

Sustainability Overview

Anchor[®]

Anchor is a laminate, preconfigured collection of user-friendly storage that addresses an individual's organizational needs in the changing workplace. The broad scope including credenzas, pedestals, work surface stackers, towers and lockers are designed to blend with Knoll products for open office, lending a warm aesthetic through a variety of dynamic laminate selections.

Designed by Marc Krusin with David Noel.

Anchor and BIFMA level

Anchor has achieved BIFMA level[®] 2 certification.

Anchor and LEED[®]

Knoll is aligned with the U.S. Green Building Council and can help companies, healthcare organizations and educational institutions achieve Leadership in Energy and Environmental Design (LEED[®]) workplace certification.

Anchor and GREENGUARD[®]

Anchor is GREENGUARD Indoor Air Quality Certified[®] and can contribute to LEED[®] certification.

Anchor and FSC

The wood material used to construct Anchor is FSC chain-of-custody-certified.
