	(K)  PART # VARIES FRAME,LONG		

# Table with 2x4 Legs

Reference Number: 6TP00385

## 1. Assembly Instructions

### 1.1. Frame/leg sub-assembly

- 1.1.1. Using fastener (D) assembly one leg pair (A) to one of the short milled frame components (J). Repeat this step for the remaining leg pair and short milled frame components. (Fig. 1)
- 1.1.2. Again using fastener (D) complete the frame/leg sub-assembly by securing both long frame components (K) to the previously assembled components. (Fig. 2)

**Notes:** Long frame components must be oriented with the pre-drilled holes facing in-ward.

- 1.1.3. Using fastener (E) secure corner brackets (B) using the pilot holes

provided for proper positioning. (Fig. 3)

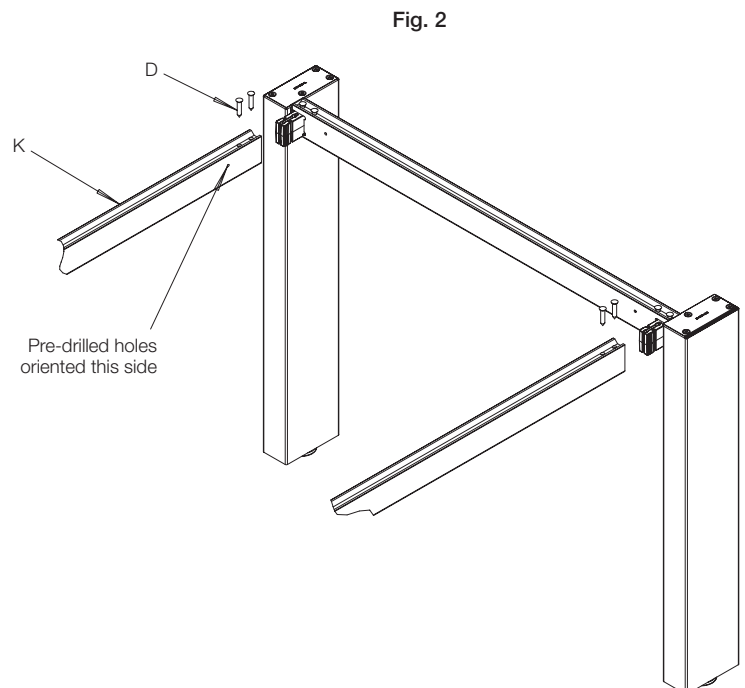

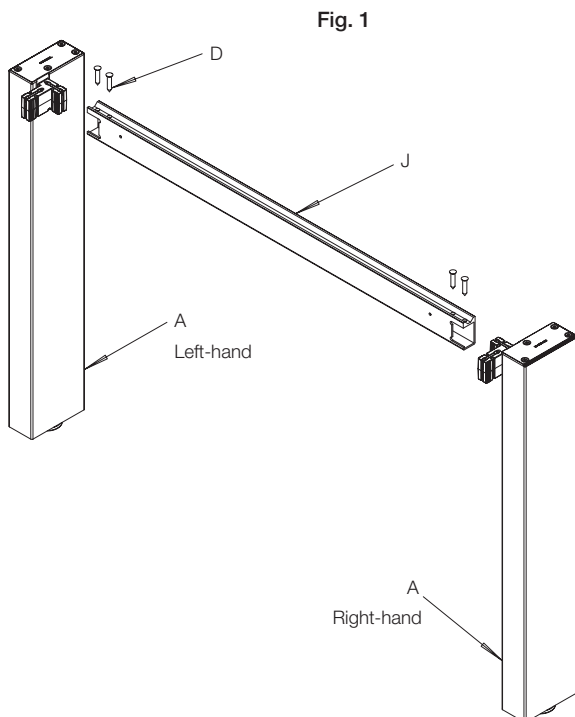

### 1.2. Top attachment

- 1.2.1. Using fastener (F) secure the corners of top (H) using the pilot holes provided for proper positioning. (Fig. 4)
- 1.2.2. Using fastener (G) secure all L-brackets (C) to the underside of the top using the pilot holes provided for proper positioning. (Fig. 5)
- 1.2.3. Using fastener (E) complete the attachment of all L-brackets (C) to the frame. (Fig. 6)

**Notes:** As the worksurface in it's natural state may be slightly bowed, press down on the top to insure contact with the frame to help flatten the top.

## 2. Optional Accessories

- 2.1. Installation instructions for any optional accessories (ordered separately, see price list) are available on the Knoll Exchange website at "[http://exchange.knoll.com/products/installation\\_instructions.jsp](http://exchange.knoll.com/products/installation_instructions.jsp)" or contact your Knoll representative.
