Saarinen

Executive Collection

Originally designed in 1946, the Saarinen Seating Collection has continued to be relevant through the changing aesthetics of the architecture and design world. The family of products has grown to include an armchair, a plastic back chair, a task chair, and bar and counter stool. Their timeless shapes, graceful curves, and perfect proportions enable them to complement any space ensuring that they remain classic yet fresh over the next 75 years, just as they were in the past 75.

The 4-star base on glides and 5-star base on casters are the quintessential task chairs in spaces requiring both functionality and beautiful styling. The sleek design and profile of these base options are available in a painted black as well as a combination of polished aluminum and painted silver. Height-adjustable, swivel and tilt capabilities offer the ease of movement and comfort needed whether meeting around a conference table, and working from the office or from home.
