Each year Knoll sets key initiatives in our journey to sustainability. We are members of a global consortium on energy, have adopted a scientific, metrics-based approach to sustainable product design, and maintain a leadership position in establishing universal, verifiable, sustainability standards for our industry.

Knoll promotes independent third-party certification because it provides the most impartial and trustworthy foundation for industry-wide environmental compliance. Certification by established and respected third parties ensures that all manufacturers are held to the same high standards and that customers can trust a company’s declaration about the environmental benefits of its products. Knoll third-party partners include: the International Standards Organization (ISO); Forest Stewardship Council (FSC®); Rainforest Alliance; GREENGUARD® Environmental Institute; and The Business and Institutional Furniture Manufacturer’s Association (BIFMA) level® certification from Scientific Certification Systems (SCS).

In addition, Knoll is aligned with the U.S. Green Building Council and can help companies, healthcare organizations and educational institutions achieve Leadership in Energy and Environmental Design (LEED®) workplace certification.

Global Climate Change

• Knoll is a sponsor of the Clinton Global Initiative, which brings together a community of global leaders to devise and implement solutions to some of the world’s most pressing challenges, including environmental change.
• Knoll has a comprehensive Energy Management Program to increase energy efficiency in products and processes.

Life Cycle Assessment (LCA) Tool

• Life Cycle Assessment is a science-based measurement of a product’s environmental impacts throughout its life cycle, from raw materials sourcing through manufacture, shipping, use and re-use or end-of-life. LCA enables cradle-to-cradle implementation of sustainable practices.
• Knoll has partnered with The Green Standard.org to develop an affordable, universal ISO-compliant computer-based LCA tool that can be used by the entire contract furniture industry and is partnering on the development of an Environmental Product Declaration System (EPDs) for Knoll products. EPDs are verified documents containing LCA results and additional environmental performance information about a product.

Setting Industry Standards

• Knoll partners with MTS (The Institute for Market Transformation to Sustainability) to develop the SMaRT© Consensus Sustainable Products Standards, a set of consensus-based sustainable product standards based on the LEED® model, for all building products, fabric, apparel, flooring and carpet. MTS, the developer of SMaRT®, is an accredited American National Standards Institute (ANSI) standard developer.
• Knoll also partners with BIFMA (Business and Institutional Furniture Manufacturers Association) to promote level® sustainability standards for the contract furniture industry.
• Knoll has established FSC® (Forest Stewardship Council) certified wood as the standard for general office open plan office systems, casegoods and tables.
• Knoll has launched Full Circle, a resource recovery program developed with ANEW, to help customers extend the life cycle of surplus furniture, fixtures and equipment (FF&E) in an economically, socially and environmentally responsible manner.
• Our goal is to encourage all manufacturers in the contract furniture industry and related industries to adopt standards that will lead to sustainable products and practices.

For more information about Knoll and sustainable design, visit knoll.com/environment.
All Knoll Office Seating is GREENGUARD and GREENGUARD Gold certified.

All KnollExtra® products are GREENGUARD certified.

Visit GREENGUARD.org for more information and to find printable certificates for Knoll Office Seating that can be used for verification and LEED® submission.

GREENGUARD provides the only guide to certified low-emitting interior products and building materials. Its goal is to help building owners and managers, architects, interior designers and product specifiers build and furnish healthier offices, hospitals, schools and homes by providing a register of tested and certified low-emitting products and materials.

GREENGUARD certification is recognized by the U.S. Green Building Council’s LEED® Program, Air Quality Science, an independent indoor air quality laboratory, tests products submitted for certification using stringent environmental chamber testing protocols and current indoor air quality standard. Certification is administered by the GREENGUARD Environmental Institute (GEI), an industry-independent, non-profit organization.

GREENGUARD Gold certification complies with the State of California’s Department of Health Services Standard Practice (CA Section 01350) for testing chemical emissions from building products used in schools, offices and other sensitive environments. Certified products can contribute to achieving credits in the CHPS Best Practices Manual for K-12 schools, the LEED® Green Building Rating System, Green Guide for Healthcare™, NAHB Green Building Guidelines, Green Globes, Regreen and numerous other local authorities’ green building codes.

Knoll Office Seating and KnollExtra® products can contribute to achieving LEED® credits. GREENGUARD-tested and certified office furniture is required for Credit 4.5 in the LEED-CI Indoor Environmental Quality section.

GREENGUARD Certification Program

- Internationally recognized for evaluating product emissions and certifying building materials, furnishings, finishes and cleaning products and processes that meet stringent indoor air quality criteria defined by GEI.
- Products undergo rigorous, third-party testing to determine their impact on indoor air pollution with requirements for ongoing testing and verification.
- Certification confirms a manufacturer’s environmental responsibility, and signifies their environmental achievements through independent, third-party testing and verification.
- GREENGUARD Certified products are recommended by leading sustainable building programs, including:
  - U.S Green Building Council’s (USGBC) LEED Rating System,
  - National Association of Home Builders (NAHB) Green Building Guidelines,
  - Green Guide for Health Care (GGHC),
  - Collaborative for High Performance Schools (CHPS) Best Practices Manual,
  - New York City Department of Design and Construction Sustainable Design Specifications, among others.
An Overview

In the first part of the Price List you’ll find Lighting and Power Series.

The second part features a full range of desktop accessories. Next listed is Orchestra Universal System Accessories, a complete scope of paper management accessories perfect for panel-mounted or freestanding application.

Part three offers a broad range of systems support products, including computer accessories, storage drawers, communications boards, and lighting.

Can’t find it? Consult the Table of Contents on page 1 or the Alpha-numeric Index on page 196.

Product Information on Each Page

The KnollExtra Price List was designed to provide you with everything you need to know in order to understand, specify, and care for KnollExtra products. On each page, the following features will assist you:

- **Description/Construction** explains salient features, capabilities, materials, and country of origin.
- **Dimensions** provide the overall space the product will require. Statistics are based on the maximum width, depth and height of the product.
- **Weight** is based on the product itself. It does not include packaging or complementary items such as pens, memo paper or calendars.
- **Order Code/Ordering Information** outlines exactly how to specify KnollExtra product and the full scope of finish options. The Order Code provides an example of how one pattern number is specified.
- **Custom Options** reviews availability of special sizes, finishes etc.

For More Information

For more information, contact your Knoll sales representative, telephone Customer Service at 1-800-343-5665, or visit one of the Knoll showrooms listed on the last page of this book.

A Word About Finishes

KnollExtra finishes are designed to complement a broad range of interiors and office products.

Key KnollExtra finishes coordinate with specific Knoll systems finishes:

Placing Your Order

Use the Following Addresses

If you would like to send a standard lead time order to our order entry department, please use the following address:

For North American orders:
Knoll, Inc.
1235 Water Street
East Greenville, PA 18041
Attn: Order Entry
Fax: 215 679-1788
Tel: 800 343-KNOLL

All accepted orders will be confirmed in writing on the Knoll standard order confirmation form.

Ship-Complete Orders

Orders that must ship complete are to be so stated on the purchase order. Products with different lead times, combined on one order, can be acknowledged for shipment based on the longest of those lead times. Orders not marked “ship complete” will be released according to the confirmation, and invoiced in increments.

For More Information

For complete Knoll Selling Policy and warranty information, please refer to page 199 of this price list.

For additional information on KnollExtra, contact your Knoll representative, a Knoll dealer, or telephone Customer Services at 800 343-KNOLL.

Maintaining Your Purchase

While KnollExtra relies on highly durable materials in each product line, regular basic maintenance will ensure the longevity of your product. Most stains, marks, and discolorations can be removed by following the simple instructions outlined on this page.

**Plastic**
Windex and a dry cloth.

**SofStone**
Early removal of a stain makes SofStone care much easier. This is especially true of coated areas which are frequently handled. If oil smudges are allowed to build up, they can soften the suede coating, and become very difficult to remove. Most dirt and smudges can be removed by the following methods:

1. **Greasy stains** (crayon, oil, lipstick, etc.): remove grease and wax stains with a naptha-dampened lint-free cloth. Change the cloth frequently to remove as much grease as possible without spreading the stain.

2. **Non-greasy stains** (dirt, coffee, mustard, catsup, etc.): dirt and smudge areas can generally be removed by using a sponge or soft bristle brush with Liquid Ajax, Mr. Clean, Lestoil, or 3M brand carpet spot remover and upholstery cleaner. Follow the instructions on the label, and rinse thoroughly with clear water and a lint-free cloth.

3. **Combination stains** (chocolate, ice cream, gravy, soup, etc.): combination stains are caused by materials that contain both greasy and non-greasy substances. First use the procedures for non-greasy stains as stated above. Then, rinse thoroughly with clear water and dry. If greasy stain persists, follow the procedure for greasy stains as stated above. Repeat as necessary.

