Knoll and Sustainable Design

Each year Knoll sets key initiatives in our journey to sustainability. We are members of a global consortium on energy, have adopted a scientific, metrics-based approach to sustainable product design, and maintain a leadership position in establishing universal, verifiable, sustainability standards for our industry.

Knoll promotes independent third-party certification because it provides the most impartial and trustworthy foundation for industry-wide environmental compliance. Certification by established and respected third parties ensures that all manufacturers are held to the same high standards and that customers can trust a company’s declaration about the environmental benefits of its products. Knoll third-party partners include: the International Standards Organization (ISO); Forest Stewardship Council (FSC®); Rainforest Alliance; GREENGUARD® Environmental Institute; and The Business and Institutional Furniture Manufacturer’s Association (BIFMA) level® certification from Scientific Certification Systems (SCS).

In addition, Knoll is aligned with the U.S. Green Building Council and can help companies, healthcare organizations and educational institutions achieve Leadership in Energy and Environmental Design (LEED®) workplace certification.

Global Climate Change

- Knoll is a sponsor of the Clinton Global Initiative, which brings together a community of global leaders to devise and implement solutions to some of the world’s most pressing challenges, including environmental change.
- Knoll has a comprehensive Energy Management Program to increase energy efficiency in products and processes.

Life Cycle Assessment (LCA) Tool

- Life Cycle Assessment is a science-based measurement of a product’s environmental impacts throughout its life cycle, from raw materials sourcing through manufacture, shipping, use and re-use or end-of-life. LCA enables cradle-to-cradle implementation of sustainable practices.

Setting Industry Standards

- Knoll partners with MTS (The Institute for Market Transformation to Sustainability) to develop the SMaRT© Consensus Sustainable Products Standards, a set of consensus-based sustainable product standards based on the LEED® model, for all building products, fabric, apparel, flooring and carpet. MTS, the developer of SMaRT®, is an accredited American National Standards Institute (ANSI) standard developer.
- Knoll also partners with BIFMA (Business and Institutional Furniture Manufacturers Association) to promote level® sustainability standards for the contract furniture industry.
- Knoll has established FSC® (Forest Stewardship Council) certified wood as the standard for general office open plan office systems, casegoods and tables.
- Knoll has launched Full Circle, a resource recovery program developed with ANEW, to help customers extend the life cycle of surplus furniture, fixtures and equipment (FF&E) in an economically, socially and environmentally responsible manner.
- Our goal is to encourage all manufacturers in the contract furniture industry and related industries to adopt standards that will lead to sustainable products and practices.

For more information about Knoll and sustainable design, visit knoll.com/environment.
All Knoll Office Seating is GREENGUARD and GREENGUARD Gold certified.

All KnollExtra® products are GREENGUARD certified.

Visit GREENGUARD.org for more information and to find printable certificates for Knoll Office Seating that can be used for verification and LEED® submission.

GREENGUARD provides the only guide to certified low-emitting interior products and building materials. Its goal is to help building owners and managers, architects, interior designers and product specifiers build and furnish healthier offices, hospitals, schools and homes by providing a register of tested and certified low-emitting products and materials.

GREENGUARD certification is recognized by the U.S. Green Building Council’s LEED® Program. Air Quality Science, an independent indoor air quality laboratory, tests products submitted for certification using stringent environmental chamber testing protocols and current indoor air quality standard. Certification is administered by the GREENGUARD Environmental Institute (GEI), an industry-independent, non-profit organization.

GREENGUARD Gold certification complies with the State of California’s Department of Health Services Standard Practice (CA Section 01350) for testing chemical emissions from building products used in schools, offices and other sensitive environments. Certified products can contribute to achieving credits in the CHPS Best Practices Manual for K-12 schools, the LEED® Green Building Rating System, Green Guide for Healthcare™, NAHB Green Building Guidelines, Green Globes, Regreen and numerous other local authorities’ green building codes.

Knoll Office Seating and KnollExtra® products can contribute to achieving LEED® credits. GREENGUARD-tested and certified office furniture is required for Credit 4.5 in the LEED-CI Indoor Environmental Quality section.

GREENGUARD Certification Program
- Internationally recognized for evaluating product emissions and certifying building materials, furnishings, finishes and cleaning products and processes that meet stringent indoor air quality criteria defined by GEI.
- Products undergo rigorous, third-party testing to determine their impact on indoor air pollution with requirements for ongoing testing and verification.
- Certification confirms a manufacturer’s environmental responsibility, and signifies their environmental achievements through independent, third-party testing and verification.
- GREENGUARD Certified products are recommended by leading sustainable building programs, including:
  – U.S Green Building Council’s (USGBC) LEED Rating System,
  – National Association of Home Builders (NAHB) Green Building Guidelines,
  – Green Guide for Health Care (GGHC),
  – Collaborative for High Performance Schools (CHPS) Best Practices Manual,
  – New York City Department of Design and Construction Sustainable Design Specifications, among others.
An Overview

In the first part of the Price List you'll find Lighting and Power Series.

The second part features a full range of desktop accessories including Smokador and Orchestra, perfect for panel-mounted or freestanding application.

Part three offers a broad range of systems support products, including technology management and communication boards.

Can’t find it? Consult the Table of Contents on page 1 or the Alpha-numeric Index on page 176.

