Knoll and Sustainable Design

Each year Knoll sets key initiatives in our journey to sustainability. We are members of a global consortium on energy, have adopted a scientific, metrics-based approach to sustainable product design, and maintain a leadership position in establishing universal, verifiable, sustainability standards for our industry.

Knoll promotes independent third-party certification because it provides the most impartial and trustworthy foundation for industry-wide environmental compliance. Certification by established and respected third parties ensures that all manufacturers are held to the same high standards and that customers can trust a company’s declaration about the environmental benefits of its products. Knoll third-party partners include: the International Standards Organization (ISO); Forest Stewardship Council (FSC®); Rainforest Alliance; GREENGUARD® Environmental Institute; and The Business and Institutional Furniture Manufacturer’s Association (BIFMA) level® certification from Scientific Certification Systems (SCS).

In addition, Knoll is aligned with the U.S. Green Building Council and can help companies, healthcare organizations and educational institutions achieve Leadership in Energy and Environmental Design (LEED®) workplace certification.

Global Climate Change
- Knoll is a sponsor of the Clinton Global Initiative, which brings together a community of global leaders to devise and implement solutions to some of the world’s most pressing challenges, including environmental change.
- Knoll has a comprehensive Energy Management Program to increase energy efficiency in products and processes.

Life Cycle Assessment (LCA) Tool
- Life Cycle Assessment is a science-based measurement of a product’s environmental impacts throughout its life cycle, from raw materials sourcing through manufacture, shipping, use and re-use or end-of-life. LCA enables cradle-to-cradle implementation of sustainable practices.
- Knoll has partnered with The Green Standard.org to develop an affordable, universal ISO-compliant computer-based LCA tool that can be used by the entire contract furniture industry and is partnering on the development of an Environmental Product Declaration System (EPDs) for Knoll products. EPDs are verified documents containing LCA results and additional environmental performance information about a product.

Setting Industry Standards
- Knoll partners with MTS (The Institute for Market Transformation to Sustainability) to develop the SMaRT© Consensus Sustainable Products Standards, a set of consensus-based sustainable product standards based on the LEED® model, for all building products, fabric, apparel, flooring and carpet. MTS, the developer of SMaRT©, is an accredited American National Standards Institute (ANSI) standard developer.
- Knoll also partners with BIFMA (Business and Institutional Furniture Manufacturers Association) to promote level® sustainability standards for the contract furniture industry.
- Knoll has established FSC® (Forest Stewardship Council) certified wood as the standard for general office open plan office systems, casegoods and tables.
- Knoll has launched Full Circle, a resource recovery program developed with ANEW, to help customers extend the life cycle of surplus furniture, fixtures and equipment (FF&E) in an economically, socially and environmentally responsible manner.
- Our goal is to encourage all manufacturers in the contract furniture industry and related industries to adopt standards that will lead to sustainable products and practices.

For more information about Knoll and sustainable design, visit knoll.com/environment.
All Knoll Office Seating is GREENGUARD Indoor Air Quality® certified and GREENGUARD for Children & Schools™ certified.

All KnollExtra® products are GREENGUARD Indoor Air Quality® certified.

Visit GREENGUARD.org for more information and to find printable certificates for Knoll Office Seating that can be used for verification and LEED® submission.

GREENGUARD provides the only guide to certified low-emitting interior products and building materials. Its goal is to help building owners and managers, architects, interior designers and product specifiers build and furnish healthier offices, hospitals, schools and homes by providing a register of tested and certified low-emitting products and materials.

GREENGUARD certification is recognized by the U.S. Green Building Council’s LEED® Program. Air Quality Science, an independent indoor air quality laboratory, tests products submitted for certification using stringent environmental chamber testing protocols and current indoor air quality standard. Certification is administered by the GREENGUARD Environmental Institute (GEI), an industry-independent, non-profit organization.

GREENGUARD for Children & Schools™ certification complies with the State of California’s Department of Health Services Standard Practice (CA Section 01350) for testing chemical emissions from building products used in schools, offices and other sensitive environments. Certified products can contribute to achieving credits in the CHPS Best Practices Manual for K-12 schools, the LEED® Green Building Rating System, Green Guide for Healthcare™, NAHB Green Building Guidelines, Regreen and numerous other local authorities’ green building codes.

Knoll Office Seating and KnollExtra® products can contribute to achieving LEED® credits. GREENGUARD-tested and certified office furniture is required for Credit 4.5 in the LEED-NC Indoor Environmental Quality section.

GREENGUARD Certification Program
• Internationally recognized for evaluating product emissions and certifying building materials, furnishings, finishes and cleaning products and processes that meet stringent indoor air quality criteria defined by GEI.
• Products undergo rigorous, third-party testing to determine their impact on indoor air pollution with requirements for ongoing testing and verification.
• Certification confirms a manufacturer's environmental responsibility, and signifies their environmental achievements through independent, third-party testing and verification.
• GREENGUARD Certified products are recommended by leading sustainable building programs, including:
  – U.S Green Building Council’s (USGBC) LEED Rating System,
  – National Association of Home Builders (NAHB) Green Building Guidelines,
  – Green Guide for Health Care (GGHC),
  – Collaborative for High Performance Schools (CHPS) Best Practices Manual,
  – New York City Department of Design and Construction Sustainable Design Specifications, among others.
An Overview

In the first part of the Price List you'll find a full range of desktop accessories.

The second part features Orchestra Universal System Accessories, a complete scope of paper management accessories perfect for panel-mounted or freestanding application.

Part three offers a broad range of systems support products, including computer accessories, storage drawers, communications boards, and lighting.

Can’t find it? Consult the Table of Contents on page 1 or the Alpha-numeric Index on page 190.

Product Information on Each Page

The KnollExtra Price List was designed to provide you with everything you need to know in order to understand, specify, and care for KnollExtra products. On each page, the following features will assist you:

Description/Construction explains salient features, capabilities, materials, and country of origin.

Dimensions provide the overall space the product will require. Statistics are based on the maximum width, depth and height of the product.

Weight is based on the product itself. It does not include packaging or complementary items such as pens, memo paper or calendars.

Order Code/Ordering Information outlines exactly how to specify KnollExtra product and the full scope of finish options. The Order Code provides an example of how one pattern number is specified.

Custom Options reviews availability of special sizes, finishes etc.

For More Information

For more information, contact your Knoll sales representative, telephone Customer Service at 1-800-343-5665, or visit one of the Knoll showrooms listed on the last page of this book.

A Word About Finishes

KnollExtra finishes are designed to complement a broad range of interiors and office products.

Key KnollExtra finishes coordinate with specific Knoll systems finishes:

Use the Following Addresses
If you would like to send a standard lead time order to our order entry department, please use the following address:

For North American orders:
Knoll, Inc.
1235 Water Street
East Greenville, PA 18041
Attn: Order Entry

Fax: 215 679-1788
Tel: 800 343-KNOLL

All accepted orders will be confirmed in writing on the Knoll standard order confirmation form.

Ship-Complete Orders
Orders that must ship complete are to be so stated on the purchase order. Products with different lead times, combined on one order, can be acknowledged for shipment based on the longest of those lead times. Orders not marked “ship complete” will be released according to the confirmation, and invoiced in increments.

For More Information
For complete Knoll Selling Policy and warranty information, please refer to page 193 of this price list.

For additional information on KnollExtra, contact your Knoll representative, a Knoll dealer, or telephone Customer Services at 800 343-KNOLL.

