

# GMAC Financial Services

## Sector Focus: Finance

GMAC is one of the world's largest financial services companies, with business lines in automotive finance, commercial and residential mortgages, and insurance. Part of the General Motors Group, GMAC recently relocated its United Kingdom office to a new 20,000 square foot space in St. James Square, London to accommodate growth within the business. For this project, GMAC worked closely with architects JAC to find the furniture solutions needed for the new office. JAC and GMAC selected the Knoll Scope system to meet their requirements for the open plan and private offices.

A major concern for GMAC was the fact that the new space did not have raised service flooring. An ability to manage their cabling and data requirements was of utmost importance, as was flexibility. The Scope spine wall was selected for its ability to handle large amounts of data and power cabling. Meanwhile, the comprehensive array of components and finishes within the Scope range provided the flexibility required to create GMAC's ideal work environment. SMaRT Gold certified Life chairs complete the office, while classic pieces from KnollStudio®, including the Barcelona® chair by Ludwig Mies van der Rohe, adorn the reception area.