Product Information on Each Page

The KnollExtra Price List was designed to provide you with everything you need to know in order to understand, specify, and care for KnollExtra products. On each page, the following features will assist you:

- **Description/Construction** explains salient features, capabilities, materials, and country of origin.
- **Dimensions** provide the overall space the product will require. Statistics are based on the maximum width, depth and height of the product.
- **Weight** is based on the product itself. It does not include packaging or complementary items such as pens, memo paper or calendars.
- **Order Code/Ordering Information** outlines exactly how to specify KnollExtra product and the full scope of finish options. The Order Code provides an example of how one pattern number is specified.
- **Custom Options** reviews availability of special sizes, finishes etc.

For More Information

For more information, contact your Knoll sales representative, telephone Customer Service at 1-800-343-5665, or visit one of the Knoll showrooms listed on the last page of this book.

A Word About Finishes

KnollExtra finishes are designed to complement a broad range of interiors and office products.

Key KnollExtra finishes coordinate with specific Knoll systems finishes:

### Use the Following Addresses

If you would like to send a standard lead time order to our order entry department, please use the following address:

*For North American orders:*
Knoll, Inc.  
1235 Water Street  
East Greenville, PA 18041  
Attn: Order Entry  
Fax: 215 679-1788  
Tel: 800 343-KNOLL

All accepted orders will be confirmed in writing on the Knoll standard order confirmation form.

### Ship-Complete Orders

Orders that must ship complete are to be so stated on the purchase order. Products with different lead times, combined on one order, can be acknowledged for shipment based on the longest of those lead times. Orders not marked “ship complete” will be released according to the confirmation, and invoiced in increments.

### For More Information

For complete Knoll Selling Policy and warranty information, please refer to page 178 of this price list.

For additional information on KnollExtra, contact your Knoll representative, a Knoll dealer, or telephone Customer Services at 800 343-KNOLL.

Maintaining Your Purchase

Plastic
Windex and a dry cloth.

Stainless Steel:
Windex and a dry cloth.

Antique Brass, Brushed Zinc and Black Oxide:
A damp cloth with no cleaning agents.

Satin Brass:
Pledge.

Linoleum:
Windex and a dry cloth.

Contemporary and Traditional Standard Leathers:
Mild soap and water on a soft cloth.

Spinneybeck Leathers:
As a result of the high quality aniline dye process, most scratches or minor stains can be removed simply by gently rubbing them with your fingers. The body’s natural oils revitalize the leather. For stubborn stains, use mild soap and water. Take care to wash the surface evenly since soaps may slightly alter the leather’s tonality.

Surf Collection:
Wipe nylon skin using warm water and mild detergent. Do not use abrasives.

Office Automation Accessories/Storage Drawers:
Clean with a soft cloth and Windex, Fantastik, Endust or other non-abrasive household cleaners. Remove stubborn stains with SoftScrub.

For Surf Board and VDT Sleeve soft touch paints, never use abrasives. Clean with lukewarm water and a soft cloth.

Marker Boards:
For day-to-day use, surface requires only a dry cleaning with a standard felt eraser or dry cloth. For best results, keep marker board and marker pens at room temperature. KnollExtra suggests Bic Great Erase BOLD marker pens which are designed for use on marker boards. All marker pens should be tightly capped and stored horizontally when not in use.

Follow the instructions below as a periodic maintenance program, or to remove stubborn stains:

1. Clean with EV-1 or any liquid ammonia-added cleaner and rinse with clean water, then dry. For best results, wash board like a window with sponge and squeegee.

2. Interim cleaning may be done by sprinkling a dry powdered cleanser on an eraser and applying to the board in a circular motion. Rinse with clean water, then dry.

3. To remove crayon, scotch tape, or other stubborn materials, apply a mild solvent or paste made with scouring powder and water.

Fabric Boards:
Despite the durability of most panel textiles, fabric boards are subject to long-term soiling and wear. A regular maintenance program will significantly lessen soil and dirt build up or staining on your fabric boards. Cleaning is particularly important in areas adjacent to air conditioning or ventilation systems. Remember to consult the care instructions provided by the fabric manufacturer. The general recommendations below should apply to most fabric boards.

1. Avoid excessive heat or moisture which can affect finishes and adhesives. Never allow fabric panels to become wet inside the core. Room temperature should be maintained between 50 and 85 degrees; humidity should be maintained between 20 and 50%.

2. Avoid contact with sharp edges which could puncture the surface.

3. Do not handle fabric boards more than necessary. Avoid bending or flexing the panels; this could break the bond between the surface and core materials.

4. Grease or oil should be wiped off immediately upon contact. Remove excess grease or oil by blotting. Use hot water and mild soap to remove any remaining residue.

5. Whenever possible, clean only with warm water and mild soap. Use caution when applying cleaning agents, particularly those that contain alcohol, strong alkalies, or solvents. These ingredients may react to the vinyl backing or adhesives used in the fabric boards. Always test cleaning agents on fabric from the rear of the panel before using on the front.

6. Care should be taken in using strong room cleaners or pesticides. Their fumes may contain agents which lead to the loosening of the fabric board glue bond.

Pop Up Desktop Screens:
Clean with soap and water. For greasy stains, use a cleaning agent, first testing in a less visible area.
# LED Light Series: Sparrow®

## Ordering Information

- **Specify:**
  1. Pattern number
  2. Mount
  3. Finish

### Finish Options:

- Black (111)
- White (118)

### Additional Information

- Sparrow is available in a black or white finish with stainless steel rods.
- Occupancy sensor (LED PIR) can be added to any LED light and must be ordered separately.
- UL Certified.