**Stainless Steel:**
Windex and a dry cloth.

**Antique Brass, Brushed Zinc and Black Oxide:**
A damp cloth with no cleaning agents.

**Satin Brass:**
Pledge.

**Linoleum:**
Windex and a dry cloth.

**Contemporary and Traditional Standard Leathers:**
Mild soap and water on a soft cloth.

**Spinneybeck Leathers:**
As a result of the high quality aniline dye process, most scratches or minor stains can be removed simply by gently rubbing them with your fingers. The body's natural oils revitalize the leather. For stubborn stains, use mild soap and water. Take care to wash the surface evenly since soaps may slightly alter the leather's tonality.

**Surf Collection:**
Wipe nylon skin using warm water and mild detergent. Do not use abrasives.

**Office Automation**
Accessories/Storage Drawers:
Clean with a soft cloth and Windex, Fantastik, Endust or other non-abrasive household cleaners. Remove stubborn stains with SoScrub.

For Surf Board and VDT Sleeve soft touch paints, never use abrasives. Clean with lukewarm water and a soft cloth.

**Marker Boards:**
For day-to-day use, surface requires only a dry cleaning with a standard felt eraser or dry cloth. For best results, keep marker board and marker pens at room temperature. KnollExtra suggests Alliance Rite-On Wipe-Off marker pens which are designed for use on marker boards. All marker pens should be tightly capped and stored horizontally when not in use. If Expo brand markers are used, use the manufacturer's recommended cleaning solution, Expo Dry Erase Cleaner.

Follow the instructions below as a periodic maintenance program, or to remove stubborn stains:

1. Clean with EV-1 or any liquid ammonia-added cleaner and rinse with clean water, then dry. For best results, wash board like a window with sponge and squeegee.

2. Interim cleaning may be done by sprinkling a dry powdered cleanser on an eraser and applying to the board in a circular motion. Rinse with clean water, then dry.

3. To remove crayon, scotch tape, or other stubborn materials, apply a mild solvent or paste made with scouring powder and water.

**Fabric Boards:**
Despite the durability of most panel textiles, fabric boards are subject to long-term soiling and wear. A regular maintenance program will significantly lessen soil and dirt build up or staining on your fabric boards. Cleaning is particularly important in areas adjacent to air conditioning or ventilation systems.

Remember to consult the care instructions provided by the fabric manufacturer. The general recommendations below should apply to most fabric boards.

1. Avoid excessive heat or moisture which can affect finishes and adhesives. Never allow fabric panels to become wet inside the core. Room temperature should be maintained between 50 and 85 degrees; humidity should be maintained between 20 and 50%.

2. Avoid contact with sharp edges which could puncture the surface.

3. Do not handle fabric boards more than necessary. Avoid bending or flexing the panels; this could break the bond between the surface and core materials.

4. Grease or oil should be wiped off immediately upon contact. Remove excess grease or oil by blotting. Use hot water and mild soap to remove any remaining residue.

5. Whenever possible, clean only with warm water and mild soap. Use caution when applying cleaning agents, particularly those that contain alcohol, strong alkalis, or solvents. These ingredients may react to the vinyl backing or adhesives used in the fabric boards. Always test cleaning agents on fabric from the rear of the panel before using on the front.

6. Care should be taken in using strong room cleaners or pesticides. Their fumes may contain agents which lead to the loosening of the fabric board glue bond.

## Additional Information

- Sparrow is available in a black finish with stainless steel rods.
- Occupancy sensor (LED PIR) can be added to any LED light and must be ordered separately.
- UL Certified.

## Height Range

- Articulates 15° to 90°
  - Table clamp: 2.5” to 21.4”
  - Antenna beam side: 3.5” to 22.3”
  - Freestanding: 4.3” to 23.2”

## Construction

- Lamp: LED, cast aluminum housing, stainless steel frame and plastic reflector and lens.
- Table clamp mount: steel.
- Antenna beam side mount: die cast aluminum.
- Freestanding base: plastic and cast iron.
- Occupancy sensor: extruded aluminum body, plastic face, end caps and lens.

## Design Awards

- Best of NeoCon 2013 Silver Award.
- Sparrow is TAA compliant.

### Order Code

- **Example:** LED 3-13-BLK-130
- **LED:** LED
- **3:** T-light
- **13:** Height
- **BLK:** Light Finish
- **130:** Frame Finish

### Ordering Information

Specify:
1. Pattern number
2. Type of light
3. Height
4. Frame Finish

### Additional Information

- Specify VCBT for Antenna beam with hole for T-light application.
- All T-lights ship with black Highwire lights.
- UL Certified.

### Light Source Information

- Each 19” Highwire draws 9 watts with 35 LEDs.
- 50,000 hours lifespan.

### Construction

- T-light structure: die cast aluminum base, extruded aluminum stanchion and steel top channel.
- Highwire: LEDs, extruded aluminum housing, plastic reflector and end caps.

### Design Awards

- Best of NeoCon 2013 Silver Award.
- T-light is TAA compliant.
Copeland™ Light
by Stephan Copeland

**Standard Arm**
- Standard Arm.
- 13 watt ENERGY STAR rated compact fluorescent bulb.
- Mounting option must be ordered separately.
- 20.75" x 21.75" (at 90° angle)
- Reaches height to 29.75" when extended up and depth of 35.75" when extended out.

**Compact Arm**
- Compact Arm.
- 13 watt ENERGY STAR rated compact fluorescent bulb.
- Mounting option must be ordered separately.
- 16.25" x 17.75" (at 90° angle)
- Reaches height of 23.5" when extended up and depth of 28.75" when extended out.

**Replacement Bulb**
- ENERGY STAR 13 watt replacement compact fluorescent bulb (fits compact and standard lights).

**Mounting Options**
- Standard base
  - To be used with standard arm only.
- Compact base
  - To be used with compact arm only.
- Table clamp
  - To be used with either size arm.
  - Works on desks of up to 1 3/4" thick.
- Panel Mount, Morrison
  - Panel mount bracket for Morrison.
  - To be used with either size arm.

**Order Code**
- COPE-01-SV, COPE-01-BASE-SV
- COPE-02-SV
- COPE-02-BASE-SV
- COPE-KLM-( )
- COPE-PM-M-( )

**Light Bulb Information**
- Ships with a 13 watt compact fluorescent light bulb. This is equivalent light output of a 75 watt incandescent light bulb.
- 13w/120v/2700K, UL listed, ENERGY STAR rated.
- An incandescent light bulb can also be used. 75 watt is the maximum for the standard light and 60 watt is the maximum for the compact light.
- See above for bulb replacement.

**Construction**
The Copeland Light has a steel arm, aluminum axles, zinc coated cast iron base and metallic painted ABS shade.

**Design Awards**
Best of NeoCon 2005, Silver Award

3301-2 Double letter tray
VP Velluto Pelle
MB Mirror brass posts

VP556 Sage

Ordering Information

Specify:
1. Pattern number
2. Leather selection
3. Hardware selection (Double Letter Tray only)
   - Spinneybeck leathers: Vicenza (VZ), Velluto Pelle (VP), Sabrina (SA)
   - There are 20 rich colors available in Vicenza and more than 100 vibrant colors available in Sabrina and Velluto Pelle. To view the complete color selection, please contact your Knoll sales representative or Spinneybeck.
   - Please note that 10 or more units are required on all Spinneybeck orders.
   - Double letter tray also uses: Mirror Chrome (MC), Mirror Brass (MB)

Custom Options

Customer’s own leather (COL) available upon approval of sample. 10 unit minimum on all specials. Upcharges based on number of cowhides required for production. Contact your Knoll sales representative or Customer Service for complete pricing information.

Construction

Spinneybeck Vicenza (VZ):
A corrected grain, aniline dyed leather. The correction process refines the surface of the leather preparing it for the reception of an embossed grain pattern prior to finishing.

Spinneybeck Velluto Pelle (VP):
An aniline dyed, enhanced full grain leather. The combination of the subtle surface enhancement and special finishing process creates the suppleness and smoothness of this leather. Velluto Pelle has a breathable, medium, protective finish.

Spinneybeck Sabrina (SA):
An aniline dyed, full grain, kip leather. The fine quality and lightweight material produce a supple hand and smooth, tight grain appearance. Sabrina receives a breathable, protective finish and is appropriate for high-traffic use.

Manufactured in the United States, using domestic and Spinneybeck Italian leathers.

  2. Leather selection

Spinneybeck leathers:
- Vicenza (VZ)
- Velluto Pelle (VP)
- Sabrina (SA)

There are 20 rich colors available in Vicenza and more than 100 vibrant colors available in Sabrina and Velluto Pelle. To view the complete color selection, please contact your Knoll sales representative or Spinneybeck.

There are 20 rich colors available in Vicenza and more than 100 vibrant colors available in Sabrina and Velluto Pelle. To view the complete color selection, please contact your Knoll sales representative or Spinneybeck.

Please note that 10 or more units are required on all Spinneybeck orders.

Construction

Spinneybeck Vicenza (VZ): A corrected grain, aniline dyed leather. The correction process refines the surface of the leather preparing it for the reception of an embossed grain pattern prior to finishing.

