Knoll and Sustainable Design

Each year Knoll sets key initiatives in our journey to sustainability. We are members of a global consortium on energy, have adopted a scientific, metrics-based approach to sustainable product design, and maintain a leadership position in establishing universal, verifiable, sustainability standards for our industry.

Knoll promotes independent third-party certification because it provides the most impartial and trustworthy foundation for industry-wide environmental compliance. Certification by established and respected third parties ensures that all manufacturers are held to the same high standards and that customers can trust a company's declaration about the environmental benefits of its products. Knoll third-party partners include: the International Standards Organization (ISO); Forest Stewardship Council (FSC); GREENGUARD® Environmental Institute; and Chicago Climate Exchange (CCX®).

In addition, Knoll is aligned with the U.S. Green Building Council and can help companies, healthcare organizations and educational institutions achieve Leadership in Energy and Environmental Design (LEED®) workplace certification.

1. Global Climate Change

- Knoll is a sponsor of the Clinton Global Initiative, which brings together a community of global leaders to devise and implement solutions to some of the world's most pressing challenges, including environmental change.
- Knoll is a member of the Chicago Climate Exchange, which promotes greenhouse gas reduction through the trading of credits earned for reducing emissions.
- Knoll has a comprehensive Energy Management Program to increase energy efficiency in products and processes.

2. Life Cycle Assessment (LCA) Tool

Life Cycle Assessment is a science-based measurement of a product's environmental impacts throughout its life cycle, from raw materials sourcing through manufacture, shipping, use, and re-use or end-of-life. LCA enables cradle-to-cradle implementation of sustainable practices.

- Knoll partners with The Green Standard.org (formerly the International Design Center for the Environment, or IDCE) to develop an affordable, universal, ISO-compliant computer-based LCA tool that can be used by the entire contract furniture industry.

An affordable universal LCA tool has enormous potential value to:

- Help stop dangerous and irreversible climate change
- Conserve natural resources and reduce waste
- Improve quality of life
- Eliminate market confusion about green products using real metrics and sound science
- Facilitate design innovation
- Advance the sustainability triple bottom line: environment, economics and social equity

3. Setting Industry Standards

- Knoll partners with MTS (The Institue for Market Transformation to Sustainability) to develop the SMaRT© Consensus Sustainable Products Standards, a set of consensus-based sustainable product standards based on the LEED® model, for all building products, fabric, apparel, flooring and carpet. MTS, the developer of SMaRT©, is an accredited American National Standards Institute (ANSI) standard developer.
- Knoll also participates in an ongoing BIFMA (Business and Institutional Furniture Manufacturers Association) initiative to establish sustainability standards for the contract furniture industry.
- Our goal is to encourage all manufacturers in the contract furniture and related industries to adopt standards that will lead to sustainable products and practices.

For more information about Knoll environmental, health and safety programs, visit knoll.com/environment.

GREENGUARD Indoor Air Quality Certified®

All Knoll Office Seating is GREENGUARD Indoor Air Quality® certified and GREENGUARD for Children & Schools℠ certified.

All KnollExtra® products are GREENGUARD Indoor Air Quality® certified.

Visit GREENGUARD.org for more information and to find printable certificates for Knoll Office Seating that can be used for verification and LEED® submission.

GREENGUARD provides the only guide to certified low-emitting interior products and building materials. Its goal is to help building owners and managers, architects, interior designers and product specifiers build and furnish healthier offices, hospitals, schools and homes by providing a register of tested and certified low-emitting products and materials.

GREENGUARD certification is recognized by the U.S. Green Building Council's LEED® Program. Air Quality Science, an independent indoor air quality laboratory, tests products submitted for certification using stringent environmental chamber testing protocols and current indoor air quality standard. Certification is administered by the GREENGUARD Environmental Institute (GEI), an industry-independent, non-profit organization.

GREENGUARD for Children & Schools℠ certification complies with the State of California's Department of Health Services Standard Practice (CA Section 01350) for testing chemical emissions from building products used in schools, offices and other sensitive environments. Certified products can contribute to achieving credits in the CHPS Best Practices Manual for K-12 schools, the LEED® Green Building Rating System, Green Guide for Healthcare™, NAHB Green Building Guidelines, Green Globes, Regreen and numerous other local authorities' green building codes.

Knoll Office Seating and KnollExtra® products can contribute to achieving LEED® credits. GREENGUARD-tested and certified office furniture is required for Credit 4.5 in the LEED-CI Indoor Environmental Quality section.

GREENGUARD Certification Program

- Internationally recognized for evaluating product emissions and certifying building materials, furnishings, finishes and cleaning products and processes that meet stringent indoor air quality criteria defined by GEI.
- Products undergo rigorous, third-party testing to determine their impact on indoor air pollution with requirements for ongoing testing and verification.
- Certification confirms a manufacturer's environmental responsibility, and signifies their environmental achievements through independent, third-party testing and verification.
- GREENGUARD Certified products are recommended by leading sustainable building programs, including:
  - U.S Green Building Council's (USGBC) LEED Rating System,
  - National Association of Home Builders (NAHB) Green Building Guidelines,
  - Green Guide for Health Care (GGHC),
  - Collaborative for High Performance Schools (CHPS) Best Practices Manual,
  - New York City Department of Design and Construction Sustainable Design Specifications, among others.

An Overview

In the first part of the Price List you'll find a full range of desktop accessories, including the Smokador and the International Collection of boardroom accessories.

The second part features Orchestra Universal System Accessories, a complete scope of paper management accessories perfect for panel-mounted or freestanding application.

Part three offers a broad range of systems support products, including computer accessories, storage drawers, communications boards, and lighting.

Can't find it? Consult the Table of Contents on page 1 or the Alpha-numeric Index on page 182.

Product Information on Each Page

The KnollExtra Price List was designed to provide you with everything you need to know in order to understand, specify, and care for KnollExtra products. On each page, the following features will assist you:

Description/Construction explains salient features, capabilities, materials, and country of origin.

Dimensions provide the overall space the product will require. Statistics are based on the maximum width, depth and height of the product.

Weight is based on the product itself. It does not include packaging or complementary items such as pens, memo paper or calendars.

Order Code/Ordering Information outlines exactly how to specify KnollExtra product and the full scope of finish options. The Order Code provides an example of how one pattern number is specified.

Custom Options reviews availability of special sizes, finishes etc.

For More Information

For more information, contact your Knoll sales representative, telephone Customer Service at 1-800-343-5665, or visit one of the Knoll showrooms listed on the last page of this book.

A Word About Finishes

KnollExtra finishes are designed to complement a broad range of interiors and office products.

Key KnollExtra finishes coordinate with specific Knoll systems finishes:

Product	*Core Finish*	*Office System Finishes*
Orchestra Load bar / Slatboard	Medium grey (115)	Medium grey (115)
	Soft grey (117)	Soft grey (117)
	Black (111)	Black (111)
	Beige Mist (611)	Beige Mist (611)

Use the Following Addresses

If you would like to send a standard lead time order to our order entry department, please use the following address:

For North American orders:
Knoll, Inc.
1235 Water Street
East Greenville, PA 18041
Attn: Order Entry

Fax: 215 679-1788
Tel: 800 343-KNOLL

All accepted orders will be confirmed in writing on the Knoll standard order confirmation form.

Ship-Complete Orders

Orders that must ship complete are to be so stated on the purchase order. Products with different lead times, combined on one order, can be acknowledged for shipment based on the longest of those lead times. Orders not marked "ship complete" will be released according to the confirmation, and invoiced in increments.

For More Information

For complete Knoll Selling Policy and warranty information, please refer to page 185 of this price list.

For additional information on KnollExtra, contact your Knoll representative, a Knoll dealer, or telephone Customer Services at 800 343-KNOLL.

