Knoll and Sustainable Design

Each year Knoll sets key initiatives in our journey to sustainability. We are members of a global consortium on energy, have adopted a scientific, metrics-based approach to sustainable product design, and maintain a leadership position in establishing universal, verifiable, sustainability standards for our industry.

Knoll promotes independent third-party certification because it provides the most impartial and trustworthy foundation for industry-wide environmental compliance. Certification by established and respected third parties ensures that all manufacturers are held to the same high standards and that customers can trust a company’s declaration about the environmental benefits of its products. Knoll third-party partners include: the International Standards Organization (ISO); Forest Stewardship Council (FSC®); Rainforest Alliance; GREENGUARD® Environmental Institute; and The Business and Institutional Furniture Manufacturer’s Association (BIFMA) level® certification from Scientific Certification Systems (SCS).

In addition, Knoll is aligned with the U.S. Green Building Council and can help companies, healthcare organizations and educational institutions achieve Leadership in Energy and Environmental Design (LEED®) workplace certification.

Global Climate Change

• Knoll is a sponsor of the Clinton Global Initiative, which brings together a community of global leaders to devise and implement solutions to some of the world’s most pressing challenges, including environmental change.
• Knoll has a comprehensive Energy Management Program to increase energy efficiency in products and processes.

Life Cycle Assessment (LCA) Tool

• Life Cycle Assessment is a science-based measurement of a product’s environmental impacts throughout its life cycle, from raw materials sourcing through manufacture, shipping, use and re-use or end-of-life. LCA enables cradle-to-cradle implementation of sustainable practices.
• Knoll has partnered with The Green Standard.org to develop an affordable, universal ISO-compliant computer-based LCA tool that can be used by the entire contract furniture industry and is partnering on the development of an Environmental Product Declaration System (EPDs) for Knoll products. EPDs are verified documents containing LCA results and additional environmental performance information about a product.

Setting Industry Standards

• Knoll partners with MTS (The Institute for Market Transformation to Sustainability) to develop the SMaRT® Consensus Sustainable Products Standards, a set of consensus-based sustainable product standards based on the LEED® model, for all building products, fabric, apparel, flooring and carpet. MTS, the developer of SMaRT®, is an accredited American National Standards Institute (ANSI) standard developer.
• Knoll also partners with BIFMA (Business and Institutional Furniture Manufacturers Association) to promote level® sustainability standards for the contract furniture industry.
• Knoll has established FSC® (Forest Stewardship Council) certified wood as the standard for general office open plan office systems, casework and tables.
• Knoll has launched Full Circle, a resource recovery program developed with ANEW, to help customers extend the life cycle of surplus furniture, fixtures and equipment (FF&E) in an economically, socially and environmentally responsible manner.
• Our goal is to encourage all manufacturers in the contract furniture industry and related industries to adopt standards that will lead to sustainable products and practices.

For more information about Knoll and sustainable design, visit knoll.com/environment.
All Knoll Office Seating and KnollExtra® products can contribute to achieving LEED® credits. GREENGUARD-tested and certified office furniture is required for Credit 4.5 in the LEED-CL Indoor Environmental Quality section.

GREENGUARD Certification Program
- Internationally recognized for evaluating product emissions and certifying building materials, furnishings, finishes and cleaning products and processes that meet stringent indoor air quality criteria defined by GEI.
- Products undergo rigorous, third-party testing to determine their impact on indoor air pollution with requirements for ongoing testing and verification.
- Certification confirms a manufacturer’s environmental responsibility, and signifies their environmental achievements through independent, third-party testing and verification.
- GREENGUARD Certified products are recommended by leading sustainable building programs, including:
  - U.S. Green Building Council’s (USGBC) LEED Rating System,
  - National Association of Home Builders (NAHB) Green Building Guidelines,
  - Green Guide for Health Care (GGHC),
  - Collaborative for High Performance Schools (CHPS) Best Practices Manual,
  - New York City Department of Design and Construction Sustainable Design Specifications, among others.

GREENGUARD provides the only guide to certified low-emitting interior products and building materials. Its goal is to help building owners and managers, architects, interior designers and product specifiers build and furnish healthier offices, hospitals, schools and homes by providing a register of tested and certified low-emitting products and materials.

GREENGUARD certification is recognized by the U.S. Green Building Council’s LEED® Program. Air Quality Science, an independent indoor air quality laboratory, tests products submitted for certification using stringent environmental chamber testing protocols and current indoor air quality standard. Certification is administered by the GREENGUARD Environmental Institute (GEI), an industry-independent, non-profit organization.

GREENGUARD Gold certification complies with the State of California’s Department of Health Services Standard Practice (CA Section 01350) for testing chemical emissions from building products used in schools, offices and other sensitive environments. Certified products can contribute to achieving credits in the CHPS Best Practices Manual for K-12 schools, the LEED® Green Building Rating System, Green Guide for Healthcare™, NAHB Green Building Guidelines, Green Globes, Regreen and numerous other local authorities’ green building codes.
An Overview

In the first part of the Price List you’ll find Lighting and Power Series.

The second part features a full range of desktop accessories. Next listed is Orchestra Universal System Accessories, a complete scope of paper management accessories perfect for panel-mounted or freestanding application.

Part three offers a broad range of systems support products, including computer accessories, storage drawers, communications boards, and lighting.

Can’t find it? Consult the Table of Contents on page 1 or the Alpha-numeric Index on page 192.

Product Information on Each Page

The KnollExtra Price List was designed to provide you with everything you need to know in order to understand, specify, and care for KnollExtra products. On each page, the following features will assist you:

Description/Construction explains salient features, capabilities, materials, and country of origin.

Dimensions provide the overall space the product will require. Statistics are based on the maximum width, depth and height of the product.

Weight is based on the product itself. It does not include packaging or complementary items such as pens, memo paper or calendars.

Order Code/Ordering Information outlines exactly how to specify KnollExtra product and the full scope of finish options. The Order Code provides an example of how one pattern number is specified.

Custom Options reviews availability of special sizes, finishes etc.

For More Information

For more information, contact your Knoll sales representative, telephone Customer Service at 1-800-343-5665, or visit one of the Knoll showrooms listed on the last page of this book.

A Word About Finishes

KnollExtra finishes are designed to complement a broad range of interiors and office products.

Key KnollExtra finishes coordinate with specific Knoll systems finishes:

Placing Your Order

Use the Following Addresses

If you would like to send a standard lead time order to our order entry department, please use the following address:

For North American orders:
Knoll, Inc.
1235 Water Street
East Greenville, PA 18041
Attn: Order Entry
Fax: 215 679-1788
Tel: 800 343-KNOLL

All accepted orders will be confirmed in writing on the Knoll standard order confirmation form.

Ship-Complete Orders

Orders that must ship complete are to be so stated on the purchase order. Products with different lead times, combined on one order, can be acknowledged for shipment based on the longest of those lead times. Orders not marked “ship complete” will be released according to the confirmation, and invoiced in increments.

For More Information

For complete Knoll Selling Policy and warranty information, please refer to page 195 of this price list.

For additional information on KnollExtra, contact your Knoll representative, a Knoll dealer, or telephone Customer Services at 800 343-KNOLL.

*EY for orchestra brackets. If your system is not listed, please consult your Knoll sales representative or Customer Service at 1-800-343-5665.
Maintaining Your Purchase

**Maintenance**

While KnollExtra relies on highly durable materials in each product line, regular basic maintenance will ensure the longevity of your product. Most stains, marks, and discolorations can be removed by following the simple instructions outlined on this page.

**Plastic**

Windex and a dry cloth.

**SofStone**

Early removal of a stain makes SofStone care much easier. This is especially true of coated areas which are frequently handled. If oil smudges are allowed to build up, they can soften the suede coating, and become very difficult to remove. Most dirt and smudges can be removed by the following methods:

1. **Greasy stains** (crayon, oil, lipstick, etc.): remove grease and wax stains with a naphtha-dampened lint-free cloth. Change the cloth frequently to remove as much grease as possible without spreading the stain.

2. **Non-greasy stains** (dirt, coffee, mustard, catsup, etc.): dirt and smudge areas can generally be removed by using a sponge or soft bristle brush with Liquid Ajax, Mr. Clean, Lestoil, or 3M brand carpet spot remover and upholstery cleaner. Follow the instructions on the label, and rinse thoroughly with clean water, then dry.

3. **Combination stains** (chocolate, ice cream, gravy, soup, etc.): combination stains are caused by materials that contain both greasy and non-greasy substances. First use the procedures for non-greasy stains as stated above. Then, rinse thoroughly with clean water and thoroughly dry with a lint-free cloth. If greasy stain persists, follow the procedure for greasy stains as stated above. Repeat as necessary.

**Stainless Steel:**

Windex and a dry cloth.

**Antique Brass, Brushed Zinc and Black Oxide:**

A damp cloth with no cleaning agents.

**Satin Brass:**

Pledge.

**Linoleum:**

Windex and a dry cloth.

**Contemporary and Traditional Standard Leathers:**

Mild soap and water on a soft cloth.

