Knoll and Sustainable Design

Each year Knoll sets key initiatives in our journey to sustainability. We are members of a global consortium on energy, have adopted a scientific, metrics-based approach to sustainable product design, and maintain a leadership position in establishing universal, verifiable, sustainability standards for our industry.

Knoll promotes independent third-party certification because it provides the most impartial and trustworthy foundation for industry-wide environmental compliance. Certification by established and respected third parties ensures that all manufacturers are held to the same high standards and that customers can trust a company’s declaration about the environmental benefits of its products. Knoll third-party partners include: the International Standards Organization (ISO); Forest Stewardship Council (FSC®); Rainforest Alliance; GREENGUARD® Environmental Institute; and The Business and Institutional Furniture Manufacturer’s Association (BIFMA) level® certification from Scientific Certification Systems (SCS).

In addition, Knoll is aligned with the U.S. Green Building Council and can help companies, healthcare organizations and educational institutions achieve Leadership in Energy and Environmental Design (LEED®) workplace certification.

Global Climate Change

• Knoll is a sponsor of the Clinton Global Initiative, which brings together a community of global leaders to devise and implement solutions to some of the world’s most pressing challenges, including environmental change.
• Knoll has a comprehensive Energy Management Program to increase energy efficiency in products and processes.

Life Cycle Assessment (LCA) Tool

• Life Cycle Assessment is a science-based measurement of a product’s environmental impacts throughout its life cycle, from raw materials sourcing through manufacture, shipping, use and re-use or end-of-life. LCA enables cradle-to-cradle implementation of sustainable practices.
• Knoll has partnered with The Green Standard.org to develop an affordable, universal ISO-compliant computer-based LCA tool that can be used by the entire contract furniture industry and is partnering on the development of an Environmental Product Declaration System (EPDs) for Knoll products. EPDs are verified documents containing LCA results and additional environmental performance information about a product.

Setting Industry Standards

• Knoll partners with MTS (The Institute for Market Transformation to Sustainability) to develop the SMaRT© Consensus Sustainable Products Standards, a set of consensus-based sustainable product standards based on the LEED® model, for all building products, fabric, apparel, flooring and carpet. MTS, the developer of SMaRT©, is an accredited American National Standards Institute (ANSI) standard developer.
• Knoll also partners with BIFMA (Business and Institutional Furniture Manufacturers Association) to promote level® sustainability standards for the contract furniture industry.
• Knoll has established FSC® (Forest Stewardship Council) certified wood as the standard for general office open plan office systems, casegoods and tables.
• Knoll has launched Full Circle, a resource recovery program developed with ANEW, to help customers extend the life cycle of surplus furniture, fixtures and equipment (FF&E) in an economically, socially and environmentally responsible manner.
• Our goal is to encourage all manufacturers in the contract furniture industry and related industries to adopt standards that will lead to sustainable products and practices.

For more information about Knoll and sustainable design, visit knoll.com/environment.
All Knoll Office Seating is GREENGUARD and GREENGUARD Gold certified.

All KnollExtra® products are GREENGUARD certified.

Visit GREENGUARD.org for more information and to find printable certificates for Knoll Office Seating that can be used for verification and LEED® submission.

GREENGUARD provides the only guide to certified low-emitting interior products and building materials. Its goal is to help building owners and managers, architects, interior designers and product specifiers build and furnish healthier offices, hospitals, schools and homes by providing a register of tested and certified low-emitting products and materials.

GREENGUARD certification is recognized by the U.S. Green Building Council’s LEED® Program, Air Quality Science, an independent indoor air quality laboratory, tests products submitted for certification using stringent environmental chamber testing protocols and current indoor air quality standard. Certification is administered by the GREENGUARD Environmental Institute (GEI), an industry-independent, non-profit organization.

GREENGUARD Gold certification complies with the State of California’s Department of Health Services Standard Practice (CA Section 01350) for testing chemical emissions from building products used in schools, offices and other sensitive environments. Certified products can contribute to achieving credits in the CHPS Best Practices Manual for K-12 schools, the LEED® Green Building Rating System, Green Guide for Healthcare™, NAHB Green Building Guidelines, Green Globes, Regreen and numerous other local authorities’ green building codes.

Knoll Office Seating and KnollExtra® products can contribute to achieving LEED® credits. GREENGUARD-tested and certified office furniture is required for Credit 4.5 in the LEED-Cl Indoor Environmental Quality section.

GREENGUARD Certification Program

• Internationally recognized for evaluating product emissions and certifying building materials, furnishings, finishes and cleaning products and processes that meet stringent indoor air quality criteria defined by GEI.
• Products undergo rigorous, third-party testing to determine their impact on indoor air pollution with requirements for ongoing testing and verification.
• Certification confirms a manufacturer’s environmental responsibility, and signifies their environmental achievements through independent, third-party testing and verification.
• GREENGUARD Certified products are recommended by leading sustainable building programs, including:
  – U.S Green Building Council’s (USGBC) LEED Rating System,
  – National Association of Home Builders (NAHB) Green Building Guidelines,
  – Green Guide for Health Care (GGHC),
  – Collaborative for High Performance Schools (CHPS) Best Practices Manual,
  – New York City Department of Design and Construction Sustainable Design Specifications, among others.
An Overview

In the first part of the Price List you’ll find Lighting and Power Series.

The second part features a full range of desktop accessories. Next listed is Orchestra Universal System Accessories, a complete scope of paper management accessories perfect for panel-mounted or freestanding application.

Part three offers a broad range of systems support products, including computer accessories, storage drawers, communications boards, and lighting.

Can’t find it? Consult the Table of Contents on page 1 or the Alpha-numeric Index on page 190.

Product Information on Each Page

The KnollExtra Price List was designed to provide you with everything you need to know in order to understand, specify, and care for KnollExtra products. On each page, the following features will assist you:

- **Description/Construction** explains salient features, capabilities, materials, and country of origin.
- **Dimensions** provide the overall space the product will require. Statistics are based on the maximum width, depth and height of the product.
- **Weight** is based on the product itself. It does not include packaging or complementary items such as pens, memo paper or calendars.
- **Order Code/Ordering Information** outlines exactly how to specify KnollExtra product and the full scope of finish options. The Order Code provides an example of how one pattern number is specified.
- **Custom Options** reviews availability of special sizes, finishes etc.

For More Information

For more information, contact your Knoll sales representative, telephone Customer Service at 1-800-343-5665, or visit one of the Knoll showrooms listed on the last page of this book.

A Word About Finishes

KnollExtra finishes are designed to complement a broad range of interiors and office products.

Key KnollExtra finishes coordinate with specific Knoll systems finishes:

Placing Your Order

Use the Following Addresses

If you would like to send a standard lead time order to our order entry department, please use the following address:

For North American orders:
Knoll, Inc.
1235 Water Street
East Greenville, PA 18041
Attn: Order Entry

Fax: 215 679-1788
Tel: 800 343-KNOLL

All accepted orders will be confirmed in writing on the Knoll standard order confirmation form.

Ship-Complete Orders

Orders that must ship complete are to be so stated on the purchase order. Products with different lead times, combined on one order, can be acknowledged for shipment based on the longest of those lead times. Orders not marked “ship complete” will be released according to the confirmation, and invoiced in increments.

For More Information

For complete Knoll Selling Policy and warranty information, please refer to page 193 of this price list.

For additional information on KnollExtra, contact your Knoll representative, a Knoll dealer, or telephone Customer Services at 800 343-KNOLL.

*EY for orchestra brackets. If your system is not listed, please consult your Knoll sales representative or Customer Service at 1-800-343-5665.
While KnollExtra relies on highly durable materials in each product line, regular basic maintenance will ensure the longevity of your product. Most stains, marks, and discolorations can be removed by following the simple instructions outlined on this page.

**Plastic**

Windex and a dry cloth.

