

Sustainability Overview

Template™

Template is a storage system that consolidates a range of storage options, defines space in the open plan environment and creates efficient open plan and private offices.

Template is manufactured using clean technology in an ISO 14001 certified building in Muskegon, MI

Template and LEED®

Knoll is aligned with the U.S. Green Building Council and can help companies, healthcare organizations and educational institutions achieve Leadership in Energy and Environmental Design (LEED®) workplace certification.

Template and GREENGUARD®

Template is GREENGUARD Indoor Air Quality Certified® and can contribute to LEED® certification.

Template and FSC

The wood material used to construct Template is FSC chain-of-custody-certified when using laminate or North American veneer surfaces.

Template and SMaRT®

Template is rated SMaRT® Sustainable Gold.

VOC-Free Finishes

Powder coating on steel virtually free of Volatile Organic Compounds (VOC)

Recycled Fabric

Fabric inserts and screens are available in 100% recycled content fabric

Recycled Steel

Template uses 20–24% recycled content steel

VOC-Free Adhesives

Water-based adhesives used to adhere laminate and veneer to substrate are 99% VOC-free

Recycled Aluminum

Template uses 15-20% recycled content aluminum

Techwood Veneers

AutoStrada Techwood veneers are based on a reconstituted veneer made from wood grown in well-managed forests, providing substantially greater yield than natural wood veneers

Recycled Particleboard

Template uses 100% recycled content particleboard

FSC-Certified

Wood components are standard with FSC-certified materials