### Maintenance

While KnollExtra relies on highly durable materials in each product line, regular basic maintenance will ensure the longevity of your product. Most stains, marks, and discolorations can be removed by following the simple instructions outlined on this page.

#### Plastic

Windex and a dry cloth.

#### SofStone

Early removal of a stain makes SofStone care much easier. This is especially true of coated areas which are frequently handled. If oil smudges are allowed to build up, they can soften the suede coating, and become very difficult to remove. Most dirt and smudges can be removed by the following methods:

1. **Greasy stains** (crayon, oil, lipstick, etc.): remove grease and wax stains with a naptha-dampened lint-free cloth. Change the cloth frequently to remove as much grease as possible without spreading the stain.

2. **Non-greasy stains** (dirt, coffee, mustard, catsup, etc.): dirt and smudge areas can generally be removed by using a sponge or soft bristle brush with Liquid Ajax, Mr. Clean, Lestoil, or 3M brand carpet spot remover and upholstery cleaner. Follow the instructions on the label, and rinse thoroughly with clear water and a lint-free cloth.

3. **Combination stains** (chocolate, ice cream, gravy, soup, etc.): combination stains are caused by materials that contain both greasy and non-greasy substances. First use the procedures for non-greasy stains as stated above. Then, rinse thoroughly with clear water and thoroughly dry with a lint-free cloth. If greasy stain persists, follow the procedure for greasy stains as stated above. Repeat as necessary.

#### Stainless Steel

Windex and a dry cloth.

#### Antique Brass, Brushed Zinc and Black Oxide

A damp cloth with no cleaning agents.

#### Satin Brass

Pledge.

#### Linoleum

Windex and a dry cloth.

#### Contemporary and Traditional Standard Leathers

Mild soap and water on a soft cloth.

#### Spinneybeck Leathers

As a result of the high quality aniline dye process, most scratches or minor stains can be removed simply by gently rubbing them with your fingers. The body’s natural oils revitalize the leather. For stubborn stains, use mild soap and water. Take care to wash the surface evenly since soaps may slightly alter the leather’s tonality.

#### Surf Collection

Wipe nylon skin using warm water and mild detergent. Do not use abrasives.

#### Office Automation Accessories/Storage Drawers

Clean with a soft cloth and Windex, Fantastik, Endust or other non-abrasive household cleaners. Remove stubborn stains with SoScrub.

For Surf Board and VDT Sleeve soft touch paints, never use abrasives. Clean with lukewarm water and a soft cloth.

#### Marker Boards

For day-to-day use, surface requires only a dry cleaning with a standard felt eraser or dry cloth. For best results, keep marker board and marker pens at room temperature. KnollExtra suggests Alliance Rite-On Wipe-Off marker pens which are designed for use on marker boards. All marker pens should be tightly capped and stored horizontally when not in use. If Expo brand markers are used, use the manufacturer’s recommended cleaning solution, Expo Dry Erase Cleaner.

Follow the instructions below as a periodic maintenance program, or to remove stubborn stains:

1. Clean with EV-1 or any liquid ammonia-added cleaner and rinse with clean water, then dry. For best results, wash board like a window with sponge and squeegee.

2. Interim cleaning may be done by sprinkling a dry powdered cleanser on an eraser and applying to the board in a circular motion. Rinse with clean water, then dry.

3. To remove crayon, scotch tape, or other stubborn materials, apply a mild solvent or paste made with scouring powder and water.

#### Fabric Boards

Despite the durability of most panel textiles, fabric boards are subject to long-term soiling and wear. A regular maintenance program will significantly lessen soil and dirt build up or staining on your fabric boards. Cleaning is particularly important in areas adjacent to air conditioning or ventilation systems.

Remember to consult the care instructions provided by the fabric manufacturer. The general recommendations below should apply to most fabric boards.

1. Avoid excessive heat or moisture which can affect finishes and adhesives. Never allow fabric panels to become wet inside the core. Room temperature should be maintained between 50 and 85 degrees; humidity should be maintained between 20 and 50%.

2. Avoid contact with sharp edges which could puncture the surface.

3. Do not handle fabric boards more than necessary. Avoid bending or flexing the panels; this could break the bond between the surface and core materials.

4. Grease or oil should be wiped off immediately upon contact. Remove excess grease or oil by blotting. Use hot water and mild soap to remove any remaining residue.

5. Whenever possible, clean only with warm water and mild soap. Use caution when applying cleaning agents, particularly those that contain alcohol, strong alkalis, or solvents. These ingredients may react to the vinyl backing or adhesives used in the fabric boards. Always test cleaning agents on fabric from the rear of the panel before using on the front.

6. Care should be taken in using strong room cleaners or pesticides. Their fumes may contain agents which lead to the loosening of the fabric board glue bond.

### Ordering Information

**Order Code Example:**

```
3301-2-VP-MB-VP556
```

- **3301-2**: Double letter tray
- **VP**: Velluto Pelle
- **MB**: Mirror brass posts
- **VP556**: Sheep

**Ordering Information**

- Specify:
  1. Pattern number
  2. Leather selection
  3. Hardware selection (Double Letter Tray only)

**Spinneybeck leathers:**

- Vicenza (VZ)
- Velluto Pelle (VP)
- Sabrina (SA)

There are 20 rich colors available in Vicenza and more than 100 vibrant colors available in Sabrina and Velluto Pelle. To view the complete color selection, please contact your Knoll sales representative or Spinneybeck.

**Please note that 10 or more units are required on all Spinneybeck orders.**

### Construction

**Spinneybeck Vicenza (VZ):** A corrected grain, aniline dyed leather. The correction process refines the surface of the leather preparing it for the reception of an embossed grain pattern prior to finishing.

**Spinneybeck Sabrina (SA):** An aniline dyed, full grain, kip leather. The fine quality and lightweight material produce a supple hand and smooth, tight grain appearance. Sabrina receives a breathable, protective finish and is appropriate for high-traffic use.

**Spinneybeck Velluto Pelle (VP):** An aniline dyed, enhanced full grain leather. The combination of the subtle surface enhancement and special ironing process creates the suppleness and smoothness of this leather. Velluto Pelle has a breathable, medium protective finish.

Manufactured in the United States, using domestic and Spinneybeck Italian leathers.

</tbody>
</table>

* No charge when ordered with Load Bar or Slat board, configured in load bar and slat board pattern numbers when ordered with load bars and slat boards.

---

*Worksurface-Mounted Bracket: Metal posts attach to underside of worksurface with C-clamp, raising Load Bar 10" above worksurface. Usable on worksurface 7/8"-1 1/2" thick. There should be at least 3/4"-1" of space between the back of the desk and the surface behind (ie. it cannot be flush). Set of 2 brackets. For Load Bars wider than 66", order additional brackets. For use with load bars and 6 1/2" slat boards only.

**Mounting Options**

**Panel, amniation and wall-mounted brackets:**
- Wall, stand-on, or panel-mounted brackets are included in the list price and are specified when ordering pattern number.
- Worksurface-mounted bracket: Metal posts attach to underside of worksurface with C-clamp, raising Load Bar 10" above worksurface. Usable on worksurface 7/8"-1 1/2" thick. There should be at least 3/4"-1" of space between the back of the desk and the surface behind (ie. it cannot be flush). Set of 2 brackets. For Load Bars wider than 66", order additional brackets. For use with load bars and 6 1/2" slat boards only.

**Custom Options**

Brackets are currently available for virtually every major office system. Panel-mounted brackets for other systems can be developed. Minimum of 100 sets per bracket. Tooling and setup charges may be required. Contact your Knoll sales representative or Customer Service for complete pricing information.

