Reception
Meeting Spaces

Knoll
Throughout our history, Knoll has defined and redefined the private office, endeavoring to design and produce furnishings appropriate to contemporary architecture and suited to the changing needs of today’s workplace.

Reff Profiles delivers a progressive architectural presence, with private office efficiency in mind, while continuing a tradition of wood excellence, planning flexibility and breadth of options as well a commitment to sustainable design.

Extending the Reff portfolio of workplace solutions, Reff Profiles offers a greater degree of scalability, a broader range of aesthetic options and a higher level of personalization to better support today’s workstyles across a broad spectrum of client needs.

Reff Profiles enhances a proven product platform to better integrate into the overall architectural space, support multiple work modes in a single office and creates more flexible and efficient workspaces that can span from the private office to reception and administrative support areas as well as to the open plan and meeting spaces.
Reff Profiles refines the traditional storage-based office with workplace settings that are sleek, yet comfortable. Celebrating the juxtaposition of understated, highly crafted veneer worksurfaces and overhead storage components with glass or laminate, Reff Profiles balances functional and aesthetic needs.

The result: distinguished administrative and reception spaces as well as tried and true office configurations that include freestanding or peninsula desks.
Larger offices combine focused, mentoring and informal work areas.

Private offices may be used as meeting places.

Perimeter offices have glass fronts to transmit light to the interior workspaces.

Shared offices serve as flexible touchdown spaces or paralegal support.

Larger offices combine focused, mentoring and informal work areas.

Convenient administrative support and general filing.
New Private Office Typologies

Reff Profiles expands the vocabulary for private offices with innovative planning ideas that layer horizontal worksurfaces, offer new proportions for desks or leverage three-quarter-high floorstanding storage.

These seemingly streamlined offices can be individually tailored, yet remain part of a greater organizational whole. The result: a visual awareness that defers to architectural space and provides a forward-thinking sensibility.
Lower horizon open plan areas increase the visibility of private offices.

Perimeter offices have glass fronts to transmit light to the interior workspaces.

Cafe areas provide opportunities for casual collaboration.

Casual lounge areas facilitate social activity and impromptu conversations.
Three Ways to Plan

Floorstanding Planning

Use traditional components to create storage intensive offices
**Transitional Planning**

Use peninsula worksurfaces to create layered worksurface areas

---

**Freestanding Planning**

Combine low storage with legs and layered worksurfaces for a light, airy aesthetic and enhanced dimensionality
A Solution for Every Private Office

Whether it’s a distinguished office, the refined expression of place; a classic office, designed to withstand the test of time; an efficient office, streamlined to the essence of what matters functionally; or a progressive office, which supports new workstyles and a new spirit of work, Reff Profiles supports a range of planning styles to deliver a refined solution for image conscious offices.
Refined wood detailing and accessible storage options create a distinguished private office that delivers convenient access to materials and personal items. A light-scale, freestanding table supports the fluid movement from focused work to group work.

Medium Oak Techwood with Outline pulls in painted Silver; Overhead storage in Folkstone Grey laminate
From visually grounded to visually light, Reff Profiles offers a wide range of components. Here, a floorstanding work wall anchors a robust distinguished office.

Old English Walnut veneer with Bar pulls in Polished Chrome; Task Panel tool rail and trim in Anodized Polished
A freestanding table desk paired with light, efficient storage elements creates a tailored private office environment.

Grigio veneer; Back-painted Black glass with Medium Grey frame; End frame and Tool rail in Anodized Satin
Refined wood detailing delivers a clean, classic aesthetic that is designed to withstand the test of time.

Medium Teak techwood with Integral "J" pulls; End frame in Anodized Satin
A slim workwall featuring a variety of efficient and accessible storage elements helps transmit more light to interior spaces.

Maple techwood; Back-painted White glass with Anodized Polished frame; Tool rail in Anodized Polished finish; Cylinder pulls in Polished Chrome
An elegant combination of aesthetic options, including veneer and back painted glass, complements a classic peninsula worksurface and workwall layout.