Spinneybeck Velluto Pelle (VP): An aniline dyed, enhanced full grain leather. The combination of the subtle surface enhancement and special ironing process creates the suppleness and smoothness of this leather. Velluto Pelle has a breathable, medium protective finish.

Spinneybeck Sabrina (SA): An aniline dyed, full grain, kip leather. The fine quality and lightweight material produce a supple hand and smooth, tight grain appearance. Sabrina receives a breathable, protective finish and is appropriate for high-traffic use.

Manufactured in the United States, using domestic and Spinneybeck Italian leathers.

**Mounting Options**

- Please note: flat panel monitor arms cannot be mounted on Orchestra® load bars. Flat panel monitor arms can be mounted on Orchestra® slat wall only when mounted on an architectural wall. Please review before mounting. Please see p.130 for flat panel wall monitor support options.

- Panel, stanchion and wall-mounted brackets include the list price and are specified when ordering pattern number. Please see p.130 for flat panel wall monitor support options.

- Panel-mounted brackets for other systems can be developed. Minimum of 100 sets per bracket. Testing and setup changes may be required.

**Custom Options**

- Wall, stanchion, or panel-mounted brackets are included in the list price and are specified when ordering pattern number. Please see p.130 for appropriate panel-mounted bracket. Consult the KnollExtra Bracket Chart on page 12 for appropriate suffix. For Equity panel-mounted applications, include an “EY” at end of base pattern number.

**Construction**

- Custom-resistant T6063-T6 painted or anodized aluminum. End caps are 11 gauge steel painted matte black. Bottom rail is filled with 57 Delrin plastic pellets to support papers on Info Rail.

### Workurface-Mounted Bracket

- For load bars and 6 1/2" slat boards only. Set of 2. Black finish.
- No charge when ordered with Load Bar or Slat board, configured in load bar and slat board pattern numbers when ordered with load bars and slat boards.

*No charge when ordered with Load Bar or Slat board, configured in load bar and slat board pattern numbers when ordered with load bars and slat boards.*

### Ordering Information

1. **Specify**
   - Pattern number

### Workurface-mounted bracket

- Metal posts attach to underside of worksurface with C-clamp, raising Load Bar 10" above worksurface.
- Usable on work surfaces 13/4" thick. There should be at least 3/4"-1" of space between the back of the desk and the surface behind (i.e., it cannot be flush). Set of 2 brackets. For Load Bars wider than 66", order additional brackets.
- For use with load bars and 6 1/2" slat boards only.

## Mounting Options

- Please note flat panel monitor arms cannot be mounted on Orchestra® load bars. Flat panel monitors can be mounted on Orchestra® slat wall only when mounted on an architectural wall. Please review before mounting. Please see p. 138 for flat panel monitor support mount options.

## Custom Options

Brackets are currently available for virtually every major office system. Panel-mounted brackets for other systems can be developed. Minimum of 100 sets per bracket. Tooling and setup charges may be required. Contact your Knoll sales representative or Customer Service for complete pricing information.

## Construction

Workurface-mounted bracket: Die-cast aluminum painted black.

## Design Awards

Sapper™ Monitor Arm Collection
Easy Order Single Arm Kits
by Richard Sapper

Kit includes everything needed to mount one monitor to a worksurface, slat wall or wall:
- single standard arm
- 16/H11033 mast (unless otherwise specified)
- movement joint (includes fast release monitor plate), adjustment knob, cable management clips and mounting option (see right for options)

### Mounting and Application Information

See page 131 for comprehensive mounting, application and construction information.
Mounting and Application Information:

All Sapper standard monitor arms:
- Maximum weight of 20 lbs per arm, weight limits vary by mounting option.
- Ship standard with fast release movement joint.
- Offer 165 degrees of monitor tilt up and down, 180 degrees of swivel left and right and 360 degrees of rotation for portrait or landscape viewing.
- Fold into themselves to be highly compact when fully compressed.
- Ship standard with fast release movement joint.
- Offer 165 degrees of monitor tilt up and down, 180 degrees of swivel left and right and 360 degrees of rotation for portrait or landscape viewing.
- Fold into themselves to be highly compact (only 4.75” when fully compressed).

Please note this limit accommodates up to 95% of monitors on the market. There is not a specific monitor size maximum limitation for a single Sapper monitor arm. A larger size (e.g., 24” widescreen) does not necessarily equate to a higher weight monitor. It is key to understand the viewing area to know if a certain size monitor will fit within a space and/or if there are multiple application to know if a certain size monitor will fit. It is key to understand the widescreen (e.g., 16:9 ratio) does not necessarily equate to a higher weight monitor. It is key to understand the viewing area to know if a certain size monitor will fit within a space and/or if there are multiple applications.

All Sapper standard monitor arms:
- Maximum weight of 50 lbs per arm, weight limits vary by mounting option.
- Ship standard with fast release movement joint.
- Offer 117 degrees of monitor tilt up and down, 180 degrees of swivel left and right and 360 degrees of rotation for portrait or landscape viewing.
- Fold into themselves to be highly compact (only 4.75” when fully compressed).

Weight Limits:
Weight limitations for individual mounting options are outlined below. Taken together (two monitors per arm weight limit and the individual arm limit) you can determine the best mounting approach for your client given the number of monitors desired to be mounted and the weight of those monitors. Weight limits are determined by mounting option on the next few pages.

For example, if you want to mount two monitors on a worksurface with a grommet mount and each of those monitors weighs 18 lbs (2 monitors x 18 lbs each equals 36 lbs total), we can accommodate that with: 
- Heavy Duty Table Clamp Mounting: this mount can accommodate three monitors weighing 18 lbs each (54 lbs total) with a 25 lbs arm mount on a 20 lbs limitation for a total of 75 lbs total.
- Slat Wall Direct Mounting (for both standard and compact arm): you will need to stagger users across the wall. A 20 lbs limitation for a total of 40 lbs total.

For single mounting, you can use either the direct wall mast mount or direct slat wall mount. For double or triple monitor mounting, you must use the slat wall mast mount. The slat wall direct mount cannot be used for multiple monitors.

Antenna Table Center Beam Side Mounting:
This mount is intended to provide maximum workface or desk usage by mounting to the center channel. Note that when used for individuals, you will need to stagger users across the table.

Crimson Open Table Center Channel Mounting:
This is intended to provide maximum workface or desk usage by mounting to the center channel. Note that when used for individuals, you will need to stagger users across the table. This table mount is designed for use with Dividends Horizontal flat profile panel trim, and is not compatible with various profiles.

Please follow installation instructions closely (available in each kit box shipped as well as on Knoll Exchange). Apple Computer Note:
Apple iMacs and Thunderbolt and Cinema Displays are not VESA compliant. An iMac must be purchased from Apple with an integrated VESA adapter and VESA Mount Adapter kits can be purchased for the Displays. With these adapters, the monitor will mount to the 100 mm x 100 mm hole pattern on the Sapper movement joints.

Clamp Mounting:
- Two-Piece Table Clamp Mounting:
  The standard two-piece table clamp is easy to install or retrofit and works on most worksurfaces or desks that are a minimum of 3/16” thick solid core. The maximum workface thickness is 2 1/2” or 4”. There are four settings to accommodate a range of workface thicknesses. For the fourth setting to accommodate the thickest workface you must invert the lower mounting plate to allow the mount to clamp the maximum 2 4/5”. It is important to mock up the table clamp, particularly on competitive products to ensure a proper fit. The clamp is not compatible with Morrison Network.

Deep-Table Clamp Mounting:
This clamp type provides support to most mount surfaces. The deep table clamp mount is intended to clamp most knoll-edge (45 degree angle) desks or workstations.

Heavy-Duty Table Clamp Mounting:
This clamp is intended for heavier weight applications. Please note that individual monitor arm weight limits still apply.

Grommet Mounting:
With all systems furniture, it is important to pass the grommet plate through the worksurface. When using a grommet mount, this height adjustment without the need to stuffer users. Please note a screen can be mounted in the center beam with a monitor arm in front of it. The fit will be snug and flush with the screen.

Slat Wall Mast Mounting:
For single monitor mounting, you can use either the direct wall mast mount or direct slat wall mount. For double or triple monitor mounting, you must use the slat wall mast mount. The slat wall direct mount cannot be used for multiple monitors.

Default Table Mounting:
For single monitor mounting, you can use either the direct wall mast mount or direct slat wall mount. For double or triple monitor mounting, you must use the slat wall mast mount. The slat wall direct mount cannot be used for multiple monitors.

For use on architectural walls only, a 20 lbs limitation on the front of it. The fit will be snug and flush with the screen.

KnollExtra monitor arms on a 32” Mast for Double Stacked Monitors:
Please note while four monitors (two-on-two) are outlined by mounting option on the next few pages, please review product breakdown on the following pages to ensure compatibility with your specific application needs.

Orchestradeck slat wall mast mount must be mounted to an architectural wall if a flat panel monitor arm is to be mounted to it. You can only use this slat wall mount when it is wall-mounted as outlined below. Knoll cannot be held responsible for the structural integrity of a wall or please work with clients to ensure their wall is structurally sound. Please contact Customer Service for more details.