### Height Range

- Open table clamp:
  - Articulates 18° to 90°
  - Table clamp: 2.5" to 21.4"
  - Antenna beam side: 3.5" to 22.3"
  - Freestanding: 4.3" to 23.2"

### Construction

- Lamp: LED, cast aluminum housing, stainless steel frame and plastic reflector and lens.
- Table clamp mounts: steel.
- Antenna beam side mount: die cast aluminum.
- Freestanding base: plastic and cast iron.
- Occupancy sensor: extruded aluminum body, plastic face, end caps and lens.

### Design Awards

- Best of NeoCon 2013 Silver Award.
- Sparrow is TAA compliant.

**Light Bulb Information**

- Ships with a 13 watt compact fluorescent light bulb. This is equivalent light output of a 75 watt incandescent light bulb.
- 13w/120v/2700K, UL listed, ENERGY STAR rated.
- An incandescent light bulb can also be used. 75 watt is the maximum for the standard light and 60 watt is the maximum for the compact light.
- See above for bulb replacement.

**Construction**

The Copeland Light has a steel arm, aluminum axles, zinc coated cast iron base and metallic painted ABS shade.

**Design Awards**

Best of NeoCon 2005, Silver Award

<td>ACT-CUP-MG</td>
<td>$199.00</td>
</tr>
</tbody>
</table>

**General Notes**

- Each electrical module has either 4 outlets or 3 outlets and 2 USB ports, depending on specification.
- Power Cube is 13” high with 4 levelers. Hard wired comes with 72" whip. Cord set comes with 72" cord with a 3-prong plug for 120V outlets. Base includes one slot per corner for choice of cord exit.
- Power Cube: Powder coated steel, steel and nylon levelers
- Magnetic Accessory Cup: See page 42.

**Construction**

- **Power Disc:**
  - Max Load: 120V, 15A, 50/60 Hz
  - Voltage Protection Rating: L-N 600V, L-G 600V, N-G 600V
  - UL Listed Relocatable Power Tap/Surge Protection Device
  - 10’ 3-prong cord recesses in base for flat surfaces or can be threaded through standard grommet
  - on/off switch with LED indicator
  - Unit weighs 4.3 lbs.
  - Made in China for Knoll.

**Order Code**

- Example: ACT-PW-PC-36-36-13-1E

**Ordering Information**

- Specify: Pattern number
- Finish note: Power Cube finish is white markerboard paint.
- Optional Magnetic Accessory Cup must be specified in one of the following finishes:
- Code: Description
  - 111 Jet Black
  - 115 Medium Grey
  - 118 Bright White
  - 130 Dark Red
  - 131 Slate Blue

**Magnetic Accessory Cup**

Optional cup to hold dry erase markers and microfiber cloth eraser and/or personal device power cords; magnetic application can be applied to any side of the Power Cube.

Note: Each Power Cube comes with a whiteboard finish and ships with 4 dry erase markers (blue, green, red and black) and a microfiber cloth eraser.

To prevent dry erase markers from drying out, store them with the cap down in the optional cup.

</tr>
</tbody>
</table>

**List Price**: $13.99

**Construction**

Die cast aluminum with textured powder coat paint, wool felt insert, neodymium magnets and steel fasteners.

Pacemakers and items sensitive to magnetic fields should be kept 3.5" from product.

Note: A non-magnetic version of this accessory cup is available on Interpole (replace MG in pattern code with IP; see Antenna Workspaces price list for pricing) and Scribe Mobile Markerboards (see page 194 for specifications and pricing).

To prevent dry erase markers from drying out, store them with the cap down. To protect magnetic surface, avoid dragging the cup when repositioning.

**Mounting Options:**

- Please note flat panel monitor arms cannot be mounted on Orchestra® load bars. Flat panel monitor can be mounted on Orchestra® slat wall only when mounted on an architectural wall. Please review mounting before mounting. Please see p. 132 for flat panel monitor support mount options.

**Diversified Horizon panel mounting note:**

- Slat board mounts on panel slots, which are 2 3/4" below the top-cap, depending on the height of the panel.

**Panel, stanchion and wall-mounted brackets:**

- Wall, stanchion, or panel-mounted brackets are included in the list price.

**Panel, stanchion, and wall-mounted brackets:**

- Note: Slat board is available in custom lengths of up to 96". Please note that for all lengths greater than 60", load bar will be painted, not anodized.

- Custom brackets are currently available for virtually every major office system. Panel-mounted brackets for other systems can be developed. Minimum of 100 sets per bracket. Tooling and set-up charges may be required.

**Construction:**

- Slat board is available in custom lengths of up to 96". Please note that for all lengths greater than 60", load bar will be painted, not anodized.

**Tooling and set-up charges may be required.**

**Corrosion-resistant T-6063-T5 painted or anodized aluminum. End caps are 11 gauge steel painted matte black. Bottom rail is filled with 573 Delrin plastic pellets to support papers on Info Rail.**

**Diversified Horizon panel mounting note:**

- Slat board mounted on panel slots, which are 2 3/4" below the top-cap, depending on the height of the panel.

**Panel, stanchion and wall-mounted brackets:**

- Wall, stanchion, or panel-mounted brackets are included in the list price.

**Panel, stanchion, and wall-mounted brackets:**

- Note: Slat board is available in custom lengths of up to 96". Please note that for all lengths greater than 60", load bar will be painted, not anodized.

