Knoll and Sustainable Design

Each year Knoll sets key initiatives in our journey to sustainability. We are members of a global consortium on energy, have adopted a scientific, metrics-based approach to sustainable product design, and maintain a leadership position in establishing universal, verifiable, sustainability standards for our industry.

Knoll promotes independent third-party certification because it provides the most impartial and trustworthy foundation for industry-wide environmental compliance. Certification by established and respected third parties ensures that all manufacturers are held to the same high standards and that customers can trust a company’s declaration about the environmental benefits of its products. Knoll third-party partners include: the International Standards Organization (ISO); Forest Stewardship Council (FSC®); Rainforest Alliance; GREENGUARD® Environmental Institute; and The Business and Institutional Furniture Manufacturer’s Association (BIFMA) level® certification from Scientific Certification Systems (SCS).

In addition, Knoll is aligned with the U.S. Green Building Council and can help companies, healthcare organizations and educational institutions achieve Leadership in Energy and Environmental Design (LEED®) workplace certification.

Global Climate Change

• Knoll is a sponsor of the Clinton Global Initiative, which brings together a community of global leaders to devise and implement solutions to some of the world’s most pressing challenges, including environmental change.

• Knoll has a comprehensive Energy Management Program to increase energy efficiency in products and processes.

Life Cycle Assessment (LCA) Tool

• Life Cycle Assessment is a science-based measurement of a product’s environmental impacts throughout its life cycle, from raw materials sourcing through manufacture, shipping, use and re-use or end-of-life. LCA enables cradle-to-cradle implementation of sustainable practices.

• Knoll has partnered with The Green Standard.org to develop an affordable, universal ISO-compliant computer-based LCA tool that can be used by the entire contract furniture industry and is partnering on the development of an Environmental Product Declaration System (EPDs) for Knoll products. EPDs are verified documents containing LCA results and additional environmental performance information about a product.

Setting Industry Standards

• Knoll partners with MTS (The Institute for Market Transformation to Sustainability) to develop the SMaRT© Consensus Sustainable Products Standards, a set of consensus-based sustainable product standards based on the LEED® model, for all building products, fabric, apparel, flooring and carpet. MTS, the developer of SMaRT©, is an accredited American National Standards Institute (ANSI) standard developer.

• Knoll also partners with BIFMA (Business and Institutional Furniture Manufacturers Association) to promote level® sustainability standards for the contract furniture industry.

• Knoll has established FSC® (Forest Stewardship Council) certified wood as the standard for general office open plan office systems, casegoods and tables.

• Knoll has launched Full Circle, a resource recovery program developed with ANEW, to help customers extend the life cycle of surplus furniture, fixtures and equipment (FF&E) in an economically, socially and environmentally responsible manner.

• Our goal is to encourage all manufacturers in the contract furniture industry and related industries to adopt standards that will lead to sustainable products and practices.

For more information about Knoll and sustainable design, visit knoll.com/environment.
All Knoll Office Seating is GREENGUARD and GREENGUARD Gold certified.

All KnollExtra® products are GREENGUARD certified.

Visit GREENGUARD.org for more information and to find printable certificates for Knoll Office Seating that can be used for verification and LEED® submission.

GREENGUARD provides the only guide to certified low-emitting interior products and building materials. Its goal is to help building owners and managers, architects, interior designers and product specifiers build and furnish healthier offices, hospitals, schools and homes by providing a register of tested and certified low-emitting products and materials.

GREENGUARD certification is recognized by the U.S. Green Building Council’s LEED® Program, Air Quality Science, an independent indoor air quality laboratory, tests products submitted for certification using stringent environmental chamber testing protocols and current indoor air quality standard. Certification is administered by the GREENGUARD Environmental Institute (GEI), an industry-independent, non-profit organization.

GREENGUARD Gold certification complies with the State of California’s Department of Health Services Standard Practice (CA Section 01350) for testing chemical emissions from building products used in schools, offices and other sensitive environments. Certified products can contribute to achieving credits in the CHPS Best Practices Manual for K-12 schools, the LEED® Green Building Rating System, Green Guide for Healthcare™, NAHB Green Building Guidelines, Green Globes, Regreen and numerous other local authorities’ green building codes.

Knoll Office Seating and KnollExtra® products can contribute to achieving LEED® credits.

GREENGUARD-tested and certified office furniture is required for Credit 4.5 in the LEED-CL Indoor Environmental Quality section.

GREENGUARD Certification Program
- Internationally recognized for evaluating product emissions and certifying building materials, furnishings, finishes and cleaning products and processes that meet stringent indoor air quality criteria defined by GEI.
- Products undergo rigorous, third-party testing to determine their impact on indoor air pollution with requirements for ongoing testing and verification.
- Certification confirms a manufacturer's environmental responsibility, and signifies their environmental achievements through independent, third-party testing and verification.
- GREENGUARD Certified products are recommended by leading sustainable building programs, including:
  - U.S Green Building Council’s (USGBC) LEED Rating System,
  - National Association of Home Builders (NAHB) Green Building Guidelines,
  - Green Guide for Health Care (GGHC),
  - Collaborative for High Performance Schools (CHPS) Best Practices Manual,
  - New York City Department of Design and Construction Sustainable Design Specifications, among others.
An Overview

In the first part of the Price List you'll find Lighting and Power Series.

The second part features a full range of desktop accessories. Next listed is Orchestra Universal System Accessories, a complete scope of paper management accessories perfect for panel-mounted or freestanding application.

Part three offers a broad range of systems support products, including computer accessories, storage drawers, communications boards, and lighting.

Can’t find it? Consult the Table of Contents on page 1 or the Alpha-numeric Index on page 188.

Product Information on Each Page

The KnollExtra Price List was designed to provide you with everything you need to know in order to understand, specify, and care for KnollExtra products. On each page, the following features will assist you:

- **Description/Construction** explains salient features, capabilities, materials, and country of origin.
- **Dimensions** provide the overall space the product will require. Statistics are based on the maximum width, depth and height of the product.
- **Weight** is based on the product itself. It does not include packaging or complementary items such as pens, memo paper or calendars.
- **Order Code/Ordering Information** outlines exactly how to specify KnollExtra product and the full scope of finish options. The Order Code provides an example of how one pattern number is specified.
- **Custom Options** reviews availability of special sizes, finishes etc.

For More Information

For more information, contact your Knoll sales representative, telephone Customer Service at 1-800-343-5665, or visit one of the Knoll showrooms listed on the last page of this book.

A Word About Finishes

KnollExtra finishes are designed to complement a broad range of interiors and office products.

Key KnollExtra finishes coordinate with specific Knoll systems finishes:

Placing Your Order

Use the Following Addresses

If you would like to send a standard lead time order to our order entry department, please use the following address:

**For North American orders:**
Knoll, Inc.
1235 Water Street
East Greenville, PA 18041
Attn: Order Entry

Fax: 215 679-1788
Tel: 800 343-KNOLL

All accepted orders will be confirmed in writing on the Knoll standard order confirmation form.

Ship-Complete Orders

Orders that must ship complete are to be so stated on the purchase order. Products with different lead times, combined on one order, can be acknowledged for shipment based on the longest of those lead times. Orders not marked “ship complete” will be released according to the confirmation, and invoiced in increments.

For More Information

For complete Knoll Selling Policy and warranty information, please refer to page 191 of this price list.

For additional information on KnollExtra, contact your Knoll representative, a Knoll dealer, or telephone Customer Services at 800 343-KNOLL.

Maintaining Your Purchase

While KnollExtra relies on highly durable materials in each product line, regular basic maintenance will ensure the longevity of your product. Most stains, marks, and discolorations can be removed by following the simple instructions outlined on this page.

Plastic: Windex and a dry cloth.

SofStone: Early removal of a stain makes SofStone care much easier. This is especially true of coated areas which are frequently handled. If oil smudges are allowed to build up, they can soften the suede coating, and become very difficult to remove. Most dirt and smudges can be removed by the following methods:

1. Greasy stains (crayon, oil, lipstick, etc.): remove grease and wax stains with a naphtha-dampened lint-free cloth. Change the cloth frequently to remove as much grease as possible without spreading the stain.

2. Non-greasy stains (dirt, coffee, mustard, catsup, etc.): dirt and smudge areas can generally be removed by using a sponge or soft bristle brush with Liquid Ajax, Mr. Clean, Lestoil, or 3M brand carpet spot remover and upholstery cleaner. Follow the instructions on the label, and rinse thoroughly with clear water and a lint-free cloth.

