

Pensi Tables
Jorge Pensi

PENSI TABLES Curvilinear form and artful geometry unite in this signature collection of café and dining tables by designer, Jorge Pensi. Defined by its cast-aluminum base and adjustable feet, the Pensi collection is available in a broad range of shapes and sizes from a small café table to a generous dining table. Pensi redefines the traditional café table with two stainless steel top finishes and one metallic laminate option with an elegant phenolic black edge. The collection's intuitive design and enduring finishes make it the perfect solution for indoor and outdoor use. Pensi's award winning Toledo stacking chair complements the collection.

JORGE PENSI Jorge Pensi, an Argentinean architect and industrial designer, moved to Barcelona, Spain where he established a multidisciplinary design practice with Alberto Lievore specializing in furniture, lighting and graphics. Pensi also collaborates with his wife, Carme Casares, on graphic design projects. He has lectured on design in Spain, the United States and at the Royal College of Art, London.
