Knoll and Sustainable Design

Each year Knoll sets key initiatives in our journey to sustainability. We are members of a global consortium on energy, have adopted a scientific, metrics-based approach to sustainable product design, and maintain a leadership position in establishing universal, verifiable, sustainability standards for our industry.

Knoll promotes independent third-party certification because it provides the most impartial and trustworthy foundation for industry-wide environmental compliance. Certification by established and respected third parties ensures that all manufacturers are held to the same high standards and that customers can trust a company’s declaration about the environmental benefits of its products. Knoll third-party partners include: the International Standards Organization (ISO); Forest Stewardship Council (FSC®); Rainforest Alliance; GREENGUARD® Environmental Institute; and The Business and Institutional Furniture Manufacturer’s Association (BIFMA) level® certification from Scientific Certification Systems (SCS).

In addition, Knoll is aligned with the U.S. Green Building Council and can help companies, healthcare organizations and educational institutions achieve Leadership in Energy and Environmental Design (LEED®) workplace certification.

Global Climate Change

• Knoll is a sponsor of the Clinton Global Initiative, which brings together a community of global leaders to devise and implement solutions to some of the world’s most pressing challenges, including environmental change.
• Knoll has a comprehensive Energy Management Program to increase energy efficiency in products and processes.

Life Cycle Assessment (LCA) Tool

• Life Cycle Assessment is a science-based measurement of a product’s environmental impacts throughout its life cycle, from raw materials sourcing through manufacture, shipping, use and re-use or end-of-life. LCA enables cradle-to-cradle implementation of sustainable practices.
• Knoll has partnered with The Green Standard.org to develop an affordable, universal ISO-compliant computer-based LCA tool that can be used by the entire contract furniture industry and is partnering on the development of an Environmental Product Declaration System (EPDs) for Knoll products. EPDs are verified documents containing LCA results and additional environmental performance information about a product.

Setting Industry Standards

• Knoll partners with MTS (The Institute for Market Transformation to Sustainability) to develop the SMaRT© Consensus Sustainable Products Standards, a set of consensus-based sustainable product standards based on the LEED® model, for all building products, fabric, apparel, flooring and carpet. MTS, the developer of SMaRT®, is an accredited American National Standards Institute (ANSI) standard developer.
• Knoll also partners with BIFMA (Business and Institutional Furniture Manufacturers Association) to promote level® sustainability standards for the contract furniture industry.
• Knoll has established FSC® (Forest Stewardship Council) certified wood as the standard for general office open plan office systems, casegoods and tables.
• Knoll has launched Full Circle, a resource recovery program developed with ANEW, to help customers extend the life cycle of surplus furniture, fixtures and equipment (FF&E) in an economically, socially and environmentally responsible manner.
• Our goal is to encourage all manufacturers in the contract furniture industry and related industries to adopt standards that will lead to sustainable products and practices.

*For more information about Knoll and sustainable design, visit knoll.com/environment.*
All Knoll Office Seating is GREENGUARD and GREENGUARD Gold certified.

All KnollExtra® products are GREENGUARD certified.

Visit GREENGUARD.org for more information and to find printable certificates for Knoll Office Seating that can be used for verification and LEED® submission.

GREENGUARD provides the only guide to certified low-emitting interior products and building materials. Its goal is to help building owners and managers, architects, interior designers and product specifiers build and furnish healthier offices, hospitals, schools and homes by providing a register of tested and certified low-emitting products and materials.

GREENGUARD certification is recognized by the U.S. Green Building Council’s LEED® Program. Air Quality Science, an independent indoor air quality laboratory, tests products submitted for certification using stringent environmental chamber testing protocols and current indoor air quality standard. Certification is administered by the GREENGUARD Environmental Institute (GEI), an industry-independent, non-profit organization.

GREENGUARD Gold certification complies with the State of California’s Department of Health Services Standard Practice (CA Section 01350) for testing chemical emissions from building products used in schools, offices and other sensitive environments. Certified products can contribute to achieving credits in the CHPS Best Practices Manual for K-12 schools, the LEED® Green Building Rating System, Green Guide for Healthcare™, NAHB Green Building Guidelines, Green Globes, Regreen and numerous other local authorities’ green building codes.

Knoll Office Seating and KnollExtra® products can contribute to achieving LEED® credits. GREENGUARD-tested and certified office furniture is required for Credit 4.5 in the LEED-CL Indoor Environmental Quality section.

GREENGUARD Certification Program
• Internationally recognized for evaluating product emissions and certifying building materials, furnishings, finishes and cleaning products and processes that meet stringent indoor air quality criteria defined by GEI.
• Products undergo rigorous, third-party testing to determine their impact on indoor air pollution with requirements for ongoing testing and verification.
• Certification confirms a manufacturer’s environmental responsibility, and signifies their environmental achievements through independent, third-party testing and verification.
• GREENGUARD Certified products are recommended by leading sustainable building programs, including:
  – U.S. Green Building Council’s (USGBC) LEED Rating System,
  – National Association of Home Builders (NAHB) Green Building Guidelines,
  – Green Guide for Health Care (GGHC),
  – Collaborative for High Performance Schools (CHPS) Best Practices Manual,
  – New York City Department of Design and Construction Sustainable Design Specifications, among others.
An Overview

In the first part of the Price List you'll find Lighting and Power Series.

The second part features a full range of desktop accessories including Smokador and Orchestra, perfect for panel-mounted or freestanding application.

Part three offers a broad range of systems support products, including technology management and communication boards.

Can’t find it? Consult the Table of Contents on page 1 or the Alpha-numeric Index on page 170.

Product Information on Each Page

The KnollExtra Price List was designed to provide you with everything you need to know in order to understand, specify, and care for KnollExtra products. On each page, the following features will assist you:

- **Description/Construction** explains salient features, capabilities, materials, and country of origin.
- **Dimensions** provide the overall space the product will require. Statistics are based on the maximum width, depth and height of the product.
- **Weight** is based on the product itself. It does not include packaging or complementary items such as pens, memo paper or calendars.
- **Order Code/Ordering Information** outlines exactly how to specify KnollExtra product and the full scope of finish options. The Order Code provides an example of how one pattern number is specified.
- **Custom Options** reviews availability of special sizes, finishes etc.