Medium Teak techwood with open frame leg, task panel frame and tool rail in Anodized Polished. Pulls plated in Polished Chrome.
Smaller, lighter scale components combine to deliver a progressive aesthetic at a lower price point.

Iced Sycamore techwood with Tab pulls in Polished Chrome; Bright White laminate; back-painted Medium Grey glass and frame in Anodized Polished
Selective use of refined, veneer components add visual interest to an open, cost effective private office.

Bright White laminate; Medium Oak Techwood; Back-painted Medium Grey glass with Grommet pulls
Shared private office environments can be created using a small kit of parts for greater planning efficiency.

Grigio veneer with Cylinder pulls in Medium Grey; Open frame legs in painted Medium Grey; Folkstone Grey laminate with Grommet pulls
Shared private office environments foster teamwork and collaboration and allow for greater utilization of real estate.

Iced Sycamore Techwood; Open frame legs, task panel frame and tool rail in Anodized Satin; Outline pulls in Satin Nickel
Marked by the judicious interplay of table desk, lower storage and task panels, the efficient office is streamlined to the essence of what matters.

Medium Teak techwood; Folkstone Grey laminate; Task panel frame and tool rail in Anodized Satin; Textured White painted table base
An efficient private office featuring only a table desk and credenza offers a logical, affordable solution for budget sensitive organizations.

Grigio veneer; Medium Grey laminate; Open frame leg in Anodized Satin
Solutions for Administrative and Reception Areas

Reff Profiles is detailed and scaled to transition from private offices to open plan administrative and reception areas, leveraging a common planning horizon as well as a unified finishes, edge and hardware details. Such components as transaction cabinets and specialized wall cabinets offer an efficient alternate to millwork. These standardized components can be assembled in one configuration and then reassembled in another configuration as needs change: from compact reception stations to full service administrative support environments, with data and electrical components specified or retrofitted as needed.
An administrative support center features side access transaction and signature administrative cabinet, which eases mail sorting and banker box deliveries.

Medium Walnut techwood; Folkstone Grey laminate, Bar pulls in Polished Chrome
An efficient dual-user layout protects accessibility to sensitive file storage while providing immediate access to business technology support tools.

Iced Sycamore techwood; Back-painted White glass; Bright White laminate; Accent top in solid core Arctic White; Bar pulls in Polished Chrome
Reception station transaction tops and glass-recessed infill panels may be readily customized with branded materials and graphics to express a corporate image.

Maple Techwood; Folkstone Grey back painted glass; Folkstone Grey laminate; Bar pulls in Satin Nickel
A combination of aesthetic options — including veneer from an extensive selection of natural woods and Techwoods — creates an elegant and efficient reception station.

Old English Walnut veneer; Folkstone Grey laminate; Outline pulls in Polished Chrome
Meeting space components are the perfect addition to Reff Profiles private office, open plan and administrative/reception furnishings. Whether specified in a private office or in an adjacent enclosed or open space, Meeting Space elements add function and integrate with ease into the environment. Edge profiles, hardware, finishes and component sizes all coordinate with existing Reff Profiles components. A series of freestanding tables mix and match in any space; purposefully designed storage elements add utility while blending into the space; technology is handled seamlessly via numerous component options. As expected Meeting Spaces components are modular and reconfigurable to meet the ever-changing office environment.
Meeting Space

An impromptu meeting space with height adjustable table; shown at standing height, readily adjustable to desk height.

Grigio premium techwood veneer with Medium Grey base. Panels in Reflect Ice upholstery.
Meeting Space

A collaborative area for team meetings or mini conferences in an aspirational private office setting, includes abundant multimedia wall storage capability.

Chalk Oak veneer for bookcases and round table with Medium Grey column legs.
A wall storage intensive Higher Education private office allowing the flexibility to convert from focused work to team work using a moveable table.

Cherry techwood veneer with Medium Grey painted legs with Medium Grey bar pulls.
Meeting Space

A war room with 2x4 leg table with multiple electrical and data set up options; suitable for short to midterm contract work.