3. Combination stains (chocolate, ice cream, gravy, soup, etc.): combination stains are caused by materials that contain both greasy and non-greasy substances. First use the procedures for non-greasy stains as stated above. Then, rinse thoroughly with clear water and a lint-free cloth.

Stainless Steel: Windex and a dry cloth.

Antique Brass, Brushed Zinc and Black Oxide: A damp cloth with no cleaning agents.

Satin Brass: Pledge.

Linoleum: Windex and a dry cloth.

Contemporary and Traditional Standard Leathers: Mild soap and water on a soft cloth.

Spinneybeck Leathers: As a result of the high quality aniline dye process, most scratches or minor stains can be removed simply by gently rubbing them with your fingers. The body’s natural oils will revitalize the leather. For stubborn stains, use mild soap and water. Take care to wash the surface evenly since soaps may slightly alter the leather’s tonality.

Surf Collection: Wipe nylon skin using warm water and mild detergent. Do not use abrasives.

Office Automation

Accessories/Storage Drawers: Clean with a soft cloth and Windex, Fantastik, Endust or other non-abrasive household cleaners. Remove stubborn stains with SofScrub.

For Surf Board and VDT Sleeve soft touch paints, never use abrasives. Clean with lukewarm water and a soft cloth.

Marker Boards:

For day-to-day use, surface requires only a dry cleaning with a standard felt eraser or dry cloth. For best results, keep marker board and marker pens at room temperature. KnollExtra suggests Alliance Rite-On Wipe-Off marker pens which are designed for use on marker boards. All marker pens should be tightly capped and stored horizontally when not in use. If Expo brand markers are used, use the manufacturer’s recommended cleaning solution, Expo Dry Erase Cleaner.

Follow the instructions below as a periodic maintenance program, or to remove stubborn stains:

1. Clean with EV-1 or any liquid ammonia-added cleaner and rinse with clean water, then dry. For best results, wash board like a window with sponge and squeegee.

2. Interim cleaning may be done by sprinkling a dry powdered cleanser on an eraser and applying to the board in a circular motion. Rinse with clean water, then dry.

3. To remove crayon, scotch tape, or other stubborn materials, apply a mild solvent or paste made with scouring powder and water.

Fabric Boards:

Despite the durability of most panel textiles, fabric boards are subject to long-term soiling and wear. A regular maintenance program will significantly lessen soil and dirt build up or staining on your fabric boards. Cleaning is particularly important in areas adjacent to air conditioning or ventilation systems.

Remember to consult the care instructions provided by the fabric manufacturer. The general recommendations below should apply to most fabric boards.

1. Avoid excessive heat or moisture which can affect finishes and adhesives. Never allow fabric panels to become wet inside the core. Room temperature should be maintained between 50 and 85 degrees; humidity should be maintained between 20 and 50%.

2. Avoid contact with sharp edges which could puncture the surface.

3. Do not handle fabric boards more than necessary. Avoid bending or flexing the panels; this could break the bond between the surface and core materials.

4. Grease or oil should be wiped off immediately upon contact. Remove excess grease or oil by blotting. Use hot water and mild soap to remove any remaining residue.

5. Whenever possible, clean only with warm water and mild soap. Use caution when applying cleaning agents, particularly those that contain alcohol, strong alkalis, or solvents. These ingredients may react to the vinyl backing or adhesives used in the fabric boards. Always test cleaning agents on fabric from the rear of the panel before using on the front.

6. Care should be taken in using strong room cleaners or pesticides. Their fumes may contain agents which lead to the loosening of the fabric board glue bond.

### Additional Information

- **Order Code**
  - Example: LED-1-S-CLMP
  - **LED**: LED
  - **1**: Sparrow
  - **S**: Standard
  - **CLMP**: Open Table Clamp Mount

- **Ordering Information**
  - Specify: 1. Pattern number 2. Mount

- **Sparrow** is available in a black finish with stainless steel rods.
- Occupancy sensor (LED PIR) can be added to any LED light and must be ordered separately.
- UL Certified.

### Light Source Information

- 9 watts single multichip LED
- 50,000 hours lifespan.

### Height Range

- Articulates 18° to 90°
  - Table clamp: 2.5" to 21.4"
  - Antenna beam side: 3.5" to 22.3"
  - Freestanding: 4.3" to 23.2"

- **Construction**
  - Lamp: LED, cast aluminum housing, stainless steel frame and plastic reflector and lens.
  - Table clamp mount: steel.
  - Antenna beam side mount: die cast aluminum.
  - Freestanding base: plastic and cast iron.
  - Occupancy sensor: extruded aluminum body, plastic face, end cap and lens.

- **Design Awards**
  - Best of NeoCon 2013 Silver Award.
  - Sparrow is TAA compliant.

#### Order Code

Example: ACT-PW-PC-36-36-13-1E

1. **ACT**
   - Activity Spaces

2. **PW**
   - Power Collection

3. **PC**
   - Power Cube

4. **36-36-13**
   - 36 x 36 x 13

5. **1E**
   - Electrical outlets on one side

### Ordering Information

- **Specify:**
  - Pattern number
- **Finish Note:**
  - Power Cube finish is white markerboard paint.
  - Optional Magnetic Accessory Cup must be specified in one of the following finishes:
    - Code: Description
    - 111: Jet Black
    - 115: Medium Grey
    - 118: Bright White
    - 130: Dark Red
    - 131: Slate Blue

### General Notes

- Each electrical module has either 4 outlets or 3 outlets and 2 USB ports, depending on specification.
- Power Cube is 13" high with 4 levelers. Hard wired comes with 72" whip. Cord set comes with 72" cord with a 3-prong plug for 120V outlets. Base includes one slot per corner for choice of cord exit.
- Note: Each Power Cube comes with a whiteboard finish and ships with 4 dry erase markers (blue, green, red and black) and a microfiber cloth eraser.
- To prevent dry erase markers from drying out, store them with the cap down in the optional cup.

### Construction

- **Power Cube:**
  - Powder coated steel, steel and nylon levelers
- **Magnetic Accessory Cup:**
  - See page 36.

2. Finish

**Construction**

Die cast aluminum with textured powder coat paint, wool felt insert, neodymium magnets and steel fasteners.

Pacemakers and items sensitive to magnetic fields should be kept 3.5\(\text{"}\) from product.

Note: A non-magnetic version of this accessory cup is available on Interpole (replace MG in pattern code with IP, see Antenna Workspaces price list for pricing) and Scribe Mobile Markerboards (see page 194 for specifications and pricing).

To prevent dry erase markers from drying out, store them with the cap down. To protect magnetic surface, avoid dragging the cup when repositioning.

- Medium Metallic Grey (612)
- Silver Metallic (613)

**Mounting and Application Information**

See page 130 for comprehensive mounting, application and construction information.
Mounting and Application Information:

All Sapper standard monitor arms:
- Maximum weight of 20 lbs per arm, weight limits vary by mounting option.
- Ship standard with fast release movement joint.
- Offer 117 degrees of monitor tilt up and down, 360 degrees of rotation for portrait and landscape viewing.
- Fold in themselves to be highly compact (only 2.5" when fully compacted).
- Are durable and lightweight (standard arm weighs only 2.4 pounds).
- "Please note this limit accommodates up to 95% of monitors on the market. There is not a specific arm size maximum limitation for a single Sapper monitor arm. A larger size [e.g., 24" widescreen] does not necessarily equate to a higher weight limit. It is key to understand the application to know if a certain size monitor will fit within a space and if there are multiple applications. Also, it is important to incorporate weight limitations vary by application. See details below."

Weight Limits:
- Weight limitations for individual mounting options are outlined below. Taken together (both monitor weight limit and the individual arm limit) you can determine the best mounting approach for your client given the number of monitors desired to accommodate the weight of those monitors. Weight limits are determined by mounting option on the next few pages.

For example, if you want to mount two monitors on a work surface, you’ll need to take the weight limits for each of those monitors 18 lbs (2 monitors @ 18 lbs each equals 36 lbs total), which can accommodate that weight. With a single monitor, the weight limit for the 24" mast on a grommet and the 20 lbs limit for the 18" mast allow the arm to accommodate three monitors weighing 18 lbs each (3 monitors @ 18 lbs each equals 54 lbs total) with a 24" mast on a grommet mast, because the maximum weight limitation on a single mast is 45 lbs for the monitor.