For More Information

For more information, contact your Knoll sales representative, telephone Customer Service at 1-800-343-5665, or visit one of the Knoll showrooms listed on the last page of this book.

A Word About Finishes

KnollExtra finishes are designed to complement a broad range of interiors and office products.

Key KnollExtra finishes coordinate with specific Knoll systems finishes:

Placing Your Order

Use the Following Addresses
If you would like to send a standard lead time order to our order entry department, please use the following address:

For North American orders:
Knoll, Inc.
1235 Water Street
East Greenville, PA 18041
Attn: Order Entry
Fax: 215 679-1788
Tel: 800 343-KNOLL
All accepted orders will be confirmed in writing on the Knoll standard order confirmation form.

Ship-Complete Orders
Orders that must ship complete are to be so stated on the purchase order. Products with different lead times, combined on one order, can be acknowledged for shipment based on the longest of those lead times. Orders not marked “ship complete” will be released according to the confirmation, and invoiced in increments.

For More Information
For complete Knoll Selling Policy and warranty information, please refer to page 172 of this price list.
For additional information on KnollExtra, contact your Knoll representative, a Knoll dealer, or telephone Customer Services at 800 343-KNOLL.

Maintaining Your Purchase

**Maintenance**

While KnollExtra relies on highly durable materials in each product line, regular basic maintenance will ensure the longevity of your product. Most stains, marks, and discolorations can be removed by following the simple instructions outlined on this page.

<table>
<thead>
<tr>
<th>Material</th>
<th>Instructions</th>
</tr>
</thead>
<tbody>
<tr>
<td>Plastic</td>
<td>Windex and a dry cloth.</td>
</tr>
<tr>
<td>SofStone</td>
<td>Early removal of a stain makes SofStone care much easier. This is especially true of coated areas which are frequently handled. If oil stains are allowed to build up, they can soften the suede coating, and become very difficult to remove. Most dirt and smudges can be removed by the following methods: 1. Greasy stains (crayon, oil, lipstick, etc.): remove grease and wax stains with a naphtha-dampened lint-free cloth. Change the cloth frequently to remove as much grease as possible without spreading the stain. 2. Non-greasy stains (dirt, coffee, mustard, catsup, etc.): dirt and smudge areas can generally be removed by using a sponge or soft bristle brush with Liquid Ajax, Mr. Clean, Lestoil, or 3M brand carpet spot remover and upholstery cleaner. Follow the instructions on the label, and rinse thoroughly with clear water and a lint-free cloth. 3. Combination stains (chocolate, ice cream, gravy, soup, etc.): combination stains are caused by materials that contain both greasy and non-greasy substances. First use the procedures for non-greasy stains as stated above. Then, rinse thoroughly with clear water and thoroughly dry with a lint-free cloth. If greasy stain persists, follow the procedure for greasy stains as stated above. Repeat as necessary.</td>
</tr>
<tr>
<td>Linoleum:</td>
<td>Windex and a dry cloth.</td>
</tr>
<tr>
<td><strong>Contemporary and Traditional Standard Leathers:</strong></td>
<td>Mild soap and water on a soft cloth.</td>
</tr>
<tr>
<td>Spinneybeck Leathers:</td>
<td>As a result of the high quality aniline dye process, most scratches or minor stains can be removed simply by gently rubbing them with your fingers. The body's natural oils revitalize the leather. For stubborn stains, use mild soap and water. Take care to wash the surface evenly since soaps may slightly alter the leather's tonality.</td>
</tr>
<tr>
<td>Surf Collection:</td>
<td>Wipe nylon skin using warm water and mild detergent. Do not use abrasives.</td>
</tr>
<tr>
<td>Office Automation</td>
<td><strong>Accessories/Storage Drawers:</strong> Clean with a soft cloth and Windex, Fantastik, Endust or other non-abrasive household cleaners. Remove stubborn stains with SoScrub. For Surf Board and VDT Sleeve soft touch paints, never use abrasives. Clean with lukewarm water and a soft cloth.</td>
</tr>
<tr>
<td>Marker Boards:</td>
<td>For day-to-day use, surface requires only a dry cleaning with a standard felt eraser or dry cloth. For best results, keep marker board and marker pens at room temperature. KnollExtra suggests Bic Great Erase BOLD marker pens which are designed for use on marker boards. All marker pens should be tightly capped and stored horizontally when not in use. Follow the instructions below as a periodic maintenance program, or to remove stubborn stains: 1. Clean with EV-1 or any liquid ammonia-added cleaner and rinse with clean water, then dry. For best results, wash board like a window with sponge and squeegee. 2. Interim cleaning may be done by sprinkling a dry powdered cleanser on an eraser and applying to the board in a circular motion. Rinse with clean water, then dry. 3. To remove crayon, Scotch tape, or other stubborn materials, apply a mild solvent or paste made with scouring powder and water.</td>
</tr>
<tr>
<td>Fabric Boards:</td>
<td>Despite the durability of most panel textiles, fabric boards are subject to long-term soiling and wear. A regular maintenance program will significantly lessen soil and dirt build up or staining on your fabric boards. Cleaning is particularly important in areas adjacent to air conditioning or ventilation systems. Remember to consult the care instructions provided by the fabric manufacturer. The general recommendations below should apply to most fabric boards. 1. Avoid excessive heat or moisture which can affect finishes and adhesives. Never allow fabric panels to become wet inside the core. Room temperature should be maintained between 50 and 85 degrees; humidity should be maintained between 20 and 50%. 2. Avoid contact with sharp edges which could puncture the surface. 3. Do not handle fabric boards more than necessary. Avoid bending or flexing the panels; this could break the bond between the surface and core materials. 4. Grease or oil should be wiped off immediately upon contact. Remove excess grease or oil by blotting. Use hot water and mild soap to remove any remaining residue. 5. Whenever possible, clean only with warm water and mild soap. Use caution when applying cleaning agents, particularly those that contain alcohol, strong alkalis, or solvents. These ingredients may react to the vinyl backing or adhesives used in the fabric boards. Always test cleaning agents on fabric from the rear of the panel before using on the front. 6. Care should be taken in using strong room cleaners or pesticides. Their fumes may contain agents which lead to the loosening of the fabric board glue bond.</td>
</tr>