**SofStone**

Early removal of a stain makes SofStone care much easier. This is especially true of coated areas which are frequently handled. If oil smudges are allowed to build up, they can soften the suede coating, and become very difficult to remove. Most dirt and smudges can be removed by the following methods:

1. Greasy stains (crayon, oil, lipstick, etc.): remove grease and wax stains with a naphtha-dampened lint-free cloth. Change the cloth frequently to remove as much grease as possible without spreading the stain.

2. Non-greasy stains (dirt, coffee, mustard, catsup, etc.): dirt and smudge areas can generally be removed by using a sponge or soft bristle brush with Liquid Ajax, Mr. Clean, Lestoil, or 3M brand carpet spot remover and upholstery cleaner. Follow the instructions on the label, and rinse thoroughly with clear water and a lint-free cloth.

3. Combination stains (chocolate, ice cream, gravy, soup, etc.): combination stains are caused by materials that contain both greasy and non-greasy substances. First use the procedures for non-greasy stains as stated above. Then, rinse thoroughly with clear water and thoroughly with a lint-free cloth. If greasy stain persists, follow the procedure for greasy stains as stated above. Repeat as necessary.

**Stainless Steel:**

Windex and a dry cloth.

**Antique Brass, Brushed Zinc and Black Oxide:**

A damp cloth with no cleaning agents.

**Satin Brass:**

Pledge.

**Linoleum:**

Windex and a dry cloth.

**Contemporary and Traditional Standard Leathers:**

Mild soap and water on a soft cloth.

**Spinneybeck Leathers:**

As a result of the high quality aniline dye process, most scratches or minor stains can be removed simply by gently rubbing them with your fingers. The body’s natural oils revitalize the leather. For stubborn stains, use mild soap and water. Take care to wash the surface evenly since soaps may slightly alter the leather’s tonality.

**Surf Collection:**

Wipe nylon skin using warm water and mild detergent. Do not use abrasives.

**Office Automation Accessories/Storage Drawers:**

Clean with a soft cloth and Windex, Fantastik, Endust or other non-abrasive household cleaners. Clean, Lestoil, or 3M brand carpet spot remover and upholstery cleaner. Follow the instructions on the label, and rinse thoroughly with clear water and a lint-free cloth.

**Marker Boards:**

For day-to-day use, surface requires only a dry cleaning with a standard felt eraser or dry cloth. For best results, keep marker board and marker pens at room temperature. KnollExtra suggests Alliance Rite-On Wipe-Off marker pens which are designed for use on marker boards. All marker pens should be tightly capped and stored horizontally when not in use. If Expo brand markers are used, use the manufacturer’s recommended cleaning solution, Expo Dry Erase Cleaner.

Follow the instructions below as a periodic maintenance program, or to remove stubborn stains:

1. Clean with EV-1 or any liquid ammonia-added cleaner and rinse with clean water, then dry. For best results, wash board like a window with sponge and squeegee.

2. Interim cleaning may be done by sprinkling a dry powdered cleanser on an eraser and applying to the board in a circular motion. Rinse with clean water, then dry.

3.-To remove crayon, scotch tape, or other stubborn materials, apply a mild solvent or paste made with scouring powder and water.

**Fabric Boards:**

Despite the durability of most panel textiles, fabric boards are subject to long-term soiling and wear. A regular maintenance program will significantly lessen soil and dirt build up or staining on your fabric boards. Cleaning is particularly important in areas adjacent to air conditioning or ventilation systems.

Remember to consult the care instructions provided by the fabric manufacturer. The general recommendations below should apply to most fabric boards.

1. Avoid excessive heat or moisture which can affect finishes and adhesives. Never allow fabric panels to become wet inside the core. Room temperature should be maintained between 50 and 55 degrees; humidity should be maintained between 20 and 50%.

2. Avoid contact with sharp edges which could puncture the surface.

3. Do not handle fabric boards more than necessary. Avoid bending or flexing the panels; this could break the bond between the surface and core materials.

4. Grease or oil should be wiped off immediately upon contact. Remove excess grease or oil by blotting. Use hot water and mild soap to remove any remaining residue.

5. Whenever possible, clean only with warm water and mild soap. Use caution when applying cleaning agents, particularly those that contain alcohol, strong alkalis, or solvents. These ingredients may react to the vinyl backing or adhesives used in the fabric boards. Always test cleaning agents on fabric from the rear of the panel before using on the front.

6. Care should be taken in using strong room cleaners or pesticides. Their fumes may contain agents which lead to the loosening of the fabric board glue bond.

### Order Code

**Example:** LED-1-S-CLMP

*Ordering Information*

- Specify:
  1. Pattern number
  2. Mount

### Additional Information

- Sparrow is available in a black finish with stainless steel rods.
- Occupancy sensor (LED PIR) can be added to any LED light and must be ordered separately.
- UL Certified.

#### Light Source Information

- 9 watts single multichip LED.
- 50,000 hours lifespan.

#### Height Range

- Articulates 18° to 90°
  - Table clamp: 2.3" to 21.4"
  - Antenna beam side: 3.5" to 22.3"
  - Freestanding: 4.3" to 23.2"

#### Construction

- Lamp: LED, cast aluminum housing, stainless steel frame and plastic reflector and lens.
- Table clamp mount: steel.
- Antenna beam side mount: die-cast aluminum.
- Freestanding base: plastic and cast iron.
- Occupancy sensor: extruded aluminum body, plastic face, end cap and lens.

#### Design Awards

- Best of NeoCon 2013 Silver Award:
- Sparrow is TAA compliant.

#### Order Code

**Example:** LED-3-13-BLK-130

- **LED:** LED
- **3:** T-light
- **13:** Height
- **BLK:** Light Finish
- **130:** Frame Finish

**Finish Options:**
- Jet Black (111)
- Beige (112)
- Dark Grey (113)
- Folkstone (114)
- Medium Grey (115)
- Sandstone (116)
- Salt Grey (117)
- Bright White (118)
- Dark Red (130)
- Slate Blue (131)
- Beige Matte (611)
- Metallic (612)
- Metallic Satin
- Silver Metallic (613)

#### Additional Information

- Specify YCBT for Antenna beam with hole for T-light application.
- T-light can only be installed on Antenna workspace beam.
- All T-lights ship with black Highwire lights.
- UL Certified.

#### Light Source Information

Each 19" Highwire draws 9 watts with 35 LEDs.

#### Construction

T-light structure: die cast aluminum base, extruded aluminum stanchion and steel top channel.

#### Design Awards

- Best of NeoCon 2013 Silver Award.
- T-light is TAA compliant.

The Power Series Power Cube by Antenna Design features a variety of item descriptions, patterns, and list prices. Here is a summary of the options:

### Power Cube, hard wired
- **24" square table with electrical outlets on one side**
  - Item: ACT-PW-PC-24-24-13-1E
  - List Price: $1,938
- **24" square table with electrical outlets on two sides**
  - Item: ACT-PW-PC-24-24-13-2E
  - List Price: $2,142
- **36" square table with electrical outlets on one side**
  - Item: ACT-PW-PC-36-36-13-1E
  - List Price: $2,244
- **36" square table with electrical outlets on two sides**
  - Item: ACT-PW-PC-36-36-13-2E
  - List Price: $2,448

### Power Cube, cord set
- **24" square table with electrical outlets on one side**
  - Item: ACT-PW-PC-24-24-13-1C
  - List Price: $1,938
- **24" square table with electrical outlets on two sides**
  - Item: ACT-PW-PC-24-24-13-2C
  - List Price: $2,244
- **36" square table with electrical outlets on one side**
  - Item: ACT-PW-PC-36-36-13-1C
  - List Price: $2,244
- **36" square table with electrical outlets on two sides**
  - Item: ACT-PW-PC-36-36-13-2C
  - List Price: $2,550

### Power Cube, no power
- **24" square table without power**
  - Item: ACT-PW-PC-24-24-13-X
  - List Price: $1,734
- **36" square table without power**
  - Item: ACT-PW-PC-36-36-13-X
  - List Price: $2,040

