Knoll and Sustainable Design

Each year Knoll sets key initiatives in our journey to sustainability. We are members of a global consortium on energy, have adopted a scientific, metrics-based approach to sustainable product design, and maintain a leadership position in establishing universal, verifiable, sustainability standards for our industry.

Knoll promotes independent third-party certification because it provides the most impartial and trustworthy foundation for industry-wide environmental compliance. Certification by established and respected third parties ensures that all manufacturers are held to the same high standards and that customers can trust a company’s declaration about the environmental benefits of its products. Knoll third-party partners include: the International Standards Organization (ISO); Forest Stewardship Council (FSC®); Rainforest Alliance; GREENGUARD® Environmental Institute; and The Business and Institutional Furniture Manufacturer’s Association (BIFMA) level® certification from Scientific Certification Systems (SCS).

In addition, Knoll is aligned with the U.S. Green Building Council and can help companies, healthcare organizations and educational institutions achieve Leadership in Energy and Environmental Design (LEED®) workplace certification.

Global Climate Change

• Knoll is a sponsor of the Clinton Global Initiative, which brings together a community of global leaders to devise and implement solutions to some of the world’s most pressing challenges, including environmental change.
• Knoll has a comprehensive Energy Management Program to increase energy efficiency in products and processes.

Life Cycle Assessment (LCA) Tool

• Life Cycle Assessment is a science-based measurement of a product’s environmental impacts throughout its life cycle, from raw materials sourcing through manufacture, shipping, use and re-use or end-of-life. LCA enables cradle-to-cradle implementation of sustainable practices.
• Knoll has partnered with The Green Standard.org to develop an affordable, universal ISO-compliant computer-based LCA tool that can be used by the entire contract furniture industry and is partnering on the development of an Environmental Product Declaration System (EPDs) for Knoll products. EPDs are verified documents containing LCA results and additional environmental performance information about a product.

Setting Industry Standards

• Knoll partners with MTS (The Institute for Market Transformation to Sustainability) to develop the SMaRT© Consensus Sustainable Products Standards, a set of consensus-based sustainable product standards based on the LEED® model, for all building products, fabric, apparel, flooring and carpet. MTS, the developer of SMaRT®, is an accredited American National Standards Institute (ANSI) standard developer.
• Knoll also partners with BIFMA (Business and Institutional Furniture Manufacturers Association) to promote level® sustainability standards for the contract furniture industry.
• Knoll has established FSC® (Forest Stewardship Council) certified wood as the standard for general office open plan office systems, casegoods and tables.
• Knoll has launched Full Circle, a resource recovery program developed with ANEW, to help customers extend the life cycle of surplus furniture, fixtures and equipment (FF&E) in an economically, socially and environmentally responsible manner.
• Our goal is to encourage all manufacturers in the contract furniture industry and related industries to adopt standards that will lead to sustainable products and practices.

For more information about Knoll and sustainable design, visit knoll.com/environment.
All Knoll Office Seating is GREENGUARD and GREENGUARD Gold certified.

All KnollExtra® products are GREENGUARD certified.

Visit GREENGUARD.org for more information and to find printable certificates for Knoll Office Seating that can be used for verification and LEED® submission.

GREENGUARD provides the only guide to certified low-emitting interior products and building materials. Its goal is to help building owners and managers, architects, interior designers and product specifiers build and furnish healthier offices, hospitals, schools and homes by providing a register of tested and certified low-emitting products and materials.

GREENGUARD certification is recognized by the U.S. Green Building Council’s LEED® Program, Air Quality Science, an independent indoor air quality laboratory, tests products submitted for certification using stringent environmental chamber testing protocols and current indoor air quality standard. Certification is administered by the GREENGUARD Environmental Institute (GEI), an industry-independent, non-profit organization.

GREENGUARD Gold certification complies with the State of California’s Department of Health Services Standard Practice (CA Section 01350) for testing chemical emissions from building products used in schools, offices and other sensitive environments. Certified products can contribute to achieving credits in the CHPS Best Practices Manual for K-12 schools, the LEED® Green Building Rating System, Green Guide for Healthcare™, NAHB Green Building Guidelines, Green Globes, Regreen and numerous other local authorities’ green building codes.

Knoll Office Seating and KnollExtra® products can contribute to achieving LEED® credits. GREENGUARD-tested and certified office furniture is required for Credit 4.5 in the LEED-CI Indoor Environmental Quality section.

GREENGUARD Certification Program
• Internationally recognized for evaluating product emissions and certifying building materials, furnishings, finishes and cleaning products and processes that meet stringent indoor air quality criteria defined by GEI.
• Products undergo rigorous, third-party testing to determine their impact on indoor air pollution with requirements for ongoing testing and verification.
• Certification confirms a manufacturer’s environmental responsibility, and signifies their environmental achievements through independent, third-party testing and verification.
• GREENGUARD Certified products are recommended by leading sustainable building programs, including:
  – U.S Green Building Council’s (USGBC) LEED® Rating System,
  – National Association of Home Builders (NAHB) Green Building Guidelines,
  – Green Guide for Health Care (GGHC),
  – Collaborative for High Performance Schools (CHPS) Best Practices Manual,
  – New York City Department of Design and Construction Sustainable Design Specifications, among others.
An Overview

In the first part of the Price List you’ll find Lighting and Power Series. The second part features a full range of desktop accessories. Next listed is Orchestra Universal System Accessories, a complete scope of paper management accessories perfect for panel-mounted or freestanding application.

Part three offers a broad range of systems support products, including computer accessories, storage drawers, communications boards, and lighting.

Can’t find it? Consult the Table of Contents on page 1 or the Alpha-numeric Index on page 188.

Product Information on Each Page

The KnollExtra Price List was designed to provide you with everything you need to know in order to understand, specify, and care for KnollExtra products. On each page, the following features will assist you:

Description/Construction explains salient features, capabilities, materials, and country of origin.

Dimensions provide the overall space the product will require. Statistics are based on the maximum width, depth and height of the product.

Weight is based on the product itself. It does not include packaging or complementary items such as pens, memo paper or calendars.

Order Code/Ordering Information outlines exactly how to specify KnollExtra product and the full scope of finish options. The Order Code provides an example of how one pattern number is specified.

Custom Options reviews availability of special sizes, finishes etc.

For More Information

For more information, contact your Knoll sales representative, telephone Customer Service at 1-800-343-5665, or visit one of the Knoll showrooms listed on the last page of this book.

A Word About Finishes

KnollExtra finishes are designed to complement a broad range of interiors and office products.

Key KnollExtra finishes coordinate with specific Knoll systems finishes:

Placing Your Order

Use the Following Addresses
If you would like to send a standard lead time order to our order entry department, please use the following address:

For North American orders:
Knoll, Inc.
1235 Water Street
East Greenville, PA 18041
Attn: Order Entry
Fax: 215 679-1788
Tel: 800 343-KNOLL

All accepted orders will be confirmed in writing on the Knoll standard order confirmation form.

Ship-Complete Orders
Orders that must ship complete are to be so stated on the purchase order. Products with different lead times, combined on one order, can be acknowledged for shipment based on the longest of those lead times. Orders not marked “ship complete” will be released according to the confirmation, and invoiced in increments.

For More Information
For complete Knoll Selling Policy and warranty information, please refer to page 191 of this price list.
For additional information on KnollExtra, contact your Knoll representative, a Knoll dealer, or telephone Customer Services at 800 343-KNOLL.

*EY for orchestra brackets. If your system is not listed, please consult your Knoll sales representative or Customer Service at 1-800-343-5665.
While KnollExtra relies on highly durable materials in each product line, regular basic maintenance will ensure the longevity of your product. Most stains, marks, and discolorations can be removed by following the simple instructions outlined on this page.

**Plastic**
Windex and a dry cloth.

**SofStone**
Early removal of a stain makes SofStone care much easier. This is especially true of coated areas which are frequently handled. If oil suds and are allowed to build up, they can soften the suede coating, and become very difficult to remove. Most dirt and smudges can be removed by the following methods:

1. Greasy stains (crayon, oil, lipstick, etc.): remove grease and wax stains with a naptha-dampened lint-free cloth. Change the cloth frequently to remove as much grease as possible without spreading the stain.

