

CHIP Barstool  
Antti Kotilainen

**CHIP BARSTOOL** With the same clean, graceful lines that distinguish the innovative and spirited CHIP chair, Antti Kotilainen's CHIP barstool is a deserving winner of the Good Design® Award from the Chicago Athenaeum: Museum of Architecture and Design. The form-pressed thin plywood sheets on a steel frame results in a physically and visually light aesthetic. Its distinct and harmonious lines enhance any interior space, whether placed in rows or clusters. The CHIP barstool is available in a wide range of bright and neutral hues including natural birch, oak, white, red, orange, grey, black and blue. The stackable stool is ideal for cafeterias, breakout areas and hospitality applications.

**ANTTI KOTILAINEN** Born in Helsinki, Finland, young product designer Antti Kotilainen has created a variety of products for both residential and contract applications. Kotilainen was educated at Finland's esteemed Lahti Design Institute and was the recipient of the Chicago Athenaeum Museum of Architecture and Design's prestigious Good Design Award in 2002. A versatile designer who values practicality, experimentation and intuition, he says of his craft: "A writer writes on life, a designer designs on life."