Maintenance
While KnollExtra relies on highly durable materials in each product line, regular basic maintenance will ensure the longevity of your product. Most stains, marks, and discolorations can be removed by following the simple instructions outlined on this page.

Plastic
Windex and a dry cloth.

SofStone
Early removal of a stain makes SofStone care much easier. This is especially true of coated areas which are frequently handled. If oil smudges are allowed to build up, they can soften the suede coating, and become very difficult to remove. Most dirt and smudges can be removed by the following methods:

1. Greasy stains (crayon, oil, lipstick, etc.): remove grease and wax stains with a naptha-dampened lint-free cloth. Change the cloth frequently to remove as much grease as possible without spreading the stain.

2. Non-greasy stains (dirt, coffee, mustard, catsup, etc.): dirt and smudge areas can generally be removed by using a sponge or soft bristle brush with Liquid Ajax, Mr. Clean, Lestoil, or 3M brand carpet spot remover and upholstery cleaner. Follow the instructions on the label, and rinse thoroughly with clear water and a lint-free cloth.

3. Combination stains (chocolate, ice cream, gravy, soup, etc.): combination stains are caused by materials that contain both greasy and non-greasy substances. First use the procedures for non-greasy stains as stated above. Then, rinse thoroughly with clear water and thoroughly dry with a lint-free cloth. If greasy stain persists, follow the procedure for greasy stains as stated above. Repeat as necessary.

Stainless Steel:
Windex and a dry cloth.

Antique Brass, Brushed Zinc and Black Oxide:
A damp cloth with no cleaning agents.

Satin Brass:
Pledge.

Linoleum:
Windex and a dry cloth.

Contemporary and Traditional Standard Leathers:
Mild soap and water on a soft cloth.

Spinneybeck Leathers:
As a result of the high quality aniline dye process, most scratches or minor stains can be removed simply by gently rubbing them with your fingers. The body's natural oils revitalize the leather. For stubborn stains, use mild soap and water. Take care to wash the surface evenly since soaps may slightly alter the leather's tonality.

Surf Collection:
Wipe nylon skin using warm water and mild detergent. Do not use abrasives.

Office Automation Accessories/Storage Drawers:
Clean with a soft cloth and Windex, Fantastik, Endust or other non-abrasive household cleaners. Remove stubborn stains with SofScrub.

For Surf Board and VDT Sleeve soft touch paints, never use abrasives. Clean with lukewarm water and a soft cloth.

Marker Boards:
For day-to-day use, surface requires only a dry cleaning with a standard felt eraser or dry cloth. For best results, keep marker board and marker pens at room temperature. KnollExtra suggests Alliance Rite-On Wipe-Off marker pens which are designed for use on marker boards. All marker pens should be tightly capped and stored horizontally when not in use. If Expo brand markers are used, use the manufacturer's recommended cleaning solution, Expo Dry Erase Cleaner.

Follow the instructions below as a periodic maintenance program, or to remove stubborn stains:

1. Clean with EV-1 or any liquid ammonia-added cleaner and rinse with clean water, then dry. For best results, wash board like a window with sponge and squeegee.

2. Interim cleaning may be done by sprinkling a dry powdered cleanser on an eraser and applying to the board in a circular motion. Rinse with clean water, then dry.

3. To remove crayon, scotch tape, or other stubborn materials, apply a mild solvent or paste made with scouring powder and water.

Fabric Boards:
Despite the durability of most panel textiles, fabric boards are subject to long-term soiling and wear. A regular maintenance program will significantly lessen soil and dirt build up or staining on your fabric boards. Cleaning is particularly important in areas adjacent to air conditioning or ventilation systems.

Remember to consult the care instructions provided by the fabric manufacturer. The general recommendations below should apply to most fabric boards.

1. Avoid excessive heat or moisture which can affect finishes and adhesives. Never allow fabric panels to become wet inside the core. Room temperature should be maintained between 50 and 85 degrees; humidity should be maintained between 20 and 50%.

2. Avoid contact with sharp edges which could puncture the surface.

3. Do not handle fabric boards more than necessary. Avoid bending or flexing the panels; this could break the bond between the surface and core materials.

4. Grease or oil should be wiped off immediately upon contact. Remove excess grease or oil by blotting. Use hot water and mild soap to remove any remaining residue.

5. Whenever possible, clean only with warm water and mild soap. Use caution when applying cleaning agents, particularly those that contain alcohol, strong alkalis, or solvents. These ingredients may react to the vinyl backing or adhesives used in the fabric boards. Always test cleaning agents on fabric from the rear of the panel before using on the front.

6. Care should be taken in using strong room cleaners or pesticides. Their fumes may contain agents which lead to the loosening of the fabric board glue bond.

3301	326.	418.	472.
3301-2	709.	876.	951.

Construction

Spinneybeck Vicenza (VZ):
A corrected grain, aniline dyed leather. The correction process refines the surface of the leather preparing it for the reception of an embossed grain pattern prior to finishing.

Spinneybeck Sabrina (SA):
An aniline dyed, full grain, kip leather. The fine quality and lightweight material produce a supple hand and smooth, tight grain appearance. Sabrina receives a breathable, protective finish and is appropriate for high-traffic use.

Spinneybeck Velluto Pelle (VP):
An aniline dyed, enhanced full grain leather. The combination of the subtle surface enhancement and special ironing process creates the suppleness and smoothness of this leather. Velluto Pelle has a breathable, medium, protective finish.

Manufactured in the United States, using domestic and Spinneybeck Italian leathers.

Mounting Options

Please note flat panel monitor arms cannot be mounted on Orchestra® load bars. Flat panel monitors can be mounted on Orchestra® slatwall only when mounted on an architectural wall. The Wishbone Test Matrix on Knoll Exchange outlines all monitor limitations. Please review before mounting. Please see p.130 for flat panel monitor tool bar options (Note: tool bars cannot hold Orchestra® organizational tools.)

Panel, stanchion and wall-mounted brackets:

Wall, stanchion, or panel-mounted brackets are included in the list price.

Note: Other brackets for other manufacturers stations are available. Contact your Customer Representative for more information.

Custom Options

Note:
Slatboard is available in custom lengths of up to 96″. Please note that for all lengths greater than 66″, load bar will be painted, not anodized.

Brackets are currently available for virtually every major office system. Panel-mounted brackets for other systems can be developed. Minimum of 100 sets per bracket. Tooling and set-up charges may be required.

Construction

Corrosion-resistant T-6063-T5 painted or anodized aluminum. End caps are 11 gauge steel painted matte black.Bottom rail is filled with ½″ Delrin plastic pellets to support papers on Info Rail.

Worksurface-mounted bracket:
Die-cast aluminum painted black.

All items manufactured in the United States.

Sapper™ Monitor Arm Collection
Mounting, Construction and Application Information

Mounting and Application Information:

All Sapper standard monitor arms:
- Maximum weight of 20 lbs * per arm, weight limits vary by mounting option
- Ship standard with fast release movement joint
- Offer 165 degrees of monitor tilt up and down, 180 degrees of swivel left and right and 360 degrees of rotation for portrait and landscape viewing
- Fold into themselves to be highly compact at (only 2 7/8″ when fully compressed)
- Are durable and lightweight (standard arm weighs only 2.6 pounds)

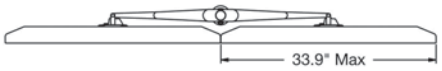
*Please note this limit accommodates up to 95% of monitors on the market. There is not a specific monitor size maximum limitation for a single Sapper monitor arm. A larger size (e.g., 24″ widescreen) does not necessarily equate to a higher weight monitor. It is key to understand the application to know if a certain size monitor will fit within a space and/or if there are multiple monitors. Also, it is important to note weight limitations vary by application. See details below.