**Ordering Information**
1. Pattern number

**Mounting Options**
- Worksurface-mounted bracket:
  - Metal posts attach to underside of worksurface with C-clamp, raising Load Bar 10" above worksurface. Use only on worksurfaces 7/8"-1 1/2" thick. There should be at least 3/4"-1" of space between the back of the desk and the surface behind (i.e., it cannot be flush). Set of 2 brackets. For Load Bars wider than 66", order additional brackets. For use with load bars and 6 1/2" slat boards only.

**Custom Options**
- Brackets are currently available for virtually every major office system. Panel-mounted brackets for other systems can be developed. Minimum of 100 sets per bracket. Tooling and set-up charges may be required. Contact your Knoll sales representative or Customer Service for complete pricing information.

</table>

Kit includes everything needed to mount one monitor to a Horsepower Mount for 20 lb. Monitor (top): Sleeve arm, movement joint, 24\%/H11033 mast, adjustment knob, cable management clips and Horsepower mount.

Horsepower for 30 lb. Mount (bottom): corresponding VESA plate, two fixed sleeve arms, two 24\%/H11033 masts, two adjustment knobs, cable management clips and Horsepower mounts.

Horsepower is not included.

**Order Code**

- SAP MA HP 224 100 K
- SAP MA HP 224 100 200 K
- SAP MA HP 224 400 K

**Ordering Information**

- Pattern number
- Finish where required

**Mounting and Application Information**

To mount monitors on Horsepower, counter weights are necessary to keep the unit stable. A down-mounted cabinet or metal shelf along with a ballast kit are required, available in the Antenna price list.

Sapper Monitor Arm kits can be mounted to 30", 36", and 48" wide independent Horsepower and support screen widths up to 32", 36", and 50" wide—overall on corresponding units.

Horsepower, down-mounted cabinets or shelf and ballast kit must be purchased separately, available in the Antenna price list.

Mounting and Application Information

To mount monitors on Horsepower, counter weights are necessary to keep the unit stable. A down-mounted cabinet or metal shell along with a ballast kit are required, available in the Antenna price list. Please reference the Horsepower Tech Cart planning guide.

Sapper Monitor Arm kits can be mounted to 30”, 36” and 48” wide Independent Horsepower and support screen widths up to 32”, 38” and 50” wide overall on corresponding units.

To mount a monitor up to 20lbs., order a Sapper 24” mast, a Sleeve Arm, movement joint and one Horsepower Mount.

To mount a monitor up to 30 lbs., order two Sapper 24” masts, two Sleeve Arms (no movement joint needed), two Horsepower Mounts and a corresponding VESA plate.

Horsepower, down-mounted cabinets and ballast kits must be purchased separately, available in the Antenna price list.
Mounting, Construction and Application Information

Sapper™ Monitor Arm Collection

Mounting Options

- **Single Monitor Mounting:**
  - Maximum weight of 20 lbs. per arm, weight limits vary by mounting option.
  - Maximum weight of 18 lbs. per arm, weight limits vary by mounting option.
  - Maximum weight of 20 lbs. per arm, weight limits vary by mounting option.

- **Dual Monitor Mounting:**
  - Maximum weight of 50 lbs. per arm for single monitors.
  - Maximum weight of 20 lbs. per arm, weight limits vary by mounting option.

- **Triple Monitor Mounting:**
  - Maximum weight of 60 lbs. per arm, weight limits vary by mounting option.

- **Table-Mounted System:**
  - Maximum weight of 40 lbs. per arm, weight limits vary by mounting option.

- **Wall-Mounted System:**
  - Maximum weight of 40 lbs. per arm, weight limits vary by mounting option.

**Weight Limits:**

- **Single Monitor Mounting:**
  - Maximum weight of 20 lbs. per arm, weight limits vary by mounting option.

- **Dual Monitor Mounting:**
  - Maximum weight of 50 lbs. per arm for single monitors.

- **Triple Monitor Mounting:**
  - Maximum weight of 60 lbs. per arm, weight limits vary by mounting option.

- **Table-Mounted System:**
  - Maximum weight of 40 lbs. per arm, weight limits vary by mounting option.

- **Wall-Mounted System:**
  - Maximum weight of 40 lbs. per arm, weight limits vary by mounting option.

**VESA Mounting Compatibility:**

- **Single Monitor Mounting:**
  - VESA 100 mm x 100 mm (3.94 x 3.94) hole pattern.

- **Dual Monitor Mounting:**
  - VESA 300 mm x 300 mm (11.81 x 11.81) hole pattern.

- **Triple Monitor Mounting:**
  - VESA 400 mm x 400 mm (15.75 x 15.75) hole pattern.

- **Table-Mounted System:**
  - VESA 400 mm x 400 mm (15.75 x 15.75) hole pattern.

- **Wall-Mounted System:**
  - VESA 400 mm x 400 mm (15.75 x 15.75) hole pattern.

**Additional Notes:**

- **Maximum Monitor Height:**
  - Maximum monitor height on a 32” desk for double stacked monitors is 23.2”.

- **Weight Limits:**
  - Maximum weight of 40 lbs. per arm, weight limits vary by mounting option.

- **Installation Instructions:**
  - Please refer to the installation guide provided with the product.

- **Technical Support:**
  - Contact Customer Service for additional assistance.

**Mounting Directives:**

- **Single Monitor Mounting:**
  - Use single monitor arm for single monitor setup.

- **Dual Monitor Mounting:**
  - Use single monitor arm for single monitor setup.

- **Triple Monitor Mounting:**
  - Use single monitor arm for single monitor setup.