Light Oak natural veneer, cylinder pulls and power center grommet in Polished Chrome.
A media enclave enables collaboration through engagement with technology.

Medium Teak techwood with outline pulls in Polished Chrome.
A conference room features a table with 4x4 legs, offering plenty of power and media outlet capabilities.

Medium Cherry veneer with power center grommets and bar pulls in Polished Chrome.

Scalability

Reff Profiles supports a wide range of planning styles, from classic offices to new private office planning typologies.

Reff Profiles components are scaled and detailed to transition from the private office to open plan workspaces.

Freestanding desks, credenzas and cabinets are light in scale and are easy to plan and reconfigure.

Components address a broad range of price points to accommodate a variety of budgets and aesthetic needs.

New enhancements are compatible with previously installed Reff components, ensuring the long-term viability of the furniture investment.
Aesthetic Diversity

Reff Profiles offers a broad range of aesthetic options selected to reflect contemporary work styles. With strong horizontal lines and visual lightness, Reff Profiles focuses on the combination of wood and other materials, including glass, aluminum and painted components.

A broad palette of veneer finishes further enhance Reff Profiles’ capabilities in wood. Desks and tops can be supported by a series of legs, column and end panel options.

Six pull options are available in two metallic and all core painted finishes, providing clean lines and simple architectural forms.
Reff Profiles provides easy access to technology and organizational efficiency.

Modular access ports deliver convenient desktop access to power and data. Power and data cables are managed discretely via grommets, powered grommets, a universal cable curtain, removable modesty panels and open back storage elements.

A pull out printer drawer and CPU storage cubby accommodate essential business equipment while keeping it convenient to the user.

High performance task panels conceal and manage cables and accept tool rails to optimize wall functionality.

New overhead cabinets, desktop towers, wall-mounted open shelves and cubbies offer a variety of open and enclosed storage options.
Planning with Reff Profiles

Ideas for a Compact Office

8’ x 8’ Office
Table desk with low-credenza storage
- 72” low credenza with file drawer
- 72” x 30” table with open frame legs
- Generation by Knoll chair

8’ x 8’ Office
Table desk with credenza and overhead storage
- 72” progressive overhead with sliding glass door
- 90” low credenza with two file drawers
- 72” x 30” table, open frame leg, partial modesty with wire management
- Generation by Knoll chair

8’ x 10’ Office
Workwall with freestanding table
- 60” L-shelf overhead
- 60” open low credenza (2)
- 60” task panel with tackable fabric inserts and tool rail
- 60” task panel with tool rail between upper marker board and tackable fabric insert
- 54” x 36” sliding table
- Chadwick chair
- Sprite side chair

8’ x 10’ Office
Workwall with dual peninsula worksurfaces
- 90” wide double high letter depth overhead with glass doors and cubbies
- 30” wide ¾-height equipment cabinet, 30” wide open-file lateral, 30” wide ¾ bookcase with 90” x 24” credenza top
- 84” x 24” worksurface top with simple standoff
- Legal wide box-box-file pedestal
- 66” x 30” peninsula with open frame leg and power center
- 48” wide and 42” wide task panels with cable curtain, tool rail and tackable fabric inserts
- Life chair
Ideas for a Compact Office

10’ x 10’ Office
Table desk with low credenza
- 60” open low credenza (2)
- 60” L-shelf overhead (3)
- Florence Knoll table desk
- Life chair
- Brno side chairs

10’ x 10’ Office
Workwall with dual peninsula worksurfaces
- 60” progressive overhead with sliding glass door and open end (2)
- 60” low credenza with laminate sliding door (2)
- 30” fabric upholstered cushion
- 36” desktop cubby
- 72” x 20” and 72” x 30” peninsula with open frame legs
- Partial modesty and wire management (2)
- 60” task panel and accessory shelf
- Generation by Knoll chair
- MultiGeneration by Knoll chair