### Accessories
- **Markerboard Cleaning Cloth**
  - Size: 40 x 30 cm microfiber cloth
- **Markers**
  - Set of 4 markers
- **Magnetic Accessory Cup**
  - Optional cup to hold dry erase markers and microfiber cloth eraser and/or personal device power cords; magnetic application can be applied to any side of the Power Cube

#### Ordering Information
- **Specify:**
  - Pattern number
  - Finish note: Power Cube finish is white markerboard paint.
- **Optional Magnetic Accessory Cup**
  - Must be specified in one of the following finishes:
    - Code: Description
      - 111: Jet Black
      - 115: Medium Grey
      - 118: Bright White
      - 130: Dark Red
      - 131: Slate Blue

#### Construction
- **Power Cube:**
  - Powder coated steel, steel and nylon levelers
- **Magnetic Accessory Cup:**
  - See page 38

**Order Code**
- **Example:** ACT-PW-PC-36-36-13-1E
- **ACT**
  - Activity Spaces
- **PW**
  - Power Collection
- **PC**
  - Power Cube
- **X**
  - 36" x 36" x 13"
- **E**
  - Electrical outlets on one side

**Note:** Each Power Cube comes with a whiteboard finish and ships with 4 dry erase markers (blue, green, red, and black), and a microfiber cloth eraser. To prevent dry erase markers from drying out, store them with the cap down in the optional cup.

**Mounting Options:**  
- Panel, stanchion and wall-mounted brackets:  
- Wall, stanchion, or panel-mounted brackets are included in the list price and are specified when ordering pattern number. To specify appropriate panel-mounted bracket, consult the KnollExtra Bracket Chart on page 12 for appropriate suffix. For Equity panel-mounted applications, include an “EY” at end of base pattern number.  
- Worksurface-mounted bracket is for use with load bars and 66” slat boards only. (14¾” slat board is too large for this application.)

**Notes:**  
- Slat board is available in custom lengths of up to 96”. Please note that for all lengths greater than 66”, load bar will be painted, not anodized.  
- No board is available in custom lengths of up to 96”. Please note that for all lengths greater than 66”, load bar will be painted, not anodized.  
- System brackets are currently available for virtually every major office system. Panel-mounted brackets for other systems can be developed. Minimum of 100 sets per bracket. Tooling and set-up charges may be required.  
- Customers only: Tooling and set-up charges may be required. Please see page 132 for flat panel monitor support mount options.

  1. Pattern number
  2. Finish (where required)

- Kits do not require any additional mounting specifications.

**Standard Monitor Arm Finish Options:**

- Jet Black (111)
- Medium Grey (115)
- Bright White (116)

**Silver Monitor Arm Finish Option:**

- Silver (SILV)

**Knob Finish Option:**

- Red (R)
- Black (B)

**Ordering Note**

Please note a triple monitor support includes two standard arms plus one triple monitor support bracket with a movement joint. The monitor in the middle can rotate, tilt and swivel but has no depth adjustment. See page 132 for further details.

**Mounting and Application Information**

USA made triple monitor arm kits are available in a silver finish for a $110 upcharge to standard finish by specifying a SILV finish. Kits with a SILV finish (which come with foreign components) are BAA (Buy American Act) and TAA compliant (Trade Agreements Act).
**Sapper™ Monitor Arm Collection**

**Easy Order Triple Monitor Support Kits**

*By Richard Sapper*

Kit includes everything needed to mount three monitors to a worksurface, slat wall or wall: two standard arms, 16/H11033 mast (unless otherwise specified), movement joints (includes fast release monitor plate), adjustment knob, cable management clips, triple monitor support bracket and mounting option (see right for options).

Mounting and Application Information
See page 132 for comprehensive mounting, application and construction information.
Monitor Arms

For example, if you want to mount two monitors on a worksurface with a grommet mount and each (3 monitors x 18 lbs each equals 54 lbs total) with a 24\"/H11033 mast on a grommet mount, the height limitation apply to six users across the table.

This mount is intended to provide maximum desk usage by mounting in front of it. The fit will be snug and flush with the worksurface.

Slat Wall Mast Mounting:

For single monitor mounting, you can use either the direct wall mast mount or direct wall slat wall mount. For double or triple monitor mounting, you must use the slat wall mast mount. The slat wall direct mast cannot be used for multiple monitors.

For use on architectural walls only as outlined for the slat wall direct mount. The slat wall direct mast cannot be used for multiple monitors. The slat wall direct mast must be mounted to an architectural wall if a flat panel monitor arm is going to be mounted to it.

Orchestra/Knollextra slat board must be mounted to an architectural wall if a flat panel monitor arm is going to be mounted to it. You can only use this slat board when it is wall-mounted as outlined below. Knoll cannot be held responsible for the structural integrity of a wall as please work with clients to ensure their wall is structurally sound and can support the weight of the arm configuration and the monitor weight.

Dividends Horizon Center Channel Mounting:

This mount is intended to provide maximum desk usage by mounting to the center channel. Note that when used for individuals, you will need to stagger users across the table.

Deep Table Clamp Mounting:

This clamp is one piece and works on most surfaces. The deep table clamp mount is intended to hold the slat board, the arm configuration and the monitor weight.

Dividends Horizon Benching Mounting:

This mount is intended to provide maximum worksurface or desk usage by mounting in between furniture. It clamps to worksurfaces ranging from 1" to 1.5\". Note that when used for individuals, you will need to stagger users across the table.

Antenna Table Center Beam Center Mounting:

This mount is intended to provide maximum desk usage by mounting to the center beam. Note that when used for individuals, you will need to stagger users across the table.

Antenna Table Beam Center Mounting:

This mount allows you to clear the flip door while allowing for maximum worksurface or desk usage. This clamp is intended to hold the slat board, the arm configuration and the monitor weight.

Wall Mounting:

For a single monitor mounting, you can use either the direct wall mast mount or direct wall slat wall mount. For double or triple monitor mounting, you must use the slat wall mast mount. The slat wall direct mast cannot be used for multiple monitors.

For use on architectural walls only as outlined for the slat wall direct mount. Knoll cannot be held responsible for the structural integrity of a wall as please work with clients to ensure their wall is structurally sound and can support the weight of the arm configuration and the monitor weight.

Direct Wall Mounting (for both standard and compact arms):

For single monitor mounting, you can use either the direct wall mast mount or direct wall slat wall mount.

For double or triple monitor mounting, you must use the wall mast mount. The direct wall mast cannot be used for multiple monitors.

For use on architectural walls only as outlined for the slat wall direct mount. Knoll cannot be held responsible for the structural integrity of a wall as please work with clients to ensure their wall is structurally sound and can support the weight of the arm configuration and the monitor weight.

Wall Mounting:

For a single monitor mounting, you can use either the direct wall mast mount or direct wall slat wall mount. For double or triple monitor mounting, you must use the slat wall mast mount. The slat wall direct mast cannot be used for multiple monitors.

For use on architectural walls only as outlined for the slat wall direct mount. Knoll cannot be held responsible for the structural integrity of a wall as please work with clients to ensure their wall is structurally sound and can support the weight of the arm configuration and the monitor weight.

Dividends Horizon flat profile panel trim, and is important to mock up the table clamp, including parting and pricing. A VESA plate adaptor may be necessary for larger monitors and televisions and can be ordered separately in the sizes of 100 mm x 100 mm (3.94 inches) and 200 mm x 200 mm (7.87 inches). Adapts into separate installation instructions where necessary. Knoll VESA plate of the compact wall (see page 4) to attach to the adapter to the Knoll VESA plate but not ship with the compact arm. The adapter is calibrated to monitor or television (see below screws on page 3). English-speaking couples may need to include; screw length is dependent on the specific monitor or television and screw should be tested prior to installation to ensure correct length. Knoll is not responsible for use of incorrect screws.

Please follow installation instructions closely (available in each kit box shipped as well as on Knoll com). For example, if you want to mount two monitors on a worksurface with a grommet mount and each (3 monitors x 18 lbs each equals 54 lbs total) with a 24\"/H11033 mast on a grommet mount, the height limitation apply to six users across the table.