- **Wall-Mounted System:**
  - Use single monitor arm for single monitor setup.

**Compatibility:**

- **iMac Note:**
  - Can be mounted on Sapper and Sapper Extra.

- **Knoll Extra Note:**
  - Is not compatible with radius profile.

**Mounting Options:**

- **Single Monitor Mounting:**
  - Use single monitor arm for single monitor setup.

- **Dual Monitor Mounting:**
  - Use single monitor arm for single monitor setup.

- **Triple Monitor Mounting:**
  - Use single monitor arm for single monitor setup.

- **Wall-Mounted System:**
  - Use single monitor arm for single monitor setup.

  - Can be mounted on Sapper and Sapper Extra.

- **Knoll Extra Note:**
  - Is not compatible with radius profile.
**Sapper™ Monitor Arm Collection**

**Mounting, Construction and Application Information**

For use on architectural walls only as outlined further on this page. Knoll cannot be held responsible for the structural integrity of a wall so please work with clients to ensure their wall is structurally sound to hold the arm configuration and the monitor weight. See above for weight limits if mounting slat wall to an architectural wall.

**Sapper 50 Direct Wall Mounting (for Sapper 50 monitor arm):**

For single monitor mounting, you can use either the direct wall mount or direct wall mount. Please note that the Sapper 50 Direct Wall Mount is specific to the Sapper 50 arm. You cannot use the standard mount with the Sapper 50 arm or a standard arm with the Sapper 50 mount.

For use on architectural walls only as outlined further on this page. Knoll cannot be held responsible for the structural integrity of a wall so please work with clients to ensure their wall is structurally sound to hold the arm configuration and the monitor weight.

**Interpole Mounting**

Sapper arms can be mounted either on the slot or channel sides of Interpole with the proper mount. Mounts can be moved after installation but the pole may have residual markings.

If screens are mounted on the slot side, use the channel mount. If overheads are mounted on the slot side, then a Sapper/YY with extended channel mount will be necessary for full adjustability.

**Cable Management:**

**Mounting Arm:**

External cable management allows for easy installation and removal of monitors. There are gates under the arm that will contain wires from the monitor to plastic cable management clips that go on the mast to keep wires tidy in the electrical socket.

**Height Adjustment**

**Rotation, Swivel, Tilt and Depth Adjustment**

**Fast Release: Monitor Arm**

Allows for swift installation and removal of flat panel monitors by merely pushing the monitor joint slide toward the user from the beam while lifting the top of the monitor up.

For installations with Fast Release Wall Cords, simply pull the cord down while lifting the top of the monitor up.

**Fast Release with Set Screw**

**Height Adjustment**

**Rotational, Swivel, Tilt and Depth Adjustment**

**Fast Release**

**Set Screw to Prevent Arm Removal**

- **Beams**
  - Allows for swift installation and removal of flat panel monitors by merely pulling the bottom of the movement joint slide toward the user from the beam while lifting the top of the monitor up.
  - For installations with Fast Release Wall Cords, simply pull the cord down while lifting the top of the monitor up.

**Thief Deterrence:**

All movement joints come with a set screw within the fast release pin, to prevent fast release if so desired. Also there is a set screw at the top of the mast to deter removal of the entire arm and monitor from the mast.

**Deactivate Fast Release with Set Screw**

**Construction:**

- **Arm:** die-cast aluminum with a cold rolled steel top plate
- ** Mast:** anodized aluminum extrusion
- **Beam:** anodized aluminum extrusion

**Adjustment knob:** nylon undermold with a TPU screw trim

**Movement joint (includes fast release monitor plate):** plastic bushings, zinc and plastic molded plastic tilt friction components and glass filled nylon VESA plate

**Movement joint side:** aluminum, powder coated silver

**VESA plate adaptors:** steel

**Table clamp, grommet mount, fixed table mount,**

**COT Center channel mount,**

**DH Bench mount,**

**Antenna center beam center mount:** steel

**Slat wall and wall mounts (both mast mount and direct, both standard and compact sizes):** die-cast aluminum with steel back plate

**Double arm bracket:** die-cast aluminum, steel top plate, extruded aluminum posts, plastic upper and lower bushings

**Triple support arm bracket:** die-cast aluminum, steel top plate, extruded aluminum posts, plastic upper and lower bushings

**Mounted-beam bracket:** aluminum, powder coated silver

**Cable management:** transparent polycarbonate clips on the mast and beam; plastic gates under standard arms

**Antenna and Quadruple support arm bracket:** die-cast aluminum

**Two-Piece Table Clamp, Deep Table Clamp,**

**Heavy-Duty Table Clamp, Grommet, Fixed Table Center Beam**

**Crimson Open Table Center Channel,**

**Dividers-Horizon Bench and Antenna Center Beam Table Mounting:** steel

**Antenna Table Center Beam Side Mounting:** die-cast aluminum

**Slat Wall and Wall Mounting both Direct Mast Mounting, Direct Mounting and Sapper 50 Direct Mounting (for both standard and compact arms):**

**Die-cast Aluminum with steel back plates**

**Quadruple arm bracket:** Die-cast Aluminum

**Horsepower mounts:** die-cast aluminum, powder coated, Steel VESA mounts.

Silver (00.3)

Ordering Information
Due to extensive adjustability of Sapper XYZ monitor arms, a mock-up is recommended to ensure it is suited for the specific workstation, particularly if placed in front of a wall or panel.

