Each year Knoll sets key initiatives in our journey to sustainability. We are members of a global consortium on energy, have adopted a scientific, metrics-based approach to sustainable product design, and maintain a leadership position in establishing universal, verifiable, sustainability standards for our industry.

Knoll promotes independent third-party certification because it provides the most impartial and trustworthy foundation for industry-wide environmental compliance. Certification by established and respected third parties ensures that all manufacturers are held to the same high standards and that customers can trust a company’s declaration about the environmental benefits of its products. Knoll third-party partners include: the International Standards Organization (ISO); Forest Stewardship Council (FSC®); Rainforest Alliance; GREENGUARD® Environmental Institute; and The Business and Institutional Furniture Manufacturer’s Association (BIFMA) level® certification from Scientific Certification Systems (SCS).

In addition, Knoll is aligned with the U.S. Green Building Council and can help companies, healthcare organizations and educational institutions achieve Leadership in Energy and Environmental Design (LEED®) workplace certification.

Global Climate Change
- Knoll is a sponsor of the Clinton Global Initiative, which brings together a community of global leaders to devise and implement solutions to some of the world’s most pressing challenges, including environmental change.
- Knoll has a comprehensive Energy Management Program to increase energy efficiency in products and processes.

Life Cycle Assessment (LCA) Tool
- Life Cycle Assessment is a science-based measurement of a product’s environmental impacts throughout its life cycle, from raw materials sourcing through manufacture, shipping, use and re-use or end-of-life. LCA enables cradle-to-cradle implementation of sustainable practices.
- Knoll has partnered with The Green Standard.org to develop an affordable, universal ISO-compliant computer-based LCA tool that can be used by the entire contract furniture industry and is partnering on the development of an Environmental Product Declaration System (EPDs) for Knoll products. EPDs are verified documents containing LCA results and additional environmental performance information about a product.

Setting Industry Standards
- Knoll partners with MTS (The Institute for Market Transformation to Sustainability) to develop the SMaRT© Consensus Sustainable Products Standards, a set of consensus-based sustainable product standards based on the LEED® model, for all building products, fabric, apparel, flooring and carpet. MTS, the developer of SMaRT©, is an accredited American National Standards Institute (ANSI) standard developer.
- Knoll also partners with BIFMA (Business and Institutional Furniture Manufacturers Association) to promote level® sustainability standards for the contract furniture industry.
- Knoll has established FSC® (Forest Stewardship Council) certified wood as the standard for general office open plan office systems, casegoods and tables.
- Knoll has launched Full Circle, a resource recovery program developed with ANEW, to help customers extend the life cycle of surplus furniture, fixtures and equipment (FF&E) in an economically, socially and environmentally responsible manner.
- Our goal is to encourage all manufacturers in the contract furniture industry and related industries to adopt standards that will lead to sustainable products and practices.

For more information about Knoll and sustainable design, visit knoll.com/environment.
All Knoll Office Seating is GREenguARD and GREenguARD Gold certified.

All KnollExtra® products are GREenguARD certified.

Visit GREenguARD.org for more information and to find printable certificates for Knoll Office Seating that can be used for verification and LEED® submission.

GREenguARD provides the only guide to certified low-emitting interior products and building materials. Its goal is to help building owners and managers, architects, interior designers and product specifiers build and furnish healthier offices, hospitals, schools and homes by providing a register of tested and certified low-emitting products and materials.

GREenguARD certification is recognized by the U.S. Green Building Council’s LEED® Program.

Air Quality Science, an independent indoor air quality laboratory, tests products submitted for certification using stringent environmental chamber testing protocols and current indoor air quality standard. Certification is administered by the GREenguARD Environmental Institute (GEI), an industry-independent, non-profit organization.

GREenguARD Gold certification complies with the State of California’s Department of Health Services Standard Practice (CA Section 01350) for testing chemical emissions from building products used in schools, offices and other sensitive environments. Certified products can contribute to achieving credits in the CHPS Best Practices Manual for K-12 schools, the LEED® Green Building Rating System, Green Guide for Healthcare™, NAHB Green Building Guidelines, Green Globes, Regreen and numerous other local authorities’ green building codes.

Knoll Office Seating and KnollExtra® products can contribute to achieving LEED® credits. GREenguARD-tested and certified office furniture is required for Credit 4.5 in the LEED®-CI Indoor Environmental Quality section.

GREenguARD Certification Program

• Internationally recognized for evaluating product emissions and certifying building materials, furnishings, finishes and cleaning products and processes that meet stringent indoor air quality criteria defined by GEI.
• Products undergo rigorous, third-party testing to determine their impact on indoor air pollution with requirements for ongoing testing and verification.
• Certification confirms a manufacturer’s environmental responsibility, and signifies their environmental achievements through independent, third-party testing and verification.
• GREenguARD Certified products are recommended by leading sustainable building programs, including:
  – U.S Green Building Council’s (USGBC) LEED Rating System,
  – National Association of Home Builders (NAHB) Green Building Guidelines,
  – Green Guide for Health Care (GGHC),
  – Collaborative for High Performance Schools (CHPS) Best Practices Manual,
  – New York City Department of Design and Construction Sustainable Design Specifications, among others.

KnollExtra
An Overview

In the first part of the Price List you’ll find Lighting and Power Series.

The second part features a full range of desktop accessories. Next listed is Orchestra Universal System Accessories, a complete scope of paper management accessories perfect for panel-mounted or freestanding application.

Part three offers a broad range of systems support products, including computer accessories, storage drawers, communications boards, and lighting.

Can’t find it? Consult the Table of Contents on page 1 or the Alpha-numeric Index on page 188.

Product Information on Each Page

The KnollExtra Price List was designed to provide you with everything you need to know in order to understand, specify, and care for KnollExtra products. On each page, the following features will assist you:

Description/Construction explains salient features, capabilities, materials, and country of origin.

Dimensions provide the overall space the product will require. Statistics are based on the maximum width, depth and height of the product.

Weight is based on the product itself. It does not include packaging or complementary items such as pens, memo paper or calendars.

Order Code/Ordering Information outlines exactly how to specify KnollExtra product and the full scope of finish options. The Order Code provides an example of how one pattern number is specified.

Custom Options reviews availability of special sizes, finishes etc.

For More Information

For more information, contact your Knoll sales representative, telephone Customer Service at 1-800-343-5665, or visit one of the Knoll showrooms listed on the last page of this book.

A Word About Finishes

KnollExtra finishes are designed to complement a broad range of interiors and office products.

Key KnollExtra finishes coordinate with specific Knoll systems finishes:

Placing Your Order

Use the Following Addresses
If you would like to send a standard lead time order to our order entry department, please use the following address:

For North American orders:
Knoll, Inc.
1235 Water Street
East Greenville, PA 18041
Attn: Order Entry

Fax: 215 679-1788
Tel: 800 343-KNOLL

All accepted orders will be confirmed in writing on the Knoll standard order confirmation form.

Ship-Complete Orders
Orders that must ship complete are to be so stated on the purchase order. Products with different lead times, combined on one order, can be acknowledged for shipment based on the longest of those lead times. Orders not marked “ship complete” will be released according to the confirmation, and invoiced in increments.

For More Information
For complete Knoll Selling Policy and warranty information, please refer to page 191 of this price list.

For additional information on KnollExtra, contact your Knoll representative, a Knoll dealer, or telephone Customer Services at 800 343-KNOLL.

Maintaining Your Purchase

Maintenance
While KnollExtra relies on highly durable materials in each product line, regular basic maintenance will ensure the longevity of your product. Most stains, marks, and discolorations can be removed by following the simple instructions outlined on this page.

Plastic
Windex and a dry cloth.

SofStone
Early removal of a stain makes SofStone care much easier. This is especially true of coated areas which are frequently handled. If oil smudges are allowed to build up, they can soften the suede coating, and become very difficult to remove. Most dirt and smudges can be removed by the following methods:

1. Greasy stains (crayon, oil, lipstick, etc.): remove grease and wax stains with a naphtha-dampened lint-free cloth. Change the cloth frequently to remove as much grease as possible without spreading the stain.

2. Non-greasy stains (dirt, coffee, mustard, catsup, etc.): dirt and smudge areas can generally be removed by using a sponge or soft bristle brush with Liquid Ajax, Mr. Clean, Lestoil, or 3M brand carpet spot remover and upholstery cleaner. Follow the instructions on the label, and rinse thoroughly with clear water and a lint-free cloth.