**Construction**

Worksurface-mounted bracket: Die-cast aluminum painted black. All items manufactured in the United States.

**Design Awards**

  - All Sapper standard monitor arms:
  - Maximum weight of 20 lbs * per arm, weight limits vary by mounting option
  - All Sapper standard monitor arms:
  - Maximum weight of 20 lbs * per arm, weight limits vary by mounting option

For single monitor mounting, you can use either the slat wall mast mount or direct slat wall mount. For double or triple monitor mounting, you must use the slat wall mast mount. The slat wall direct mount cannot be used for multiple monitors.

For use on architectural walls only as outlined further on this page. Knoll cannot be held responsible for the structural integrity of a wall so please work with clients to ensure their wall is structurally sound to hold the arm configuration and the monitor weight. See above for weight limits of mounting slat wall to an architectural wall.

Sapper 50 Direct Wall Mounting (for Sapper 50 monitor arm):

For single monitor mounting, you can use either the direct wall mast mount or direct wall mount. For double or triple monitor mounting, you must use the direct wall mast mount. The direct wall direct mount cannot be used for multiple monitors.

Please note that the Compact Arm Direct Wall Mount is specific to the compact arm. You cannot use the standard wall mount with the compact arm and the compact arm cannot be used for multiple monitors.

For use on architectural walls only as outlined further on this page. Knoll cannot be held responsible for the structural integrity of a wall so please work with clients to ensure their wall is structurally sound to hold the arm configuration and the monitor weight. See above for weight limits of mounting slat wall to an architectural wall.

Clamp Mounting:

Two-Piece Table Clamp Mounting:

This mount is intended to provide maximum work surface or desk range by mounting in between work surfaces. It clamps to work surfaces ranging from 3” x 1/2” on. Note that when used for individuals, you will need to stagger users across the table. This mount is designed for use with Dividends Horizon flat panel panel trim, and is not compatible with radius profiles.

Antenna Table Center Beam Center Mounting:

This mount is intended to provide maximum work surface or desk range by mounting to the center beam. Note that when used for individuals, you will need to stagger users across the table.

Table Wall Mounting:

For single monitoring, you can use either the slat wall mast mount or direct slat wall mount. For double or triple monitor mounting, you must use the slat wall mast mount. The slat wall direct mount cannot be used for multiple monitors.

This mount allows you to clear the flip door while housing for maximum work surface and individual height adjustment without the need to stagger users. Please note a screen can be mounted in the center beam with a monitor arm in front of it. The fit will be snug and flush with the screen.

Slat Wall Mast Mounting:

For single monitoring, you can use either the slat wall mast mount or direct slat wall mount. For double or triple monitor mounting, you must use the slat wall mast mount. The slat wall direct mount cannot be used for multiple monitors.

Works with most Knoll bracket and stack profiles, however, load ratings vary across mounting approaches. Please refer to review product breakdown on the following pages to ensure compatibility with your specific application needs.

Orchestr/Orchstra/KnollExtra slat bracket must be mounted to an architectural wall if a flat panel monitor arm is to be used inside the arm configuration. You can only use this slat wall bracket when it is wall-mounted as outlined below.

Knoll cannot be held responsible for the structural integrity of a wall so please work with clients to ensure their wall is structurally sound to hold the slat brackets, the arm configuration and the monitor weight.

Slat Wall Direct Mounting (for both standard and compact arm):

For single monitoring, you can use either the direct wall mast mount or direct wall mount. For double or triple monitor mounting, you must use the direct wall mast mount. The direct wall direct mount cannot be used for multiple monitors.

Please note that the Compact Arm Direct Wall Mount is specific to the compact arm. You cannot use the standard wall mount with the compact arm and the compact arm cannot be used for multiple monitors.

For use on architectural walls only as outlined further on this page. Knoll cannot be held responsible for the structural integrity of a wall so please work with clients to ensure their wall is structurally sound to hold the arm configuration and the monitor weight. See above for weight limits of mounting slat wall to an architectural wall.

Antenna Table Center Beam Side Mounting:

This mount is intended to provide maximum work surface or desk range by mounting to the center beam. Note that when used for individuals, you will need to stagger users across the table.

Antenna Table Center Beam Center Mounting:

This mount is intended to provide maximum work surface or desk range by mounting to the center beam. Note that when used for individuals, you will need to stagger users across the table.

Orchestr/Orchstra/KnollExtra slat bracket must be mounted to an architectural wall if a flat panel monitor arm is to be used inside the arm configuration. You can only use this slat wall bracket when it is wall-mounted as outlined below.
Cable Management:
Monitor Arms
External cable management allows for easy installation and removal of monitors. There are gates under the arm that will contain wires from the monitor to plastic cable management clips that go on the mast to keep wires tidy to the electrical socket.

Gates
Clips

For the beam solutions, there are beam cord management clips on the back of the beam (6 on the small, 8 on the medium, 10 on the large) that can hold wires from the monitor to the mast cable management. The beam mast cable management is wider than the standard mast cable management to accommodate multiple monitor wires.

Height Adjustment
Rotation, Swivel, Tilt and Depth Adjustment

Fast Release:

Fast Release:

Adjustment:
The Sapper monitor arm collection offers intuitive adjustment. To adjust the height, you simply manually lift the arm and twist the adjustment knob like a screw up or down the mast to a comfortable setting. The easiest way to lift the monitor is to fold it in before making the adjustment. To adjust the depth, you can move the arm in or out. You can also rotate the monitor 360 degrees for landscape or portrait viewing and adjust the swivel back and forth 180 degrees and tilt up and down 165 degrees. The arm folds in and out from 2 3/8" fully compressed to approximately 17 1/16" when fully extended.

Deactivate Fast Release with Set Screw

Set Screw to Prevent Arm Removal

Compatibility:
The Sapper Monitor Arm Collection is not compatible with the Wishbone Flat Panel Monitor Support System (i.e., Wishbone, Zorro or Rotation arms, posts, tool bars, brackets, mounting, etc.). They have been designed independently and as such parts from one system cannot be used with the other.

Mounts cannot be mounted on KnollExtra® Orchestra® tool bars.

Installation Instructions:
Comprehensive installation instructions will be shipped with product and are also available on Knoll Exchange for easy reference.

Construction:

Arm: die cast aluminum with a cold rolled steel top plate.
Mast: anodized aluminum extrusion.
Beam: satin anodized extruded aluminum.

Adjustment knob: nylon undermold with a TPU overmold.

Movement joint (includes fast release monitor plate): plastic bushings, zinc and plastic molded plastic tilt friction components and glass filled nylon VESA plate.

Movement joint slide: aluminum, powder coated silver.

VESA plate adapters: steel.

Table clamp, grommet mount, fixed table mount, COT Center channel mount, DH Bracing mount, Antenna center beam center mount: steel.

Slat wall and wall mount (both mast mount and direct, both standard and compact sizes): die cast aluminum with steel back plates.

Double arm bracket: die cast aluminum, steel top plate, extruded aluminum posts, plastic upper and lower bushings.

Triple-support arm bracket: die cast aluminum, steel top plate, extruded aluminum posts, plastic upper and lower bushings.

Mast-to-beam bracket: aluminum, powder coated silver.

Cable management: transparent polycarbonate clips on the mast and beam; plastic gates under standard arms.

Antenna and Quad support arm bracket: die cast aluminum.