Size Limits:
- Monitor Arms:
  - There is no specific maximum size for a single arm solution (outside the limitations of the workspace in which you are trying to put it). When mounting two monitors, the maximum outer horizontal width per monitor is 31.8" for a cockpit solution or 20.5" for a flat positioning setup. Clients can accommodate larger screen monitors in triples by turning monitor screens to a portrait position.

Sapper™ Monitor Arm Collection
Mounting, Construction and Application Information

Maximum Monitor Height on a 32" Mast for Double Stacked Monitors

Please note while four monitors (two-on-two) are shown above, the weight limitation apply to six monitors (three-on-three) configurations as well.

KEY NOTE: Flat panel monitor manufacturer's specifications for their products by diagonal screen measurements. So a 19" widescreen monitor is not a "19" screen measured diagonally, but is not necessarily 19" in horizontal width (refer to manufacturers specifications for specific overall height and width).

Please follow installation instructions carefully (available in each kit box shipped as well as on Knoll Exchange).

Knoll Computer Note:
- Apple iMac and Thunderbolt and Cinema Displays are not VESA compliant. An iMac may be purchased from Apple with an integrated VESA adapter and VESA Mount Adapter kits can be purchased for the Displays. With these adapters, the monitor will mount to the 100 mm x 100 mm hole pattern on the Movement joints.

Clamp Mounting:
- Two-Piece Wall Clamp Mounting:
  - The standard two-piece clamp is easy to install or retrofit and works on most worksurfaces or desks that are a minimum of 1½" thick solid wood or 2½" thick wood veneer. The maximum work surface thickness is 2½". There are four settings to accommodate a range of work surface thicknesses. For the fourth setting to accommodate the thickest work surface you must invert the lower mounting plate to allow the mount to clamp the maximum 2½". It is important to mock up the table clamp, particularly on competitive product to ensure a proper fit. The clamp is not compatible with Morrison Network.

Deep Tray Clamp Mounting:
- This clamp is designed to be used on most surfaces. The deep tray clamp mount is intended to clear most knifedge (45 degree angle) desks or workstations.

Heavy-Duty Table Clamp Mounting:
- This clamp is intended for heavier weight applications. Please note that individual monitor arm weight limits still apply.

Grommet Mounting:
- With all systems, it is important to pass monitor and peripheral cables through the grommet mounted wall or table. Please note that the grommet mount can be used with Morrison, Allocation, KnollPlow, Propeller, Scoop and Via, but is not compatible with the Graham Collection or Morrison Horizon grommet hole. To use on Morrison Network, spacers must be requested through Customer Service. The required cutout in the worksurface is 200mm x 200mm (M5 screws), 200mm x 300mm (M6 screws), 300mm x 300mm (M8 screws) and 400mm x 400mm (M10 screws). Adapters ship with separate installation instructions and may require spacers. Knoll VESA plate is available to attach to the adapter to the Knoll VESA plate but does not ship with it. (Note: Always check the adapter to monitor or television [see screws listed above, English size equivalents may be needed instead]; screw length is dependent on the specific monitor or television and should be ordered prior to installation to ensure correct length. Knoll is not responsible for use of incorrect screws.)

Knoll and its dealers will not take the responsibility for mounting the monitor to the arm. The end-user’s IT department must confirm VESA mounting compliance and mount the monitor to the arm using customer’s own screws. The most common screws are M5’s and M6’s and M8’s.

Fixed Table Mounting:
- Installers will need to drill a permanent hole into the worksurface so the mount will be fixed to a dedicated location on the worksurface. Please note with this mounting, the wall must not be able to be moved without leaving a permanent hole. The work surface must be of adequate structure and we recommend a minimum of 1/8" thick solid care for adequate structural integrity. Knoll cannot be held responsible for the structural integrity of non-VESA work surfaces.

Crinion Open Table Center Channel Mounting:
- This mount is intended to provide maximum work surface or desk usage by mounting to the center channel. Note that when used for individuals, you will need to stagger users across the table.

Divide Home Horizontal Mounting:
- This mount is intended to provide maximum work surface or desk usage by mounting between workstations. It works to workstations framing to spaces from 3½" to 11½". Note that when used for individuals, you will need to stagger users across the table. This mount is designed for use with DivideDriect flat profile panel trim and is not compatible with radial profile applications.

Antenna Table Center Beam Center Mounting:
- This mount is intended to provide maximum work surface or desk usage by mounting to the center beam. Note that when used for individuals, you will need to stagger users across the table.

Antenna Table Center Beam Side Mounting:
- This mount allows you to clear the flip door while still allowing for maximum work surface usage. This individual height adjustment without the need to stagger users. Please note screws can be used in the center beam with a monitor arm in front of it. The fit will be snug and flush with the surface.

Slat Wall Mounting:
- For single monitor mounting, you can use either the direct wall mast or direct slat wall mount. For double or triple monitor mounting, you must use the slat wall mast mount. The slat direct wall mount cannot be used for multiple monitors.

For use on architectural walls only as outlined below. Please note that the compact arm cannot be used for multiple monitors. For double or triple monitor mounting, you must use the direct wall mast mount. The direct wall mast mount cannot be used for multiple monitors.

Please note that the Compact Arm Direct Wall Mount is intended to provide maximum work surface or desk usage by mounting to the wall. Note that when used for individuals, you will need to stagger users across the wall.
Sapper™ Monitor Arm Collection
Mounting, Construction and Application Information

For use on architectural walls only as outlined further on this page. Knoll cannot be held responsible for the structural integrity of a wall so please work with clients to ensure their wall is structurally sound to hold the arm configuration and the monitor weight. See above for weight limits if mounting slat wall to an architectural wall.

Sapper 50 Direct Wall Mounting (for Sapper 50 monitor arm):

- For single monitor mounting, you can use either the direct wall mast mount or direct wall mount.
- Please note that the Sapper 50 Direct Wall Mount is specific to the Sapper 50 arm. You cannot use the standard arm with the Sapper 50 arm or a standard arm with the Sapper 50 mount.
- For use on architectural walls only as outlined further on this page. Knoll cannot be held responsible for the structural integrity of a wall so please work with clients to ensure their wall is structurally sound to hold the arm configuration and the monitor weight.

Interpole Mounting

Sapper arms can be mounted on either the slot or channel sides of Interpole with the proper mount. Mounts can be moved after installation but the pole may have residual markings.

If screens are mounted on the slot side, use the channel mount. If overheads are mounted on the slot side, then a Sapper/YY with extended channel mount will be necessary for full adjustability.

Cable Management:

Monitor Arms

- External cable management allows for easy installation and removal of monitors. There are gates under the arm that will contain wires from the monitor to plastic cable management clips that go on the mast to keep wires tidy to the electrical socket.

Height Adjustment

- For the beam solutions, there are beam cord management clips on the back of the beam (6 on the small, 8 on the medium, 10 on the large) that can hold wires from the monitor to the mast cable management. The beam must cable management is wider than the standard mast cable management to accommodate multiple monitor wires.

Fast Release

- Allows for swift installation and removal of flat panel monitors by merely pulling the quick release pin up to remove monitor with movement joint/back plate attached.

Fast Release:

- Monitors are shipped with product and are also available on Knoll Exchange for easy reference.

Comprehensive installation instructions will be shipped with product and are also available on Knoll Exchange for easy reference.

Beams

- The Sapper Monitor Arm Collection is not compatible with the Wishbone Flat Panel Monitor Support System (i.e., Wishbone, Zone or Rotation arm, posts, tool bars, brackets, mounting, etc.). They have been designed independently and as such parts from one system cannot be used with the other.

Installation Instructions:

- Assemblies:
  - Arm: die-cast aluminum with a cold rolled-steel top plate
  - Mast: anodized aluminum extrusion
  - Beams: satin anodized extruded aluminum

- Adjustment knobs: nylon undermold with a TPU overmold

- Movement joint (includes fast release monitor plate): plastic bushings, zinc and plastic molded plastic tilt friction components and glass filled nylon VESA plate

Set Screw to Prevent Arm Removal

- Allows for swift installation and removal of flat panel monitors by merely pulling the quick release pin up to remove monitor with movement joint/back plate attached.

Compatability:

- The Sapper Monitor Arm Collection is not compatible with the Wishbone Flat Panel Monitor Support System (i.e., Wishbone, Zone or Rotation arm, posts, tool bars, brackets, mounting, etc.). They have been designed independently and as such parts from one system cannot be used with the other.

- Monitors cannot be mounted on KnollExtra® Orchestral® lead bars.