10’ x 10’ Office
“C”-shaped workstation
- 60” progressive overhead with sliding glass door and open end
- 24” wardrobe/file-file cabinet
- 60” x 24” table with open frame leg
- 72” x 30” table, open frame leg, partial modesty and wire management
- 72” low credenza with sliding door
- 60” wall mounted cubby
- Generation by Knoll chair

10’ x 10’ Office
Compact workwall with peninsula desk
- 60” wide single high letter depth overhead with cubbies
- 36” wide wardrobe/bookcase combo cabinet
- 30” wide ¾-height equipment cabinet and 30” wide box-file lateral with 60” x 20” credenza top
- 72” x 30” peninsula with power center grommet
- Mobile pedestal
- 60” wide task panel with fabric inserts
- Life chair
Ideas for a Standard Office

10' x 12' Office
Workwall with ¾-height storage and peninsula worksurface
- 90° single high letter depth overhead with cubby (3)
- 36° wide ¾-height box-file lateral (2), 36° wide ¾-height equipment cabinet, 36° ¾ access bookcase
- 72° x 24° credenza top with cable access
- 72° x 24° credenza top, regular
- 84° x 30° peninsula, open frame leg and power center grommet
- 48° task panel with tackable fabric inserts and tool rail
- 42° task panel with tool rail between upper marker board and tackable fabric insert
- Life chair
- Moment side chair

10' x 12' Office
Workwall with stand-alone desk
- 60° L-shelf overhead (2)
- 60° open low credenza
- 60° low credenza with sliding glass door and standard grommet pull
- 18°-wide cabinet with internal file-file / shelf configuration
- 60° task panel with tackable fabric over veneer option (2)
- 84° x 30° table with 1-1/2° top, open frame legs with optional inserts and partial modesty
- Generation by Knoll chair
- Tubular Brno side chair

10' x 12' Office
Compact “C”-shaped Workstation
- 90° progressive overhead with sliding glass door, standard grommet pull and open ends
- Legal width file-file pedestal with tab pulls
- Legal width box-box-file pedestal with tab pulls
- 90° x 24° credenza top and L-base support
- 72° open low credenza
- 72° x 30° table with open frame legs and partial modesty
- Generation by Knoll chair
- Moment side chairs

10' x 12' Office
Workwall with freestanding table and return credenza
- 96° wide double high letter depth open overhead with center gables (2)
- 36° cabinet with hinged doors / file drawers
- 96° x 24° credenza top and stiffener with L-base and file-file lateral and removable modesty panel.
- 84° x 24° top with box-box-file pedestal and file-file lateral
- 48° task panel with cable curtain, tool rail and tackable fabric inserts (2)
- 42° soft square table
- Life chair
- Flat Bar Brno side chairs
Ideas for a Standard Office

12' x 12' Office
Workwall with peninsula and credenza worksurfaces
- 96” single high letter depth overhead with hinged glass doors and cubbies
- 30” ¾-height box-file lateral (2), 30” ¾-height equipment cabinet with bar pulls
- 90” x 24” credenza top
- 36” file-file lateral
- 36” x 24” top
- 96” x 24” credenza top, simple standoff, worksurface stiffener and top-to-cabinet bracket
- 60” x 30” peninsula top with Reverse L-legs
- 48” task panel with cable curtain, tool rail and tackable fabric inserts (2)
- 36” task panel with tool rail between upper marker board and tackable fabric insert
- Generation by Knoll chair
- Saarinen side chairs

12' x 12' Office
“C”-shaped workstation
- 36” double high letter depth overheads (2), 36” open overhead with center gable
- 36” hinged door/file-file cabinet
- Legal width file-file pedestal
- Legal width box-box-file pedestal
- 108” x 24” credenza top with L-base support and top stiffener
- 48” x 24” bridge top
- 90” x 36” table with open frame legs with optional inserts and half height modesty
- 54” task panel with cable curtain, tool rail and tackable fabric inserts (2)
- Saarinen Executive chair
- SM side chairs

