Platner Tables

Designed by
Warren Platner
Platner Tables

In the 1960s, the Platner Collection captured the “decorative, gentle, graceful” shapes that were beginning to infiltrate the modern vocabulary. The iconic pieces are created by welding hundreds of curved steel rods to circular frames, simultaneously serving as structure and ornament.

Metal components are finished in bright nickel, 18k gold or bronze metallic paint, and table tops are available in a range of wood, glass and marble—making Platner tables ideally suited for any setting, from office lounge to residence.