Header:
Mount is specific to the compact arm. You cannot use this wall mount. The direct wall mast mount cannot be used for multiple monitors.

For single monitor mounting, you can use either the direct wall mast mount or direct slat wall mount. For double or triple monitor mounting, you must use the slat wall mast mount. The slat wall direct mount cannot be used for multiple monitors.

For double or triple monitor mounting, you must use the slat wall mast mount. The slat wall direct mount cannot be used for multiple monitors.

For use on architectural walls only, a 20 lbs limitation on the front of it. The fit will be snug and flush with the screen.

Slat Wall Direct Mounting (for both standard and compact arm):
For single monitor mounting, you can use either the direct wall mast mount or direct slat wall mount. For double or triple monitor mounting, you must use the slat wall mast mount. The slat wall direct mount cannot be used for multiple monitors.

For double or triple monitor mounting, you must use the slat wall mast mount. The slat wall direct mount cannot be used for multiple monitors.

For single monitor mounting, you can use either the direct wall mast mount or direct slat wall mount. For double or triple monitor mounting, you must use the slat wall mast mount. The slat wall direct mount cannot be used for multiple monitors.

For double or triple monitor mounting, you must use the slat wall mast mount. The slat wall direct mount cannot be used for multiple monitors.
Sapper™ Monitor Arm Collection
Mounting, Construction and Application Information

For use on architectural walls only as outlined further on this page. Knoll cannot be held responsible for the structural integrity of a wall so please work with clients to ensure their wall is structurally sound to hold the arm configuration and the monitor weight. See above for weight limits if mounting slab wall to an architectural wall.

Sapper 50 Direct Wall Mounting (for Sapper 50 monitor arm):
For single monitor mounting, you can use either the direct wall mast mount or direct wall mount.
Please note that the Sapper 50 Direct Wall Mount is specific to the Sapper 50 arm. You cannot use the standard mount with the Sapper 50 arm or a standard arm with the Sapper 50 mount.
For use on architectural walls only as outlined further on this page. Knoll cannot be held responsible for the structural integrity of a wall so please work with clients to ensure their wall is structurally sound to hold the arm configuration and the monitor weight.

Interpole Mounting
Sapper arm can be mounted on either the slot or channel sides of Interpole with the proper mount. Mounts can be moved after installation but the pole may have residual markings.

Cable Management:
Monitor Arms:
External cable management allows for ease installation and removal of monitors. There are gates under the arm that will contain wires from the monitor to plastic cable management clips that go on the mast to keep wires tidy to the electrical socket.

Gates
Clips

Beams:
For the beam solutions, there are beam cord management clips on the back of the beam (6 on the small, 8 on the medium, 10 on the large) that can hold wires from the monitor to the mast cable management. The beam must cable management is wider than the standard mast cable management to accommodate multiple monitor wires.

Fast Release:
Allows for swift installation and removal of flat panel monitors by merely pulling the quick release pin up to remove monitor with movement joint/back plate attached.

Fast Release:
Set Screw to Prevent Arm Removal
Deactivate Fast Release with Set Screw:

Adjustment:
The Sapper monitor arm collection offers intuitive adjustment. To adjust the height, you simply manually lift the arm and twist the adjustment knob like a screw up or down to the most comfortable setting. The easiest way to lift the monitor is to hold it in before making the adjustment. To adjust the depth, you can move the arm in or out. You can also rotate the monitor 360 degrees for landscape or portrait viewing and adjust the swivel back and forth 180 degrees and tilt up and down 165 degrees. The arm folds in and out from 2 3/8” fully compressed to approximately 17” when fully extended.

Rotation, Swivel, Tilt and Depth Adjustment

Set Screw to Prevent Arm Removal

Height Adjustment

Compatibility:
The Sapper Monitor Arm Collection is not compatible with the Wishbone Flat Panel Monitor Support System (i.e., Wishbone, Zorro or Rotation arm, posts, tool bars, brackets, mounting, etc.). They have been designed independently and as such parts from one system cannot be used with the other.

Monitors cannot be mounted on KnollExtra® Orchestra® load bars.

Installation Instructions:
Comprehensive installation instructions will be shipped with product and are also available on Knoll Exchange for ease reference.

Construction:
Arm: die-cast aluminum with a cold rolled steel top plate
Mast: anodized aluminum extrusion
Beam: satin anodized extruded aluminum
Adjustment knob: nylon undermold with a TPU overmold
Movement joint (includes fast release monitor plate): plastic bushings, zinc and plastic molded plastic tilt friction components and glass filled nylon VESA plate
Movement joint slide: aluminum, powder coated silver
VESA plate adaptors: steel
Table clamp, grommet mount, fixed table mount, COT Center channel mount, DH Bench mount, Antenna center beam center mount: steel
Slat wall and wall mounts (both mast mount and direct, both standard and compact sizes): die cast aluminum with steel back plates
Double arm bracket: die cast aluminum, steel top plate, extruded aluminum posts, plastic upper and lower bushings
Triple support arm bracket: die cast aluminum, steel top plate, extruded aluminum posts, plastic upper and lower bushings
Mast-to-beam bracket: aluminum, powder coated silver
Cable management: transparent polycarbonate clips on the mast and beam; plastic gates under standard arms
Antenna and Quadruple support arm bracket: die cast aluminum
Two-Piece Table Clamp, Deep Table Clamp, Heavy-Duty Table, Clamp, Grommet, Fixed Table, Crime Open Table Center Channel, Dividends Horizon Benching and Antenna Center Beam Table Mounting: steel
Antenna Table Center Beam Side Mounting: die-cast Aluminum
Slat Wall and Wall Mounts both Direct Mast Mounting, Direct Mounting and Support 50 Direct Mounting (for both standard and compact arms): Die-cast Aluminum with steel back plates
Quadruple arm bracket: Die-cast Aluminum

Ordering Information
Specify:
1. Pattern number
2. Finish

Kits do not require any additional mounting specifications.

Standard Monitor Arm Finish Options:
Jet Black (111)
Medium Grey (115)
Bright White (118)

Silver Monitor Arm Finish Option:
Silver (603)

Mount Finish Option Note:
All mounting options come in a black finish, with the exception of the Antenna Centre Beam Side Mount which will come in the same finish color that was specified for the arm.

Arm Finish Option Note:
All monitor arm finishes are monochromatic with the exception of Bright White, which has a light grey shroud.

Mounting and Application Information
See pages 154 for comprehensive mounting, application and construction information.

  - Silver (163)

Arm Finish Option Note:
- All monitor arm finishes are monochromatic with the exception of Bright White, which has a light grey shroud.

Mounting and Application Information
See page 154 for comprehensive mounting, application and construction information.
All Sapper XYZ monitor arms:  
- Maximum weight of 20 lbs per arm  
- Ship standard with fast release movement joint  
- Offer 153 degrees of monitor tilt  
- Ship standard with fast release  
- Maximum weight of 20 lbs per arm  
*Please note this limit only accommodates up to 95% of monitors on the market.

Size Limits:
Monitor Arms: There is no specific maximum size for a Sapper XYZ monitor arm (outside the limitations of the space in which you are trying to put it). Flat panel monitor manufacturers refer to their products by diagonal screen measurements. A 19" widescreen monitor has a 19" screen measured diagonally, but is not necessarily 19" in horizontal width (refer to manufacturers' specifications for specific overall height and width).  

Monitor Mounting:
All Sapper XYZ monitor arms are compatible with the international Video Electronics Standards Association (VESA) industry interface standard (75 mm x 75 mm and 100 mm x 100 mm hole patterns or 2.95 x 2.95 or 1.94 x 1.94") adopted by most panel manufacturers. VESA compliance is a requirement to mount any monitor to a monitor arm. If your customer has a recessed monitor wall with only 75 mm x 75 mm holes, additional spaces may be needed to ensure proper fit. Contact Customer Service for more details including part and pricing information.

Kroll movement joints do not ship with screws and are designed to accept an M4 or M5 screw. M6 screws only and M8 screws are the most common screw lengths but length is dependent on the specific monitor or television and screw should be tested prior to installation to ensure correct length. Kroll is not responsible for use of incorrect screws. A VESA plate adapter may be necessary for larger monitors and televisions and can be ordered separately in the sizes of 100mm x 200mm (M6 screws), 200mm x 200mm (M8 screws), 300mm x 300mm (M8 screws) and 400mm x 400mm/400mm x 600mm (M8 screws). Adaptors ship with separate installation instructions and may require spacers. Kroll VESA plate adapters ship with screws to attach the adapter to the Kroll VESA plate but do not ship with screws to attach the adaptor to the monitor or television (see screw sizes listed above). English size equivalents may be needed instead; screw length is dependent on the specific monitor or television and screw should be tested prior to installation to ensure correct length. Kroll is not responsible for use of incorrect screws.  