**Spinneybeck Leathers:**

As a result of the high quality aniline dye process, most scratches or minor stains can be removed simply by gently rubbing them with your fingers. The body’s natural oils revitalize the leather. For stubborn stains, use mild soap and water. Take care to wash the surface evenly since soaps may slightly alter the leather’s tonality.

**Surf Collection:**

Wipe nylon skin using warm water and mild detergent. Do not use abrasives.

**Office Automation**

Accessories/Storage Drawers:

1. Clean with EV-1 or any liquid ammonia-added cleaner and rinse with clean water, then dry. For best results, wash board like a window with sponge and squeegee.

2. Interim cleaning may be done by sprinkling a dry powdered cleanser on an eraser and applying to the board in a circular motion. Rinse with clean water, then dry.

3. To remove crayon, scotch tape, or other stubborn materials, apply a mild solvent or paste made with scouring powder and water.

**Fabric Boards:**

Despite the durability of most panel textiles, fabric boards are subject to long-term soiling and wear. A regular maintenance program will significantly lessen soil and dirt build up or staining on your fabric boards. Cleaning is particularly important in areas adjacent to air conditioning or ventilation systems.

Remember to consult the care instructions provided by the fabric manufacturer. The general recommendations below should apply to most fabric boards.

1. Avoid excessive heat or moisture which can affect finishes and adhesives. Never allow fabric panels to become wet inside the core. Room temperature should be maintained between 50 and 85 degrees; humidity should be maintained between 20 and 50%.

2. Avoid contact with sharp edges which could puncture the surface.

3. Do not handle fabric boards more than necessary. Avoid bending or flexing the panels; this could break the bond between the surface and core materials.

4. Grease or oil should be wiped off immediately upon contact. Remove excess grease or oil by blotting. Use hot water and mild soap to remove any remaining residue.

5. Whenever possible, clean only with warm water and mild soap. Use caution when applying cleaning agents, particularly those that contain alcohol, strong alkalis, or solvents. These ingredients may react to the vinyl backing or adhesives used in the fabric boards. Always test cleaning agents on fabric from the rear of the panel before using on the front.

6. Care should be taken in using strong room cleaners or pesticides. Their fumes may contain agents which lead to the loosening of the fabric board glue bond.

2. Type of light
3. Height
4. Frame Finish

**Additional Information**

Specify YRC for Antenna beam with hole for T-light application.

All T-lights ship with black Highwire lights.

UL Certified

**Light Source Information**

Each 19" highwire draws 9 watts with 35 LEDs.

50,000 hours lifespan.

**Construction**

T-light structure: die cast aluminum base, extruded aluminum stanchion and steel top channel.

Highwire: LEDs, extruded aluminum housing, plastic reflector and end caps.

**Design Awards**

Best of NeoCon 2013 Silver Award.

T-light is TAA compliant.
Copoland™ Light  
by Stephan Copeland

**Product Description**

- **Standard Arm**
  - Shown with base
  - 13 watt ENERGY STAR rated compact fluorescent bulb (equivalent of 75 watt incandescent bulb).
  - Mounting option must be ordered separately.
  - 20.75” x 21.75” (at 90° angle)
  - Reaches height of 29.75” when extended up and depth of 35.75” when extended out.
  - Pattern no.: COPE-01-
  - List Price: $209.

- **Compact Arm**
  - Shown with base
  - 13 watt ENERGY STAR rated compact fluorescent bulb (equivalent of 60 watt incandescent bulb).
  - Mounting option must be ordered separately.
  - 16.25” x 17.75” (at 90° angle)
  - Reaches height of 23.5” when extended up and depth of 28.75” when extended out.
  - Pattern no.: COPE-02-

- **Replacement Bulb**
  - ENERGY STAR 13 watt replacement compact fluorescent bulb (fits compact and standard lights)
  - Pattern no.: COPEBULB

- **Mounting Options**
  - **Standard base**
    - To be used with standard arm only.
  - **Compact base**
    - To be used with compact arm only.
  - **Table clamp**
    - To be used with either size arm.
    - Works on desks of up to 1 3/4” thick.
  - **Panel Mount, Morrison**
    - Panel mount bracket for Morrison.
    - To be used with either size arm.
  - **Construction**
    - The Copeland Light has a steel arm, aluminum sides, zinc coated cast iron base and metallic-painted ABS shade.
  - **Design Awards**
    - Best of NeoCon 2005, Silver Award.

**Order Code**

- **Example:** COPE-01-SV, COPE-01-BASE-SV

**Light Bulb Information**

- **Standard Light**
  - Ships with a 13 watt compact fluorescent light bulb. This is equivalent light output of a 75 watt incandescent light bulb.
  - 13w/120v/2700K, UL listed, ENERGY STAR rated.
  - An incandescent light bulb can also be used. 75 watt is the maximum.
  - See above for bulb replacement.

- **Compact Light**
  - Ships with a 13 watt compact fluorescent light bulb. This is equivalent light output of a 60 watt incandescent light bulb.
  - 13w/120v/2700K, UL listed, ENERGY STAR rated.
  - A “ceiling fan” incandescent bulb can also be used. 60 watt is the maximum.

Custom Options

- Customer’s own leather (COL)
- Spinnbeck Vicenza (VZ): Aniline dyed, corrected grain leather. The correction process refines the surface of the leather preparing it for the reception of an embossed grain pattern prior to finishing.
- Spinnbeck Velluto Pelle (VP): An aniline dyed, enhanced full grain leather. The combination of the subtle surface enhancement and special ironing process creates the suppleness and smoothness of this leather. Velluto Pelle has a breathable, medium, protective finish.
- Spinnbeck Sabrina (SA): An aniline dyed, full grain, kip leather. The fine quality and light-weight material produce a supple hand and smooth, tight grain appearance. Sabrina receives a breathable, protective finish and is appropriate for high traffic use.
- Manufactured in the United States.

### The Smokador™ Collection
**Contemporary Leather**
deskpad and wastebaskets

**Order Code**
- Example: 3312-4-VZ BLK
- 3312-4: 38" x 24" desk pad
- VZ BLK: Vicenza Black

**Ordering Information**
- Example: 3312-4-VZ BLK
- Specify:
  1. Pattern number
  2. Leather selection

**Spinneybeck leathers:**
- Vicenza (VZ)
- Velluto Pelle (VP)
- Sabrina (SA)

There are 20 rich colors available in Vicenza and more than 100 vibrant colors available in Sabrina and Velluto Pelle. To view the complete color selection, please contact your Knoll sales representative or Spinneybeck. Please note that 10 or more units are required on all Spinneybeck orders.

**Custom Options**
- Custom sized leather conference pads available in sizes up to 38"W x 24"D (rectangular) and 18"W x 12"D (oval).
- Customer’s own leather (COL) available upon approval of sample. 10 unit minimum on all specials. Upcharges based on number of cowhides required for production. Contact your Knoll sales representative or Customer Service for complete pricing information.

**Construction**
- Spinneybeck Vicenza (VZ): A corrected grain, aniline dyed leather. The correction process refines the surface of the leather preparing it for the reception of an embossed grain pattern prior to finishing.
- Spinneybeck Velluto Pelle (VP): An aniline dyed, enhanced full grain leather. The combination of the subtle surface enhancement and special ironing process creates the suppleness and smoothness of this leather. Velluto Pelle has a breathable, medium, protective finish.
- Spinneybeck Sabrina (SA): An aniline dyed, full grain, kip leather. The fine quality and highwight material produce a supple hand and smooth, tight grain appearance. Sabrina receives a breathable, protective finish and is appropriate for high-traffic use.

**Manufactured in the United States, using domestic and Spinneybeck Italian leathers.**

### Order Code

**Example:** OR-LBI-24-111

- **OR-LBI-24** Panel mounted bracket for load bar
- **111** Black

### Ordering Information

**Specify:**

1. Pattern number
2. System Suffix
3. Finish
4. Mounting Option

**Special sizes and small quantity orders may be painted**

- Anodized aluminum finishes: Silver Anodized (SV)
- Painted Core aluminum finishes:
  - Medium Grey (115)
  - Soft Grey (117)
  - Black (111)
  - Beige Mist Metallic (611)
  - Brown (112)
  - Dark Grey (113)
  - Folkstone Grey (114)
  - Sandstone (116)
  - Bright White (119)
- Medium Grey Metallic (612)

**Painted Legacy aluminum finishes are still available for existing customers only:**

- Medium Metallic Grey (DG)
- Soft Grey (E)
- Rusty Patina (WP)
- Flint (F)
- Black (BK)

### Mounting Options

Please note flat panel monitor arms cannot be mounted on Orchestra® load bars. Flat panel monitors can be mounted on Orchestra® slat wall only when mounted on an architectural wall. Please see p. 136 for flat panel monitor support mount options.

### Custom Options

**Note:**

- Load Bar/Info Rails are available in custom lengths. Please note that for all lengths greater than 66", load bars will be painted, not anodized.
- Contact your local Knoll Customer Service representative for details.

### Construction

**Load Bar/Info rail:**

- Corrosion-resistant T-6063 painted or anodized aluminum. Exod caps are textured polysulfone plastic. Load Bar is filled with 1/2 Delrin plastic pellets to support papers on info rail.