Weight Limits:
Weight limitations for individual mounting options are outlined below. Taken together (both the mounting option weight limit and the individual arm limit of 20 lbs) you can best determine what mounting approach is best for your client given the number of monitors they desire to mount and the weight of those monitors. Weight limits are outlined by mounting option on the next few pages.

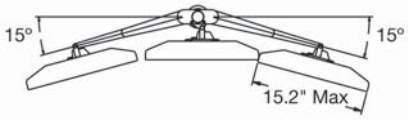
For example, if you want to mount two monitors on a worksurface with a grommet mount and each of those monitors weighs 18 lbs (2 monitors x 18 lbs each equals 36 lbs total), we can accommodate that with the 45 lbs weight limit for the grommet mount and the 20 lbs limitation for each arm. However, if they want to do three monitors weighing each 18 lbs (3 monitors x 18 lbs each equals 54 lbs total) with a grommet mount, we cannot do that on a single mast with this mount since the maximum weight limitation is 45 lbs.

Size Limits:
There is no specific size maximum for a single arm solution (outside the limitations of the space in which you are trying to put it). When mounting two monitors, the maximum outer horizontal width per monitor is 31.8″ for a cockpit solution or 33.9″ for a flat positioning flush next to each other. For three monitors, the maximum outer horizontal width per monitor is 15.2″ for a cockpit solution or 16.35″ for a flat positioning flush next to each other in a row. Clients can accommodate larger screen monitors in triples by turning monitor screens to a portrait position.

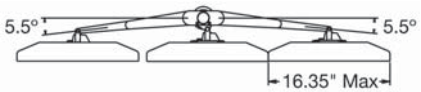
Double Cockpit



Double Flat



Triple Cockpit



Triple Flat

KEY NOTE: Flat panel monitor manufacturers refer to their products by diagonal screen measurements. So a 19″ widescreen monitor has a 19″ screen measured diagonally, but is not necessarily 19″ in horizontal width (refer to manufacturers specifications for specific overall height and width).

Monitor Mounting:
All Sapper monitor arms are compatible with the international Video Electronics Standard Association (VESA) industry interface standard (75 mm x 75 mm and 100 mm x 100 mm hole patterns or 2.95″ x 2.95″ and 3.94″ x 3.94″) adopted by most panel manufacturers. VESA compliancy is a requirement to mount any monitor to a monitor arm. Please note our monitor plates come standard with both 75 mm x 75 mm and 100 mm x 100 mm holes. If your customer has a recessed monitor back with only 75 mm x 75 mm holes, additional spacers will be needed to ensure proper fit. Contact Customer Service for more details including part and pricing information.

Some larger (over 22″ wide) widescreen monitors now come with the home VESA standard (200 mm x 100 mm or 200 mm x 200 mm) which can be accommodated as a special through Custom Product Development.

Knoll and its dealers will not take the responsibility for mounting the monitor to the arm. The end user's IT department must confirm VESA mounting compliance and mount the monitor to the arm using customer's own screws. The most common screws are M5 x 8mm and M5 x 10mm.

Please follow installation instructions closely (available in each kit box shipped as well as on Knoll Exchange).

Apple Computer Note:
Apple iMacs are not VESA compliant. To mount a 24-inch iMac or 24-inch LED Cinema Display to a Sapper arm requires a customer to purchase a Cinema Display VESA Mount Adapter Kit from Apple. The adapter kit comes standard with a 100 mm x 100 mm hole pattern and can be purchased online for .00 at:
http://store.apple.com/us/product/MB902ZM/A

Unbalanced Monitor Note:
Please note there are some monitors on the market that have all of their media connections on one side which makes the monitor unbalanced. In order to level the monitor, a special set screw in the VESA plate is needed. Please contact Custom Product Development for pricing and details.

Table Clamp Mounting:
The standard two-piece table clamp is easy to install or retrofit and works on most worksurfaces or desks that are a minimum of 1 -1/8″ thick solid core. The maximum worksurface thickness is 2-3/4″. There are three settings to accommodate a range of worksurface thicknesses. It is important to mock up the table clamp, particularly on competitive product to ensure a proper fit. Maximum weight limit is 75 lbs.

Grommet Mounting:
With all systems furniture, it is important to pass monitor and peripheral plugs through grommet mount cover while it is still loose. Please note the grommet mount is compatible with Morrison, Autostrada, Reff, Propeller, Scope and Wa, but is not currently compatible with the Graham Collection grommet holes.
Maximum weight limit is 45 lbs.

Fixed Table Mounting:
Installers will need to drill a permanent hole into the worksurface so the mast will be fixed to a dedicated location on the worksurface. Please note with this mounting, the mast will not be able to be moved without leaving a permanent hole.

Maximum weight limit is 85 lbs. Please note that the worksurface must be of adequate structure. We recommend a minimum of 1 1/8″ thick solid core for adequate structural integrity. Knoll cannot be held responsible for the structural integrity of non-Knoll worksurfaces.

Slat Wall Mounting:
For single monitor mounting, you can use either the slat wall mast mount or direct slat wall mount. For double or triple monitor mounting, you must use the slat wall mast mount. The direct slat wall mount cannot be used for multiple monitors.

Works with most Knoll slat board and slat wall profiles, however, load ratings vary across products and mounting approaches. Please review product breakdown on the following pages to ensure compatibility with your specific application needs.

Orchestra/KnollExtra slat board must be mounted to an architectural wall if a flat panel monitor arm is to be mounted to it. You can only use this slat board when it is wall-mounted as outlined below. Knoll cannot be held responsible for the structural integrity of a wall so please work with clients to ensure their wall is structurally sound to hold the slat board, the arm configuration and the monitor weight.

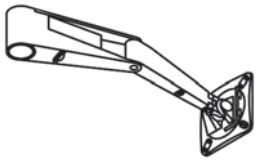
Maximum weight limit varies by slat wall type:
See table on following page.

Wall Mounting:
For single monitor mounting, you can use either the wall mast mount or direct wall mount. For double or triple monitor mounting, you must use the wall mast mount. The direct wall mount cannot be used for multiple monitors.

For use on architectural walls only as outlined further on this page. Knoll cannot be held responsible for the structural integrity of a wall so please work with clients to ensure their wall is structurally sound to hold the arm configuration and the monitor weight. See above for weight limits if mounting slat wall to an architectural wall.

Cable Management:
External cable management allows for easy installation and removal of monitors. There are gates under the the arm that will contain wires from the monitor to plastic cable management clips that go on the mast to keep wires tidy to the electrical socket.

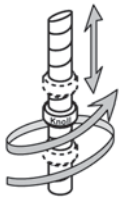
Gates



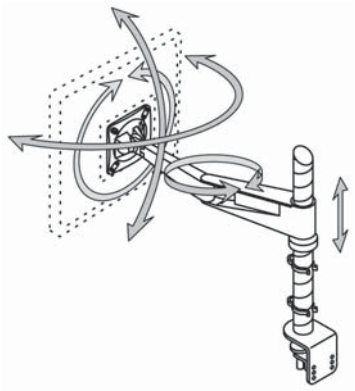
Clips

Adjustment:
The Sapper monitor arm collection offers intuitive adjustment. To adjust the height, you simply manually lift the arm and twist the adjustment knob like a screw up or down the mast to a comfortable setting. The easiest way to lift the monitor is to fold it in before making the adjustment. To adjust the depth, you can move the arm in or out. You can also rotate the monitor 360 degrees for landscape or portrait viewing and adjust the swivel back and forth 180 degrees and tilt up and down 165 degrees. The arm folds in and out from 2 7/8″ fully compressed to approximately 17″ when fully extended.