This mount is intended to provide maximum desk usage by mounting to the center beam. Note that when used for individuals, you will need to stagger users across the table.

Antenna Table Beam Center Mounting:

This mount is intended to provide maximum desk usage by mounting to the center beam. Note that when used for individuals, you will need to stagger users across the table.
Sapper™ Monitor Arm Collection
Mounting, Construction and Application Information

For use on architectural walls only as outlined further on this page. Knoll cannot be held responsible for the structural integrity of a wall so please work with clients to ensure their wall is structurally sound to hold the arm configuration and the monitor weight. See above for weight limits if mounting slat wall to an architectural wall.

Sapper 50 Direct Wall Mounting (for Sapper 50 monitor arm):

For single monitor mounting, you can use either the direct wall mount or direct wall mount. Please note that the Sapper 50 Direct Wall Mount is specific to the Sapper 50 arm. You cannot use the standard mount with the Sapper 50 arm or a standard arm with the Sapper 50 mount. For use on architectural walls only as outlined further on this page. Knoll cannot be held responsible for the structural integrity of a wall so please work with clients to ensure their wall is structurally sound to hold the arm configuration and the monitor weight.

Interpole Mounting:

Sapper arms can be mounted on either the slot or channel sides of Interpole with the proper mount. Mounts can be moved after installation but the pole may have residual markings if screens are mounted on the slot side, use the channel mount. If overheads are mounted on the slot side, then a SapperXYZ with extended channel mount. If overheads are mounted on the slot side, use the standard mount with the Sapper 50 arm or a standard arm with the Sapper 50 mount.

Sapper 50 Interpole Mounting:

Sapper arms can be mounted either to the slot or channel sides of Interpole with the proper mount. Mounts can be moved after installation but the pole may have residual markings if screens are mounted on the slot side, use the channel mount. If overheads are mounted on the slot side, then a SapperXYZ with extended channel mount. If overheads are mounted on the slot side, use the standard mount with the Sapper 50 arm or a standard arm with the Sapper 50 mount.

Cable Management:

Monitor Arms:

External cable management allows for easy installation and removal of monitors. There are gates under the arm that will contain wires from the monitor to plastic cable management clips that go on the mast to keep wires tidy in the electrical socket.

Height Adjustment:

For the beam solutions, there are beam cord management clips on the back of the beam (6 on the small, 8 on the medium, 10 on the large) that can hold wires from the monitor to the mast cable management. The beam mast cable management is wider than the standard mast cable management to accommodate multiple monitor wires.

Adjustment:

The Sapper monitor arm collection offers intuitive adjustment. To adjust the height, you simply manually lift the arm and twist the adjustment knob like a screw up or down the mast to a comfortable setting. The easiest way to lift the monitor is to fold it in before making the adjustment. To adjust the depth, you can move the arm in or out. You can also rotate the monitor 360 degrees for landscape or portrait viewing and adjust the swivel back and forth 180 degrees and 360 degrees for landscape or portrait viewing and adjust the swivel back and forth 180 degrees.

Fast Release:

Fast Release:

Allows for swift installation and removal of flat panel monitors by merely popping the quick release pin up to remove monitor with movement joint/back plate attached. For installations with Fast Release Wall Gears, simply pull the cord down while lifting the top of the monitor up.

Deactivate Fast Release with Set Screw:

Set Screw to Prevent Arm Removal:

Compatibility:

The Sapper Monitor Arm Collection is not compatible with the Wishbone Flat Panel Monitor Support System (i.e., Wishbone, Zorns or Rotation arm, posts, tusk bars, brackets, mounting, etc.). They have been designed independently and as such parts from one system cannot be used with the other.

Installation Instructions:

Comprehensive installation instructions will be shipped with product and are also available on Knoll Exchange for easy reference.

Construction:

Arm: die-cast aluminum with a cold rolled steel top plate

Mast: anodized aluminum extrusion

Beam: satin anodized extruded aluminum

Adjustment knob: nylon undermold with a TPU overmold

Movement joint (includes fast release monitor plate): plastic bushings, zinc and plastic molded plastic tilt friction components and glass filled nylon VESA plate

Movement joint side: aluminum, powder coated silver

VESA plate adaptors: steel

Table clamp, grommet mount, fixed table mount, COT Center channel mount, DH Benching mount, Antenna center beam center mount: steel

Slat wall and wall mounts (both mast and beam and direct, both standard and compact sizes): die cast aluminum with steel back plates

Double arm bracket: die cast aluminum, steel top plate, extruded aluminum posts, plastic upper and lower bushings

Triple arm bracket: die cast aluminum, steel top plate, extruded aluminum posts, plastic upper and lower bushings

Mast-to-beam bracket: aluminum, powder coated silver

Cable management: transparent polycarbonate clips on the mast and beam; plastic gates under standard arms

Antenna and Quadruple support arm bracket: die cast aluminum

Two-Piece Table Clamp: die cast aluminum

Heavy-Duty Table, Clamp, Grommet, Fixed Table, Cirmion Open Table Center Channel, Dividends Horizon Benching and Antenna Center Beam Table Mounting: steel

Antenna Table Center Beam Side Mounting: die cast aluminum

Slat Wall and Wall Mounts both Direct Mast Mounting, Direct Mounting and Sapper 50 Direct Mounting (for both standard and compact arms): die cast Aluminum with steel back plates

Quadruple arm bracket: Die cast Aluminum

Ordering Information

Specify:
1. Pattern number
2. Finish

Kits do not require any additional mounting specifications.

Standard Monitor Arm Finish Options:
- Jet Black (111)
- Medium Grey (115)
- Bright White (116)

Silver Monitor Arm Finish Option:
- Jet Silver (611)

Mount Finish Option Note:
All mounting options come in a black finish, with the exception of the Antenna Centre Beam Side Mount which will come in the same finish color that was specified for the arm.

Arm Finish Option Note:
All monitor arm finishes are monochromatic with the exception of Bright White, which has a light grey shroud.

Mounting and Application Information

See page 156 for comprehensive mounting, application and construction information.

Sapper XYZ® Monitor Arm Series
Mounting, Construction and Application Information

Sapper XYZ Crossbar

Double Cockpit

200mm x (Mi screw), 300mm x 300mm (Mi screw), 400mm x 400mm/400mm x 600mm (Mi screw). Additional parts for separate installation instructions and may require spacers. Knoll VESA plate adaptors ship with 4 sets of screws to attach the adaptor to the Knoll VESA plate. But do not ship screws to attach the adapter to the monitor or television (see screw sizes listed above. English size spacers may be needed instead). Screw length is dependent on the specific monitor or television and screw should be tested prior to installation to ensure correct length. Knoll is not responsible for use of incorrect screws.

Knoll and its dealers do not take the responsibility for mounting the monitor to the arm. The end user’s IT department must confirm VESA mounting compliance and mount the monitor to the arm using manufacturers own screws. The most common screws are M5 x 8mm and M5 x 10mm. Please follow installation instructions closely (available in each kit box shipped as well as on Knoll Exchange).

Apple Computer Note: VESA Adaptors on options for Thunderbolt Displays and Macs, available from Apple.com. Contact Apple directly for VESA Adaptor options on specific Mac models as some may need to be purchased with integrated VESA Mount Adapters. With these adaptors, the displays will mount to the 100mm x 100mm hole pattern. M8 x 1.25 can be mounted on Sapper and Sapper XYZ. All other Apple displays must be mounted on 50mm due to weight specifications.

Clamp Mounting:
Two-Piece Table Clamp Mounting:
The standard two-piece table clamp is easy to install or retrofit and works on most workstations or desks that are a minimum of 1 1/4” thick solid core. The maximum work surface thickness is 2 1/4”. There are four settings to accommodate a range of work surface thicknesses. It is important to mock up the table clamp, particularly on competitive products to ensure a proper fit. The clamp is not compatible with Morton Wood.

Deep Table-Clamp Mounting:
This clamp is one piece and works on most work surfaces. With the available clamp mount is intended to clear most knurl-edge (45 degree slope) doorknobs or door handles.

