Each year Knoll sets key initiatives in our journey to sustainability. We are members of a global consortium on energy, have adopted a scientific, metrics-based approach to sustainable product design, and maintain a leadership position in establishing universal, verifiable, sustainability standards for our industry.

Knoll promotes independent third-party certification because it provides the most impartial and trustworthy foundation for industry-wide environmental compliance. Certification by established and respected third parties ensures that all manufacturers are held to the same high standards and that customers can trust a company’s declaration about the environmental benefits of its products. Knoll third-party partners include: the International Standards Organization (ISO); Forest Stewardship Council (FSC®); Rainforest Alliance; GREENGUARD Environmental Institute; and The Business and Institutional Furniture Manufacturer’s Association (BIFMA) level® certification from Scientific Certification Systems (SCS).

In addition, Knoll is aligned with the U.S. Green Building Council and can help companies, healthcare organizations and educational institutions achieve Leadership in Energy and Environmental Design (LEED®) workplace certification.

Global Climate Change

- Knoll is a sponsor of the Clinton Global Initiative, which brings together a community of global leaders to devise and implement solutions to some of the world’s most pressing challenges, including environmental change.
- Knoll has a comprehensive Energy Management Program to increase energy efficiency in products and processes.

Life Cycle Assessment (LCA) Tool

- Life Cycle Assessment is a science-based measurement of a product’s environmental impacts throughout its life cycle, from raw materials sourcing through manufacture, shipping, use and re-use or end-of-life. LCA enables cradle-to-cradle implementation of sustainable practices.
- Knoll has partnered with The Green Standard.org to develop an affordable, universal ISO-compliant computer-based LCA tool that can be used by the entire contract furniture industry and is partnering on the development of an Environmental Product Declaration System (EPDs) for Knoll products. EPDs are verified documents containing LCA results and additional environmental performance information about a product.

Setting Industry Standards

- Knoll partners with MTS (The Institute for Market Transformation to Sustainability) to develop the SMaRT© Consensus Sustainable Products Standards, a set of consensus-based sustainable product standards based on the LEED® model, for all building products, fabric, apparel, flooring and carpet. MTS, the developer of SMaRT®, is an accredited American National Standards Institute (ANSI) standard developer.
- Knoll also partners with BIFMA (Business and Institutional Furniture Manufacturers Association) to promote level® sustainability standards for the contract furniture industry.
- Knoll has established FSC® (Forest Stewardship Council) certified wood as the standard for general office open plan office systems, casegoods and tables.
- Knoll has launched Full Circle, a resource recovery program developed with ANEW, to help customers extend the life cycle of surplus furniture, fixtures and equipment (FF&E) in an economically, socially and environmentally responsible manner.
- Our goal is to encourage all manufacturers in the contract furniture industry and related industries to adopt standards that will lead to sustainable products and practices.

For more information about Knoll and sustainable design, visit knoll.com/environment.
All Knoll Office Seating is GREENGUARD and GREENGUARD Gold certified. All KnollExtra® products are GREENGUARD certified.

Visit GREENGUARD.org for more information and to find printable certificates for Knoll Office Seating that can be used for verification and LEED® submission.

GREENGUARD provides the only guide to certified low-emitting interior products and building materials. Its goal is to help building owners and managers, architects, interior designers and product specifiers build and furnish healthier offices, hospitals, schools and homes by providing a register of tested and certified low-emitting products and materials.

GREENGUARD certification is recognized by the U.S. Green Building Council’s LEED® Program, Air Quality Science, an independent indoor air quality laboratory, tests products submitted for certification using stringent environmental chamber testing protocols and current indoor air quality standard. Certification is administered by the GREENGUARD Environmental Institute (GEI), an industry-independent, non-profit organization.

GREENGUARD Gold certification complies with the State of California’s Department of Health Services Standard Practice (CA Section 01350) for testing chemical emissions from building products used in schools, offices and other sensitive environments. Certified products can contribute to achieving credits in the CHPS Best Practices Manual for K-12 schools, the LEED® Green Building Rating System, Green Guide for Healthcare™, NAHB Green Building Guidelines, Green Globes, Regreen and numerous other local authorities’ green building codes.

Knoll Office Seating and KnollExtra® products can contribute to achieving LEED® credits. GREENGUARD-tested and certified office furniture is required for Credit 4.5 in the LEED-CI Indoor Environmental Quality section.

GREENGUARD Certification Program
- Internationally recognized for evaluating product emissions and certifying building materials, furnishings, finishes and cleaning products and processes that meet stringent indoor air quality criteria defined by GEI.
- Products undergo rigorous, third-party testing to determine their impact on indoor air pollution with requirements for ongoing testing and verification.
- Certification confirms a manufacturer’s environmental responsibility, and signifies their environmental achievements through independent, third-party testing and verification.

GREENGUARD Certified products are recommended by leading sustainable building programs, including:
- U.S Green Building Council’s (USGBC) LEED Rating System,
- National Association of Home Builders (NAHB) Green Building Guidelines,
- Green Guide for Health Care (GGHC),
- Collaborative for High Performance Schools (CHPS) Best Practices Manual,
- New York City Department of Design and Construction Sustainable Design Specifications, among others.
An Overview
In the first part of the Price List you'll find Lighting and Power Series.

The second part features a full range of desktop accessories. Next listed is Orchestra Universal System Accessories, a complete scope of paper management accessories perfect for panel-mounted or freestanding application.

Part three offers a broad range of systems support products, including computer accessories, storage drawers, communications boards, and lighting.

Can't find it? Consult the Table of Contents on page 1 or the Alpha-numeric Index on page 190.

Product Information on Each Page
The KnollExtra Price List was designed to provide you with everything you need to know in order to understand, specify, and care for KnollExtra products. On each page, the following features will assist you:

Description/Construction explains salient features, capabilities, materials, and country of origin.

Dimensions provide the overall space the product will require. Statistics are based on the maximum width, depth and height of the product.

Weight is based on the product itself. It does not include packaging or complementary items such as pens, memo paper or calendars.

Order Code/Ordering Information outlines exactly how to specify KnollExtra product and the full scope of finish options. The Order Code provides an example of how one pattern number is specified.

Custom Options reviews availability of special sizes, finishes etc.

For More Information
For more information, contact your Knoll sales representative, telephone Customer Service at 1-800-343-5665, or visit one of the Knoll showrooms listed on the last page of this book.

A Word About Finishes
KnollExtra finishes are designed to complement a broad range of interiors and office products.

Key KnollExtra finishes coordinate with specific Knoll systems finishes:

Placing Your Order

Use the Following Addresses
If you would like to send a standard lead time order to our order entry department, please use the following address:

For North American orders:
Knoll, Inc.
1235 Water Street
East Greenville, PA 18041
Attn: Order Entry
Fax: 215 679-1788
Tel: 800 343-KNOLL

All accepted orders will be confirmed in writing on the Knoll standard order confirmation form.

Ship-Complete Orders
Orders that must ship complete are to be so stated on the purchase order. Products with different lead times, combined on one order, can be acknowledged for shipment based on the longest of those lead times. Orders not marked “ship complete” will be released according to the confirmation, and invoiced in increments.

For More Information
For complete Knoll Selling Policy and warranty information, please refer to page 193 of this price list.

For additional information on KnollExtra, contact your Knoll representative, a Knoll dealer, or telephone Customer Services at 800 343-KNOLL.

Maintaining Your Purchase

While KnollExtra relies on highly durable materials in each product line, regular basic maintenance will ensure the longevity of your product. Most stains, marks, and discolorations can be removed by following the simple instructions outlined on this page.