Kroll and its dealers will not take the responsibility for mounting the monitor to the arm. The end User’s IT department must confirm VESA plate mounting compliance and mount the plate to the arm using customer’s own screws. Please follow installation instructions closely (available in each kit box shipped as well as on Knoll Exchange).  

Apple Computer Note:
Apple M4s are not VESA compliant. To mount an iMac or LED Cinema Display to a Sapper arm without wasting a customer to purchase a Cinema Display VESA Mount Adapter Kit from Apple. The adapter kit comes standard with a 100mm x 100mm hole pattern and can be purchased online at apple.com.

Clamp Mounting:
Two-Piece Table Clamp Mounting: The standard two-piece table clamp is easy to install or retrofit and works on most worksurfaces or desks that are a minimum of 1.75" thick solid core. The maximum worksurface thickness is 2.95". There are four settings to accommodate a range of worksurface thicknesses. It is important to mock up the table clamp, particularly on competitive product to ensure a proper fit. The clamp is not compatible with Morrison Network.  

Deep Table Clamp Mounting: This clamp is one piece and works on most surfaces. The deep table clamp mount is intended to clear most kneel-edge (45 degree angle) desks or worksurfaces.

Grommet Mounting: 
With all systems furniture, it is important to pass monitor and peripheral plugs through grommet mount covers while it is still leave. Please note the grommet mount is compatible with Morrison, Autostara, Bell, Propeller, but is not compatible with the Graham Collection or Dividends Horizon grommet holes. To use on Morrison Network, spacers must be requested through Customer Service. The required cutout in the worksurface is 3.1/2", which includes room for the threaded stud (actual hole in the grommet plate is 1.48" x 1.77")

Fixed Table Mounting:  
Installers will need to drill a permanent hole into the worksurface so the post will be fixed to a dedicated location on the worksurface. Please note with this mounting, the mount will not be able to be moved or adjusted after permanent hole is drilled. The worksurface must be of adequate structure; Kroll cannot be held responsible for the structural integrity of non-Kroll worksurfaces.

Antenna Table Center Beam Side Mounting: 
This mount allows you to clear the flip-door while allowing for maximum worksurface usage and individual height adjustment without the need to stagger users. Please note a screen can be mounted in the center beam with a monitor arm in front of it. The fit will be snug and flush with the screen.

Cable Management: 
External cable management allows for easy installation and removal of monitors. There is a cable management block in the channel under the arm that will contain wires from the monitor to plastic cable management clips that go on the post to keep wires tidy to the electrical outlet.

Arm Adjustment:  
The Sapper XYZ monitor arm collection offers intuitive one touch adjustment. To adjust the height, you simply lift the monitor to the desired position. To adjust the depth, you pull or push the monitor in or out. You can also rotate the monitor 360 degrees for landscape or portrait viewing, adjust the swivel back and forth 100 degrees and tilt up and down 153 degrees. The arm folds in and out from 2" fully compressed to approximately 24" when fully extended.

Weight Adjustment:  
The Sapper XYZ monitor arm is preset for a 10 lb weight. Other monitor weights up to 20 lbs can be accommodated by adjusting the weight adjustment nut to the proper weight using the Allen key wrench on the back of the movement joint. Note that the 20 lb setting is not visible on the scale. Turn clockwise to decrease weight or counterclockwise to increase weight to appropriate level. The arm should be held in a downward position if increasing the weight and in an upward position if decreasing the weight. When proper weight is set, the arm should stay exactly where you place it.

Fast Release:  
Allows for swift installation and removal of flat panel monitors by merely popping the quick release pin up to remove monitor with movement joint/back plate attached. Be sure to fill the arm to the highest position before removing monitor, or the arm will quickly move upwards.

Thief Deterrence:  
All movement joints come with a set screw within the fast release pin, to prevent fast release if so desired.

Compatibility:  
The Sapper XYZ monitor arm is not compatible, with the Sapper Monitor Arm Collection. It has been designed independently and as such, parts from one system cannot be used with the other, with the exception of the movement joint. Finish colors are consistent across the Sapper XYZ and Sapper Monitor Arm Collection portfolios.

Monitor arms cannot be mounted on KnollExtra® or Orchestra® bad bases.

Installation Instructions:  
Comprehensive installation instructions will be shipped with product and are also available on Knoll Exchange for easy reference.

Construction:  
Arm: The cast aluminum with steel channels and plastic molded shroud movement joint (includes fast release monitor plate); plastic bushings, zinc and plastic molded plastic friction components and glass filled nylon ESA plate.

VESA plate adaptors: steel

Table clamp, grommet mount, fixed table mount: steel

Cable management: transparent polypropylene clip on the post; soft plastic in channel under arm.

Antenna Table Center Beam Side Mounting: the cast aluminum.

**Mechanism Attributes**

- **All mechanisms have the following features:**
  - Spring assist adjustment
  - Knobless height adjustment
  - Pivot sole to sole 360°
  - Black textured metal finish

- **Easy lift arm:**
  - Soft touch knob adjust tilt from 0° to (-) 15°
  - Variable height adjustment of 7.04” (up 2.838”, down 4.21”)
  - Sit/Stand arm:
    - Soft touch knob adjust tilt from 0° to (-) 15°
    - Variable height adjustment of 11.57” (up 6.48”, down 5.17”)

- **Short easy lift arm:**
  - Soft touch knob adjust tilt from 0° to (-) 15°
  - Variable height adjustment of 4.26” (up 1.66”, down 2.60”)

- **Advanced Easy lift arm:**
  - Soft touch knob adjust tilt from 0° to (-) 20°
  - Variable height adjustment of 8.08” (up 2.318”, down 5.70”)

- **Pivot feature:**
  - Allows the keyboard platform to move independently from arm, allowing it to stay parallel to the worksurface as the arm is moved laterally.

---

**Technology Management**

- In order to mount Antenna Workspace tables, you will need to order a special adapter available through that price list. Pattern code is 13K.

- Keyboard tray must be specified with a sliding track that is less than the depth of the top and anything below the top such as a power harness or cable basket.

For taller individuals, we recommend using a pivot solution mounted as the diagonal to minimize knee space.

---

**Application Notes**

- Keyboard support provides ease with a more comfortable working environment by allowing the user to adjust the height and pitch of the platform holding their computer keyboard. When not in use, the Adjustable Keyboard Support stores the keyboard under the worksurface to free vital worksurface space.

- Dimensions above are for the platform only. For full configuration details, all component measurements and application suggestions, refer to the Keyboard Measurements tool on Knoll Exchange.

---

**Mechanism Attributes**

- **All mechanisms have the following features:**
  - Spring assist adjustment
  - Knobless height adjustment
  - Pivot sole to sole 360°
  - Black textured metal finish

---

**Construction**

- Romeo and Juliet Keyboard Platform and Mouse Platform:
  - FPE thermoplastic elastomer (TPE) reinforced polypropylene.
  - Steel stiffener plate at the base of platform.
  - Nylon-upholstered palm rest of dual density polyurethane.
  - All arms are steel with a powdercoat finish.
  - All mechanisms have the following features:
    - Spring assist adjustment
    - Knobless height adjustment
    - Pivot sole to sole 360°
    - Black textured metal finish

### Application Notes
- Adjustable Keyboard Supports
  - Adjustable Keyboard Support stores keyboard. When not in use, the platform holding their computer adjusts the height and pitch of the keyboard under the worksurface allowing it to stay parallel to the worksurface as the arm is moved laterally.
  - Adjust the height and pitch of the keyboard under the worksurface when not in use.
  - Allows the keyboard platform to move independently from arm, allowing it to stay parallel to the worksurface as the arm is moved laterally.
  - Spring assist adjustment
  - Knobless height adjustment
  - Pivot side to side 360°
  - Black textured metal finish

### Mechanism Attributes
- All mechanisms have the following features:
  - Spring assist adjustment
  - Knobless height adjustment
  - Pivots side to side 360°
  - Black textured metal finish

- Easy lift arm:
  - Soft touch knob adjusts tilt from 0° to (-) 15°°
  - Spring assist adjustment
  - Variable height adjustment of 4.20" (up 2.83", down 4.21")
  - No Stand arm:
    - Soft touch knob adjusts tilt from 0° to (-) 15°
    - Variable height adjustment of 4.20" (up 2.83", down 4.21")

### Construction
- Prospero: TPE (thermoplastic elastomer) and 40% mica reinforced polypropylene undermold. Steel stiffener plate at base of platform.

### Mechanism Attributes
- All mechanisms have the following features:
  - Spring assist adjustment
  - Knobless height adjustment
  - Pivot side to side 360°
  - Black textured metal finish

- Easy lift arm:
  - Soft touch knob adjusts tilt from 0° to (-) 15°°
  - Spring assist adjustment
  - Variable height adjustment of 4.20" (up 2.83", down 4.21")

### Antenna Mounting Note
- In order to mount to Antenna Workspaces, you will need to order a special adapter available through that price list. Pattern code is YAK.