Construction:

- Arm: die-cast aluminum with a cold rolled-steel top plate
- Mast: anodized aluminum extrusion
- Beams: satin anodized extruded aluminum

- Adjustment knobs: nylon undermold with a TPU overmold

- Movement joint (includes fast release monitor plate): plastic bushings, zinc and plastic molded plastic tilt friction components and glass filled nylon VESA plate

- Movement joint side: aluminum, powder coated silver

- VESA plate adapters: steel

- Table clamp, grommet mount, fixed table mount, OIT Center channel mount, DH Bench mount, Antenna center beam center mount: steel

- Slat wall and wall mounts (both mast mount and direct, both standard and compact sizes): die-cast aluminum with steel back plates

- Two-piece arm bracket: die-cast aluminum, steel top plate, extruded aluminum posts, plastic upper and lower bushings

- Triple support arm bracket: die-cast aluminum, steel top plate, extruded aluminum posts, plastic upper and lower bushings

- Mast-to-beam bracket: aluminum, powder coated silver

- Cable management: transparent polycarbonate clips on the mast and beam; plastic gates under standard arms

- Antenna and Quadruple support arm bracket: die-cast aluminum

- Two-Piece Table Clamp, Deep Table Clamp, Heavy-Duty Table, Clamp, Grommet, Fixed Table, Cinnamon Open Table Center Channel, Dovetails Horizon Benching and Antenna Center Beam Table Mounting: steel

- Antenna Table Center Beam Side Mounting: die-cast Aluminum

- Slat Wall and Wall Mounts both Direct Mast Mounting, Direct Mounting and Support 50 Direct Mounting (for both standard and compact arms): die-cast Aluminum with steel back plates

- Quadruple arm bracket: Die-cast Aluminum
Weight limit per arm is 50 lbs. for Sapper 50 arm and Sapper 50 sleeve unless weight limit for mounting option specified is less.

Note: Weight limit per arm is 20 lbs. for standard, compact and sleeve monitor arms unless weight limit for mounting option specified is less. Weight limit per arm is 50 lbs. for Sapper 30 arm and Sapper 50 sleeve unless weight limit for mounting option specified is less.

**Mounting and Application Information**

See page 146 for comprehensive mounting, application and construction information.
Sapper XYZ® Monitor Arm
Mounting, Construction and Application Information

All Sapper XYZ monitor arms:
- Maximum weight of 20 lbs for arm
- Ship standard with fast release movement joint
- Offer 360 degrees of pivot at the base and at the elbow joint
- Offer 153 degrees of monitor tilt up and down, 100 degrees of swivel left and right and 360 degrees of rotation for portrait and landscape viewing
- Fold into themselves to be highly compact at less than 2 inches when fully compressed
- Are durable and lightweight (weights only 4 pounds)

*Please note this limit accommodates up to 95% of monitors on the market.

Size Limits:
Monitor Arms
There is no specific maximum size for a Sapper XYZ monitor arm (outside the limitations of the space in which you are trying to put it).

Flat panel monitors refer to their products by diagonal screen measurements, so a 19” widescreen monitor has a 19” screen measured diagonally, but it is not necessarily 19” in horizontal width (refer to manufacturer’s specifications for specific overall height and width).

Monitor Mounting:
All Sapper XYZ monitor arms are compatible with the international Video Electronics Standards Association (VESA) industry interface standard (75 mm x 75 mm and 100 mm x 100 mm hole patterns or 2.95” x 2.95” and 3.94” x 3.94”) adopted by most panel manufacturers. VESA compatibility is necessary for mounting the monitor to the arm. The end user’s IT department must confirm VESA compatible mounting and mount the arm using customer’s own screws.

All movement joints do not ship with screws and are designed to accept M5 or M6 screws. M5’s limit and M6’s limit are the most common screw lengths but length is dependent on the specific monitor or television and screws should be tested prior to installation to ensure correct length. Knoll is not responsible for use of incorrect screws.

A VESA plate adapter may be necessary for larger monitors and televisions and can be ordered separately in the sizes of 100 mm x 200 mm (MI screws), 200 mm x 200 mm (MI screws), 300 mm x 300 mm (MI screws) and 400 mm x 400 mm x 600 mm (MI screws). Adapters ship with separate installation instructions and may require spacers. Knoll VESA plate adapters ship with screws to attach the adapter to the Knoll VESA plate but do not ship with screws to attach the adapter to the monitor or television (see screws sizes listed above). English size equivalents may be needed instead; screw length is dependent on the specific monitor or television and screws should be tested prior to installation to ensure correct length. Knoll is not responsible for use of incorrect screws.

Knoll and its dealers will not take the responsibility for mounting the monitor to the arm. The end user’s IT department must confirm VESA compatible mounting and mount the arm using customer’s own screws.

Please follow installation instructions closely (available in each kit box shipped as well as on Knoll Exchange).

Clamp Mounting:

Two-Piece Table Clamp Mounting:
The standard two-piece table clamp is easy to install or remove and works on most worksurfaces or desks that are a minimum of 1 1/2” thick solid core. The maximum workplane thickness is 2 1/2”.

There are four settings to accommodate a range of workplane thicknesses. It is important to mock up the table clamp, particularly on competitive product to ensure a proper fit. The clamp is not compatible with Morrison Network.

Deep Table Clamp Mounting:

This clamp is one piece and works on most surfaces. The deep table clamp mount is intended to clear most knife-edge (45 degree angle) desks or workspaces.

Grommet Mounting:

Grommet mount is an important feature. With all systems furniture, it is important to pass monitor and peripheral plugs through grommet mount cover while it is still new. Please note the grommet mount is compatible with Morrison, Autotradia, Roll, Propeller, but is not compatible with the Graham Collection or Dividends Horizons grommet holes. To use on Morrison Network, switches must be requested through Customer Service. The required cutout in the workplane is 3” x 177”, which includes room for the threaded stud (actual hole in the grommet plate is 1 5/8” x 1 7/8”).

Fixed Table Mounting:

Installers will need to drill a permanent hole into the worksurface so the post will be fixed to a dedicated location on the worksurface. Please note with this mounting, the mount will not be able to be moved without removing the permanent hole. The workplane must be of adequate structure; Knoll cannot be held responsible for the structural integrity of non-Knoll worksurfaces.

Antenna Table Center Beam Side Mounting:

This mount allows you to clear the flip-down while allowing for maximum workplane usage and individual height adjustment without the need to stagger users. Please note a screen can be mounted in the center beam with a monitor arm in front of it. The fit will be snug and flush with the screen.

Interpole Mounting:

SapperXYZ arms can be mounted on either the slot or channel sides of Interpole with the proper mount.

If screens are mounted on the slot side of Interpole use a Direct Channel Mount. If overheads are mounted on the slot side of Interpole, use an Extended Channel Mount.

Cable Management:

External cable management allows for easy installation and removal of monitors. There is a cable management block in the channel under the arm that will contain screws from the monitor to plastic cable management clips that go on the post to keep wires tidy to the electrical socket.

Arm Adjustment:
The Sapper XYZ monitor arm collection offers intuitive one touch adjustment. To adjust the height, you simply lift the monitor to the desired position. To adjust the depth, you simply pull or push the monitor in or out. You can also rotate the monitor 360 degrees for landscape or portrait viewing, adjust the arm back and forth 100 degrees and tilt up and down 153 degrees. The arm folds in and out 153 degrees for landscape or portrait viewing, adjust the arm back and forth 100 degrees and tilt up and down 153 degrees. The arm folds in and out from 21° fully extended.

Weight Adjustment:
The Sapper XYZ monitor arm is present for a 10lb monitor. Other monitor weights up to 20 lbs can be accommodated by adjusting the weight adjustment nut to the proper weight using the Allen key wrench on the back of the movement joint. Note that the 20 lb setting is not visible on the scale. Turn clockwise to decrease weight or counterclockwise to increase weight to appropriate level. The arm should be held in a downward position if increasing the weight and in an upward position if decreasing the weight. When proper weight is set, the arm should stay exactly where you place it.

Fast Release:

Allows for swift installation and removal of flat panel monitors by merely popping the quick release pin up to remove monitor with movement joint back plate attached. Be sure to fill the arm to the highest position before removing monitor, or the arm will quickly move upwards.

Throat Determination:

All movement joints come with a set screw within the fast release pin, to prevent fast release if so desired.

