connectors to join to adjacent vertical panels. Specify 6" top cap and raceway cover kit separately.	
	Vertical raceway panel has two full 2" x 2" lay-in channels for power track, PDC connectors or lay-in cable management, and one center easy-access channel.

H	Highway
42	Width

Specification Information

Highway for panels is black anodized aluminum with black vinyl flaps. Highway connectors are black color-integral molded plastic.

Highway snaps onto top of vertical panel to provide accessible horizontal cable channel on each side of panel.

Highway may be planned on all same-height panels in a cluster or only on center spine panels.

Highway accepts standard top caps.

Highway capacity is approximately thirty-two Category 5 4-pair UTP cables (3/16"dia. or equivalent), or sixteen each side.

Highways for high-low panels are sized for the lower panel in straight high-low configurations.

Application Notes

When Highway is planned only on the center spine of a cluster specify straight post Highway connectors at T and X connections; specify Highway end post connector at corner or T at end of spine. Specify straight post or end post top caps separately (see page 0). for all L, T and X connections.

Highway connectors permit continuous lay-in cabling at all post connections. For full cable enclosure over L or T connections specify top cap raceway connectors (page 77).

Specification Information

- N- No outlet filler plates
- E- With outlet filler plates
- C- Post assembly
- For Chicago code raceway covers with outlet plates, see page 102.
- Specify finish for top cap and raceway covers.

Application Notes

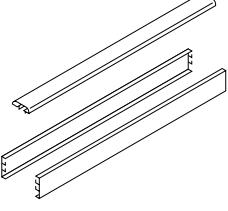

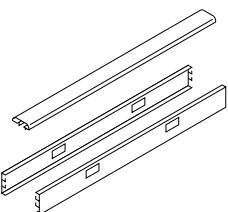

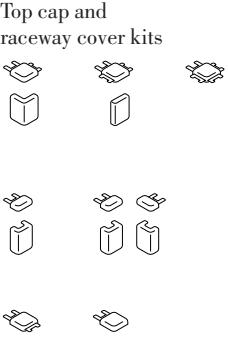

Top caps/raceway covers are specified as separate kits and bulk shipped to facilitate installation. High-low post assemblies come with connector top cap/raceway cover kits; they do not have to be specified separately.

18" powered panels can transmit power but do not accept outlets. 24"W panels accept only one receptacle each side. All powered panels over 24"W have two receptacles on each side (4 duplex outlets per panel).

Raceway covers with additional receptacle openings on panels over 42"W may be specified separately (in addition to top cap/covers kit). See Multiple outlet covers, page 82.

High-low dedicated width top cap - Post

**Order Code**Example: **MT5-HLC36-612****MT5** Top cap kit**HLC** Type**36** Panel width**612** Paint finish**Specification Information**

Specify finish for top cap and raceway covers.

Application Notes

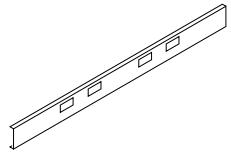

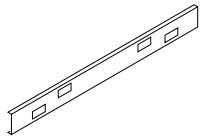

For panels used in high-low configurations, order standard top cap/raceway cover kits on previous pages. Then order one dedicated width top cap for each of the lower panels in the high-low configuration. Install the standard raceway covers, but replace the standard top cap with the high-low top cap. Save the standard top cap for future reconfiguration.

High-low top caps for straight configurations are used only with high-low straight connectors. High-low top caps for post configurations are used with all corner, T, or X high-low post assemblies.

Top caps are painted, Techgrain® or natural veneer.

Specification Information

Morrison 2 +2™ Raceway is a four-circuit, eight-wire modular power distribution system, for use in Morrison panels and Network desk supports. 2 + 2™ Raceway components distribute two 20-amp convenience circuits (A and B), with neutral and ground, and two protected 20-amp circuits (X and Y) with separate neutral and ground.

Application Notes

Power rails are the primary power distribution component of the Morrison 2 + 2 Raceway. Each rail provides outlet mounting positions on both sides, and receptacles for two branching power connectors at each end. Center supports permit lay-in cabling from either side of the raceway.

Rail for 24" wide panel accepts one duplex outlet or power infeed centered on each side. Rails for 30" and wider panels accept two outlets (or one outlet and one infeed) each side, 12" from either end of the panel. Multiple outlet power rails accept up to four duplex outlets each side.

Power rail for vertical raceway accepts up to four duplex outlets each side, two above and two below standard worksurface height. Power rail for vertical raceway includes power connector from adjacent powered panel base.

If separation of cabling and electrical wires is required, a data shield can be attached below the power rail. Data shields are field installed.

Specification Information

Morrison 2+2™ Raceway is a four-circuit, eight-wire modular power distribution system, for use in Morrison panels and Network desk supports. 2+2™ Raceway components distribute two 20-amp convenience circuits (A and B), with neutral and ground, and two protected 20-amp circuits (X and Y) with separate neutral and ground.

Power connectors are enclosed in steel flexible conduit.

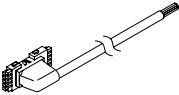

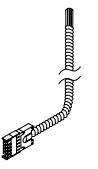

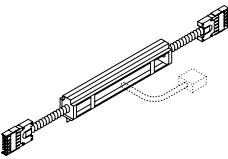

Application Notes

Jumpers connect rails on either side of a panel or panels without outlets. Extended jumpers for panels less than 60" wide (suffix -P) transmit power through an adjacent L, T or X post connection. Jumpers for wider panel runs accommodate an intermediate post connection.

Also specify extended jumper when connecting between vertical raceway power rail and a panel base power rail on either side of a panel or panels without outlets.

Power connectors transmit power between adjacent powered panels. Specify straight power connector for straight connections, and post power connector for L, T or X post connections.

Specification Information

Morrison 3 +3™ Raceway is a four-circuit, eight-wire modular power distribution system, for use in Morrison panels and Network desk supports. 3 + 3™ Raceway components distribute three 20-amp convenience circuits (A, B, C), with neutral and ground, and three protected 20-amp circuits (X, Y, Z) with separate neutral and ground.

Application Notes

Power infeeds connect building power supply to a cluster of interconnected power rails. Panel base infeed snaps into any outlet position in rail, 12" from either side of panel, and includes 6 foot liquid-tight conduit and pigtail for connection to floor or wall electrical box. MR3-TRPI Panel Base Infeed rotates to provide either a left- or right-hand power entry.

Ceiling infeeds include 12'-6" pigtail for connection into panel base through Morrison vertical raceway and ceiling infeed panel, or through standard power pole (supplied by others) adjacent to Morrison panel with power rail.

Hardwire infeed, used in all New York City installations, includes junction box that mounts within non-powered panel base (any width 24" or greater). Electrical contractor supplies conduit from building power supply to panel, punches infeed hole in raceway cover, and trims power connectors to length.

MR3-TPNY2 includes two power connectors to power panels on both sides of infeed panel; MR3-TPNY1 includes only one power connector. Template is included to modify standard N-type raceway cover (without outlet openings).

Power infeed for panel base for San Francisco installations have a liquid-tight sleeve over a metallic conduit.