2. Non-greasy stains (dirt, coffee, mustard, catsup, etc.): dirt and smudge areas can generally be removed by using a sponge or soft bristle brush with Liquid Ajax, Mr. Clean, Lestoil, or 3M brand carpet spot remover and upholstery cleaner. Follow the instructions on the label, and rinse thoroughly with clear water and a lint-free cloth.

3. Combination stains (chocolate, ice cream, gravy, soup, etc.): combination stains are caused by materials that contain both greasy and non-greasy substances. First use the procedures for non-greasy stains as stated above. Then, rinse thoroughly with clear water and thoroughly dry with a lint-free cloth. If greasy stain persists, follow the procedure for greasy stains as stated above. Repeat as necessary.

**Stainless Steel:**
Windex and a dry cloth.

**Antique Brass, Brushed Zinc and Black Oxide:**
A damp cloth with no cleaning agents.

**Satin Brass:**
Pledge.

**Linoleum:**
Windex and a dry cloth.

**Contemporary and Traditional Standard Leathers:**
Mild soap and water on a soft cloth.

**Spinneybeck Leathers:**
As a result of the high quality aniline dye process, most scratches or minor stains can be removed simply by gently rubbing them with your fingers. The body's natural oils revitalize the leather. For stubborn stains, use mild soap and water. Take care to wash the surface evenly since soaps may slightly alter the leather's tonality.

**Surf Collection:**
Wipe nylon skin using warm water and mild detergent. Do not use abrasives.

**Office Automation**

**Accessories/Storage Drawers:**
Clean with EV-1 or any liquid cleaner recommended by the manufacturer. Use caution when applying cleaning agents, particularly those that contain alcohol, strong alkalis, or solvents. These ingredients may react to the vinyl backing or adhesives used in the fabric board. Always test cleaning agents on fabric from the rear of the panel before using on the front.

3. To remove crayon, scotch tape, or other stubborn materials, apply a mild solvent or paste made with scouring powder and water.

**Fabric Boards:**
Despite the durability of most panel textiles, fabric boards are subject to long-term soiling and wear. A regular maintenance program will significantly lessen soil and dirt build up or staining on your fabric boards. Cleaning is particularly important in areas adjacent to air conditioning or ventilation systems.

Remember to consult the care instructions provided by the fabric manufacturer. The general recommendations below should apply to most fabric boards.

1. Avoid excessive heat or moisture which can affect finishes and adhesives. Never allow fabric panels to become wet inside the core. Room temperature should be maintained between 50 and 85 degrees; humidity should be maintained between 20 and 50%.

2. Avoid contact with sharp edges which could puncture the surface.

3. Do not handle fabric boards more than necessary. Avoid bending or flexing the panels; this could break the bond between the surface and core materials.

4. Grease or oil should be wiped off immediately upon contact. Remove excess grease or oil by blotting. Use hot water and mild soap to remove any remaining residue.

5. Whenever possible, clean only with warm water and mild soap. Use caution when applying cleaning agents, particularly those that contain alcohol, strong alkalis, or solvents. These ingredients may react to the vinyl backing or adhesives used in the fabric boards. Always test cleaning agents on fabric from the rear of the panel before using on the front.

6. Care should be taken in using strong room cleaners or pesticides. Their fumes may contain agents which lead to the loosening of the fabric board glue bond.

**Ordering Information**

Specify:
1. Pattern number
2. Mount

**Additional Information**

- Sparrow is available in a black finish with stainless steel rods.
- Occupancy sensor (LED PIR) can be added to any LED light and must be ordered separately.
- UL Certified.

**Light Source Information**

- 9-watt single multichip LED.
- 50,000 hours lifespan.

**Height Range**

- Articulates 15° to 90°.
- Table clamp: 2.5” to 21.4”
- Antenna beam side: 3.5” to 22.3”
- Freestanding: 4.3” to 23.2”

**Construction**

- Lamp: LED, cast aluminum housing, stainless steel frame and plastic reflector and lens.
- Table clamp mount: steel.
- Antenna beam side mount: die cast aluminum.
- Freestanding base: plastic and cast iron.

**Occupancy Sensor**

- Occupancy sensor: extruded aluminum body, plastic face, end caps and lens.

**Design Awards**

- Best of NeoCon 2013 Silver Award.
- Sparrow is TAA compliant.

Lighting
Copeland™ Light
by Stephan Copeland

**Standard Arm**
- Shown with base
- Standard Arm.
- 13 watt ENERGY STAR rated compact fluorescent bulb.
- Mounting option must be ordered separately.
- 20.75"h x 21.75"w (at 90° angle)
- Reaches height of 29.75" when extended up and depth of 35.75" when extended out.

**Compact Arm**
- Shown with base
- Compact Arm.
- 13 watt ENERGY STAR rated compact fluorescent bulb.
- Mounting option must be ordered separately.
- 16.25"h x 17.75"w (at 90° angle)
- Reaches height of 23.5" when extended up and depth of 28.75" when extended out.

**Replacement Bulb**
- ENERGY STAR 13 watt replacement compact fluorescent bulb (fits compact and standard lights)

**Mounting Options**
- Standard base
  - To be used with standard arm only.

- Compact base
  - To be used with compact arm only.

- Table clamp
  - To be used with either size arm.
  - Works on desks of up to 1 3/4" thick.

- Panel Mount, Morrison
  - Panel mount bracket for Morrison.
  - To be used with either size arm.

**Order Code**
- COPE-01-SV, COPE-01-BASE-SV
- COPE-02-SV, COPE-02-BASE-SV

**Light Bulb Information**
- Ships with a 13 watt compact fluorescent light bulb. This is equivalent light output of a 75 watt incandescent light bulb.
- 13w/120v/2700K, UL listed, ENERGY STAR rated.
- An incandescent light bulb can also be used. 75 watt is the maximum for the standard light and 60 watt is the maximum for the compact light.
- See above for bulb replacement.

**Construction**
The Copeland Light has a steel arm, aluminum roles, zinc coated cast iron base and metallic painted ABS shade.

**Design Awards**
Best of NeoCon 2005, Silver Award

#### Ordering Information

| Example: ACT-PW-PC-36-36-13-1E |
| ACT | Activity Spaces |
| PW | Power Collection |
| PC | Power Cube |
| 36-36-13 | 36" x 36" |
| 1E | Electrical outlets on one side |

#### General Notes

Each electrical module has either 4 outlets or 3 outlets and 2 USB ports, depending on specification.

Power Cube is 13" high with 4 levelers. Hard wired comes with 72" whip. Cord set comes with 72" cord with a 3-prong plug for 120V outlets. Base includes one slot per corner for choice of cord exit.

Power Cube: Powder coated steel, steel and nylon levelers

Magnetic Accessory Cup: See page 36.

#### Construction

*Note: Each Power Cube comes with a whiteboard finish and ships with 4 dry erase markers (blue, green, red and black) and a microfiber cloth eraser. To prevent dry erase markers from drying out, store them with the cap down in the optional cup.*

Order Code

Ordering Information

Specify:
P.1. Pattern number
P.2. System
P.3. Finish
P.4. Mounting Option

Nested aluminum finishes:
Satin Anodized Aluminum (SA)

Special sizes and small quantity orders may be quoted.

Painted aluminum finishes:
Medium Grey (115)
Black (114)
Beige Mist Metallic (611)
Brown (112)
Dark Grey (113)
Folktone Grey (314)
Sandstone (116)
Bright White (148)
Medium Grey Metallic (612)

Painted Legacy aluminum finishes are still available for existing customers only:
Medium Metallic Grey (DG)
Soft Grey (E)
Warm Putty (WP)
Flint (F)
Black (BK)

Ordering pattern number. To specify brackets:
Panel-mounted brackets for other applications, include an “EY” at end of base pattern number. Panel-mounted bracket is for use with load bars and 6½” slat boards only. (14⅜” slat board is too large for this application.)

Mounting Options

Panel, stanchion and wall-mounted brackets:
Wall, stanchion, or panel-mounted brackets are included in the list price and are specified when ordering pattern number. Please review Mounting Options before mounting. Please see p.130 for flat panel monitor support options.