3. Combination stains (chocolate, ice cream, gravy, soup, etc.): combination stains are caused by materials that contain both greasy and non-greasy substances. First use the procedures for non-greasy stains as stated above. Then, rinse thoroughly with clear water and thoroughly dry with a lint-free cloth. If greasy stain persists, follow the procedure for greasy stains as stated above. Repeat as necessary.

Stainless Steel:
Windex and a dry cloth.

Antique Brass, Brushed Zinc and Black Oxide:
A damp cloth with no cleaning agents.

Satin Brass:
Pledge.

Linoleum:
Windex and a dry cloth.

Contemporary and Traditional Standard Leathers:
Mild soap and water on a soft cloth.

Spinneybeck Leathers:
As a result of the high quality aniline dye process, most scratches or minor stains can be removed simply by gently rubbing them with your fingers. The body's natural oils revitalize the leather. For stubborn stains, use mild soap and water. Take care to wash the surface evenly since soaps may slightly alter the leather's tonality.

Surf Collection:
Wipe nylon skin using warm water and mild detergent. Do not use abrasives.

Office Automation
Accessories/Storage Drawers:
Clean with a soft cloth and Windex, Fantastik, Endust or other non-abrasive household cleaners. Remove stubborn stains with SofScrub.

For Surf Board and VDT Sleeve soft touch paints, never use abrasives. Clean with lukewarm water and a soft cloth.

Marker Boards:
For day-to-day use, surface requires only a dry cleaning with a standard felt eraser or dry cloth. For best results, keep marker board and marker pens at room temperature. KnollExtra suggests Alliance Rite-On Wipe-Off marker pens which are designed for use on marker boards. All marker pens should be tightly capped and stored horizontally when not in use. If Expo brand markers are used, use the manufacturer's recommended cleaning solution, Expo Dry Erase Cleaner.

Follow the instructions below as a periodic maintenance program, or to remove stubborn stains:

1. Clean with EV-1 or any liquid ammonia-added cleaner and rinse with clean water, then dry. For best results, wash board like a window with sponge and squeegee.

2. Interim cleaning may be done by sprinkling a dry powdered cleanser on an eraser and applying to the board in a circular motion. Rinse with clean water, then dry.

3. To remove crayon, scotch tape, or other stubborn materials, apply a mild solvent or paste made with scouring powder and water.

Fabric Boards:
Despite the durability of most panel textiles, fabric boards are subject to long-term soiling and wear. A regular maintenance program will significantly lessen soil and dirt build up or staining on your fabric boards. Cleaning is particularly important in areas adjacent to air conditioning or ventilation systems.

Remember to consult the care instructions provided by the fabric manufacturer. The general recommendations below should apply to most fabric boards.

1. Avoid excessive heat or moisture which can affect finishes and adhesives. Never allow fabric panels to become wet inside the core. Room temperature should be maintained between 50 and 85 degrees; humidity should be maintained between 20 and 50%.

2. Avoid contact with sharp edges which could puncture the surface.

3. Do not handle fabric boards more than necessary. Avoid bending or flexing the panels; this could break the bond between the surface and core materials.

4. Grease or oil should be wiped off immediately upon contact. Remove excess grease or oil by blotting. Use hot water and mild soap to remove any remaining residue.

5. Whenever possible, clean only with warm water and mild soap. Use caution when applying cleaning agents, particularly those that contain alcohol, strong alkalins, or solvents. These ingredients may react to the vinyl backing or adhesives used in the fabric boards. Always test cleaning agents on fabric from the rear of the panel before using on the front.

6. Care should be taken in using strong room cleaners or pesticides. Their fumes may contain agents which lead to the loosening of the fabric board glue bond.

- Medium Grey (115)
- Standstone (116)
- Salt Grey (117)
- Bright White (118)
- Dark Red (130)
- Shale Blue (131)
- Brique Mat (611)
- Metallic Medium (612)
- Metallic Deep (613)

**Additional Information:**
- Specify: YCBT for Antenna beam with hole for T-light application.
- T-light can only be installed on Antenna workspace beam.
- All T-lights ship with black Highwire lights.
- UL Certified.

**Construction:**
- T-light structure: die cast aluminum base, extruded aluminum stanchion and steel top channel.
- Highwire: LEDs, extruded aluminum housing, plastic reflector and end caps.

**Design Awards:**
- Best of NeoCon 2013 Silver Award.
- TAA compliant.
Copeland™ Light
by Stephan Copeland

Standard Arm
• Standard Arm.
• 13 watt ENERGY STAR rated compact fluorescent bulb.
• Mounting option must be ordered separately.
• 20.75” x 21.75” (at 90° angle)
• Reaches height of 29.75” when extended up and depth of 35.75” when extended out.

Compact Arm
• Compact Arm.
• 13 watt ENERGY STAR rated compact fluorescent bulb.
• Mounting option must be ordered separately.
• 16.25” x 17.75” (at 90° angle)
• Reaches height of 23.5” when extended up and depth of 28.75” when extended out.

Replacement Bulb
• ENERGY STAR 13 watt replacement compact fluorescent bulb (fits compact and standard lights)

Mounting Options
Standard base
• To be used with standard arm only.
Compact base
• To be used with compact arm only.

Table clamp
• To be used with either size arm.
• Works on desks of up to 1 3/4” thick.

Panel Mount, Morrison
• Panel mount bracket for Morrison.
• To be used with either size arm.

Order Code
Example: COPE-01-SV, COPE-01-BASE-SV
COPE-01-SV: Copeland light standard arm in silver
COPE-01-BASE-SV: Copeland standard base in silver

Ordering Information
Specify:
1. Pattern number for arm
2. Finish (for arm)
3. Mounting option pattern number
4. Mounting option finish

Finish Options:
Silver (SV)
Black (BL)

Light Bulb Information
• Ships with a 13 watt compact fluorescent light bulb. This is equivalent light output of a 75 watt incandescent light bulb.
• 13w/120v/2700k, UL listed, ENERGY STAR rated.

Construction
The Copeland Light has a steel arm, aluminum axle, zinc coated cast iron base and metallic painted ABS shade.

Design Awards
Best of NeoCon 2005, Silver Award

### Construction

- **Power Cube:** Powder coated steel, steel and nylon levelers
- **Magnetic Accessory Cup:** See page 36

### General Notes

- Each electrical module has either 4 outlets or 3 outlets and 2 USB ports, depending on specification.
- Power Cube is 13” high with 4 levelers. Hard wired comes with 72” whip. Cord set comes with 72” card with a 3-prong plug for 120V outlets. Base includes one slot per corner for choice of cord exit.

### Ordering Information

- **Order Code:** ACT-PW-PC-36-36-13-1E
- **Example:** ACT-PW-PC-36-36-13-1E

### Note

- Each Power Cube comes with a whiteboard finish and ships with 4 dry erase markers (blue, green, red and black) and a microfiber cloth eraser.
- To prevent dry erase markers from drying out, store them with the cap down in the optional cup.

### Mounting Options

- Please note: Flat panel monitor arms cannot be mounted on Orchestra® load bars. Flat panel monitor can be mounted on an architectural wall. Please review before mounting. Please see p. 130 for flat panel monitor support options.

- Panel, stanchion and wall-mounted brackets: Wall, stanchion, or panel-mounted brackets are included in the list price.

### Custom Options

- Note: Slat board is available in custom lengths of up to 96”. Please note that for all lengths greater than 66”, load bar will be painted, not anodized. Brackets are currently available for virtually every major office system. Panel-mounted brackets for other systems can be developed. Minimum of 100 sets per bracket. Tooling and setup charges may be required.

### Construction

- Corrosion-resistant T-6063-T5 painted or anodized aluminum. End caps are 11 gauge steel painted matte black. Bottom rail is filled with 65% Delrin plastic pellets to support papers on Info Rail.

</table>

### Mounting Options

- Panel, stanchion, and wall-mounted brackets:
  - Wall, stanchion, or panel-mounted brackets included in list price (see mounting options page).
  - Flat panel monitor arms cannot be mounted on Orchestra® lead bars. Flat panel monitors can be mounted on Orchestra® slat wall only when mounted on an architectural wall. Please review before mounting. Please see p. 130 for flat panel monitor support mount options.
  - Panel-mounted brackets for other systems can be developed.
  - Customers only:
    - OR-SL-14-72-EY-( )( )
    - OR-SL-14-66-EY-( )( )
    - OR-SL-14-54-( )( )
    - OR-SL-14-42-( )( )
    - OR-SL-14-36-( )( )
    - OR-SL-14-24-( )( )

### Custom Options

- Note:
  - Slats board is available in custom lengths of up to 96". Please note that for all lengths greater than 66", load bar will be painted, not anodized.
  - Brackets are currently available for virtually every major office system. Please consult the KnollExtra Bracket Chart on page 12 for appropriate suffix for Equity panel-mounted applications, include an “EX” at end of base pattern number.
  - Workstation mounted bracket is for use with load bars and 6/0" slat boards only (14 3/4" slat board is too large for this application).