Grommet Mounting:
With all systems furniture, it is important to pass monitor and peripheral plugs through grommet mount cover while it is still loose. Please note the grommet mount is compatible with Morton, Antastoda, Bell, Prosperer, but is not compatible with the Graham Collection or Dividers Horizon grommet holes. To use on Morton Network, spaces must be requested through Customer Service. The required cutout in the worksurface is 3 1/2”, which includes room for the threaded stud (actual hole in the grommet plate is 3.47” x 1.77”).

Fixed Table Mounting:
Installers will need to drill a permanent hole into the worksurface on the post will be fixed to a dedicated location on the worksurface. Please note with this mounting, the monitor will not be able to move without leaving a permanent hole in the worksurface. These holes must be of adequate structure, Knoll cannot be held responsible for the structural integrity of non-Knoll worksurfaces.

Antenna Table Center Beam Side Mounting:
This mount allows you to clear the flip-door while allowing for maximum work surface usage and individual height adjustment without the need to stagger users. With this mount, the monitor can be mounted in the center beam with a monitor arm in front of it. The fit will be snug and flush with the screen.

Interpole Mounting:
Sapper XYZ arms can be mounted on either the slot or channel slides of Interpole with the proper mount joint. If screen is mounted on the slot slide of Interpole use a Direct Channel Mount. If workstations are mounted on the slot slide of Interpole, use an Extended-Channel Mount (not available for Sapper XYZ Crossbar).

Cable Management:
External cable management allows for easy installation and removal of monitors and keep wires tidy to the electrical socket. On Sapper XYZ single arm there is a cable management block in the channel under the arm that will contain wires from the monitor to plastic cable management clips that go on the post. On Sapper XYZ Crossbar, there are two hook and loop fasteners strips on the crossbar to neatly shape cables down to the plastic cable management clip attached to the post.

Arm Adjustment:
The Sapper XYZ will monitor arms collection offers intuitive one touch adjustment. To adjust the height, you simply pull up or push down the monitor to the desired position. To adjust the depth, you simply pull or push up and down 153 degrees. The single arm fits in and out from 2” fully compressed to approximately 2” when fully extended. Sapper Crossbar folds in and out from 3” fully compressed to 10.5” when fully extended.

Due to the extensive adjustability of Sapper XYZ monitor arms, a mock-up is recommended to ensure it is suited for the specific work environment, particularly if placed in front of a wall or panel.

Weight Adjustment:
The Sapper and Sapper Crossbar monitor arm is preset for a 10 lb monitor on a single arm and 15 lbs on a Sapper XYZ Crossbar. Other monitor weights up to 20 lbs can be accommodate by adjusting the weight adjustment nut to the proper weight using the Allen key wrench on the back of the movement joint. Note that the 20 lb setting is not visible on the scale. Turn clockwise to decrease weight or counterclockwise to increase weight to appropriate level. The arm should be held in a downward position if increasing the weight and in an upward position if decreasing the weight. When proper weight is set, the arm should stay exactly where you place it.

Temperature Note: Sapper XYZ Crossbar’s gas strut weight tolerance performance may be reduced by 2-3 lbs when used in temperatures above or below typical office temperatures.

Fast Release:
Allows for easy installation and removal of flat panel monitors by merely popping the quick release pin up to remove monitor with movement joint back plate attached. Be sure to lift the arm to the highest position before removing monitor, or the arm will quickly move upards.

Thief Deterrence:
All movement joints come with a set screw within the fast release pin to prevent fast release if so desired.

Compatibility:
The Sapper XYZ monitor arms are not compatible with the Sapper Monitor Arm Collection. It has been designed independently and as such from one system cannot be used with the other, with the exception of the movement joint. FInish colors are consistent across the Sapper XYZ and Sapper Monitor Arm Collection portfolios.

Monitor arms cannot be mounted on KnollExtra or Orchestra monitor arms.

Installation Instructions:
Comprehensive installation instructions will be shipped with product and are also available on Knoll Exchange for easy reference.

Construction:
Arm: the cast aluminum with steel channels and plastic filled channel.
Movement joint (includes fast release monitor plate): plastic bushings, zinc and plastic filled plastic tilt friction components and glass filled nylon VESA plate.

VESA plate: adaptors: steel.

Table clamp, grommet mount, fixed table mount: steel.

Cable Management:
Sapper XYZ single arm: transparent polycarbonate clip on post head and loop fastener strips on crossbar.

Antenna Table Center Beam Side Mounting:
Morten cast aluminum.

KnollExtra
### Romeo and Juliet Platform/Mechanism Configurations

**Adjustable Keyboard Supports**

- **Romeo and Juliet Platform and Mouse Pad**
  - 20° min, 20° max. x H° x 1°. 2°F with palm rest for keyboard platform
  - Rigid plastic platform with steel stiffener plate for stable keying surface.
  - Flexible soft textured plastic overcoat.
  - Thin profile for extra knee room.

**Track length**

**Ordering Information**

- Specify:
  1. Pattern number
  2. Track size (if applicable)

- Track length:
  Options are 16, 17.750, 21.625, 22.63 and 25 inches.

- Minimum clearance required is the length of the track plus 2-3/4.

**Application Notes**

- Variable height adjustment of 0° to (-)15°.
- Soft touch knob adjusts tilt from 0° to (+)15°.
- Variable height adjustment of 10° (up 2.38", down 4.21°).
- Black textured metal finish.

**Mechanism Attributes**

- Spring assist adjustment
- Knobless height adjustment
- Pivot side to side 160°
- Black textured metal finish

- Easy Lift arm:
  - Soft touch knob adjusts tilt from 0° to (+)15°
  - Variable height adjustment of 4.26" (up 1.06", down 3.20")

- Advanced Easy Lift arm:
  - Soft touch knob adjusts tilt from 10° to (+)20°
  - Variable height adjustment of 4.08" (up 2.38", down 6.17")

- No/Stand arm:
  - Soft touch knob adjusts tilt from 0° to (+)15°
  - Variable height adjustment of 11.57" (up 6.80", down 5.17")

- Pivot feature:
  - Allows the keyboard platform to move independently from arm, allowing it to stay parallel to the worksurface as the arm is moved laterally.

- Dimension above is for the platform only. For full configuration depths, all component measurements and application suggestions refer to the Keyboard Requirements tool on Knoll Exchange.

**Construction**

- Prospero:
  - TPE (thermoplastic elastomer) and 40% mica reinforced polypropylene undermold. Steel stiffener plate at base of platform.

- Dimensions above are for the platform only. For full configuration depths, all component measurements and application suggestions refer to the Keyboard Requirements tool on Knoll Exchange.

- All mechanisms have the following features:
  - Spring assist adjustment
  - Knobless height adjustment
  - Pivot side to side 160°
  - Black textured metal finish

**Antenna and Tone Mounting Note**

In order to mount to Antenna Workspace and Tone tables, you will need to order a special adapter available through that price list. Pattern code isヤーマ.

Keyboard tray must be specified with a sliding track that is less than the depth of the top and anything below the top such as a power harness or cable basket.

For taller individuals, we recommend using a pivot solution mounted on the diagonal to maximize knee space.

- Sturdy metal platform attaches Microsoft® keyboard to mechanism.
- Suitable for both Natural and Elite styles of Microsoft® keyboards.
- See Mechanism Attributes below.

**Order Code**

Example: OA-K-EL2-MS (16,18,22,23,25)

**Ordering Information**

Specify:
1. Pattern number
2. Mouse size

**Track Length Options**

**Application Notes**

Keyboard support provides users with a more comfortable working environment by allowing them to adjust the height and pitch of the platform holding their computer keyboard. When not in use, the Adjustable Keyboard Support stores the keyboard under the worksurface to free vital worksurface space.

**Construction**

**Caesar**
- Black textured powdercoated steel plate
- All arms are steel with a powdercoat finish. Tracks are steel with nylon glides.
- Mississippi® is a registered trademark of the Microsoft Corporation.