  3. Finish

- **Finish Options:**
  - Black (111)
  - White (118)

### Additional Information

- **Sparrow is available in a black or white finish with stainless steel rods.**
- **Occupancy sensor (LED PIR) can be added to any LED light and must be ordered separately.**
- **UL Certified.**

### Height Range

- **Articulates 18° to 90°**
  - Table clamp: 2.5” to 21.4”
  - Antenna beam side: 3.5” to 22.3”
  - Freestanding: 4.3” to 23.2”

### Construction

- **LED:** LED, cast aluminum housing, stainless steel frame and plastic reflector and lens.
- **Table clamp mount:** Steel.
- **Antenna beam side mount:** Die cast aluminum.
- **Freestanding base:** Plastic and cast iron.
- **Occupancy sensor:** Extruded aluminum body, plastic face, end caps and lens.

### Design Awards

- **Best of NeoCon 2013 Silver Award.**
- **Sparrow is TAA compliant.**

### Light Source Information

- **9 watts single multichip LED.**
- **50,000 hours lifespan.**

### Markerboard Cleaning Cloth
- 40 x 30 cm microfiber cloth
- $15.00

### Markers
- Set of 4 markers
- $27.00

### Magnetic Accessory Cup
- Optional cup to hold dry erase markers and microfiber cloth eraser and/or personal device power cords; magnetic application can be applied to any side of the Power Cube
- $28.00

### Construction
- **Power Cube:** Powder coated steel, steel and nylon levelers
- **Magnetic Accessory Cup:** See page 42.

### Ordering Code Examples
- **ACT-PW-PC-24-24-13-1E**
- **ACT-PW-PC-36-36-13-1C**

### Ordering Information

#### Specify: (Pattern number)
- **Finish notes:**
  - Power Cube finish is white markerboard paint.
  - Optional Magnetic Accessory Cup must be specified in one of the following finishes:

### General Notes
- Each electrical module has either 4 outlets or 3 outlets and 2 USB ports, depending on specification.
- Power Cube is 13” high with 4 levelers, Hard wired comes with 72” whip. Cord set comes with 72” cord with a 3-prong plug for 120V outlets. Base includes one slot per corner for choice of cord exit.
- Power Cube: Powder coated steel, steel and nylon levelers
- Magnetic Accessory Cup: See page 42.

### Construction
- **Power Disc:** Max Load: 120V, 15A, 50/60 Hz
- Voltage Protection Rating: L-N 600V, L-G 600V, N-G 600V
- UL Listed Relocatable Power Tap/ Surge Protection Device
- 10’ 3-prong cord recesses in base for flat surfaces or can be threaded through standard grommet.
- On/off switch with LED indicator
- Unit weighs 4.3 lbs.
- Made in China for Knoll.

**Order Code**

- **Example:** 3315-VZ BLK
- **3315**  | Pencil Cup
- **VZ BLK**  | Vicenza Black

**Ordering Information**

1. **Specify**:
   - Pattern number
   - Leather selection

2. **Spinneybeck leathers**: Vicenza (VZ)
   - There are 20 rich colors available in Vicenza. To view the complete color selection, please contact your Knoll sales representative or Spinneybeck.
   - Please note that 10 or more units are required on all Spinneybeck orders.

**Construction**

- **Spinneybeck Vicenza (VZ)**
  - A corrected grain, aniline dyed leather. The correction process refines the surface of the leather preparing it for the reception of an embossed grain pattern prior to finishing.

**KnollExtra**

- Manufactured in the United States, using domestic and Spinneybeck Italian leathers.

</tr>
</tbody>
</table>

**Construction**

Die cast aluminum with textured powder coat paint, wool felt insert, neodymium magnets and steel fasteners.

Pacemakers and items sensitive to magnetic fields should be kept 3.5\(^{\text{"}}\) from product.

**Note:** A non-magnetic version of this accessory cup is available on Interpol (replace MG in pattern code with IP, see Antenna Workspaces price list for pricing) and Scribe Mobile Markerboards (see page 194 for specifications and pricing).

To prevent dry erase markers from drying out, store them with the cap down. To protect magnetic surface, avoid dragging the cup when repositioning.

**Ordering Information**

Specify:
1. Pattern number.

**Mounting Options**

- Panel, surface and wall-mounted brackets:
  - Wall, stanchion, or panel-mounted brackets are included in the list price and are specified when ordering pattern number.
  - Worksurface-mounted bracket:
    - Metal posts attach to underside of worksurface with C-clamp, raising Load Bar 10" above worksurface.
    - Usable on worksurfaces 7/8 - 1 1/2 thick. There should be at least 3/4" - 1" of space between the back of the desk and the surface behind (i.e., it cannot be flush). Set of 2 brackets. For Load Bars wider than 66, order additional brackets. For use with load bars and 6 5/8 slat boards only.

**Custom Options**

- Brackets are currently available for virtually every major office system. Panel-mounted brackets for other systems can be developed.
- Minimum of 100 sets per bracket.
- Tooling and set-up charges may be required. Contact your Knoll sales representative or Customer Service for complete pricing information.

**Construction**

- Worksurface-mounted bracket:
  - Die-cast aluminum painted black.
  - Manufactured in the United States.

**Design Awards**

- Outstanding Product Performance, Product Design Achievement Award, IBD Southern California Chapter, 1991.
- Bronze Award, IBD Product Design Competition, 1990.