### Workurface-Mounted Brackets

- **Mounting Options**
  - Panel, stainless and wall-mounted brackets: Metal posts attach to underside of worksurface with C-clamp, raising Load Bar 10" above worksurface. Usable on worksurfaces 7/8"-1 1/2" thick. There should be at least 3/4"-1" of space between the back of the desk and the surface behind (i.e., it cannot be flush). Set of 2 brackets. For Load Bars wider than 66", order additional brackets. For use with load bars and 6 1/2" slat boards only.

- **Product Description**
  - **Worksurface-Mounted Bracket**
    - Metal posts attach to underside of worksurface with C-clamp, raising Load Bar 10" above worksurface. Usable on worksurfaces 7/8"-1 1/2" thick. Mounting and Application Information
See page 130 for comprehensive mounting, application and construction information.
Mounting and Application Information:

All Sapper standard monitor arms:
- Maximum weight of 20 lbs per arm, weight limits vary by mounting option.
- Ship standard with fast release movement joint.
- Offer 165 degrees of monitor tilt and up and down, 180 degrees of swivel left and right, and 47.27 degrees for the medium and large beams. The length of these movements in both the small and large beams will be at least the length of the beam. If monitors extend beyond the end of the beam, additional equipment is required. For additional guidelines and limitations, please see the Easy Order Desk Kit.

All Sapper 50 monitor arms:
- Maximum weight of 50 lbs per arm, weight limits vary by mounting option.
- Ship standard with fast release movement joint.
- Offer 117 degrees of monitor tilt and up and down, 180 degrees of swivel left and right, and 50 degrees of rotation for portrait or landscape viewing.
- Field these arms to be highly compact at only 2.5” when fully compacted.

*Please note this limit accommodates up to 95% of monitors on the market. There is not a specific monitor size maximum limit for a single Sapper monitor arm. A larger size (e.g., 24” widescreen) does not necessarily equate to a higher weight monitor. It is key to understand the application to know if a certain size monitor will fit within a space and/or if there are multiple monitors. Also, it is important to know the weight limitations vary by application. See details below.

Weight Limits:
- Weight limitations for individual mounting options are outlined below. Taken together (i.e., with multiple monitor weight limits and the individual arm limit) you can determine the best mounting approach for your client given the maximum number of desired monitors and the weight of those monitors. Weight limits are outlined by mounting option on the next few pages.

For example, if you want to mount two monitors on a workface with a total weight of 20 lbs each of those monitors weighs 10 lbs (2 monitors x 10 lbs each equals 20 lbs), we can accommodate that with no issue. However, if you want to mount two monitors with a total weight limit for the 24” mast on a monitor and the 20 lbs limitation for the 50 lbs maximum, you can accommodate three monitors weighing 15 lbs each (3 monitors x 15 lbs each equals 45 lbs total) with a 24” mast on a monitor arm, because the maximum weight limitation on a single mast is 45 lbs for the 50 lbs maximum.

Sizer Limits:
- Monitor Arms:
  - There is no specific maximum size for a single arm solution (outside the limitations of the space in which you are trying to put it). When mounting two monitors, the maximum horizontal width per monitor is 31.8” for a cockpit solution or 20.5” for a flat positioning flush next to each other in a row. Clients can accommodate larger screen monitors in triple by turning monitor screens to a portrait position.
- Horizontal width per monitor is 15.8” for a cockpit solution or 20.5” for a flat positioning flush next to each other in a row. Clients can accommodate larger screen monitors in triple by turning monitor screens to a portrait position.
- For beam solutions, the length of the desk or Antenna center beam must be at least the distance between the outside of the two monitors. For the heavy duty monitor, this distance is 39.92” for the small beam and 47.27” for the medium and large beams. For the Antenna center beam side mount, the width of the beam should be at least the length of the beam. If monitors extend beyond the end of the beam, additional equipment is required. For additional guidelines and limitations, please see the Easy Order Desk Kit.
- All Sapper standard monitor arms:
  - Ship standard with fast release movement joint.
  - Offer 165 degrees of monitor tilt and up and down, 180 degrees of swivel left and right, and 47.27 degrees for the medium and large beams. The length of these movements in both the small and large beams will be at least the length of the beam. If monitors extend beyond the end of the beam, additional equipment is required. For additional guidelines and limitations, please see the Easy Order Desk Kit.

Mounting and Application Information:

Sapper Monitor Arm Collection
Mounting, Construction and Application Information

Maximum Monitor Height on a 32” Mast for Double Stacked Monitors

Please note while four monitors (two on-two on) are shown above, the height limitation applies to all manufacturers specifications as well.

KEY NOTE: Flat panel monitor manufacturers refer to their products by diagonal screen measurements. So a 19” widescreen monitor is a 19” screen measured diagonally, but is not necessarily 19” in horizontal width (refer to manufactures specifications for specific overall height and width).

Please follow installation instructions closely (available in each kit box shipped as well as on KnollExchange).
Sapper Monitor Arm Collection
Mounting, Construction and Application Information

For use on architectural walls only as outlined further on this page. Knoll cannot be held responsible for the structural integrity or a wall so please work with clients to ensure their wall is structurally sound to hold the arm configuration and the monitor weight. See above for weight limits if mounting slat wall to an architectural wall.

Sapper 50 Direct Wall Mounting (for Sapper 50 monitor arm):
For single monitor mounting, you can use either the direct wall mount or direct wall mount. Please note that the Sapper 50 Direct Wall Mount is specific to the Sapper 50 arm. You cannot use the standard mount with the Sapper 50 arm or a standard arm with the Sapper 50 mount.

For use on architectural walls only as outlined further on this page. Knoll cannot be held responsible for the structural integrity of a wall so please work with clients to ensure their wall is structurally sound to hold the arm configuration and the monitor weight.

Interpole Mounting:
Sapper arms can be mounted either on the slot or channel sides of Interpole with the proper mount. Mounts can be moved after installation but the pole may have residual markings.

If screens are mounted on the slot side, use the channel mount. If overheads are mounted on the slot side, then a SapperXYZ with extended channel mount will be necessary for full adjustability.

Cable Management:
Monitor Arms:
External cable management allows for easy installation and removal of monitors. There are gates under the arm that will contain wires from the monitor to plastic cable management clips that go on the mast to keep wires tidy in the electrical socket.

Adjustment:
The Sapper monitor arm collection offers intuitive adjustment. To adjust the height, you simply manually lift the arm and twist the adjustment knob like a screw up or down the mast to a comfortable setting. The easiest way to lift the monitor is to fold it in before making the adjustment. To adjust the depth, you can move the arm in or out. You can also rotate the monitor 360 degrees for landscape or portrait viewing and adjust the swivel back and forth 180 degrees and tilt up and down 165 degrees. The arm folds in and out from 2 1/4” fully compressed to approximately 17” when fully extended.

Fast Release:
Monitor arm allows for swift installation and removal of flat panel monitors by merely pulling the quick release pin up to remove monitor with movement joint/back plate attached.

Fast Release:

Beams:
The Sapper Monitor Arm Collection is not compatible with the Wishbone Flat Panel Monitor Support System (i.e., Wishbone, Zorro or Rotation arms, posts, tool bars, brackets, mounting, etc.). They have been designed independently and as such parts from one system cannot be used with the other.

Monitors cannot be mounted on KnollExtra® Orchestra® load bars.

Installation Instructions:
Comprehensive installation instructions will be shipped with product and are also available on Knoll Exchange for easy reference.