Compatibility:
The Sapper XYZ monitor arm is not compatible with the Sapper Monitor Arm Collection. It has been designed independently and as such, parts from one system cannot be used with the other, with the exception of the movement joint. Finish colors are consistent across the Sapper XYZ and Sapper Monitor Arm Collection portfolios.

Monitor arms cannot be mounted on KnollExtra®, Orchestra®, lead bars.

Installation Instructions:

Installation instructions will be shipped with product and are also available on Knoll Exchange for easy reference.

#### Mechanism Attributes

- **Application Notes**
  - Keyboard support provides a more comfortable working environment by allowing the user to adjust the height and pitch of the platform holding their computer keyboard. When not in use, the Adjustable Keyboard Support stores the keyboard under the worksurface to free vital worksurface space.
  - Dimensions above are for the platform only. For full configuration details, all component measurements and application suggestions, refer to the Keyboard Measurements tool on Knoll Exchange.
  - All arms are steel with a powdercoat finish. Tracks are steel with nylon glides.

- **Mechanism Attributes**
  - All mechanisms have the following features:
    - Spring assist adjustment
    - Knobless height adjustment
    - Pivot side to side 360°
    - Black textured metal finish
  - Short easy lift arm:
    - Soft touch knob adjusts tilt from 0° to (+) 15°
    - Variable height adjustment of 4.26° (up 1.66°, down 3.20°)
  - Easy lift arm:
    - Soft touch knob adjusts tilt from 0° to (+) 15°
    - Variable height adjustment of 7.64° (up 2.83°, down 4.81°)
  - Sit/Stand arm:
    - Soft touch knob adjusts tilt from 0° to (+) 15°
    - Variable height adjustment of 11.57° (up 6.48°, down 5.17°)
  - Pivot feature:
    - Allows the keyboard platform to move independently from arm, allowing it to stay parallel to the worksurface as the arm is moved laterally.

- **Construction**
  - **Romeo and Juliet Keyboard Platform and Mouse Platform:** Foam and polyester with 40% mica reinforced polypropylene. Steel stiffener plate at the base of platform.
  - **Palm rest:** Nylon-sculpted palm rest of dual density polyurethane.
  - **Mechanisms:** All arms are steel with a powdercoat finish. Tracks are steel with nylon glides.
  - **Frame:** Hard plastic platform with steel stiffener plate for stable keying surface.
  - **Soft touch knob:** Adjusts tilt from 0° to (+) 15°
  - **Variable height adjustment:** 0° to 15°
  - **Pivot feature:** Lateral movement of the arm is limited to 360° without affecting position of the arm.

#### Antenna Mounting Note

- In order to mount to Antenna Work Space tables, you will need to order a special adapter available through that price list. Pattern code is YAK.
- Keyboard tray must be specified with a sliding track that is less than the depth of the top and anything below the top such as a power harness or cable basket.
- For taller individuals, we recommend using a pivot solution mounted on the diagonal to minimize knee space.

Caesar Plate to retrofit to existing mechanisms

OA-K-EL2-MS-(16,18,22,23,25) $425
OA-K-SS2-MS-(16,18,22,23,25) $548
OA-K-MS $97

Order Code: OA-K-EL2-MS (16,18,22,23,25)
OA-K-SS2-MS (16,18,22,23,25)
OA-K-MS

Ordering Information: Specify:
1. Pattern number
2. Mouse size
3. Track length options are 16, 17.75, 21.62, 22.63 and 25 inches.

Application Notes:
Keyboard support provides users with a more comfortable working environment by allowing them to adjust the height and pitch of the platform holding their computer keyboard. When not in use, the Adjustable Keyboard Support stores the keyboard under the worksurface to free vital worksurface space.

Construction:
Caesar: Black textured powdercoated steel plate
Mechanisms:
All arms are steel with a powdercoated finish. Tracks are steel with nylon glides.

Microsoft is a registered trademark of the Microsoft Corporation.

Mechanism Attributes:
Easy lift arm:
1. Spring assist adjustment
2. Knobless height adjustment
3. Soft touch knob adjusts tilt from 0° to (-) 15°
4. Variable height adjustment of 7.04 (up 2.83, down 4.21)
5. Pivots side to side 360°
6. Black textured finish with black soft touch knob
7. Mounts on virtually any worksurface

Sit/Stand arm:
1. Spring assist adjustment
2. Knobless height adjustment
3. Soft touch knob adjusts tilt from 0° to (-) 15°
4. Variable height adjustment of 11.57 (up 6.40, down 5.17)
5. Pivots side to side 360°
6. Black textured finish
7. Mounts on virtually any worksurface

Antenna Mounting Note:
In order to mount to Antenna Workspace tables, you will need to order a special adapter available through that price list. Pattern code is YAK.

Keyboard tray must be specified with a sliding track that is less than the depth of the top and anything below the top such as a power harness or cable basket.

For taller individuals, we recommend using a pivot solution mounted on the diagonal to maximize knee space.

Ordering Information

When you specify, you will be prompted to indicate either MDF (W) or phenolic (P). Track length options are 16, 18, 22, 23, and 25 inches. Standard color is black. Minimum clearance required is the length of the track plus 1/2 inch. Advanced Easy Lift track cannot be used with other mechanisms.

Mechanism Attributes

All mechanisms have the following features:

- Spring assist adjustment
- Knobless height adjustment
- Pivot side to side ±15°
- Black textured metal finish

Easy lift arm:

- Soft touch knob adjusts tilt from 0° to ±15°
- Variable height adjustment of 4.26” (up 1.06”, down 3.20”)

Sit/Stand arm:

- Soft touch knob adjusts tilt from 0° to ±15°
- Variable height adjustment of 11.57” (up 6.40”, down 5.17”)

Pivot feature:

All pivot mechanisms have a sliding track that is less than the depth of the top and anything below the top such as a power harness or cable basket. In order to mount to Antenna Workspace tables, you will need to order a special adapter available through that price list.

Antenna Mounting Note

Keyboard tray must be specified with a sliding track that is less than the depth of the top and anything below the top such as a power harness or cable basket. For taller individuals, we recommend using a pivot solution to free vital worksurface space. For smaller individuals, we recommend using a sit/stand arm to maximize knee space.

Application Notes

Keyboard support provides users with a more comfortable working environment by allowing them to adjust the height and pitch of the keyboard platform holding their computer keyboard. When not in use, the Adjustable Keyboard Support stores the keyboard under the worksurface to free vital worksurface space.

Mechanism: All arms are steel with a powder-coated finish. Tracks are steel with nylon glides. Mechanism: All arms are steel with a powder-coated finish. Tracks are steel with nylon glides.

Mounting instructions refer to the Keyboard Measurements tool on KnollExchange.

Construction

Board is either MDF or phenolic. Wristrest is foam-filled vinyl on MDF board. Mousepad is lycra covered polyurethane.

### Construction

- Board is phenolic.
- Wastest is foam-filled vinyl on MDF board.
- Mosaic is terra cotta covered polyurethane.
- Mechanism: All arms are steel with a powder-coated finish. Tracks are steel with nylon glides.

### Application Notes

- Short easy lift arm:
  - Soft touch knob adjust tilt from 0° to (+) 20°
  - Variable height adjustment of 4.26" (up 3.06", down 1.20"

- Easy lift arm:
  - Soft touch knob adjust tilt from 0° to (+) 20°
  - Variable height adjustment of 4.26" (up 3.06", down 1.20"

- Easy stand arm:
  - Soft touch knob adjust tilt from 0° to (+) 15°
  - Variable height adjustment of 11.37" (up to 6.86", down 5.17"

### Mechanism Attributes

- **Variable height adjustment:**
  - Allows the keyboard platform to move independently from arm, allowing it to stay parallel the worksurface as the arm is moved laterally.
  - Lateral.
  - Knob feature:
    - Spring assist adjustment
    - Knobless height adjustment
    - Pivot side to side (60°)
    - Black textured metal finish

- **Antenna Mounting Note:**
  - In order to mount to Antenna Workspace tables, you will need to order a special adapter available through that price list. Pattern code is YAK.
  - Keyboard tray must be specified with a sliding track that is less than the depth of the top and anything below the top such as a power harness or cable basket. For taller individuals, we recommend using a pivot solution mounted on the diagonal to maximize knee space.

### Order Code

Example: OAK-A2-P-EL2-BK-(16,18,22,23,25)

- **OAK**: Office automation keyboard
- **A2**: Act II
- **P**: Phenolic (standard)
- **EL2**: Easy-lift mechanism
- **BK**: Black
- **18**: Track length of 18 inches

### Ordering Information

- **Minimum clearance required**: The length of the track plus 1/2 inch. Advanced Easy-lift track cannot be used with other mechanisms.