1. Pattern number
2. Finish where required
Antenna table center beam side
Antenna beam finish options:
Jet Black (111)
Brown (112)
Dark Grey (113)
Folkstone (114)
Medium Grey (115)
Mushroom (116)
Salt Grey (117)
Bright White (118)
Dark Red (130)
Slate Blue (131)
Beige Mist Metallic (611)
Medium Metallic Grey (612)
Silver Metallic (613)

Mounting and Application Information
See page 128 for comprehensive mounting, application and construction information.
Mounting and Application Information:

All Sapper standard monitor arms:
- Maximum weight of 20 lbs per arm, weight limits vary by mounting option.
- Ship with standard release mechanism.
- Office 117 degrees of monitor tilt up and down, 180 degrees of small left and right, 45 degrees of rotation for portrait and landscape viewing.
- Fold into themselves to be highly compact at 19.4 inches wide when fully compacted.

Sapper multiple monitor Standard Arm Configurations:
- Maximum weight of 50 lbs per arm for single arm and 30 lbs per arm for double, weight limits vary by mounting option.
- Ship with standard release mechanism.
- Office 117 degrees of monitor tilt up and down, 180 degrees of vertical left and right and 360 degrees of rotation for portrait or landscape viewing.
- Fold into themselves to be highly compact only 5.9 inch wide when fully compacted.

*Please note this limit accommodates up to 95% of monitors on the market. There is no specific monitor one maximum limitation for single Sapper monitor arm. A larger size (e.g., 24” widescreen) does not necessarily equate to a higher weight monitor. It is key to understand the application to know if a certain size monitor will fit within a space plan. Avoid many 24” widescreen monitors. Also, it is important to note weight limitations for the application. See details below.

Weight Limits:
- Weight limitations for individual mounting options are outlined below. Taken together (both arms on a worksurface with a grommet mount and each arm on a worksurface with a grommet mount) the limitation for each arm must be at least the length of the beam. If monitors extend beyond the end of the beam, additional workspace is required. For additional size guidelines and limitations, please see the Easy Order Beam Kit Guide.

For example, if you want to mount two monitors on a worksurface with a grommet mount and each of those monitors weighs 10 lbs (2 monitors: 1 lb each), the maximum horizontal width per monitor is 19.4” for a flat positioning flush mount to each other in a row. Clients can accommodate larger screen monitors in triples by turning one monitor 90 degrees to the side between the outside of the two mounts. For the heavy duty monitor, this distance is 39.9” for the outside of the two mounts.

For the Antenna center beam side mount, this distance is 39.9” for the outside of the two mounts and 47.2” for the medium beam. The length of the workspace to be halved must be at least the length of the beam. If monitors extend beyond the end of the beam, additional workspace is required. For additional size guidelines and limitations, please see the Easy Order Beam Kit Guide.

Please follow installation instructions closely (available in each kit box shipped as well as on KnollExtra.com).

Computer Apple Note:
- VESA Adapters are required for Thunderbolt Displays and iMac, available from apple.com.
- Contact Apple directly for VESA Adapter options on specific iMac models as some may need to be purchased with integrated VESA Mount Adapters. With these adapters, the displays will mount to the 100mm x 100mm hole pattern. iMac 21.5” can be mounted on Sapper and Sapper NXL. All other Apple displays must be mounted on Sapper 50 due to weight specifications.

Clamp Mounting:
- Two-Piece Table Clamp Mounting:
  - The standard two-piece table clamp is easy to install. Office 117 degrees of monitor tilt up and down and no vertical limits that are a minimum of 1/8” thick solid core. The monitor counterweight is 2.5”. There are four settings to accommodate a range of workstation thicknesses. For the fourth setting to accommodate the thickest workstations you must have the lower mounting plate to allow the clamp to mount the maximum 25” width. It is important to make sure the table clamp particularly on competitive product to ensure a proper fit. The clamp is not compatible with Morrison Network.
- Deep Table Clamp Mounting:
  - This clamp is one piece and works on most surfaces. The desktop clamp is intended to be used with monitor mounting devices to a maximum 45 degree angle (50 lbs max) for workstations and countertops. The Deep Table Clamp Mounting is intended for use on architectural walls only as outlined on the Easy Order Beam Kit Guide.

Grommet Mounting:
- With all systems furniture, it is important to pass grommet monitor and peripheral cables through the grommet ports. The grommet port is designed to accommodate the grommet diameter, which includes all material through the slot. The grommet port is intended to pass monitors present in the center beam. Note that where not used for individual grommeting, you will need to stagger users across the table.

Antenna Table Center Beam Mounting:
- This mount is intended to provide maximum work surface or desk usage by mounting to the center channel. Note that when used for individual grommeting, the mount will not be able to mount the heavy duty monitor as it is too heavy. Knoll Extra cannot be used for the structural integrity of a wall as we please work with clients to ensure their wall is structurally sound and can support the weight of both the arm configuration and the monitor weight.

Slat Wall Direct Mounting (for both standard and compact arms): For single monitor mounting, you can use either the slat wall mast mount or direct slat wall mount. For double or triple monitor mounting, you must use the slat wall mast mount. The slat direct wall mount cannot be used for multiple monitors.

For double or triple monitor mounting, you must use the wall mast mount. The slat direct wall mount cannot be used for multiple monitors.

Orchestra/KnollExtra slat board must be mounted to an architectural wall if a flat panel monitor arm is to be mounted to it. You can only use this slat board when it is wall-mounted as outlined below.

Knoll cannot be held responsible for the structural integrity of a wall as we please work with clients to ensure their wall is structurally sound and can support the weight of the arm configuration and the monitor weight.

For single monitor mounting, you can use either the direct slat wall mast mount or direct slat wall mount. For double or triple monitor mounting, you must use the slat wall mast mount. The slat wall direct wall mount cannot be used for multiple monitors.

For single monitor mounting, you can use either the direct slat wall mast mount or direct slat wall mount. For double or triple monitor mounting, you must use the slat wall mast mount. The slat wall direct wall mount cannot be used for multiple monitors.

Please note that the Compact Arm Direct Wall Mount is specific to the compact arm. You cannot use the standard mount with the compact arm or a standard arm with the compact arm.

Works with both Knoll slat board and wall profiles, however, load ratings vary across products and mounting approaches. Please review product breakdown on the following pages to ensure compatibility with your specific application needs.