- Manufactured in the United States.

### Design Awards

- Outstanding Performance, Product Design Achievement Award, IBD Southern California Chapter, 1991.
- Bronze Award, IBD Product Design Competition, 1990.
### Product Specifications

  - 2: 2 inches, 24 inches

### Mounting Options

- **Please note:** Flat panel monitor arms cannot be mounted on Orchestra®/KnollExtra slat wall. Flat panel monitor arms can be mounted on Orchestra®/KnollExtra slat wall only when mounted on an architectural wall. Please review before mounting. Please see p. 136 for flat panel monitor support options.

### Custom Options

- **Panel, stanchion and wall-mounted brackets:**
  - Wall, stanchion, or panel-mounted brackets are included in the list price and are specified when ordering pattern number. To specify appropriate panel-mounted bracket, consult the KnollExtra Bracket Chart on page 12 for appropriate suffix. For Equity panel-mounted applications, include “X” at end of base pattern number.
  - Worksurface-mounted brackets are for use with load bars and 6 1/2” slat boards only. (14 1/2” slat board is too large for this application.)

### Construction

- **Corrosion-resistant T6063-T5 painted or anodized aluminum. End caps are 11 gauge steel painted matte black. Bottom rail is filled with 57 Delrin plastic pellets to support papers on Info Rail.**
- **Worksurface-mounted bracket: Die-cast aluminum painted black.**
- **Manufactured in the United States.**

---

* No charge when ordered with Load Bar or Slat board, configured in load bar and slat board pattern numbers when ordered with load bars and slat boards.

**Ordering Information**

- Specify 1. Pattern number
- Specify Mounting Options: Panel, stanchion and wall-mounted brackets are included in the list price and are specified when ordering pattern number.
- **Worksurface-mounted brackets:** Metal posts attach to underside of worksurface with C-clamp, raising Load Bar 10" above worksurface. Usable on worksurfaces 7/8"-1 1/2" thick. There should be at least 3/4"-1" of space between the back of the desk and the surface behind (ie: it cannot be flush). Set of 2 brackets. For Load Bars wider than 66", order additional brackets. For use with load bars and 6 1/2" slat boards only.

**Mounting and Application Information**

See page 136 for comprehensive mounting, application and construction information.
Sapper™ Monitor Arm Collection
Mounting, Construction and Application Information

Mounting and Application Information:
All Sapper standard monitor arms:
• Maximum weight of 20 lbs per arm, weight limits vary by mounting option
• Ship standard with fast release movement joint
• Offer 117 degrees of monitor tilt up and down, 180 degrees of swivel left and right and 360 degrees of rotation for portrait and landscape viewing
• Fold into themselves to be deeply compact on either side of the beam, weight limits vary by mounting option
• Ship standard with fast release movement joint
• Offer 117 degrees of monitor tilt up and down, 180 degrees of swivel left and right and 360 degrees of rotation for portrait or landscape viewing
• Fold into themselves to be deeply compact (only 4.75” when fully compressed)

*Please note this limit accommodates up to 95% of monitors on the market. There is no specific monitor size maximum limitation for a single Sapper monitor arm. A larger size (e.g., 24” widescreen) does not necessarily equate to a higher weight monitor. It is key to understand the maximum weight limitation for each arm and the individual arm limit you can determine the best mounting approach for your client given the number of monitors, weight limits of those monitors, weight limits are closed by mounting option on the next few pages.

For example, if you want to mount two monitors on a worksurface with a maximum of 14” from the front of each of those monitors weighs 18 lbs (2 monitors x 18 lbs each equals 36 lbs total), we can accommodate that with our standard arm. However, we cannot accommodate the weight of those monitors. Weight limits are closed by mounting option on the next few pages.

Weight Limits:
Weight limits for individual mounting options are outlined below. Taken together (both single arm and double arm setup) the weight limit is specific to the Sapper 50 arm. You cannot use the Sapper 50 arm with the compact mount. Please note that the Sapper 50 Direct Wall Mount is specific to the Sapper 50 arm. You cannot use the Sapper 50 arm with the compact mount. Please note that the Sapper 50 Direct Wall Mount is specific to the Sapper 50 arm. You cannot use the Sapper 50 arm with the compact mount.

Please note that the Compact Arm Direct Wall Mount is specific to the Compact arm. You cannot use the Sapper 50 arm with the compact mount. Please note that the Sapper 50 Direct Wall Mount is specific to the Sapper 50 arm. You cannot use the Sapper 50 arm with the compact mount.

For use on architectural walls only as outlined further on this page. Knoll cannot be held responsible for the structural integrity of a wall so please work with clients to ensure their wall is structurally sound to hold the arm configuration and the monitor weight. See above for weight limits of mounting slat wall to an architectural wall.

Direct Wall Mast Mounting:
For single monitor mounting, you can use either the slat wall mast mount or direct slat wall mount. For double or triple monitor mounting, you must use the slat wall mast mount. The slat wall direct wall mast mount cannot be used for multiple monitors. Works with most Knoll slat board and slat board profiles, however, load ratings vary across product and mounting approaches. Please review product breakdown on the following pages to ensure compatibility with your specific application needs.

For single monitor mounting, you can use either the direct wall mast mount or direct wall mount. For double or triple monitor mounting, you must use the direct wall mast mount. The direct wall mast mount cannot be used for multiple monitors. Please note that the Compact Arm Direct Wall Mount is specific to the Compact arm. You cannot use the Sapper 50 arm with the compact mount.

For use on architectural walls only as outlined further on this page. Knoll cannot be held responsible for the structural integrity of a wall so please work with clients to ensure their wall is structurally sound to hold the arm configuration and the monitor weight. See above for weight limits of mounting slat wall to an architectural wall.

Some larger (over 22” wide) widescreen monitors now come with the larger VESA standard (200 mm x 100 mm x 200 mm x 200 mm) which can be accomodated by ordering the VESA Plate Adapters in the price list.

Knoll cannot be held responsible for the structural integrity of a wall so please work with clients to ensure their wall is structurally sound to hold the arm configuration and the monitor weight. Please note that the Compact Arm Direct Wall Mount is specific to the Compact arm. You cannot use the Sapper 50 arm with the compact mount.

For single monitor mounting, you can use either the compact arm slat wall mast mount or direct slat wall mount. For double or triple monitor mounting, you must use the compact arm slat wall mast mount. The compact arm slat wall mast mount cannot be used for multiple monitors. Please note that the Compact Arm Direct Wall Mount is specific to the Compact arm. You cannot use the Sapper 50 arm with the compact mount.

For use on architectural walls only as outlined further on this page. Knoll cannot be held responsible for the structural integrity of a wall so please work with clients to ensure their wall is structurally sound to hold the arm configuration and the monitor weight. See above for weight limits of mounting slat wall to an architectural wall.

Sapper 50 Direct Wall Mounting (for Sapper 50 monitor arm):
For single monitor mounting, you can use either the direct wall mast mount or direct wall mount. For double or triple monitor mounting, you must use the direct wall mast mount. The direct wall mast mount cannot be used for multiple monitors. Please note that the Sapper 50 Direct Wall Mount is specific to the Sapper 50 arm. You cannot use the Sapper 50 arm with the compact mount.

For use on architectural walls only as outlined further on this page. Knoll cannot be held responsible for the structural integrity of a wall so please work with clients to ensure their wall is structurally sound to hold the arm configuration and the monitor weight.
Cable Management:
Monitor Arms
External cable management allows for easy installation and removal of monitors. There are gates under the arm that will contain wires from the monitor to plastic cable management clips that go on the mast to keep wires tidy to the electrical socket.

Gates

Clips

For the beam solutions, there are beam cord management clips on the back of the beam (6 on the small, 8 on the medium, 10 on the large) that can hold wires from the monitor to the mast cable management. The beam mast cable management is wider than the standard mast cable management to accommodate multiple monitor wires.

Height Adjustment

Rotation, Swivel, Tilt and Depth Adjustment

Fast Release

Monitors

Fast Release:

Adjustment:
The Sapper monitor arm collection offers intuitive adjustment. To adjust the height, you simply manually lift the arm and twist the adjustment knob like a screw up or down the mast to a comfortable setting. The easiest way to lift the monitor is to fold it in before making the adjustment. To adjust the depth, you can move the arm in or out. You can also rotate the monitor 360 degrees for landscape or portrait viewing and adjust the swivel back and forth 180 degrees and tilt up and down 165 degrees. The arm folds in and out from 2 3/8” fully compressed to approximately 17” when fully extended.

Fast Release:

Monitors

Allows for swift installation and removal of flat panel monitors by merely popping the quick release pin up to remove monitor with movement joint/back plate attached.