**Plastic**
- Windex and a dry cloth.

**SofStone**
- Early removal of a stain makes SofStone care much easier. This is especially true of coated areas which are frequently handled. If oil smudges are allowed to build up, they can soften the suede coating, and become very difficult to remove. Most dirt and smudges can be removed by the following methods:
  1. Greasy stains (crayon, oil, lipstick, etc.): remove grease and wax stains with a naptha-dampened lint-free cloth. Change the cloth frequently to remove as much grease as possible without spreading the stain.
  2. Non-greasy stains (dirt, coffee, mustard, catsup, etc.): dirt and smudge areas can generally be removed by using a sponge or soft bristle brush with Liquid Ajax, Mr. Clean, Lestoil, or 3M brand carpet spot remover and upholstery cleaner. Follow the instructions on the label, and rinse thoroughly with clear water and a lint-free cloth.
  3. Combination stains (chocolate, ice cream, gravy, soup, etc.): combination stains are caused by materials that contain both greasy and non-greasy substances. First use the procedures for non-greasy stains as stated above. Then, rinse thoroughly with clear water and thoroughly dry with a lint-free cloth. If greasy stain persists, follow the procedure for greasy stains as stated above. Repeat as necessary.

**Stainless Steel:**
- Windex and a dry cloth.

**Antique Brass, Brushed Zinc and Black Oxide:**
- A damp cloth with no cleaning agents.

**Satin Brass:**
- Pledge.

**Linoleum:**
- Windex and a dry cloth.

**Contemporary and Traditional Standard Leathers:**
- Mild soap and water on a soft cloth.

**Spinneybeck Leathers:**
- As a result of the high quality aniline dye process, most scratches or minor stains can be removed simply by gently rubbing them with your fingers. The body’s natural oils revitalize the leather. For stubborn stains, use mild soap and water. Take care to wash the surface evenly since soaps may slightly alter the leather’s tonality.

**Surf Collection:**
- Wipe nylon skin using warm water and mild detergent. Do not use abrasives.

**Office Automation**

**Accessories/Storage Drawers:**
- Clean with EV-1 or any liquid cleaner. For tough results, wash board like a window fabric by using a sponge or soft bristle brush with Liquid Ajax, Mr. Clean, Lestoil, or 3M brand carpet spot remover and upholstery cleaner. Follow the instructions on the label, and rinse thoroughly with clear water, then dry. For best results, wash board like a window fabric by using a sponge or soft bristle brush with Liquid Ajax, Mr. Clean, Lestoil, or 3M brand carpet spot remover and upholstery cleaner. Follow the instructions on the label, and rinse thoroughly with clear water, then dry.

**Marker Boards:**
- For day-to-day use, surface requires only a dry cleaning with a standard felt eraser or dry cloth. For best results, keep marker board and marker pens at room temperature. KnollExtra suggests Alliance Rite-On Wipe-Off marker pens which are designed for use on marker boards. All marker pens should be tightly capped and stored horizontally when not in use. If Expo brand markers are used, use the manufacturer's recommended cleaning solution, Expo Dry Erase Cleaner.

**Fabric Boards:**
- Despite the durability of most panel textiles, fabric boards are subject to long-term soiling and wear. A regular maintenance program will significantly lessen soil and dirt build up or staining on your fabric boards. Cleaning is particularly important in areas adjacent to air conditioning or ventilation systems. Remember to consult the care instructions provided by the fabric manufacturer. The general recommendations below should apply to most fabric boards.

1. Avoid excessive heat or moisture which can affect finishes and adhesives. Never allow fabric panels to become wet inside the core. Room temperature should be maintained between 50 and 85 degrees; humidity should be maintained between 20 and 50%.

2. Avoid contact with sharp edges which could puncture the surface.

3. Do not handle fabric boards more than necessary. Avoid bending or flexing the panels; this could break the bond between the surface and core materials.

4. Grease or oil should be wiped off immediately upon contact. Remove excess grease or oil by blotting. Use hot water and mild soap to remove any remaining residue.

5. Whenever possible, clean only with warm water and mild soap. Use caution when applying cleaning agents, particularly those that contain alcohol, strong alkalis, or solvents. These ingredients may react to the vinyl backing or adhesives used in the fabric boards. Always test cleaning agents on fabric from the rear of the panel before using on the front.

6. Care should be taken in using strong room cleaners or pesticides. Their fumes may contain agents which lead to the loosening of the fabric board glue bond.
## LED Light Series: Sparrow®

### Order Code

**Example: LED-1-S-CLMP**

- **LED**
- **1** Sparrow
- **S** Standard
- **CLMP** Open Table Clamp Mount

### Additional Information

Sparrow is available in a black finish with stainless steel rods.

Occupancy sensor (LED PIR) can be added to any LED light and must be ordered separately.

UL Certified.

### Light Source Information

- 9 watts single chip LED
- 50,000 hours lifespan

### Height Range

- Articulates 18° to 90°
  - Table clamp: 2.3" to 21.4"
  - Antenna beam side: 3.5" to 22.3"
  - Freestanding: 4.3" to 23.2"

### Construction

- Lamp: LED, cast aluminum housing, stainless steel frame and plastic reflector and lens.
- Table clamp mount: steel.
- Antenna beam side mount: die-cast aluminum.
- Freestanding base: plastic and cast iron.
- Occupancy sensor: extruded aluminum body, plastic face, end cap and lens.

### Design Awards

- Best of NeoCon 2013 Silver Award
- Sparrow is TAA compliant.

- Slate Blue (131)
- Bone Mat (611)
- Metallic Medium (612)
- Metallic Silver Metallic (613)

**Additional Information**

- Specify VCBF for Antenna beam with hole for T-light application.
- T-light can only be installed on Antenna workspace beam.
- All T-lights ship with black Highwire lights.
- UL Certified.

**Construction**

- T-light structure: die cast aluminum base, extruded aluminum stanchion and steel top channel.
- Highwire: LEDs, extruded aluminum housing, plastic reflector and end caps.

**Design Awards**

- Best of NeoCon 2013 Silver Award.
- T-light is TAA compliant.

3. Certification/Plug type:
   - CE - Europe and Middle East (not UK or Germany)
   - ENEC - Germany
   - PSE - Japan
   - SAA - Australia
   - UK - UK and Singapore

**Additional Information**

- Sparrow is available in a black finish with stainless steel rods.
- Occupancy sensor (LED PIR) can be added to any LED light and must be ordered separately.
- Open table clamp for use on open edge work surface and with minimum of 1 1/6" from back edge of work surface to wall, screen or panel.
- Panel table clamp for use with minimum of 3 1/6" from back edge of work surface to wall, screen or panel.

- Standard lead times do not apply for International orders, your account manager can request lead times.

**Best of NeoCon 2013 Award**
**Copeland™ Light**

by Stephan Copeland

**Standard Arm**
- Shown with base
- Standard Arm
- 13 watt ENERGY STAR rated compact fluorescent bulb.
- Mounting option must be ordered separately.
- 20.75" x 21.75" (at 90° angle)
- Reaches height of 29.75" when extended up and depth of 35.75" when extended out.

**Compact Arm**
- Shown with base
- Compact Arm
- 13 watt ENERGY STAR rated compact fluorescent bulb.
- Mounting option must be ordered separately.
- 16.25" x 17.75" (at 90° angle)
- Reaches height of 23.5" when extended up and depth of 28.75" when extended out.

**Replacement Bulb**
- ENERGY STAR 13 watt replacement compact fluorescent bulb (fits compact and standard lights)

**Mounting Options**

- **Standard Base**
  - To be used with standard arm only.

- **Compact Base**
  - To be used with compact arm only.

- **Table Clamp**
  - To be used with either size arm.
  - Works on desks of up to 1 3/4" thick.