Custom Options

Note: Not board is available in custom lengths of up to 96”. Please note that for all lengths greater than 60”, lead bar will be painted, not anodized.

Bracket types are currently available for virtually every major office system. For Equity panel-mounted applications, include “EH” at end of base pattern number.

Construction

Corrosion-resistant T6063-T5 painted or anodized aluminum. End caps are 11 gauge steel painted matte black. Bottom rail is filled with 57 Delrin plastic pellets to support paper on info rail. Black anodize face plate bracket. Die-cast aluminum painted black.

Manufactured in the United States.

### Ordering Information

Specify:
1. Pattern number

### Mounting Options

**Worksurface-Mounted Bracket**

Panel, aluminum and wall-mounted brackets are included in the list price and are specified when ordering pattern number.

**Worksurface-Mounted Bracket**

Metal posts attach to underside of work surface with C-clamp, raising Load Bar 10" above work surface. Usable on work surface 7/8" - 1 1/2" thick. There should be at least 3/4" - 1" of space between the back of the desk and the surface behind (ie. it cannot be flush). Set of 2 brackets. For Load Bars wider than 66", order additional brackets. For use with load bars and 6 1/2" slat boards only.

**Wall-Mounted Bracket.**

Panel mounted brackets:

- Panel mounted brackets for other systems can be developed. Minimum of 100 sets per bracket.
- Tooling and setup charges may be required. Contact your Knoll sales representative or Customer Service for complete pricing information.

**Construction**

Worksurface-mouted bracket:

- Die-cast aluminum painted black.
- Manufactured in the United States.

**Design Awards**

## Sapper™ Monitor Arm Collection
### Easy Order Single Arm Kits
by Richard Sapper

Kit includes everything needed to mount one monitor to a worksurface, slat wall or wall: single standard arm, 16" mast (unless otherwise specified), movement joint (includes fast release monitor plate), adjustment knob, cable management clips and mounting option (see right for options).

Mounting and Application Information

See page 130 for comprehensive mounting, application and construction information.
Mounting and Application Information:

- All Sapper standard monitor arms:
  - Maximum weight of 20 lbs per arm, weight limits vary by application.
  - Ship standard with fast release movement joint
  - Offer 117 degrees of monitor tilt up and down, 180 degrees of swivel, 360 degrees of rotation for portrait and landscape viewing.
  - Fold themselves to be highly compact at only 2.5" when fully compacted.
  - Are durable and lightweight (standard arm weighs only 2.4 pounds).

- All Sapper plus:
  - Maximum weight of 50 lbs per arm, weight limits vary by mounting option.
  - Ship standard with fast release movement joint
  - Offer 117 degrees of monitor tilt up and down, 180 degrees of swivel, 360 degrees of rotation for portrait or landscape viewing.
  - Fold themselves to be highly compact (only 4.75" when fully compacted).

*Please note this limit accommodates up to 99% of monitors on the market. There is not a specific monitor size maximum limitation for a single Sapper monitor arm. A larger size (e.g., 24" widescreen) does not necessarily equate to a higher weight monitor. It is key to understand the application to know if a certain size monitor will fit within a space and/or if there are multiple monitors. Always refer to weight limitations vary by application. See details below.

Weight Limits:

- Weight limitations for individual mounting options are outlined below. Taken together (both individual arm limit) you can determine the best mounting approach for your client given the number of monitors desired to be mounted and the weight of those monitors. Weight limits are determined by mounting option on the next few pages.

For example, if you want to mount two monitors on a work surface, you can only accomplish this if each of those two monitors weighs 18 lbs (2 monitors x 18 lbs each equals 36 lbs total). We can accommodate that with the Horizontal weight limit for the 24" mast on a grommet and 20 lbs for the 18" mast. If you want to accommodate three monitors weighing 18 lbs each (54 lbs total) with a 24" mast on a grommet mount, because the maximum weight limitation on a single mast is 45 lbs for the 24" mast.

Size Limits:

- Monitor Arms:
  - There is no specific maximum size for a single arm solution (outside the limitations of the space in which you are trying to put it). When mounting two monitors, the maximum outer horizontal width per monitor is 31.25" for a cockpit solution or 20.5" for a flat positioning flush next to each other in a row. There is room to accommodate larger screen monitors in triples by turning monitor arms to a portrait position.

- Horizontal width per monitor is 13.4" for a cockpit solution or 20.5" for a flat positioning flush next to each other in a row. There is room to accommodate larger screen monitors in triples by turning monitor arms to a portrait position.

For beam solutions, the length of the desk or the entire horizontal width (for a cockpit solution or worksurface) must be at least double the length of the beam. If moniters extend beyond the end of the beam, additional workspace is required. For additional size guidelines and limitations, please see the Easy Order Desk Beam Guide and the Order Beam Kit Guide.

Horizontal Monitor Height on a 32" Mast for Double Starred Monitors

Please note while four monitors (two-on-two) are shown above, the height limitation apply to six monitors (three-on-three) configurations as well.

KEY NOTE: Flat panel monitor manufacturers refer to their products by diagonal screen measurements. So a 19" widescreen monitor may be a "19" screen measured diagonally, but is not necessarily 19" in horizontal width (refer to manufactures specifications for specific overall height and width).
For use on architectural walls only as outlined further on this page. Knoll cannot be held responsible for the structural integrity of a wall so please work with clients to ensure their wall is structurally sound to hold the arm configuration and the monitor weight. Such parts from one system cannot be used with another.

They have been designed independently and as such parts from one system cannot be used with another. Cannot mix and match the Sapper arm with the Sapper 50 arm or a standard arm with the Sapper 50 mount.

Fast Release:

Monitor Arm:
Allows for swift installation and removal of flat panel monitors by merely pulling the quick release pin up to remove monitor with movement joint/back plate attached.

Set Screw to Prevent Arm Removal

Compatibility:
The Sapper Monitor Arm Collection is not compatible with the Wishbone Flat Panel Monitor Support System (i.e., Wishbone, Zones or Rotation arms, posts, tool bars, brackets, mounting, etc.). They have been designed independently and as such parts from one system cannot be used with the other.

Monitors cannot be mounted on KnollExtra/Orchestra load bars.

Installation Instructions:
Comprehensive installation instructions will be shipped with product and are also available on Knoll Exchange for easy reference.

Construction:

Arms:
die-cast aluminum with a cold rolled steel top plate

Mast:
aodized aluminum extrusion

Beams: satin anodized extruded aluminum

Adjustment knob: nylon undermold with a TPU overmold

Movement joint (includes fast release monitor plate): plastic bushings zinc and plastic molded plastic tilt friction components and glass filled nylon VESA plate

Movement joint side: aluminum, powder coated silver

VESPA plate adaptors: steel

Table c clamp, grummert mount, fixed table mount, COT Center channel mount, DH Bench mount, Antenna center beam center mount: steel

Slat wall and wall mounts (both mast mount and direct, both standard and compact sizes): die cast aluminum with steel back plates

Double arm bracket: die-cast aluminum, steel top plate, extruded aluminum posts, plastic upper and lower bushings

Triple arm bracket: die-cast aluminum, steel top plate, extruded aluminum posts, plastic upper and lower bushings

Mount-to-beam bracket: aluminum, powder coated silver

Cable management: transparent polycarbonate clips on the mast and beam plastic gates under standard arms

Antenna and Quadruple support arm bracket: die cast aluminum

Two-Piece Table Clamp: Deep Table Clamp, Heavy-Duty Table: Clamp, Grummert, Fixed Table, Cition Open Table Center Channel, Dividends Horizon Benching and Antenna Center Beam Table Mounting: steel

Antenna Table Center Beam Side Mounting: die-cast Aluminum

Slat Wall and Wall Mounts both Direct Mast Mounting, Direct Mounting and Support 50 Direct Mounting (for both standard and compact arms):

Die-cast Aluminum with steel back plates

Quadruple arm bracket: Die-cast Aluminum

Gates Clips

Crinion Open Table Center Channel, Dividends Horizon Benching and Antenna Center Beam Table Mounting: steel

KnollExtra

Electrical socket. The monitor to plastic cable management clips on the back of the beam (6 on the small, 8 on the medium, 10 on the large) that can hold wires from the monitor to the mast cable management. The beam mast cable management is wider than the standard mast cable management to accommodate multiple monitor wires.

