

Handkerchief Chair  
Massimo and Lella Vignelli

**HANDKERCHIEF CHAIR** Vignelli Associates introduces design elegance to the high density stacking chair. Fluid in form, the Handkerchief chair evokes the light, soft contours of a handkerchief floating through the air. The graciously scaled, ergonomically sculpted shell offers spacious comfort and ample support. With the offering of arm and seatpad options, the chair fits easily into a variety of offices, conference rooms and dining areas, making it a welcome addition to almost any environment. An optional tablet, ganging mechanism and dolly further enhance the chair's versatility.

**MASSIMO AND LELLA VIGNELLI** Massimo Vignelli and his wife, Lella, have collaborated on myriad projects incorporating their industrial, furniture and graphic design talents. Their New York firm, Vignelli Associates, applies a Modernist aesthetic to every assignment, polishing each artifact to a glossy finish that reflects clarity, beauty and functionality. The corporate identity they created for Knoll in 1972 made them famous worldwide.