Ten-Piece Table Clamp, Deep Table Clamp, Heavy-Duty Table, Clamp, Grommet, Fixed Table, Cinctor Open Table-Channel, Dividend Horizon Bracing and Antenna Center Beam Table Mounting: steel.

Antenna Table Center Beam Side Mounting: die-cast Aluminum.

Slat Wall and Wall Mounts: both Direct Mast Mounting, Direct Mounting and Sapper 30 Direct Mounting (for both standard and compact arms):
Die-cast Aluminum with steel back plates.

Quad support arm bracket: Die-cast Aluminum.

**Order Code**

Example: XYZ-MA-S-111

- **XYZ**: Sapper XYZ
- **MA**: Monitor arm
- **S**: Single monitor arm
- **111**: Jet Black finish

**Ordering Information**

Specify:
1. Pattern number
2. Finish

**Standard Monitor Arm Finish Options**
- Jet Black (111)
- Medium Grey (115)
- Bright White (116)

**Silver Monitor Arm Finish Option:**
- Silver (613)

**Arm Finish Option Note:**
All monitor arm finishes are monochromatic with the exception of Bright White, which has a light grey sheen.

**Mounting and Application Information:**
See pp. 142 for comprehensive mounting, application and construction information.
All Sapper XYZ monitor arms:

- **Maximum weight of 20 lbs per arm**
- **Ship standard with fast release movement joint**
- **Offer 360 degrees of pivot at the base and at the elbow joint**
- **Offer 153 degrees of monitor tilt up and down, 130 degrees of swivel left and right and 360 degrees of rotation for portrait and landscape viewing**
- **Fold it in itself to be highly compact at less than 2 inches when fully compressed**
- **Are durable and lightweight (weights only 4 pounds)**

*Please note this limit accommodates up to 95% of monitors on the market.*

**Size Limits:**

- **Monitor Arms**
  - There is no specific maximum size for a Sapper XYZ monitor arm (outside the limitations of the space in which you are trying to put it).
  - Flat panel monitor manufacturers refer to their products by diagonal screen measurements. So a 19” screen measured diagonally, but is not necessarily 19” in horizontal width (refer to manufacturer's specifications for specific overall height and width).

**Monitor Mounting:**

- **All Sapper XYZ monitor arms are compatible with the international Video Electronics Standard Association (VESA) industry interface standard (75 x 75 mm and 100 x 100 mm hole patterns or 2.95” x 2.95” or 1.94” x 1.94”) adopted by most panel manufacturers. VESA compliance is a requirement to mount any monitor to a monitor arm. If your customer has a nonstandard monitor backing with only 75 mm x 75 mm holes, additional spaces may be needed to ensure proper fit. Contact Customer Service for more details including part and pricing information.**

Knoll movement joints do not ship with screws and are designed to accept an M4 or M5 screw. M5’s limted and M5 x 10mm are the most common screw lengths but length is dependent on the specific monitor or television and screws should be tested prior to installation to ensure correct length. Knoll is not responsible for use of incorrect screws. A VESA plate adapter may be necessary for larger monitors and televisions and can be ordered separately in the sizes of 100 mm x 200 mm (M4 screws), 200 mm x 200 mm (M5 screws), 300 mm x 300 mm (M6 screws) and 400 mm x 400 mm x 600 mm (M6 screws). Adapters ship with separate installation instructions and may require spacers. Knoll VESA plate adaptors ship with screws to attach the adaptor to the Knoll VESA plate but do not ship with screws to attach the adaptor to the monitor or television (see screws sizes listed above, English size equivalents may be needed instead); screw length is dependent on the specific monitor or television and screws should be tested prior to installation to ensure correct length. Knoll is not responsible for use of incorrect screws.

Knoll and its dealers will not take the responsibility for mounting the monitor to the arm. The end user’s IT department must confirm VESA mounting compliance and mount the monitor to the arm using customer’s own screws. Please follow installation instructions closely (available in each kit box shipped as well as on Knoll Exchange).

**Apple Computer Note:** Apple iMac are not VESA compliant. To mount an iMac or LED Cinema Display to a Sapper arm it is necessary to purchase a Cinema Display VESA Mount Adapter Kit from Apple. The adapter kit comes standard with a 100 mm x 100 mm hole pattern and can be purchased online at apple.com.

**Clamp Mounting:**

- Two-Piece Table Clamp Mounting:
  - The standard two-piece table clamp is easy to install or retrofit and works on most worksurfaces or desks that are a minimum of 2 1/4” thick solid core. The maximum work surface thickness is 2 1/8”. There are four settings to accommodate a range of work surface thicknesses. It is important to mock up the table clamp, particularly on competitive product to ensure a proper fit. The clamp is not compatible with Morrison Network.

- Deep Table-Clamp Mounting:
  - This clamp is one piece and works on most surfaces. The deep table clamp mount is intended to clear most knife-edge (45 degree angle) desks or work surfaces.

**Grommet Mounting:**

- With all systems furniture, it is important to pass monitor and peripheral plugs through grommet mount cover while it is still loose. Please note the grommet mount is compatible with Morrison, Astrotura, Roll, Propeller, but is not compatible with the Graham Collection or Dividends Horizon grommet holes. To use on Morrison Network, spacers must be requested through Customer Service. The required grommet cover is “3” x 1.77”, which includes room for the threaded stud (actual hole is 1.48” x 1.77”)

**Fixed Table Mounting:**

- Installs will need to drill a permanent hole into the work surface so the post will be fixed to a dedicated location on the work surface. Please note with this mounting, the monitor will not be able to be moved up or down to a permanent hole. The work surface must be of adequate structure; Knoll cannot be held responsible for the structural integrity of non-Knoll work surfaces.

**Antenna Table Center Beam Side Mounting:**

- The Sapper XYZ monitor arm collection offers intuitive one touch adjustment. To adjust the height, you simply lift the monitor to the desired position. To adjust the depth, you simply pull or push the monitor in or out. You can also rotate the monitor 360 degrees for landscape or portrait viewing, adjust the tilted back and forth 153 degrees and tilt up and down 135 degrees. The arm folds in and out from 2” fully compressed to approximately 2 1/8” when fully extended.

**Weight Adjustment:**

- The Sapper XYZ monitor arm is preset for a 10 lb monitor. Other monitor weights up to 20 lbs can be accommodated by adjusting the weight adjustment nut to the proper weight using the Allen key wrench on the back of the movement joint. Note that the 20 lb setting is not available on the scale. Turn clockwise to decrease weight or counterclockwise to increase weight to appropriate level. The arm should be held in a downward position if increasing the weight and in an upward position if decreasing the weight. When proper weight is set, the arm should stay exactly where you place it.

**Fast Release:** Allows for quick installation and removal of flat panel monitors by merely popping the quick release pin up to remove monitor with movement joint/plate attached. Be sure to fold the arm in the highest position before removing monitor, or the arm will quickly move upwards.

**Thief Deterrence:**

- All movement joints come with a set screw within the fast release pin, to prevent fast release if so desired.

**Compatibility:**

- The Sapper XYZ monitor arm is not compatible with the Sapper Monitor Arm Collection. It has been designed independently and as such, parts from one system cannot be used with the other, with the exception of the movement joint. Finish colors are consistent across the Sapper XYZ and Sapper Monitor Arm Collection portfolios.

- Monitor arms cannot be mounted on KnollExtra® or KnollExtra® WorkStations.

**Installation Instructions:** Comprehensive installation instructions will be shipped with product and are also available on Knoll Exchange for easy reference.