- **Panel Mount, Morrison**
  - Panel mount bracket for Morrison.
  - To be used with either size arm.

**Order Code**

Example: COPE-01-SV, COPE-01-BASE-SV

</tr>
<tr>
<td>131</td>
<td>Slate Blue</td>
</tr>
</tbody>
</table>

**General Notes**

Each electrical module has either 4 outlets or 3 outlets and 2 USB ports, depending on specification.

- Power Cube is 13" high with 4 levelers. Hard wired comes with 72" whip. Cord set comes with 72" cord with a 3-prong plug for 120V outlets. Base includes one slot per corner for choice of cord exit.

**Construction**

- Power Cube: Powder coated steel, steel and nylon levelers
- Magnetic Accessory Cup: See page 38

**Note:** Each Power Cube comes with a whiteboard finish and ships with 4 dry erase markers (blue, green, red and black) and a microfiber cloth eraser.

To prevent dry erase markers from drying out, store them with the cap down in the optional cup.

</tbody>
</table>

**Product Description**

Large accessory cup for application to any magnetic surface. Fits dry erase markers, power cords, etc. Interior diameter is 3.7"; interior height is 4.4".

**Construction**

Die cast aluminum with textured powder coat paint, wool felt insert, neodymium magnets and steel fasteners.

Pacemakers and items sensitive to magnetic fields should be kept 3.5" from product.

Note: A non-magnetic version of this accessory cup is available on Interpole (replace MG in pattern code with IP, see Antenna Workspaces price list for pricing) and Scribe Mobile Markerboards (see page 194 for specifications and pricing).

To prevent dry erase markers from drying out, store them with the cap down. To protect magnetic surface, avoid dragging the cup when repositioning.

Kits without masts do not require and do not include adjustment knob and cable management clips.

Mounting and Application Information

See page 132 for comprehensive mounting, application and construction information.
**Sapper™ Monitor Arm Collection**

Sometimes it is necessary to mount two monitors to the same worksurface. Sapper® double monitor arms let you mount two monitors side by side on a single arm. The Double Arm Kit includes everything needed to mount two monitors to a worksurface:

- Two Sapper® double monitor arms
- Sapper® double arm bracket
- 16 or 24 mast
- Two Sapper® movement joints
- Adjustment knob
- Cable management clips
- Mounting option

### Kit Options

- **Two-Piece Table Clamp Mount**
  - Sapper® double monitor arm with table clamp 16" mast kit
  - Sapper® double monitor arm with table clamp 24" mast kit

- **Deep Table Clamp Mount**
  - Sapper® double monitor arm deep table clamp 16" mast kit
  - Sapper® double monitor arm deep table clamp 24" mast kit

- **Grommet Mount**
  - Sapper® double monitor arm grommet mount 16" mast kit
  - Sapper® double monitor arm grommet mount 24" mast kit

- **Fixed Table Mount**
  - Sapper® double monitor arm fixed table mount 16" mast kit
  - Sapper® double monitor arm fixed table mount 24" mast kit

Sapper™ Monitor Arm Collection
Mounting, Construction and Application Information

For use on architectural walls only as outlined further on this page. Knoll cannot be held responsible for the structural integrity of a wall so please work with clients to ensure their wall is structurally sound to hold the arm configuration and the monitor weight. If mounting on a wall please work with clients to ensure their wall is structurally sound to hold the arm configuration and the monitor weight.

Sapper 50 Direct Wall Mounting (for Sapper 50 monitor arm):
For single monitor mounting, you can use either the direct wall mast mount or direct wall mount. Please note that the Sapper 50 Direct Wall Mount is specific to the Sapper 50 arm. You cannot use the standard mount with the Sapper 50 arm or a standard arm with the Sapper 50 mount.

For use on architectural walls only as outlined further on this page. Knoll cannot be held responsible for the structural integrity of a wall so please work with clients to ensure their wall is structurally sound to hold the arm configuration and the monitor weight.

Interpole Mounting
Sapper arms can be mounted either on the slot or channel sides of Interpole with the proper mount. Mounts can be moved after installation but the pole may have residual markings if screens are mounted on the slot side, use the channel mount. If overheads are mounted on the slot side, then a SapperYZ with extended channel mount will be necessary for full adjustability.

Cable Management:
Monitor Arms
External cable management allows for easy installation and removal of monitors. There are gates under the arm that will contain wires from the monitor to plastic cable management clips that go on the mast to keep wires tidy to the electrical socket.

Height Adjustment
For the beam solutions, there are beam cord management clips on the back of the beam (6 on the small, 8 on the medium, 10 on the large) that can hold wires from the monitor to the mast cable management. The beam mast cable management is wider than the standard mast cable management.

Rotation, Swivel, Tilt and Depth Adjustment

Fast Release:
Monitor Arms
Allows for swift installation and removal of flat panel monitors by merely pulling the quick release pin up to remove monitor with movement joint/back plate attached.

Fast Release:

Set Screw to Prevent Arm Removal

Compatibility:
The Sapper Monitor Arm Collection is not compatible with the Wishbone Flat Panel Monitor Support System (i.e., Wishbone, Zones or Rotation arms, posts, tool bars, brackets, mounting, etc.). They have been designed independently and as such parts from one system cannot be used with the other.

Monitors cannot be mounted on KnollExtra®/Orchestra® load bars.

Installation Instructions:
Comprehensive installation instructions will be shipped with product and are also available on Knoll Exchange for easy reference.

Beams
Allows for swift installation and removal of flat panel monitors by merely pulling the quick release pin up to remove monitor with movement joint/back plate attached.

For installations with Fast Release Wall Gears, simply pull the cord down while lifting the top of the monitor up.

Thief Deterrence:
All movement joints come with a set screw within the fast release pin, to prevent fast release if desired. Also there is a set screw at the top of the mast to deter removal of the entire arm and monitor from the mast.

Deactivate Fast Release with Set Screw:

Construction:
Arm: die-cast aluminum with a cold rolled steel top plate
Mast: anodized aluminum extrusion
Beam: satin anodized extruded aluminum
Adjustment knobs: nylon undermolded with a TPU overmold
Movement joint (includes fast release monitor plate): plastic bushings, zinc and plastic molded plastic tilt friction components and glass filled nylon VESA plate
Movement joint side: aluminum, powder coated silver
VESA plate adapters: steel
Table clamp, grommet mount, fixed table mount, COT Center channel mount, DH Bench mounting, Antenna center beam center mount: steel
Slat wall and wall mounts (both mast mount and direct, both standard and compact sizes): die-cast aluminum with steel back plates
Double arm bracket: die-cast aluminum, steel top plate, extruded aluminum posts, plastic upper and lower bushings
Triple arm bracket: die-cast aluminum, steel top plate, extruded aluminum posts, plastic upper and lower bushings
Mast-to-beam bracket: aluminum, powder coated silver
Mast-to-beam bracket: aluminum, powder coated silver
Cable management: transparent polycarbonate clips on the mast and beam; plastic gates under standard arms
Antenna and Quadruple support arm bracket: die-cast aluminum
Two-Piece Table Clamp, Deep Table Clamp, Heavy-Duty Table, Clamp, Grommet, Fixed Table, Credenza Open Table Center Channel, Dividers Horizon Benching and Antenna Center Beam Table Mounting: steel
Antenna Table Center Beam Side Mounting: die-cast Aluminum
Slat Wall and Wall Mounts both Direct Mast Mounting, Direct Mounting and Support 50 Direct Mounting (both standard and compact arms): Die-Cast Aluminum with steel back plates
Quadruple arm bracket: Die-cast Aluminum

1. Pattern number
2. Finish

Standard Monitor Arm Finish Options:
- Jet Black (111)
- Medium Grey (115)
- Bright White (118)

Silver Monitor Arm Finish Option:
- Silver (613)

Arm Finish Option Note:
- All monitor arm finishes are monochromatic with the exception of Bright White, which has a light grey shroud.