Orchestra/KnollExtra slat board must be mounted to an architectural wall if a flat panel monitor arm is to be mounted to it. You can only use this slat board when it is wall-mounted as outlined below. Knoll cannot be held responsible for the structural integrity of a wall as we please work with clients to ensure their wall is structurally sound and can support the weight of both the arm configuration and the monitor weight.
Mounting, Construction and Application Information

Sapper™ Monitor Arm Collection

External Cable Management

For use on architectural walls only as outlined further on this page. Knoll cannot be held responsible for the structural integrity of a wall so please work with clients to ensure their wall is structurally sound to hold the arm configuration and the monitor weight. See above for weight limits if mounting slat wall to an architectural wall.

Sapper 50 Direct Wall Mounting (for Sapper 50 monitor arm):

For single monitor mounting, you can use either the direct wall mast mount or direct wall mount. Please note that the Sapper 50 Direct Wall Mount is specific to the Sapper 50 arm. You cannot use the standard mast with the Sapper 50 arm or a standard arm with the Sapper 50 mount.

For use on architectural walls only as outlined further on this page. Knoll cannot be held responsible for the structural integrity of a wall so please work with clients to ensure their wall is structurally sound to hold the arm configuration and the monitor weight.

Interpole Mounting

Sapper arms can be mounted on either the slot or channel sides of Interpole with the proper mount. Mounts can be moved after installation but the pole may have residual markings.

If screens are mounted on the slot side, use the channel mount. If overheads are mounted on the slot side, then a Sapper XYZ with extended channel mount. If overheads are mounted on the pole may have residual markings.

Mounts can be moved after installation but the pole may have residual markings.

Full Movement:

The Sapper monitor arm collection offers intuitive adjustment. To adjust the height, you simply manually lift the arm and twist the adjustment knob like a screw up or down the mast to a comfortable setting. The easiest way to tilt the monitor is to fold it in before making the adjustment. To adjust the depth, you can move the arm in or out. You can also rotate the monitor 360 degrees for landscape or portrait viewing and adjust the swivel back and forth 180 degrees and 360 degrees for landscape or portrait viewing and adjust the swivel back and forth 180 degrees.

**Ordering Information**
Specify:
1. Pattern number
2. Finish

**Standard Monitor Arm Finish Options:**
- Jet Black (111)
- Medium Grey (115)
- Bright White (116)
- Silver Monitor Arm Finish Option: Silver (603)

**Ordering Note**
Due to extensive adjustability of Sapper XYZ monitor arms, a mock-up is recommended to ensure it is suited for the specific workstation, particularly if placed in front of a wall or panel.

**Mounting and Application Information**
See page 132 for comprehensive mounting, application and construction information.

Double Flat

Key Note: Flat panel monitor manufacturers refer to their products by diagonal screen measurements. So a 19" widescreen monitor has a 19" screen measured diagonally, but some might refer to a 19" screen. The actual size varies from manufacturer to manufacturer. The most common sizes are 15", 17", and 19". Please follow installation instructions closely (available in each kit box shipped as well as on Knoll Exchange).

Apple Computer Note: VESA Adapter options on specific Apple models may need to be purchased with integrated VESA Mount Adapters. Knoll cannot be held responsible for the structural integrity of any non-Knoll workstations.

Antenna Table Center Beam Side Mounting:
This mount allows you to clear the table top, while still allowing you to mount a monitor on a dedicated location on the side of a wall or panel. The post will be fixed to a dedicated location on the surface. Please note with this mounting, the monitor will not be able to move without leaving a permanent mark on the wall or panel. The post must be of adequate structure, Knoll cannot be held responsible for the structural integrity of any non-Knoll workstations.

Cable Management:
External cable management allows for easy installation and removal of monitors and keep wires tidy to the electrical socket. On Sapper XYZ single arms there is a cable management block in the channel under the arm that will contain wires from the monitor to plastic cable management clips that go on the post. Sapper XYZ Crossbar, there are two hook and loop fabric strips on the crossbarke to tightly shape cables down to the plastic cable management clip attached to the post.

Arm Adjustment:
The Sapper XYZ and Sapper XYZ Crossbar follow a 180 degree axis for landscape or portrait viewing, adjust the swivel back and forth 180 degrees for landscape or portrait viewing. You can also rotate the monitor up and down, 180 degrees of rotation for portrait and landscape viewing.

Weight Adjustment:
The Sapper XYZ and Sapper XYZ Crossbar can be adjusted for different weights. The weight adjustment nut to the maximum weight of 360 degrees for landscape or portrait viewing. You can also rotate the monitor up and down, 180 degrees of rotation for portrait and landscape viewing.

Temperature Note: Sapper XYZ Crossbar's spring weight tolerance performance may be reduced by 1-2 lbs when used in temperatures above or below typical office temperatures.

Fast Release:
Allows for easy installation and removal of Flat panel monitors by merely popping the quick release pin up to remove monitor with movement joint back plate attached. Be sure to lift the arm to the highest position before removing monitor, so the arm will quickly move upwards.

Thief Deterrence:
All movement joints come with a set screw within the fast release pin, to prevent fast release if so desired.

Compatibility:
The Sapper XYZ monitor arms are not compatible with the Sapper Monitor Arm Collection. It has been designed independently and as such parts from one system cannot be used with the other, with the exception of the movement joint. Finish colors are consistent across the Sapper XYZ and Sapper Monitor Arm Collection portfolios.

Installation Instructions:
Comprehensive installation instructions will be shipped with product, and are also available on Knoll Exchange for easy reference.

Construction:
Arm: the cast aluminum with channels and plastic molded sheath.

Movement joint (includes fast release monitor plate): plastic bushings, zinc and plastic molded plastic tilt friction components and plastic filled nylon VESA plate.

VESA plate adaptable: steel

Table clamp, grommet mount, fixed table mount, steel

Cable management:
Sapper XYZ single arm: transparent polycarbonate clip on post, hook and loop fastener strips on crossbar

Antenna Table Center Beam Side Mounting:

Deep Table-Clamp Mounting:
This clamp is one piece and works on most workstations and table. The 3/8" clamp mount is intended to clear most knoll-edge (45 degree angle) or dishwasher. Key Note: Flat panel monitor manufacturers refer to their products by diagonal screen measurements. So a 19" widescreen monitor has a 19" screen measured diagonally, but some might refer to a 19" screen. The actual size varies from manufacturer to manufacturer. The most common sizes are 15", 17", and 19". Please follow installation instructions closely (available in each kit box shipped as well as on Knoll Exchange).