### Construction

- **Board**: Phenolic
- **Wristrest**: Foam-filled vinyl on MDF board
- **Mouse pad**: Lycra covered polyurethane
- **Mechanism**: All arms are steel with a powder-coated finish. Tracks are made of nylon glides.

### Antenna Mounting Note

In order to mount to Antenna Work Space tables, you will need to order a special adapter available through that price list. Pattern code is YAK.

Keyboard tray must be specified with a sliding track that is less than the depth of the top and anything below the top such as a power harness or cable basket.

For taller individuals, we recommend using a pivot solution mounted on the diagonal to maximize knee space.

### Mechanism Attributes

**All mechanisms have the following features**:
- Spring assist adjustment
- Knobless height adjustment
- Pivot side to side 0°
- Black textured metal finish

**Easy-lift arm**:
- Soft touch knob adjusts tilt from 0° to (−) 20°
- Variable height adjustment of 6.87 (up: 2.38, down: 4.50)
- Pivot feature: Allows the keyboard platform to move independently from arm, allowing it to stay parallel the worksurface as the arm is moved laterally.

**Sit/Stand arm**:
- Soft touch knob adjusts tilt from 0° to (−) 15°
- Variable height adjustment of 11.57 (up: 6.40, down: 5.17)

**Pivot feature**: Allows the keyboard platform to move independently from arm, allowing it to stay parallel the worksurface as the arm is moved laterally.

---

**Application Notes**

Keyboard support provides users with a more comfortable working environment by allowing them to adjust the height and pitch of the platform holding their computer keyboard. When not in use, the Adjustable Keyboard Support stores the keyboard under the worksurface to free vital worksurface space.

Dimensions above are for the platform only. For full configuration depths, all component measurements and application suggestions refer to the Keyboard Measurements tool on Knoll Exchange.

---

**Construction**

Board is phenolic.

Wristrest is foam-filled vinyl on MDF board.

Mousepad is lycra covered polyurethane.

Mechanisms: All arms are steel with a powder-coated finish. Tracks are made of nylon glides.

**Mechanism Attributes**

All mechanisms have the following features:
- Spring assist adjustment
- Knobless height adjustment
- Pivot side to side 0°
- Black textured metal finish

**Easy-lift arm**:
- Soft touch knob adjusts tilt from 0° to (−) 20°
- Variable height adjustment of 7.04 (up: 2.83, down: 4.21)

**Advanced Easy-lift arm**:
- Soft touch knob adjusts tilt from 10° to (−) 20°
- Variable height adjustment of 8.8 (up: 2.38, down: 6.5)

**Sit/Stand arm**:
- Soft touch knob adjusts tilt from 0° to (−) 15°
- Variable height adjustment of 11.57 (up: 6.40, down: 5.17)

#### Construction

**Worksurface mounted surf mousepad:** Black painted steel mechanism mounted with hard surface backed surf mouse pad.

**Juliet mouse pad:** TPE (thermoplastic elastomer) overmolded with 40% reinforced polypropylene undermold.

**Juliet palm rest:** Nylon upholstered palm rest is dual density polyurethane. The gel beneath the fabric, nominally .65", is formulated to provide soothing support.

Freestanding Surf® Ergonomic Accessories
by Ross Lovegrove & Stephen Peart

Wrist Rest

- Soft, biomorphic form reduces strain on wrist.
- Long, radial shape with single straight edge ensures a tight fit with standard size keyboards.
- Gel pad for greater user comfort.

Lumbar Support

- Self-adjusts over any seat back.
- Heat and pressure reactive foam responds to individual user.
- Support returns to original form within 10 seconds after use.
- Neoprene nylon outer skin allows body to breathe comfortably.

Surf Board VDT Corner

- Fits any worksurface thickness or edge profile.
- Creates generous 24" wide VDT corner, 14" from worksurface corner.
- Can be adjusted to any angle, or removed when not needed.
- Integral non-handed mouse pad.
- Felt back and rubber bumpers protect worksurface.

Ordering Information

1. Pattern number
2. Finish

Neoprene nylon finishes:
- Black (BK)
- Surf Grey (E)
- Medium Metallic Grey (J)
- Soft Touch Light Grey (GS)
- Soft Touch Black (BS)

General Notes

The Surf Lumbar Support rests loosely over the chair like a saddle bag, held in place by a counter balance weight. The piece is easily adjusted up or down, to the preference of the user. The support's high performance patented foam molds itself to both the user and the chair back. As the user moves throughout the workday, the foam responds in kind, continuously re-sculpting itself around the user's body. When body pressure is removed, the lumbar support returns to its original form within 10 seconds, ready for the next user.

Construction

Lumbar support:
- High memory, heat-reactive patented polyurethane foam developed for high performance use in military fighter pilot seats.
- Covered with tear-resistant, closed cell Neoprene and a bright colored, breathable nylon outer skin.
- Die-cast zinc counter-balance weight.
- Manufactured in the United States.

Design Awards

First place, Interior Design Product Award, ASID, 1994.
High Design Quality Red Dot Award, Design Zentrum, Germany, 1994.

Order Code
Example: BP-SSF
BP-SSF Standard suspended file

Ordering Information
Specify:
1. Pattern number
2. Lock option

Lock option:
Lock attaches to slides in field.
Removable for use elsewhere.

Application Notes
BackPack drawers can be used with virtually any Knoll or other wood worksurface.
BackPack storage drawers attach to the underside of wood worksurfaces at any location. In most cases, the drawers may be mounted flush to side panels. When supporting brackets extend farther than 2 1/2" from the side panel, a slight reveal will occur. Mounting hardware and template included.

For wire management needs, the maximum depth worksurface for standard depth drawers is 24". Minimum depth for deep drawers is 30". When no wire management is necessary, the standard Suspended File may be used on an 18" worksurface and the Deep Suspended File may be used on a 24" worksurface.

Design Awards
Knee clearance: In order to maximize filing capacity, the Standard and Deep Suspended Files do not provide adequate knee clearance. For center worksurface applications, specify the Keyboard or Center File Drawers.

### Ordering Information
- Specify:
  1. Pattern number
  2. Wrist rest finish
  3. Lock option
- Palm rest nylon finishes:
  - Black (BK)

- Call Customer Service for availability and minimum requirement.
- Lock option:
  - Lock attaches to slides in field. Removable for use elsewhere.
- BackPack drawers can be used with virtually any Knoll or other woodwork surface.

### Application Notes
BackPack storage drawers attach 2 3/16" below the underside of wood surfaces at any location. Mounting hardware and template included. For wire management needs, the minimum depth work surface for the Narrow and Wide keyboard drawers is 24", and 30" for the Keyboard/Filing Drawer. When no wire management is necessary, both the Narrow and Wide Keyboard Drawers may be used on an 18" deep worksurface and the Keyboard/Filing Drawer may be used on a 24" deep worksurface.

### Construction
- Durable 20-gauge steel painted black. Full extension ball-bearing metal slides with click-stop in half-open position. Nylon-reinforced foam palm rest.
- Die-cast zinc lock painted black.
- Manufactured in the United States.

### Mounting Options

- Panel-mounted brackets: Panel-mounted brackets are included in the list price but must be specified specifically. To specify appropriate panel-mounted bracket, consult the KnollExtra Bracket Chart on page 12.
- Wall-mounted applications must be ordered specifically at time of purchase.
- Fabric boards may be ordered with 4 brackets or 2 black painted wall rails that screw into wall to ensure rigidity.
- For panel mounting and pricing, contact Customer Service.

### Construction

- \( \frac{1}{2} \)" thick mineral board for flush, highly tactile surface.
- Manufactured in the United States.

---

*Note: As a general rule, all fabrics approved for a Morrison panel application are approved for KnollExtra fabric wrapped tack boards.*

**Markers**
- Set of 4 markers

**Markerboard Cleaning Cloth**
- 30 x 30 cm microfiber cloth

**Paper Pad Mount**
- Set of 2 hooks

---

### Order Code

**Example:** ACT-CB-M-LW-30-54-X-111

- **ACT:** Activity Spaces
- **CB:** Communication Boards
- **M:** Mobile
- **LW:** Laminate Whiteboard
- **30-54:** 30" x 54" format

**111:** Jet Black finish

**A:** One cup and one tray

**B:** One tray

**C:** One cup

**D:** Two trays

**E:** Two cups

**F:** Two cups and one tray

**G:** Two cups and two trays

---

### Specification Information

- **Specify:**
  1. Pattern number
  2. Marker tray
  3. Frame finish

- **Finish options:**
  - Select one of the following finishes
  - Code: Description
    - 111: Jet Black
    - 115: Medium Grey
    - 118: Bright White
    - 130: Dark Red
    - 131: Slate Blue

  **Note:** Frame finish applies to cross members and legs, as well as any marker trays and cups. Paint is textured power coat.