Order Code	
Example:	MW2-S3618-B-117
MW2	Worksurface 1 ³ / ₄ " thick
S	Worksurface type
36	Width
18	Depth
B	No grommets
117	Surface finish

Specification Information	Application Notes
B: Worksurface does not include grommets	18"D worksurfaces are used interchangeably in desk and panel system applications as shallow main surfaces, extensions, or credenza tops. They must be supported at each end by a pedestal, end panel, end support cantilever or cantilever bridging bracket with a maximum span of 60" between supports.
Specify surface finish	All worksurfaces are U.L.-listed.
All worksurfaces have threaded metal inserts at all end panel, desk support and bracket locations and pilot holes at pedestal locations.	All worksurfaces are supported by brackets with machine screws.
MW2- worksurfaces are supported by desk supports or filler panels do not accept pedestals.	Panel supported worksurfaces over 60" must be mid-span supported by MB2-C18 bracket, specified separately.
	18"D worksurfaces with desk supports or filler panels do not accept pedestals.

Order Code

Example:	MW2-V4830-C-117
MW2	Worksurface, 1 3/4" thick
V	VDT corner
48	Width
30	Depth of return
C	Three grommets
117	Surface finish

Specification Information

<i>Grommets/no grommets:</i>	
A-	VDT corner includes 3" grommet in back corner.
C-	VDT corner includes 3" grommet in all three back corners.
P-	VDT corner with integral, pneumatically adjustable keyboard support 24"W x 12"D; includes one grommet.
M-	VDT corner with integral, mechanically adjustable keyboard support 24"W x 12"D; includes one grommet.

Specify surface finish.
VDT worksurfaces have threaded metal inserts at all desk support and bracket locations.
MW2- worksurfaces are supported by brackets with machine screws.
All worksurfaces are U.L.-listed.

Application Notes

VDT corners may be used interchangeably in desk and panel system applications. They must be supported by VDT support brackets on each back edge or cantilever bridging brackets on each side edge and a cantilever bracket on the back corner.

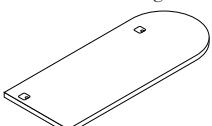

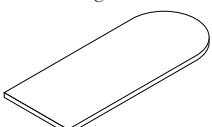

36"W x 18"D VDT corners accept 18"D returns, 36", 42", and 48"W x 24"D VDT corners accept 24"D returns, 42" and 48"W x 30"D VDT corners accept 30"D returns.

VDT corners are 5/8" less than nominal depth for rear wire clearance or privacy screens.

Plastic laminate worksurfaces are post-formed on front and back edges. 48" x 24" VDT corners have an inside radius, T-mold front edge that curves into an optimal 45° straight keyboard location.

Order Code	Specification Information	Application Notes
Example: MW2-R7836E-117		
MW2 Worksurface, 1 3/4" thick	<i>Grommets/no grommets:</i>	Rounds end worksurfaces may be used to create fully enclosed desks or open table/desks with support column. For front modesty, use 48"W desk support with 66" rounded end, 60"W desk support with 78" rounded end; 72"W desk support with 90" rounded end.
R Rounded end	B- worksurface does not include grommets.	Worksurfaces with grommets are bored to accept and are shipped with wire manager clips.
78 Width	E- rounded end worksurface includes 3" grommet in each straight end corner.	Worksurfaces with end grommets may not be supported by conference end panels.
36 Depth	R- rounded end worksurface includes 3" grommets recessed for use with 6" recessed desk support.	Plastic laminate worksurfaces have radiused T-mold edge.
E End grommets	Specify surface finish.	Rounded end worksurfaces have threaded metal inserts for desk support, end panel each end, and at all bracket locations. End grommet worksurfaces have no pedestal inserts.
117 Surface finish	Rounded end worksurfaces with recessed or no grommets are specified left or right to determine position of grommets and pedestal drilling. Rounded end when seated at desk defines L/R hand (Right hand shown above). All worksurfaces are U.L.-listed.	MW2- worksurfaces are supported by brackets with machine screws.
	Recessed grommets align with desk support recessed 6".

Example: **MU1-S4818-B-117**

MU1	Worksurface 1 1/4" thick
S	Worksurface type
48	Width
18	Depth
B	No grommets
117	Surface finish

Specification Information

B: Worksurface does not include grommets.

Specify surface finish.

1 1/4" worksurfaces are 3-ply, solid core construction with threaded metal inserts at all end panel, desk support and bracket locations and pilot holes at pedestal locations.

All worksurfaces are U.L.-listed.

MU1- worksurfaces are supported by brackets with machine screws.

Application Notes

18"D worksurfaces are used interchangeably in desk and panel system applications as shallow main surfaces, extensions, or credenza tops. They may be supported at each end by an 18 " end support bracket, 18" cantilever bracket, 18"W conference end panel, 18"D pedestal, or 12"W end panel (MN2-E12) in conjunction with a desk support.

18"D worksurfaces with desk supports do not accept pedestals.

All worksurfaces are $\frac{3}{8}$ " less than nominal depth for rear wire clearance or privacy screens.

Panel-supported 1 1/4" worksurfaces over 48" must be mid-span supported by MB2-C18 bracket, specified separately.

Veneer Group 1 worksurfaces are quartered Techgrain®.

Veneer Group 2 worksurfaces are rift cut Techgrain®.

Veneer Group 3 worksurfaces are narrow heart, flat cut natural veneers.

Suspended pedestals may not be used with 1 1/4" worksurfaces.

MU1	Worksurface, 1 1/4" thick
R	Rounded end
30	Width
50	Depth
B	No grommet
117	Surface finish

Specification Information

Grommets/no grommets:

B- worksurface does not include grommets.

Specify surface finish.

1 1/4" worksurfaces are 3-ply, solid core construction with threaded metal inserts at all end panel, desk support and bracket locations and pilot holes at pedestal locations.

MU1- worksurfaces are supported by brackets with machine screws.

Plastic laminate worksurfaces have radiused T mold edge.

All worksurfaces are U.L.-listed.

Application Notes

Half-round and extended half-round are used with back-to-back 24"D straight or VDT corner worksurfaces. Half round with vertical panel attaches to 24"D straight or VDT corner worksurfaces supported by vertical panel.

Conference worksurfaces must be supported by support column and flat bracket or bridging bracket to adjacent worksurface.

Example:	LU1-S4818-B-117
LU1	Worksurface, 1 1/4" thick
S	Straight worksurface
48	Width
18	Depth
B	No grommet
117	Surface finish

Specification Information

Grommet/no grommet:

- A- worksurface includes one edge grommet
- B- worksurface does not include grommet

Specify surface finish.

1 1/4" Options worksurfaces are 3-ply, solid core construction with pilot holes at all pedestal, end panel, and bracket locations.

Edge grommets are centered at rear of worksurface.

LU1- worksurfaces are supported by brackets with wood screws.

Application Notes

18"D worksurfaces are used in panel system applications as shallow main surfaces, extensions or credenza tops. They may be supported at each end by an 18" end support bracket, 18"W cantilever bracket, 18"W desk end panel or 18"D pedestal.

Options worksurfaces cannot be used in conjunction with Network desk supports.

All straight worksurfaces are 3/8" less than nominal depth for rear wire clearance.

Panel-supported 1 1/4" worksurfaces over 48" must be mid-span supported by MB2-C18 bracket, specified separately.

Panel-supported 1 1/4" worksurfaces over 96" must be pedestal or MB2-C24 cantilever bracket supported every 48".

Suspended pedestals may not be used with 1 1/4" worksurfaces.

Example:	LU1-V4830-A-117
LU1	Worksurface, 1 1/4" thick
V	VDT corner
48	Width
30	Depth of return
A	Corner grommet
117	Specify finish

Specification Information

Grommet/no grommet:

A- VDT corner includes one edge grommet in back corner. Straight split top has one center back edge grommet.

Specify surface finish.

1 1/4" Options worksurfaces are solid core construction with pilot holes at all bracket locations.