Fast Release

Construction:
Arm: die cast aluminum with a cold rolled steel top plate
Mast: anodized aluminum extrusion
Beam: satin anodized extruded aluminum
Adjustment knob: nylon undermold with a TPU overmold
Movement joint (includes fast release monitor plate): plastic bushings, zinc and plastic molded plastic tilt friction components and glass filled nylon VESA plate
Movement joint slide: aluminum, powder coated silver
VESA plate adaptors: steel
Table clamp, grommet mount, fixed table mount, COT Center channel mount, DH Bunching mount, Antenna center beam center mount: steel
Slat wall and wall mount (both mast mount and direct, both standard and compact sizes): die cast aluminum with steel back plates
Double arm bracket: die cast aluminum, steel top plate, extruded aluminum posts, plastic upper and lower bushings
Triple support arm bracket: die cast aluminum, steel top plate, extruded aluminum posts, plastic upper and lower bushings
Mast-to-beam bracket: aluminum, powder coated silver
Cable management: transparent polycarbonate clips on the mast and beam, plastic gates under standard arms
Antenna and Quadruple support arm bracket: die cast aluminum
Two-Piece Table Clamp, Deep Table Clamp, Heavy-Duty Table, Clamp, Grommet, Fixed Table, Ciot Center Open Table Center Channel, Dividers Horizon Bunching and Antenna Center Beam Table Mounting: steel
Antenna Table Center Beam Side Mounting: die-cast Aluminum
Slat Wall and Wall Mount - both Direct Mast Mounting, Direct Mounting and Sapper 3D Direct Mounting (for both standard and compact arms): Die-cast Aluminum with steel back plates
Quadruple arm bracket: Die-cast Aluminum

Compatibility:
The Sapper Monitor Arm Collection is not compatible with the Wishbone Flat Panel Monitor Support System (i.e., Wishbone, Zorro or Rotation arms, posts, tool bars, brackets, mounting, etc.). They have been designed independently and as such parts from one system cannot be used with the other.

Monitors cannot be mounted on KnollExtra® or Orchestra® tool bars.

Installation Instructions:
Comprehensive installation instructions will be shipped with product and are also available on Knoll Exchange for easy reference.

**Autostrada Buttress**
- 60 lbs | 20 lbs | 20 lbs | 30 lbs | 30 lbs | 40 lbs | 40 lbs | 50 lbs | 50 lbs |

**Notes:**
- For standard, compact and sleeve arms, mast heights 8’, 12’ and 16’ maximum load limit achieved using multiple monitor arm bracket or stacking arms.
- For Sapper 50 arms, mast heights 8’, 12’ and 16’ maximum load limit achieved using single arm or stacking arms.
- Single/Double/Triple Quad solutions can hold 20 lbs per arm. Sapper 50 can hold up to 50 lbs per arm.
- Quadruple monitor arm not an option.

**Wall Mounting Weight Limits**

- Note: Weight limit per arm to 20 lbs., unless weight limit for mounting option specified is less.
- Note: Weight limit per arm to 50 lbs., unless weight limit for mounting option specified is less.

**Sapper Multiple Monitor Beam Solutions Weight Limits and Mounting Notes**

---

*Note: You can purchase pieces outside of kits and support additional monitors that will physically fit, only up to weight limits listed. 20 lbs per standard monitor mount, 50 lbs per Sapper 50 monitor mount.*

Mounting and Application Information
See page 150 for comprehensive mounting, application and construction information.
Sapper XYZ® Monitor Arm
Mounting, Construction and Application Information

All Sapper XYZ monitor arms:

- Maximum weight of 20 lbs per arm *
- Ship standard with fast release movement joint
- Offer 360 degrees of pivot at the base and at the elbow joint
- Offer 153 degrees of monitor tilt up and down, 130 degrees of swivel left and right and 360 degrees of rotation for portrait and landscape viewing
- Fold into themselves to be highly compact at less than 2 inches when fully compressed
- Are durable and lightweight (weights only: 4 pounds)

*Please note this limit accommodates up to 95% of monitors on the market.

Size Limits:

Monitor Arms
There is no specific maximum size for a Sapper XYZ monitor arm (outside the limitations of the space in which you are trying to put it).

Flat panel monitor manufacturers refer to their products by diagonal screen measurements. So a 19" widescreen monitor has a 19" screen measurement. So a 19" monitor has a 19" screen measurement. So a 19" widescreen monitor arm is only 75 mm x 75 mm holes, has a recessed monitor back with a 19" outside the limitations of the entire 19" (outside the limitations of the space in which you are trying to put it).

VESA compliance is a requirement to mount any monitor to a monitor arm. If your customer has a recessed monitor back with only 75 mm x 75 mm holes, additional spaces may be needed to ensure proper fit. Contact Customer Service for more details including part and pricing information.

Knoll movement joints do not ship with screws and are designed to accept an M4 or M5 screw. M6's limits and M8's 10mm are the most common screw lengths but length is dependent on the specific monitor or television and screw should be tested prior to installation to ensure correct length. Knoll is not responsible for use of incorrect screws. A VESA plate adapter may be necessary for larger monitors and televisions and can be ordered separately in the sizes of 100 mm x 200 mm (M4 screws), 200 mm x 200 mm (M4 screws), 300 mm x 300 mm (M5 screws) and 400 mm x 400 mm x 600 mm (M6 screws). Adaptors ship with separate installation instructions and may require spacers. Knoll VESA plate adaptors ship with screws to attach the adaptor to the Knoll VESA plate but do not ship with screws to attach the adaptor to the monitor or television (see screw sizes listed above). English sizes may need to be ordered separately as metric screws are not dependent on the specific monitor or television and screws should be tested prior to installation to ensure correct length. Knoll is not responsible for use of incorrect screws.

Knoll and its dealers will not take the responsibility for mounting the monitor to the arm. The end user's IT department must confirm VESA mounting compliance and mount the monitor to the arm using customer's own screws. Please follow installation instructions closely (available in each kit box shipped as well as on Knoll Extra).

Apple Computer Note:

Apple M6s are not VESA compliant. To mount an M6 or LED Cinema Display to a Sapper arm contact to purchase a Cinema Display VESA Mount Adapter Kit from Apple. The adapter kit comes standard with a 100 mm x 100 mm hole pattern and can be purchased online at apple.com.

Clamp Mounting:

Two-Piece Table Clamp Mounting:

The standard two-piece table clamp is easy to install or retrofit and works on most worksurfaces or decks that are a minimum of 1 3/4" thick solid core. The maximum worksurface thickness is 2 3/4". There are four settings to accommodate a range of worksurface thicknesses. It is important to mark up the table clamp, particularly on competitive products, to ensure a proper fit. The clamp is not compatible with Morrison Network.

Deep Table-Clamp Mounting:

This clamp is one piece and works on most surfaces. The deep table clamp mount is intended to clear most kindle-edge (45 degree angle) desks or worksurfaces.

Grommet Mounting:

With all systems furniture, it is important to have a grommet to accommodate a range of worksurfaces. Grommet mount will cover where it is still loose. Please note the grommet mount is compatible with Morrison, Autostrada, Bell, Propeller, but is not compatible with the Graham Collection or Dividends Horizon grommet holes. To use on Morrison Network, spacers must be requested through Customer Service. The required cutout in the worksurface is 3.1/2", which includes room for the threaded stud (actual hole in the grommet plate is 1.48 x 1.57)

Fixed Table Mounting:

Installs will need to drill a permanent hole into the work surface so the post will be fixed to a dedicated location on the work surface. Please note with this mounting, the mount will not be able to be moved once the monitor is installed. The work surface must have adequate structure. Knoll cannot be held responsible for the structural integrity of non-Knoll worksurfaces.

Antenna Table Center Beam Side Mounting:

This mount allows you to clear a shelf or desk while allowing for maximum work surface usage and individual height adjustment without the need to stagger users. Please note a screen can be mounted in the center beam with a monitor arm in front of it. The fit will be snug and flush with the screen.

Cable Management:

External cable management allows for easy installation and removal of monitors. There is a cable management block in the channel under the arm that will contain wires from the monitor to plastic cable management clips that go on the post to keep wires tidy to the electrical socket.

Arm Adjustment:

The Sapper XYZ monitor arm collection offers intuitive one touch adjustment. To adjust the height, you simply lift the monitor to the desired position. To adjust the depth, you pull or push the monitor in or out. You can also rotate the monitor 360 degrees for landscape or portrait viewing, adjust the arm over and under 108 degrees and tilt up and down 153 degrees. The arm folds in and out from 2 fully compressed to approximately 24" when fully extended.

Weight Adjustment:

The Sapper XYZ monitor arm is preset for a 10 lb monitor. Other monitor weights up to 20 lbs can be accommodated by adjusting the weight adjustment nut to the proper weight using the Allen key wrench on the back of the movement joint. Note that the 20 lb setting is not valid on the scale. Turn clockwise to decrease weight or counterclockwise to increase weight to appropriate level. The arm should be held in a downward position if increasing the weight and in an upward position if decreasing the weight. When proper weight is set, the arm should stay exactly where you place it.

Fast Release:

Allows for swift installation and removal of flat panel monitors by merely popping the quick release pin up to remove monitor with movement joint back plate attached. Be sure to fold the arm to the highest position before removing monitor, or the arm will quickly move upwards.

Thief Deterrence:

All movement joints come with a set screw within the fast release pin, to prevent fast release if so desired.