12’ x 15’ Office
Workwall with peninsula top
- 36” double high letter depth overheads, glass hinged doors, exposed cubbies (3)
- 36” wardrobe/bookcase combo cabinet
- 72” high Legal width wardrobe cabinet
- 36” ¾-height box-file lateral (2), 36” ¾-height equipment cabinet, 108” x 24” x 1” thick credenza top
- 84” x 30” peninsula top with top stiffener, soft rectangular legs, power center grommet
- 54” task panel with tackable fabric inserts and tool rail (2)
- Life chair
- Saarinen side chairs

12’ x 15’ Office
Workwall with freestanding desk
- 36” asymmetrical desktop tower, letter depth with glass shelves and touch latch
- 96” double high letter depth overhead with hinged doors and exposed cubby
- 36” single 72” high cabinet with hinged doors above file-file drawers
- 36” file-file lateral
- Legal width pedestal with box-box-file drawers
- Legal width pedestal with file-file drawers
- 36” x 24” x 1-1/2” top
- 96” x 24” x 1-1/2” credenza top and stiffener
- Removable modesty panel
- 96” task panel with cable curtain, tool rail and tackable fabric inserts above, Forbo™ below.
- 84” x 30” desk with recessed modesty
- Life chair
- Tubular Brno side chairs
8' x 8' Office
Touch-down workwall
- 60” L-shelf overhead (2)
- 90” progressive overhead with sliding glass doors
- 36” Round Column Base table
- Saarinen side chair

10’ x 12’ Office
Two-person workwall with peninsula desk
- 72” L-shelf overhead (2)
- 36” file-file lateral (2)
- 72” x 24” credenza top (2)
- L-base support (2)
- 60” x 24” peninsula top with open frame leg (2)
- 48” desk screen
- Mobile pedestal (2)
- Life chairs

10’ x 12’ Office
Two person workwall with dual peninsula desks
- Single high, letter depth overheads with hinged doors and exposed cubby (2)
- 36” ¾-height equipment cabinet (2), 36” ¾-height box-file lateral (2) and 72” x 24” x 1” thick credenza top (2)
- 90” x 30” peninsula top with open frame leg, top stiffeners (2) and power center (2)
- 72” task panel with tool rail and fabric inserts (2), 14” pencil shelf accessory (2)
- Generation by Knoll chairs

12’ x 16’ Office
Touch-down workwall with freestanding table desk
- 90” L-shelf overhead (2)
- 72” open low credenza (2)
- 90” fabric tackboard
- 54” task panel with tool rail between upper markerboard insert and lower fabric insert
- 54” x 36” soft rectangular table
- MultiGeneration by Knoll side chairs
Ideas for Administrative Stations

16’ x 13’ Administrative Station and Storage Wall
- 96” admin full return (1-LH, 1-RH)
- 96” admin desk single wide (2)
- 96” flush infill panel (2)
- 96” transaction top (2)
- 30” admin gable support (1-LH, 1-RH)
- 66” shared return two sides
- 30” admin end support (1-LH, 1-RH)
- 48” admin tackboard x 12’ h (4)
- 36” file-file lateral (2)
- Storage Wall:
  + 36” hinged door – 4 file cabinet x 86’ h (2)
  + 96” hinged door overhead with concealed cubbies
  + 30” file-file lateral (2)
  + 36” hinged door access pedestal
  + 96” x 24” credenza top
  + 96” tackboard H1 height
- Generation by Knoll chairs

17½’ x 8½’ Administrative Station and Storage Wall
- 78” bridge return (1-LH, 1-RH)
- 20” admin gable support (1-LH, 1-RH)
- 84” admin desk single wide (2)
- 84” transaction top (2)
- 84” accent top (2)
- 84” recessed infill panel – Type A (2)
- 30” admin gable support (1-LH, 1-RH)
- Legal wide file-file pedestal (2)
- 42” admin tackboard x 12’ h (4)
- Storage Wall:
  + 33” admin storage cabinet (1-LH, 1-RH)
  + 72” hinged door overhead with concealed cubbies (2)
  + 36” file-file lateral (4)
  + 72” x 24” credenza top (2)
  + 72” tackboard H1 height (2)
- Life chairs