LU1- worksurfaces are supported by brackets with wood screws.

Application Notes

VDT corners and split top straight surfaces are used in panel system applications. Options VDT corners may be supported by left or right hand 24" cantilever brackets at the rear corner, and cantilever bridging bracket on each side edge (see page 158).

Options straight split top should be supported by 18"D cantilever bracket.

48"W split-top corners must be supported by VDT- end support brackets kits in conjunction with cantilever brackets at side edges.

Options worksurfaces cannot be used in conjunction with Morrison Network desk supports.

36"W x 18"D VDT corners accept 18"D returns, 36", 42", and 48"W x 24"D VDT corners accept 24"D returns, 42" and 48"W x 30"D VDT corners accept 30"D returns.

VDT corners are 5/8" less than nominal depth for rear wire clearance.

Split top corners have counterbalanced adjustable keyboard/mouse surface with fingertip control. Front surface adjusts from 5" below to 7" above back surface, and adjusts in tilt from -10° to +10°.

D Depth of right return

117 Surface finish

Specification Information

Width dimension (W) refers to width of left-side back edge; depth dimension (D) indicates width of right-side back edge.

S- 24"D side edge

D- 30"D side edge

Specify surface finish.

1 1/4" curvilinear surfaces are solid core construction with pilot holes at all bracket locations.

LU1- worksurfaces are supported by brackets with wood screws.

Application Notes

Options L-shaped curvilinear worksurfaces may be supported by left- or right-hand cantilever brackets at the rear corner and cantilever bridging bracket on each side edge. Use mid-span support whenever Options worksurfaces span more than 48".

L-shape surfaces are veneer or post-formed plastic laminate on both back edges, matching profile T-mold on curvilinear front, and self-edge on sides.

Curvilinear worksurfaces are available only in 1 1/4" thickness.

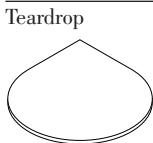

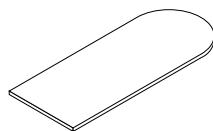

L-shape surfaces are 3/8" less than nominal depth for rear wire clearance or privacy screens.

LU1	Options worksurface, 1 1/4" thick
R	Rounded end
63	Width
30	Depth
B	No grommets
117	Surface finish
L	Left hand

Specification Information

Grommets/no grommets:

B- worksurface does not include grommets.

Specify surface finish.

1 1/4" worksurfaces are 3-ply, solid core construction. Plastic laminate worksurfaces have radiused T mold edge.

Rounded end worksurfaces have a flat self-edge in the straight end.

LU1- worksurfaces are supported by brackets with wood screws.

Rounded end worksurfaces are specified left or right to determine position of pedestal drilling. Rounded end when seated at desk defines L/R hand (Right hand shown above). All worksurfaces are U.L.-listed.

Application Notes

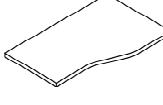

Rounded end worksurfaces may be supported by 30" end support brackets, 30" flat bracket or 30" conference end panel, and by a support column at the rounded end.

Suspended pedestals may not be used with 1 1/4" worksurfaces. Conference worksurfaces must be supported by support column and flat bracket or bridging bracket to adjacent desk.

Half round with vertical panel attaches to 24"D straight or VDT corner worksurfaces supported by vertical panel.

Specification Information

Specify top finish first, followed by trim finish.

Please refer to the Currents price list for finishes.

Application Notes

Worksurfaces are sized for Morrison panel-based applications and may be supported by Morrison panel-planning brackets.

P-shaped worksurfaces may be supported with Morrison brackets or cantilevered from Currents service wall along 48" edge, and supported by a 24"D Currents C-leg at conference end. Specify supports separately.

AWM2- worksurfaces are supported by brackets with wood screws.

All P-shaped worksurfaces correspond to a 24"D adjacent straight or corner worksurface.

Currents worksurfaces for Morrison require stiffener when the span between structural supports exceeds 36". Specify worksurface stiffeners and supports separately (page 143).

When using Morrison end support brackets, order MB3-EC18, 24 or 30.

Currents worksurfaces for Morrison cannot be used in conjunction with Morrison Network desk supports.

Actual worksurface depth is $\frac{3}{8}$ " less than nominal for cable clearance.

All worksurfaces include one edge grommet, centered at rear of worksurface, with maximum clearance of $1\frac{1}{8}$ ".

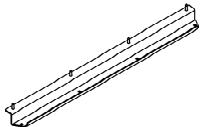

For 90" application span, use two AWB-S42 stiffeners.

For 96" application span, use two AWB-S48 stiffeners.

Order Code

<i>Example:</i>	AWM1 S48
AWM1	Worksurface
S	Stiffener
48	Type

Application Notes

Currents worksurfaces for Morrison require stiffener when the span between structural supports exceeds 36". Specify worksurface stiffeners and supports separately.

When using Morrison end support brackets, order MB3-EC18, 24 or 30.

Currents worksurfaces for Morrison cannot be used in conjunction with Morrison Network desk supports.

For 90" application span, use two AWM1-S42 stiffeners.

For 96" application span, use two AWM1-S48 stiffeners.

Stiffener mounts 18" from front edge of worksurface and will interfere with mobile or floorstanding pedestals greater than 18" deep.

To accommodate a floorstanding pedestal greater than 18" deep at one end of worksurface, specify stiffener for 12" narrower worksurface. To accommodate two floorstanding pedestals or double-wide at one end of worksurface, specify stiffener for 24" narrower worksurface.

Specification Information

Specify:

Finish:

Solid:

- 114 Folkstone Grey
- 117 Soft Grey
- 118 Bright White
- 119 Pumice

Woodgrain:

- 124 Medium Cherry
- 125 Natural Maple
- 126 Natural Cherry
- 127 Walnut

Application Notes

Cascade Edge worksurfaces are wrapped with a vinyl sheet heated and pressed around an MDF substrate. They are more susceptible to denting, impact, tearing and marring than conventional high pressure laminate and should be handled with care. Do not drag worksurfaces across any flooring surface during installation. Treat Cascade Edge worksurfaces like veneer worksurfaces and they will perform well under normal conditions. Cascade Edge worksurfaces have a 5 year warranty on defects in workmanship and materials. This warranty does not cover damage occurring during or after installation.

Cascade Edge worksurfaces are not drilled for wire management clips, pedestals or brackets.

Cascade Edge worksurfaces are for panel-based planning only and cannot be used in conjunction with Network desk supports.

Worksurfaces are 1/16" less than nominal width and 3/8" less than nominal depth for rear wire clearance.

Worksurfaces require support every 48" in width. All supporting hardware is ordered separately.

Half Round:
Half round worksurfaces may be supported by cantilever bridging brackets in conjunction with a rounded end support column.

Corner Round:
Notched corner round worksurfaces are supported by cantilever bridging brackets on both side edges.

End run Left- and Right-handed corner round worksurfaces are supported by a combination of an end bracket along the panel edge and a cantilever bridging bracket to the adjacent worksurface side edge.

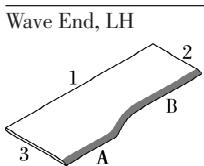

Order Morriosn brackets with wood screws (suffix -W).