Construction:
Arm: die-cast aluminum with a cold rolled steel top plate
Mast: anodized aluminum extrusion
Beams: satin anodized extruded aluminum

Adjustment knob: nylon undermold with a TPU overmold
Movement joint (includes fast release monitor plate): plastic bushings, zinc and plastic molded plastic tilt friction components and glass filled nylon VESA plate
Movement joint slide: aluminum, powder coated silver
VESA plate adaptors: steel

Table clamp, grommet mount, fixed table mount, COT Center channel mount, DH Bench mount, Antenna center beam center mount: steel
Slot wall and wall mounts (both mast-mount and direct, both standard and compact sizes): die-cast aluminum with steel back plates

Double arm bracket: die-cast aluminum, steel top plate, extruded aluminum posts, plastic upper and lower bushings

Triple support arm bracket: die-cast aluminum, steel top plate, extruded aluminum posts, plastic upper and lower bushings

Mast-to-beam bracket: aluminum, powder coated silver

Cable management: transparent polycarbonate clips on the mast and beam; plastic gates under standard arms

Antenna and Quadrapole support arm bracket: die-cast aluminum

Two-Piece Table Clamp, Deep Table Clamp, Heavy-Duty Table, Clamp, Grommet, Fixed Table, COT Open Table Center Channel, Dividends Horizon Benching and Antenna Center Beam Table Mounting: steel

Antenna Table Center Beam Side Mounting: die-cast Aluminum

Slot Wall and Wall Mounts both Direct Mast Mounting, Direct Mounting and Support 50 Direct Mounting (for both standard and compact arms): die-cast Aluminum with steel back plates

Quadrapole arm bracket: Die-cast Aluminum

Mounting and Application Information
See page 146 for comprehensive mounting, application and construction information.
All Sapper XYZ monitor arms:
- Maximum weight of 20 lbs for arm
- Ship standard with fast release movement joint
- Offer 360 degrees of pivot at the base and at the elbow joint
- Offer 153 degrees of movement in which you are trying to put it (refer to their products by diagonal screen)

Flat panel monitor manufacturers refer to their products by diagonal screen measurements. A 19” widescreen monitor has a 19” screen measured diagonally, but is not necessarily 19” in horizontal width (refer to manufacturer’s specifications for specific overall height and width).

Mounting: All Sapper XYZ monitor arms are compatible with the international Video Electronics Standard Association (VESA) industry standard (175 mm x 175 mm and 100 mm x 100 mm hole patterns or 2.95” x 2.95” and 1.94” x 1.94”) adopted by most panel manufacturers. VESA compliance is a requirement to mount any monitor to a monitor arm. If your customer has a nescessary monitor back with only 75 mm x 75 mm holes, additional spacers may be needed to ensure proper fit. Contact Customer Service for more details including part and pricing information.

Knoll movement joints do not ship with screws and are designed to accept an M5 or M6 screw. M5’s and M6’s 10mm are the most common screw lengths but length is dependent on the specific monitor or television and screws should be tested prior to installation to ensure correct length. Knoll is not responsible for use of incorrect screws.

A VESA plate adaptor may be necessary for larger monitors and televisions and can be ordered separately in the sizes of 200 mm x 200 mm (M4 screws), 200 mm x 300 mm (M5 screws), 200 mm x 300 mm (M6 screws) and 400 mm x 400 mm (M6 accomodates). Adaptors ship with separate installation instructions and may require spacers. Knoll VESA plate adaptors ship with screws to attach the adaptor to the Knoll VESA plate but do not ship with screws to attach the adaptor to the monitor or television (see screw sizes listed above, English size equivalents may be needed instead). Screw length is dependent on the specific monitor or television and screws should be tested prior to installation to ensure correct length. Knoll is not responsible for use of incorrect screws.

Knoll and its dealers will not take the responsibility for mounting the monitor to the arm. The end user’s IT department must confirm VESA mounting compliance and mount the Sapper XYZ monitor arm to the arm using customer’s own screws. The most common screws are M5’s and M6’s 10mm.

Please follow installation instructions closely (available in each kit box as well as on Knoll Exchange).

Apple Computer Note: VESA Adaptors are required for Thunderbolt Displays and Mares, available from apple.com. Contact Apple directly for VESA adaptor options on specific Mac models as some may need to be purchased with integrated VESA Mount Adapters. With these adaptors, the displays will mount to the 100mm x 100mm hole pattern. Max 21.7” can be mounted on Sapper and Sapper XYZ. All other Apple displays must be mounted on Sapper 50 due to weight specifications.

Sapper Table Center Beam Side Mounting: This mount allows you to place the flat panel or monitor riser to desks on most worksurfaces or desks that are a minimum of 3” high solid core. The maximum worksurface thickness is 2” 9/16. There are four settings to accommodate a range of worksurface thicknesses. It is important to mock up the table clamp, particularly on competitive product to ensure a proper fit. The clamp is not compatible with Morrison Network.

Deep Table Clamp Mounting: This clamp is one piece and works on most surfaces. The deep table clamp mount is intended to clear most machined-edge (45 degree angle) desks or worksurfaces.

Grommet Mounting: With all systems furniture, it is important to pass monitor and peripheral plugs through grommet mount cover while it is still loose. Please note the grommet mount is compatible with Morrison, Autostat, Bell, Repolister, but is not compatible with the Graham Collection or Dividends Horion grommet holes. To use on Morrison Network, spacers must be requested through Customer Service. The required cutout in the worksurface is 3” x 1.77”, which includes room for the threaded stud (actual hole in the grommet plate is 1.48” x 1.77”).

Fixed Table Mounting: Installs will need to drill a permanent hole into the worksurface so the post will be fixed to a dedicated location on the worksurface. Please note with this mounting, the mount will not be able to be moved after installation of the arm to the worksurface. The worksurface must be of adequate structure; Knoll cannot be held responsible for structural integrity of non-Knoll worksurfaces.

Antenna Table Center Beam Side Mounting: The Sapper XYZ monitor arm offers intuitive one-touch adjustment. To adjust the height, you simply lift the monitor to the desired position. To adjust the depth, you simply pull or push the monitor in or out. You can also rotate the monitor 360 degrees for landscape or portrait viewing, adjust the swivel back and forth 180 degrees and tilt up and down 153 degrees. The arm folds in and out 270 degrees for easy installation and may be used in the center beam.

Sapper XYZ Monitor Arm Mounting, Construction and Application Information

Weight Adjustment: The Sapper XYZ monitor arm is present for a 10lb or monitor. Other monitor weights up to 20 lb can be accommodated by adjusting the weight adjustment nut to the proper weight using the Allen key wrench on the back of the movement joint. Note that the 20 lb setting is not visible on the scale. Turn clockwise to decrease weight or counterclockwise to increase weight to appropriate level. The arm should be held in a downward position if increasing the weight and in an upward position if decreasing the weight. When proper weight is set, the arm should stay exactly where you place it.

Fast Release: Allows for swift installation and removal of flat panel monitors by merely popping the quick release pin up to remove monitor with movement joint back plate attached. Be sure to fill the arm to the highest position before removing monitor, or the arm will quickly move upwards.

Thief Deterrence: All movement joints come with a set screw within the fast release pin, to prevent fast release if so desired.

Compatibility: The Sapper XYZ monitor arm is not compatible with the Sapper Monitor collection or Dividends Horion 360 VESA plate adaptors. It has been designed independently and as such, parts from one system cannot be used with the other, with the exception of the movement joint. Finish colors are consistent across the Sapper XYZ and Sapper Monitor Arm Collection portfolios.

Antenna arms cannot be mounted on KnollExtra® Orchestra® load bars.

Installation Instructions:
Comprehensive installation instructions will be shipped with product and are also available on Knoll Exchange for easy reference.

Construction: Arm: cast aluminum with steel channel and plastic molded shell Movement joint (includes fast release monitor plate): plastic buildups, zinc and plastic molded plastic tilt friction components and glass filled nylon VESA plate VESA plate adaptors: steel Table clamp, grommet mount, fixed tabl mount: steel Cable management: transparent polycarbonate clip on the post, soft plastic in channel under arm Antenna Table Center Beam Side Mounting: cast-aluminum KnollExtra® Knoll Extra

All Sapper XYZ monitor arms are lightweight and durable. They offer 153 degrees of monitor tilt, 360 degrees of pivot at the base and at the elbow joint, and are designed to accommodate up to 95% of monitors on the market. All Sapper XYZ monitor arms are compatible with the international Video Electronics Standard Association (VESA) industry standard (175 mm x 175 mm and 100 mm x 100 mm hole patterns or 2.95” x 2.95” and 1.94” x 1.94”) adopted by most panel manufacturers. VESA compliance is a requirement to mount any monitor to a monitor arm. If your customer has a nescessary monitor back with only 75 mm x 75 mm holes, additional spacers may be needed to ensure proper fit. Contact Customer Service for more details including part and pricing information.
### Romeo and Juliet Platform/Mechanism Configurations

#### Product: Romeo and Juliet Platform and Mouse Pad

- **Romeo**
  - 20" w, 20" max. x H1 x 1.25" H with palm rest for keyboard platforms
  - Rigid plastic platform with steel stiffener plate for stable keying surface.
  - Flexible soft textured plastic overcoat.
  - Thin profile for extra knee room.
  - Flexible soft textured plastic overcoat.
- **Juliet**
  - A tear drop shaped mouse pad that swivels with palm rest for keyboard platform
  - Mounted for right-handed use.