Mounting and Application Information
See page 156 for comprehensive mounting, application and construction information.
Sapper XYZ® Monitor Arm Series
Mounting, Construction and Application Information

All Sapper XYZ monitor arms:
- Ship standard with fast release movement joint.
- 135° - 360° degrees of pivot at the base and at the elbow joint.
- Offer 155 degrees of movement for separate installation instructions and may require spacers. Knoll VESA plate adaptors ship way to allow you to attach the adaptor to the Knoll VESA plate. But do not ship directly to your customer. You will need to pass the adaptor to the monitor or television (see screw sizes listed above. English size equivalents may be needed instead). Screw length is dependent on the specific monitor or television and screw or tool should be tested prior to installation to ensure correct length. Knoll is not responsible for use of incorrect screws.

There is no specific maximum size

• Maximum weight of 20 lbs. per arm.

• Fold arms to itself is 2.75" when fully compressed

• Ace durable and lightweight (weights only: 4 pounds)

Sapper XYZ Crossbar monitor arm:
- Maximum weight of 19 lbs. per monitor, 37 lbs. total.
- Fold arms to itself is 2.75" when fully compressed

*Please note this limit accommodation up to 95% of monitors on the market.

Size Limits:
Monitor Arms
There is no specific maximum size for a Sapper YZ single monitor arm (outside of the limitations of the space in which you are trying to put it).

For Dual Sapper XYZ, the maximum outer horizontal width with per monitor is 35.75". This will work with a 26.625" for a flat positioning flush next to each other.

Sapper XYZ Crossbar:

Double Cockpit

Key Note: Flat panel monitor manufacturers refer to their products by diagonal screen measurements. A 15" widescreen monitor has a 19" screen measured diagonally, but not necessarily 19" in horizontal width (refer to manufacturer’s specifications for specific overall height and width).

Monitor Mounting:
All Sapper XYZ monitor arms are compatible with the international Video Electronics Standard Association (VESA) industry standard documented (75 x 75 mm and 100 x 100 mm hole patterns or 0.25" x 0.25" and 0.394" x 0.394" respectively) adopted by most panel manufacturers. VESA compliance is a requirement to mount any monitor to a monitor arm. If your customer has a monitor mount back with only 75 mm x 75 mm holes, additional spacers may be needed to ensure proper fit. Contact Customer Service for more details including part and pricing information.

A VESA plate adaptor may be necessary for larger monitors and televisions and can be ordered separately in the sizes of 100 mm x 200 mm (M6 screws), 200 mm x 200 mm (M8 screws), 300 mm x 300 mm (M10 screws). Sapper XYZ Crossbar monitor arms can be mounted in horizontal, vertical, or diagonal orientations on either the slot side of Interpole, Channel Mount. If overheads are attached, a dedicated location on the base and at the elbow joint.

Apple Computer Note:
VESA Adaptors options on specifications must be used to purchase with integrated VESA Mount Adapters. With these adaptors, the displays will mount to the 100mm x 100mm hole pattern. 25.5" cabinet can be mounted on Sapper and Sapper XYZ. All other Apple displays must be mounted using Sapper 50 due to weight specifications.

Clamping:
Two-Piece Table Clamp Mounting:
The standard two-piece table clamp is easy to install or reposition and works on most worksurfaces or desks that are a minimum of 15" thick solid wood. The maximum worksurface thickness is 2.95". There are four settings to accommodate a range of surface thickness. It is important to muck up the table clamp, particularly on competitive products to ensure a proper fit. The clamp is not compatible with Morton-Norton.

Deep Table-Clamp Mounting:
This clamp is one piece and works on most table surface materials. The table clamp mount is intended to clear most knife-edge (45 degree angle) desks or worksurfaces.

Grommet Mounting:
With all systems furniture, it is important to pass monitor and peripheral plugs through grommet mount while it is still loose. Please note the grommet mount is compatible with Morrison, Astrotacta, Bell, Propeller, but is not compatible with the Graham Collection or Dividers Horizon grommet holes. To use on Morrison Network, spaces must be requested through Customer Service. The required cutout in the worksurface is 3.5" x 2.75"; which includes room for the threaded steel (actual hole in the grommet plate is 3.45" x 2.75")

Fixed Table Mounting:
Installers will need to drill a permanent hole into the worksurface of the post will be fixed to a dedicated location on the worksurface. Please note with this mounting, the monitor will not be able to move left or right of the central axis of the worksurface. This places stress on the structural integrity of the monitor worksurface.

Antenna Table Center Beam Side Mounting:
This mount allows you to clear the flip-down door while allowing for maximum workurface usage and individual height adjustment without the need to stagger the monitor. The worksurface can be mounted in the center beam with a monitor arm in front of it. The fit will be snug and flush with the worksurface.

Interpole Mounting:
Sapper XYZ arms can be mounted on either the slot side of InteRpole or the Crossbar monitor arm. If overheads are mounted on the slot side of InteRpole use a Direct Channel Mount. If overheads are mounted on the slot side of InteRpole, use an Extended Channel Mount (not available for Sapper XYZ Crossbar).

Temperatures:
Note: Sapper XYZ Crossbar’s gas spring weight tolerance performance may be reduced by 1-2 lbs when used in temperatures above or below typical office temperature.

Fast Release:
Allows for easy installation and removal of flat panel monitors by merely popping the quick release pin up to remove monitor with movement jawback plate attached. Be sure to lift the arm to the highest position before removing monitor, or the arm will quickly move upwards.

Thief Deterrence:
All movement joints come with a set screw within the fast release pin to prevent fast release if so desired.