Order Code	Specification Information	Application Notes
Example: MN2-D4848-612		
MN2 Network component	Specify desk support the width of the worksurface to be supported.	Straight desk supports include 2 legs and 1 channel; 90° corner supports include 3 legs and 2 channels. Return supports include 1 leg and 1 channel and connect to straight desk support to form 90° corner. All components are interchangeable and non-handed.
D Desk support	Corner desk support is used under any combination of worksurfaces up to 72". Specify flat brackets separately.	Worksurfaces are supported by desk supports in conjunction with end panels, pedestals or brackets linking to adjacent desks.
48 Width of desk		MN2- desk support corner legs and wireway channels are interchangeable with original MN1-desk supports.
48 Width of return		Hardware kits for beam and leg components include metal inserts. Tops will be drilled for field installation.
612 Paint finish		
	Return support may be connected to straight desk support to form other 90° corner support combinations. Specify return support the sum of the width of the return and the depth of the desk (or width of VDT). Desk spans wider than 60" require pedestal support at one end of the worksurface.	
	Specify painted finish.	
		Desk supports consist of nominal 6" x 6" corner legs and horizontal modesty/wireway channel 8"H x 1½"D.

End panel wireway	18"d	18"	1 1/2"	8"	MN2-EW18-()	135.
	24"d	24"	1 1/2"	8"	MN2-EW24-()	149.

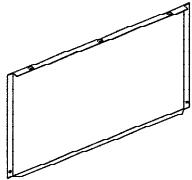

Order Code	Specification Information	Application Notes
Example: MN2-E24-612		
MN2 Morrison Network	Specify desk end and filler panels to correspond with desk depth and width. End panels are nominally 6" less deep than desk to accommodate desk support. Actual filler panels are 12" less wide than desk, to fit between desk support corner legs.	Desk end panels are used to support an end of a freestanding desk without pedestal support. Integral brackets permit application on left or right end of desk.
E End panel	Return support adapter attaches to front edge of end panel. Specify return support in same nominal width as return worksurface.	For desk planning applications with full end panel and desk support:
24 Depth	<i>Specify painted finishes for end panels, filler panels and accessories.</i>	Use MN2-E12 with 18"D worksurface
612 Finish		Use MN2-E18 with 24"D worksurface
		Use MN2-E24 with 30"D worksurface
		For 24"D VDT desks with extensions, specify MN2-E06 end panel and single bridging bracket. For 30"D VDT, specify MN2-E12 end panel and single bridging bracket.
		For support of one end of 24"D return with desk support adjacent to freestanding Interaction corner table, specify MN2-E09.
		Desk end panels do not permit adjacent pedestal attachment.
		Transitional support panel secures a return desk support to Morrison vertical panel connector track in integrated desk and panel planning.
		Transitional panel also acts as a leg or pedestal extender to stabilize vertical panels supporting overhead storage.
		Use MN2-RDR to stabilize each side of vertical panel at half-round conference worksurface.
		Transitional panel includes one grommet.
		Return support adapter is specified when adding a return worksurface to a desk with end panel. Adapter extends from end panel to return support. End panel wireway attaches to inside of end panel to link desk support wireway to return support.
		Filler panels provide full enclosure for desk supports, filling the kneehole space between corner legs. They are specified in addition to corresponding desk supports.

Specification Information

Morrison 2 +2™ Raceway is a four-circuit, eight-wire modular power distribution system, for use in Morrison panels and Network desk supports. 2 + 2™ Raceway components distribute two 20-amp convenience circuits (A and B), with neutral and ground, and two protected 20-amp circuits (X and Y) with separate neutral and ground.

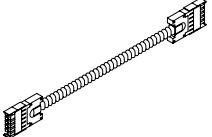

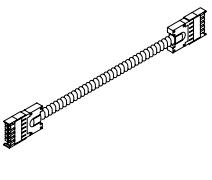

Application Notes

Power rails are the primary power distribution component of the Morrison 2 + 2 Raceway. Each rail provides outlet mounting positions and receptacles for branching power connectors at each end. End brackets permit lay-in cabling in the desk support trough.

Rails accept two outlets, 12" from either end of the desk. Multiple outlet rails for 48" - 78" desks accept 4 duplex outlets, 12" and 18" from either end of desk.

Specification Information

Morrison 2+2™ Raceway is a four-circuit, eight-wire modular power distribution system, for use in Morrison panels and Network desk supports. 2+2™ Raceway components distribute two 20-amp convenience circuits (A and B), with neutral and ground, and two protected 20-amp circuits (X and Y) with separate neutral and ground.

Duplex outlet circuits are designated by white letters on black background.

Application Notes

Desktop power module is power component for desktop power monument or overhead support stanchion. Power module includes two duplex outlets and power connector.

Grommet outlet module stands in any Morrison (not Options) worksurface grommet for convenient access. Grommet outlet module accepts only special duplexes (MR1-DA or MR1-DB) on circuits A or B.

Contact protectors enclose open conductors on power rail wherever outlets or power connectors are not planned.

Cable sleeves contain and protect power and data cables passing between desk supports.

Surge suppressors snap into outlet position adjacent to power infeed to protect all outlets on a circuit.

MD6	Pedestal
D	Deep
2B1F	Configuration
612	Paint finish for case
612	Veneer/paint finish for drawer fronts

Specification Information

- Specify finishes for case and front.
- All drawer pulls are matte black.
- All pedestals are equipped with locks. Order pedestal locks with a KnollKey order form.
- Veneer Group 1 drawerfronts are quartered Techgrain®.
- Veneer Group 2 drawerfronts are figured Techgrain®.
- Veneer Group 3 drawerfronts are narrow heart, flat cut natural veneers.

Application Notes

- 18"D pedestals may be used under any Morrison worksurface. 24"D pedestals can be used under 30" and 36"D worksurfaces, without obstructing wire management through worksurface grommets.
- 24"D pedestals may also be installed under 24"D surfaces without grommets; 30"D pedestals may be used only under 30"D surfaces without grommets.
- Pedestals are bolted into either end of any worksurface over 30"W. Insert locations and case construction permit use of pedestals as worksurface support, with or without universal desk end panels.

One box drawer divider is included with each 2 box, 1 file and 1 box, 1 file pedestal. Drawers accept up to 7 dividers, or 6 stationery insert trays.

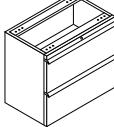

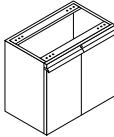

All file drawers accommodate letter width filing front-to-back. 18"D file drawers accommodate legal files side-to-side. 24" and 30"D file drawer pedestals include one file support for legal filing, side-to-side.

Order file supports separately to equip other drawer in 24" or 30" deep 2 file.

MD6	Pedestal
M	Mobile
1B1F	Configuration
612	Painted finish for case
612	Veneer/paint finish for fronts

Specification Information

Specify finishes for case and front.
 All drawer pulls are matte black.
 All pedestals are equipped with locks.
 Order locks with a KnollKey order form.

Veneer Group 1 drawer fronts are quartered Techgrain®.
 Veneer Group 2 drawer fronts are figured Techgrain®.
 Veneer Group 3 drawer fronts are narrow heart, flat cut natural veneers.

Application Notes

Mobile pedestals include top with finger grip, locking casters, and counter weight. One box, one file mobile pedestal will fit under any Morrison worksurface at desk or machine height.

Pencil tray must be ordered separately.

2 box/file or 2 file mobile pedestals are higher than standard desk height worksurfaces.

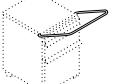

One box drawer divider is included with each 2 box, 1 file and 1 box, 1 file pedestal. Drawers accept up to 7 dividers or 5 stationery insert trays.

Mobile pedestal handle attaches to either height mobile pedestal top for easier movement around a facility. Handle stores on top of pedestal and unfolds for use.

Application Notes

Pencil tray rests on any box drawer and is specified separately.