#### Construction
- **Looks and Finish**
  - Nylon upholstered palm rest of dual 40% mica reinforced polypropylene.
  - TPE (thermoplastic elastomer) and Steel stiffener plate at the base of the platform holding their computer environment by allowing them to move independently from arm, allowing for a more comfortable working position.

#### Measurements
- **Dimensions**
  - Romeo:
    - Width: 20.25" - 12.5" - 2.25" - 10.5 lbs.
  - Juliet:
    - Width: 20.25" - 12.5" - 2.25" - 14.6 lbs.
  - Romeo and Juliet with easy lift arm:
    - Width: 20.25" - 12.5" - 2.25" - 11.2 lbs.
  - Romeo and Juliet with short easy lift arm:
    - Width: 20.25" - 12.5" - 2.25" - 11.8 lbs.
  - Romeo and Juliet with easy lift arm with pivot:
    - Width: 20.25" - 12.5" - 2.25" - 11.0 lbs.
  - Romeo and Juliet with short easy lift arm with pivot:
    - Width: 20.25" - 12.5" - 2.25" - 11.0 lbs.
  - Romeo and Juliet with short easy lift arm with pivot:
    - Width: 20.25" - 12.5" - 2.25" - 11.0 lbs.

#### Mechanism Attributes
- **All mechanisms have the following features:**
  - Spring assist adjustment
  - Knobless height adjustment
  - Pivot side to side 360°
  - Black textured metal finish

- **Easy lift arm:**
  - Soft touch knob adjusts tilt from 0° to 15°
  - Variable height adjustment of 7.04" (up 2.83", down 4.21")

- **Sit/Stand arm:**
  - Soft touch knob adjusts tilt from 0° to 15°
  - Variable height adjustment of 11.57" (up 6.40", down 5.17")

### Mechanism Attributes

All mechanisms have the following features:
- Spring assist adjustment
- Knobless height adjustment
- Pivot side to side 180°
- Black textured metal finish
- TPE (thermoplastic elastomer) and 40% mica reinforced polypropylene undercoat.
- Steel stiffener plate at the base of platform.
- All arms are steel with a powdercoat finish. Tracks are steel with nylon glides.
- Adjustable Keyboard Support stores keyboard. When not in use, the platform holds their computer keyboard under the worksurface.

**Easy lift arm:**
- Soft touch knob adjusts tilt from 0° to (+) 15°
- Variable height adjustment of 4.26" (up 1.06", down 3.20")

**Spring assist:**
- Soft touch knob adjusts tilt from 0° to (+) 15°
- Variable height adjustment of 4.26" (up 1.06", down 3.20")

**No/Stand arm:**
- Soft touch knob adjusts tilt from 0° to (+) 15°
- Variable height adjustment of 4.26" (up 1.06", down 3.20")

Application Notes
Keyboard support provides users with a more comfortable working environment by allowing them to adjust the height and pitch of the platform holding their computer keyboard. When not in use, the Adjustable Keyboard Support stores the keyboard under the worksurface to free vital worksurface space.

Construction
Caesar: Black textured powdercoated steel plate
Mechanisms:
All arms are steel with a powdercoat finish. Tracks are steel with nylon glides.

Microsoft is a registered trademark of the Microsoft Corporation.

Mechanism Attributes
Easy lift arm:
- Spring assist adjustment
- Knobless height adjustment
- Soft touch knob adjusts tilt from 0° to (+) 15°
- Variable height adjustment of 7.04 in (up 2.83, down 4.21)
- Pivots side to side 360°
- Black textured finish with black soft touch knob
- Mounts on virtually any worksurface

Sit/Stand arm:
- Spring assist adjustment
- Knobless height adjustment
- Soft touch knob adjusts tilt from 0° to (+) 15°
- Variable height adjustment of 11.57 in (up 6.40, down 5.17)
- Pivots side to side 360°
- Black textured finish
Mounts on virtually any worksurface

Antenna Mounting Note
In order to mount to Antenna Workspace tables, you will need to order a special adapter available through that price list. Pattern code is YAK.

Keyboard tray must be specified with a sliding track that is less than the depth of the top and anything below the top such as a power harness or cable basket.

For taller individuals, we recommend using a pivot solution mounted on the diagonal to maximize knee space.

Mechanism Attributes
All mechanisms have the following features:
- Soft touch knob adjusts tilt from 0° to (-) 15°
- Knobless height adjustment
- Pivot seat to side 360°
- Black textured metal finish

Easy lift arm:
- Soft touch knob adjusts tilt from 0° to (-) 15°
- Variable height adjustment of 4.26" (up 1.66", down 3.20")

Sit/Stand arm:
- Soft touch knob adjusts tilt from 0° to (-) 15°
- Variable height adjustment of 11.57" (up 6.40", down 5.17")

Pivot feature:
Allows the keyboard platform to move independently from arm, allowing it to stay parallel to the worksurface as the arm is moved laterally.

Manufactured by
Knoll Extra

In order to mount in Antenna Workspace tables, you will need to order a special adapter available through that price list. Pattern code is 1YK.

Keyboard tray must be specified with a sliding track that is less than the depth of the top and anything below the top such as a power harness or cable basket.

For taller individuals, we recommend using a pivot solution for greater knee space.

### Mechanism Attributes

All mechanisms have the following features:
- Spring assist adjustment
- Knobsless height adjustment
- Pivot side to side 180°
- Black textured metal finish
- Board is phenolic
- Wristrest is foam-filled vinyl on MDF board
- Mousseplie on terra cota covered polystyrene
- Mechanism: All arms are steel with polyurethane.

**Easy Lift arm:**
- Soft touch knob adjusts tilt from 0° to (-) 15°
- Variable height adjustment of 6.25" (up to 6.25")
- Variable height adjustment of 11.0" (up to 6.25")

**Pivot feature:**
- Allows the keyboard platform to move independently from arm, allowing it to stay parallel the worksurface as the arm is moved laterally.

**Sit/Stand arm:**
- Soft touch knob adjusts tilt from 0° to (+) 15°
- Variable height adjustment of 6.25" (up to 6.25")
- Variable height adjustment of 11.0" (up to 6.25")

**Antenna Mounting Note**

In order to mount to Antenna Workstation tables, you will need to order a special adapter available through this price list. Patent code is 918.

Keyboard tray must be specified with a sliding track that is less than the depth of the top and anything below the top rack or a power harness or cable basket.

For taller individuals, we recommend using a pivot solution mounted on the diagonal to maximize knee space.

---

**Ordering Information**

- Track length options are 16, 17.75, 23.625, 22.63 and 25 inches.
- Standard color is black.
- Minimum clearance required is the length of the track plus 1/2".
- Advanced Easy Lift track cannot be used with other mechanisms.
- Keyboard support provides users with a more comfortable working environment by allowing them to adjust the height and pitch of the platform holding their computer keyboard. When not in use, the Adjustable Keyboard Support stores the keyboard under the worksurface to free vital worksurface space.
- Dimensions above are for the platform only. For full configuration, depth, all components and measurements and application suggestions refer to the Keyboard Measurements tool on Knoll Exchange.

### Ordering Information

- Track length options are 16, 17.75, 21.625, 22.63 and 25 inches. Standard color is black.
- Minimum clearance required is the length of the track plus 1/2. Advanced Easy-lift track cannot be used with other mechanisms.

### Application Notes

- Keyboard support provides users with a more comfortable working environment by allowing them to adjust the height and pitch of the platform holding their computer keyboards. When not in use, the Adjustable Keyboard Support stores the keyboard under the worksurface to free vital worksurface space.

### Construction

- Board is phenolic.
- Wristrest is foam-filled vinyl on MDF board.
- Mousepad is lycra covered polyurethane.
- Mechanism: All arms are steel with a powder-coated finish. Tracks are steel with nylon glides.

### Mechanism Attributes

- **All mechanisms have the following features**: Spring assist adjustment, Knobless height adjustment, Pivots side to side 360°, Black textured metal finish.