**Construction:**

- Arm: the cast aluminum with steel channels and plastic molded shroud

- Movement joint (includes fast release monitor plate): plastic bushings, zinc and plastic molded plastic friction components and glass filled nylon EHA plate

- VESA plate adaptors: steel

- Table clamp: grommet mount, fixed table mount: steel

- Cable management: transparent polyethylene clips on the post; soft plastic in channel under arm.

- Antenna Table Center Beam Side Mounting: the cast aluminum

**Knoll Extra**
### Adjustable Keyboard Supports

**Romeo and Juliet Platform/Mechanism Configurations**

#### Romeo and Juliet Platform and Mouse Pad

</tbody>
</table>

#### Romeo and Juliet with easy lift arm

- Steel stiffener plate at the base of platform.
- Black textured metal finish
- Spring assist adjustment
- Varnished hair-line finish with a sliding track that is less than 2.25". Functions as a pivot, allowing the arm to be adjusted independently from the arm, allowing it to be mounted to Antenna Table. In order to mount to Antenna Table, you will need to order a special adapter available through that price list. Pattern code is TAK.

#### Easy lift arm:

- Soft touch knob adjusts tilt from 0° to (+) 15°.
- Variable height adjustment of 7.04" (up 2.83", down 6.50")

#### Sit/Stand arm:

- Soft touch knob adjusts tilt from 0° to (+) 15°.
- Variable height adjustment of 11.57" (up 6.40", down 5.17")

### Mechanism Attributes

- All mechanisms have the following features:
  - Spring assist adjustment
  - Knobless height adjustment
  - Pivot side to side: 360°
  - Black textured metal finish

#### Easy lift arm:

- Soft touch knob adjusts tilt from 0° to (+) 15°
- Variable height adjustment of 4.26" (up 1.66", down 3.20")

#### Sit/Stand arm:

- Soft touch knob adjusts tilt from 0° to (+) 15°
- Variable height adjustment of 3.85" (up 2.33", down 5.33")

#### Pivot feature:

- Allows the keyboard platform to move independently from the arm, allowing it to be mounted to worksurface as per the instructions.

### Mechanism Attributes

- All mechanisms have the following features:
  - Spring assist adjustment
  - Knobless height adjustment
  - Pivot side to side: 360°
  - Black textured metal finish

#### Easy lift arm:

- Soft touch knob adjusts tilt from 0° to (+) 15°
- Variable height adjustment of 4.26" (up 1.66", down 3.20")

#### Sit/Stand arm:

- Soft touch knob adjusts tilt from 0° to (+) 15°
- Variable height adjustment of 3.85" (up 2.33", down 5.33")

### Application Notes

- Keyboards support provide users with a more comfortable working environment by allowing them to adjust the height and pitch of the platform holding their computer keyboard. When not in use, the Adjustable Keyboard Support stores the keyboard under the worksurface to free vital worksurface space.

### Construction

- All components are anodized aluminum or die-cast aluminum with a powder coat finish.

### KnollExtra

- In order to mount to Antenna Workspaces, you will need to order a special adapter available through that price list. Pattern code is TAK.

### Mechanism Attributes

- **All mechanisms have the following features:**
  - Spring assist adjustment
  - Knobless height adjustment
  - Pivot side to side 180°
  - Black textured metal finish

- **Easy lift arm:**
  - Soft touch knob adjusts tilt from 0° to (+) 15°°  
  - Variable height adjustment of 7.04" (up 2.38", down 4.66")

- **Sit/Stand arm:**
  - Soft touch knob adjusts tilt from 0° to (-) 20°  
  - Variable height adjustment of 8.8" (up 2.83", down 5.97")

- **Pivot feature:**
  - Allows the keyboard platform moves independently from arm, allowing it to parallel the worksurface as the arm is moved laterally.

- **Antenna Mounting Note:**
  - In order to mount to Antenna Workplace tables, you will need to order a special adapter available through that price list. Pattern code is YAK.

Keyboard tray must be specified with a sliding track that is less than the depth of the top and anything below the top such as a power harness or cable basket.

For taller individuals, we recommend using a pivot solution mounted on the diagonal to maximize knee space.

OA-K-MS

Ordering Information
Specify:
1. Pattern number
2. Mouse size
Track length options are 16, 17 ¼”, 18 ⅛”, 22 ⅝” and 25 inches.

Application Notes
Keyboard support provides users with a more comfortable working environment by allowing them to adjust the height and pitch of the platform holding their computer keyboard. When not in use, the Adjustable Keyboard Support stores the keyboard under the worksurface to free vital worksurface space.

Mechanism Attributes
Easy lift arm:
• Spring assist adjustment
• Knobless height adjustment
• Soft touch knob adjusts tilt from 0° (up) to 15° (down)
• Variable height adjustment of 7.04” (up 2.83”, down 4.21”)
• Pivot side to side 360°
• Black textured finish with black soft touch knob
• Mounts on virtually any worksurface

Sit/Stand arm:
• Spring assist adjustment
• Knobless height adjustment
• Soft touch knob adjusts tilt from 0° (up) to 15° (down)
• Variable height adjustment of 11.57” (up 6.40”, down 5.17”)
• Pivot side to side 360°
• Black textured finish
• Mounts on virtually any worksurface

Antenna Mounting Note
In order to mount to Antenna Workspace tables, you will need to order a special adapter available through that price list. Pattern code is YAK.

Keyboard tray must be specified with a sliding track that is less than the depth of the top and anything below the top such as a power harness or cable basket.

For taller individuals, we recommend using a pivot solution mounted on the diagonal to maximize knee space.
Adjustable Keyboard Supports

**Act I**

**Order Code**

**Ordering Information**

- **Description**: Act I Keyboard platform
- **Type**: Act I with Advanced Easy Lift arm and Pivot
- **Dimensions**: 26.75" H x 11.5" W x 1.31" D
- **Weight**: 8.5 lbs
- **Price**: $861

**Application Notes**

- **Mechanism Attributes**
  - Easy Lift arm:
    - Soft touch knob adjusts tilt from 0° to (+) 15°
    - Spring assist adjustment
  - Advanced Easy Lift arm:
    - Soft touch knob adjusts tilt from 0° to (+) 15°
    - Spring assist adjustment

**Construction**

- Board is either MDF or phenolic.
- Wrist rest is foam-filled vinyl on MDF board.
- Mousepad is lycra covered polyurethane.

- **Mechanism**:
  - All arms are steel with a powder-coated finish.
  - Tracks are made of polyurethane.

**Product Description**

- Standard color is black.
- Minimum clearance required is the length of the track plus 1 1/2".

**Mechanism Attributes**

- All mechanisms have the following features:
  - Spring assist adjustment
  - Knobless height adjustment
  - Pivot feature:
    - Allows the keyboard platform to move independently from arm, allowing it to parallel the worksurface as the arm is moved laterally.

**Application Notes**

- Keyboard tray must be specified when ordering. In order to mount to Antenna Workstation tables, you will need to order a special adapter available through that price list. Pattern code is YAK.

**Antenna Mounting Note**

- Keyboard tray must be specified with a sliding track that is less than the depth of the top and something below the top such as a power harness or cable basket.

For taller individuals, we recommend using a pivot solution to free vital worksurface space.

**Pattern Code**

- **OA-K-A1-W/EL2-BK-18**
- **OA-K-A1-W/EL2-PH2-BK-18**

**Notes**

- In order to mount to Antenna Workstation tables, you will need to order a special adapter available through the price list. Pattern code is YAK.

- Keyboard tray must be specified with a sliding track that is less than the depth of the top and something below the top such as a power harness or cable basket.