15’ x 12’ Administrative Station and Storage Wall
- 90” admin desk double wide (1-LH, 1-RH)
- 90” transaction top (2)
- 90” flush infill panel (2)
- 84” bridge return panel (1-LH, 1-RH)
- 16” admin mail sorter cabinet with gable (1-LH, 1-RH)
- 42” & 48” admin tackboards x 12” h (2)
- Technology island peninsula:
  + 62” x 40” peninsula island top with end gable
  + 30” ¾ height hinged door access pedestal (4)
- Storage wall:
  + 36” hinged door, 4-file cabinet x 86” h (5)
- Life chairs

17½’ x 8½’ Administrative Station and Storage Wall
- 72” admin desk double wide (1-LH, 1-RH)
- 72” recessed infill panel – Type A (2)
- 72” transaction top (2)
- 30” admin gable support (1-LH, 1-RH)
- Legal wide file-file pedestal (2)
- 36” x 48” x 1 ½” work surface
- 72” admin tackboard (2)
- Storage Wall:
  + 33” admin storage cabinet (1-LH, 1-RH)
  + 72” hinged door overhead with concealed cubbies (2)
  + 36” file-file lateral (2)
  + Legal wide box-box-file pedestal (2)
  + 72” x 24” credenza top (2)
  + 72” tackboard H1 height (2)
- Generation by Knoll chairs
Ideas for Reception Stations

13’ x 12’ Administrative Station and Storage Wall
- 90” admin desk, single wide
- 90” recessed infill panel – Type A
- 90” transaction top
- 66” bridge return (LH)
- 16” admin transaction cabinet with tray and gable (LH)
- 84” admin full return panel (RH)
- 20” admin gable support (RH)
- Legal wide box-box-file pedestal
- 90” admin tackboard x 12”h
- Storage wall:
  - 33” admin storage cabinet (1-LH, 1-RH)
  - 90” hinged door overhead with concealed cubbies
  - 30” file-file lateral (2)
  - 30” hinged door access pedestal
  - 90” x 24” x 1 ½ “ credenza top
  - 90” tackboard H1 height
- Generation by Knoll chairs

12’ x 7½’ Reception Station and File Storage
- 72” admin desk double wide (1-LH, 1-RH)
- 72” flush infill panel – Type A (2)
- 72” transaction top (2)
- 30” admin gable support (1-LH, 1-RH)
- Legal wide box-box-file pedestal (2)
- 72” admin tackboard (2)
- Storage wall:
  - 36” 4-file cabinet (4)
- Generation by Knoll chairs

7½’ x 6’ Reception Station
- 84” admin desk single wide
- 84” flush infill panel – Type A
- 84” transaction top
- 30” admin gable support (LH)
- 72” admin full return panel (RH)
- 20” admin gable support (RH)
- Legal wide box-box-file pedestal
- Legal wide file-file pedestal
- 42” admin tackboard x 12”h (2)
- Generation by Knoll chair

8’ x 6½’ Reception Station
- 96” admin desk single wide
- 96” recessed infill panel – Type A
- 96” transaction top
- 78” admin full return panel (1-LH, 1-RH)
- 20” admin gable support (1-LH, 1-RH)
- Legal wide box-box-file pedestal
- Legal wide file-file pedestal
- 48” admin tackboard x 12”h (2)
- Generation by Knoll chair
Ideas for Meeting Spaces

Open Plan Common Area
Meeting Spaces components:
- 42" round height adjustable table
- Gigi barstools

10’x10’ Refuge
- 72” low credenza with sliding door
- 72” x H4 tackboard
- 42” soft square sliding table
- Generation by Knoll chairs