### Keyboard Tray
- Keyboard tray must be specified with a sliding track that is less than the length of the track plus 18. For taller individuals, we recommend using a pivot solution mounted on the diagonal to maximize knee space.

- Sturdy metal platform attaches Microsoft keyboard to mechanism.
- Suitable for both Natural and Elite styles of Microsoft keyboards. See Mechanism Attributes below.

**Application Notes**

Keyboard support provides users with a more comfortable working environment by allowing them to adjust the height and pitch of the platform holding their computer keyboard. When not in use, the Adjustable Keyboard Support stores the keyboard under the worksurface to free vital worksurface space.

**Construction**

- **Caisar:** Black textured powdercoated steel plate
- **Mechanisms:** All arms are steel with a powdercoat finish. Tracks are steel with nylon glides.

**Mechanism Attributes**

**Easy Lift Arm:**
- Spring assist adjustment
- Knobless height adjustment
- Soft touch knob adjusts tilt from 0° to (+) 15°
- Varyable height adjustment of 7.04 (up 2.83, down 4.21)
- Pivots side to side 360°
- Black textured finish with black soft touch knob
- Mounts on virtually any worksurface

**Sit/Stand Arm:**
- Spring assist adjustment
- Knobless height adjustment
- Soft touch knob adjusts tilt from 0° to (+) 15°
- Varyable height adjustment of 11.57 (up 6.40, down 5.17)
- Pivots side to side 360°
- Black textured finish
- Mounts on virtually any worksurface

**Antenna Mounting Note**

In order to mount to Antenna Workspace tables, you will need to order a special adapter available through that price list. Pattern code is YAK.

Keyboard tray must be specified with a sliding track that is less than the depth of the top and anything below the top such as a power harness or cable basket.

For taller individuals, we recommend using a pivot solution mounted on the diagonal to maximize knee space.

**Order Code**

Example: OA-K-EL2-MS (16,18,22,23,25)

**Ordering Information**

Specify:
1. Pattern number
2. Mouse size

Track length options are 16, 17.750, 21.625, 22.63 and 25 inches.

**Construction**

**Caesar Plate to retrofit to existing mechanisms**

- Sturdy metal platform attaches Microsoft keyboard to mechanism.
- Suitable for both Natural and Elite styles of Microsoft keyboards. See Mechanism Attributes below.

Microsoft is a registered trademark of the Microsoft Corporation.

**Mechanism Attributes**

**Easy Lift Arm:**
- Spring assist adjustment
- Knobless height adjustment
- Soft touch knob adjusts tilt from 0° to (+) 15°
- Varyable height adjustment of 7.04 (up 2.83, down 4.21)
- Pivots side to side 360°
- Black textured finish with black soft touch knob
- Mounts on virtually any worksurface

**Sit/Stand Arm:**
- Spring assist adjustment
- Knobless height adjustment
- Soft touch knob adjusts tilt from 0° to (+) 15°
- Varyable height adjustment of 11.57 (up 6.40, down 5.17)
- Pivots side to side 360°
- Black textured finish

#### Application Notes
- **Keyboard support provides users with a more comfortable working environment by allowing them to adjust the height and pitch of the platform holding their computer keyboard.**
- **Adjustable Keyboard Support stores the keyboard under the worksurface as the arm is moved laterally.**
- **Keyboard tray must be specified through that price list. Pattern code is YAK.**
- **In order to mount to Antenna Workstation tables, you will need to order a special adapter available through that price list. Pattern code is YAK.**
- **Keyboard tray must be specified with a sliding track that is less than the depth of the top and anything below the top such as a power harness or cable basket.**
- **For taller individuals, we recommend using a pivot solution to free vital worksurface space.**

#### Mechanism Attributes
- **Easy lift arm:**
  - Soft touch knob adjusts tilt from 0° to (-) 15°
  - Variable height adjustment of 4.26” (up 1.06”, down 3.20”)
- **Sit/Stand arm:**
  - Soft touch knob adjusts tilt from 0° to (-) 20°
  - Variable height adjustment of 11.57” (up 6.40”, down 5.17”)
- **Pivot feature:**
  - Allows the keyboard platform to move independently from arm, allowing it to stay parallel to the worksurface as the arm is moved laterally.

#### Mechanism Attributes
- **Spring assist adjustment**
- **Knobless height adjustment**
- **Pivots side to side 360°**
- **Soft touch knob adjusts tilt from 0° to (-) 15°**
- **Variable height adjustment of 7.04” (up 2.83”, down 4.21”)**
- **V ariable height adjustment of 0° to (-) 15°°**
- **V ariable height adjustment of 8.8” (up 2.83”, down 6.5”)**

#### Ordering Information
- **Example:**
  - Office automation keyboard
  - Track length options are 36, 17.75’, 21.625, 22.63 and 25 inches.
  - Standard color is black.
  - Minimum clearance required is the length of the track plus 1/2”.

#### Construction
- Board is either MDF or phenolic.
- Wristrest is foam-filled vinyl on MDF board.
- Mousepad is lycra covered polyurethane.
- Steel with nylon glides.

- **Spring-assist adjustment**
- **Knobless height adjustment**
- **Variable height adjustment**

**Product Notes**

- Varies height adjustment of Sit/Stand arm:
- Soft touch knob adjusts tilt from 10° to (+) 15°

- Spring-assist adjustment
- Knobless height adjustment
- Variable height adjustment of 7.04" (up 2.18", down 4.86")
- Black textured metal finish

- Early lift arm:
  - Soft touch knob adjusts tilt from 0° to (+) 15°
  - Variable height adjustment of 3.06" (up 1.69", down 1.37")

**Keyboard Support**

Keyboard support provides users with a more comfortable working environment by allowing them to adjust the height and pitch of the platform holding their computer keyboard. When not in use, the Adjustable Keyboard Support stores the keyboard under the work surface to free vital work space. Dimensions above are for the platform only. For full configuration depth, all component measurements and application suggestions refer to the keyboard Measurements Tool on Knoll Exchange.

### Application Notes

Keyboard support provides users with a more comfortable working environment by allowing them to adjust the height and pitch of the platform holding their computer keyboard. When not in use, the Adjustable Keyboard Support stores the keyboard under the worksurface to free vital worksurface space.

Dimensions above are for the platform only. For full configuration depths, all component measurements and application suggestions refer to the Keyboard Measurements tool on Knoll Exchange.

### Construction

- Board is phenolic.
- Wristrest is foam-filled vinyl on MDF board.
- Mousepad is lycra covered polyurethane.
- Mechanism: All arms are steel with a powder-coated finish. Tracks are steel with nylon glides.

### Mechanism Attributes

- **Easy lift arm:**
  - Soft touch knob adjusts tilt from 0° to (-) 15°
  - Variable height adjustment of 4.26" (up 1.06", down 3.20")

- **Sit/Stand arm:**
  - Soft touch knob adjusts tilt from 0° to (-) 15°
  - Variable height adjustment of 11.57" (up 6.40", down 5.17")

### Antenna Mounting Note

In order to mount to Antenna Workspace tables, you will need to order a special adapter available through that price list. Pattern code is YAK.

Keyboard tray must be specified with a sliding track that is less than the depth of the top and anything below the top such as a power harness or cable basket.

For taller individuals, we recommend using a pivot solution mounted on the diagonal to maximize knee space.

Technology Management
Freestanding Surf® Ergonomic Accessories
by Ross Lovegrove & Stephen Peart

Wrist Rest
- Soft, biomorphic form reduces strain on wrist.
- Long, radial shape with single straight edge ensures a tight fit with standard size keyboards.
- Gel pad for greater use comfort.

<table>
<thead>

<td>1'</td>
<td>7 ozs.</td>
</tr>
</tbody>
</table>

Lumbar Support
- Self-adjusts over any seat back.
- Heat and pressure reactive foam responds to individual user.
- Support returns to original form within 10 seconds after use.
- Neoprene nylon outer skin allows body to breathe comfortably.

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

Surf Board VDT Corner
- Fits any worksurface thickness or edge profile.
- Creates generous 24" wide VDT corner, 14" from worksurface corner.
- Can be adjusted to any angle, or removed when not needed.
- Integral non-handed mouse pad.
- Felt back and rubber bumpers protect worksurface.

Order Code
- Example: SF-SB-E
- SF-SB - Metallic finish Surf Board VDT corner
- SF-SB - Soft touch finish Surf Board VDT corner

Ordering Information
- Specify:
  1. Pattern number
  2. Finish

Neoprene nylon finishes:
- Black (BK)
- Surf Board painted finishes:
  - Soft Grey (E)
  - Medium Metallic Grey (J)
  - Soft Touch Light Grey (GS)
  - Soft Touch Black (BS)

Ergonomic Value
Each piece in the Surf Collection is a "footprint form," derived from natural ergonomic movements. No sharp edges or angles are used. As a result, the accessories can be approached by the user from any direction. The soft, biomorphic shapes of the Surf Collection echo the curves and contours of the human body.

Lumbar support note:
- Back problems are the second leading cause of lost work time after the common cold. Most back rests utilize rigid, unyielding materials, ignoring the diversity of human form and movement.