Mounting and Application Information

See page 156 for comprehensive mounting, application and construction information.
Sapper XYZ® Monitor Arm Series
Sapper XYZ Crossbar Replacement Parts
by Richard Sapper

Kit includes everything needed to mount two monitors to a worksurface: Sapper XYZ Crossbar monitor arm, two movement joints, cable management clip and 2 fastener strips and mounting option (see right for options).

Order Code
Example: XYZ-MA-C-111
XYZ: Sapper XYZ
MA: Monitor arm
C: Crossbar monitor arm
111: Jet Black finish

Ordering Information
Specify:
1. Pattern number
2. Finish

Standard Monitor Arm Finish Option:
Jet Black (111)
Medium Grey (115)
Bright White (116)
Silver Monitor Arm Finish Option:
Silver (60)

Ordering Note
Due to extensive adjustability of Sapper XYZ monitor arms, a mock-up is recommended to ensure it is suited for the specific workstation, particularly if placed in front of a wall or panel.

Mounting and Application Information
See page 156 for comprehensive mounting, application and construction information.

KnollExtra
Technology Management
Sapper XYZ® Monitor Arm Series
Mounting, Construction and Application Information

All Sapper XYZ monitor arms:
- Ship standard with fast release movement joint.
- 1085–360 degrees of pivoting at the base and at the elbow joint.
- Offer 155 degrees of monitor tilt up and down, 110 degrees of overall vertical movement.
- Use separate installation instructions and may require spacers. Knoll VESA plate adapts ship with a monitor to attach the adapter to the Knoll VESA plate but does not ship direct to attach the adapter to the monitor or television (see screw sizes listed above. English size equivalents may be needed instead). Screw length is dependent on the specific monitor or television and screw should be tested prior to installation to ensure correct length. Knoll is not responsible for use of incorrect screws.

Sapper XYZ Crossbar monitor arm:
- Maximum weight of 26.6 lbs per arm.
- Fold into themselves to be highly compact at less than 2 inches when fully compressed.
- Are durable and lightweight (weights only 4 pounds)

Sapper XYZ Crossbar monitor arm:
- Maximum weight of 16.1 lbs per movement joint.
- Ship standard with fast release movement joint.
- Fold into themselves to be 7.38" when fully compressed.
**Please note this limit accommodation up to 95% of monitors on the market.

Size Limits:
Monitor Arms
There is no specific maximum size for a Sapper XYZ single monitor arm (outside the limitations of the space in which you are trying to put it).

For Dual Sapper XYZ, the maximum outer horizontal width per monitor is 37.34" or 949.5 mm when fully extended.

All Sapper XYZ monitor arms are compatible with the international Video Electronics Standard Association (VESA) industry interface standard (75 mm x 75 mm and 100 mm x 100 mm hole patterns of 2x2.5", 3x3.8", and 3x4") adopted by most panel manufacturers. VESA specifications are a requirement to mount any arm to a monitor arm. If your customer has a mounted monitor back with only 75 mm x 75 mm holes, additional spaces may be needed to ensure proper fit. Contact Customer Service for more details including part and pricing information.

A VESA plate adapter may be necessary for larger monitors and televisions and can be ordered separately in the sizes of 100 mm x 200 mm (M4 screws), 200 mm x 200 mm (M6 screws), 300 mm x 300 mm (M8 screws), and 400 mm x 400 mm (M8 screws). Adapters are available from separate installation instructions and may require spacers. Knoll VESA plate adapts ship with a monitor to attach the adapter to the Knoll VESA plate but does not ship direct to attach the adapter to the monitor or television (see screw sizes listed above. English size equivalents may be needed instead). Screw length is dependent on the specific monitor or television and screw should be tested prior to installation to ensure correct length. Knoll is not responsible for use of incorrect screws.

Knoll and its dealers do not take the responsibility for mounting the monitor to the arm. The end user’s IT department must verify VESA mounting compliance and mount the monitor to the arm using manufacturer’s own screws. The most common screws are M5 x 8 mm and M5 x 10 mm.

Please follow installation instructions closely (available in each kit box shipped as well as on Knoll Exchange).

Apple Computer Note: VESA Adapters options on Apple site may need to be purchased with integrated VESA Mount Adapters. With these adapters, the displays will mount to the 100 mm x 100 mm hole pattern. M4x25 can be mounted on Sapper and Sapper XYZ. All other Apple displays must be 50 mm x 50 mm to use specifications.

Clamp Mounting:
Two-Piece Table Clamp Mounting:
The standard two-piece table clamp is easy to install or retrofit and works on most worksurfaces or desks that are a minimum of 1 ½” thick solid core. The maximum worksurface thickness is 9 ½”.

For maximum surface thickness of 2 ½”. There are four settings to accommodate a range of work surfaces.

It is important to mark up the table clamp, particularly on competitive products to ensure a proper fit. The clamp is not compatible with Morton Network.

Deep Table-Clamp Mounting:
This clamp is one piece and works on most worksurfaces. A table clamp mount is intended to clear most knifedge (45-degree edge) or worksurfaces.

Grommet Mounting:
With all systems furniture, it is important to pace monitor and peripheral plugs through grommet mount cover while it is still loose. Please note the grommet mount is compatible with Morton, Antimottak, Bell, Pringle, but is not compatible with the Graham Collection or Dividers Horizon grommet holes. To use on Morton Network, spaces must be requested through Customer Service. The required cutout in the worksurface is 3” x 2 ½”, which includes room for the threestud (actual hole in the grommet plate is 3 ¼” x 2 ½”).

Fixed Table Mounting:
Installers will need to drill a permanent hole into the worksurface the post will be fixed to a dedicated location on the worksurface. Please note with this mounting, the monitor will not be able to move without leaving a permanent mark in the worksurface. The holes must be of adequate structure, Knoll cannot hold responsible for the structural integrity of non-Knoll worksurfaces.

Antenna Table Center Beam Side Mounting:
This mount allows you to cleat the flat-floor door while allowing for maximum worksurface usage and individual height adjustment without the need to stagger users. The displays can be mounted in the center beam with a monitor arm in front of it. The fit will be snug and flush with the screen.

Interpole Mounting
Sapper XYZ arms can be mounted on either the slot or channel sides of Interpole workstations or the project monitor post. If screens are mounted on the slot side of Interpole use a Direct Channel Mount. If workstations are mounted on the slot side of Interpole use an Extended Channel Mount (not available for Sapper XYZ Crossbar).

Cable Management:
External cable management allows for easy installation and removal of monitors and keeps wires tidy to the electrical outlet. On Sapper XYZ, singl arm there is a cable management block in the channel under the arm that will contain wires from the monitor to plastic cable management clips that go in the post. On Sapper XYZ Crossbar, there are two hook and loop fastener strips on the crossbar to neatly shape cables down to the plastic cable management clip attached to the post.

Arm Adjustment:
The Sapper XYZ monitor arm collection offers intuitive one touch adjustment. To adjust the height, you simply pull or push the monitor in or out. You can also rotate the monitor 360 degrees for landscape or portrait viewing, adjust the swivel back and forth 110 degrees and tilt up and down 135 degrees. The single arm is fully extended.

The Sapper XYZ monitor arms, a mock-up is recommended to ensure it is suited for the specific workstations, particularly if placed in front of a wall or panel.