Compatibility:

The Sapper XYZ monitor arm is not compatible with Knoll Monitor Arm Collection. It has been designed independently and as such, parts from one system cannot be used with the other, with the exception of the movement joint. Finish colors are consistent across the Sapper XYZ and Knoll Monitor Arm Collection portfolios.

Monitor arms cannot be mounted on KnollExtra™, Autostrada, Propeller, but is not compatible with Morrison Network, Molecular, Reff, Propeller, but is not compatible with Morrison Network, Autostrada, Bell, Propeller.

Installation Instructions:

Comprehensive installation instructions will be shipped with product and are also available on Knoll Exchange for easy reference.

Construction:

Arm: the cast aluminum with steel channels and plastic molded shroud movement joint (includes fast release monitor plate), plastic bushings, zinc and plastic molded plastic friction components and glass filled nylon E6A plate.

VESA plate adaptors: steel

Table clamp, grommet mount, fixed table mount: steel

Cable management: transparent polycarbonate clip on the post; soft plastic in channel under arm.

Antenna Table Center Beam Side Mounting: the cast aluminum.

- OAK-RJ-SS2-BK-(16,18,22,23,25)
- OAK-RJ-SS2-BK-PT-(16,18,22,23,25)

Application Notes:
- Keyboard support provides users with a more comfortable working environment by allowing them to adjust the height and pitch of the keyboard. When not in use, the Adjustable Keyboard Support stores the keyboard under the worksurface to free vital worksurface space. Dimensions above are for the platform only. For full configuration details, all component measurements and application suggestions, refer to the Keyboard Measurements tool on Knoll Exchange.

Mechanism Attributes:
- All mechanisms have the following features:
  - Spring-assist adjustment
  - Knobless height adjustment
  - Pivot side to side 360°
  - Black textured metal finish

Easy Lift Arm Products:
- Easy lift arm:
  - Soft touch knob adjusts tilt from 0° to (+) 15°
  - Variable height adjustment of 7.04” (up 2.83”, down 4.21”)

Advanced Easy Lift Arm Products:
- Advanced Easy lift arm:
  - Soft touch knob adjusts tilt from 0° to (+) 15°
  - Variable height adjustment of 11.57” (up 6.40”, down 5.17”)

Antenna Mounting Note:
- In order to mount Antenna Technology Management inside or cable basket. For taller individuals, we recommend using a pivot solution allowing it to stay parallel to the keyboard under the worksurface. For sits-to-stands, refer to the Keyboard Measurements tool on Knoll Exchange.

#### Construction

- **Caesar:** Black textured powdercoated steel plate
- **Mechanisms:** All arms are steel with a powdercoat finish. Tracks are steel with nylon glides.

#### Application Notes

Keyboard support provides users with a more comfortable working environment by allowing them to adjust the height and pitch of the platform holding their computer keyboard. When not in use, the Adjustable Keyboard Support stores the keyboard under the worksurface to free vital worksurface space.

#### Mechanism Attributes

**Easy lift arm:**
- Spring assist adjustment
- Knobless height adjustment
- Soft touch knob adjusts tilt from 0° to (-) 15°
- Variable height adjustment of 7.04" (up 2.83", down 4.21")
- Pivots side to side 360°
- Black textured finish with black soft touch knob
- Mounts on virtually any worksurface

**Sit/Stand arm:**
- Spring assist adjustment
- Knobless height adjustment
- Soft touch knob adjusts tilt from 0° to (-) 15°
- Variable height adjustment of 11.57" (up 6.40", down 5.17")
- Pivots side to side 360°
- Black textured finish
- Mounts on virtually any worksurface

#### Antenna Mounting Note

In order to mount to Antenna Workstation tables, you will need to order a special adapter available through that price list. Pattern code is YAK.

Keyboard tray must be specified with a sliding track that is less than the depth of the top and anything below the top such as a power harness or cable basket.

For taller individuals, we recommend using a pivot solution mounted on the diagonal to maximize knee space.

**Application Notes**

Keyboard support provides users with a more comfortable working environment by allowing them to adjust the height and pitch of the platform holding their computer keyboard. When not in use, the Adjustable Keyboard Support stores the keyboard under the worksurface as the arm is moved independently from arm, allowing it to stay parallel to the worksurface and maximize knee space.

**Mechanism Attributes**

- **Easy lift arm:**
  - Soft touch knob adjust tilt from 0° to (+) 15°
  - Variable height adjustment of 4.26" (up 1.66", down 3.20")
  - Easy lift arm:
    - Soft touch knob adjust tilt from 0° to (+) 15°
    - Variable height adjustment of 7.64" (up 2.08", down 5.16")
  - Sit/Stand arm:
    - Soft touch knob adjust tilt from 0° to (+) 15°
    - Variable height adjustment of 11.57" (up 6.40", down 5.17")

- **Pivot feature:**
  - Allows the keyboard platform to move independently from arm, allowing it to stay parallel to the worksurface as the arm is moved laterally.

**Antenna Mounting Note**

In order to mount to Antenna, you will need to order a special adapter available through that price list. Pattern code is Y1K.

Keyboard tray must be specified with a sliding track that is less than the depth of the top and anything below the top such as a power harness or cable basket.

For taller individuals, we recommend using a pivot solution for the keyboard position to ensure that the arm is moved independently from arm, allowing it to stay parallel to the worksurface as the arm is moved laterally.
Adjustable Keyboard Supports

- List: List price

**Application Notes**

- Keyboard support provides users with a more comfortable working environment by allowing them to adjust the height and pitch of the platform holding their computer keyboard. When not in use, the Adjustable Keyboard Support stores the keyboard under the worksurface to free vital worksurface space.
- Dimensions above are for the platform only. For full configuration depth, all components measurements and application suggestions refer to the Keyboard Measurements tool on Knoll Exchange.

**Mechanism Attributes**

**All mechanisms have the following features:**

- Spring assist adjustment
- Knobless height adjustment
- Pivot side to side (15°)
- Black textured metal finish

**Easy lift arm:**

- Soft touch knob adjust tilt from 0° to (+)20°
- Variable height adjustment of 4.26” (up 1.16”, down 3.10”)

**Sit/Stand arm:**

- Soft touch knob adjust tilt from 0° to (+)15°
- Variable height adjustment of 11.57” (up 6.38”, down 5.17”)

**Advanced Easy lift arm:**

- Soft touch knob adjust tilt from 0° to (+)20°
- Variable height adjustment of 0.0” (up 2.38”, down 6.25”)

**No/Stand arm:**

- Soft touch knob adjust tilt from 0° to (+)15°
- Variable height adjustment of 11.57” (up 6.38”, down 5.17”)

**Antenna Mounting Note**

- In order to mount to Antenna Workplace tables, you will need to order a special adapter available through that price list. Pattern code is YAK.
- Keyboard tray must be specified with a sliding track that is less than the depth of the top and anything below the top rail or a power harness or cable basket.
- For taller individuals, we recommend using a pivot solution mounted on the diagonal to maximize knee space.

OAK Office automation keyboard

A2 Act II

P Phenolic (standard)

T Mouse pad comes standard on right side

EL2 Easy-lift mechanism

BK Black

18 Track length of 18 inches

Ordering Information

Track length options are 16, 17.75, 21.625, 22.63 and 25 inches. Standard color is black.

Minimum clearance required is the length of the track plus 1/2".

Application Notes

Keyboard support provides users with a more comfortable working environment by allowing them to adjust the height and pitch of the platform holding their computer keyboard. When not in use, the Adjustable Keyboard Support stores the keyboard under the worksurface to free vital worksurface space.

Dimensions above are for the platform only. For full configuration depths, all component measurements and application suggestions refer to the Keyboard Measurements tool on Knoll Exchange.

Construction

Board is phenolic.

Wristrest is foam-filled vinyl on MDF board.

Mousepad is lycra covered polyurethane.

Mechanism: All arms are steel with a powder-coated finish. Tracks are steel with nylon glides.

Mechanism Attributes

All mechanisms have the following features:

- Spring assist adjustment
- Knobless height adjustment
- Pivot side to side 360°
- Black textured metal finish

Short easy lift arm:

- Soft touch knob adjusts tilt from 0° to (+) 15°
- Variable height adjustment of 4.26" (up 1.06", down 3.20")

Easy lift arm:

- Soft touch knob adjusts tilt from 0° to (+) 15°
- Variable height adjustment of 7.04" (up 2.83", down 4.21")

Advanced Easy lift arm:

- Soft touch knob adjusts tilt from 10° to (+) 20°
- Variable height adjustment of 8.8" (up 2.38", down 6.5")

Sit/Stand arm:

- Soft touch knob adjusts tilt from 0° to (+) 15°
- Variable height adjustment of 11.57" (up 6.40", down 5.17")

Pivot feature:

Allows the keyboard platform to move independently from arm, allowing it to stay parallel the worksurface as the arm is moved laterally.

Ordering Information
Specify:
1. Pattern number

Construction
Workface mounted surf mousepad:
Black painted steel mechanism mounted with hard surface backed surf mouse pad.