Stationery inserts are sloped trays for 18"D box drawers.

Specify two sets of inserts for 24" or 30"D box drawers.

Drawer dividers are sloped U-shape inserts for box or file drawers.

Specify file support for side-to-side filling in 24" or 30" file drawers.

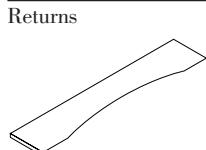

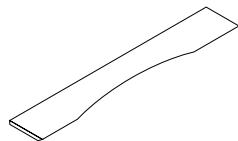

Mobile pedestal handle attaches to either height mobile pedestal top for easier movement around a facility. Handle stores on top of pedestal and unfolds for use.

Example:	MS1-S2413-612
MS1W	Shelf
24	Width
13	Depth
612	Surface finish

Specification Information

Specify paint finish for brackets and steel shelves.

Application Notes

All steel bookshelves have holes for shelf organizers (do not add -H).

13"D shelves hold binders, books and other reference material. Order brackets and shelf organizers, if applicable, separately.

13"D steel bookshelves come with holes for shelf organizers. Only bookend-style brackets are approved for use with steel shelves.

Standard 13" deep shelves double as flush counter surfaces. Specify undershell or transaction shelf brackets for this application. Each set supports a maximum span of 48". Shelves over 60"W require MB2-AUX-S auxiliary support brackets.

All shelf brackets accept task light fixtures with the exception of the transaction shelf brackets MB2-TS-(). Adjacent bookend-style shelf brackets require MB1-TC tie clip to secure full-width task light.

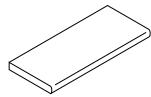

For wall mounting shelves see page 189.

Desk mounted counter surfaces do not accept task lights.

Order Code

Example: **ML3-TD48-612**

ML3 Lighting

T Fixture type

D With dimmer

48 Width

612 Paint finish

Specification Information

Insert suffix "D" for dimmer switch after the T or F in pattern number. Insert suffix "E" for electronic ballast after the fixture width in pattern number - e.g. ML3T36E().

No dimmer on fluorescent lamps with electronic ballasts.

For Chicago task lights, add CH to pattern number and \$45 list.

For New York task lights, add NY to pattern number.

Application Notes

High efficiency lights include Octron lamp, 9' grounded cordset, batwing lens, rocker switch, and integral mounting brackets. Lens is tinted to distribute an average 60 foot candles over entire worksurface without glare.

Task lights include standard fluorescent cool white lamp, 9' grounded cordset, prismatic lens, rocker switch, and integral mounting brackets.

Task and high efficiency task lights may be mounted to any equal-width combination of shelves or overheads; not for use with Morrison Options.

Lights with dimmer include 3-position rocker switch.

Reuter overhead cabinets do not accept ML1-, ML2- or ML3- task or ambient lights.

Morrison Network lighting is UL listed. UL File E 102458/E 102459. Can be hardwired where required.

Cordsets on 30"-72" lights exit at center of fixture. Cordsets on 78"-90" task lights and all ambient lights exit the right side of the fixture, and may be changed to the left side in the field.

Order Code	
Example:	MO8-N60-612-612-N-N
MO8	Overhead cabinet
N	Network mounted
60	Width
612	Paint finish for case
612	Surface finish for door
N	Black pulls
N	No lock

Specification Information

Specify finish for case and front.

Order overhead cabinet locks with a KnollKey order form.

Veneer Group 1 cabinet doors are quartered Techgrain®.

Veneer Group 2 cabinet doors are figured Techgrain®.

Veneer Group 3 cabinet doors are narrow heart, flat cut natural veneer.

Interior shelves have slots for vertical dividers. Order vertical dividers separately.

Desk mounted MO8 overheads align with 64"H panel and vertical storage.

Overhead cabinet door pulls are matte black.

Application Notes

Stanchion mounted overhead cabinets attach to overhead supports. Specify overhead backs separately for finished appearance in back-to-back or exposed applications.

Specify conversion kit MO7-SMB only if converting panel hung overheads to stanchion mounted.

Wall-mounting Morrison overhead cabinets: Use MO8-WMR to mount up to 120" of MO8 overheads. Specify one MO8-WMB for each overhead.

For Options overheads or Morrison or Options shelves, use MO6-WMSK to wall mount up to 9' of shelves or overheads. Kit includes wall mount rail and one vertical standard. Specify one additional MO6 WMSB for each shelf or overhead. Morrison shelves also require MB1-B13 shelf brackets.

Wall mount rails may be trimmed to length.

Specify conversion kit MO7-PMB only if converting stanchion mounted overheads to panel hung.

Wall mount wire manager is two-part wire concealment kit, 22"H.

Specification Information

Specify finish for case and door.

Application Notes

Interior partitions are black painted steel finish.

Door retrofit kits convert an open overhead to an enclosed cabinet and include Reuter overhead door, left and right arm mechanisms, and lock or lock plug.

Reuter storage is a universal product applicable on Morrison or other Knoll systems. Open overheads may be mounted on any combination of vertical panels the same width or up to 12" less than shelf width.

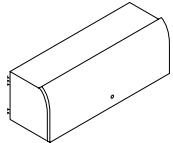

Reuter open overheads may be desk-mounted, mounted on other Knoll systems, cantilevered above panels, or wall-mounted. Specify open overhead with no mounting hardware and brackets separately.

Vertical interior partitions may be positioned on 1 1/2" increments of width anywhere across shelf, 1 1/2" from each side. Vertical partitions contain cutouts for mounting three horizontal partitions at 2" increments on either or both sides. Horizontals are suspended between two verticals, and may be positioned end-to-end in any combination up to 3" less than shelf width. Available in sets of 10; 6", 9", 12", 15" widths.

612	Case finish
M	Front finish
L	With lock

Specification Information

First suffix is for case, second is door finish.

Specify finish for case and door:
Interior partitions are black painted steel finish.

Application Notes

Reuter storage is a universal product applicable on Morrison or other Knoll systems. Overhead cabinets may be mounted on any combination of vertical panels the same width or up to 12" less than cabinet width. Cabinet door rotates above cabinet on side pivots, counterbalanced by two pneumatic cylinders. Two door cabinets have center divider and four pneumatic cylinders.

Reuter overheads may be mounted on other Knoll systems, cantilevered above 42" or 56" Morrison panels, or wall-mounted. Specify Reuter overheads on the next page and mounting options on page .

Vertical interior partitions may be positioned on 1 1/2" increments of width anywhere across shelf, 1 1/2" in from each side. Vertical partitions contain cutouts for mounting five horizontal partitions at 2" increments on either or both sides. Horizontals are suspended between two verticals, and may be positioned end-to-end in any combination up to 3" less than cabinet width. Available in sets of 10; 6", 9", 12", 15" widths.

Ganging bracket (page 202) joins adjacent overheads or shelves for additional stiffness and alignment.

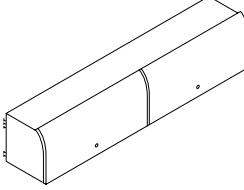

Order locks for overheads with a KnollKey order form. Please note that Reuter overhead cabinets 60"W or wider require two lock cores.

Reuter overhead doors without locks include black, Knoll-logo insert, in the same position.

Insert may be removed to retrofit a lock later.