Construction
- Surf Board: Rigid steel plate with 1" thick rolled front detail. Black rubber bumpers and non-scuffing felt back.
- Manufactured in the United States.

Design Awards
- First place, Interior Design Product Award, ASID, 1994.
- High Design Quality Red Dot Award, Design Zentrum, Germany, 1994.

General Notes
- The Surf Lumbar Support rests loosely over the chair like a saddle bag, held in place by a counter balance weight. The piece is easily adjusted up or down, to the preference of the user.
- The support’s high performance patented foam molds itself to both the user and the chair back. As the user moves throughout the workday, the foam responds in kind, continuously re-cupping itself around the user’s body. When body pressure is removed, the lumbar support returns to its original form within 10 seconds, ready for the next user.

List Price
- SF-LS: $281.
- SF-SB-(GS, BS): $385.

</tbody>
</table>
- Full width, 4 3/4" H pencil trough.
- Two removable plastic organizing trays.
- Generous 16" side-to-side hanging letter files.
- Accept 12" front-to-back hanging legal or European A-4 and foolscap files.
- Drawer contains 107% capacity of standard file drawer.
- Optional lock.
- Black painted steel construction with full extension ball-bearing slides.

| **Deep Suspended File** | 17" | 24" | 10 1/2" | 18 lbs. |
- Full width, 4 3/4" H pencil trough.
- Two removable plastic organizing trays.
- Full width, 5 1/2" H intermediate compartment holds computer disks, desk supplies and personal items.
- Generous 16" side-to-side hanging letter files.
- Accept 12" front-to-back hanging legal or European A-4 and foolscap files.
- Drawer contains 107% capacity of standard file drawer.
- Optional lock and mouse pad.
- Black painted steel construction with full extension ball-bearing slides.

#### Order Code

**Example: BP-SSF**

#### Ordering Information

1. Pattern number
2. Lock option
   - Lock attaches to slides in field.
   - Removable for use elsewhere.

#### Application Notes

BackPack drawers can be used with virtually any Knoll or other wood worksurface.

BackPack storage drawers attach to the underside of wood worksurfaces at any location. In most cases, the drawers may be mounted flush to side panels. When supporting brackets extend farther than 2 1/2" from the side panel, a slight reveal will occur. Mounting hardware and template included.

For wire management needs, the minimum depth worksurface for standard depth drawers is 24"; for deep drawers, it is 30". When no wire management is necessary, the Standard Suspended File may be used on an 18" worksurface and the Deep Suspended File may be used on a 24" worksurface.

**Ordering Information**

Specify:
1. Pattern number

**Construction**

Top cap hung marker board:
- White laminate surface on Sintra core.
- Extruded aluminum trough.

Wall Rail:
- Machined aluminum powder coated light grey to match top cap hung marker board trough.
Fabric Boards

- Standard fabric board has 1/2" thick mineral board construction with squared corner.
- Rounded corner or radius ends, available at upcharge.
- Panel or wall mounting options.

Standard Sizes

Universal Fabric Boards

- Panel or wall mounting options.
- Construction with squared corner and rectilinear edge details.
- Rounded corner/radiused corner and edge detail pattern number.
- Applications, add “E” to end of base fabric number.
- For all Equity panel-mounted applications, add “E” to end of base fabric number.
- Equity application note:
  - Panel-mounted brackets are required and there will be an up-charge.
  - Custom options for Equity fabric railroading are approved for a Morrison panel.
  - Pricing on 60" thick mineral board.

Specifying:

1. Pattern number
2. Corner/edge detail
3. Thickness
4. Fabric grade
5. Fabric selection

Ordering Information

Mounting Options

Panel-mounted brackets: Panel-mounted brackets are included in the list price but must be specified separately. To specify appropriate panel-mounted bracket, consult the KnollExtra Bracket Chart on page 12.

Wall-mounted options: Wall-mounted applications must include brackets as shown in the Fabric Boards section. For application under a system overhead, please order clearance distance between the worksurface and the bottom of the overhead or task light.

Customer’s own material:

For all wall mounted bracket size must match height of fabric board. Panel-mounted brackets are utility velcro squares.

Wall-mounted applications must be approved for a Morrison panel only.

Consult KnollExtra fabric railroading information.

Construction

1/2" thick mineral board for durable, highly tactile surface.

Manufactured in the United States.

Mounting Options
Standard fabric board has squared corner and rectilinear edge details. See above for edge upcharge.

Thickness option: Standard fabric board has 1/2" thick mineral board.

Panel-mounted brackets:
Panel-mounted brackets are included in the list price but must be specified separately. To specify appropriate panel-mounted bracket, consult the Knoll sales bracket chart on page 12.

Panel-mounted bracket size must match height of fabric board:
Wall-mounted options: Wall-mounted applications must be specified as flash (F-WM-F) or reveal (F-WM-R). Both options are appropriate for any smooth, clean surface.

Flush wall-mount option utilizes velcro squares.

Under overhead specification note: For application under a system overhead, provide clearance distance between the worksurface and the bottom of the overhead or task light.

Side by side fabric board specification note: Please note if a panel-mounted fabric board will be used contiguous to another fabric board drawings are required and there will be an up-charge.

Construction
1/2" thick mineral board for durable, highly tackable surface.

Custom Options
For special sizes: For specials contact Customer Service. Maximum fabric board size is 120"W x 24"H. Fabric must be railroaded on any panel wider than 60".

Customer's own material: For approval, submit at least one yard of fabric for application testing. For panel-mounted applications, all COMs and textiles that are not pre-approved must be UL-tested. Please consult Knoll sales Customer Service for details.

This Selling Policy supersedes all previous selling policies. Prices, discounts and product offerings are subject to change without notice.

Sales by Knoll, Inc., or Knoll North America Corp. (“Seller”) of Knoll in the United States and Canada are made only on the terms which are contained in this Selling Policy. Seller hereby gives notice of its objection to any different or additional terms and conditions. This sale is expressly conditional upon Purchaser’s assent to the terms and conditions set forth below. Additional terms and conditions may apply to KnollStudio and KnollTextiles orders. These terms and conditions may be modified or supplemented only by a written document signed by an authorized representative of Seller. These terms and conditions supersede any prior and/or contemporaneous agreements or correspondence between Purchaser and Seller. Written quotations expire thirty (30) days from the date of issuance and can be withdrawn by written notice anytime during that period. Where Purchaser and Seller have entered into the Knoll Electronic Terms and Conditions shall be deemed to be in writing and signed and shall be valid for all purposes as if they were originated and maintained in documentary form.

All orders must be in writing. The product pattern number(s) contained on Seller’s order acknowledgement shall be the final expression of the order. A purchase order is not binding on Seller until Purchaser has received Seller’s order confirmation or acknowledgment.

List prices shall be those prices in effect on the date of receipt of a complete purchase order unless shipment is requested more than ninety (90) days after order entry in which case prices in effect on the date of shipment apply. List prices include specified freight costs. Unless specified in writing by Seller, no other charges are included in Seller’s list prices.

Purchaser shall submit to Seller the appropriate exemption certificates. Payment for one hundred percent (100%) of the net order amount is due within thirty (30) days of the date of invoice, which is generally issued upon shipment. In case of any discrepancies, such as shortages, and Seller is notified in writing within ten (10) days of receipt of Product, only that portion may be deducted and the balance paid. For orders greater than $100,000 net, a fifty percent (50%) deposit is due at the time of order placement, with the remainder due within thirty (30) days of the date of invoice.

KnollStudio orders less than $2,000 require payment for one hundred percent (100%) of the net order amount (including any applicable sales tax and charges for inside delivery, special packaging, etc.), due at time of order placement. For KnollStudio orders greater than $2,000, a one-half (50%) deposit is due at time of order placement with the remainder (including any applicable sales tax and charges for inside delivery, special packaging, etc.) due prior to shipment.

If, in the judgment of Seller, Purchaser’s financial condition does not justify the terms of the payment, Seller may require full or partial payment in advance. Past due accounts shall be charged one and one-half percent (1.5%) per month, or the highest rate permitted by law, whichever is less, and will be added to the outstanding balance. In the event Purchaser defaults in payment, Purchaser shall be liable for all collection costs, including reasonable attorney’s fees and costs.

The only basis for quantification of Claims shall constitute acceptance of the Products and waiver of any apparent defects, errors or shortages. For all claims relating to Product damaged in transit or conditions beyond the control of Seller, including weather, available facilities and traffic conditions, may affect exact time of delivery. Seller shall not be liable for any of these transportation related claims.

All claims for Knoll Products within the contiguous United States and Canada shall be mailed to Knoll Studio, 9000 Market Street, Philadelphia, PA 19116. All claims must be filed within ninety (90) days of date of delivery to Purchaser, or they will not be considered. Claims must be accompanied by proof of delivery and proof of purchase. Claims must be filed with Seller within ninety (90) days of the date of delivery, or they shall not be considered. Acceptance of the Product and payment for the Product, in the event Purchaser defaults in payment, Purchaser shall be liable for all collection costs, including reasonable attorney’s fees and costs.