**Mechanism Attributes**

**Easy Lift Arm**
- Spring assist adjustment
- Knobless height adjustment
- Soft touch knob adjusts tilt from 0° to (-) 15°
- Variable height adjustment of 7.04 (up 2.83, down 4.21)
- Pivots side to side 360°
- Black textured finish with black soft touch knob
- Mounts on virtually any worksurface

**Sit/Stand Arm**
- Spring assist adjustment
- Knobless height adjustment
- Soft touch knob adjusts tilt from 0° to (-) 15°
- Variable height adjustment of 11.57 (up 6.40, down 5.17)
- Pivots side to side 360°
- Black textured finish
- Mounts on virtually any worksurface

**Antenna and Tone Mounting Note**

In order to mount to Antenna Workspace and Tone tables, you will need to order a special adapter available through that price list. Pattern code is YAK.

Keyboard tray must be specified with a sliding track that is less than the depth of the top and anything below the top such as a power harness or cable basket.

For taller individuals, we recommend using a pivot solution mounted on the diagonal to maximize knee space.

**List Price**

- OA-K-EL2-MS (16,18,22,23,25): $434
- OA-K-SS2-MS (16,18,22,23,25): $559

4B2-MP Juliet mouse pad

Ordering Information
Specify:
1. Pattern number
Not all mousing solutions are appropriate with all platforms.

Construction
Work Surface mounted surf mouse pad:
Black painted steel mechanism mounted with hard surface backed surf mouse pad.
Juliet mouse pad:
TPE (thermoplastic elastomer) overmold with 40% reinforced polypropylene undermold.

Juliet palm rest:
Nylon upholstered palm rest is dual density polyurethane. The gel beneath the fabric, nominally .65", is formulated to provide soothing support.
Freestanding Ergonomic Accessories

VDT Sleeve
- Racetrack-shaped sleeve slides over worksurface to create VDT corner.
- Creates 17 5/8" wide VDT corner, 9" from worksurface corner.
- Can be adjusted to any angle, or removed when not needed.
- Heavy-gauge steel with felt backing to prevent scuffing.
- 1 1/4", 1 3/4" and 2 1/2" worksurface thicknesses.
- 1/4" screw holes on underside for optional attachment to worksurface.
- Available in two metallic and two soft-touch finishes.

</tbody>
</table>

Surf Board VDT Corner
- Fits any worksurface thickness or edge profile.
- Creates generous 24" wide VDT corner, 14" from worksurface corner.
- Can be adjusted to any angle, or removed when not needed.
- Integral non-handed mouse pad.
- Felt back and rubber bumpers protect worksurface.
- Designed by Ross Lovegrove and Stephen Priest.

**Order Code**

**Example: BP-SSF**

**BP-SSF**

- Standard suspended file

**Ordering Information**

1. Pattern number
2. Lock option

**Application Notes**

BackPack drawers can be used with virtually any Knoll or other wood worksurface.

For wire management needs, the minimum depth worksurface for standard depth drawers is 24". For deep drawers is 30". When no wire management is necessary, the Standard Suspended File may be used on an 18" worksurface and the Deep Suspended File may be used on a 24" worksurface.

**Knee clearance:**

In order to maximize filing capacity, the Standard and Suspended Files do not provide adequate knee clearance. For center worksurface applications, specify the Keyboard or Center File Drawers.

**Construction**

- Sturdy, 20-gauge painted steel with full-extension ball-bearing metal slides.
- Foam surface on mouse pad.
- Die-cast zinc lock painted black.
- Manufactured in the United States.

**Design Awards**

BackPack® Universal Storage Drawers
by Robert Reuter
keyboard, pencil and top drawers

Wide Keyboard Drawer with Mouse Pad
- Accommodates virtually any standard keyboard or laptop computer.
  - Full width, 23 3/8" integral palm rest.
  - Non-handed mouse pad, black foam with square corners 8 1/2" x 9.5".
  - 27 3/4" x 15 3/4" keying/mousing space.
  - Full width rear pencil trough and 4 removable plastic organizing trays.
  - Thin profile maximizes knee clearance under drawer.
  - Optional lock.
  - Black painted steel construction.
  - 2 7 1/4" w x 9 3/8" d x 2" h keying/mousing space.
  - Full extension ball-bearing slides, with click-stop in half open position for steady use.

Pencil Drawer
- 23 3/8" w x 1 1/2" d x 2" h paper storage.
  - Full width pencil trough.
  - Two removable plastic organizing trays.
  - Black painted steel construction with full extension ball-bearing slides.
  - Optional lock.

Top Drawer
- Full width, 4 3/4" w x 1 3/4" d pencil trough.
  - Two removable plastic organizing trays.
  - 1 3/8" x 10 1/2" filing space.
  - Black painted steel construction with full extension ball-bearing slides.
  - Optional lock.

Optional Lock
- Non-handed, 1 1/2" w x 2 1/2" d x 1 7/8" h.
  - Die-cast zinc lock painted black.

Order Code
Example: BP-WKD
BP-WKD Wide keyboard drawer with Mouse Pad
BK Black Palm Rest
 Specify:
1. Pattern number
2. Wrist rest finish
3. Lock option

Palm rest nylon finishes:
Black (BK)

Application Notes
BackPack drawers can be used with virtually any Knoll or other wood worksurface.

Construction
Durable 20-gauge steel painted black. Full extension ball-bearing metal slides with click-stop in half-open position. Nylon-sheathed foam palm rest.

Design Awards
- BackPack® Wide Keyboard Drawer with Mouse Pad and Top Drawer manufactured in the United States.
- BackPack® Pencil Drawer manufactured in Canada.

Palm rest attaches to slides in field. Removable for use elsewhere.

Application Notes
BackPack storage drawers attach 2 5/8" below the underedge of wood worksurface at any location. Mounting hardware and template included.

For wire management needs, the minimum depth worksurface for the Wide keyboard drawers is 24". When no wire management is necessary, it may be used on an 18" deep worksurface.
Universal Pencil Drawer

by Brooks Rorke

- 7 roomy compartments.
- Large rear compartment holds flat, legal files, ruler, etc.
- Slanted card compartment holds index cards, Post-It™ Notes or business cards.
- Middle compartment holds White-Out™ bottle or change.
- Front middle compartment holds stapler, pens, scissors, etc.
- Other compartments hold calculator, clips, pins, etc.
- Available in textured matte black plastic.
- Three-quarters extension, ball bearing metal slides with smooth, silent movement.

- OR-WB-TR

**System suffix**
- M (Morrison Network)
- PM (Panel-Mounted)
- TR (Top Cap-Mounted)
- BR (Black)

**Wall-Mounted**
- Specify pattern number.
- Top cap-mounted. Equity and Morrison Network systems brackets available. Use bracket pattern numbers listed below Equity (E) and Morrison Network (M).

**Custom Options**

- For all Equity panel-mounted applications, add “E” to end of line pattern number.

**Construction**
- KnollExtra Satin anodized aluminum frame (can be powder coated black).
- Porcelain coating on cold rolled steel and laminated to corrugated and hardboard with a Styro backing. All Universal Marker Boards are magnetized and made in the United States.
### Fabric Boards

- Standard fabric board has 1/2" thick mineral board construction with squared corner.
- Rounded corner or raduis edge, available at upcharge.
- Favor or wall mounting options.

</tbody>
</table>

**Mounting Options**

- **Panel-mounted brackets**: Panel-mounted brackets are included in the list price, but must be specified separately. To specify appropriate panel-mounted bracket, consult the Knoll sales bracket chart on page 12.
- **Panel-mounted bracket size must match height of fabric board**.
- **Wall-mounted options**: Wall-mounted applications must be specified as flush (F-WM-F) or reveal (F-WM-R). Both options are appropriate for any smooth, clean surface.
- **Flush wall-mount option utilizes velcro squares**.