Juliet mouse pad:
TPE (thermoset elastomer) overmolded with 40% reinforced polypropylene undermold.

Juliet Palm rest:
Nylon upholstered palm rest is dual density polyurethane. The gel beneath the fabric, nominally 0.65", is formulated to provide soothing support.

Not all mousing solutions are appropriate with all platforms.
Freestanding Surf® Ergonomic Accessories
by Ross Lovegrove & Stephen Peart

**Product Description**

**Type**

- **Wrist Rest**
  - Soft, biomorphic form reduces strain on wrist.
  - Long, radial shape with single straight edge ensures a tight fit with standard size keyboards.
  - Gel pad for greater use comfort.

- **Lumbar Support**
  - Self-adjusts over any seat back.
  - Heat and pressure reactive foam responds to individual user.
  - Support returns to original form within 10 seconds after use.
  - Neoprene nylon outer skin allows body to breathe comfortably.

- **Surf Board VDT Corner**
  - Fits any worksurface thickness or edge profile.
  - Creates generous 24” wide VDT corner, 14” from worksurface corner.
  - Can be adjusted to any angle, or removed when not needed.
  - Integral non-handed mouse pad.
  - Felt back and rubber bumpers protect worksurface.

**Pattern Numbers and List Prices**

- **Wrist Rest**
  - **SF-WR-FS-(BK)-G**
    - Pattern number: H11033
    - Width: 4½”
    - Depth: 1”

      - List price: $306.

  - Soft touch finish:
    - Pattern number: H11033
    - Width: 41½”
    - Depth: 16½”
    - Height: 1”
    - Weight: 14 lbs.
    - List price: $385.

**Order Code**

- Example: SF-58-E
- SF-58 Metallic finish Surf Board VDT Corner
- E Soft grey

**Ordering Information**

- Specify:
  1. Pattern number
  2. Finish

**Neoprene nylon finishes:**
- Black (BK)
- Surf grey (E)
- Soft Touch Light Grey (GS)
- Soft Touch Black (BS)

**Ergonomic Value**

- The Surf Collection wrist rest, mouse pad, and lumbar support play a critical role in workplace ergonomics. Proper use of these pieces helps users maintain the body neutral position, reducing harmful strain on muscles and joints. The collection’s design advantage is in its simplicity. These accessories are extraordinarily versatile and flexible, responding to the individual needs of the specific user, unlike over-engineered mechanical pieces.

- Each piece in the Surf Collection is a “footprint form,” derived from natural ergonomic movements. No sharp edges or angles are used. As a result, the accessories can be approached by the user from any direction. The soft, biomorphic shapes of the Surf Collection echo the curves and contours of the human body.

**General Notes**

- The Surf Lumbar Support rests loosely over the chair like a saddle bag, held in place by a counter balance weight. The piece is easily adjusted up or down, to the preference of the user.
- The support’s high performance patented foam molds itself to both the user and the chair back. As the user moves throughout the workday, the foam responds in kind, continuously resculpting itself around the user’s body. When body pressure is removed, the lumbar support returns to its original form within 10 seconds, ready for the next user.

**Construction**

- **Surf Board**
  - Rigid steel plate with 1” thick rolled front detail. Black rubber bumpers and non-scratching felt back.

- **Rivet rest and mouse pad**
  - Nylon upholstered dual-density polyurethane. Gel laminate fabric, nominally .65”, is formulated to provide soothing support by displacement.

- **Lumbar support**

- Manufactured in the United States.

**Design Awards**

- First place, Interior Design Product Award, ASID, 1994.
- High Design Quality Red Dot Award, Design Zentrum, Germany, 1994.
Freestanding Ergonomic Accessories

**VDT Sleeve**

- Racetrack-shaped sleeve slides over worksurface to create VDT corner.
- Creates 17 5/8" wide VDT corner, 9" from worksurface corner.
- Can be adjusted to any angle, or removed when not needed.
- Heavy-gauge steel with felt backing to prevent scuffing.
- Available in two metallic and two soft-touch finishes.

**Ordering Code**

- **OA-CPU** CPU holder
- **SLNG** Sling style
- **V** Vertical mounting option

**Ordering Information**

Specify:
1. Pattern number

**Installation Notes**

CPU holders come standard with a 173/4" long track. They mount on work surfaces 181/2" or deeper.

**Construction**

- Sling CPU Holder: Black painted steel mounting mechanism. Woven vinyl coated polyester sling.

**Custom Options**

- Longer and shorter track lengths are available. Contact Customer Service for pricing information.

**Antenna Mounting Note**

In order to mount to Antenna Workspace tables, you will need to order a special adapter available through that price list. Pattern code is YACPU.

Any KnollExtra CPU Holder can be mounted under a top deeper than the mounting track.
# BackPack® Universal Storage Drawers

by Robert Reuter

suspended files

## Standard Suspended File
- Full width, 4 3/4" W pencil trough.
- Two removable plastic organizing trays.
- Generous 16" side-to-side hanging letter files.
- Accepts 12" front-to-back hanging legal or European A-4 and foolscap files.
- Drawer contains 107% capacity of standard file drawer.
- Optional lock.
- Black painted steel construction with full extension ball-bearing slides.

BP-SSF

**Ordering Information**

1. Pattern number
2. Lock option

**Application Notes**

For wire management needs, the minimum depth worksurface for standard depth drawers is 24". For deep drawers, the minimum depth is 30". When no wire management is necessary, BACKPACK Storage Drawers may be used on 18" worksurface and BACKPACK Deep Suspended File may be used on 24" worksurface.

## Deep Suspended File
- Full width, 5 1/2" W pencil trough.
- Two removable plastic organizing trays.
- Full width, 5 1/2" W intermediate compartment holds computer disks, desk supplies and personal items.
- Accepts 16" side-to-side hanging letter files.
- Accepts 12" front-to-back hanging legal or European A-4 and foolscap files.
- Drawer contains 107% capacity of standard file drawer.
- Optional lock and mouse pad.
- Black painted steel construction with full extension ball-bearing slides.

  - 2. Lock option

- Lock option: Lock attaches to slides in field. Removable for use elsewhere.

#### Application Notes

- BackPack drawers can be used with virtually any Knoll or other wood worksurface.
- BackPack storage drawers attach to the underside of wood worksurfaces at any location. In most cases, the drawers may be mounted flush to side panels. When supporting brackets extend farther than 2 1/2", from the side panel, a slight reveal will occur. Mounting hardware and template included.

For wire management needs, the minimum depth worksurface for standard depth drawers is 24"; minimum depth for deep drawers is 30". When no wire management is necessary, the Standard Suspended File may be used on an 18" worksurface and the Deep Suspended File may be used on a 24" worksurface.

#### Construction

- Die-cast zinc lock painted black. Manufactured in the United States.

#### Design Awards

#### Knee clearance

In order to maximize filing capacity, the Standard and Deep Suspended Files do not provide adequate knee clearance. For center worksurface applications, specify the Keyboard or Center File Drawers.

- **Example**: ORCH-PD-A
- **Pattern number**: Specify
- **Application Notes**: Universal Pencil Drawer can be used with virtually any Knoll or competitor wood worksurface.
  - Minimum depth worksurface for drawer is 24". On freestanding Morrison Network systems, a 30" deep worksurface is required.
- **Construction**: Universal pencil drawer: Durable vacuum-formed ABS plastic drawer in a matte black, textured finish. Three-quarter extension, ball bearing metal slides with smooth, silent movement. Manufactured in the United States.
- **List Price**: $221.00
Universal Marker Boards  
by Bruce Hannah & Ayse Birsel

No charge when ordered with Marker or Tack Board

Mounting Options

- Panel-Mounted Brackets (Generic shallow)
- Panel-Mounted Brackets (Generic deep)
- Panel-Mounted Brackets for Dividends
- Panel-Mounted Brackets for Morrison
- Panel-Mounted Brackets for Roff
- Top Cap-Mounted Brackets (Dividends only)
- Top Cap-Mounted Brackets (Roff only)
- Top Cap-Mounted Brackets, Set of 2 (Morrison only)

Marker Tray

- Anodized aluminum snap-fit tray for Marker Board

Ordering Information

- Specify:
  1. Patterns number
  2. Frame finish
  3. Mounting option
  4. System suffix (panel and top cap-mounted only)
  5. Marker Tray (optional)
  6. Marker Tray finish

Construction

Satin anodized aluminum frame (can be powder coated black). Porcelain coating on cold rolled steel laminated to corrugated and laminate on inside. All Universal Marker Boards are magnetized.

Manufactured in the United States.

System suffix (panel and top cap mounted)

- Pattern number
- Frame finish
- Mounting option
- Panel-Mounted Brackets (Generic shallow)
- Panel-Mounted Brackets (Generic deep)
- Panel-Mounted Brackets for Dividends
- Panel-Mounted Brackets for Morrison
- Panel-Mounted Brackets for Roff
- Top Cap-Mounted Brackets (Dividends only)
- Top Cap-Mounted Brackets (Roff only)
- Top Cap-Mounted Brackets, Set of 2 (Morrison only)

Other mounting surface options available.