---

### Application Notes

- **Marker storage options:**
  - Marker storage options (trays and cups) must be ordered with markerboard and are not retrofitable in the field. Replace -X in pattern with Code: Upchg. Desc.
    - S: One tray
    - D: Two trays
    - C: One cup
    - E: Two cups
    - A: One tray and one cup
    - B: One tray and two cups
    - F: Two cups and one tray
    - G: Two cups and two trays

---

### Construction

- **Whiteboard:** Honeycomb core with medium-density fiberboard skin, high pressure laminate finish and ABS edge.
- **Crossmember:** Aluminum
- **Legs:** Steel
- **Cup:** Die cast aluminum with wool felt insert and steel fasteners.

**Note:** Each markerboard ships with four dry erase markers (blue, green, red and black) and a microfiber cleaning cloth.

**Overall height from floor is 72" high with writable surface starting 25" from floor.**

**The optional marker tray runs the length of the crossmember. The optional marker cap mounts to the side.**

**To prevent dry erase markers from drying out, store them with the cap down in the optional cup.**

Selling Policy

Terms & Conditions of Sales

This Selling Policy supersedes all previous selling policies. Prices, discounts and product offerings are subject to change without notice.

Sales by Knoll, Inc., or KnollTextiles, Inc. (collectively, "Seller") or Knoll Studio North America Corp. ("KnollStudio"). Sales to purchasers in the United States and Canada, are made only on the terms which are contained in this Selling Policy. Seller hereby gives notice of its objection to any different or additional terms and conditions. This sale is expressly conditional upon Purchaser’s assent to the terms and conditions set forth below. Additional terms and conditions may apply to KnollStudio and KnollTextiles orders. These terms and conditions may be modified or supplemented only by a written document signed by an authorized representative of Seller. These terms and conditions supersede any prior and/or contemporaneous agreements or correspondence between Purchaser and Seller. Written quotations expire thirty (30) days from the date of issuance and can be withdrawn by written notice anytime during that period. Where Purchaser and Seller have entered into the Knoll Electronic Terms and Conditions, invoices and other business communications placed or transmitted in accordance with the Knoll Electronic Terms and Conditions shall be deemed to be in writing and signed and shall be valid for all purposes as if they were originated and maintained in documentary form.

Ordering Information

Order Confirmation

Pricing Policies

List prices are subject to change without notice.

Taxes

Purchaser shall submit to Seller the appropriate exemption certificates. Payment for one hundred percent (100%) of the net order amount is due within thirty (30) days of the date of invoice, which is generally issued upon shipment. In case of any discrepancies, such as shortages, and Seller is notified in writing within ten (10) days of receipt of Product, only that portion may be deducted and the balance paid. For orders greater than $100,000 net, a fifty percent (50%) deposit is due at the time of order placement, with the remainder due within thirty (30) days of the date of invoice.

Changes and Cancellation

Freight Prepaid

Delivery/Freight Charges

Claims

Seller’s Security Interest

Returns

Held Orders/Storage

All orders must be in writing. The product pattern number(s) contained on Seller’s order acknowledgement shall be the final expression of the order.

A purchase order is not binding on Seller until Purchaser has received Seller’s order confirmation or acknowledgment.

List prices shall be those prices in effect on the date of receipt of a complete purchase order unless shipment is requested more than ninety (90) days after order entry in which case prices in effect on the date of shipment apply. List prices include specified freight costs. Unless specified in writing by Seller, no other charges are included in Seller’s list prices.

Purchaser shall submit to Purchaser the appropriate exemption certificates.

Purchaser may not be changed or cancelled, in whole or in part, without prior written consent of Seller. Changes may effect delivery dates. Expenses incurred because of changes shall be charged to Purchaser. In the event of cancellations, Purchaser will be liable for reasonable cancellation charges established by Seller. Orders for special Product, orders including “COM” (hereinafter defined) material and orders pursuant to expedited delivery programs, may not be canceled.

Freight is prepaid and included in the price of all Products, except KnollTextiles, within the 48 contiguous United States for orders placed with Knoll, Inc. and within Canada, excluding the Yukon, Northwest Territories, Nunavut and Newfoundland for orders placed with Knoll North America Corp. Packing is tested for rigorous motion and transportation but is not guaranteed to protect furniture from all conditions. If special packaging is required for any reason, please consult with your sales representative or dealer. Seller shall select the method of shipment and routing. Freight for all KnollTextiles orders is prepaid and added to the invoice.

For shipments outside the contiguous 48 United States and Canada shall be shipped F.O.B. Origin. For shipments outside the contiguous United States and Canada, Purchaser is responsible for the cost of freight from point of embarkation, including any handling and transportation costs which may be incurred during the transit of the Product and deconsignment charges incidental to loading at the point of initial delivery.

Conditions beyond the control of Seller, including weather, available facilities and traffic conditions, may affect exact time of delivery. Seller shall not be responsible for specific carrier delivery date or time unless it has made a specific delivery commitment, in writing. Nonstandard methods of shipment and/or additional services are available upon request. Purchaser will be billed for the differential cost of any special services in excess of standard surface carrier freight costs. Premium charges, at Purchaser’s request, will be added for airfreight, exclusive use of vehicle and extra, export or special packaging. Accessorial charges will be added for inside delivery, extra labor, reconsignment and redelivery.

Partial shipments may be made and invoiced by Seller.

All shipments for Knoll Products within the contiguous United States and Canada shall be shipped F.O.B. Origin. All risk of loss passes to Purchaser at time of delivery in the original Seller packing cartons. No refund or credit shall be given for damaged Products not currently offered for sale by Seller (including COM) shall not be authorized for return. All returned Products must be unused, in original condition and within 30 days of order entry in which case prices in effect on the date of shipment apply. List prices include specified freight costs. Unless specified in writing by Seller, no other charges are included in Seller’s list prices.

Past due accounts shall be charged one and one-half percent (1.5%) per month, or the highest rate permitted by law, whichever is less, and will be added to the outstanding balance. In the event Purchaser defaults on payment, Purchaser shall be liable for all collection costs, including reasonable attorney’s fees and costs.

Changes in pricing policies, may not be canceled.

Claims shall constitute acceptance of the Products and waiver of any apparent defects, errors or shortages. For all claims relating to Product damaged in transit or or should be, apparent from an inspection of the Product and its packaging. Failure of Purchaser to notify Seller during the ten (10) working day period shall constitute acceptance of the Products and waiver of any apparent defects, errors or shortages. For all claims relating to Product damaged in transit or for any other claims relating to or arising out of the transportation of the Product, Purchaser must seek recovery from the carrier and Seller has no liability to Purchaser for such claims. Seller may, upon request, assist Purchaser with filing of such claims with the carrier, but Seller will not be liable for any of these transportation related claims.

Until Seller receives the full payment for the Product, Seller shall have a security interest in the Product. Purchaser agrees to perform all acts, including but not limited to the execution and filing of documentation, which may be necessary to perfect and assure the security interest of Seller.

The return of Products without a written authorization by Seller shall not be accepted. To receive authorization for Product return, please call Customer Service. All Products that are returned pursuant to a valid authorization shall be subject to a twenty-five percent (25%) list restocking charge. Products not currently offered for sale by Seller (including COM) shall not be authorized for return. All returned Products must be unused, in original condition and in the original Seller packing cartons. No refund or credit shall be given for damaged Products.