Adjustment: The Sapper monitor arm collection offers intuitive adjustment. To adjust the height, you simply manually lift the arm and twist the adjustment knob like a screw up or down the mast to a comfortable setting. The easiest way to lift the monitor is to fold it in before making the adjustment. To adjust the depth, you can move the arm in or out. You can also rotate the monitor 360 degrees for landscape or portrait viewing and adjust the swivel back and forth 180 degrees and tilt up and down 165 degrees. The arm folds in and out from 2 1/2” fully compressed to approximately 17” when fully extended.

Silver Monitor Arm Finish Option:
Silver (613)

Arm Finish Option Note:
All monitor arm finishes are monochromatic with the exception of Bright White, which has a light grey shroud.

Mounting and Application Information

See page 146 for comprehensive mounting, application and construction information.
All Sapper XYZ monitor arms:
- Maximum weight of 20 lbs per arm
- Ship standard with fast release movement joint
- Offer 360 degrees of pivot at the base and at the elbow joint
- Offer 153 degrees of monitor tilt up and down, 100 degrees of swivel left and right and 360 degrees of rotation for portrait and landscape viewing
- Fold into themselves to be highly compact at less than 2 inches when fully compressed
- Are durable and lightweight (weights only: 4 pounds)

*Please note this limit accommodates up to 95% of monitors on the market.

Size Limits:
Monitor Arms
There is no specific maximum size for a Sapper XYZ monitor arm (outside the limitations of the space in which you are trying to put it).

Flat panel monitors refer to their products by diagonal screen measurements. So a 19" monitor means a diagonal length of 19". Monitors are measured diagonally, but is not necessarily 19" in horizontal width (refer to manufacturer’s specifications for specific overall height and width).

Monitor Mounting:
All Sapper XYZ monitor arms are compatible with the international Video Electronics Standard Association (VESA) industry interface standard (75 mm x 75 mm or 100 mm x 100 mm hole patterns or 2.95" x 2.95" and 1.94" x 1.94") adopted by most panel manufacturers. VESA compliance is a requirement to mount any monitor to a monitor arm. If your customer has a non-compliant monitor with only 75 mm x 75 mm holes, additional spaces may be needed to ensure proper fit. Contact Customer Service for more details including part and pricing information.

Kroll movement joints do not ship with screws and are designed to accept an M4 or M5 screw. M5’s limit and M5’s 10mm are the most common screw lengths but length is dependent on the specific monitor or television and screws should be tested prior to installation to ensure correct length. Knoll is not responsible for use of incorrect screws.

A VESA plate adaptor may be necessary for larger monitors and televisions and can be ordered separately in sizes of 200 mm x 200 mm (M6 screws), 400 mm x 400 mm (M8 screws), 300 mm x 300 mm (M6 screws) and 400 mm x 600 mm (M10 screws). Adaptors ship with separate installation instructions and may require spacers. Knoll VESA plate adaptors ship with screws to attach the adaptor to the Knoll VESA plate but does not ship with screws to attach the adaptor to the monitor or television (see screws sizes listed above). English size equivalents may be needed instead; screw length is dependent on the specific monitor or television and screws should be tested prior to installation to ensure correct length. Knoll is not responsible for use of incorrect screws.

Knoll and its dealers will not take the responsibility for mounting the monitor to the arm. The end user’s IT department must confirm VESA mounting compliance and mount the arm using customer’s own screws.

Please follow installation instructions closely (available in each kit box shipped as well as on Knoll Exchange).

Apple Note: Apple Macs are not VESA compliant. To mount an iMac or LED Cinema Display to a Sapper Display Arm requires a customer to purchase a Cinema Display VESA Mount Adapter Kit from Apple. The adapter kit comes standard with a 100 mm x 100 mm hole pattern and can be purchased online at apple.com.

Clamp Mounting:
Two-Piece Table Clamp Mounting
The standard two-piece table clamp is easy to install or retrofit and works on most worksurfaces or desks that are a minimum of 1/2" thick solid core. The maximum worksurface thickness is 2.5". There are four settings to accommodate a range of worksurface thicknesses.

It is important to mark up the table clamp, particularly on competitive product to ensure a proper fit. The clamp is not compatible with Morrison Network.

Deep Table Clamp Mounting
This clamp is one piece and works on most surfaces. The deep table clamp mount is intended to clear most knee-edg (45 degree angle) desks or worksurfaces.

Grommet Mounting:
With all systems furniture, it is important to pass monitor and peripheral plugs through grommet mount cover while it is still loose. Please note the grommet mount is compatible with Morrison, Autotrad, Roll, Propeller, but is not compatible with the Graham Collection or DiVA Series grommet mount. To use on Morrison Network, a grommet template that goes on the post to keep wires tidy to the electrical socket.

Arm Adjustment:
The Sapper XYZ monitor arm collection offers intuitive one touch adjustment.

Weight Adjustment: The Sapper XYZ monitor arm is present for a 10 lb monitor. Other monitor weights up to 20 lbs can be accommodated by adjusting the weight adjustment nut to the proper weight using the Allen key wrench on the back of the movement joint. Note the 20 lb setting is not visible on the scale. Turn clockwise to decrease weight or counter clockwise to increase weight to appropriate level.

Arm Construction:
The Sapper XYZ monitor arm is not compatible with the Sapper Monitor Arm Collection. It has been designed independently and as such, parts from one system cannot be used with the other, with the exception of the movement joint. Finish colors are consistent across the Sapper XYZ and Sapper Monitor Arm Collection portfolios.

Mounting:
Monitor arms cannot be mounted on KnollExtra® Orchestr® lead bases.

Installation Instructions:
Comprehensive installation instructions will be shipped with product and are also available on Knoll Exchange for easy reference.

**Construction**
- **Keyboard support** provides users with a more comfortable working environment by allowing them to adjust the height and pitch of the platform holding their computer keyboard. When not in use, the Adjustable Keyboard Support stores the keyboard under the worksurface. For taller individuals, we recommend using a pivot solution to free vital workspace space.
- **Mechanisms:**
  - **Easy lift arm:**
    - Soft touch knob adjusts tilt from 0° to (+) 15°
    - Variable height adjustment of 4.20” (up 1.66”, down 3.20”)
  - **Advanced Easy lift arm:**
    - Soft touch knob adjusts tilt from 0° to (+) 15°
    - Variable height adjustment of 8.8” (up 2.81”, down 6.00”)

**Application Notes**
- **Keyboard tray must be specified** for installation of Romeo and Juliet platform. Worksurface table, you will need to order a special adapter available through that price list. Pattern code is T4K.
- Keyboard tray must be specified with a sliding track that is less than the depth of the top and anything below the top such as a power harness or cable basket.
- For taller individuals, we recommend using a pivot solution mounted on the diagonal to maximize knee space.

- Sized to accommodate keyboard and mouse
- Includes palm rest provides soothing support
- Thin profile for extra knee room.
- Rigid plastic platform with steel stiffener plate
- 2. Track size (if applicable)

Order Code
Example: OA-K-PR-EL2-BK-(16,18,22,23,25)
OA-K-PR-EL2-BK: Prospero platform mounted on an easy lift mechanism
(16,18,22,23,25) Track length

Ordering Information
Specify:
1. Pattern number
2. Track size (if applicable)
3. Track length; Options are 16, 17.750, 21.625, 22.625 and 25 inches.

Mechanism Attributes
All mechanisms have the following features:
- Spring assist adjustment
- Knobless height adjustment
- Pivots side to side 360°
- Black textured metal finish
- Soft touch knob adjusts tilt from 0° to (+) 15°
- Variable height adjustment of 6.07" (up 3.03", down 3.03")
- Advanced Easy lift arm:
- Soft touch knob adjusts tilt from 10° to (+) 20°
- Variable height adjustment of 9.06" (up 4.33", down 4.73")
- No/Stand arm:
- Soft touch knob adjusts tilt from 0° to (+) 15°
- Variable height adjustment of 11.57" (up 6.40", down 5.17")

Mechanism Attributes
- All mechanisms have the following features:
  - Spring assist adjustment
  - Knobless height adjustment
  - Pivots side to side 360°
  - Black textured metal finish
  - Soft touch knob adjusts tilt from 0° to (+) 15°
  - Variable height adjustment of 6.07" (up 3.03", down 3.03")

Pivot feature:
- Allows the keyboard platform to move independently from arm, allowing it to stay parallel to the worksurface as the arm is moved laterally.

