

Shelton Mindel Side Chair
Peter Shelton and Lee Mindel

SHELTON MINDEL SIDE CHAIR The Shelton Mindel side chair reinterprets the traditional “banker’s chair” to create a streamlined, unassuming contemporary chair for private offices, open plan workspaces and dining applications. The chair’s elegant exposed joinery is enhanced by a selection of hardwoods including oak, walnut and beech in various stains. Available with an upholstered inner shell for optimum comfort. The design’s celebration of materials, joinery and finishes results in an honest approach to seating, combining restraint and functionality.

PETER SHELTON AND LEE MINDEL Founded in 1978, Shelton Mindel & Associates is a renowned leader in modern architectural, interior and product design solutions for corporate and residential clients. Recognized for its strong, elegant designs in the tradition of Florence Knoll, the firm, under the guidance of Peter Shelton and Lee Mindel, has won praise for its design rigour, intelligence, originality and integrity. Employing a thorough creative process in which objects are passed down to reveal a clear and concise design concept, the Shelton Mindel Collection includes an innovative wood side chair, two lounge seating collections and a table series.