If Purchaser requests that an order be held or delayed, prices and terms and conditions in effect at the time of shipment shall apply. If Purchaser requests a delay after the time when Seller can defer production, Purchaser will be invoiced for the Product, payable in accordance with standard terms, when the order is ready for shipment. Seller may transfer the Product to storage, in which case all expenses incurred in connection with storage, including demurrage, preparation for storage, storage charges and handling shall be payable by Purchaser upon submission of invoices by Seller. Risk of loss to the Product shall pass to the Purchaser upon delivery of the Product into storage.
Selling Policy

Customer's Own Material

A Purchaser who requests a fabric or other surface material not standard to Seller’s line of Products (“COM”) must submit samples of the requested material to Seller prior to entry of a purchaser order. Seller shall determine if the material is suitable to its manufacturing processes and meets any requirements of Underwriters Laboratories. If the COM is acceptable, Seller will then establish a price for using the COM or the Product in question. For a description of the procedures for submitting samples and testing, contact customer resources or your sales representative. Seller shall have no responsibility for the appearance, condition, performance, durability, colorfastness or any other physical attribute of the COM. Purchaser shall indemnify and hold Seller harmless for any damages, injuries or losses arising out of or related to use of the COM on the Product.

Warranty

Seller warrants to the original Purchaser only that the Products Seller manufactures and sells to Purchaser are free of defects in workmanship and materials, during the applicable warranty period set forth below. Warranty period set forth below is for 24-hour, 7 days a week, multi shift use (includes parts and labor to repair). Should any failure to conform with this limited warranty appear to a Product listed below during the applicable warranty period from the date of shipment, Seller shall, upon prompt written notice, repair or replace, at its option and costs, the affected part or parts.

Product and Period of Warranty

Lifetime: Antenna Workspaces, AutoStrada, Calibre, Crixion Open Table, Currents, Dividends Horizon, Equity, Morrison, Reff Profiles laminate, Series 2 Storage, Template and other non-wood components (except cascade edge worksurfaces, operational parts, controls, electrical, Lighting, Series 2 Veneer Front Storage, special or custom products, see below)

10 Years: Anchor Storage except digital keypad lock, Antenna Workspaces, AutoStrada, Crixion Open Table, Dividends Horizon, Reff Profiles, Template wood components, Series 2 Veneer Front Storage, cascade edge worksurfaces, Wood Casegoods (The Graham Collection) (except wood casegoods upholstered surfaces, see below), Interaction tables (except height adjustment mechanisms for Counterforce, crank-adjustable, and split-top tables and worksurfaces, see below), Reuter overheads, Reuter vertical storage, KnollExtra Sapper Monitor Arm Collection, Adjustable keyboard mechanisms and platforms, Communication Boards (except fabric board textiles, see below), Smokador collection (except leathers, see below), and Orchestra Universal Systems Accessories, k. lounge structural components.

5 Years: Operational parts, controls, electrical, Lighting (except light ballasts, bulbs and power supply, see below), special or custom product, wood veneer products, Currents handcrank, Interaction Counterforce, Interaction crank-adjustable, and split-top mechanisms, KnollStudio, Spark Series seating structural elements, structural elements of all KnollStudio outdoor products including all Richard Schultz designed products, KnollExtra CPU storage and all universal storage drawers and Power Collection, Tone Tables.

3 Years: Seating upholstery, textiles, leathers and finishes. Fabric boards textiles and Smokador Collection leathers.

2 Years: Anchor Storage digital keypad lock, all other KnollExtra product

1 Year: Light ballasts, bulbs and power supply, seating upholstered armpads and soft armpads, wood casegoods upholstered surfaces. KnollStudio, outdoor product finishes, k. lounge upholstery and k. lounge fabric.

This warranty does not apply to:

• Damage caused by a carrier other than the Seller.
• Normal wear and tear or acts or omissions of parties other than Seller (including user modification, improper use or installation of Products).
• COM or other third party materials applied to Products.
• Products not installed by or under the auspices of a Knoll Dealer.
• Dramatic temperature variations or exposure to unusual conditions.
• Changes in surface finishes, including colorfastness due to aging or exposure to light.
• Except as specifically noted above, textiles and upholstery supplied by KnollTextiles (consult current KnollTextiles price list for applicable warranty).

Natural variations occurring in wood, marble, and leather shall not be considered defects, and the Seller does not guarantee the colorfastness or matching of the colors, grains or textures, or surface hardness of such materials. The Seller also does not guarantee the colorfastness of fiberglass panel surfaces.

The EXPRESS WARRANTIES CONTAINED HEREIN ARE IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTIES OF MERCHANTABILITY AND FITNESS FOR PARTICULAR PURPOSE AND ALL OTHER WARRANTIES ARISING FROM COURSE OF DEALING OR USAGE OF TRADE.

The remedies provided above are the Purchaser’s sole remedies for any failure of Seller to comply with its obligations regarding the workmanship of its Products. Correction of any nonconformity in the manner and for the period of time provided shall constitute complete fulfillment of all liabilities of Seller, with respect to or arising out of the Product furnished hereunder.

Delay/Force Majeure

Seller shall not be liable for failure to perform or for delay in performance due to fire, flood, strike or other labor difficulty, act of God, act of any governmental authority or of the Purchaser, riot, embargo, fuel or energy shortage, wrench or delay in transportation, inability to obtain necessary labor, materials or manufacturing facilities from usual sources or failure of suppliers to meet their contractual obligations, or due to any cause beyond its reasonable control. If any such event occurs, Seller may extend delivery dates by a period of time necessary to overcome the effect of such delay, allocate available Product or cancel any purchase order.

Compliance with Law

PURCHASER IS SOLELY RESPONSIBLE FOR COMPLIANCE WITH ALL APPLICABLE FEDERAL, STATE AND LOCAL LAWS, ORDINANCES, REGULATIONS, RULES AND STANDARDS RELATING TO THE INSTALLATION, MAINTENANCE, USE AND OPERATION OF THE PRODUCTS.

Subject to the following provisions, Seller shall, at its own expense, defend or, at its option, settle any claim, suit or proceeding brought against the Purchaser, and/or its vendees, mediate and immediate, so far as based on an allegation that any Product or any part thereof furnished hereunder constitutes a direct or a contributory infringement of any claim of any patent of the United States or Canada. This obligation shall be effective only if Purchaser shall have made all payments then due hereunder and if Seller is notified promptly in writing and given authority, information and assistance for the defense of said claim, suit or proceeding. Seller shall pay all damages and costs awarded in such suit or proceedings so defended.

The foregoing indemnity does not apply to the following:

• Products supplied according to a design other than that of Seller, and which is required by the Purchaser.
• Combination of the Product with another product not furnished hereunder unless Seller is a contributory infringer.
• Any settlements of a suit or proceeding made without Seller’s written consent.

Patents

PURCHASER, ITS CONTRACTORS, AUTHORIZED DEALERS AND SUBCONTRACTORS OR SUPPLIERS OF ANY TIER SHALL NOT BE LIABLE TO PURCHASER FOR ANY SPECIAL, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING FROM A BREACH OF THIS AGREEMENT.

Purchaser’s remedies set forth herein are exclusive and the liability of Seller with respect to the breach of this agreement or any contract entered into between the parties pursuant hereto shall not exceed the price of the Product or part on which such liability is based.
General Ordering Information

The Products
This guide encompasses all standard products for this product group.

Sizes
Dimensions listed in this guide are indicated as:
H = height
W = width
D = depth
Dia. = diameter
Rad. = radius

Pricing
All prices shown are list.

How to Order
Select pattern numbers and quantities required for your complete installation. Product questions can be addressed in the specific sections of this guide or by contacting your sales representative or customer resource representative at 1-800-343-5665.

Next, select options (if required), along with colors and finishes appropriate to each product. Reference the Finishes and Fabrics pages for color designations.

On large installations, an item’s “designated area” can be specified to assist in product organization and handling.

To expedite complete / correct entry of your order, be certain all pattern numbers, quantities, colors and area identifications are completely specified. Also, include complete purchase order numbers, bill-to and ship-to addresses, a contact name and specific factory shipping dates required.

Mail all orders to:
Knoll, Inc.
1235 Water Street
East Greenville, PA 18041
Attention: Order Entry

Once your order is entered at Knoll, an acknowledgment will be mailed to you. You will be advised of your scheduled shipping date within five days of the original acknowledgment. If it is necessary to revise your order, please contact your customer resource representative.

Sustainability Statement

Sustainable design is a key component of Knoll’s environmental focus. Our commitment to social responsibility and a healthy environment has prompted us to further articulate our longstanding environmental programs and, with encouragement and support from our colleagues in the industry, we have re-energized our focus on such “green” initiatives as life cycle analysis and LEED™ certification. Knoll is proud to have contributed to projects that have received LEED certification from the U.S. Green Building Council.

For the latest information on Knoll products that help our customers achieve LEED certification, log on to knoll.com, click on “About Knoll” and then “Environmental Focus.”