**Edge Detail**

- **R2. Rounded corner/radiused edge**: (add -R2 to end of fabric board pattern number)
- **S2. Squared corner/radiused edge**: (add -S2 to end of fabric board pattern number)
- **S1. Squared corner/rectilinear edge**: (add -S1 to end of fabric board pattern number)

**Custom Options**

- **For special sizes**: For special sizes, contact Customer Service. Minimum fabric board size is 120" W x 24" H. Fabric must be railroaded on any board wider than 60".
- **For panel-mounted applications**: Customer's own material: For approval, submit at least one yard of fabric for application testing. For panel-mounted applications, all COMs and textiles that are not pre-approved must be UL-tested. Please consult Knoll sales Customer Service for details.

**Corner/Edge Detail**

- **S1. Squared corner/rectilinear edge**
- **S2. Squared corner/radiused edge**
- **R2. Rounded corner/radiused edge**
## Scribe™ Mobile Markerboards

</tbody>
</table>

### Markers
- Set of 4 markers
- Code: ACT-CB-M-MARKER
- List price: $26

### Markerboard Cleaning Cloth
- 30 x 30 cm microfiber cloth
- Code: ACT-CB-M-CLOTH
- List price: $15

### Paper Pad Mount
- Set of 2 hooks
- Code: ACT-CB-M-FLIPHOOK
- List price: $65

### Specification Information
**Order Code**: Example: ACT-CB-M-LW-30-54-X-
1. Pattern number
2. Marker tray
3. Frame finish

**Finish options**: Select one of the following finishes
- Code: Description
  - 111 Jet Black
  - 115 Medium Grey
  - 118 Bright White
  - 130 Dark Red
  - 131 Slate Blue

**Note**: Frame finish applies to cross members and legs, as well as any marker trays and cups. Paint is textured powder coat.

### Application Notes
- Marker storage options: Marker storage options (trays and cups) must be ordered with markerboards and are not retrofittable in the field. Replace -X in pattern with:
    - S $77 One tray
    - D $154 Two trays
    - C $56 One cup
    - E $112 Two cups
    - A $133 One cup and one tray
    - B $210 One cup and two trays
    - F $189 Two cups and one tray
    - G $266 Two cups and two trays

### Construction
- **Whiteboard**: Honeycomb core with medium-density fiberboard skin, high pressure laminate finish and ABS edge.
- **Crossmember**: Aluminum
- **Legs**: Steel
- **Cup**: Die cast aluminum with wool felt insert and steel fasteners.

**Note**: Each markerboard ships with four dry erase markers (blue, green, red and black) and a microfiber cleaning cloth.

**Overall height from floor to bottom of writable surface**: 25" from floor.

The optional marker tray runs the length of the crossmember. The optional marker cup mounts to the side.

To prevent dry erase markers from drying out, store them with the cap down in the optional cup.

Selling Policy

Terms & Conditions of Sales

This Selling Policy supersedes all previous selling policies. Prices, discounts and product offerings are subject to change without notice.

Sales by Knoll, Inc., or Knoll North America Corp. (“Seller”) of Knoll Lines (hereinafter, Knoll) and Knoll Textiles (hereinafter, KnollStudio) within the United States and Canada are made only on the terms which are contained in this Selling Policy. Seller hereby gives notice of its objection to any different or additional terms and conditions. This sale is expressly conditional upon Purchaser’s assent to the terms and conditions set forth below. Additional terms and conditions may apply to Knoll Studio and Knoll Textiles orders. These terms and conditions may be modified or supplemented only by a written document signed by an authorized representative of Seller. These terms and conditions supersede any prior and/or contemporaneous agreements or correspondence between Purchaser and Seller. Written quotations expire thirty (30) days from the date of issuance and can be withdrawn by written notice anytime during that period. Where Purchaser and Seller have entered into the Knoll Electronic Terms and Conditions, all orders, acknowledgments, invoices and other business communications placed or transmitted in accordance with the Knoll Electronic Terms and Conditions shall be deemed to be in writing and signed and shall be valid for all purposes as if they were originated and maintained in documentary form.

Ordering Information

All orders must be in writing. The product pattern number(s) contained on Seller’s order acknowledgement shall be the final expression of the order.

Order Confirmation

A purchase order is not binding on Seller until Purchaser has received Seller’s order confirmation or acknowledgment.

Pricing Policies

List prices are subject to change without notice.

Taxes

All sales, use, excise and other taxes applicable to the sale of the Products shall be paid by Purchaser. If Purchaser claims an exemption from any tax, Purchaser shall submit to Seller the appropriate exemption certificates.

Terms of Payment

Payment for one hundred percent (100%) of the net order amount is due within thirty (30) days of the date of invoice, which is generally issued upon shipment. In case of any discrepancies, such as shortages, and Seller is notified in writing within ten (10) days of receipt of Product, only that portion may be deducted and the balance paid. For orders greater than $100,000 net, a fifty percent (50%) deposit is due at the time of order placement, with the remainder due within thirty (30) days of the date of invoice.

Knoll Studio orders less than $2,000 require payment for one hundred percent (100%) of the net order amount (including any applicable sales tax and charges for inside delivery, special packaging, etc.), due at time of order placement. For Knoll Studio orders greater than $2,000, a one-half (50%) deposit is due at time of order placement with the remainder (including any applicable sales tax and charges for inside delivery, special packaging, etc.) due prior to shipment.

If, in the judgment of Seller, Purchaser’s financial condition does not justify the terms of the payment, Seller may require full or partial payment in advance.

Past due accounts shall be charged one and one-half percent (1.5%) per month, or the highest rate permitted by law, whichever is less, and will be added to the outstanding balance. In the event Purchaser defaults on payment, Purchaser shall be liable for all collection costs, including reasonable attorney’s fees, costs, and expenses.

Changes and Cancellation

Purchaser orders may not be changed or cancelled, in whole or in part, without prior written consent of Seller. Changes may effect delivery dates. Expenses incurred because of changes shall be charged to Purchaser. In the event of cancellations, Purchaser will be liable for reasonable cancellation charges established by Seller. Orders for special Product, orders including “COM” (hereinafter defined) material and orders pursuant to expedited delivery programs, may not be canceled.

Freight Prepaid

Freight is prepaid and included in the price of all Products, except Knoll Textiles, within the 48 contiguous United States for orders placed with Knoll, Inc. and within Canada, excluding the Yukon, Northwest Territories, Nunavut and Newfoundland for orders placed with Knoll North America Corp. Packing is tested for rigid shipping and transportation but is not guaranteed to protect furniture from all conditions. If special packaging is required for any reason, please consult with your sales representative or dealer. Seller shall select the method of shipment and routing. Freight for all Knoll Textiles orders is prepaid and added to the invoice.

Delivery/Freight Charges

Shipments outside the contiguous 48 United States and Canada shall be shipped F.O.B. Origin. For shipments outside the contiguous United States and Canada, Purchaser is responsible for the cost of freight from point of embarkation, including any handling and transportation charges incidental to loading at the point of origin; and unloading at the point of destination. Conditions beyond the control of Seller, including weather, available facilities and traffic conditions, may affect exact time of delivery. Seller shall not be responsible for specific carrier delivery date or time unless it has made a specific delivery commitment, in writing.

Nonstandard methods of shipment and/or additional services are available upon request. Purchaser will be billed for the differential cost of any special services in excess of standard surface carrier freight costs. Premium charges, at Purchaser’s request, will be added for airfreight, exclusive use of vehicle and extra, export or special packaging. Accessorial charges will be added for inside delivery, extra labor, reconsignment and redelivery.

Partial shipments may be made and invoiced by Seller.

Claims

All shipments for Knoll Products within the contiguous United States and Canada are F.O.B. Origin. All risk of loss passes to Purchaser at time of delivery to carrier. Purchaser shall inspect all Products upon receipt and notify Seller within ten (10) working days after receipt of any damage or defects which are, or should be, apparent from an inspection of the Product and its packaging. Failure of Purchaser to notify Seller during the ten (10) working day period shall constitute acceptance of the Products and waiver of any apparent defects, errors or shortages. For all claims relating to Product damaged in transit or for any other claims relating to or arising out of the transportation of the Product, Purchaser must seek recovery from the carrier and Seller has no liability for such claims. Seller may, upon request, assist Purchaser with filing of such claims with the carrier, but Seller will not be liable for any of these transportation related claims.