Apple Computer Note: VESA Adapter options on specific Apple models may need to be purchased with integrated VESA Mount Adapters. Knoll cannot be held responsible for the structural integrity of any non-Knoll workstations.

  - Advanced Easy Lift arm with dual pivot - 20.7° to 27° w 2.3" d 2.3" h 2.3"
  - Sit/Stand arm with dual pivot - 20.7° to 27° w 2.3" d 2.3" h 2.3"

- **21" Swivel Keyboard Platform**: Advanced Easy Lift arm - 20.7° to 29.7° w 2.3" d 2.3" h 2.3"
  - Short Easy Lift arm - 20.7° to 29.7° w 2.3" d 2.3" h 2.3"
  - Sit/Stand arm - 20.7° to 29.7° w 2.3" d 2.3" h 2.3"
  - Sit/Stand arm with dual pivot - 20.7° to 29.7° w 2.3" d 2.3" h 2.3"

### Mechanism Attributes
- **Advanced Easy Lift arm**:
  - Variable height adjustment of 0.5° (up 2.5°, down 6.5°)
  - Soft touch knob adjusts tilt from 10° to (-) 20°
- **Short Easy Lift arm**:
  - Variable height adjustment of 5.1° below the worksurface
  - Soft touch knob adjusts tilt from 10° to (-) 20°
- **Sit/Stand arm**:
  - Variable height adjustment of 14.2° (up 8.3°, down 5.9°)
  - Soft touch knob adjusts tilt from 10° to (-) 15°

### Construction
- All platforms are HDPE.
- Wristslats are polyethylene mold with polypropylene insert.
- All arms are steel with a powdercoat finish.
- Tracks are steel with nylon glides.
- Mechanisms:
  - Knobless height adjustment
  - Spring assist adjustment
  - Pivot 360° on the track
  - Black textured metal finish

### Application Notes
- Keyboard support provides users with a more ergonomic working environment by allowing for proper neutral posture.
- Springs are positioned over the numeric keyboard pad, allowing for proper neutral posture.
- For double mousing surfaces and 21" Swivel and 21" Swivel HP platforms, separate pads are orderable as KIT parts.

### Ordering Information
- Example: OAK-21HP-AL-BK-PT-(22)
  - Pattern code: YAK

### Easy Order Kits
- Swivel HP Keyboard Platform offers a fully adjustable keyboard support option with height adjustable mounting surface which can be positioned over the numeric keyboard pad. For double mousing surfaces on 21" Swivel and 21" Swivel HP platforms, separate pads are ordurable as KIT parts.

### Mechanism Attributes
- All mechanisms have the following features:
  - Spring assist adjustment
  - Knockless height adjustment
  - Pivot 360° on the track
  - Black textured metal finish

Freestanding Ergonomic Accessories

VDT Sleeve

- Racetrack-shaped sleeve slides over worksurface to create VDT corner.
- Creates 17 5/8" wide VDT corner, 9" from worksurface corner.
- Can be adjusted to any angle, or removed when not needed.
- Heavy-gauge steel with felt backing to prevent scuffing.
- Available in two metallic and two soft-touch finishes.

Surf Board VDT Corner

- Fits any worksurface thickness or edge profile.
- Creates generous 24" wide VDT corner, 14" from worksurface corner.
- Can be adjusted to any angle, or removed when not needed.
- Integral non-handed mouse pad.
- Felt back and rubber bumpers protect worksurface.
- Designed by Ross Lovegrove and Stephen Peart.

SLING Sling

Ordering Information
Specify:
1. Pattern number

Construction
- Adjustable Sling CPU Holder:
  - Black painted glass filled nylon mounting mechanism.
  - Woven nylon sling.
- Adjustable Vertical CPU Holder:
  - Black painted steel frame with glass filled nylon slide clamp.
  - Slide: Black painted steel

Mounting Note
- CPU holders come standard with a 17" long track. They mount on work surfaces 18" or deeper.

Antenna, Tone and Telescope Mounting
- Antenna: In order to mount on Arizona Workspaces, an adapter is needed, available through the Arizona price list. Pattern code YAPCU.
- Tone: In order to mount on Tone T-leg and 30" deep C-Leg, an adapter is needed, available through the Antenna price list. Pattern code YAPCL. 30" deep C-Leg provides enough track clearance.
- Telescope: Due to legroom clearance, CPUs cannot mount on Telescope tables less than 72" wide. For mounting on tables 72" or wider, only one power supply tray can be installed opposite from the CPU holder.

#### Construction

**Whiteboard:** Honeycomb core with medium-density fiberboard skin, high pressure laminate finish and ABS edge.

**Crossmember:** Aluminum

**Legs:** Steel

**Cup:** Die cast aluminum with wool felt insert and steel fasteners.

#### Note
- Each markerboard ships with four dry erase markers (blue, green, red and black) and a microfiber cleaning cloth.
- Overall height from floor is 72" high with writable surface starting 25" from floor.
- The optional marker tray runs the length of the crossmember. The optional marker cup mounts to the side.
- To prevent dry erase markers from drying out, store them with the cap down in the optional cup.
This Selling Policy supercedes all previous selling policies. Prices, discounts and product offerings are subject to change without notice.

