

A3 Pedestal  
Asymptote

**A3 PEDESTAL** Designed by Hani Rashid and Lise Anne Couture of New York-based Asymptote Architecture, the A3 pedestal provides practical storage capabilities for the home office. The fluid design of the pedestal lightens any rectilinear space with a lively topography. Available in two different configurations, sliding drawer or shelf, and a variety of pop-inspired colors, the A3 pedestal brings beauty and practicality to the home and home office.

**HANI RASHID AND LISE ANNE COUTURE** Hani Rashid and Lise Anne Couture, founders and principals of Asymptote Architecture, have received international acclaim for their innovative work and contribution to design excellence. Recognized as leading practitioners and academics of their generation, Asymptote's projects are being realized on various scales, including that of urban planning, buildings, interiors, product design and multi-media installations.