Height Adjustment

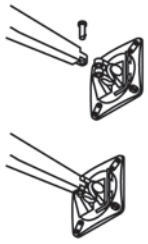


Rotation, Swivel, Tilt and Depth Adjustment



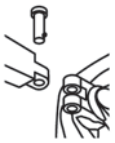
Fast Release:
Allows for swift installation and removal of flat panel monitors by merely popping the quick release pin up to remove monitor with movement joint/back plate attached.

Fast Release

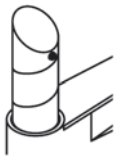


Theft Deterrence:
All movement joints come with a set screw within the fast release pin, to prevent fast release if so desired. Also there is a set screw at the top of the mast to deter removal of the entire arm and monitor from the mast.

Deactivate Fast Release with Set Screw



Set Screw to Prevent Arm Removal



Compatibility:
The Sapper Monitor Arm Collection is not compatible with the Wishbone Flat Panel Monitor Support System (i.e., Wishbone, Zorro or Rotation arms, posts, tool bars, brackets, mounting, etc.). They have been designed independently and as such parts from one system cannot be used with the other.

Monitors cannot be mounted on KnollExtra®/ Orchestra® load bars.

Installation Instructions:
Comprehensive installation instructions will be shipped with product and are also available on Knoll Exchange for easy reference.

Construction:
Arm: die cast aluminum with a cold rolled steel top plate

Mast: anodized aluminum extrusion

Adjustment knob: nylon undermold with a TPU overmold

Movement joint (includes fast release monitor plate): acetal bushings, zinc and acetal molded plastic tilt friction components and glass filled nylon VESA plate

Double arm bracket: die cast aluminum, steel top plate, extruded aluminum posts, acetal upper and lower bushings

Triple arm bracket: die cast aluminum, steel top plate, extruded aluminum posts, acetal upper and lower bushings

Cable management: transparent polycarbonate clips on the mast; acetal gates under standard arms

- Black textured metal finish

Short easy lift arm with pivot:
Same features as the short easy lift arm plus the keyboard platform moves independently from arm, allowing it to parallel the worksurface as the arm is moved laterally.

Easy Lift Arm:

- Spring assist adjustment
- Knobless height adjustment
- Soft touch knob adjusts tilt from 0° to (-) 15°
- Variable height adjustment of 7.04″(up 2.83″,down 4.21″)
- Pivots side to side 360°
- Black textured finish with Black Soft touch knob.
- Mounts on virtually any worksurface

Easy lift arm with pivot:
Same features as the easy lift arm plus the keyboard platform moves independently from arm, allowing it to parallel the worksurface as the arm is moved laterally.

Sit/Stand Arm:

- Spring assist adjustment
- Knobless height adjustment
- Sort touch knob adjusts tilt from 0° to (-) 15°
- Variable height adjustment of 11.57″(up 6.40″, down 5.17″)
- Pivots side to side 360°
- Black textured finish.
- Mounts on virtually any worksurface

Sit/Stand arm with pivot:
Same features as the sit/stand arm plus the keyboard platform moves independently from arm, allowing it to parallel the worksurface as the arm is moved laterally.

Order Code

Example:	**OAK-A2-P-1-EL2-BK-(16,18,22,23,25)**
OAK	Office automation keyboard
A2	Act II
P	phenolic (standard)
1	Mouse pad comes standard on right side
EL2	Easy-lift mechanism
BK	Black
18	Track length of 18 inches

Ordering Information

Track length options are 16, 17.750, 21.625, 22.63 and 25 inches.

Standard color is black.

Minimum clearance required is the length of the track plus 1/2″.

Application Notes

Keyboard support provides users with a more comfortable working environment by allowing them to adjust the height and pitch of the platform holding their computer keyboard. When not in use, the Adjustable Keyboard Support stores the keyboard under the worksurface to free vital worksurface space.

Worksurface should be mounted in the desk height position.

Dimensions above are for the platform only. For full configuration depths, all component measurements and application suggestions refer to the Keyboard Measurements tool on Knoll Exchange.

Construction

Board is phenolic.

Wristrest is foam-filled vinyl on MDF board.

Mousepad is lycra covered polyurethane.

Mechanism: All arms are steel with a powder-coated finish. Tracks are steel with nylon glides.

Medium Metallic Grey (J)
Soft Touch Light Grey (GS)
Soft Touch Black (BS)

Ergonomic Value

The Surf Collection wrist rest, mouse pad, and lumbar support play a critical role in workplace ergonomics. Proper use of these pieces helps users maintain the body neutral position, reducing harmful strain on muscles and joints.

The collection's design advantage is in its simplicity. These accessories are extraordinarily versatile and flexible, responding to the individual needs of the specific user, unlike over-engineered mechanical pieces.

Each piece in the Surf Collection is a "footprint form," derived from natural ergonomic movements. No sharp edges or angles are used. As a result, the accessories can be approached by the user from any direction. The Surf soft, biomorphic shapes echo the curves and contours of the human body.

Lumbar support note:
Back problems are the second leading cause of lost work time after the common cold. Most back rests utilize rigid, unyielding materials, ignoring the diversity of human form and movement.

pattern no.	list price
SF-WR-FS-(BK)-G	$89.
SF-LS	245.
SF-SB-(E, J)	267.
SF-SB-(GS, BS)	336.

General Notes

The Surf Lumbar Support rests loosely over the chair like a saddle bag, held in place by a counter balance weight. The piece is easily adjusted up or down, to the preference of the user.

The supports high performance patented foam molds itself to both the user and the chair back. As the user moves throughout the workday, the foam responds in kind, continuously resculpting itself around the user's body. When body pressure is removed, the lumbar support returns to its original form within 10 seconds, ready for the next user.

Construction

Surf Board:
Rigid steel plate with 1″ thick rolled front detail. Black rubber bumpers and non-scuffing felt back.

Wrist rest and mouse pad:
Nylon upholstered dual-density polyurethane. Gel beneath fabric, nominally .65″, is formulated to provide soothing support by displacement.

Lumbar support:
High memory, heat-reactive patented polyurethane foam developed for high performance use in military fighter pilot seats. Covered with wear-resistant, closed cell Neoprene and a bright colored, breathable nylon outer skin. Die-cast zinc counter-balance weight.

All items manufactured in the United States.

Design Awards

First place, Interior Design Product Award, ASID, 1994. High Design Quality Red Dot Award, Design Zentrum, Germany, 1994.

Lumbar support:
Honorable Mention, Furniture,*ID Magazine*Annual Design Review, 1994.

Surf Board:
Best of Category Award, Consumer Products,*ID Magazine*Annual Design Review, 1994.

Freestanding Ergonomic Accessories

Wishbone Flat Panel Monitor Support System
by Colebrook Bosson Saunders
standard arm

product	description	type	w	d	h	wgt.
Wishbone Kit 	• Easy order kit. Wishbone kit includes everything needed to mount one flat panel monitor arm to a worksurface: Standard arm, 400 mm (15.75 inches) post, O-ring, Cable management clip, Table clamp (Top mount).	Wishbone kit with fast release				
Standard Arm Post Mount 	• Adjusts at four joints. • Allows user to rotate arm 360° at pole connection. • Allows user to tilt monitor face up and down 180° and pivot monitor left and right. • Center hinge provides depth/location flexibility. • Generous arm reach - approximately 17 inches depending on mounting option.	Standard wishbone arm, post mount with fast release				
Standard Arm Slatwall Mount *	• Adjusts at four joints. • Allows user to rotate arm 180° at slatwall. • Allows user to tilt monitor face up and down 180° and pivot monitor left and right. • Center hinge provides depth/location flexibility. • Generous arm reach - approximately 17 inches depending on mounting option.	Standard wishbone arm, Knoll Slatboard / Slatwall Mount with fast release				

- The Wishbone system allows for a great flexibility in the mounting and adjustment of flat panel monitors. The system is particularly proficient at mounting multiple monitors easily to tables and system furniture.
- All arm options on this page:
  Will mount to VESA compliant flat panel monitors
  Will hold monitors of weights up to 22 lbs.
  Are lightweight and durable.
  Ship standard with fast release option (see notes below for fast release attributes).
  Allow monitor to lie relatively flat against tool bar, Currents slatwall, or panel.

