Health Care Without Harm
Healthy Interiors Criteria
Product List
Knoll supports the Health Care Without Harm Healthy Interiors Criteria, and offers furniture solutions that healthcare clients and the design community can trust will meet the Healthy Interiors criteria:

+ Formaldehyde
+ Per- and poly-fluorinated compounds (PFAS)
+ Polyvinyl Chloride (PVC)
+ Antimicrobials
+ Flame Retardants

Our Supply Chain is constantly evolving; please confirm conformance to the attributes at the time of specification because information is subject to change. Healthier Hospitals encourages manufacturers to provide information on furniture that meets the Healthy Interiors goals of the Safer Chemicals Challenge. Furniture described herein meets the Healthy Interiors goal of the Safer Chemicals Challenge according to the manufacturer. Practice Greenhealth does not verify manufacturer information.

Please note: All KnollStudio products pass this standard with the exception of the Pascal table and Brno chair; testing in process for the KN Collection and Avio sofa.

Leverage the power of design to create inspiring healthcare environments.

In today’s healthcare environment, providers must improve patient satisfaction as well as attract and retain caregivers, all while delivering quality care and reducing costs. Many providers understand the role that design can play in achieving these goals: it can impact patients’ perceptions of their brand and the care they receive, and it can affect staff performance, productivity and comfort on the job.

For over three decades, Knoll’s constellation of brands and distinct product portfolio has brought modern design to healthcare environments. Our focus is to provide attractive, highly adaptable, and durable product solutions designed to meet the needs of today’s healthcare facility.