Compatibility:
The Sapper XYZ monitor arms are not compatible with the Sapper Monitor Arm Collection. It has been designed independently and the parts from one system cannot be used with the other, with the exception of the mounting joint. Finishes colors are consistent across the Sapper XYZ and Sapper Monitor Arm Collection portfolios.

Cable Management:
External cable management allows for easy installation and removal of monitors and keep wires tidy to the electrical socket. On Sapper XYZ, singe arm there is a cable management block in the channel under the arm that will contain wires from the monitor to plastic cable management clips that go in the post. On Sapper XYZ Crossbar, there are two hook and loop fastener strips on the crossbar to neatly strap cables down to the plastic cable management clip attached to the post.

Arm Adjustment:
The Sapper XYZ monitor arms collection offers intuitive one touch adjustment. To adjust the height, you simply lift the monitor to the desired position. To adjust the depth, you simply pull or push the monitor in or out. You can also rotate the monitor 360 degrees for landscape or portrait viewing, adjust the swivel back and forth 150 degrees and tilt up and down 150 degrees. The single arm folds in and out from 2" fully compressed to approximately 2" when fully extended. Sapper XYZ Crossbar folds in and out from 2.75" fully compressed to 10.38" when fully extended.

Due to the extensive adjustability of Sapper XYZ monitor arms, a mock-up is recommended to ensure it’s fitted for the specific workstation, particularly if placed in front of a wall or panel.

Weight Adjustment:
The Sapper and Sapper Crossbar monitor arm is preset for a 10 lb monitor on a single arm and 19.5 lbs on a Sapper XY Crossbar. Other monitor weights up to 20 lbs can be accommodated by adjusting the weight adjustment nut to the proper weight using the Allen key wrench on the back of the movement joint. Note that the 20 lb setting is not visible on the scale. Turn clockwise to decrease weight or counter clockwise to increase weight to appropriate level. The arm should be held in a downward position increasing the weight and an upward position if decreasing the weight. When proper weight is set, the arm should stay exactly where you place it.

Cable Management:
Sapper XYZ single arm: transparent polyethylene clip on post back and loop fastener strips on crossbar.

Sapper XYZ Crossbar: transparent polyethylene clip on post back and loop fastener strips on crossbar.

Sapper Table Center Beam Side Mounting:

The cast aluminum with steel channels and plastic molded shelf.

Magnetic Post:
Magnetic post is fast release monitor plate; plastic bungs, zinc and plastic molded plastic tilt frication components and glass filled nylon VESA screw.

Knoll Extra VESA plate adaptors steel.

Table clamp, grommet mount, fixed table mount.

Cable management:
Cable management: Sapper XYZ single arm: transparent polyethylene clip on post back and loop fastener strips on crossbar.

Antenna Table Center Beam Side Mounting:

Sapper XYZ Crossbar:

Sapper XYZ Crossbar:

200mm (M6 screws), 300mm x 300mm (M8 screws), 400mm x 400mm (M8 screws). Sapper XYZ Crossbar: transparent polyethylene clip on post back and loop fastener strips on crossbar.

For installation notes and suggestions refer to the Keyboard Measurements on Knoll Exchange. 21" Swivel HP platform offers a fully adjustable keyboard support option with height adjustable moving surface which can be positioned on the numeric keyboard pad allowing for proper neutral posture. For double moving surfaces on 21" Swivel and 21" Swivel HP platforms, separate parts are orderable as KIL parts.

Mechanism Attributes

- **Advanced Easy Lift arm:**
  - Height adjustment of 3.8" (up 2.3", down 6.5")
  - Soft touch knob adjusts tilt from 10° to (-) 20°
  - Pivot feature:
    - Allows the keyboard platform to move independently from arm, allowing it to stay parallel to the work surface as the arm is moved laterally.

- **Short easy lift arm:**
  - Variable height adjustment of 5.3" below the worksurface
  - Soft touch knob adjusts tilt from 10° to (+) 20°

- **Sit/Stand arm:**
  - Variable height adjustment of 14.2" (up 3.3", down 5.9")
  - Soft touch knob adjusts tilt from 10° to (+) 15°

Antenna and Tone Mounting Note

- Keyboard support must be specified with a sliding track that is less than the depth of the top and anything below the top such as a power harness or cable basket.
- For taller individuals, we recommend using a dual pivot solution with the track mounted on the diagonal to maximize knee space.
- Antenna:
  - In order to mount on Knoll Exchange, an adapter is needed available through the Antenna price list.
- Tone:
  - In order to mount on Tone T-Leg and 24" Deep C-Leg tables, an adapter is needed available through the Antenna price list.

Example:

- **Order Code:** OAK-21HP-SK-PY-BK-PT-(16,18,22,23,25)
- **Description:** Easy Lift mechanism mounted on Advanced Easy Lift arm with dual pivot
- **Notes:**
  - Track length options:
    - Options: 16, 17.75, 21.75, 23, and 25 inches
  - Minimum clearance required is the length of the track plus 1.1" and 25 inches.
  - Options are 16, 17.75, 21.75, 23, and 25 inches.

Investigations technology management
Freestanding Ergonomic Accessories

**VDT Sleeve**
- Racetrack-shaped sleeve slides over worksurface to create VDT corner.
- Creates 17 5/8" wide VDT corner, 9" from worksurface corner.
- Can be adjusted to any angle, or removed when not needed.
- Heavy-gauge steel with felt backing to prevent scuffing.
- 1 1/4", 1 3/4" and 2 1/2" worksurface thicknesses.
- 1/4" screw holes on underside for optional attachment to worksurface.
- Available in two metallic and two soft-touch finishes.