Example:	RO2-NS21-612
RO2	Reuter overhead
NS	Network stanchions
21	Height
612	Paint finish

Specification Information	Application Notes
<i>Specify paint finish for stanchions and upmount brackets.</i>	Reuter overhead cabinets and shelves may be mounted on Network desks or other Knoll systems, upmounted, or wall-mounted. Use bracket kits on this page with Reuter storage without mounting hardware.
Panel mount brackets are painted black finish.	For Morrison Network desk mount applications, overhead cabinet or shelf width must correspond to desk support width and worksurface with grommet. Stanchions bolt to desk support corner leg. Top of cabinet on stanchions aligns with adjacent 64"H vertical panels or vertical storage.
	Specify 22"H privacy screens (to 49"H) to enclose space between overhead and desk.
	Specify stanchion outlets cover when planning PDC modules and/or power module in overhead support. See page for information on desktop power module.
	Upmount brackets support bottom of Reuter storage 1" or 2" above, or flush with top of corresponding width Morrison, Equity or Reff panel.
	Overhead storage may be centered on, or mount to either side of Equity post. Note that full 6" modular width Reuter storage is wider than Equity centerline-width panel surrounds.

Order Code	Specification Information	Application Notes
Example: MZ1-B6619-15-W210/2	<i>Surface type:</i>	
MZ1 Morrison Network privacy screen	10- Fabric group 10	Back of worksurface screens provide visual barrier and tackable surface from underside of worksurface to a height of 42", 46" or 49".
B Back of worksurface	15- Fabric group 15	
66 Width	20- Fabric group 20	Screen widths should correspond to straight worksurface width, or sum of VDT corner and return widths.
19 Height	30- Fabric group 30	
15 Surface type and group no.	35- Fabric group 35	Use back of worksurface screen for VDT applications where one side is backed by a vertical panel.
W210/2 Upholstery	40- Fabric group 40	VDT worksurfaces will accept back screens on only one back edge.
	45- Fabric group 45	Back screens may not be used at the end of a straight worksurface; use end screens in this application.
	* Morrison Network screens may be used with Plannable Upstart tables. Refer to front of Upstart price book for planning information.	Privacy screens are not available in a combination of fabrics.
		Back of worksurface screens are full dimension: two smaller screens may be substituted for a larger one. For example, if using fabric grades 20-70, specify two 36" screens for a 72" surface.
		All but shared end screens start at the bottom of the worksurface.
		Privacy screens are supported by brackets fastened at worksurface inserts. Privacy screens include mounting brackets, insert kit, and stiffener clip.
		For replacement screen stiffeners see Accessories page.
		Privacy screens may be specified to achieve ASTM E-84 Class "A" flamespread rating.

Selling Policy

This Selling Policy supercedes all previous selling policies. Prices, discounts and product offerings are subject to change without notice.

Terms & Conditions of Sales

Sales by Knoll, Inc. or Knoll North America Corp. ("Seller") of Knoll Product Lines (hereinafter "Products") within the United States and Canada are made only on the terms which are contained in this Selling Policy. Seller hereby gives notice of its objection to any different or additional terms and conditions. This sale is expressly conditional upon Purchaser's assent to the terms and conditions set forth below. Additional terms and conditions may apply to KnollStudio and KnollTextiles orders. These terms and conditions may be modified or supplemented only by a written document signed by an authorized representative of Seller. These terms and conditions supercede any prior and/or contemporaneous agreements or correspondence between Purchaser and Seller. Written quotations expire thirty (30) days from the date of issuance and can be withdrawn by written notice anytime during that period. Where Purchaser and Seller have entered into the Knoll Electronic Terms and Conditions, all orders, acknowledgements, invoices and other business communications placed or transmitted in accordance with the Knoll Electronic Terms and Conditions shall be deemed to be in writing and signed and shall be valid for all purposes as if they were originated and maintained in documentary form.

Ordering Information

Order Confirmation

Pricing Policies

All orders must be in writing. The product pattern number(s) contained on Seller's order acknowledgement shall be the final expression of the order.

A purchase order is not binding on Seller until Purchaser has received Seller's order confirmation or acknowledgment.

List prices are subject to change without notice.

List prices shall be those prices in effect on the date of receipt of a complete purchase order unless shipment is requested more than ninety (90) days after order entry in which case prices in effect on the date of shipment apply. List prices include specified freight costs. Unless specified in writing by Seller, no other charges are included in Seller's list prices.

Taxes

All sales, use, excise and other taxes applicable to the sale of the Products shall be paid by Purchaser. If Purchaser claims an exemption from any tax, Purchaser shall submit to Seller the appropriate exemption certificates.

Terms of Payment

Payment for one hundred percent (100%) of the net order amount is due within thirty (30) days of the date of invoice, which is issued upon shipment. In case of any discrepancies, such as shortages, and Seller is notified in writing within ten (10) days of receipt of Product, only that portion may be deducted and the balance paid. For orders greater than \$100,000 net, a one-third (1/3) deposit is due at the time of order placement, with the remainder due within thirty (30) days of the date of invoice.

KnollStudio orders less than \$2,000 require payment for one hundred percent (100%) of the net order amount (including any applicable sales tax and charges for inside delivery, special packaging, etc.), due at time of order placement. For KnollStudio orders greater than \$2,000, a one-half (50%) deposit is due at time of order placement with the remainder (including any applicable sales tax and charges for inside delivery, special packaging, etc.) due prior to shipment.

If, in the judgment of Seller, Purchaser's financial condition does not justify the terms of the payment, Seller may require full or partial payment in advance.

Past due accounts shall be charged one and one-half percent (1.5%) per month, or the highest rate permitted by law, whichever is less, and will be added to the outstanding balance. In the event Purchaser defaults on payment, Purchaser shall be liable for all collection costs, including reasonable attorney's fees and costs.

Changes and Cancellation

Purchase orders may not be changed or cancelled, in whole or in part, without prior written consent of Seller. Changes may effect delivery dates. Expenses incurred because of changes shall be charged to Purchaser. In the event of cancellations, Purchaser will be liable for reasonable cancellation charges established by Seller. Orders for special Product, orders including "COM" (hereinafter defined) material and orders pursuant to expedited delivery programs, may not be canceled.

Freight Prepaid

Freight is prepaid and included in the price of all Products, except KnollTextiles, within the 48 contiguous United States for orders placed with Knoll, Inc. and within Canada, excluding the Yukon, Northwest Territories, Nunavut and Newfoundland for orders placed with Knoll North America Corp. Packing is tested for rigorous motion and transportation but is not guaranteed to protect furniture from conditions over which the Seller has no control. If special packaging is required for any reason, please consult with your sales representative or dealer. Seller shall select the method of shipment and routing. All shipments shall be tailgate deliveries. Freight for all KnollTextiles orders is prepaid and added to the invoice.

Delivery/Freight Charges

Shipments outside the contiguous 48 United States and Canada shall be shipped F.O.B. Origin.

For shipments outside the contiguous United States and Canada, Purchaser is responsible for the cost of freight from point of embarkation, including any handling and transportation charges incidental to loading at the point of departure and unloading at the final destination.

Conditions beyond the control of Seller, including weather, available facilities and traffic conditions, may affect exact time of delivery. Seller shall not be responsible for specific carrier delivery date or time unless it has made a specific delivery commitment, in writing.

Nonstandard methods of shipment and/or additional services are available upon request. Purchaser will be billed for the differential cost of any special services in excess of standard surface carrier freight costs. Premium charges, at Purchaser's request, will be added for airfreight, exclusive use of vehicle and extra, export or special packaging. Accessorial charges will be added for inside delivery, extra labor, reconsignment and redelivery.

Partial shipments may be made and invoiced by Seller.