Antenna Mounting Note
In order to mount to Antenna Workspace tables, you will need to order a special adapter available through that price list. Pattern code is YA6.

Keyboard tray must be specified with a sliding track that is less than the depth of the top and anything below the top such as a power harness or cable basket.

For taller individuals, we recommend using a pivot solution mounted on the diagonal to maximize knee space.

**Mechanism Attributes**

**All mechanisms have the following features:**
- Spring assist adjustment
- Knobless height adjustment
- Pivot side to side 360°
- Black textured metal finish

**Easy lift arm:**
- Soft touch knob adjusts tilt from 0° to (+) 15°
- Variable height adjustment of 7.04” (up 2.83”, down 4.21”)

**Sit/Stand arm:**
- Soft touch knob adjusts tilt from 0° to (+) 15°
- Variable height adjustment of 11.57” (up 6.40”, down 5.17”)

**Pivot feature:**
- Allows the keyboard platform to move independently from arm, allowing it to stay parallel to the worksurface as the arm is moved laterally.

**Order Code**

**Ordering Information**

When you specify, you will be prompted to indicate either MDF (M) or phenolic (P).

**Tracks length options are 16, 18, 22, 23, 25 inches.**

**Standard color is black.**

**Minimum clearance required is the length of the track plus 1/2.”**

**Advanced Easy Lift track cannot be used with other mechanisms.**

**Application Notes**

Keyboard support provides ease of use of the computer keyboard in a more comfortable working environment by allowing the user to adjust the height and pitch of the keyboard, making it possible to have a more comfortable working environment by allowing them to maximize knee space.

**Keyboard tray must be specified through that price list. Pattern code is YAK.**

For taller individuals, we recommend using a pivot solution mounted on the diagonal to maximize knee space.

**Mechanism Attributes**

- **Easy lift arm:**
  - Soft touch knob adjusts tilt from 0° to (+) 15°
  - Variable height adjustment of 4.2” (up to 1.06”, down 3.14”)

- **Sit/Stand arm:**
  - Soft touch knob adjusts tilt from 0° to (+) 20°
  - Variable height adjustment of 4.0” (up to 3.14”, down 0.5”)

**Construction**

- Keyboard support provides users with a more comfortable working environment by allowing them to adjust the keyboard in a sitting or standing position.
- All mechanisms have the following attributes:
  - Spring-assist adjustment
  - Knobless height adjustment
  - Pivot side to side 160°
  - Black textured metal finish
  - Steel with nylon glides.

**Application Notes**

- Keyboard support is fabricated in phenolic board.
- Board is phenolic and textured, and covered in polyurethane.
- Mechanism: All arms are steel with a powder-coated finish. Trays are steel with nylon glides.

**Order Code**

- **Example:** OAK-A2-P-1-EL2-BK-(16,18,22,23,25)
- **OAK:** Offers optional keyboard, keyboard platform, and mouse pad.
- **P:** Optional products, standard on eight sides.
- **EL2:** Easy-lift mechanism
- **BK:** Black
- **HS:** Standard color is black.

**Ordering Information**

- Minimum clearance required is the length of the track plus 0.5”.
- Dimension above are for the platform only. For full configuration details, all components and measurements apply to the keyboard measurements tool in Knoll Exchange.

**Mechanism Attributes**

- **Easy lift arm:**
  - Soft touch knob adjusts tilt from 0° to (+) 15°
  - Variable height adjustment of 4.2” (up to 1.06”, down 3.14”)

- **Sit/Stand arm:**
  - Soft touch knob adjusts tilt from 0° to (+) 20°
  - Variable height adjustment of 4.0” (up to 3.14”, down 0.5”)

**Knoll Extra Technology Management**

In order to mount to Antenna Workstation tables, you will need to order a special adapter available through that price list. Pattern code is YAH. Keyboard tray must be specified with a sliding track that is less than the depth of the top and anything below the top such as a power harness or cable basket.

For taller individuals, we recommend using a pivot solution mounted on the diagonal to maximize knee space.

**Order Code Example:**

- OAK-A2-P-1-EL2-BK-(16,18,22,23,25)

**Ordering Information:**

- Track length options are 16, 17.75, 21.625, 22.63 and 25 inches.
- Standard color is black.
- Minimum clearance required is the length of the track plus 0.5”.
- Advanced Easy Lift track cannot be used with other mechanisms.

**Application Notes:**

- Keyboard support provides users with a more comfortable working environment by allowing them to adjust the height and pitch of the platform holding their computer keyboard. When not in use, the Adjustable Keyboard Support stores the keyboard under the worksurface to free vital worksurface space.
- Dimensions above are for the platform only. For full configuration depths, all component measurements and application suggestions refer to the Keyboard Measurements tool on Knoll Exchange.

**Construction:**

- Board is phenolic.
- Wristrest is foam-filled vinyl on MDF board.
- Mousepad is lycra covered polyurethane.
- Mechanism: All arms are steel with a powder-coated finish. Tracks are steel with nylon glides.

**Mechanism Attributes:**

- All mechanisms have the following features:
  - Spring assist adjustment
  - Knobless height adjustment
  - Pivot side to side 360°
  - Black textured metal finish

- **Short easy lift arm**:
  - Soft touch knob adjusts tilt from 0° to (−)15°
  - Variable height adjustment of 4.26” (up 1.06”, down 3.20”)

- **Advanced easy lift arm**:
  - Soft touch knob adjusts tilt from 0° to (−)20°
  - Variable height adjustment of 8.8” (up 2.38”, down 6.5”)

- **Sit/Stand arm**:
  - Soft touch knob adjusts tilt from 0° to (−)15°
  - Variable height adjustment of 11.57” (up 6.40”, down 5.17”)

- **Pivot feature**:
  - Allows the keyboard platform to move independently from arm, allowing it to stay parallel to the worksurface as the arm is moved laterally.

**Antenna Mounting Note:**

- In order to mount to Antenna Workspace tables, you will need to order a special adapter available through that price list. Pattern code is YAK.
- Keyboard tray must be specified with a sliding track that is less than the depth of the top and anything below the top such as a power harness or cable basket.
- For taller individuals, we recommend using a pivot solution mounted on the diagonal to maximize knee space.

#### Ordering Information

**Specify:**
1. Pattern number

Not all mousing solutions are appropriate with all platforms.

**Construction**

**Workstation mounted surf mouse pad:**
- Black painted steel mechanism
- Mounted with hard surface backed surf mouse pad

**Juliet mouse pad:**
- TPE (thermoplastic elastomer) overmold with 40% nylon
- Reinforced polypropylene undermold

**Juliet palm rest:**
- Nylon upholstered palm rest is dual density polyurethane. The gel beneath the fabric, nominally .65", is formulated to provide soothing support.

Ergonomic Value
Each piece in the Surf Collection is a "footprint form," derived from natural ergonomic movements. No sharp edges or angles are used. As a result, the accessories can be approached by the user from any direction. The soft, biomorphic shapes of the Surf Collection echo the curves and contours of the human body.

Lumbar support note:
Back problems are the second leading cause of lost work time after the common cold. Most back rests utilize rigid, unyielding materials, ignoring the diversity of human form and movement.

General Notes
The Surf Lumbar Support rests loosely over the chair like a saddle bag, held in place by a counter balance weight. The piece is easily adjusted up or down, to the preference of the user.

Construction

Manufactured in the United States.

Design Awards
Freestanding Ergonomic Accessories

**VDT Sleeve**

- Racetrack-shaped sleeve slides over worksurface to create VDT corner.
- Creates 17 1/8" wide VDT corner, 9" from worksurface corner.
- Can be adjusted to any angle, or removed when not needed.
- Heavy-gauge steel with felt backing to prevent scuffing.
- Available in two metallic and two soft-touch finishes.