Weight Adjustment:
The Sapper XYZ and Sapper Crossbar monitor arm is preset for a 10 lb monitor on a single arm and 11 lbs on a Sapper Crossbar arm. Other monitor weights up to 20 lbs can be accommodated by adjusting the weight adjustment nut to the proper setting. If screens are mounted on the slot side of Interpole use a Direct Channel Mount. If workstations are mounted on the slot side of Interpole, use an Extended Channel Mount (not available for Sapper XYZ Crossbar).

Temperature Note: Sapper XYZ Crossbar's post and base weight tolerance performance may be reduced by 1-2 lbs when used in temperatures above or below typical office temperatures.

Fast Release:
Allows for swift installation and removal of flat panel monitors by merely popping the quick release pin up to remove monitor with movement joint back plate attached. Be sure to lift the arm to the highest position before removing monitor, or the arm will quickly move up.

Thrift Keydate:
All movement joints come with a set screw within the fast release pin to prevent fast release if so desired.

Compatibility:
The Sapper XYZ monitor arms are not compatible with the Sapper Monitor Arm Collection. It has been designed independently and as such parts from one system cannot be used with the other, with the exception of the movement joint. Finish colors are consistent across the Sapper XYZ and Sapper Monitor Arm Collection product lines.

Monitor Arms cannot be mounted on KnollExtra or other non-Knoll brand workstands.

Installation Instructions:
Comprehensive installation instructions will be shipped with product and are also available from Knoll Extra for easy reference.

Construction:
Arm: The cast aluminum with steel channels and plastic molded channel.

Movement joint (includes fast release monitor plate): plastic bushings, zinc and plastic molded plastic tilt friction components and plastic filled nylon VESA plate.

VESA plate: aluminum/steel.

Table clamp, grommet mount, fixed table mount.

Cable Management:
Sapper XYZ single arm: transparent polycarbonate clip on post, head and loop fastener strips on crossbar.

Antenna Table Center Beam Side Mounting:
Knoll Extra.

### Romeo and Juliet Platform/Mechanism Configurations

#### Romeo and Juliet Platform and Mouse Pad

- **Romeo**
  - 20" w, 20" max. x 11" x 1 1/4" H with palm rest for keyboard platform
  - Rigid plastic platform with steel stiffener plate for stable keying surface
  - Flexible soft textured plastic overcoat
  - Thin profile for extra knee room

- **Juliet**
  - A tear drop shaped mouse pad that traverses under the keyboard platform for easy storage.
  - Soft plastic overcoat and lip keep mouse from sliding off during adjustments.

See **Mechanism Attributes** below.

- Knobless height adjustment
- Spring assist adjustment
- Black textured metal finish
- All arms are steel with a powdercoat finish. Tracks are steel with nylon glides

**Mechanism Attributes**
- All mechanisms have the following features:
  - Spring assist adjustment
  - Knobless height adjustment
  - Pivots side to side 160°
  - Black textured metal finish
  - Soft touch knob adjusts tilt from 0° to (-) 15°°

**Easy lift arm**
- Soft touch knob adjusts tilt from 0° to (+) 15°
- Variable height adjustment of 7.64" (up 2.13", down 5.51")

**Easy lift arm with pivot**
- Soft touch knob adjusts tilt from 0° to (+) 15°
- Variable height adjustment of 11.57" (up 6.80", down 5.17")

**Sit/Stand arm**
- Soft touch knob adjusts tilt from 0° to (+) 20°
- Variable height adjustment of 11.57" (up 3.38", down 8.19")

**Sit/Stand arm with pivot**
- Soft touch knob adjusts tilt from 0° to (+) 20°
- Variable height adjustment of 11.57" (up 3.38", down 8.19")

**Easy Lift arm**
- Soft touch knob adjusts tilt from 0° to (+) 15°
- Variable height adjustment of 4.26" (up 1.06", down 3.20")

**Advanced Easy lift arm**
- Soft touch knob adjusts tilt from 0° to (+) 15°
- Variable height adjustment of 4.26" (up 1.06", down 3.20")

**Antenna and Tone Mounting Note**
In order to mount to Antenna Workspace and Tone tables, you will need to order a special adapter available through that price list. Pattern code is YAK.

Keyboard tray must be specified with a sliding track that is less than the depth of the top and anything below the top such as a power harness or cable basket.

For taller individuals, we recommend using a pivot solution mounted on the diagonal to maximize knee space.

**Construction**

- **Caesar:**
  - Black textured powdercoated steel plate

- **Mechanisms:**
  - All arms are steel with a powdercoat finish. Tracks are steel with nylon glides.

Microsoft is a registered trademark of the Microsoft Corporation.

**Application Notes**

Keyboard support provides users with a more comfortable working environment by allowing them to adjust the height and pitch of the platform holding their computer keyboard. When not in use, the Adjustable Keyboard Support stores the keyboard under the worksurface to free vital worksurface space.

**Mechanism Attributes**

- **Easy lift arm:**
  - Spring assist adjustment
  - Knobless height adjustment
  - Soft touch knob adjusts tilt from 0° to (-) 15°
  - Variable height adjustment of 7.04 (up 2.83, down 4.21)
  - pivots side to side 360°
  - Black textured finish with black soft touch knob
  - Mounts on virtually any worksurface

- **Sit/Stand arm:**
  - Spring assist adjustment
  - Knobless height adjustment
  - Soft touch knob adjusts tilt from 0° to (-) 15°
  - Variable height adjustment of 11.57 (up 6.40, down 5.17)
  - pivots side to side 360°
  - Black textured finish
  - Mounts on virtually any worksurface

**Mechanism Attributes**

- **Easy lift arm:**
  - Soft touch knob adjusts tilt from 0° to (+) 20°.
  - Variable height adjustment of 4.20” (up 1.66”, down 3.20”).

- **Sit/Stand arm:**
  - Soft touch knob adjusts tilt from 0° to (+) 20°.
  - Variable height adjustment of 11.57” (up 6.40”, down 5.17”).

**Application Notes**

- Keyboard support provides a more comfortable working environment by allowing users to adjust the height and pitch of the platform holding their computer keyboard.
- When not in use, the Adjustable Keyboard Support stores the keyboard under the worksurface as the arm is moved laterally.
- Pivot feature:
  - Allows the keyboard platform to move independently from arm, allowing it to stay parallel to the work surface as the arm is moved laterally.

**Construction**

Board is either MDF or phenolic. Wristpad is foam-filled vinyl on MDF board. Knobless height adjustment.

**Technical Management**

In order to mount to Antenna Workspaces and Tone tables, you will need to order a special adapter available through that price list. Pattern code is YAK.

  - **OAK**
  - **Act II**
  - **P**
  - **EL2**
  - **BK**
- **Track length options:** 16, 17.75, 21.825, 22.65 and 23 inches.
- **Black textured metal finish**
- **Minimum clearance required is the length of the track plus 1/2”**

**Construction**

- Board is phenolic.
- Wristrest is foam-filled vinyl on MDF board.
- Mousepad is lycra covered polyurethane.
- Mechanism: All arms are steel with nylon glides.

**Application Notes**

- Keyboard support provides users with a more comfortable working environment by allowing them to adjust the height and pitch of the platform holding their computer keyboard. When not in use, the Adjustable Keyboard Support stores under the worksurface to free vital worksurface space.

**Mechanism Description**

- **Easy Lift arm:**
  - Soft touch knob adjusts tilt from 0° to (+) 15°
  - Variable height adjustment of 4.20” (up to 1-6/8”, down to 3-20/32”)
- **No/Stand arm:**
  - Soft touch knob adjusts tilt from 0° to (+) 15°
  - Variable height adjustment of 11.2” (up to 6-3/8”, down to 5-17/32”)
- **Post feature:**
  - Allows the keyboard platform to move independently from arm, allowing it to stay parallel to the worksurface as the arm is moved laterally.