#### Short easy-lift arm:
- Soft touch knob adjusts tilt from 10° to (-) 20°
- Variable height adjustment of 11.57 (up 6.40, down 5.17)

#### Easy-lift arm:
- Soft touch knob adjusts tilt from 0° to (-) 15°
- Variable height adjustment of 7.04 (up 2.83, down 4.21)

#### Advanced easy-lift arm:
- Soft touch knob adjusts tilt from 0° to (-) 15°
- Variable height adjustment of 8.80 (up 2.38, down 6.50)

#### Sit/Stand arm:
- Soft touch knob adjusts tilt from 0° to (-) 15°
- Variable height adjustment of 11.57 (up 6.40, down 5.17)

#### Pivot feature:
- Allows the keyboard platform to move independently from arm, allowing it to stay parallel the worksurface as the arm is moved laterally.

### Antenna Mounting Note

- **In order to mount to Antenna Workspace tables, you will need to order a special adapter available through that price list. Pattern code is YAK.**

- **Keyboard tray must be specified with a sliding track that is less than the depth of the top and anything below the top such as a power harness or cable basket.**

- For taller individuals, we recommend using a pivot solution mounted on the diagonal to maximize knee space.

#### Construction

- **Worksurface mounted surf mousepad:** Black painted steel mechanism mounted with hard surface backed surf mouse pad.
- **Juliet mouse pad:** TPE (thermoplastic elastomer) overmolded with 40% recycled polypropylene undermold.
- **Juliet palm rest:** Nylon upholstered palm rest is dual density polyurethane. The gel beneath the fabric, nominally .65", is formulated to provide soothing support.

Freestanding Surf® Ergonomic Accessories
by Ross Lovegrove & Stephen Peart

Product Description

**Wrist Rest**
- Soft, biomorphic form reduces strain on wrist.
- Long, radial shape with single straight edge ensures a tight fit with standard size keyboards.
- Gel pad for greater use comfort.

**Lumbar Support**
- Self-adjusts over any seat back.
- Heat and pressure reactive foam responds to individual user.
- Support returns to original form within 10 seconds after use.
- Neoprene nylon outer skin allows body to breathe comfortably.

**Surf Board VDT Corner**
- Fits any worksurface thickness or edge profile.
- Creates generous 24" wide VDT corner, 14" from worksurface corner.
- Can be adjusted to any angle, or removed when not needed.
- Integral non-handed mouse pad.
- Felt back and rubber bumpers protect worksurface.

**Order Code**

**Ordering Information**

- Finish

**Ergonomic Value**

The Surf Collection's wrist rest, mouse pad, and lumbar support play a critical role in workplace ergonomics. Proper use of these pieces helps users maintain the body neutral position, reducing harmful strain on muscles and joints. The collection's design advantage is in its simplicity. These accessories are extraordinarily versatile and flexible, responding to the individual needs of the specific user, unlike over-engineered mechanical pieces.

**General Notes**

The Surf Lumbar Support rests loosely over the chair like a saddle bag, held in place by a counterbalance weight. The piece is easily adjusted up or down, to the preference of the user. The support's high performance patented foam molds itself to both the user and the chair back. As the user moves throughout the worksite, the foam responds in kind, continuously re-sculpting itself around the user's body. When body pressure is removed, the lumbar support returns to its original form within 10 seconds, ready for the next user.

**Construction**

**Lumbar support**
- High-memory, heat-reactive patented polyurethane foam developed for high performance use in military fighter pilot seats.
- Covered with wear-resistant, closed cell Neoprene and a bright colored, breathable nylon outer skin.
- Die-cast zinc counter-balance weight.
- Manufactured in the United States.

**Surf Board**
- Rigid steel plate with 1" thick rolled front detail. Black rubber bumpers and non-scuffing felt back.
- Surf rest and mouse pad: Nylon upholstered dual-density polyurethane. Gel latex fabric, nominally 65", is formulated to provide soothing support by displacement.

**Design Awards**

**First place, Interior Design Product Award, ASID, 1994. High Design Quality Red Dot Award, Design Zentrum, Germany, 1994.**
Freestanding Ergonomic Accessories

VDT Sleeve

- Race-track shaped sleeve slides over work surface to create VDT corner.
- Creates 17 5/8" wide VDT corner, 9" from work surface corner.
- Can be adjusted to any angle, or removed when not needed.
- Heavy-gauge steel with felt backing to prevent scuffing.
- 1 1/4", 1 3/4", and 2 1/2" worksurface thicknesses.
- 1/4" screw holes on underside for optional attachment to worksurface.
- Available in two metallic and two soft-touch finishes.

Custom Options

Custom colors available upon sample chip approval. Contact your Knoll sales representative or Customer Service for complete pricing information.

Construction

VDT sleeve: Heavy-gauge steel in painted finish. Felt backing protects work surface.

Manufactured in the United States.

Adjustable foot rest: Black rubber platform. Polished chrome frame.

Manufactured in Sweden.
Worksurface Support
Adjustable CPU Holders

Adjustable vertical metal CPU holder
- Adjusts to hold equipment 6" to 10" wide by 14" to 24" high.
- Hangs vertically from worksurface to maximize knee space.
- Slides on track under worksurface for easy CPU access.
- Ventilation holes on sides.
- Mounts on virtually any worksurface.
- Swivel is 360°.
- Track length is 17¾".

Adjustable vertical sling CPU holder
- Adjusts to hold equipment 6" to 10" wide by 14" to 24" high.
- Sling made of woven vinyl coated polyester for flexibility and ventilation.
- Hangs vertically from worksurface to maximize knee space under surface.
- Slides on track under worksurface for easy CPU access.
- Has a weight capacity of 60 pounds.
- Swivel is 360°.
- Track length is 17¾".

• Optional lock and mouse pad.  
• Black painted steel construction with full extension ball-bearing slides. | 17" | 24" | 10 3/4" | 18 lbs. |

Order Code  
Example: BP-SSF  
BP-SSF Standard suspended file

Ordering Information  
1. Pattern number  
2. Lock option  
   Lock attaches to slides in field.  
   Removable for use elsewhere.

Application Notes  
BackPack drawers can be used with virtually any Knoll or other wood worksurface.

BackPack storage drawers attach to the underside of wood worksurfaces at any location. In most cases, the drawers may be mounted flush to side panels. When supporting brackets extend farther than 2 1/2 in. from the side panel, a slight reveal will occur. Mounting hardware and template included.

For wire management needs, the minimum depth worksurface for standard depth drawers is 24 in. For deep drawers, minimum depth is 30 in. When no wire management is necessary, the Standard Suspended File may be used on an 18 in. worksurface and the Deep Suspended File may be used on a 24 in. worksurface.

Knee clearance:  
In order to maximize filing capacity, the Standard and Deep Suspended Files do not provide adequate knee clearance. For center worksurface applications, specify the Keyboard or Center File Drawers.

### Custom Options

- **Equity application note:** For all Equity panel-mounted applications, add "E" to end of base number.
- **Other applications:** Add "D" to end of base number.

### Construction

- Satin anodized aluminum frame (can be powder coated black).
- Porcelain coating on cold rolled steel laminated to corrugated and hardboard with a Mylar backing. All Universal Marker Boards are magnetized.

For panel-mounted applications, all fabric must be railroaded on any panel wider than 60". For specials contact Customer Service.

Customer’s own material:
For approval, submit at least one yard of fabric for application testing. For panel-mounted applications, all OMR and textile that are not pre-approved must be CL-tested. Please consult KnollExtra Fabric Selection for details.

Construction

1/2” thick mineral board for durable, highly tactile surface.

Manufactured in the United States.

</tr>
<tr>
<td>S1</td>
<td>Squared corner/rectilinear edge (add -S1 to end of fabric board pattern number)</td>
</tr>
</tbody>
</table>

#### Ordering Information

**Specify:**
1. Pattern number
2. Corner/edge detail
3. Fabric grade
4. Fabric selection
5. Mounting option pattern number
6. System suffix (panel-mounted option only)

**Standard fabric board has squared corner and rectilinear edge details. See above for edge upcharge.**

**Thickness option:**
- Standard fabric board has 1/2" thick mineral board.
- 1/2" thick mineral board for durable, highly tackable surface.

**Mounting Options**

- Panel-mounted brackets: Panel-mounted brackets are included in the list price but must be specified separately. To specify appropriate panel-mounted bracket, consult the Knoll sales bracket chart on page 12.
- Panel mounted bracket size must match height of fabric board.
- Flash wall-mount option utilizes velcro squares.

**Wall-mounted options:**
- Wall-mounted applications must be specified as flash (F-WM-F) or reveal (F-WM-R). Both options are appropriate for any smooth, clean surface.

**Under overhead specification note:**
For application under a system overhead, provide clearance distance between the worksurface and the bottom of the overhead or task light.