**Adjustable Foot Rest**

- Self-adjusts +30°/-30°.
- Durable, ribbed rubber platform.

Order Code

**BP-SSF**

- Specify:
  1. Pattern number
  2. Lock option

- Lock option:
  - Lock attaches to slides in field.
  - Removable for use elsewhere.

Application Notes

- BackPack drawers can be used with virtually any Knoll or other wood workurface.
- BackPack storage drawers attach to the underside of wood worksurfaces at any location. In most cases, the drawers may be mounted flush to side panels. When supporting brackets extend further than 2 1/2” from the side panel, a slight reveal will occur. Mounting hardware and template included.
- For wire management needs, the minimum depth worksurface for standard depth drawers is 24”. Minimum depth for deep drawers is 30”. When no wire management is necessary, the Standard Suspended File may be used on an 18” worksurface and the Deep Suspended File may be used on a 24” worksurface.

Construction

- Sturdy, 20-gage painted steel with full-extension ball-bearing metal slides. Foam surface on mouse pad.
- Die-cast zinc lock painted black.
- Manufactured in the United States.

</tr>
</thead>
<tbody>
<tr>
<td>Standard Center File</td>
<td>Includes 26&quot; x 14&quot; x 24&quot; storage for desk and personal items. Full width pencil trough and rear filing area. 3/4&quot; deep filing area accepts 2 rows of front-to-back letter filing, or one row of front-to-back legal or European A4/foolscap filing plus space for handbag. Drawer contains 57% capacity of standard file drawer. Optional lock. Black painted steel construction with full extension ball-bearing slides.</td>
<td>27&quot; x 14&quot; x 22&quot;</td>
<td>16 lbs. 6 ozs.</td>
</tr>
<tr>
<td>Deep Center File</td>
<td>Includes 26&quot; x 14&quot; x 24&quot; storage for desk and personal items. Full width pencil trough and rear filing area. 9 1/2&quot; deep filing area accepts 2 rows of front-to-back letter filing, or one row of front-to-back legal or European A4/foolscap filing plus space for handbag. Drawer contains 94% capacity of standard file drawer. Optional lock. Black painted steel construction with full extension ball-bearing slides.</td>
<td>27&quot; x 14&quot; x 22&quot;</td>
<td>20 lbs. 13 ozs.</td>
</tr>
</tbody>
</table>

## Optional Lock

- Non-handed: 1 1/2" x 2 1/8" x 1 1/4" x 5 ozs.

## Application Notes

- BackPack drawers can be used with virtually any Knoll or other wood worksurface.
- BackPack storage drawers attach to the underside of wood worksurfaces at any location. In most cases, the drawers may be mounted flush to side panels. When supporting brackets extend farther than 2 1/2" from the side panel, a slight reveal will occur. Mounting hardware and template included.

**Optional Lock**

- Non-handed: 1 1/4" x 2 1/4" x 1 1/4" x 5 ozs.

**Order Code**

Example: BP-NKD-BK

- BP-NKD: Narrow keyboard drawer
- BK: Black palm rest

**Ordering Information**

- Specify:
  1. Pattern number
  2. Wrist rest finish
  3. Lock option
- Palm rest nylon finishes: Black (BK)

**Application Notes**

Call Customer Service for availability and minimum requirement.
Lock option: Lock attaches to slides in field. Removable for use elsewhere.

**BackPack drawers**

BackPack drawers can be used with virtually any Knoll or other woodworksurfaces. Call Customer Service for availability and minimum requirement.

**Application Notes**

BackPack drawers can be used with virtually any Knoll or other woodworksurfaces. Call Customer Service for availability and minimum requirement.

**BackPack storage drawers**

BackPack storage drawers attach 2 1/8" below the undersides of wood worksurfaces at any location. Mounting hardware and template included. For wire management needs, the minimum depth for most applications is 24" and 30" for the Keyboard/Filing Drawer. When wire management is necessary, both the Narrow and Wide Keyboard Drawers may be used on an 18" deep worksurface and the Keyboard/Filing Drawer may be used on a 24" deep worksurface.

**Construction**

- Durable 20 gauge steel painted black. Full extension ball-bearing metal slides with click-stop in half-open position. Nylon-shielded foam palm rest.

**Design Awards**

### Pencil Drawer

- **Dimensions:**
  - Width: 11 3/4" (29.8 cm)
  - Depth: 17 3/4" (45.2 cm)
- **Features:**
  - Full width pencil trough.
  - Two removable plastic organizing trays.
  - Black painted steel construction with full extension ball-bearing slides.
  - Optional lock.
- **Specifications:**
  - **Pattern No.:** BP-PD
  - **List Price:** $223

### Top Drawer

- **Dimensions:**
  - Width: 14 5/8" (37.2 cm)
  - Depth: 10 1/2" (26.7 cm)
- **Features:**
  - Full width, 4 3/4" (12.1 cm) pencil trough.
  - Two removable plastic organizing trays.
  - 1 3/4" (4.4 cm) filing space.
  - Black painted steel construction with full extension ball-bearing slides.
  - Optional lock.
- **Specifications:**
  - **Pattern No.:** BP-TOP-C
  - **List Price:** $472

### Optional Lock

- **Dimensions:**
  - Width: 1 1/4" (3.2 cm)
  - Depth: 2 1/4" (5.7 cm)
- **Features:**
  - Non-handed.
- **Specifications:**
  - **Pattern No.:** BP-L
  - **List Price:** $66

## Universal Marker Boards

*by Bruce Hannah & Ayse Birsel*

### Mounting Options

- **Load Bar-Mounted Brackets. Set of 2.**
- **Marker Tray • Anodized aluminum snap-fit tray for Marker Board application**
- **Marker Board Equity panel-mount**
- **Black BK**
- **OR-WB-**
- **Morrison Network PM**
- **OR-WB-24-18 BK**

#### Example: OR-WB-24-18-BK

- **Product Code:** OR-WB-24-18-BK
- **Pattern Number:** 24-18-BK
- **Frame Finish:** BK
- **Mounting Option:** PM
- **Pattern Code:** 18
- **List Price:** $363.00

#### Custom Options

- **Equity application note:** For all Equity panel-mounted applications, add “E” to end of line pattern number.
- **Construction:** Satin anodized aluminum frame (can be powder coated black).
- **Porcelain coating on cold rolled steel laminated to corrugated and hardboard with a silk backing. All Universal Marker Boards are magnetized.**

#### Other Writing Surface and Custom Frame Colors Available

- **Custom Options:** Other writing surface and custom frame colors available. Custom frame sizes available up to 72" W x 47" H in size. High performance porcelain-coated steel market board also available. 25 unit minimum per line item on all custom. Contact your Knoll sales representative or Customer Service for pricing information.

### Marker Board

- 3/8" wide anodized aluminum frame with white surface.
- **Marker Tray option specified separately.**
- **Mountable on load bar, panel, wall or top cap.**
- **Load bar-mounted brackets included in list price,** but specified separately (see Mounting Options below).

### Marker Tray

- Anodized aluminum snap-fit tray for Marker Board application.

#### Mounting Options

- **Load Bar-Mounted Brackets. Set of 2.**
- **Panel-Mounted Brackets (Generic shallow)**
- **Panel-Mounted Brackets for Dividends**
- **Panel-Mounted Brackets for Morrison**
- **Panel-Mounted Brackets for Reff**
- **Top Cap-Mounted Brackets (Dividends only)**
- **Top Cap-Mounted Brackets (Equity only)**
- **Top Cap-Mounted Brackets (Reff only)**
- **Panel-Mounted Brackets, Set of 2.**

#### Order Code

- **KnollExtra®**
- **Communication Boards**
- **Manufacturer:** Morrison Network

</table>

**Ordering Information**

1. Pattern number
2. Corner/edge detail
3. Fabric grade
4. Fabric selection
5. Mounting option pattern number
6. System suffix (panel-mounted option only)

**Mounting Options**

- Standard fabric board has squared corner and rectilinear edge details. See above for edge upcharge.
- Standard fabric board has 1/2" thick mineral board.
- Panel-mounted brackets are included in the list price, but must be specified separately. To specify appropriate panel-mounted bracket, consult the Knoll sales bracket chart on page 12.
- Panel-mounted bracket size must match height of fabric board.
- Wall-mounted options: Wall-mounted applications must be specified as Flash (F-WM-F) or reveal (F-WM-R). Both options are appropriate for any smooth, clean surface. Flash wall-mount option utilizes velcro squares.
- Under overhead specification note: For application under a system overhead, provide clearance distance between the worksurface and the bottom of the overhead or task light.
- Side by side fabric board specification note: Please note if a panel-mounted fabric board will be used contiguous to another fabric board drawings are required and there will be an upcharge.