Order Code

Example:	**WSH-SA-TB-SV**
WSH-SA-TB	Standard Arm Tool Bar Mount
SV	Silver

Ordering Information

Specify:

1. Pattern number
2. Finish where required
3. Mounting pattern number(s) where required.

Kits and Currents slatwall mount arms do not require any additional mounting specification.

Additional mounting pieces must be specified for post-mount arms and toolbar-mount arms.

Finish option (when applicable):
Silver (SV)

Mounting Information

Screen Mounting:
All wishbone arms are compatible with the international VESA standard adopted by most panel manufacturers.

Knoll and its dealers will not take the responsibility for mounting the monitor to the arm. The end user's IT department must confirm VESA mounting compliance and mount the monitor to the arm using customer's own screws.

Please review the Wishbone Test Matrix on Knoll Exchange for comprehensive mounting guidance.

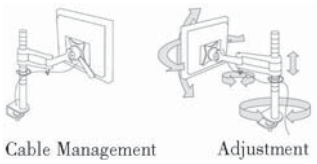
***Slatwall Mount Note**

- Works with all Knoll Slatboard and Slatwall profiles.
- Load ratings vary across products and mounting approaches. Check Knoll Exchange for Wishbone Test Matrix.
- Note: Orchestra Slatboard must be mounted to an architectural wall if Wishbone is to be mounted onto it. (See the Wishbone Text Matrix for complete mounting limitations for this application)

pattern no.	list price
WSH-SA-K-SV	$574.
WSH-SA-SV	389.
WSH-SA-MP-SV	523.

Construction

Cable Management:
Simple cable management for easy installation.



Adjustment:
The Wishbone system offers a wide range of adjustment. Height adjustment is easily accomplished by lifting the arm and sliding the o-ring up and down post to the required height.

Wishbone:
Products are manufactured in diecast and extruded aluminum and glass reinforced acetal plastic.

O-ring is made of an elasticated polymer.

Wishbone product line is patented in the United States.

Fast Release:
Allows for swift installation and removal of flat panel monitors.

Allows user to rotate monitor face from a landscape to portrait orientation.

2. Finish where required
3. Mounting pattern number(s) where required.

Kits and Currents slatwall mount arms do not require any additional mounting specification.

Finish option (when applicable):
Silver (SV)

Mounting Information

Screen Mounting:
All wishbone arms are compatable with the international VESA standard adopted by most panel manufacturers.

Knoll and its dealers will not take the responsibility for mounting the monitor to the arm. The end user's IT department must confirm VESA mounting compliance and mount the monitor to the arm using customer's own screws.

Please review the Wishbone Test Matrix on Knoll Exchange for comprehensive mounting guidance.

WSH-PTB-61	386.

Construction

Cable Management:
Simple cable management for easy installation.

Cable Management

Adjustment:
The Wishbone system offers a wide range of adjustment. Height adjustment is easily accomplished by lifting the arm and sliding the o-ring up and down post to the required height.

Adjustment

Wishbone:
Products are manufactured in diecast and extruded aluminum and glass reinforced acetal plastic.

O-ring is made of an elasticated polymer.

Wishbone product line is patented in the United States.

Fast Release:
Allows for swift installation and removal of flat panel monitors.

Allows user to rotate monitor face from a landscape to portrait orientation.

Wishbone Flat Panel Monitor Support System
by Colebrook Bosson Saunders
mounting brackets

product	description	w	d	h	diam
Table Clamp	• Mounts post to virtually any worksurface. between 3/4″ and 1 1/2″ thick. • Requires 2″ clear space from edge of underside of worksurface for proper mounting.	3 1/8″	4 1/8″	2 1/4″	
Table Clamp, Top Mount	• Two piece clamp. • Allows the installation of the table clamp on worsurfaces in panel systems that do not have access room between the worksurface and the panel. • Ideal for retrofitting. • Mounts post to virtually any worksurface. between 3/4″ and 1 1/2″ thick. • Requires 2″ clear space from edge of underside of worksurface for proper mounting.	3 1/8″	4 1/8″	3″	
Currents Crown Flower Pot Bracket	• Mounts a post to the Currents crown mount (must specify post separately). • Allows for easy height adjustment.	2 3/4″	5″	4 1/4″	
Knoll Slatwall Flower Pot Bracket *	• Mounts a post to a slatwall (must specify post separately). • Allows for easy height adjustment. • Mount only 1 monitor per 3′ of slatwall.	4 1/4″	2 1/2″	5″	
Fixed Table Mount	• Mounts Wishbone post to worksurface. • Mounts using field drilled hole.			3/16″	3″
Spare Fast Release Monitor Plate	• Male portion of fast release bracket. • Allows for speedy replacement of malfunctioning monitors. • For use with fast release arms only.	6″	9 3/8″	1/2″	
Toolbar Bracket	• Bracket to mount Wishbone arms (Forearm, Wishbone standard arm, C-arm, Rotation) onto CBS toolbar	2 3/16″	2 3/4″	3 9/16″

Order Code

Example: **OA-PFD-N**

OA-PFD-N Narrow printer/fax drawer

Ordering Information

Specify:

1. Patttern number

Equipment note:
Each office equipment drawer is designed to accommodate the vast majority of products currently on the market. Specific interior dimensions:

	w	d	h
OA-PFD-N	16 1/8″	20″	12 7/8″
OA-PFD-W	20 1/8″	20″	12 7/8″

Application Notes

Printer/fax drawer:
Mounts on virtually any wood worksurface. Wide head key lock fasteners ensure stability. Mounts on 24″ or deeper worksurface, with more than 3″ wide clearance space in rear. For panel-flush applications, there is a 2 1/8″ wide, 1/4″ high bracket clearance on either side. For wider brackets, note that drawer worksurface connections are located 3 1/2″ and 12″ from front of drawer. For thicker brackets, use spacers when installing drawer.

Custom Options

Other widths and depths available. Minimum order of 25 units per line item. Contact your Knoll sales representative or Customer Service for pricing information.

pattern no.	list price
OA-PFD-N	$549.
OA-PFD-W	565.

Construction

Rigid 16-gauge painted steel constructed. 2 1/4″ high full width pull in black finish.

Accuride progressive metal slides on drawer. Rubber mat and 3/4″ high rear metal lip prevent sliding. Perforated holes on side for ventilation.

All parts painted black.

Manufactured in the United States.

BackPack® Universal Storage Drawers
by Robert Reuter
suspended files

product	description	w	d	back/front h	wgt.
Standard Suspended File 	• Full width, 4¾″ d 1¾″H pencil trough. • Two removable plastic organizing trays. • Generous 16″w 12″D filing space. • Accepts 16″ side-to-side hanging letter files. • Accepts 12″ front-to-back hanging legal or European A-4 and foolscap files. • Drawer contains 107% capacity of standard file drawer. • Optional lock. • Black painted steel construction with full extension ball-bearing slides.	17″	18″	10″/2″	16 lbs. 4 ozs.
Deep Suspended File 	• Full width, 4¾″d 1¾″H pencil trough. • Two removable plastic organizing trays. • Full width, 5½″d 6″H intermediate compartment holds computer disks, desk supplies and personal items. • Generous 16″w 12″D filing space. • Accepts 16″ side-to-side hanging letter files. • Accepts 12″ front-to-back hanging legal or European A-4 and foolscap files. • Drawer contains 107% capacity of standard file drawer. • Optional lock and mouse pad. • Black painted steel construction with full extension ball-bearing slides.	17″	24″	10″/2″	18 lbs.