Seller’s Security Interest

Until Seller receives the full payment for the Product, Seller shall have a security interest in the Product. Purchaser agrees to perform all acts, including but not limited to the execution and filing of documentation, which may be necessary to perfect and assure the security interest of Seller.

Returns

The return of Products without a written authorization by Seller shall not be accepted. To receive authorization for Product return, please call Customer Service. All Products that are returned pursuant to a valid authorization shall be subject to a twenty-five percent (25%) of list restocking charge. Products not currently offered for sale by Seller (including COM) shall not be authorized for return. All returned Products must be unused, in original condition and in the original Seller packing cartons. No refund or credit shall be given for damaged Products.

Held Orders/Storage

If Purchaser requests that an order be held or delayed, prices and terms and conditions in effect at the time of shipment shall apply. If Purchaser requests a delay after the time when Seller can defer production, Purchaser will be invoiced for the Product, payable in accordance with standard terms, when the order is ready for shipment. Seller may transfer the Product to storage, in which case all expenses incurred in connection with storage, including demurrage, preparation for storage, storage charges and handling shall be payable by Purchaser upon submission of invoices by Seller. Risk of loss to the Product shall pass to the Purchaser upon delivery of the Product into storage.
**Selling Policy**

**Customer’s Own Material**

A Purchaser who requests a fabric or other surface material not standard to Seller’s line of Products (“COM”) must submit samples of the requested material to Seller prior to entry of a purchaser order. Seller shall determine if the material is suitable to its manufacturing processes and meets any requirements of Underwriters Laboratories. If the COM is acceptable, Seller will then establish a price for using the COM or the Product in question. For a description of the procedures for submitting samples and testing, contact customer resources or your sales representative. Seller shall have no responsibility for the appearance, condition, performance, durability, colorfastness or any other physical attribute of the COM. Purchaser shall indemnify and hold Seller harmless for any damages, injuries or losses arising out of or related to use of the COM on the Product.

**Warranty**

Seller warrants to the original Purchaser only that the Products Seller manufactures and sells to Purchaser are free of defects in workmanship and materials, during the applicable warranty period set forth below.

Warranty period set forth below is for 24-hour, 7 days a week, multi shift use (includes parts and labor to repair). Should any failure to conform with this limited warranty appear to a Product listed below during the applicable warranty period from the date of shipment, Seller shall, upon prompt written notice, repair or replace, at its option and costs, the affected part or parts.

This warranty does not apply to:
- Damage caused by a carrier other than the Seller.
- Normal wear and tear or acts or omissions of parties other than Seller (including user modification, improper use or installation of Products).
- COM or other third party materials applied to Products.
- Products not installed by or under the auspices of a Knoll Dealer.
- Dramatic temperature variations or exposure to unusual conditions.
- Changes in surface finishes, including colorfastness due to aging or exposure to light.
- Clear paint finish applied to Antenna Workspaces steel or aluminum parts.
- Except as specifically noted above, textiles and upholstery supplied by KnollTextiles (consult current KnollTextiles price list for applicable warranty).
- Natural variations occurring in wood, marble, and leather shall not be considered defects, and the Seller does not guarantee the colorfastness or matching of the colors, grains or textures, or surface hardness of such materials. The Seller also does not guarantee the colorfastness of fiberglass panel surfaces.

The EXPRESS WARRANTIES CONTAINED HEREIN ARE IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTIES OF MERCHANTABILITY AND FITNESS FOR PARTICULAR PURPOSE AND ALL OTHER WARRANTIES ARISING FROM COURSE OF DEALING OR USAGE OF TRADE.

**Patents**

PURCHASER IS SOLELY RESPONSIBLE FOR COMPLIANCE WITH ALL APPLICABLE FEDERAL, STATE AND LOCAL LAWS, ORDINANCES, REGULATIONS, RULES AND STANDARDS RELATING TO THE INSTALLATION, MAINTENANCE, USE AND OPERATION OF THE PRODUCTS.

Subject to the following provisions, Seller shall, at its own expense, defend or, at its option, settle any claim, suit or proceeding brought against the Purchaser, and/or its vendees, mediate and immediate, so far as based on an allegation that any Product or any part thereof furnished hereunder constitutes a direct or a contributory infringement of any claim of any patent of the United States or Canada. This obligation shall be effective only if Purchaser shall have made all payments then due hereunder and if Seller is notified promptly in writing and given authority, information and assistance for the defense of said claim, suit or proceeding. Seller shall pay all damages and costs awarded in such suit or proceedings so defended.

The foregoing indemnity does not apply to the following:
- Products supplied according to a design other than that of Seller, and which is required by the Purchaser.
- Combination of the Product with another product not furnished hereunder unless Seller is a contributory infringer.
- Any settlements of a suit or proceeding made without Seller's written consent.

**Delay/Force Majeure**

Seller shall not be liable for failure to perform or for delay in performance due to fire, flood, strike or other labor difficulties, act of God, act of any governmental authority or of the Purchaser, riot, embargo, fuel or energy shortage, wrecks or delay in transportation, inability to obtain necessary labor, materials or manufacturing facilities from usual sources or failure of suppliers to meet their contractual obligations, or due to any cause beyond its reasonable control. If any such event occurs, Seller may extend delivery dates by a period of time necessary to overcome the effect of such delay, allocate available Product or cancel any purchase order.

**Compliance with Law**

Purchaser shall indemnify and hold Seller harmless from any liabilities, claims and damages resulting from any government agency or Purchaser's proprietary rights, violation of any laws, regulations or orders, or any breach of this agreement.

**Limitations of Liability**

SENDER, ITS CONTRACTORS, AUTHORIZED DEALERS AND SUBCONTRACTORS OR SUPPLIERS OF ANY TIER SHALL NOT BE LIABLE TO PURCHASER FOR ANY SPECIAL, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING FROM A BREACH OF THIS AGREEMENT.

Purchaser’s remedies set forth herein are exclusive and the liability of Seller with respect to the breach of this agreement or any contract entered into between the parties pursuant hereto shall not exceed the price of the Product or part on which such liability is based.
General Ordering Information

The Products
This guide encompasses all standard products for this product group.

Sizes
Dimensions listed in this guide are indicated as:
H = height
W = width
D = depth
Dia. = diameter
Rad. = radius

Pricing
All prices shown are list.

How to Order
Select pattern numbers and quantities required for your complete installation. Product questions can be addressed in the specific sections of this guide or by contacting your sales representative or customer resource representative at 1-800-343-5665.

Next, select options (if required), along with colors and finishes appropriate to each product. Reference the Finishes and Fabrics pages for color designations.

On large installations, an item’s “designated area” can be specified to assist in product organization and handling.

To expedite complete / correct entry of your order, be certain all pattern numbers, quantities, colors and area identifications are completely specified. Also, include complete purchase order numbers, bill-to and ship-to addresses, a contact name and specific factory shipping dates required.

Mail all orders to:
Knoll, Inc.
1235 Water Street
East Greenville, PA 18041
Attention: Order Entry

Once your order is entered at Knoll, an acknowledgment will be mailed to you. You will be advised of your scheduled shipping date within five days of the original acknowledgment. If it is necessary to revise your order, please contact your customer resource representative.

Sustainability Statement

Sustainable design is a key component of Knoll’s environmental focus. Our commitment to social responsibility and a healthy environment has prompted us to further articulate our longstanding environmental programs and, with encouragement and support from our colleagues in the industry, we have re-energized our focus on such “green” initiatives as life cycle analysis and LEED™ certification. Knoll is proud to have contributed to projects that have received LEED certification from the U.S. Green Building Council.

For the latest information on Knoll products that help our customers achieve LEED certification, log on to knoll.com, click on “About Knoll” and then “Environmental Focus.”
