

Gigi Barstool
Marco Maran

KnollStudio

GIGI® BARSTOOL Designed by Marco Maran, this elegant plastic barstool is ideal for cafeterias and auditoriums or as an occasional barstool. The sturdy and flexible barstool features a colored polypropylene frame that attaches to a chrome-plated base. A wide range of bright and neutral hues are offered for the shell. The barstools are available in bar and counter heights.

MARCO MARAN Marco Maran is celebrated for designs that are light in spirit and flexible in application. Trained as an architect and industrial designer, he has been the recipient of several design awards. He was voted Best Young Designer for the Sinue chair. In 1997, he won a Product Design Achievement Award from the IIDA for the Scoop chair, as well as an honorable mention from the same organization for the Bla-Bla-Bla chair. Among his notable completed interiors is the Press Room for the 1998 World Cup in Paris, France.