- Top cap-mounted: Equity and Morrison Network Systems brackets available. Use bracket patterns listed below Equity K and Morrison Network M.

Note:

If your system is not listed, contact your Knoll sales representative or Customer Service for appropriate panel-mounted bracket to specify.

Product selection:

- Panel-Mounted: Specify pattern number.
- Top cap-mounted: Specify pattern number.

Wall-Mounted: Specify pattern number.

Equity application note:

For all Equity panel-mounted applications, add “E” to end of line pattern number.

Example:

- OR-WB-24-18-BK
- OR-WB-PM-B
- OR-WB-PM-D
- OR-WB-PM-E
- OR-WB-PM-M
- OR-WB-PM-R
- OR-WB-TCM-DV *
- OR-WB-TCM-E *
- OR-WB-TCM-M *
- OR-WB-TR

* Please consult Customer Service for lead times.

- F-36-24-R2-A-30-
- F-48-24-R2-A-30-
- F-60-24-R2-A-30-

**Fabric Boards**
- Standard fabric board has 1/2" thick mineral board construction with squared corners.
- Rounded or radial-edged, available at upcharge.
- Panel or wall mounting options.

**Ordering Information**
- Specify: Panel mounted brackets are included in the list price but must be specified separately. To specify appropriate panel-mounted bracket, consult the KnollExtra Bracket Chart on page 12.
- System suffix (panel-mounted option only).

**Mounting Options**
- Wall-mounted applications will be used contiguous to another fabric board. Drawings are required and there will be an up-charge.
- 60" wide boards in fabric grades 50, 55 and 60.
- Fabric board must be 2.5" thick mineral board. See page 116 for edge upcharge.
- Standard fabric board has 1/2" thick mineral board.

**Custom Options**
- Fabric Selection
  - Grade 10
  - Grade 20 (cont.)
  - Grade 40
  - Grade 50
  - Grade 55
- Grade 20 (cont.)
  - Grade 30
  - Grade 40
  - Grade 50
  - Grade 60

**Construction**
- 1/2" thick mineral board for durable, highly tactile surface.
- Manufactured in the United States.

**Customer's own material:**
- For panel-mounted applications, all OP18 and textile that are not pre-approved must be CL-tested. Please consult Knoll sales for fabrication details.

**Customer's own material:**
- For approval, submit at least one yard of fabric for application testing.
- All OP18 and textile that are not pre-approved must be CL-tested. Please consult Knoll sales for fabrication details.

<td>36.00</td>
<td></td>
</tr>
</tbody>
</table>

**Order Code**

Example: F-60-14/S1-A-40-W337/4

**Ordering Information**

- Specify:
  1. Pattern number
  2. Corner/edge detail
  3. Fabric grade
  4. Fabric selection
  5. Mounting option pattern number
  6. System suffix (panel-mounted option only)

**Mounting Options**

- Panel-mounted brackets include in the list price but must be specified separately. To specify appropriate panel-mounted bracket, consult the Knoll sales bracket chart on page 12.
- Panel mounted bracket size must match height of fabric board.
- Wall-mounted options: Wall-mounted applications must be specified as flash (F-WM-F) or reveal (F-WM-R). Both options are appropriate for any smooth, clean surface.
- Flash wall-mount option utilizes velcro squares.

**Custom Options**

- For special sizes: For specials contact Customer Service. Maximum fabric board size is 120"W x 24"H. Fabric must be railroaded on any panel wider than 60".
- Customer's own material: For approval, submit at least one yard of fabric for application testing. For panel-mounted applications, all COMs and textiles that are not pre-approved must be UL-tested. Please consult Knoll sales Customer Service for details.

**Corner/Edge Detail**

- S1. Squared corner/Rectilinear edge
- R2. Rounded corner/Radiused edge

**Construction**

- Standard fabric board has squared corner and rectilinear edge details. See above for edge upcharge.
- Standard fabric board has 1/2" thick mineral board.
- Standard fabric board has 1/2" thick mineral board for durable, highly tackable surface.

### Specification Information
- **Example Order Code**: ACT-CB-M-LW-30-54-X-111
  - **ACT**: Activity Spaces
  - **CB**: Communication Boards
  - **LW**: Laminate Whiteboard
  - **30-54**: 30" x 54" board
  - **X**: No marker tray
  - **111**: Jet Black finish

### Application Notes
- **Marker Tray Option**: Marker tray must be ordered with markerboard and are not retrofitable in the field. Replace -X in pattern with:
  - S $75 Marker tray on one side
  - D $150 Marker trays on both sides

### Note
- Each markerboard ships with four dry erase markers (blue, green, red and black) and a microfiber cleaning cloth.
- Overall height from floor is 72" high with writable surface starting 25" from floor.

This Selling Policy supersedes all previous selling policies. Prices, discounts and product offerings are subject to change without notice.

**Terms & Conditions of Sale**

Sales by Knoll, Inc. or KnollTextiles (hereinafter referred to as Seller) to Buyer are made only on the terms which are contained in this Selling Policy. Seller hereby gives notice of its objection to any different or additional terms and conditions. The sale is expressly conditional upon Purchaser’s assent to the terms and conditions set forth below. Additional terms and conditions may apply to KnollStudio and KnollTextiles orders. These terms and conditions may be modified or supplemented only by a written document signed by an authorized representative of Seller. These terms and conditions supersedec any prior and/or contemporaneous agreements or correspondence between Purchaser and Seller. Written quotations expire thirty (30) days from the date of issuance and can be withdrawn by written notice anytime during that period. Where Purchaser and Seller have entered into the Knoll Electronic Terms and Conditions, parties shall be deemed to be in writing and signed shall be valid for all purposes as if they were originated and maintained in documentary form.

**Ordering Information**

All orders must be in writing. The product pattern number(s) contained on Seller’s order acknowledgement shall be the final expression of the order. A purchase order is not binding on Seller until Purchaser has received Seller’s order confirmation or acknowledgment.

**Order Confirmation**

List prices are subject to change without notice. List prices shall be those in effect on the date of receipt of a complete purchase order unless shipment is requested more than ninety (90) days after order entry in which case prices in effect on the date of shipment apply. List prices include specified freight costs. Unless specified in writing by Seller, no other charges are included in Seller’s list prices.

**Pricing Policies**

All sales, use, excise and other taxes applicable to the sale of the Products shall be paid by Purchaser. If Purchaser claims an exemption from any tax, Purchaser shall submit to Seller the appropriate exemption certificates.

**Terms of Payment**

Payment for one hundred percent (100%) of the net order amount is due within thirty (30) days of the date of invoice, which is generally issued upon shipment. In case of any discrepancies, such as shortages, and Seller is notified in writing within ten (10) days of receipt of Product, only that portion may be deducted and the balance paid. For orders greater than $100,000 net, a fifty percent (50%) deposit is due at the time of order placement, with the remainder due within thirty (30) days of the date of invoice.

KnollStudio orders less than 2,000 require payment for one hundred percent (100%) of the net order amount (including any applicable sales tax and charges for inside delivery, special packaging, etc.), due at time of order placement. For KnollStudio orders greater than 2,000, a one-half (50%) deposit is due at the time of order placement with the remainder (including any applicable sales tax and charges for inside delivery, special packaging, etc.) due prior to shipment.

If, in the judgment of Seller, Purchaser’s financial condition does not justify the terms of the payment, Seller may require full or partial payment in advance.

Past due accounts shall be charged one and one-half percent (1.5%) per month, or the highest rate permitted by law, whichever is less, and will be added to the outstanding balance. In the event Purchaser defaults on payment, Purchaser shall be liable for all collection costs, including reasonable attorney’s fees and costs.

**Changes and Cancellation**

Purchase orders may not be changed or cancelled, in whole or in part, without prior written consent of Seller. Changes may effect delivery dates. Expenses incurred because of changes shall be charged to Purchaser. In the event of cancellations, Purchaser will be liable for reasonable cancellation charges established by Seller. Orders for special Product, orders including “COM” (hereinafter defined) material and orders pursuant to expedited delivery programs, may not be canceled.

**Freight Prepaid**

Freight is prepaid and included in the price of all Products, except KnollTextiles, within the 48 contiguous United States for orders placed with Knoll, Inc. and within Canada, excluding the Yukon, Northwest Territories, Nunavut and Newfoundland for orders placed with Knoll North America Corp. Packing is tested for rigorous motion and transportation but is not guaranteed to protect furniture from all conditions. If special packaging is required for any reason, please consult with your sales representative or dealer. Seller shall select the method of shipment and routing. Freight for all KnollTextiles orders is prepaid and added to the invoice.

**Delivery/Freight Charges**

Shipments outside the contiguous United States and Canada shall be shipped F.O.B. Origin. For shipments outside the contiguous United States and Canada, Purchaser is responsible for the cost of freight from point of embarkation, including any handling and transportation charges incidental to loading at the point of departure and unloading at the point of destination. Conditions beyond the control of Seller, including weather, available facilities and traffic conditions, may affect exact time of delivery. Seller shall not be responsible for carrier delivery date or time unless it has made a specific delivery commitment in writing. Nonstandard methods of shipment and/or additional services are available upon request. Purchaser will be billed for the differential cost of any special services in excess of standard surface carrier freight costs. Premium charges, at Purchaser’s request, will be added for airfreight, exclusive use of vehicle and extra, export or special packaging. Accessorial charges will be added for inside delivery, extra labor, reconsignment and redelivery. Partial shipments may be made and invoiced by Seller.