**Side by side fabric board specification note:**
Please note if a panel-mounted fabric board will be used contiguous to another fabric board drawings are required and there will be an up-charge.

**Construction**

- 1/2" thick mineral board for durable, highly tackable surface.

**Custom Options**

- For special sizes: For specials contact Customer Service. Maximum fabric board size is 120"W x 24"H. Fabric must be railroaded on any panel wider than 60".
- For approval, submit at least one yard of fabric for application testing.
- For panel mounted applications, all COMs and textiles that are not pre-approved must be UL tested. Please consult Knoll sales Customer Service for details.

#### Corner/Edge Detail

- S1. Squared corner/rectilinear edge
- S2. Squared corner/radiused edge
- R2. Recessed corner/radiused edge

</tbody>
</table>

**Markers**
- Set of 4 markers: ACT-CB-M-MARKER $25.00

**Markerboard Cleaning Cloth**
- 20 x 30 cm microfiber cloth: ACT-CB-M-CLOTH $15.00

**Paper Pad Mount**
- Set of 2 hooks: ACT-CB-M-FLIPHOOK $80.00

**Order Code**
Example: ACT-CB-M-LW-30-54-X-111
- ACT: Activity Spaces
- CB: Communication Boards
- M: Mobile
- LW: Laminate Whiteboard
- 30-54: 30" x 54" board
- 111: Jet Black finish

**Application Notes**
- Marker storage options
- Markerboard and marker tray are not retrofitable in the field.
- Frame finish applies to cross members and legs, as well as any marker trays and cups. Paint is textured power coat.

**Specification Information**
- Specify:
  1. Pattern number
  2. Marker tray
  3. Frame finish
- Finish options:
  Select one of the following finishes
- Code: Description
  111: Jet Black
  115: Medium Grey
  118: Bright White
  130: Dark Red
  131: Slate Blue
- Note: Each markerboard ships with four dry erase markers (blue, green, red and black) and a microfiber cleaning cloth.

**Construction**
- Whiteboard: Honeycomb core with medium-density fiberboard skin, high pressure laminate finish and ABS edge.
- Crossmember: Aluminum
- Legs: Steel
- Cup: Die cast aluminum with wool felt insert and steel fasteners.
- Overall height from floor is 72" high with writable surface starting 25" from floor.

**Markerboard Cleaning Cloth**
- Microfiber cloth

**Application Notes**
- Marker storage options (trays and cups) must be ordered with markerboard and are not retrofitable in the field.
- Frame finish applies to cross members and legs, as well as any marker trays and cups. Paint is textured power coat.

**Note:**
- Each markerboard ships with four dry erase markers (blue, green, red and black) and a microfiber cleaning cloth.
- Overall height from floor is 72" high with writable surface starting 25" from floor.
- The optional marker tray runs the length of the crossmember. The optional marker cup mounts to the side.
- To prevent dry erase markers from drying out, store them with the cap down in the optional cup.

Selling Policy

Terms & Conditions of Sales

This Selling Policy supercedes all previous selling policies. Prices, discounts and product offerings are subject to change without notice.

Ordering Information

All orders must be in writing. The product pattern number(s) contained on Seller’s order acknowledgement shall be the sole basis of the order. A purchase order is not binding on Seller until Purchaser has received Seller’s order confirmation or acknowledgment.

Pricing Policies

List prices are subject to change without notice.

Terms of Payment

Purchaser shall submit to Seller the appropriate exemption certificates.

Taxes

Payment for one hundred percent (100%) of the net order amount is due within thirty (30) days of the date of invoice, which is generally issued upon shipment. In case of any discrepancies, such as shortages, and Seller is notified in writing within ten (10) days of receipt of Product, only that portion may be deducted and the balance paid. For orders greater than $100,000 net, a fifty percent (50%) deposit is due at the time of order placement, with the remainder due within thirty (30) days of the date of invoice.

KnollStudio orders less than $2,000 require payment for one hundred percent (100%) of the net order amount (including any applicable sales tax and charges for inside delivery, special packaging, etc.), due at time of order placement. For KnollStudio orders greater than $2,000, a one-half (50%) deposit is due at time of order placement with the remainder (including any applicable sales tax and charges for inside delivery, special packaging, etc.) due prior to shipment.

If, in the judgment of Seller, Purchaser’s financial condition does not justify the terms of the payment, Seller may require full or partial payment in advance.

Past due accounts shall be charged one and one-half percent (1.5%) per month, or the highest rate permitted by law, whichever is less, and will be added to the outstanding balance. In the event Purchaser defaults on payment, Purchaser shall be liable for all collection costs, including reasonable attorney’s fees and costs.

Changes and Cancellation

Purchase orders may not be changed or cancelled, in whole or in part, without prior written consent of Seller. Changes may effect delivery dates. Expenses incurred because of changes shall be charged to Purchaser. In the event of cancellations, Purchaser will be liable for reasonable cancellation charges established by Seller. Orders for special Product, orders including “COM” (hereinafter defined) material and orders pursuant to expedited delivery programs, may not be canceled.

Freight Prepaid

Freight is prepaid and included in the price of all Products, except KnollTextiles, within the 48 contiguous United States for orders placed with Knoll, Inc. and within Canada, excluding the Yukon, Northwest Territories, Nunavut and Newfoundland for orders placed with Knoll North America Corp. Packing is tested for rigorous motion and transportation but is not guaranteed to protect furniture from all conditions. If special packaging is required for any reason, please consult with your sales representative or dealer. Seller shall select the method of shipment and routing. Freight for all KnollTextiles orders is prepaid and added to the invoice.

Delivery/Freight Charges

Shipment outside the contiguous 48 United States and Canada shall be shipped F.O.B. Origin.

For shipments outside the contiguous United States and Canada, Purchaser is responsible for the cost of freight from point of embarkation, including any handling and transportation charges incidental to loading at the point of departure and unloading at the point of destination.

Conditions beyond the control of Seller, including weather, available facilities and traffic conditions, may affect exact time of delivery. Seller shall not be responsible for specific carrier delivery date or time unless it has made a specific delivery commitment, in writing.

Nonstandard methods of shipment and/or additional services are available upon request. Purchaser will be billed for the differential cost of any special services in excess of standard surface carrier freight costs. Premium charges, at Purchaser’s request, will be added for airfreight, exclusive use of vehicle and extra, export or special packaging. Accessorial charges will be added for inside delivery, extra labor, reconsignment and redelivery.

Partial shipments may be made and invoiced by Seller.

Claims

All shipments for Knoll Products within the contiguous United States and Canada are F.O.B. Origin. All risk of loss passes to Purchaser at time of delivery to carrier. Purchaser shall inspect all Products upon receipt and notify Seller within ten (10) working days after receipt of any damage or defects which are, or should be, apparent from an inspection of the Product and its packaging. Failure of Purchaser to notify Seller during the ten (10) working day period shall constitute acceptance of the Product and waiver of any apparent defects, errors or shortages. For all claims relating to Product damaged in transit or for any other claims relating to or arising out of the transportation of the Product, Purchaser must seek recovery from the carrier and Seller has no liability to Purchaser for such claims. Seller may, upon request, assist Purchaser with filing of such claims with the carrier, but Seller will not be liable for any of these transportation related claims.

Seller’s Security Interest

Until Seller receives the full payment for the Product, Seller shall have a security interest in the Product. Purchaser agrees to perform all acts, including but not limited to the execution and filing of documentation, which may be necessary to perfect and assure the security interest of Seller.

Returns

The return of Products without a written authorization by Seller shall not be accepted. To receive authorization for Product return, please call Customer Service. All Products that are returned pursuant to a valid authorization shall be subject to a twenty-five percent (25%) of list restocking charge. Products not currently offered for sale by Seller (including COM) shall not be authorized for return. All returned Products must be unused, in original condition, and in the original Seller packing cartons. No refund or credit shall be given for damaged Products.

Held Orders/Storage

If Purchaser requests that an order be held or delayed, prices and terms and conditions in effect at the time of shipment shall apply. If Purchaser requests a delay after the time when Seller can defer production, Purchaser will be invoiced for the Product, payable in accordance with standard terms, when the order is ready for shipment. Seller may transfer the Product to storage, in which case all expenses incurred in connection with storage, including demurrage, preparation for storage, storage charges and handling shall be payable by Purchaser upon submission of invoices by Seller. Risk of loss to the Product shall pass to the Purchaser upon delivery of the Product into storage.
Selling Policy

Customer’s Own Material

A Purchaser who requests a fabric or other surface material not standard to Seller’s line of Products (“COM”) must submit samples of the requested material to Seller prior to entry of a purchaser order. Seller shall determine if the material is suitable to its manufacturing processes and meets any requirements of Underwriters Laboratories. If the COM is acceptable, Seller will then establish a price for using the COM or the Product in question. For a description of the procedures for submitting samples and testing, contact customer resources or your sales representative. Seller shall have no responsibility for the appearance, condition, performance, durability, colorfastness or any other physical attribute of the COM. Purchaser shall indemnify and hold Seller harmless for any damages, injuries or losses arising out of its use or of the COM on the Product.