Sales by Knoll, Inc, or Knoll Studio, a division of Knoll North America Corp. ("Seller") of Knoll, KnollStudio or KnollTextiles, as applicable, are made only on the terms which are contained in this Selling Policy. Seller hereby gives notice of its objection to any different or additional terms and conditions. This sale is expressly conditional upon Purchaser’s assent to the terms and conditions set forth below. Additional terms and conditions may apply to Knoll Studio and Knoll Textiles orders. These terms and conditions may be modified or supplemented only by a written document signed by an authorized representative of Seller. These terms and conditions supercede any prior and/or contemporaneous agreements or correspondence between Purchaser and Seller. Written quotations expire thirty (30) days from the date of issuance and can be withdrawn by written notice anytime during that period. Where Purchaser fails to order, Seller will maintain the order in the system, and the original quoted price will apply as long as the order is ready for shipment. Seller may transfer the Product to storage, in which case all expenses incurred in connection with storage, including labor, demurrage, preparation for storage, storage charges, and handling shall be payable by Purchaser upon submission of invoices by Seller. Risk of loss to the Product shall pass to the Purchaser upon delivery of the Product into storage.

Delivery/Freight Charges

Shipment outside the contiguous 48 United States and Canada shall be shipped F.O.B. Origin. For shipments outside the contiguous United States and Canada, Purchaser is responsible for the cost of freight from point of embarkation, including any handling and transportation charges incidental to loading at the point of departure. Conditions beyond the control of Seller, including weather, available facilities and traffic conditions, may affect exact time of delivery, Seller shall not have responsibility for specific carrier delivery date or time unless it has made a specific delivery commitment, in writing.

Nonstandard methods of shipment and/or additional services are available upon request. Purchaser will be billed for the differential cost of any special services in excess of standard surface carrier freight costs. Premium charges, at Purchaser’s request, will be added for airfreight, exclusive use of vehicle and extra, export or special packaging. Accessorial charges will be added for inside delivery, extra labor, reconsign and redelivery. Partial shipments may be made and invoiced by Seller.

Claims

All shipments for Knoll Products within the contiguous United States and Canada are F.O.B. Origin. All risk of loss passes to Purchaser at time of delivery to carrier. Purchaser shall inspect all Products upon receipt and notify Seller within ten (10) working days after receipt of any damage or defects which are, or should be, apparent from an inspection of the Product and its packaging. Failure of Purchaser to notify Seller during the ten (10) working day period shall constitute acceptance of the Products and waiver of any apparent defects, errors or shortages. For all claims relating to Product damaged in transit or for other claims relating to or arising out of the transportation of the Product, Purchaser must seek recovery from the carrier and Seller has no liability to Purchaser for such claims. Seller may, upon request, assist Purchaser with filing of such claims with the carrier, but Seller will not be liable for any of these transportation related claims.

Seller’s Security Interest

Until Seller receives the full payment for the Product, Seller shall have a security interest in the Product. Purchaser agrees to perform all acts, including but not limited to the execution and filing of documentation, which may be necessary to perfect and assure the security interest of Seller.

Returns

The return of Products without a written authorization by Seller shall not be accepted. To receive authorization for Product return, please call Customer Service. All Products that are returned pursuant to a valid authorization shall be subject to a twenty-five percent (25%) restocking charge. Products not currently offered for sale by Seller (including COM) shall not be authorized for return. All returned Products must be unused, in original condition and in the original Seller packing cartons. No refund or credit shall be given for damaged Products.

Held Orders/Storage

If Purchaser requests that an order be held or delayed, prices and terms and conditions in effect at the time of shipment shall apply. If Purchaser requests a delay after the time when Seller can defer production, Purchaser will be invoiced for the Product, payable in accordance with standard terms, when the order is ready for shipment. Seller may transfer the Product to storage, in which case all expenses incurred in connection with storage, including demurrage, preparation for storage, storage charges and handling shall be payable by Purchaser upon submission of invoices by Seller. Risk of loss to the Product shall pass to the Purchaser upon delivery of the Product into storage.

February 15, 2016
Selling Policy

Customer’s Own Material

A Purchaser who requests a fabric or other surface material not standard to Seller’s line of Products (“COM”) must submit samples of the requested material to Seller prior to entry of a purchaser order. Seller shall determine if the material is suitable to its manufacturing processes and meets any requirements of Underwriters Laboratories. If the COM is acceptable, Seller will then establish a price for using the COM or the Product in question. For a description of the procedures for submitting samples and testing, contact customer resources or your sales representative. Seller shall have no responsibility for the appearance, condition, performance, durability, colorfastness or any other physical attribute of the COM. Purchaser shall indemnify and hold Seller harmless for any damages, injuries or losses arising out of or in connection with use of the COM on the Product.

Warranty

Seller warrants to the original Purchaser only that the Products Seller manufactures and sells to Purchaser are free of defects in workmanship and materials during the applicable warranty period set forth below.

Warranty period set forth below is for 24-hour, 7 days a week, multi shift use (includes parts and labor to repair).

Should any failure to conform to this limited warranty appear to a Product listed below during the applicable warranty period from the date of shipment, Seller shall, upon prompt written notice, repair or replace, at its option and costs, the affected part or parts.

Product and Period of Warranty

Lifetime: Antenna Workspaces, AutoStrada, Calibre, Crinion Open Table, Currents, Dividends Horizon, Morrison, Reff Profiles laminate, Series 2 Storage, Template and other non-wood components (except cascade edge worksurfaces, operational parts, controls, electrical, Lighting, Series 2 Veneer Front Storage, special or custom products, see below)

12 Years: Chadwick, Essentials Work Chairs, Generation by Knoll, Life, Moment, MultiGeneration by Knoll, ReGeneration by Knoll, Remix, and Toboggan seating (except seating upholstery, textiles, leathers and finishes, see below).

10 Years: Anchor Storage except digital keypad lock, Antenna Workspaces, AutoStrada, Crinion Open Table, Dividends Horizon, Dividends Horizon Satellite Surfaces, Reff Profiles, Template wood components, Series 2 Veneer Front Storage, cascade edge worksurfaces, Wood Casegoods (The Graham Collection) (except wood casegoods upholstered surfaces, see below), Reuter overheads, Reuter vertical storage, KnollExtra Sapper Monitor Arm Collection, Sapper XYZ Monitor Arm, Adjustable keyboard mechanisms and platforms, Communication Boards (except fabric board textiles, see below), Smokador collection (except leathers, see below), and Orchestra Universal Systems Accessories, k. lounge structural components.

