

Spoletto Chair
Ufficio Tecnico

SPOLETO CHAIR Ufficio Tecnico's 1971 award-winning Spoleto chair combines classic, modern elegance with compact dimensions for tight spaces. Inspired by Mies Van der Rohe's MR chair with a more compact polished chrome frame, the cantilevered tubular steel chair is ideal for smaller offices or conference rooms. The upholstery, available in black and neutral tones, is a thick cowhide sling with nylon laces. Spoleto is the recipient of a 1977 Museum of Modern Art Award and a 1978 Design Center Stuttgart Award.

UFFICIO TECNICO Based in Foligno Italy, Knoll International's in-house technical team of engineers and designers adheres to the principles of elegance and timeless design that are the hallmarks of KnollStudio.