Warranty

Seller warrants to the original Purchaser only that the Products Seller manufactures and sells to Purchaser are free of defects in workmanship and materials, during the applicable warranty period set forth below. Warranty period set forth below is for 24-hour, 7 days a week, multi shift use (includes parts and labor to repair). Should any failure to conform to this limited warranty appear to a Product listed below during the applicable warranty period from the date of shipment, Seller shall, upon prompt written notice, repair or replace, at its option and costs, the affected part or parts.

Product and Period of Warranty

Lifetime: Antenna Workspaces, AutoStrada, Calibre, Crixion Open Table, Currents, Dividends Horizon, Equity, Morrison, Reff Profiles laminate, Series 2 Storage, Template and other non-wood components (except cascade edge worksurfaces, operational parts, controls, electrical, Lighting, Series 2 Veneer Front Storage, special or custom products, see below)

10 Years: Anchor Storage except digital keypad lock, Antenna Workspaces, AutoStrada, Crixion Open Table, Dividends Horizon, Reff Profiles, Template wood components, Series 2 Veneer Front Storage, cascade edge worksurfaces, Wood Casegoods (The Graham Collection) (except wood casegoods upholstered surfaces, see below), Interaction tables (except height adjustment mechanisms for Counterforce, crank-adjustable, and split-top tables and worksurfaces, see below), Reuter overheads, Reuter vertical storage, KnollExtra Sapper Monitor Arm Collection, Adjustable keyboard mechanisms and platforms, Communication Boards (except fabric board textiles, see below), Smokador collection (except leathers, see below), and Orchestra Universal Systems Accessories, k. lounge structural components.

5 Years: Operational parts, controls, electrical, Lighting (except light ballasts, bulbs and power supply, see below), special or custom product, wood veneer products, Currents handcrank, Interaction Counterforce, Interaction crank-adjustable, and split-top mechanisms, KnollStudio, Spark Series seating structural elements, structural elements of all KnollStudio outdoor products including all Richard Schultz designed products, KnollExtra CPU storage and all universal storage drawers and Power Collection, Tone Tables.

3 Years: Seating upholstery, textiles, leathers and finishes. Fabric boards textiles and Smokador Collection leathers.

2 Years: Anchor Storage digital keypad lock, all other KnollExtra product

1 Year: Light ballasts, bulbs and power supply, seating upholstered armpads and soft armpads, wood casegoods upholstered surfaces. KnollStudio, outdoor product finishes, k. lounge upholstery and k. lounge fabric.

This warranty does not apply to:

• Damage caused by a carrier other than the Seller.
• Normal wear or tear or acts or omissions of parties other than Seller (including user modification, improper use or installation of Products).
• COM or other third party materials applied to Products.
• Products not installed by or under the auspices of a Knoll Dealer.
• Dramatic temperature variations or exposure to unusual conditions.
• Changes in surface finishes, including colorfastness due to aging or exposure to light.
• Except as specifically noted above, textiles and upholstery supplied by KnollTextiles (consult current KnollTextiles price list for applicable warranty).
• Natural variations occurring in wood, marble, and leather shall not be considered defects, and the Seller does not guarantee the colorfastness or matching of the colors, grains or textures, or surface hardness of such materials. The Seller also does not guarantee the colorfastness of fiberglass panel surfaces.

The EXPRESS WARRANTIES CONTAINED HEREIN ARE IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTIES OF MERCHANTABILITY AND FITNESS FOR PARTICULAR PURPOSE AND ALL OTHER WARRANTIES ARISING FROM COURSE OF DEALING OR USAGE OF TRADE.

The remedies provided above are the Purchaser’s sole remedies for any failure of Seller to comply with its obligations regarding the workmanship of its Products. Correction of any nonconformity in the manner and for the period of time provided shall constitute complete fulfillment of all liabilities of Seller, with respect to or arising out of the Product furnished hereunder.

Delay/Force Majeure

Seller shall not be liable for failure to perform or for delay in performance due to fire, flood, strike or other labor difficulty, act of God, act of any governmental authority or of the Purchaser, riot, embargo, fuel or energy shortage, wrecks or delay in transportation, inability to obtain necessary labor, materials or manufacturing facilities from usual sources or failure of suppliers to meet their contractual obligations, or due to any cause beyond its reasonable control. If any such event occurs, Seller may extend delivery dates by a period of time necessary to overcome the effect of such delay, allocate available Product or cancel any purchase order.

Compliance with Law

PURCHASER IS SOLELY RESPONSIBLE FOR COMPLIANCE WITH ALL APPLICABLE FEDERAL, STATE AND LOCAL LAWS, ORDINANCES, REGULATIONS, RULES AND STANDARDS RELATING TO THE INSTALLATION, MAINTENANCE, USE, AND OPERATION OF THE PRODUCTS.

Patents

Subject to the following provisions, Seller shall, at its own expense, defend or, at its option, settle any claim, suit or proceeding brought against the Purchaser, and/or its vendees, mediate and immediate, so far as based on an allegation that any Product or any part thereof furnished hereunder constitutes a direct or a contributory infringement of any claim of any patent of the United States or Canada. This obligation shall be effective only if Purchaser, and/or its vendees, mediate and immediate, so far as based on an allegation that any Product or any part thereof furnished hereunder constitutes a direct or a contributory infringement of any claim of any patent of the United States or Canada. This obligation shall be effective only if Purchaser, and/or its vendees, mediate and immediate, so far as based on an allegation that any Product or any part thereof furnished hereunder constitutes a direct or a contributory infringement of any claim of any patent of the United States or Canada. This obligation shall be effective only if Purchaser, and/or its vendees, mediate and immediate, so far as based on an allegation that any Product or any part thereof furnished hereunder constitutes a direct or a contributory infringement of any claim of any patent of the United States or Canada. This obligation shall be effective only if Purchaser, and/or its vendees, mediate and immediate, so far as based on an allegation that any Product or any part thereof furnished hereunder constitutes a direct or a contributory infringement of any claim of any patent of the United States or Canada.

Limitations of Liability

The foregoing indemnity does not apply to the following:

• Products supplied according to a design other than that of Seller, and which is required by the Purchaser.
• Combination of the Product with another product not furnished hereunder unless Seller is a contributory infringer.
• Any settlements of a suit or proceeding made without Seller’s written consent.

Selling Policy
General Ordering Information

The Products
This guide encompasses all standard products for this product group.

Sizes
Dimensions listed in this guide are indicated as:
H = height
W = width
D = depth
Dia. = diameter
Rad. = radius

Pricing
All prices shown are list.

How to Order
Select pattern numbers and quantities required for your complete installation. Product questions can be addressed in the specific sections of this guide or by contacting your sales representative or customer resource representative at 1-800-343-5665.

Next, select options (if required), along with colors and finishes appropriate to each product. Reference the Finishes and Fabrics pages for color designations.

On large installations, an item’s “designated area” can be specified to assist in product organization and handling.

To expedite complete / correct entry of your order, be certain all pattern numbers, quantities, colors and area identifications are completely specified. Also, include complete purchase order numbers, bill-to and ship-to addresses, a contact name and specific factory shipping dates required.

Mail all orders to:
Knoll, Inc.
1235 Water Street
East Greenville, PA 18041
Attention: Order Entry

Once your order is entered at Knoll, an acknowledgment will be mailed to you. You will be advised of your scheduled shipping date within five days of the original acknowledgment. If it is necessary to revise your order, please contact your customer resource representative.

Sustainability Statement
Sustainable design is a key component of Knoll’s environmental focus. Our commitment to social responsibility and a healthy environment has prompted us to further articulate our longstanding environmental programs and, with encouragement and support from our colleagues in the industry, we have re-energized our focus on such “green” initiatives as life cycle analysis and LEED™ certification. Knoll is proud to have contributed to projects that have received LEED certification from the U.S. Green Building Council.

For the latest information on Knoll products that help our customers achieve LEED certification, log on to knoll.com, click on “About Knoll” and then “Environmental Focus.”