**Technology Management**

- In order to mount to Antenna Workspase and Tone tables, you will need to select a special adapter available through that price list. Pattern code is YAK.
- Keyboard tray must be specified with a sliding track that is less than the depth of the top and anything below the top rail or a power harness or cable basket.
- For taller individuals, we recommend using a pivoting solution mounted on the diagonal to minimize knee space.

- **OAK**: Office automation keyboard
- **A2**: Act II
- **P**: Phenolic (standard)
- **EL2**: Easy-lift mechanism
- **BK**: Black
- **18**: Track length of 18 inches

**Ordering Information**

- Track length options are 16, 17.75, 21.625, 22.63 and 25 inches.
- Standard color is black.
- Minimum clearance required is the length of the track plus 1/2".
- Advanced Easy Lift track cannot be used with other mechanisms.

**Application Notes**

- Keyboard support provides users with a more comfortable working environment by allowing them to adjust the height and pitch of the platform holding their computer keyboard. When not in use, the Adjustable Keyboard Support stores the keyboard under the worksurface to free vital worksurface space.
- Dimensions above are for the platform only. For full configuration depths, all component measurements and application suggestions refer to the Keyboard Measurements tool on Knoll Exchange.

**Construction**

- Board is phenolic.
- Wristrest is foam-filled vinyl on MDF board.
- Mousepad is lycra covered polyurethane.
- Mechanism: All arms are steel with a powder-coated finish. Tracks are steel with nylon glides.

**Mechanism Attributes**

- All mechanisms have the following features:
  - Spring assist adjustment
  - Knobless height adjustment
  - Pivot side to side 360°
  - Black textured metal finish
- Short easy lift arm:
  - Soft touch knob adjusts tilt from 0° to (+) 15°
  - Variable height adjustment of 7.04" (up 2.83", down 4.21")
- Advanced Easy Lift arm:
  - Soft touch knob adjusts tilt from 10° to (+) 20°
  - Variable height adjustment of 8.80" (up 2.38", down 6.50")

**Sit/Stand arm**

- Soft touch knob adjusts tilt from 0° to (+) 15°
- Variable height adjustment of 11.57" (up 6.40", down 5.17")

**Pivot feature**

- Allows the keyboard platform to move independently from arm, allowing it to stay parallel the worksurface as the arm is moved laterally.

**Antenna and Tone Mounting Note**

- In order to mount to Antenna Workspace and Tone tables, you will need to order a special adapter available through that price list. Pattern code is YAK.
- Keyboard tray must be specified with a sliding track that is less than the depth of the top and anything below the top such as a power harness or cable basket.
- For taller individuals, we recommend using a pivot solution mounted on the diagonal to maximize knee space.

**Order Code**

**Example:** 4B2-MP

- 4B2-MP Juliet mouse pad

**Ordering Information**

- Specify Pattern number
- Not all mousing solutions are appropriate with all platforms.

**Construction**

- Work surface moused surf mouse pad: Black painted steel mechanism mounted with hard surface backed surf mouse pad.
- Juliet mouse pad: TPE (thermoplastic elastomer) overmold with 40% as-reinforced polypropylene undermold.
- Juliet palm rest: Nylon upholstered palm rest is dual density polyurethane. The gel beneath the fabric, nominally .65", is formulated to provide soothing support.
Freestanding Ergonomic Accessories

VDT Sleeve
- Racetrack-shaped sleeve slides over worksurface to create VDT corner.
- Creates 17 5/8" wide VDT corner, 9" from worksurface corner.
- Can be adjusted to any angle, or removed when not needed.
- Heavy-gauge steel with felt backing to prevent scuffing.
- 1 1/4", 1 3/4", and 2 1/2" worksurface thicknesses.
- 1/4" screw holes on underside for optional attachment to worksurface.
- Available in two metallic and two soft-touch finishes.

</tr>
</tbody>
</table>

Surf Board VDT Corner
- Fits any worksurface thickness or edge profile.
- Creates generous 24" wide VDT corner, 14" from worksurface corner.
- Can be adjusted to any angle, or removed when not needed.
- Integral non-handed mouse pad.
- Felt back and rubber bumpers protect worksurface.
- Designed by Ross Lovegrove and Stephen Peart.

Order Code
- Example: OA-SLV-A-E
  - OA-SLV: VDT sleeve
  - A: 1 1/4" sleeve
  - E: Soft grey finish

Ordering Information
- Specify:
  1. Pattern number
  2. Thickness (VDT sleeve only)
  3. Finish

Custom Options
- Customer colors available upon sample chip approval. Contact your Knoll sales representative for complete pricing information.

Construction
- VDT sleeve:
  - Heavy-gauge steel in painted finish.
  - Felt backing protects worksurface.
  - Manufactured in the United States.

Surf Board:
- Rigid steel plate with 1" thick rolled front detail. Black rubber bumpers and non-scuffing felt back.

Design Awards
- Surf Board:
Worksurface Support

Adjustable CPU Holders

Adjustable vertical metal CPU holder

- Adjusts to hold equipment 6” to 10” wide by 14” to 24” high
- Hangs vertically from worksurface to maximize knee space
- Slides on track under worksurface for easy CPU access
- Ventilation holes on sides
- Has a weight capacity of 60 pounds
- Mounts on virtually any worksurface
- Swivel is 360°
- Track length is 17¾”

Adjustable sling CPU holder

- Adjusts to hold equipment 2.5” - 6.4” wide by 8” to 59”
- Sling made of nylon for flexibility and ventilation
- Hangs vertically from worksurface to maximize knee space under surface
- Slides on track under worksurface for easy CPU access
- Has a weight capacity of 75 pounds
- Swivel is 360°
- Track length is 17¾”

Order Code
Example: OA-CPU2-SLNG

Ordering Information
Specify:
1. Pattern number

Installation Notes
CPU holders come standard with a 17¾” long track. They mount on worksurfaces 18½” or deeper.

Construction
Metal CPU Holder:
Sling CPU Holder:
Black painted glass filled nylon mounting mechanism. Woven nylon sling.

Custom Options
Longer and shorter track lengths are available. Contact Customer Service for pricing information.

Antenna Mounting Note
In order to mount to Antenna Workspace tables, you will need to order a special adapter available through that price list. Pattern code is YACPU.
Any KnollExtra CPU Holder can be mounted under a top deeper than the mounting track.

BackPack® Universal Storage Drawers
by Robert Reuter
suspended files

Standard Suspended File
- Full width, 4 3/4" d x 1 3/4" H pencil trough.
- Two removable plastic organizing trays.
- Generous 16" x 12 3/4" filing space.
- Accepts 16" side-to-side hanging letter files.
- Accepts 12" front-to-back hanging legal or European A-4 and foolscap files.
- Drawer contains 167% capacity of standard file drawer.
- Optional lock.
- Black painted steel construction with full extension ball-bearing slides.

<table>
<thead>
<tr>

</table>

Ordering Information
- Specify:
  1. Pattern number
  2. Lock option
- Lock option:
  - Lock attaches to slides in field. Removable for use elsewhere.

Application Notes
For wire management needs, the minimum depth worksurface for standard depth drawers is 24". Minimum depth for deep drawers is 30". When no wire management is necessary, the Standard Suspended File may be used on an 18" worksurface and the Deep Suspended File may be used on a 24" worksurface.

Knee clearance:
In order to maximize filing capacity, the Standard and Suspended Files do not provide adequate knee clearance. For center worksurface applications, specify the Keyboard or Center File Drawers.

Custom Options

For special sizes:
- For special contact Customer Service.
- Maximum fabric board size is 120.8" x 219.5". Fabrics must be radiumated on any panel wider than 60".