5 Years: Operational parts, controls, electrical, Lighting (except light ballasts, bulbs and power supply, see below), special or custom product, wood veneer products, Currents handcrank, Interaction Counterforce, KnollStudio, Spark Series seating structural elements, structural elements of all KnollStudio outdoor products including all Richard Schultz designed products, KnollExtra CPU storage and all universal storage drawers and Power Collection, Tone Tables.

3 Years: Seating upholstery, textiles, leathers and finishes. Fabric boards textiles and Smokador Collection leathers.

2 Years: Anchor Storage digital keypad lock, all other KnollExtra product

1 Year: Light ballasts, bulbs and power supply, seating upholstered armpads and soft armpads, wood casegoods upholstered surfaces. KnollStudio, outdoor product finishes, k. lounge upholstery and k. lounge fabric.

This warranty does not apply to:
• Damage caused by a carrier other than the Seller.
• Normal wear and tear or acts or omissions of parties other than Seller (including user modification, improper use or installation of Products).
• COM or other third party materials applied to Products.
• Products not installed by or under the auspices of a Knoll Dealer.
• Dramatic temperature variations or exposure to unusual conditions.
• Changes in surface finishes, including colorfastness due to aging or exposure to light.
• Except as specifically noted above, textiles and upholstery supplied by KnollTextiles (consult current KnollTextiles price list for applicable warranty). Natural variations occurring in wood, marble, and leather shall not be considered defects, and the Seller does not guarantee the colorfastness or matching of the colors, grains or textures, or surface hardness of such materials. The Seller also does not guarantee the colorfastness of fiberglass panel surfaces.

The EXPRESS WARRANTIES CONTAINED HEREIN ARE IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTIES OF MERCHANTABILITY AND FITNESS FOR PARTICULAR PURPOSE AND ALL OTHER WARRANTIES ARISING FROM COURSE OF DEALING OR USAGE OF TRADE.

The remedies provided above are the Purchaser’s sole remedies for any failure of Seller to comply with its obligations regarding the workmanship of its Products. Correction of any nonconformity in the manner and for the period of time provided shall constitute complete fulfillment of all liabilities of Seller, with respect to or arising out of the Product furnished hereunder.

Delay/Force Majeure

Seller shall not be liable for failure to perform or for delay in performance due to fire, flood, strike or other labor difficulty, act of God, act of any governmental authority or of the Purchaser, riot, embargo, fuel or energy shortage, wars or delay in transportation, inability to obtain necessary labor, materials or manufacturing facilities from usual sources or failure of suppliers to meet their contractual obligations, or due to any cause beyond its reasonable control. If any such event occurs, Seller may extend delivery dates by a period of time necessary to overcome the effect of such delay, allocate available Product or cancel any purchase order.

Compliance with Law

PURCHASER IS SOLELY RESPONSIBLE FOR COMPLIANCE WITH ALL APPLICABLE FEDERAL, STATE AND LOCAL LAWS, ORDINANCES, REGULATIONS, RULES AND STANDARDS RELATING TO THE INSTALLATION, MAINTENANCE, USE AND OPERATION OF THE PRODUCTS.

Subject to the following provisions, Seller shall, at its own expense, defend or, at its option, settle any claim, suit or proceeding brought against the Purchaser, and/or its vendors, mediate and immediate, so far as based on an allegation that any Product or any part thereof furnished hereunder constitutes a direct or a contributory infringement of any claim of any patent of the United States or Canada. This obligation shall be effective only if Purchaser shall have made all payments then due hereunder and if Seller is notified promptly in writing and given authority, information and assistance for the defense of said claim, suit or proceeding. Seller shall pay all damages and costs awarded in such suit or proceedings so defended.

The foregoing indemnity does not apply to the following:
• Products supplied according to a design other than that of Seller, and which is required by the Purchaser.
• Combination of the Product with another product not furnished hereunder unless Seller is a contributory infringer.
• Any settlements of a suit or proceeding made without Seller’s written consent.

Limitations of Liability

SELLER, ITS CONTRACTORS, AUTHORIZED DEALERS AND SUBCONTRACTORS OR SUPPLIERS OF ANY TIER SHALL NOT BE LIABLE TO PURCHASER FOR ANY SPECIAL, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING FROM A BREACH OF THIS AGREEMENT.

Purchaser’s remedies set forth herein are exclusive and the liability of Seller with respect to the breach of this agreement or any contract entered into between the parties pursuant hereto shall not exceed the price of the Product or part on which such liability is based.
General Ordering Information

The Products
This guide encompasses all standard products for this product group.

Sizes
Dimensions listed in this guide are indicated as:
H = height
W = width
D = depth
Dia. = diameter
Rad. = radius

Pricing
All prices shown are list.

How to Order
Select pattern numbers and quantities required for your complete installation. Product questions can be addressed in the specific sections of this guide or by contacting your sales representative or customer resource representative at 1-800-343-5665.

Next, select options (if required), along with colors and finishes appropriate to each product. Reference the Finishes and Fabrics pages for color designations.

On large installations, an item’s “designated area” can be specified to assist in product organization and handling.

To expedite complete / correct entry of your order, be certain all pattern numbers, quantities, colors and area identifications are completely specified. Also, include complete purchase order numbers, bill-to and ship-to addresses, a contact name and specific factory shipping dates required.

Mail all orders to:
Knoll, Inc.
1235 Water Street
East Greenville, PA 18041
Attention: Order Entry

Once your order is entered at Knoll, an acknowledgment will be mailed to you. You will be advised of your scheduled shipping date within five days of the original acknowledgment. If it is necessary to revise your order, please contact your customer resource representative.

Sustainability Statement

Sustainable design is a key component of Knoll’s environmental focus. Our commitment to social responsibility and a healthy environment has prompted us to further articulate our longstanding environmental programs and, with encouragement and support from our colleagues in the industry, we have re-energized our focus on such “green” initiatives as life cycle analysis and LEED™ certification. Knoll is proud to have contributed to projects that have received LEED certification from the U.S. Green Building Council.

For the latest information on Knoll products that help our customers achieve LEED certification, log on to knoll.com, click on “About Knoll” and then “Environmental Focus.”