For taller individuals, we recommend using a pivot solution mounted on the diagonal to minimize knee space.

**Diagram**

- Adjustable Keyboard Support stores the keyboard under the worksurface when not in use, the platform holding their computer adjusted the height and pitch of the keyboard. When not in use, the adjustable keyboard support provides users the ability to adjust the height of the keyboard under the worksurface, for full configuration measurements, and application suggestions refer to the Keyboard Measurements tool on Knoll Exchange.

4B2-MP Juliet mouse pad

Ordering Information

Specify:
1. Pattern number
2. Not all mousing solutions are appropriate with all platforms.

Construction

Workface: textured surf mousepad
Black painted steel mechanism mounted with hard surface backed surf mouse pad. Juliet mouse pad: TPE (thermoelastic elastomer) overmold with 40% nylon reinforced polypropylene undermold. Juliet palm rest: Nylon upholstered palm rest in dual density polyurethane. The gel beneath the fabric, nominally .65", is formulated to provide soothing support.
Freestanding Surf® Ergonomic Accessories
by Ross Lovegrove & Stephen Peart

Wrist Rest

- Soft, biomorphic form reduces strain on wrist.
- Long, radial shape with single straight edge ensures a tight fit with standard size keyboards.
- Gel pad for greater use comfort.

Lumbar Support

- Self-adjusts over any seat back.
- Heat and pressure reactive foam responds to individual use.
- Support returns to original form within 10 seconds after use.
- Neoprene nylon outer skin allows body to breathe comfortably.

Surf Board VDT Corner

- Fits any worksurface thickness or edge profile.
- Creates generous 24° wide VDT corner, 14” from worksurface corner.
- Can be adjusted to any angle, or removed when not needed.
- Integral non-handed mouse pad.
- Felt back and rubber bumpers protect worksurface.

- Soft Touch Black (BS)

**Metallic finishes:**
- Black (BK)
- Surf Grey (E)
- Medium Metallic Grey (J)
- Soft Touch Light Grey (GS)
- Soft Touch Black (BS)

**Ergonomic Value**

Each piece in the Surf Collection is a "footprint form," derived from natural ergonomic movements. No sharp edges or angles are used. As a result, the accessories can be approached by the user from any direction. The soft, biomorphic shapes of the Surf Collection echo the curves and contours of the human body.

**Lumbar support note:**

Back problems are the second leading cause of lost work time after the common cold. Most back rests utilize rigid, unyielding materials, ignoring the diversity of human form and movement.

**General Notes**

- The Surf Lumbar Support rests loosely over the chair like a saddle bag, held in place by a counter balance weight. The piece is easily adjusted up or down to the preference of the user.
- The support's high performance patented foam molds itself to both the user and the chair back. As the user moves throughout the workday, the foam responds in kind, continuously resculpting itself around the user's body. When body pressure is removed, the lumbar support returns to its original form within 10 seconds, ready for the next user.

**Construction**

- **Lumbar support:** High memory, heat-reactive patented polyurethane foam developed for high performance use in military fighter pilot seats. Covered with wear-resistant, closed cell Neoprene and a bright colored, breathable nylon outer skin. Die-cast zinc counter-balance weight.
- **Surf Board:** Rigid steel plate with 1” thick rolled front detail. Black rubber bumpers and non-scuffing, felt back. Neoprene nylon outer skin allows body to breathe comfortably.

**Design Awards**

- First place, Interior Design Product Award, ASID, 1994.
- High Design Quality Red Dot Award, Design Zentrum, Germany, 1994.

### VDT Sleeve

- **Description:** Racetrack-shaped sleeve slides over worksurface to create VDT corner.
- **Features:**
  - Creates 17 5/8" wide VDT corner, 9" from worksurface corner.
  - Can be adjusted to any angle, or removed when not needed.
  - Heavy-gauge steel with felt backing to prevent scuffing.
  - 1 1/4", 1 3/4" and 2 1/2" worksurface thicknesses.
  - 1/4" screw holes on underside for optional attachment to worksurface.

#### Specifications:
- **Metallic finish**
  - 26 3/4" x 9 1/8" x 1 1/4" - 2 1/2"
  - 3 lbs.
  - Pattern number: OA-SLV-(A,B,C)-(E,J)
  - List price: $203

- **Soft touch finish**
  - 26 3/4" x 9 1/8" x 1 1/4" - 2 1/2"
  - 3 lbs.
  - Pattern number: OA-SLV-(A,B,C)-(GS,BS)
  - List price: $265

### Adjustable Foot Rest

- **Description:** Self-adjusts +30°/-30°.
- **Features:**
  - Durable, ribbed rubber platform.

#### Specifications:
- **Dimensions:** 17 5/8" x 12" x 3 3/8"
- **Weight:** 7 lbs. 14 oz.
- **Pattern number:** OA-FR-BK
- **List price:** $219

**Order Code**

**Example:** BP-SSF

- Specify:
  1. Pattern number
  2. Lock option

**Lock option:**

- Lock attaches to slides in field.
- Removable for use elsewhere.

**Application Notes**

- BackPack® drawers can be used with virtually any Knoll® or other wood worksurface.
- BackPack® storage drawers attach to the underside of wood worksurfaces at any location. In most cases, the drawers may be mounted flush to side panels. When supporting brackets extend further than 2 1/2" from the side panel, a slight reveal will occur. Meaning hardware and template included.

For wire management needs, the minimum depth worksurface for standard depth drawers is 24". For deep drawers, it is 30". When no wire management is necessary, the Standard Suspended File may be used on an 18" worksurface and the Deep Suspended File may be used on a 24" worksurface.

**Knee clearance:**

In order to maximize filing capacity, the Standard and Deep Suspended Files do not provide adequate knee clearance. For center worksurface applications, specify the Keyboard or Center File Drawers.

**Construction**

- Sturdy, 20-gauge painted steel with full-extension ball-bearing metal slides.
- Foam surface on mouse pad.
- Die-cast zinc lock painted black.

**Design Awards**

- knee clearance

Specify:  
1. Pattern number  
Application Notes  
Universal Pencil Drawer can be used with virtually any Knoll or competitor wood worksurface. Minimum depth worksurface for drawer is 24". On freestanding Morrison Network systems, a 30" deep worksurface is required.  
Construction  
Universal Marker Boards

by Bruce Hannah & Ayse Birsel

Product Description

Marker Board
- 3/8" wide anodized aluminum frame with white surface.
- Marker tray option specified separately.
- Mountable on load bar, panel, wall or top cap.
- Load bar-mounted brackets included in list price, but specified separately (see Mounting Options below).

Marker Board Equity panel-mount application
- 3/8" wide anodized aluminum frame with white surface.
- Marker tray option specified separately.
- Mountable on load bar, panel, wall or top cap.
- Load bar-mounted brackets included in list price, but specified separately (see Mounting Options below).

Marker Tray
- Anodized aluminum snap-fit tray for Marker Board application

**Ordering Information**

1. Specify:

- Pattern number

**Mounting Options**

- Top cap hung marker board: Marker boards hang from top of systems panels between 2.33 and 3.73 inches thick. Can also be wall mounted.

**Construction**

- Wall Rail: Machined aluminum powder coated light gray to match top cap hung marker board trough.
Universal Fabric Boards  
Standard Sizes

Fabric Boards

- Standard fabric board has 1/2" thick mineral board construction with squared corners.
- Rounded corner or radiused edge, available at upcharge.
- Panel or wall mounting options.