BP-SSF	Standard suspended file

Ordering Information

Specify:

1. Pattern number
2. Lock option

Lock option:
Lock attaches to slides in field.
Removable for use elsewhere.

Application Notes

BackPack drawers can be used with virtually any Knoll or other wood worksurface.

BackPack storage drawers attach to the underside of wood worksurfaces at any location. In most cases, the drawers may be mounted flush to side panels. When supporting brackets extend further than 2½″ from the side panel, a slight reveal will occur. Mounting hardware and template included.

pattern no.	list price
BP-SSF	$452.
BP-DSF	499.

For wire management needs, the minimum depth worksurface for standard depth drawers is 24″; minimum depth for deep drawers is 30″. When no wire management is necessary, the Standard Suspended File may be used on an 18″ worksurface and the Deep Suspended File may be used on a 24″ worksurface.

Knee clearance:
In order to maximize filing capacity, the Standard and Deep Suspended Files do not provide adequate knee clearance. For center worksurface applications, specify the Keyboard or Center File Drawers.

Construction

Sturdy, 20-gauge painted steel with full-extension ball-bearing metal slides. Foam surface on mouse pad.

Die-cast zinc lock painted black.

Manufactured in the United States.

Equity application note:

For all Equity panel-mounted applications, add "E" to end of base pattern number.

Note:
If your system is not listed, contact your KnollExtra representative or Customer Service for appropriate panel-mounted bracket to specify.

Custom Options

Other writing surface and custom frame colors available. Custom frame sizes available up to 72″W x 48″D in size. High performance porcelain-covered steel market board also available. 25 unit minimum per line item on all customs. Contact your Knoll sales representative or Customer Service for pricing information.

Construction

Satin anodized aluminum frame (can be powder coated black). Porcelain coating on cold rolled steel laminated to corrugated and hardboard with a Mylar backing. All Universal Marker Boards are magnetized.

Manufactured in the United States.

Universal Fabric Boards
Standard Sizes

product	description	w	d	h	textile fabric yards

Order Code

Example:	**F-24-16-R2-A-30-W388/1 F-WM-F**
F-24-16	24″ x 16″ Fabric board
R2	Rounded corner/radius edge detail
A	Thickness
30	Fabric grade 30
W388/1	Freehand, Glacier
F-WM-F	Wall-mounted, flush

Ordering Information

Specify:

1. Pattern number
2. Corner/edge detail
3. Thickness
4. Fabric grade
5. Fabric selection
6. Mounting option pattern number
7. System suffix (panel-mounted option only)

Equity application note:
For all Equity panel-mounted applications, add “E” to end of base pattern number.

Corner/edge detail:
Squared corner/rectilinear edge (S1)

Squared corner/radiused edge (S2)
Rounded corner/radiused edge (R2)

Standard fabric board has squared corner and rectilinear edge details. See page 160 for edge upcharge.

Standard fabric board has ½″ thick mineral board.

Mounting Options

Panel-mounted brackets:
Panel-mounted brackets are included in the list price but must be specified separately. To specify appropriate panel-mounted bracket, consult the KnollExtra Bracket Chart on page 14.

Panel mounted bracket size must match height of fabric board.

Wall-mounted options:
Wall-mounted applications must be specified as flush (F-WM-F) or reveal (F-WM-R). Both options are appropriate for any smooth, clean surface. Flush wall-mount option utilizes velcro squares.

Reveal wall-mount option provides ½″ clearance for wire management behind fabric board. Fabric boards mount with 4 brackets onto 2 black painted wall rails that screw into wall to ensure rigidity. For other mounting options and pricing, contact Customer Service.

Under overhead specification note:
For application under a system overhead, provide clearance distance between the worksurface and the bottom of the overhead or task light.

Side by side fabric board specification note:
Please note if a panel-mounted fabric board will be used contiguous to another fabric board, drawings are required and there will be an up-charge.

60″ wide boards in fabric grades 50, 55 and 60:
Due to grades 50, 55 and 60 fabric widths being less then the width of a 60″ board, contact your KnollExtra representative or Customer Service for pricing and fabric railroading information.

		Flush Wall-Mounted (No charge when ordered with fabric board)			
		Panel-Mounted Dividends (No charge when ordered with fabric board)			
		Panel-Mounted Equity (No charge when ordered with fabric board)			
		Panel-Mounted Morrison (No charge when ordered with fabric board)			
		Panel-Mounted Reff (No charge when ordered with fabric board)			
	Edge Detail	Rounded corner/radiused edge (add -R2 to end of fabric board pattern number)			
		Squared corner/radiused edge (add -S2 to end of fabric board pattern number)			
		Squared corner/rectilinear edge (add -S1 to end of fabric board pattern number)			

- Standard fabric board has ½″ thick mineral board construction with squ
- Rounded corner or radiused edge option available at upcharge.
- Panel or wall mounting options.

Order Code

Example:	**F-60-14-S1-A-40-W337/4 F-PM-R-14**
F-60-14	60″ x 14″ fabric board
S1	Squared corner/rectilinear edge
A	Thickness
40	Fabric grade
W337/4	Sennit, Olivine
F-PM	Panel-mounted
R	Reff
14	14″ Fabric board bracket

Ordering Information

Specify:

1. Pattern number
2. Corner/edge detail
3. Fabric grade
4. Fabric selection
5. Mounting option pattern number
6. System suffix (panel-mounted option only)

Equity application note:
For all Equity panel-mounted applications, add “E” to end of base pattern number.

Corner/edge detail:
Squared corner/rectilinear edge (S1)

Squared corner/radiused edge (S2)

Rounded corner/radiused edge (R2)

Standard fabric board has squared corner and rectilinear edge details. See above for edge upcharge.

Thickness option:
Standard fabric board has ½″ thick mineral board.

Mounting Options

Panel-mounted brackets:
Panel-mounted brackets are included in the list price but must be specified separately. To specify appropriate panel-mounted bracket, consult the Knoll sales bracket chart on page 12.

Panel mounted bracket size must match height of fabric board.

Wall-mounted options:
Wall-mounted applications must be specified as flush (F-WM-F) or reveal (F-WM-R). Both options are appropriate for any smooth, clean surface.

Flush wall-mount option utilizes velcro squares.

pattern no.	list price
F-WM-R-(14, 16, 18, 20 or 24)	$104.
F-WM-F-(24, 30, 36, 42, 48, 60)- (14, 16, 18, 20 or 24)	31.
F-PM-D-(14, 16, 18, 20 or 24)	40.
F-PM-E-(14, 16, 18, 20 or 24)	40.
F-PM-M-(14, 16, 18, 20 or 24)	40.
F-PM-R-(14, 16, 18, 20 or 24)	40.
R2	31.
S2	31.
S1	n/c

Under overhead specification note:
For application under a system overhead, provide clearance distance between the worksurface and the bottom of the overhead or task light.

Side by side fabric board specification note:
Please note if a panel-mounted fabric board will be used contiguous to another fabric board drawings are required and there will be an up-charge.

Construction

½″ thick mineral board for durable, highly tackable surface.

Custom Options

For special sizes:
Refer to the standard size scope. Locate the standard fabric board size which is equal to or greater in width and depth than the requested special. Add 10% to the standard list price. Note "special" when ordering. For specials above 60″W x 24″H, contact Customer Service. Maximum fabric board size is 120″W x 24″H. Fabric must be railroaded on any panel wider than 60″.