Customer’s own material:
- For approval, submit at least one yard of fabric for application testing.
- For panel-mounted applications, all OPE and textiles that are not pre-approved must be CL-tested.
- Please consult Knoll sales Customer Service for details.

Construction

1/8" thick mineral board for durable, highly tactile surface.

Manufactured in the United States.

- Standard fabric board has ½" thick mineral board.

### Panel-Mounted Brackets

- Panel-mounted brackets are included in the list price but must be specified separately. To specify appropriate panel-mounted bracket, consult the Knoll sales bracket chart on page 12.

### Wall-Mounted Applications

- Wall-mounted applications must be specified as flush (F-WM-F) or reveal (F-WM-R). Both options are appropriate for any smooth, clean surface.

### Under Overhead Specification Note

- For application under a system overhead, provide clearance between the worksurface and the bottom of the overhead or task light.

### Custom Options

- For special sizes: For special sizes contact Customer Service. Maximum fabric board size is 120"W x 24"H. Fabric must be railroaded on any panel wider than 60".

- Customer’s own material: For approval, submit at least one yard of fabric for application testing. For panel-mounted applications, all COMs and textiles that are not pre-approved must be UL-tested. Please consult Knoll sales Customer Service for details.

### Corner/Edge Detail

- S1. Squared corner/rectilinear edge
- R2. Panel-mounted bracket
- S2. Panel-mounted bracket

**Order Code**

*Example: ACT-CB-M-LW-30-54-X-111*

- **ACT**: Activity Spaces
- **CB**: Communication Boards
- **M**: Mobile
- **LW**: Laminate Whiteboard
- **30-54**: 30" x 54" board
- **111**: Jet Black finish

**Application Notes**

- Marker storage options
- Marker storage options (trays and cups) must be ordered with markerboard and are not retrofittable in the field. Replace -X in pattern with:
  - S $77 One tray
  - D $154 Two trays
  - C $56 One cup
  - E $112 Two cups
  - A $133 One cup and one tray
  - B $210 One cup and two trays
  - F $189 Two cups and one tray
  - G $266 Two cups and two trays

**Construction**

- Whiteboard: Honeycomb core with medium-density fiberboard skin, high pressure laminate finish and ABS edge.
- Crossmember: Aluminum
- Legs: Steel
- Cup: Die cast aluminum with wool felt insert and steel fasteners.

**Note:** Each markerboard ships with four dry erase markers (blue, green, red and black) and a microfiber cleaning cloth.

Overall height from floor is 72” high with writable surface starting 25” from floor.

The optional marker tray runs the length of the crossmember. The optional marker cup mounts to the side.

To prevent dry erase markers from drying out, store them with the cap down in the optional cup.

Selling Policy

Terms & Conditions of Sales

This Selling Policy supersedes all previous selling policies. Prices, discounts and product offerings are subject to change without notice.

All orders must be in writing. The product pattern number(s) contained on Seller’s order acknowledgement shall be the final expression of the order. A purchase order is not binding on Seller until Purchaser has received Seller’s order confirmation or acknowledgment.

Ordering Information

All orders are subject to change without notice.

Pricing Policies

List prices are subject to change without notice.

Taxes

All sales, use, excise and other taxes applicable to the sale of the Products shall be paid by Purchaser. If Purchaser claims an exemption from any tax, Purchaser shall submit to Seller the appropriate exemption certificates.

Terms of Payment

Payment for one hundred percent (100%) of the net order amount is due within thirty (30) days of the date of invoice, which is generally issued upon shipment. In case of any discrepancies, such as shortages, and Seller is notified in writing within ten (10) days of receipt of Product, only that portion may be deducted and the balance paid. For orders greater than $100,000 net, a fifty percent (50%) deposit is due at the time of order placement, with the remainder due within thirty (30) days of the date of invoice.

Freight

Freight is prepaid and included in the price of all Products, except KnollTextiles, within the 48 contiguous United States for orders placed with Knoll, Inc. and within Canada, excluding the Yukon, Northwest Territories, Nunavut and Newfoundland for orders placed with Knoll North America Corp. Packing is tested for rigorous motion and transportation but is not guaranteed to protect furniture from all conditions. If special packaging is required for any reason, please consult with your sales representative or dealer. Seller shall select the method of shipment and routing. Freight for all KnollTextiles orders is prepaid and added to the invoice.

Changes and Cancellation

Purchase orders may not be changed or cancelled, in whole or in part, without prior written consent of Seller. Changes may effect delivery dates. Expenses incurred because of changes shall be charged to Purchaser. In the event of cancellations, Purchaser will be liable for reasonable cancellation charges established by Seller. Orders for special Product, orders including “COM” (hereinafter defined) material and orders pursuant to expedited delivery programs, may not be canceled.

Delivery/Freight Charges

Shipment outside the contiguous 48 United States and Canada shall be shipped F.O.B. Origin.

For shipments outside the contiguous United States and Canada, Purchaser is responsible for the cost of freight from point of embarkation, including any handling and transportation to the point of destination. Such costs shall be the responsibility of Purchaser. In the event of shortages, Purchaser will be responsible for all transportation charges incidental to loading at the point of destination.

Claims

All shipments for Knoll Products within the contiguous United States and Canada shall be shipped F.O.B. Origin. All risk of loss passes to Purchaser at time of delivery in the original Seller packing cartons. No refund or credit shall be given for damaged Products, unless damage is caused by Seller. All claims relating to Product damaged in transit or by damage to Seller’s packing cartons shall constitute acceptance of the Products and waiver of any apparent defects, errors or shortages. For all claims relating to Product damaged in transit or by damage to Seller’s packing cartons, Seller shall be responsible for specific carrier delivery date or time unless it has made a specific delivery commitment, in writing.

Returns

The return of Products without a written authorization by Seller shall not be accepted. To receive authorization for Product return, please call Customer Service. All Products that are returned pursuant to a valid authorization shall be subject to a twenty-five percent (25%) restocking charge. Products not currently offered for sale by Seller (including COM) shall not be authorized for return. All returned Products must be unused in original condition and in the original Seller packing cartons.

Held Orders/Storage

If Purchaser requests that an order be held or delayed, prices and terms and conditions in effect at the time of shipment shall apply. If Purchaser requests a delay after the time when Seller can defer production, Purchaser will be invoiced for the Product, payable in accordance with standard terms, when the order is ready for shipment. Purchaser may transfer the Product to storage, in which case all expenses incurred in connection with storage, including demurrage, preparation for storage, storage charges and handling shall be payable by Purchaser upon submission of invoices by Seller. Risk of loss to the Product shall pass to the Purchaser upon delivery of the Product into storage.

February 15, 2015
Customer's Own Material

A Purchaser who requests a fabric or other surface material not standard to Seller’s line of Products (“COM”) must submit samples of the requested material to Seller prior to entry of a purchaser order. Seller shall determine if the material is suitable to its manufacturing processes and meets any requirements of Underwriters Laboratories. If the COM is acceptable, Seller will then establish a price for using the COM or the Product in question. For a description of the procedures for submitting samples and testing, contact customer resources or your sales representative. Seller shall have no responsibility for the appearance, condition, performance, durability, colorfastness or any other physical attribute of the COM. Purchaser shall indemnify and hold Seller harmless for any damages, injuries or losses arising out of or related to use of the COM on the Product.

Warranty

Seller warrants to the original Purchaser only that the Products Seller manufactures and sells to Purchaser are free of defects in workmanship and materials, during the applicable warranty period set forth below. Warranty period set forth below is for 24-hour, 7 days a week, multi shift use (includes parts and labor to repair).

Should any failure to conform with this limited warranty appear to a Product listed below during the applicable warranty period from the date of shipment, Seller shall, upon prompt written notice, repair or replace, at its option and costs, the affected part or parts.

