

From healthcare to hospitality, corporate to residential, KnollTextiles can provide the customized design solutions for your special projects. We have collaborated with interior designers internationally to create custom upholstery, panel, wallcovering, drapery, bedding, privacy curtains and hard surface Imago products.

Expert Team of Designers

We are dedicated to developing and sourcing unique options for our customers. Our expertise in color, weave structures, finishes, graphics and layout, combined with our global resources, allows us to fully service the design community.

Custom Capabilities

The KnollTextiles custom department possesses the capabilities to create special colors of standard line products, reengineer patterns in terms of scale or fiber content, transform original artwork or logos into woven or printed textiles, and source unique materials to meet the specified application or project budget.

We also provide custom options for our Imago hard surface material, including custom colors, textures and patterns, as well as digital imagery to personalize your graphics or logos.

Custom orders are subject to specific minimums and special terms. Please contact your KnollTextiles Sales Representative for more information.