Customer's own material:
For approval, submit at least one yard of fabric for application testing. For panel-mounted applications, all COMs and textiles that are not pre-approved must be UL-tested. Please consult Knoll sales Customer Service for details.

Corner/Edge Detail

Selling Policy

This Selling Policy supercedes all previous selling policies. Prices, discounts and product offerings are subject to change without notice.

Terms & Conditions of Sales

Sales by Knoll, Inc. or Knoll North America Corp. ("Seller") of Knoll Product Lines (hereinafter "Products") within the United States and Canada are made only on the terms which are contained in this Selling Policy. Seller hereby gives notice of its objection to any different or additional terms and conditions. This sale is expressly conditional upon Purchaser's assent to the terms and conditions set forth below. Additional terms and conditions may apply to KnollStudio and KnollTextiles orders. These terms and conditions may be modified or supplemented only by a written document signed by an authorized representative of Seller. These terms and conditions supercede any prior and/or contemporaneous agreements or correspondence between Purchaser and Seller. Written quotations expire thirty (30) days from the date of issuance and can be withdrawn by written notice anytime during that period. Where Purchaser and Seller have entered into the Knoll Electronic Terms and Conditions, all orders, acknowledgements, invoices and other business communications placed or transmitted in accordance with the Knoll Electronic Terms and Conditions shall be deemed to be in writing and signed and shall be valid for all purposes as if they were originated and maintained in documentary form.

Ordering Information

All orders must be in writing. The product pattern number(s) contained on Seller's order acknowledgement shall be the final expression of the order.

Order Confirmation

A purchase order is not binding on Seller until Purchaser has received Seller's order confirmation or acknowledgment.

Pricing Policies

List prices are subject to change without notice.

List prices shall be those prices in effect on the date of receipt of a complete purchase order unless shipment is requested more than ninety (90) days after order entry in which case prices in effect on the date of shipment apply. List prices include specified freight costs. Unless specified in writing by Seller, no other charges are included in Seller's list prices.

Taxes

All sales, use, excise and other taxes applicable to the sale of the Products shall be paid by Purchaser. If Purchaser claims an exemption from any tax, Purchaser shall submit to Seller the appropriate exemption certificates.

Terms of Payment

Payment for one hundred percent (100%) of the net order amount is due within thirty (30) days of the date of invoice, which is issued upon shipment. In case of any discrepancies, such as shortages, and Seller is notified in writing within ten (10) days of receipt of Product, only that portion may be deducted and the balance paid. For orders greater than $100,000 net, a fifty percent (50%) deposit is due at the time of order placement, with the remainder due within thirty (30) days of the date of invoice.

KnollStudio orders less than $2,000 require payment for one hundred percent (100%) of the net order amount (including any applicable sales tax and charges for inside delivery, special packaging, etc.), due at time of order placement. For KnollStudio orders greater than $2,000, a one-half (50%) deposit is due at time of order placement with the remainder (including any applicable sales tax and charges for inside delivery, special packaging, etc.) due prior to shipment.

If, in the judgment of Seller, Purchaser's financial condition does not justify the terms of the payment, Seller may require full or partial payment in advance.

Past due accounts shall be charged one and one-half percent (1.5%) per month, or the highest rate permitted by law, whichever is less, and will be added to the outstanding balance. In the event Purchaser defaults on payment, Purchaser shall be liable for all collection costs, including reasonable attorney's fees and costs.

Changes and Cancellation

Purchase orders may not be changed or cancelled, in whole or in part, without prior written consent of Seller. Changes may effect delivery dates. Expenses incurred because of changes shall be charged to Purchaser. In the event of cancellations, Purchaser will be liable for reasonable cancellation charges established by Seller. Orders for special Product, orders including "COM" (hereinafter defined) material and orders pursuant to expedited delivery programs, may not be canceled.

Freight Prepaid

Freight is prepaid and included in the price of all Products, except KnollTextiles, within the 48 contiguous United States for orders placed with Knoll, Inc. and within Canada, excluding the Yukon, Northwest Territories, Nunavut and Newfoundland for orders placed with Knoll North America Corp. Packing is tested for rigorous motion and transportation but is not guaranteed to protect furniture from conditions over which the Seller has no control. If special packaging is required for any reason, please consult with your sales representative or dealer. Seller shall select the method of shipment and routing. All shipments shall be tailgate deliveries. Freight for all KnollTextiles orders is prepaid and added to the invoice.

Delivery/Freight Charges

Shipments outside the contiguous 48 United States and Canada shall be shipped F.O.B. Origin.

For shipments outside the contiguous United States and Canada, Purchaser is responsible for the cost of freight from point of embarkation, including any handling and transportation charges incidental to loading at the point of departure and unloading at the final destination.

Conditions beyond the control of Seller, including weather, available facilities and traffic conditions, may affect exact time of delivery. Seller shall not be responsible for specific carrier delivery date or time unless it has made a specific delivery commitment, in writing.

Nonstandard methods of shipment and/or additional services are available upon request. Purchaser will be billed for the differential cost of any special services in excess of standard surface carrier freight costs. Premium charges, at Purchaser's request, will be added for airfreight, exclusive use of vehicle and extra, export or special packaging. Accessorial charges will be added for inside delivery, extra labor, reconsignment and redelivery.

Partial shipments may be made and invoiced by Seller.

Claims

All shipments for all Knoll Products within the contiguous United States and Canada are F.O.B. Origin. Risk of loss passes to Purchaser at time of delivery to carrier. Purchaser shall inspect all Products upon receipt and notify Seller within ten (10) working days after receipt of any damage or defects which are, or should be, apparent from an inspection of the Product and its packaging. Failure of Purchaser to make a claim against carrier or notify Seller during the ten (10) working day period shall constitute acceptance of the Products and waiver of any apparent defects, errors or shortages. Seller will agree to repair or replace Product damaged in shipment if Purchaser has notified Seller of freight damage within ten (10) working days after receipt and assigns its rights against the carrier.

Seller's Security Interest

Until Seller receives the full payment for the Product, Seller shall have a security interest in the Product. Purchaser agrees to perform all acts, including but not limited to the execution and filing of documentation, which may be necessary to perfect and assure the security interest of Seller.

Returns

The return of Products without a written authorization by Seller shall not be accepted. To receive authorization for Product return, please call Customer Service. All Products that are returned pursuant to a valid authorization shall be subject to a twenty-five percent (25%) of list restocking charge. Products not currently offered for sale by Seller (including COM) shall not be authorized for return. All returned Products must be unused, in original condition and in the original Seller packing cartons. No refund or credit shall be given for damaged Products.

Held Orders/Storage

If Purchaser requests that an order be held or delayed, prices and terms and conditions in effect at the time of shipment shall apply. If Purchaser requests a delay after the time when Seller can defer production, Purchaser will be invoiced for the Product, payable in accordance with standard terms, when the order is ready for shipment. Seller may transfer the Product to storage, in which case all expenses incurred in connection with storage, including demurrage, preparation for storage, storage charges and handling shall be payable by Purchaser upon submission of invoices by Seller. Risk of loss to the Product shall pass to the Purchaser upon delivery of the Product into storage.

Customer's Own Material

A Purchaser who requests a fabric or other surface material not standard to Seller's line of Products ("COM") must submit samples of the requested material to Seller prior to entry of a purchaser order. Seller shall determine if the material is suitable to its manufacturing processes and meets any requirements of Underwriters Laboratories. If the COM is acceptable, Seller will then establish a price for using the COM or the Product in question. For a description of the procedures for submitting samples and testing, contact customer resources or your sales representative. Seller shall have no responsibility for the appearance, condition, performance, durability, colorfastness or any other physical attribute of the COM. Purchaser shall indemnify and hold Seller harmless for any damages, injuries or losses arising out of or related to use of the COM on the Product.