Claims

All shipments for all Knoll Products within the contiguous United States and Canada are F.O.B. Origin. Risk of loss passes to Purchaser at time of delivery to carrier. Purchaser shall inspect all Products upon receipt and notify Seller within ten (10) working days after receipt of any damage or defects which are, or should be, apparent from an inspection of the Product and its packaging. Failure of Purchaser to make a claim against carrier or notify Seller during the ten (10) working day period shall constitute acceptance of the Products and waiver of any apparent defects, errors or shortages. Seller will agree to repair or replace Product damaged in shipment if Purchaser has notified Seller of freight damage within ten (10) working days after receipt and assigns its rights against the carrier.

Seller's Security Interest

Until Seller receives the full payment for the Product, Seller shall have a security interest in the Product. Purchaser agrees to perform all acts, including but not limited to the execution and filing of documentation, which may be necessary to perfect and assure the security interest of Seller.

Returns

The return of Products without a written authorization by Seller shall not be accepted. To receive authorization for Product return, please call Customer Service. All Products that are returned pursuant to a valid authorization shall be subject to a twenty-five percent (25%) of list restocking charge. Products not currently offered for sale by Seller (including COM) shall not be authorized for return. All returned Products must be unused, in original condition and in the original Seller packing cartons. No refund or credit shall be given for damaged Products.

Held Orders/Storage

If Purchaser requests that an order be held or delayed, prices and terms and conditions in effect at the time of shipment shall apply. If Purchaser requests a delay after the time when Seller can defer production, Purchaser will be invoiced for the Product, payable in accordance with standard terms, when the order is ready for shipment. Seller may transfer the Product to storage, in which case all expenses incurred in connection with storage, including demurrage, preparation for storage, storage charges and handling shall be payable by Purchaser upon submission of invoices by Seller. Risk of loss to the Product shall pass to the Purchaser upon delivery of the Product into storage.

Selling Policy

Customer's Own Material	A Purchaser who requests a fabric or other surface material not standard to Seller's line of Products ("COM") must submit samples of the requested material to Seller prior to entry of a purchaser order. Seller shall determine if the material is suitable to its manufacturing processes and meets any requirements of Underwriters Laboratories. If the COM is acceptable, Seller will then establish a price for using the COM or the Product in question. For a description of the procedures for submitting samples and testing, contact customer resources or your sales representative. Seller shall have no responsibility for the appearance, condition, performance, durability, colorfastness or any other physical attribute of the COM. Purchaser shall indemnify and hold Seller harmless for any damages, injuries or losses arising out of or related to use of the COM on the Product.
Warranty	<p>Seller warrants to the original Purchaser only that the Products Seller manufactures and sells to Purchaser are free of defects in workmanship and materials, during the applicable warranty period set forth below.</p> <p>Warranty period set forth below for <i>Bulldog, Chadwick, Essentials Work Chairs, Life, Open Up, RPM, Sapper</i> and <i>SoHo</i> seating is for 24-hour, 7 days a week, multi shift use.</p> <p>Should any failure to conform with this limited warranty appear to a Product listed below during the applicable warranty period from the date of shipment, Seller shall, upon prompt written notice, repair or replace, at its option and costs, the affected part or parts.</p> <p><i>Product and Period of Warranty</i></p> <p><i>Lifetime:</i> <i>AutoStrada, Calibre, Crinion Open Table, Currents, Dividends Horizon, Equity, Morrison, Reff</i> laminate, <i>Series 2 Storage</i> and other non-wood components (except cascade edge worksurfaces, operational parts, controls, electrical, <i>Series 2 Veneer Front Storage</i>, special or custom products or other materials specifically called out below, see below)</p> <p><i>10 Years:</i> <i>AutoStrada, Crinion Open Table, Reff</i> wood components, <i>Series 2 Veneer Front Storage, Wood Casegoods (Magnusson, The Graham Collection), Interaction</i> tables (except height adjustment mechanisms for <i>Counterforce</i>, crank-adjustable, and split-top tables and worksurfaces, see below), <i>Reuter</i> overheads, <i>Reuter</i> vertical storage, <i>Bulldog, Chadwick, Essentials Work Chairs, Life, RPM</i> and <i>Sapper</i> seating structural and operational parts, controls, casters, pneumatic cylinders, seat and back mesh (except seating upholstery, finishes and labor, wood casegoods upholstered surfaces, see below)</p> <p><i>5 Years:</i> Operational parts, controls, electrical (except light ballasts and bulbs, see below), cascade edge worksurfaces, special or custom product, wood veneer products, <i>A3, Currents</i> handcrank, <i>Interaction Counterforce, Interaction</i> crank-adjustable, and split-top mechanisms, <i>KnollStudio, KnollExtra</i> adjustable keyboard supports, VDT carousel, monitor platform, equipment storage drawers and all universal storage drawers, <i>Open Up</i> and <i>SoHo</i> seating structural and operational parts, controls, pneumatic cylinders (except seating upholstery, finishes and labor, see below)</p> <p><i>3 Years:</i> Upholstery, finishes and labor to repair the following chairs: <i>Bulldog, Chadwick, Essentials Work Chairs, Life, Open Up, RPM, Sapper</i> and <i>SoHo</i>.</p> <p><i>2 Years:</i> All other <i>KnollExtra</i> product</p> <p><i>1 Year:</i> Light ballasts and bulbs, seating upholstered armpads and soft armpads, wood casegoods upholstered surfaces.</p> <p>This warranty does not apply to:</p> <ul style="list-style-type: none">• Damage caused by a carrier other than the Seller.• Normal wear and tear or acts or omissions of parties other than Seller (including user modification).• COM or other third party materials applied to Products.• Products not installed by or under the auspices of a certified dealer of Seller.• Dramatic temperature variations or exposure to unusual conditions.• Except as specifically noted above, textiles and upholstery supplied by <i>KnollTextiles</i> (consult current <i>KnollTextiles</i> price list for applicable warranty). Natural variations occurring in wood, marble, and leather shall not be considered defects, and the Seller does not guarantee the colorfastness or matching of the colors, grains or textures, or surface hardness of such materials. The Seller also does not guarantee the colorfastness of fiberglass panel surfaces. <p>THE EXPRESS WARRANTIES CONTAINED HEREIN ARE IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTIES OF MERCHANTABILITY AND FITNESS FOR PARTICULAR PURPOSE AND ALL OTHER WARRANTIES ARISING FROM COURSE OF DEALING OR USAGE OF TRADE.</p> <p>The remedies provided above are the Purchaser's sole remedies for any failure of Seller to comply with its obligations regarding the workmanship of its Products. Correction of any nonconformity in the manner and for the period of time provided shall constitute complete fulfillment of all liabilities of Seller, with respect to or arising out of the Product furnished hereunder.</p>
Delay/Force Majeure	Seller shall not be liable for failure to perform or for delay in performance due to fire, flood, strike or other labor difficulty, act of God, act of any governmental authority or of the Purchaser, riot, embargo, fuel or energy shortage, wrecks or delay in transportation, inability to obtain necessary labor, materials or manufacturing facilities from usual sources or failure of suppliers to meet their contractual obligations, or due to any cause beyond its reasonable control. If any such event occurs, Seller may extend delivery dates by a period of time necessary to overcome the effect of such delay, allocate available Product or cancel any purchase order.
Compliance with Law	PURCHASER IS SOLELY RESPONSIBLE FOR COMPLIANCE WITH ALL APPLICABLE FEDERAL, STATE AND LOCAL LAWS, ORDINANCES, REGULATIONS, RULES AND STANDARDS RELATING TO THE INSTALLATION, MAINTENANCE, USE AND OPERATION OF THE PRODUCTS.
Patents	Subject to the following provisions, Seller shall, at its own expense, defend or, at its option, settle any claim, suit or proceeding brought against the Purchaser, and/or its vendees, mediate and immediate, so far as based on an allegation that any Product or any part thereof furnished hereunder constitutes a direct or a contributory infringement of any claim of any patent of the United States or Canada. This obligation shall be effective only if Purchaser shall have made all payments then due hereunder and if Seller is notified promptly in writing and given authority, information and assistance for the defense of said claim, suit or proceeding. Seller shall pay all damages and costs awarded in such suit or proceedings so defended.
Limitations of Liability	The foregoing indemnity does not apply to the following: <ul style="list-style-type: none">• Products supplied according to a design other than that of Seller, and which is required by the Purchaser.• Combination of the Product with another product not furnished hereunder unless Seller is a contributory infringer.• Any settlements of a suit or proceeding made without Seller's written consent. <p>SELLER, ITS CONTRACTORS, AUTHORIZED DEALERS AND SUBCONTRACTORS OR SUPPLIERS OF ANY TIER SHALL NOT BE LIABLE TO PURCHASER FOR ANY SPECIAL, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING FROM A BREACH OF THIS AGREEMENT.</p> <p>Purchaser's remedies set forth herein are exclusive and the liability of Seller with respect to the breach of this agreement or any contract entered into between the parties pursuant hereto shall not exceed the price of the Product or part on which such liability is based.</p>