Product and Period of Warranty

Lifetime: Antenna Workspaces, AutoStrada, Calibre, Crinion Open Table, Currents, Dividends Horizon, Morrison, Relf Profiles laminate, Series 2 Storage, Template and other non-wood components (except cascade edge worksurfaces, operational parts, controls, electrical, Lighting, Series 2 Veneer Front Storage, special or custom products, see below)

12 Y ears: Chadwick, Essentials Work Chairs, Generation by Knoll, Life, Moment, MultiGeneration by Knoll, ReGeneration by Knoll, Remix, RPM, Sapper and T ogoggan seating (except seating upholstery, textiles, leathers and finishes, see below).

10 Y ears: Anchor Storage except digital keypad lock, Antenna Workspaces, AutoStrada, Crinion Open Table, Dividends Horizon, Dividends Horizon Satellite Surfaces, Relf Profiles, Template wood components, Series 2 Veneer Front Storage, cascade edge worksurfaces, Wood Casegoods (The Graham Collection) (except wood casegoods upholstered surfaces, see below), Reuter overheads, Reuter vertical storage, KnollExtra Sapper Monitor Arm Collection, Sapper XYZ Monitor Arm, Adjustable keyboard mechanisms and platforms, Communication Boards (except fabric board textiles, see below), Smokador collection (except leathers, see below), and Orchestra Universal Systems Accessories, k. lounge structural components.

5 Y ears: Operational parts, controls, electrical, Lighting (except light ballasts, bulbs and power supply, see below), special or custom product, wood veneer products, Currents handcrank, Interaction Counterfeiter, KnollStudio, Spark Series seating structural elements, structural elements of all KnollStudio outdoor products including all Richard Schultz designed products, KnollExtra CPU storage and all universal storage drawers and Power Collection, Tone Tables.

3 Y ears: Seating upholstery, textiles, leathers and finishes, Fabric boards textiles and Smokador Collection leathers,

2 Y ears: Anchor Storage digital keypad lock, all other KnollExtra product

1 Y ear: Light ballasts, bulbs and power supply, seating upholstered arm pads and soft arm pads, wood casegoods upholstered surfaces. KnollStudio, outdoor product finishes, k. lounge upholstery and k. lounge fabric.

This warranty does not apply to:

• Damage caused by a carrier other than the Seller.

• Normal wear and tear or acts or omissions of parties other than Seller (including user modification, improper use or installation of Products).

• COM or other third party materials applied to Products.

• Products not installed by or under the auspices of a Knoll Dealer.

• Dramatic temperature variations or exposure to unusual conditions.

• Changes in surface finishes, including colorfastness due to aging or exposure to light.

• Clear paint finish applied to Antenna Workspaces steel or aluminum parts.

• Except as specifically noted above, textiles and upholstery supplied by KnollTextiles (consult current KnollTextiles price list for applicable warranty).

Natural variations occurring in wood, marble, and leather shall not be considered defects, and the Seller does not guarantee the colorfastness or matching of the colors, grains or textures, or surface hardness of such materials. The Seller also does not guarantee the colorfastness of fiberglass panel surfaces.

THE EXPRESS WARRANTIES CONTAINED HEREIN ARE IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTIES OF MERCHANTABILITY AND FITNESS FOR PARTICULAR PURPOSE AND ALL OTHER WARRANTIES ARISING FROM COURSE OF DEALING OR USAGE OF TRADE.

The remedies provided above are the Purchaser’s sole remedies for any failure of Seller to comply with its obligations regarding the workmanship of its Products. Correction of any nonconformity in the manner and for the period of time provided shall constitute complete fulfillment of all liabilities of Seller, with respect to or arising out of the Product furnished hereunder.

Delay/Force Majeure

Seller shall not be liable for failure to perform or for delay in performance due to fire, flood, strike or other labor difficulty, act of God, act of any governmental authority or of the Purchaser, riot, embargo, fuel or energy shortage, wrecks or delay in transportation, inability to obtain necessary labor, materials or manufacturing facilities from usual sources or failure of suppliers to meet their contractual obligations, or due to any cause beyond its reasonable control. If any such event occurs, Seller may extend delivery dates by a period of time necessary to overcome the effect of such delay, allocate available Product or cancel any purchase order.

Compliance with Law

PURCHASER IS SOLELY RESPONSIBLE FOR COMPLIANCE WITH ALL APPLICABLE FEDERAL, STATE AND LOCAL LAWS, ORDINANCES, REGULATIONS, RULES AND STANDARDS RELATING TO THE INSTALLATION, MAINTENANCE, USE AND OPERATION OF THE PRODUCTS.

Subject to the following provisions, Seller shall, at its own expense, defend or, at its option, settle any claim, suit or proceeding brought against the Purchaser, and/or its vendees, mediate and immediate, so far as based on an allegation that any Product or any part thereof furnished hereunder constitutes a direct or a contributory infringement of any claim of any patent of the United States or Canada. This obligation shall be effective only if Purchaser shall have made all payments then due hereunder and if Seller is notified promptly in writing and given authority, information and assistance for the defense of said claim, suit or proceeding, Seller shall pay all damages and costs awarded in such suit or proceedings so defended.

The foregoing indemnity does not apply to the following:

• Products supplied according to a design other than that of Seller, which is required by the Purchaser.

• Combination of the Product with another product not furnished hereunder unless Seller is a contributory infringer.

• Any settlements of a suit or proceeding made without Seller’s written consent.

Limitations of Liability

SELLER, ITS CONTRACTORS, AUTHORIZED DEALERS AND SUBCONTRACTORS OR SUPPLIERS OF ANY TIER SHALL NOT BE LIABLE TO PURCHASER FOR ANY SPECIAL, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING FROM A BREACH OF THIS AGREEMENT.

Purchaser’s remedies set forth herein are exclusive and the liability of Seller with respect to the breach of this agreement or any contract entered into between the parties pursuant hereto shall not exceed the price of the Product or part on which such liability is based.
General Ordering Information

The Products
This guide encompasses all standard products for this product group.

Sizes
Dimensions listed in this guide are indicated as:
H = height
W = width
D = depth
Dia. = diameter
Rad. = radius

Pricing
All prices shown are list.

How to Order
Select pattern numbers and quantities required for your complete installation. Product questions can be addressed in the specific sections of this guide or by contacting your sales representative or customer resource representative at 1-800-343-5665.

Next, select options (if required), along with colors and finishes appropriate to each product. Reference the Finishes and Fabrics pages for color designations.

On large installations, an item’s “designated area” can be specified to assist in product organization and handling.

To expedite complete / correct entry of your order, be certain all pattern numbers, quantities, colors and area identifications are completely specified. Also, include complete purchase order numbers, bill-to and ship-to addresses, a contact name and specific factory shipping dates required.

Mail all orders to:
Knoll, Inc.
1235 W ater Street
East Greenville, PA 18041
Attention: Order Entry

Once your order is entered at Knoll, an acknowledgment will be mailed to you. You will be advised of your scheduled shipping date within five days of the original acknowledgment. If it is necessary to revise your order, please contact your customer resource representative.

Sustainability Statement

Sustainable design is a key component of Knoll’s environmental focus. Our commitment to social responsibility and a healthy environment has prompted us to further articulate our longstanding environmental programs and, with encouragement and support from our colleagues in the industry, we have re-energized our focus on such “green” initiatives as life cycle analysis and LEED™ certification. Knoll is proud to have contributed to projects that have received LEED certification from the U.S. Green Building Council.

For the latest information on Knoll products that help our customers achieve LEED certification, log on to knoll.com, click on “About Knoll” and then “Environmental Focus.”