Warranty

Seller warrants to the original Purchaser only that the Products Seller manufactures and sells to Purchaser are free of defects in workmanship and materials, during the applicable warranty period set forth below.

Warranty period set forth below for *Bulldog, Chadwick, Essentials Work Chairs, Generation by Knoll, Life, Moment, Open Up, RPM, Sapper* and *SoHo* seating is for 24-hour, 7 days a week, multi shift use.

Should any failure to conform with this limited warranty appear to a Product listed below during the applicable warranty period from the date of shipment, Seller shall, upon prompt written notice, repair or replace, at its option and costs, the affected part or parts.

Product and Period of Warranty

Lifetime: AutoStrada, Calibre, Crinion Open Table, Currents, Dividends Horizon, Equity, Morrison, Reff laminate, *Series 2 Storage, Template* and other non-wood components (except cascade edge worksurfaces, operational parts, controls, electrical, *Series 2* Veneer Front Storage, special or custom products, see below)

10 Years: AutoStrada, Crinion Open Table, Reff wood components, *Series 2* Veneer Front Storage, *Wood Casegoods (Magnusson, The Graham Collection), Interaction* tables (except height adjustment mechanisms for *Counterforce,* crank-adjustable, and split-top tables and worksurfaces, see below), *Reuter* overheads, *Reuter* vertical storage, *Bulldog, Chadwick, Essentials Work Chairs, Generation by Knoll, Life, Moment, RPM* and *Sapper* seating structural and operational parts, controls, casters, pneumatic cylinders, seat and back suspension material (except seating upholstery, finishes and labor, wood casegoods upholstered surfaces, see below)

5 Years: Operational parts, controls, electrical (except light ballasts and bulbs, see below), cascade edge worksurfaces, special or custom product, wood veneer products, *Currents* handcrank, *Interaction Counterforce, Interaction* crank-adjustable, and split-top mechanisms, *KnollStudio, KnollExtra* adjustable keyboard supports, VDT carousel, monitor platform, equipment storage drawers and all universal storage drawers, *Open Up and SoHo* seating structural and operational parts, controls, pneumatic cylinders (except seating upholstery, finishes and labor, see below)

3 Years: Upholstery, finishes and labor to repair the following chairs: *Bulldog, Chadwick, Essentials Work Chairs, Generation by Knoll, Life, Moment, Open Up, RPM, Sapper* and *SoHo.*

2 Years: All other *KnollExtra* product

1 Year: Light ballasts and bulbs, seating upholstered armpads and soft armpads, wood casegoods upholstered surfaces.

This warranty does not apply to:

- Damage caused by a carrier other than the Seller.
- Normal wear and tear or acts or omissions of parties other than Seller (including user modification).
- COM or other third party materials applied to Products.
- Products not installed by or under the auspices of a certified dealer of Seller.
- Dramatic temperature variations or exposure to unusual conditions.
- Except as specifically noted above, textiles and upholstery supplied by *KnollTextiles* (consult current *KnollTextiles* price list for applicable warranty).

Natural variations occurring in wood, marble, and leather shall not be considered defects, and the Seller does not guarantee the colorfastness or matching of the colors, grains or textures, or surface hardness of such materials. The Seller also does not guarantee the colorfastness of fiberglass panel surfaces.

THE EXPRESS WARRANTIES CONTAINED HEREIN ARE IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTIES OF MERCHANTABILITY AND FITNESS FOR PARTICULAR PURPOSE AND ALL OTHER WARRANTIES ARISING FROM COURSE OF DEALING OR USAGE OF TRADE.

The remedies provided above are the Purchaser's sole remedies for any failure of Seller to comply with its obligations regarding the workmanship of its Products. Correction of any nonconformity in the manner and for the period of time provided shall constitute complete fulfillment of all liabilities of Seller, with respect to or arising out of the Product furnished hereunder.

Delay/Force Majeure

Seller shall not be liable for failure to perform or for delay in performance due to fire, flood, strike or other labor difficulty, act of God, act of any governmental authority or of the Purchaser, riot, embargo, fuel or energy shortage, wrecks or delay in transportation, inability to obtain necessary labor, materials or manufacturing facilities from usual sources or failure of suppliers to meet their contractual obligations, or due to any cause beyond its reasonable control. If any such event occurs, Seller may extend delivery dates by a period of time necessary to overcome the effect of such delay, allocate available Product or cancel any purchase order.

Compliance with Law

PURCHASER IS SOLELY RESPONSIBLE FOR COMPLIANCE WITH ALL APPLICABLE FEDERAL, STATE AND LOCAL LAWS, ORDINANCES, REGULATIONS, RULES AND STANDARDS RELATING TO THE INSTALLATION, MAINTENANCE, USE AND OPERATION OF THE PRODUCTS.

Patents

Subject to the following provisions, Seller shall, at its own expense, defend or, at its option, settle any claim, suit or proceeding brought against the Purchaser, and/or its vendees, mediate and immediate, so far as based on an allegation that any Product or any part thereof furnished hereunder constitutes a direct or a contributory infringement of any claim of any patent of the United States or Canada. This obligation shall be effective only if Purchaser shall have made all payments then due hereunder and if Seller is notified promptly in writing and given authority, information and assistance for the defense of said claim, suit or proceeding. Seller shall pay all damages and costs awarded in such suit or proceedings so defended.

The foregoing indemnity does not apply to the following:

- Products supplied according to a design other than that of Seller, and which is required by the Purchaser.
- Combination of the Product with another product not furnished hereunder unless Seller is a contributory infringer.
- Any settlements of a suit or proceeding made without Seller's written consent.

Limitations of Liability

SELLER, ITS CONTRACTORS, AUTHORIZED DEALERS AND SUBCONTRACTORS OR SUPPLIERS OF ANY TIER SHALL NOT BE LIABLE TO PURCHASER FOR ANY SPECIAL, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING FROM A BREACH OF THIS AGREEMENT.

Purchaser's remedies set forth herein are exclusive and the liability of Seller with respect to the breach of this agreement or any contract entered into between the parties pursuant hereto shall not exceed the price of the Product or part on which such liability is based.

General Ordering Information

The Products
This guide encompasses all standard products for this product group.

Sizes
Dimensions listed in this guide are indicated as:
H = height
W = width
D = depth
Dia. = diameter
Rad. = radius

Pricing
All prices shown are list.

How to Order
Select pattern numbers and quantities required for your complete installation. Product questions can be addressed in the specific sections of this guide or by contacting your sales representative or customer resource representative at 1-800-343-5665.

Next, select options (if required), along with colors and finishes appropriate to each product. Reference the Finishes and Fabrics pages for color designations.

On large installations, an item's "designated area" can be specified to assist in product organization and handling.

To expedite complete / correct entry of your order, be certain all pattern numbers, quantities, colors and area identifications are completely specified. Also, include complete purchase order numbers, bill-to and ship-to addresses, a contact name and specific factory shipping dates required.

Mail all orders to:
Knoll, Inc.
1235 Water Street
East Greenville, PA 18041
Attention: Order Entry

Once your order is entered at Knoll, an acknowledgment will be mailed to you. You will be advised of your scheduled shipping date within five days of the original acknowledgment. If it is necessary to revise your order, please contact your customer resource representative.

Sustainability Statement

Sustainable design is a key component of Knoll's environmental focus. Our commitment to social responsibility and a healthy environment has prompted us to further articulate our longstanding environmental programs and, with encouragement and support from our colleagues in the industry, we have re-energized our focus on such "green" initiatives as life cycle analysis and LEED™ certification. Knoll is proud to have contributed to projects that have received LEED certification from the U.S. Green Building Council.

For the latest information on Knoll products that help our customers achieve LEED certification, log on to knoll.com, click on "About Knoll" and then "Environmental Focus."