Panel mounted brackets:
- Mounting Options
  - Panel or wall mounting options. Panel-mounted brackets are included in the list price but must be specified separately. To specify appropriate panel-mounted bracket, consult the KnollExtra Bracket Chart on page 12.
  - Panel-mounted brackets are included in the list price but must be specified separately. To specify appropriate panel-mounted bracket, consult the KnollExtra Bracket Chart on page 12.
  - Panel-mounted brackets are included in the list price but must be specified separately. To specify appropriate panel-mounted bracket, consult the KnollExtra Bracket Chart on page 12.

Wall mounted options:
- Wall-mounted applications must be specified as flush (F-WM-F) or reveal (F-WM-R). Both options are appropriate for any smooth, clean surface. Flash wall-mounted option utilizes velcro system.
  - Wall-mounted applications must be specified as flush (F-WM-F) or reveal (F-WM-R). Both options are appropriate for any smooth, clean surface. Flash wall-mounted option utilizes velcro system.
  - Wall-mounted applications must be specified as flush (F-WM-F) or reveal (F-WM-R). Both options are appropriate for any smooth, clean surface. Flash wall-mounted option utilizes velcro system.

Under overhead specification note:
- For application under a system overhead, provide clearance distance between the work surface and the bottom of the overhead or task light.
  - For application under a system overhead, provide clearance distance between the work surface and the bottom of the overhead or task light.
  - For application under a system overhead, provide clearance distance between the work surface and the bottom of the overhead or task light.

Safety by side fabric board specification note:
- Please note: if a panel-mounted fabric board will be used contiguous to another fabric board, drawings are required and there will be an up-charge.
  - Please note: if a panel-mounted fabric board will be used contiguous to another fabric board, drawings are required and there will be an up-charge.
  - Please note: if a panel-mounted fabric board will be used contiguous to another fabric board, drawings are required and there will be an up-charge.

60" wide boards are laminated in fabric grades 50, 55, and 60. Due to grades 50, 55 and 60 fabric widths being less than the width of a 60" board, contact your KnollExtra representative or Customer Service for pricing and fabric railroadering information.
  - Due to grades 50, 55 and 60 fabric widths being less than the width of a 60" board, contact your KnollExtra representative or Customer Service for pricing and fabric railroadering information.
  - Due to grades 50, 55 and 60 fabric widths being less than the width of a 60" board, contact your KnollExtra representative or Customer Service for pricing and fabric railroadering information.

Selling Policy

Terms & Conditions of Sales

This Selling Policy supersedes all previous selling policies. Prices, discounts and product offerings are subject to change without notice.

Sales by Knoll, Inc. ("Seller") of Knoll North America Corp. ("Knoll") to the United States and Canada are made only on the terms which are contained in this Selling Policy. Seller hereby gives notice of its objection to any different or additional terms and conditions. This sale is expressly conditional upon Purchaser’s assent to the terms and conditions set forth below. Additional terms and conditions may apply to KnollStudio and KnollTextiles orders. These terms and conditions may be modified or supplemented only by a written document signed by an authorized representative of Seller. These terms and conditions supersede any prior and/or contemporaneous agreements or correspondence between Purchaser and Seller. Written quotations expire thirty (30) days from the date of issuance and can be withdrawn by written notice anytime during that period. Where Purchaser and Seller have entered into the Knoll Electronic Terms and Conditions, invoices and other business communications placed or transmitted in accordance with the Knoll Electronic Terms and Conditions shall be deemed to be in writing and signed and shall be valid for all purposes as if they were originated and maintained in documentary form.

Ordering Information

All orders must be in writing. The product pattern number(s) contained on Seller’s order acknowledgment shall be the final expression of the order.

Order Confirmation

A purchase order is not binding on Seller until Purchaser has received Seller’s order confirmation or acknowledgment.

Pricing Policies

List prices are subject to change without notice.

Terms of Payment

List prices shall be those prices in effect on the date of receipt of a complete purchase order unless shipment is requested more than ninety (90) days after order entry in which case prices in effect on the date of shipment apply. List prices include specified freight costs. Unless specified in writing by Seller, no other charges are included in Seller’s list prices.

Taxes

All sales, use, excise and other taxes applicable to the sale of the Products shall be paid by Purchaser. If Purchaser claims an exemption from any tax, Purchaser shall submit to Seller the appropriate exemption certificates.

Freight Prepaid

Freight is prepaid and included in the price of all Products, except KnollTextiles, within the 48 contiguous United States for orders placed with Knoll, Inc. and within Canada, excluding the Yukon, Northwest Territories, Nunavut and Newfoundland for orders placed with Knoll North America Corp. Packing is tested for rigorous movement and transportation but is not guaranteed to protect furniture from all conditions. If special packaging is required for any reason, please consult with your sales representative or dealer. Seller shall select the method of shipment and routing. Freight for all KnollTextiles orders is prepaid and added to the invoice.

Delivery/Freight Charges

Shipments outside the contiguous 48 United States and Canada shall be shipped F.O.B. Origin. For shipments outside the contiguous United States and Canada, Purchaser is responsible for the cost of freight from point of embarkation, including any handling and transportation costs incident to loading at the point of shipment and unloading at the point of destination. Conditions beyond the control of Seller, including weather, available facilities and traffic conditions, may affect exact time of delivery. Seller shall not be responsible for specific carrier delivery date or time unless it has made a specific delivery commitment in writing.

Nonstandard methods of shipment and/or additional services are available upon request. Purchaser will be billed for the differential cost of any special services in excess of standard surface carrier freight costs. Premium charges, at Purchaser’s request, will be added for airfreight, exclusive use of vehicle and extra, export or special packaging. Accessorial charges will be added for inside delivery, extra labor, reconsignment and redelivery.

Partial shipments may be made and invoiced by Seller.

Claims

All shipments for Knoll Products within the contiguous United States and Canada are F.O.B. Origin. All risk of loss passes to Purchaser at time of delivery prepaid and added to the invoice established by Seller. No refund or credit shall be given for damaged Products.

If, in the judgment of Seller, Purchaser’s financial condition does not justify the terms of the payment, Seller may require full or partial payment in advance.

Past due accounts shall be charged one and one-half percent (1.5%) per month, or the highest rate permitted by law, whichever is less, and will be added to the outstanding balance. In the event Purchaser defaults in payment, Seller shall be liable for all collection costs, including reasonable attorney’s fees and costs.

Changes and Cancellation

Purchase orders may not be changed or cancelled, in whole or in part, without prior written consent of Seller. Changes may effect delivery dates. Expenses incurred because of changes shall be charged to Purchaser. In the event of cancellations, Purchaser will be liable for reasonable cancellation charges established by Seller. Orders for special Product, orders including “COM” (hereinafter defined) material and orders pursuant to expedited delivery programs, may not be canceled.

Seller’s Security Interest

Until Seller receives the full payment for the Product, Seller shall have a security interest in the Product. Purchaser agrees to perform all acts, including but not limited to the execution and filing of documentation, which may be necessary to perfect and assure the security interest of Seller.

Returns

The return of Products without a written authorization by Seller shall not be accepted. To receive authorization for Product return, please call Customer Service. All Products that are returned pursuant to a valid authorization shall be subject to a twenty-five percent (25%) of list restocking charge. Products not currently offered for sale by Seller (including COM) shall not be authorized for return. All returned Products must be unused, in original condition and in the original Seller packing cartons. No refund or credit shall be given for damaged Products.