If Purchaser requests that an order be held or delayed, prices and terms and conditions in effect at the time of shipment shall apply. If Purchaser requests a delay after the time when Seller can deliver production, Purchaser will be invoiced for the Product, payable in accordance with standard terms, when the order is ready for shipment. Seller may transfer the Product to storage, in which case all expenses incurred in connection with storage, including demurrage, preparation for storage, storage charges and handling shall be payable by Purchurer upon submission of invoices by Seller. Risk of loss to the Product shall pass to the Purchaser upon delivery of the Product into storage.

January 1, 2014
Selling Policy

Customer's Own Material

A Purchaser who requests a fabric or other surface material not standard to Seller’s line of Products (“COM”) must submit samples of the requested material to Seller prior to entry of a purchaser order. Seller shall determine if the material is suitable to its manufacturing processes and meets any requirements of Underwriters Laboratories. If the COM is acceptable, Seller will then establish a price for using the COM or the Product in question. For a description of the procedures for submitting samples and testing, contact customer resources or your sales representative. Seller shall have no responsibility for the appearance, condition, performance, durability, colorfastness or any other physical attribute of the COM. Purchaser shall indemnify and hold Seller harmless for any damages, injuries or losses arising out of or related to use of the COM on the Product.

Warranty

Seller warrants to the original Purchaser only that the Products Seller manufactures and sells to Purchaser are free of defects in workmanship and materials, during the applicable warranty period set forth below.

Warranty period set forth below is for 24-hour, 7 days a week, multi shift use (includes parts and labor to repair).

Should any failure to conform to this limited warranty apply to a Product listed below during the applicable warranty period from the date of shipment, Seller shall, upon prompt written notice, repair or replace, at its option and costs, the affected part or parts.

Product and Period of Warranty

Lifetime: Antenna Workspaces, AutoStrada, Calibre, Crixion Open Table, Currents, Dividends Horizon, Equity, Morrison, Reff Profiles laminate, Series 2 Storage, Template

2 Years: Anchor Storage, Essentials Work Chairs, Generation by Knoll, Life, Moment, MultiGeneration by Knoll, ReGeneration by Knoll, RPM, Sapper and Togalogen seating (except seating upholstery, textiles, leathers and finishes, see below).

10 Years: Anchor Storage except digital keypad lock, Antenna Workspaces, AutoStrada, Crixion Open Table, Dividends Horizon, Reff Profiles, Template wood components, Series 2 Veneer Front Storage, cascade edge worksurfaces, Wood Casegoods (The Graham Collection) (except wood casegoods upholstered surfaces, see below), Interaction tables (except height adjustment mechanisms for Counterforce, crank-adjustable, and split-top tables and worksurfaces, see below), Reuter overheads, Reuter vertical storage, KnollExtra Sapper Monitor Arm Collection, Adjustable keyboard mechanisms and platforms, Communication Boards (except board fabric textiles, see below), Smokador collection (except leathers, see below), and Orchestra Universal Systems Accessories.

5 Years: Operational parts, controls, electrical, Lighting (except light ballasts, bulbs and power supply, see below), special or custom product, wood veneer products, Currents handcrank, Interaction Counterforce, Interaction crank-adjustable, and split-top mechanisms, KnollStudio, Spark Series seating structural elements, Richard Schultz outdoor products, KnollExtra CPU storage and all universal storage drawers and Power Collection.

3 Years: Seating upholstery, textiles, leathers and finishes, Fabric boards textiles and Smokador Collection leathers.

2 Years: Anchor Storage digital keypad lock, all other KnollExtra product

1 Year: Light ballasts, bulbs and power supply, seating upholstered armpads and soft armpads, wood casegoods upholstered surfaces. KnollStudio Maya Lin and Spark Series seating finishes.

This warranty does not apply to:

- Damage caused by a carrier other than the Seller,
- Normal wear and tear or acts or omissions of parties other than Seller (including user modification, improper use or installation of Products),
- COM or other third party materials applied to Products,
- Products not installed by or under the auspices of a Knoll Dealer,
- Dramatic temperature variations or exposure to unusual conditions,
- Changes in surface finishes, including colorfastness due to aging or exposure to light,
- Except as specifically noted above, textiles and upholstery supplied by KnollTextiles (consult current KnollTextiles price list for applicable warranty).

Natural variations occurring in wood, marble, and leather shall not be considered defects, and the Seller does not guarantee the colorfastness or matching of the colors, grains or textures, or surface hardness of such materials. The Seller also does not guarantee the colorfastness of fiberglass panel surfaces.

The EXPRESS WARRANTIES CONTAINED HEREIN ARE IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTIES OF MERCHANTABILITY AND FITNESS FOR PARTICULAR PURPOSE AND ALL OTHER WARRANTIES ARISING FROM COURSE OF DEALING OR USAGE OF TRADE.

The remedies provided above are the Purchaser’s sole remedies for any failure of Seller to comply with its obligations regarding the workmanship of its Products. Correction of any nonconformity in the manner and for the period of time provided shall constitute complete fulfillment of all liabilities of Seller, with respect to or arising out of the Product furnished hereunder.

Delay/Force Majeure

Seller shall not be liable for failure to perform or for delay in performance due to fire, flood, strike or other labor difficulty, act of God, act of any governmental authority or of the Purchaser, riot, embargo, fuel or energy shortage, wrecks or delay in transportation, inability to obtain necessary labor, materials or manufacturing facilities from usual sources or failure of suppliers to meet their contractual obligations, or due to any cause beyond its reasonable control. If any such event occurs, Seller may extend delivery dates by a period of time necessary to overcome the effect of such delay, allocate available Product or cancel any purchase order.

Compliance with Law

Purchaser is solely responsible for compliance with all applicable federal, state and local laws, ordinances, regulations, rules and standards relating to the installation, maintenance, use and operation of the Products.

Patents

Subject to the following provisions, Seller shall, at its own expense, defend or, at its option, settle any claim, suit or proceeding brought against the Purchaser, and/or its vendees, mediate and immediate, so far as based on an allegation that any Product or any part thereof furnished hereunder constitutes a direct or a contributory infringement of any claim of any patent of the United States or Canada. This obligation shall be effective only if Purchaser shall have made all payments then due hereunder and if Seller is notified promptly in writing and given authority, information and assistance for the defense of said claim, suit or proceeding. Seller shall pay all damages and costs awarded in such suit or proceedings so defended.

The foregoing indemnity does not apply to the following:

- Products supplied according to a design other than that of Seller, and which is required by the Purchaser.
- Combination of the Product with another product not furnished hereunder unless Seller is a contributory infringer.
- Any settlements of a suit or proceeding made without Seller’s written consent.

Limitations of Liability

SELLER, ITS CONTRACTORS, AUTHORIZED DEALERS AND SUBCONTRACTORS OR SUPPLIERS OF ANY TIER SHALL NOT BE LIABLE TO PURCHASER FOR ANY SPECIAL, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING FROM A BREACH OF THIS AGREEMENT.

Purchaser’s remedies set forth herein are exclusive and the liability of Seller with respect to the breach of this agreement or any contract entered into between the parties pursuant hereto shall not exceed the price of the Product or part on which such liability is based.

General Ordering Information

The Products
This guide encompasses all standard products for this product group.

Sizes
Dimensions listed in this guide are indicated as:
H = height
W = width
D = depth
Dia. = diameter
Rad. = radius

Pricing
All prices shown are list.

How to Order
Select pattern numbers and quantities required for your complete installation. Product questions can be addressed in the specific sections of this guide or by contacting your sales representative or customer resource representative at 1-800-343-5665.

Next, select options (if required), along with colors and finishes appropriate to each product. Reference the Finishes and Fabrics pages for color designations.

On large installations, an item’s “designated area” can be specified to assist in product organization and handling.

To expedite complete / correct entry of your order, be certain all pattern numbers, quantities, colors and area identifications are completely specified. Also, include complete purchase order numbers, bill-to and ship-to addresses, a contact name and specific factory shipping dates required.

Mail all orders to:
Knoll, Inc.
1235 Water Street
East Greenville, PA 18041
Attention: Order Entry

Once your order is entered at Knoll, an acknowledgment will be mailed to you. You will be advised of your scheduled shipping date within five days of the original acknowledgment. If it is necessary to revise your order, please contact your customer resource representative.

Sustainability Statement

Sustainable design is a key component of Knoll’s environmental focus. Our commitment to social responsibility and a healthy environment has prompted us to further articulate our longstanding environmental programs and, with encouragement and support from our colleagues in the industry, we have re-energized our focus on such “green” initiatives as life cycle analysis and LEED™ certification. Knoll is proud to have contributed to projects that have received LEED certification from the U.S. Green Building Council.

For the latest information on Knoll products that help our customers achieve LEED certification, log on to knoll.com, click on “About Knoll” and then “Environmental Focus.”