**Custom Options**

For special sizes: For specials contact Customer Service. Maximum fabric board size is 120"W x 24"H. Fabric must be railroaded on any panel wider than 60".

Customer's own material: For approval, submit at least one yard of fabric for application testing. For panel-mounted applications, all COMs and textiles that are not pre-approved must be UL-tested. Please consult Knoll sales Customer Service for details.

**Corner/Edge Detail**

- S1. Squared corner/rectilinear edge
- R2. Rouded corner/radiused edge

**Construction**

1/2" thick mineral board for durable, highly tackable surface.

</table>

### Construction

- **Whiteboard**: Honeycomb core with medium-density fiberboard skin, high pressure laminate finish and ABS edge.
- **Crossmember**: Aluminum
- **Legs**: Steel
- **Cup**: Die cast aluminum with wool felt insert and steel fasteners.

### Note
- Each markerboard ships with four dry erase markers (blue, green, red and black) and a microfiber cleaning cloth.
- Overall height from floor is 72" high with writable surface starting 25" from floor.
- The optional marker tray runs the length of the crossmember. The optional marker cup mounts to the side.
- To prevent dry erase markers from drying out, store them with the cap down in the optional cup.

Selling Policy

Terms & Conditions of Sales

This Selling Policy supersedes all previous selling policies. Prices, discounts and product offerings are subject to change without notice.

Sales by Knoll, Inc. or Knoll North America Corp. ("Seller") are made only on the terms which are contained in this Selling Policy. Seller hereby gives notice of its objection to any different or additional terms and conditions. This sale is expressly conditional upon Purchaser's assent to the terms and conditions set forth below. Additional terms and conditions may apply to KnollStudio and KnollTextiles orders. These terms and conditions may be modified or supplemented only by a written document signed by an authorized representative of Seller. These terms and conditions supersede any prior and/or contemporaneous agreements or correspondence between Purchaser and Seller. Written quotations expire thirty (30) days from the date of issuance and can be withdrawn by written notice anytime during that period. Where Purchaser and Seller have entered into the Knoll Electronic Terms and Conditions, invoices and other business communications placed or transmitted in accordance with the Knoll Electronic Terms and Conditions shall be deemed to be in writing and signed and shall be valid for all purposes as if they were originated and maintained in documentary form.

Ordering Information

All orders must be in writing. The product pattern number(s) contained on Seller's order acknowledgement shall be the final expression of the order. A purchase order is not binding on Seller until Purchaser has received Seller's order confirmation or acknowledgement.

Order Confirmation

List prices are subject to change without notice. List prices shall be those prices in effect on the date of receipt of a complete purchase order unless shipment is requested more than ninety (90) days after order entry in which case prices in effect on the date of shipment apply. List prices include specified freight costs. Unless specified in writing by Seller, no other charges are included in Seller's list prices.

Pricing Policies

Payment for one hundred percent (100%) of the net order amount is due within thirty (30) days of the date of invoice, which is generally issued upon shipment. In case of any discrepancies, such as shortages, and Seller is notified in writing within ten (10) days of receipt of Product, only that portion may be deducted and the balance paid. For orders greater than $100,000 net, a fifty percent (50%) deposit is due at the time of order placement, with the remainder due within thirty (30) days of the date of invoice.

Freeshipping is prepaid and included in the price of all Products, except KnollTextiles, within the 48 contiguous United States for orders placed with Knoll, Inc. and within Canada, excluding the Yukon, Northwest Territories, Nunavut and Newfoundland for orders placed with Knoll North America Corp. Packing is tested for rigorous motion and transportation but is not guaranteed to protect furniture from all conditions. If special packaging is required for any reason, please consult with your sales representative or dealer. Seller shall select the method of shipment and routing. Freight for all KnollTextiles orders is prepaid and added to the invoice.

Changes and Cancellation

Purchase orders may not be changed or cancelled, in whole or in part, without prior written consent of Seller. Changes may effect delivery dates. Expenses incurred because of changes shall be charged to Purchaser. In the event of cancellations, Purchaser will be liable for reasonable cancellation charges established by Seller. Orders for special Product, orders including "COM" (hereinafter defined) material and orders pursuant to expedited delivery programs, may not be canceled.

Freight Prepaid

Freight is prepaid and included in the price of all Products, except KnollTextiles, within the 48 contiguous United States for orders placed with Knoll, Inc. and within Canada, excluding the Yukon, Northwest Territories, Nunavut and Newfoundland for orders placed with Knoll North America Corp. Packing is tested for rigorous motion and transportation but is not guaranteed to protect furniture from all conditions. If special packaging is required for any reason, please consult with your sales representative or dealer. Seller shall select the method of shipment and routing. Freight for all KnollTextiles orders is prepaid and added to the invoice.

Delivery/Freight Charges

Shipment outside the contiguous 48 United States and Canada shall be shipped F.O.B. Origin.

For shipments outside the contiguous United States and Canada, Purchaser is responsible for the cost of freight from point of embarkation, including any handling and transportation charges incidental to loading at the point of embarkation and unloading at the point of delivery.

Conditions beyond the control of Seller, including weather, available facilities and traffic conditions, may affect exact time of delivery. Seller shall not be responsible for specific carrier delivery date or time unless it has made a specific delivery commitment, in writing.

Nonstandard methods of shipment and/or additional services are available upon request. Purchaser will be billed for the differential cost of any special services in excess of standard surface carrier freight costs. Premium charges, at Purchaser's request, will be added for airfreight, exclusive use of vehicle and extra, export or special packaging. Accessorial charges will be added for inside delivery, extra labor, reconsignment and redelivery.

Partial shipments may be made and invoiced by Seller.

Claims

All shipments for Knoll Products within the contiguous United States and Canada are F.O.B. Origin. All risk of loss passes to Purchaser at time of delivery to carrier. Purchaser shall inspect all Products upon receipt and notify Seller within ten (10) working days after receipt of any damage or defects which are, or should be, apparent from an inspection of the Product and its packaging. Failure of Purchaser to notify Seller during the ten (10) working day period shall constitute acceptance of the Products and waiver of any apparent defects, errors or shortages. For all claims relating to Product damaged in transit or for any other claims relating to or arising out of the transportation of the Product, Purchaser must seek recovery from the carrier and Seller has no liability to Purchaser for such claims. Seller may, upon request, assist Purchaser with filing of such claims with the carrier, but Seller will not be liable for any of these transportation related claims.

Seller's Security Interest

Until Seller receives the full payment for the Product, Seller shall have a security interest in the Product. Purchaser agrees to perform all acts, including but not limited to the execution and filing of documentation, which may be necessary to perfect and assure the security interest of Seller.

Returns

The return of Products without a written authorization by Seller shall not be accepted. To receive authorization for Product return, please call Customer Service. All Products that are returned pursuant to a valid authorization shall be subject to a twenty-five percent (25%) of list restocking charge. Products not currently offered for sale by Seller (including COM) shall not be authorized for return. All returned Products must be unused, in original condition and in the original Seller packing cartons. No refund or credit shall be given for damaged Products.