Held Orders/Storage

If Purchaser requests that an order be held or delayed, prices and terms and conditions in effect at the time of shipment shall apply. If Purchaser requests a delay after the time when Seller can defer production, Purchaser will be invoiced for the Product, payable in accordance with standard terms, when the order is ready for shipment. Seller may transfer the Product to storage, in which case all expenses incurred in connection with storage, including demurrage, preparation for storage, storage charges and handling shall be payable by Purchaser upon submission of invoices by Seller. Risk of loss to the Product shall pass to the Purchaser upon delivery of the Product into storage.

Selling Policy

Customer’s Own Material

A Purchaser who requests a fabric or other surface material not standard to Seller’s line of Products (“COM”) must submit samples of the requested material to Seller prior to entry of a purchaser order. Seller shall determine if the material is suitable to its manufacturing processes and meets any requirements of Underwriters Laboratories. If the COM is acceptable, Seller will then establish a price for using the COM on the Product. For a description of the procedures for submitting samples and testing, contact customer resources or your sales representative. Seller shall have no responsibility for the appearance, condition, performance, durability, colorfastness or any other physical attribute of the COM. Purchaser shall indemnify and hold Seller harmless for any damages, injuries or losses arising out of the use of the COM on the Product.

Warranty

Seller warrants to the original Purchaser only that the Products Seller manufactures and sells to Purchaser are free of defects in workmanship and materials, during the applicable warranty period set forth below. Warranty period set forth below is for 24-hour, 7 days a week, multi shift use (includes parts and labor to repair). Should any failure to conform to this limited warranty appear to a Product listed below during the applicable warranty period from the date of shipment, Seller shall, upon prompt written notice, repair or replace, at its option and costs, the affected part or parts.

Product and Period of Warranty

Lifetime: Antenna Workspaces, AutoStrada, Calibre, Crinion Open Table, Currents, Dividend Horizon, Equity, Morrison, Reff Profiles laminate, Series 2 Storage, Template and other non-wood components (except cascade edge worksurfaces, operational parts, controls, electrical, Lighting, Series 2 Veneer Front Storage, special or custom products, see below)

2 Years: All other KnollExtra product
1 Year: Light ballasts, bulbs and power supply, seating upholstered armrests and soft armrests, wood casegoods upholstered surfaces. KnollStudio Maya Lin and Spark Series seating finishes.

This warranty does not apply to:
• Damage caused by a carrier other than the Seller.
• Normal wear and tear or acts or omissions of parties other than Seller (including user modification, improper use or installation of Products).
• COM or other third party materials applied to Products.
• Products not installed by or under the auspices of a Knoll Dealer.
• Dramatic temperature variations or exposure to unusual conditions.
• Changes in surface finishes, including colorfastness due to aging or exposure to light.
• Except as specifically noted above, textiles and upholstery supplied by KnollTextiles (consult current KnollTextiles price list for applicable warranty).
• Natural variations occurring in wood, marble, and leather shall not be considered defects, and the Seller does not guarantee the colorfastness or matching of the colors, grains or textures, or surface hardness of such materials. The Seller also does not guarantee the colorfastness of fiberglass panel surfaces.

The EXPRESS WARRANTIES CONTAINED HEREIN ARE IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTIES OF MERCHANTABILITY AND FITNESS FOR PARTICULAR PURPOSE AND ALL OTHER WARRANTIES ARISING FROM COURSE OF DEALING OR USAGE OF TRADE.

The remedies provided above are the Purchaser’s sole remedies for any failure of Seller to comply with its obligations regarding the workmanship of its Products. Correction of any nonconformity in the manner and for the period of time provided shall constitute complete fulfillment of all liabilities of Seller, with respect to or arising out of the Product furnished hereunder.

Delay/Majeure

Seller shall not be liable for failure to perform or for delay in performance due to fire, flood, strike or other labor difficulty, war, act of God, law of any governmental authority or of the Purchaser, riot, embargo, fuel or energy shortage, wrecks or delay in transportation, inability to obtain necessary labor, materials or manufacturing facilities from usual sources or failure of suppliers to meet their contractual obligations, or due to any cause beyond its reasonable control. If any such event occurs, Seller may extend delivery dates by a period of time necessary to overcome the effect of such delay, allocate available Product or cancel any purchase order.

Compliance with Law

PURCHASER IS SOLELY RESPONSIBLE FOR COMPLIANCE WITH ALL APPLICABLE FEDERAL, STATE AND LOCAL LAWS, ORDINANCES, REGULATIONS, RULES AND STANDARDS RELATING TO THE INSTALLATION, MAINTENANCE, USE AND OPERATION OF THE PRODUCTS.

Patents

Subject to the following provisions, Seller shall, at its own expense, defend or, at its option, settle any claim, suit or proceeding brought against the Purchaser, and/or its vendees, mediate and immediate, so far as based on an allegation that any Product or any part thereof furnished hereunder constitutes a direct or a contributory infringement of any claim of any patent of the United States or Canada. This obligation shall be effective only if Purchaser shall have made all payments then due hereunder and if Seller is notified promptly in writing and given authority, information and assistance for the defense of said claim, suit or proceeding. Seller shall pay all damages and costs awarded in such suit or proceedings so defended.

The foregoing indemnity does not apply to the following:
• Products supplied according to a design other than that of Seller, and which is required by the Purchaser.
• Combination of the Product with another product not furnished hereunder unless Seller is a contributory infringer.
• Any settlements of a suit or proceeding made without Seller’s written consent.

Limitations of Liability

SELLER, ITS CONTRACTORS, AUTHORIZED DEALERS AND SUBCONTRACTORS OR SUPPLIERS OF ANY TIER SHALL NOT BE LIABLE TO PURCHASER FOR ANY SPECIAL, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING FROM A BREACH OF THIS AGREEMENT.

Purchaser’s remedies set forth herein are exclusive and the liability of Seller with respect to the breach of this agreement or any contract entered into between the parties pursuant hereto shall not exceed the price of the Product or part on which such liability is based.
The Products
This guide encompasses all standard products for this product group.

Sizes
Dimensions listed in this guide are indicated as:
H = height
W = width
D = depth
Dia. = diameter
Rad. = radius

Pricing
All prices shown are list.

How to Order
Select pattern numbers and quantities required for your complete installation. Product questions can be addressed in the specific sections of this guide or by contacting your sales representative or customer resource representative at 1-800-343-5665.

Next, select options (if required), along with colors and finishes appropriate to each product. Reference the Finishes and Fabrics pages for color designations.

On large installations, an item’s “designated area” can be specified to assist in product organization and handling.

To expedite complete / correct entry of your order, be certain all pattern numbers, quantities, colors and area identifications are completely specified. Also, include complete purchase order numbers, bill-to and ship-to addresses, a contact name and specific factory shipping dates required.

Mail all orders to:
Knoll, Inc.
1235 Water Street
East Greenville, PA 18041
Attention: Order Entry

Once your order is entered at Knoll, an acknowledgment will be mailed to you. You will be advised of your scheduled shipping date within five days of the original acknowledgment. If it is necessary to revise your order, please contact your customer resource representative.

Sustainability Statement

Sustainable design is a key component of Knoll’s environmental focus. Our commitment to social responsibility and a healthy environment has prompted us to further articulate our longstanding environmental programs and, with encouragement and support from our colleagues in the industry, we have re-energized our focus on such “green” initiatives as life cycle analysis and LEED™ certification. Knoll is proud to have contributed to projects that have received LEED certification from the U.S. Green Building Council.

For the latest information on Knoll products that help our customers achieve LEED certification, log on to knoll.com, click on “About Knoll” and then “Environmental Focus.”