KnollKey Lock Program

KnollKey Lock Program General Information

Following is the KnollKey lock policy, applicable to all products.

Key-alike

For the convenience of the user, furniture may be keyed alike at no charge. Write "Key-alike" in the description of your purchase order for any pedestal, overhead, file or other item you wish to have keyed alike.

Using the key-alike instructions, order cores and keys as line items on your purchase order. Do NOT submit a key-alike form. The Knoll East Greenville Lock Center will select key numbers from the standard range of K 001 - K 250. Key numbers will not be repeated unless over 250 sets are ordered. Lock cores keyed-alike will ship separately from the product, ready for field installation.

There is no charge for key-alike orders if placed with the furniture order.

IF THE KEY-ALIKE ORDER IS NOT PLACED AT LEAST TWO WEEKS PRIOR TO THE FURNITURE SHIP DATE, A \$50 HANDLING CHARGE AND AIR FREIGHT CHARGES WILL APPLY.

If product is ordered and shipped random-keyed, additional lock cores for key-alike are billable.

Random-Keying

To specify product keyed-random, write "key-random" in the product description. Random-keyed product is shipped with the lock core factory installed. A shrouded key is included. Random means no effort has been made to match key numbers, or to make them different.

Keys

A Knoll shrouded key is shipped with every lock core. 250 Key numbers are available. For numbers above 250, contact Custom Product Development. Additional keys and key blanks are available. See service parts for more information.

Master Keying

Knoll locks can be controlled by means of a master key. There is no additional per-lock charge for master keying. A letter of approval from the client must accompany orders for master keys.

Installing Lock Cores

Lock cores can be installed or removed in the field by using a change key. Cores must be in the unlocked position to be removed. See service parts for change key pattern number and pricing.

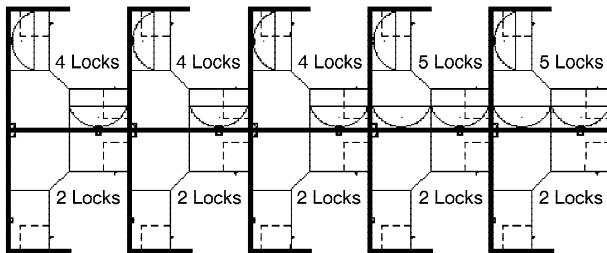

Lock Distribution

All orders for key-alike lock cores/keys are packaged and shipped from the East Greenville Lock Center, regardless of where the pedestals, overhead, or other units are produced. Random keyed product will have cores factory-installed.

How to Specify Key-Alike

Following is an example of how to specify key-alike for a cluster of 10 workstations.

Step 1 - Using the project floorplan, count the number of locks in each workstation.

Step 2 - Count the number of workstations with the same quantity of locks. Group together the workstations with a like number of locks.

5 workstations with 2 locks per station

3 workstations with 4 locks per station

2 workstations with 5 locks per station

Step 3 - For the first group (5 sets of 2 locks), enter the number of workstations in the quantity column.

Qty	Pattern #	Description	Unit List	Ext. List
5				

Step 4 - Then enter the pattern number "KSPEC_ _" and add a suffix for the number of locks for that group (i.e., for 2 locks per station, add the suffix "2"). Up to 30 lock cores are available in a set (i.e., KSPEC 30).

Qty	Pattern #	Description	Unit List	Ext. List
5	KSPEC 2	Set of 2 cores/keys	N / C	N / C

Step 5 - Repeat for other groups.

Qty	Pattern #	Description	Unit List	Ext. List
5	KSPEC 2	Set of 2 cores/keys	N / C	N / C
3	KSPEC 4	Set of 4 cores/keys	N / C	N / C
2	KSPEC 5	Set of 5 cores/keys	N / C	N / C

Your Key instructions are complete.

Knoll will select key numbers for each set from 250 available numbers.

Additional key numbers are available through Custom Product

Development. **For additions to existing installations, specify desired key numbers in the description.**

Service Parts

Pattern #	Description	List Price
KKEY_ _ _	Shrouded Key Specify key number desired	\$5
KBLANK	Shrouded Key Blank	\$5
KSPECB_ _ _	Retrofit Universal Core/Key Specify key number desired	\$18
KCHANGE	Change Key	\$5
KMASTER*	Master Key	\$5

*Note: A letter of approval on company letterhead from the client must accompany all orders for master keys.

General Ordering Information

The Products

This guide encompasses all standard products for this product group.

Sizes

Dimensions listed in this guide are indicated as:

H = height

W = width

D = depth

Dia. = diameter

Rad. = radius

Pricing

All prices shown are list.

How to Order

Select pattern numbers and quantities required for your complete installation. Product questions can be addressed in the specific sections of this guide or by contacting your sales representative or customer resource representative at 1-800-343-5665.

Next, select options (if required), along with colors and finishes appropriate to each product. Reference the Finishes and Fabrics pages for color designations.

On large installations, an item's "designated area" can be specified to assist in product organization and handling.

To expedite complete / correct entry of your order, be certain all pattern numbers, quantities, colors and area identifications are completely specified. Also, include complete purchase order numbers, bill-to and ship-to addresses, a contact name and specific factory shipping dates required.

Mail all orders to:

Knoll, Inc.

1235 Water Street

P.O. Box 157

East Greenville, PA 18041

Attention: Order Entry

Once your order is entered at Knoll, an acknowledgment will be mailed to you. You will be advised of your scheduled shipping date within five days of the original acknowledgment. If it is necessary to revise your order, please contact your customer resource representative.

Sustainability Statement

Sustainable design is a key component of Knoll's environmental focus. Our commitment to social responsibility and a healthy environment has prompted us to further articulate our longstanding environmental programs and, with encouragement and support from our colleagues in the industry, we have re-energized our focus on such "green" initiatives as life cycle analysis and LEED™ certification. Knoll is proud to have contributed to projects that have received LEED certification from the U.S. Green Building Council.

For the latest information on Knoll products that help our customers achieve LEED certification, log on to knoll.com, click on "About Knoll" and then "Environmental Focus."