Held Orders/Storage

If Purchaser requests that an order be held or delayed, prices and terms and conditions in effect at the time of shipment shall apply. If Purchaser requests a delay after the time when Seller can defer production, Purchaser will be invoiced for the Product, payable in accordance with standard terms, when the order is ready for shipment. Seller may transfer the Product to storage, in which case all expenses incurred in connection with storage, including demurrage, preparation for storage, storage charges and handling shall be payable by Purchaser upon submission of invoices by Seller. Risk of loss to the Product shall pass to the Purchaser upon delivery of the Product into storage.
Selling Policy

Customer’s Own Material

A Purchaser who requests a fabric or other surface material not standard to Seller’s line of Products (“COM”) must submit samples of the requested material to Seller prior to entry of a purchaser order. Seller shall determine if the material is suitable to its manufacturing processes and meets any requirements of Underwriters Laboratories. If the COM is acceptable, Seller will then establish a price for using the COM or the Product in question. For a description of the procedures for submitting samples and testing, contact customer resources or your sales representative. Seller shall have no responsibility for the appearance, condition, performance, durability, colorfastness or any other physical attribute of the COM. Purchaser shall indemnify and hold Seller harmless for any damages, injuries or losses arising out of or related to use of the COM on the Product.

Delay/Force Majeure

Seller warrants to the original Purchaser only that the Products Seller manufactures and sells to Purchaser are free of defects in workmanship and materials, during the applicable warranty period set forth below. Warranty period set forth below is for 24-hour, 7 days a week, multi shift use (includes parts and labor to repair). Should any failure to conform with this limited warranty appear to a Product listed below during the applicable warranty period from the date of shipment, Seller shall, upon prompt written notice, repair or replace, at its option and costs, the affected part or parts.

Product and Period of Warranty

Lifetime: Antenna Workspaces, AutoStrada, Calibre, Crixion Open Table, Currents, Dividends Horizon, Equity, Morrison, Reff Profiles laminate, Series 2 Storage, Template and other non-wood components (except cascade edge worksurfaces, operational parts, controls, electrical, Lighting, Series 2 Veneer Front Storage, special or custom products, see below)

12 Years: Chadwick, Essentials Work Chairs, Generation by Knoll, Life, Moment, Multigeneration by Knoll, ReGeneration by Knoll, RPM, Sapper and Togoggan seating (except seating upholstery, textiles, leathers and finishes, see below). 

10 Years: Anchor Storage except digital keypad lock, Antenna Workspaces, Crixion Open Table, Dividends Horizon, Reff Profiles, Template wood components, Series 2 Veneer Front Storage, cascade edge worksurfaces, Wood Caseworks (The Graham Collection) (except wood caseworks upholstered surfaces, see below), Interaction tables (except height adjustment mechanisms for Counterforce, crank-adjustable, and split-top tables and worksurfaces, see below), Reuter overheads, Reuter vertical storage, KnollExtra Sapper Monitor Arm Collection, Adjustable keyboard mechanisms and platforms, Communication Boards (except board fabric textiles, see below), Smokador collection (except leathers, see below), and Orchestra Universal Systems Accessories.

5 Years: Operational parts, controls, electrical, Lighting (except light ballasts, bulbs and power supply, see below), special or custom product, wood veneer products, Currents handcrank, Interaction Counterforce, Interaction crank-adjustable, and split-top mechanisms, KnollStudio, Spark Series seating structural elements, Richard Schultz outdoor products, KnollExtra CPU storage and all universal storage drawers and Power Collection.

3 Years: Seating upholstery, textiles, leathers and finishes, Fabric boards textiles and Smokador Collection leathers, Veneer Front Storage, cascade edge worksurfaces, Wood Casegoods (The Graham Collection) (except wood casegoods upholstered surfaces, see below).

2 Years: Anchor Storage digital keypad lock, all other KnollExtra Product

1 Year: Light ballasts, bulbs and power supply, seating upholstered armpads and soft armpads, wood casegoods upholstered surfaces. KnollStudio Maya Lin and Spark Series seating finishes.

This warranty does not apply to:

• Damage caused by a carrier other than the Seller.
• Normal wear and tear or acts or omissions of parties other than Seller (including user modification, improper use or installation of Products),
• COM or other third party materials applied to Products.
• Products not installed by or under the auspices of a Knoll Dealer.
• Dramatic temperature variations or exposure to unusual conditions.
• Changes in surface finishes, including colorfastness due to aging or exposure to light.
• Except as specifically noted above, textiles and upholstery supplied by KnollTextiles (consult current KnollTextiles price list for applicable warranty).

Natural variations occurring in wood, marble, and leather shall not be considered defects, and the Seller does not guarantee the colorfastness or matching of the colors, grains or textures, or surface hardness of such materials. The Seller also does not guarantee the colorfastness of fiberglass panel surfaces.

The EXPRESS WARRANTIES CONTAINED HEREIN ARE IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTIES OF MERCHANTABILITY AND FITNESS FOR PARTICULAR PURPOSE AND ALL OTHER WARRANTIES ARISING FROM COURSE OF DEALING OR USAGE OF TRADE.

The remedies provided above are the Purchaser’s sole remedies for any failure of Seller to comply with its obligations regarding the workmanship of its Products. Correction of any nonconformity in the manner and for the period of time provided shall constitute complete fulfillment of all liabilities of Seller, with respect to or arising out of the Product furnished hereunder.

Compliance with Law

Purchaser is solely responsible for compliance with all applicable federal, state and local laws, ordinances, regulations, rules and standards relating to the installation, maintenance, use and operation of the products.

Subject to the following provisions, Seller shall, at its own expense, defend or, at its option, settle any claim, suit or proceeding brought against the Purchaser, and/or its vendors, mediate and immediate, so far as based on an allegation that any Product or any part thereof furnished hereunder constitutes a direct or a contributory infringement of any claim of any patent of the United States or Canada. This obligation shall be effective only if Purchaser shall have made all payments then due hereunder and if Seller is notified promptly in writing and given authority, information and assistance for the defense of said claim, suit or proceeding. Seller shall pay all damages and costs awarded in such suit or proceedings so defended.

The foregoing indemnity does not apply to the following:

• Products supplied according to a design other than that of Seller, and which is required by the Purchaser.
• Combination of the Product with another product not furnished hereunder unless Seller is a contributory infringer.
• Any settlements of a suit or proceeding made without Seller’s written consent.

Limitations of Liability

SELLER, ITS CONTRACTORS, AUTHORIZED DEALERS AND SUBCONTRACTORS OR SUPPLIERS OF ANY TIER SHALL NOT BE LIABLE TO PURCHASER FOR ANY SPECIAL, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING FROM A BREACH OF THIS AGREEMENT.

Purchaser’s remedies set forth herein are exclusive and the liability of Seller with respect to the breach of this agreement or any contract entered into between the parties pursuant hereto shall not exceed the price of the Product or part on which such liability is based.
General Ordering Information

The Products
This guide encompasses all standard products for this product group.

Sizes
Dimensions listed in this guide are indicated as:
H = height
W = width
D = depth
Dia. = diameter
Rad. = radius

Pricing
All prices shown are list.

How to Order
Select pattern numbers and quantities required for your complete installation. Product questions can be addressed in the specific sections of this guide or by contacting your sales representative or customer resource representative at 1-800-343-5665.

Next, select options (if required), along with colors and finishes appropriate to each product. Reference the Finishes and Fabrics pages for color designations.

On large installations, an item’s “designated area” can be specified to assist in product organization and handling.

To expedite complete / correct entry of your order, be certain all pattern numbers, quantities, colors and area identifications are completely specified. Also, include complete purchase order numbers, bill-to and ship-to addresses, a contact name and specific factory shipping dates required.

Mail all orders to:
Knoll, Inc.
1235 Water Street
East Greenville, PA 18041
Attention: Order Entry

Once your order is entered at Knoll, an acknowledgment will be mailed to you. You will be advised of your scheduled shipping date within five days of the original acknowledgment. If it is necessary to revise your order, please contact your customer resource representative.

Sustainability Statement

Sustainable design is a key component of Knoll’s environmental focus. Our commitment to social responsibility and a healthy environment has prompted us to further articulate our longstanding environmental programs and, with encouragement and support from our colleagues in the industry, we have re-energized our focus on such “green” initiatives as life cycle analysis and LEED™ certification. Knoll is proud to have contributed to projects that have received LEED certification from the U.S. Green Building Council.

For the latest information on Knoll products that help our customers achieve LEED certification, log on to knoll.com, click on “About Knoll” and then “Environmental Focus.”