10’x10’ Media Enclave
- 24” x 24” desk-height hinged door pedestals (1 LH, 1 RH)
- 72” x 48” wall-mounted media enclave table with 4x4 legs and power center
- 48” hinged door modesty
- Desktop outlet for power center
- Cable basket (under table)
- ReGeneration by Knoll chairs

12’x15’ Enclave
- 90” low credenza with sliding doors
- 72” x H3 tackboard
- 96” x 48” racetrack table with column legs
- Generation by Knoll chairs
Ideas for Meeting Spaces

15’x18’ Private Office
Meeting Spaces components:
- 90" x 24" credenza (build-to-spec)
- 72" x 36" rectilinear table with L-legs
- Moment side chairs
- Life chair

15’x12’ Private Office
Workwall components:
- 36" x 56" open desktop towers (3)
- 36" open double high overhead with center gable
- 36" file-file pedestal (2)
- 36" desk height equipment pedestal
- 6" desk height pedestal filler (2)
- 108" x 24" worksurface
- 36" x 24" worksurface

Meeting Spaces components:
- 72" x 36" rectilinear table with cylinder legs and castors
- Generation by Knoll chair
- MultiGeneration by Knoll chairs

15½’x22½’ Private Office
Meeting Spaces components:
- 30" x 86" ganging bookcases with center gable (5)
- 30" x 32" ganging stack-on units with center gable (5)
- 118" shoulder units
- 48" round table with column legs
- Moment side chairs
- Divina sofa
- Life chair

15’x13’ War Room
- 72" L-shelf (8)
- 96" x 48" 4x4 leg table with power center grommet
- Electrical outlet (under table)
- Cables basket (under table)
- Vertical wire manager
- Generation by Knoll chairs
Ideas for Meeting Spaces

20'x15' Multifunction Room
- 36" x 86" ganging bookcase with center gable (2)
- 36" x 86" bookcase with center gable (2)
- 18" periodical display shelves (4)
- 84" x 24" pre-configured credenza type B
- 72" x H4 tackboard
- 96" x 48" 2x4 leg table with drop in electrical cutouts
- 3+3 drop-in electrical unit (2)
- Cables basket (under table)
- Vertical wire manager
- Life chairs

20'x15' Multifunction Room
- 84" x 24" service-height credenza with waste/recycle pedestals and 4 box drawer lateral
- 84" x 24" service-height credenza with hinged-door pedestals
- 120" x 60" 4x4 leg table with power center grommets
- Flush center support covers (2)
- Desktop outlets for power center (4)
- Cable baskets (under table)
- Life chairs
Brian Graham has more than 25 years of experience in a wide range of design areas. A native of Southern California, Graham is an advocate of the idea that good, thoughtful design can make a positive contribution to the quality of the built environment.

In 1984, Graham joined Gensler and Associates Architects in the firm’s Los Angeles office, where creativity with innovative, budget-conscious designs quickly established his reputation among clients and the design community. Relocating within Gensler to the firm’s San Francisco headquarters in 1989, Graham was appointed Senior Associate and assumed design responsibilities for many of the firm’s retail, showroom and product design projects.

Graham partnered with John L. Thiele, AIA, in 1993 to form Thiele and Graham Design & Architecture. For the next six years, the duo developed and executed a client-centered approach to architecture, interior design and product design with a diverse clientele in high technology, legal and professional service industries.

In 1999, Graham established his namesake studio in San Francisco, Graham Design, to provide a comprehensive approach to the design, development and marketing of furniture, accessories, lighting and related products.

Resolute in a belief that design can be an effective strategic business tool, Graham utilizes his background as an interior designer to create innovative, architectural furniture and product solutions that have been recognized for design excellence and quality.

Graham is perhaps best known for his wood casegood designs, including his namesake collection for Knoll, introduced in 2007. His work has been recognized with awards from many prestigious design organizations.

Brian Graham’s work for Knoll combines design, craftsmanship and function in the best of the Knoll tradition. “Because I am an interior designer by training,” said Graham, “I consider the way in which my furniture will be specified and used to be as important as the object itself, which should serve in support of a designer’s total vision for an interior environment.”