**Claims**

All shipments for Knoll Products within the contiguous United States and Canada are F.O.B. Origin. All risk of loss passes to Purchaser at time of delivery to carrier. Purchaser shall inspect all Products upon receipt and notify Seller within ten (10) working days after receipt of any damage or defects which are, or should be, apparent from an inspection of the Product and its packaging. Failure of Purchaser to notify Seller during the ten (10) working day period shall constitute acceptance of the Products and waiver of any apparent defects, errors or shortages. For all claims relating to Product damaged in transit or for any other claims relating to or arising out of the transportation of the Product, Purchaser must seek recovery from the carrier and Seller has no liability to Purchaser for such claims. Seller may, upon request, assist Purchaser with filing of such claims with the carrier, but Seller will not be liable for any of these transportation related claims.

**Seller’s Security Interest**

Until Seller receives the full payment for the Product, Seller shall have a security interest in the Product. Purchaser agrees to perform all acts, including but not limited to the execution and filing of documentation, which may be necessary to perfect and assure the security interest of Seller.

**Returns**

The return of Products without a written authorization by Seller shall not be accepted. To receive authorization for Product return, please call Customer Service. All Products that are returned pursuant to a valid authorization shall be subject to a twenty-five percent (25%) of list restocking charge. Products not currently offered for sale by Seller (including COM) shall not be authorized for return. All returned Products must be unused, in original condition and in the original Seller packing cartons. No refund or credit shall be given for damaged Products.

**Held Orders/Storage**

If Purchaser requests that an order be held or delayed, prices and terms and conditions in effect at the time of shipment shall apply. If Purchaser requests a delay after the time when Seller can defer production, Purchaser will be invoiced for the Product, payable in accordance with standard terms, when the order is ready for shipment. Seller may transfer the Product to storage, in which case all expenses incurred in connection with storage, including demurrage, preparation for storage, storage charges and handling shall be payable by Purchaser upon submission of invoices by Seller. Risk of loss to the Product shall pass to the Purchaser upon delivery of the Product into storage.
Customer's Own Material

A Purchaser who requests a fabric or other surface material not standard to Seller’s line of Products (“COM”) must submit samples of the requested material to Seller prior to entry of a purchaser order. Seller shall determine if the material is suitable to its manufacturing processes and meets any requirements of Underwriters Laboratories. If the COM is acceptable, Seller will then establish a price for using the COM or the Product in question. For a description of the procedures for submitting samples and testing, contact customer resources or your sales representative. Seller shall have no responsibility for the appearance, condition, performance, durability, colorfastness or any other physical attribute of the COM. Purchaser shall indemnify and hold Seller harmless for any damages, injuries or losses arising out of or in any way related to use of the COM on the Product.

Warranty

Seller warrants to the original Purchaser only that the Products Seller manufactures and sells to Purchaser are free of defects in workmanship and materials, during the applicable warranty period set forth below. Warranty period set forth below is for 24-hour, 7 days a week, multi shift use (includes parts and labor to repair).

Should any failure to conform to this limited warranty appear to a Product listed below during the applicable warranty period from the date of shipment, Seller shall, upon prompt written notice, repair or replace, at its option and costs, the affected part or parts.

Product and Period of Warranty

Lifetime: Antenna Workspaces, AutoStrada, Calibre, Crixion Open Table, Currents, Dividends Horizon, Equity, Morrison, Reff Profiles laminate, Series 2 Storage, Template and other non-wood components (except cascade edge worksurfaces, operational parts, controls, electrical, Lighting, Series 2 Veneer Front Storage, special or custom products, see below)

1 Year: Light ballasts, bulbs and power supply, seating upholstered armpads and soft armpads, wood casegoods upholstered surfaces. KnollStudio Maya Lin and Spark Series seating finishes.

This warranty does not apply to:

• Damage caused by a carrier other than the Seller.
• Normal wear or tear or acts or omissions of parties other than Seller (including user modification, improper use or installation of Products).
• COM or other third party materials applied to Products.
• Products not installed by or under the auspices of a Knoll Dealer.
• Dramatic temperature variations or exposure to unusual conditions.
• Changes in finish surfaces, including colorfastness due to aging or exposure to light.
• Except as specifically noted above, textiles and upholstery supplied by KnollTextiles (consult current KnollTextiles price list for applicable warranty).
• Natural variations occurring in wood, marble, and leather shall not be considered defects, and the Seller does not guarantee the colorfastness or matching of the colors, grains or textures, or surface hardness of such materials. The Seller also does not guarantee the colorfastness of fiberglass panel surfaces.
• This warranty contains herein are in lieu of all other warranties, express or implied, including any warranties of merchantability and fitness for particular purpose and all other warranties arising from course of dealing or usage of trade.
• The remedies provided above are the Purchaser’s sole remedies for any failure of Seller to comply with its obligations regarding the workmanship of its Products. Correction of any nonconformity in the manner and for the period of time provided shall constitute complete fulfillment of all liabilities of Seller, with respect to or arising out of the Product furnished hereunder.

Delay/Force Majeure

Seller shall not be liable for failure to perform or for delay in performance due to fire, flood, strike or other labor difficulty, act of God, act of any governmental authority or of the Purchaser, riot, embargo, fuel or energy shortage, wrecks or delay in transportation, inability to obtain necessary labor, materials or manufacturing facilities from usual sources or failure of suppliers to meet their contractual obligations, or due to any cause beyond its reasonable control. If any such event occurs, Seller may extend delivery dates by a period of time necessary to overcome the effect of such delay, allocate available Product or cancel any purchase order.

Compliance with Law

Purchaser is solely responsible for compliance with all applicable federal, state and local laws, ordinances, regulations, rules and standards relating to the installation, maintenance, use, and operation of the Products. Subject to the following provisions, Seller shall, at its own expense, defend or, at its option, settle any claim, suit or proceeding brought against the Purchaser, and/or its vendees, mediate and immediate, so far as based on an allegation that any Product or any part thereof furnished hereunder constitutes a direct or a contributory infringement of any claim of any patent of the United States or Canada. This obligation shall be effective only if Purchaser has made all payments then due hereunder and if Seller is notified promptly in writing and given authority, information and assistance for the defense of said claim, suit or proceeding. Seller shall pay all damages and costs awarded in such suit or proceedings so defended.

The foregoing indemnity does not apply to the following:

• Products supplied according to a design other than that of Seller, and which is required by the Purchaser.
• Combination of the Product with another product not furnished hereunder unless Seller is a contributory infringer.
• Any settlements of a suit or proceeding made without Seller’s written consent.

Limitations of Liability

SELER, ITS CONTRACTORS, AUTHORIZED DEALERS AND SUBCONTRACTORS OR SUPPLIERS OF ANY TIER SHALL NOT BE LIABLE TO PURCHASER FOR ANY SPECIAL, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING FROM A BREACH OF THIS AGREEMENT.

Purchaser's remedies set forth herein are exclusive and the liability of Seller with respect to the breach of this agreement or any contract entered into between the parties pursuant hereto shall not exceed the price of the Product or part on which such liability is based.
General Ordering Information

The Products
This guide encompasses all standard products for this product group.

Sizes
Dimensions listed in this guide are indicated as:
H = height
W = width
D = depth
Dia. = diameter
Rad. = radius

Pricing
All prices shown are list.

How to Order
Select pattern numbers and quantities required for your complete installation. Product questions can be addressed in the specific sections of this guide or by contacting your sales representative or customer resource representative at 1-800-343-5665.

Next, select options (if required), along with colors and finishes appropriate to each product. Reference the Finishes and Fabrics pages for color designations.

On large installations, an item’s “designated area” can be specified to assist in product organization and handling.

To expedite complete / correct entry of your order, be certain all pattern numbers, quantities, colors and area identifications are completely specified. Also, include complete purchase order numbers, bill-to and ship-to addresses, a contact name and specific factory shipping dates required.

Mail all orders to:
Knoll, Inc.
1235 Water Street
East Greenville, PA 18041
Attention: Order Entry

Once your order is entered at Knoll, an acknowledgment will be mailed to you. You will be advised of your scheduled shipping date within five days of the original acknowledgment. If it is necessary to revise your order, please contact your customer resource representative.

Sustainability Statement

Sustainable design is a key component of Knoll’s environmental focus. Our commitment to social responsibility and a healthy environment has prompted us to further articulate our longstanding environmental programs and, with encouragement and support from our colleagues in the industry, we have re-energized our focus on such “green” initiatives as life cycle analysis and LEED™ certification. Knoll is proud to have contributed to projects that have received LEED certification from the U.S. Green Building Council.

For the latest information on Knoll products that help our customers achieve LEED certification, log on to knoll.com, click on “About Knoll” and then “Environmental Focus.”