### Application Notes

- Pencil Drawers can be used with virtually any Knoll or competitive wood worksurface.
- Universal Pencil Drawer: Minimum depth work surface is 24". On freestanding Morrison Network systems, a 30" deep work surface is required. Minimum depth work surface is 10".
- Pencil Drawer attaches 2 3/8" below the underside of wood worksurfaces at any location. Mounting hardware and template included.
- BackPack Lock option:
  - Lock attaches to slides in field.
  - Removable for use elsewhere.
  - Call Customer Service for availability and minimum requirement.

### Construction

- Universal pencil drawer: Durable vacuum-formed ABS plastic drawer in a matte black, textured finish. Three-quarter extension, ball bearing metal slides with smooth, silent movement.
- Manufactured in the United States.
- BackPack Pencil Drawer: Durable 20-gauge steel painted black. Full-extension ball bearing metal slides with click-stop in half-open position.
- Die-cast zinc lock painted black.
- BackPack® Pencil Drawer manufactured in Canada.

</tbody>
</table>

**Order Code**

- F-24-14-A-30**-R25-H11033**
- F-WM-F

**Mounting Options**

- Panel-mounted brackets: Mounted brackets are included in the list price but must be specified separately. To specify appropriate panel-mounted bracket, consult the KnollExtra Bracket Chart on page 12.
- Panel-mounted bracket size must match height of fabric board.
- Wall-mounted options: Wall-mounted applications must be specified as flush (F-WM-F) or reveal (R-WM-F). Both options are appropriate for any smooth, clean surface. Flush wall-mount option utilizes velcro squares.
- Wall-mounted reveal option provides 1/2" clearance for movement behind fabric board. Fabric boards mount with 4 brackets onto 2 black painted wall rails that screw into wall to ensure rigidity. For other mounting options and pricing, contact Customer Service.
- Under overhead specification note: For application under a system overhead, provide clearance distance between the worksurface and the bottom of the overhead or task light.
- Side by side fabric board must be specified separately. To specify an additional fabric board, drawings showing the installation of the second fabric board will be used contiguous to another fabric board. Drawings are required and there will be an upcharge.
- 66" wide boards in fabric grades 50, 55 and 56.
- Due to grades 50, 55 and 60 fabric widths being less than the width of a 66" board, contact your KnollExtra representative or Customer Service for pricing and fabric railroading information.

**Standard Fabric Board**

- Standard fabric board has 1/2 thick mineral board.
- Rounded corner or radiused edge, available at upcharge.
- Panel or wall mounting options.

**Fabric Selection**

**Custom Options**

- For special sizes: For special contact Customer Service. Minimum fabric board size is 120"W x 24"H. Fabric must be railroaded on any panel wider than 60".
- For pricing on 60" wide boards, contact your KnollExtra representative or Customer Service.
- For special contact Customer Service:
  - Minimum fabric board size is 120"W x 24"H. Fabric must be railroaded on any panel wider than 60".
  - Fabric woven tack approved for a Morrison panel.
  - As a general rule, all fabrics are approved for a Morrison panel.

**Construction**

- 1/2" thick mineral board for durable, highly tactile surface.
- Manufactured in the United States.

#### Mounting Options

- Standard fabric board has squared corner and rectilinear edge details. See above for edge upcharge.
- Standard fabric board has 1/2" thick mineral board.

#### Panel-Mounted Brackets

- Panel-mounted brackets are included in the list price but must be specified separately. To specify appropriate panel-mounted bracket, consult the Knoll sales bracket chart on page 12.
- Panel mounted bracket size must match height of fabric board.
- Wall-mounted applications must be specified as flush (F-WM-F) or reveal (F-WM-R). Both options are appropriate for any smooth, clean surface.
- Wall-mounted application utilizes velcro squares.
- See above for edge upcharge.

#### Corner/Edge Detail

- S1. Squared corner/Rectilinear edge
- S2. Squared corner/Radiused edge
- R2. Rounded corner/Radiused edge

#### Construction

- 1/2" thick mineral board for durable, highly tackable surface.

#### Custom Options

- For special sizes:
  - For specials contact Customer Service. Maximum fabric board size is 120"W x 24"H. Fabric must be railroaded on any panel wider than 60".

- Customer's own material:
  - For approval, submit at least one yard of fabric for application testing.
  - For panel-mounted applications, all COMs and textiles that are not pre-approved must be UL-tested.

- Please consult Knoll sales Customer Service for details.

#### Under Overhead Specification Note

- For application under a system overhead, provide clearance distance between the worksurface and the bottom of the overhead or task light.

- Side by side fabric board specification note:
  - For approval, submit at least one yard of fabric for application testing.
  - For panel-mounted applications, all COMs and textiles that are not pre-approved must be UL-tested.

- Please consult Knoll sales Customer Service for details.

**Construction**

- **Whiteboard**: Honeycomb core with medium-density fiberboard skin, high pressure laminate finish and ABS edge.
- **Crossmember**: Aluminum
- **Legs**: Steel
- **Cup**: Die cast aluminum with wool felt insert and steel fasteners.

**Note**: Each markerboard ships with four dry erase markers (blue, green, red and black) and a microfiber cleaning cloth.

- **Overall height from floor is 72” high with writable surface starting 25” from floor.**
- **The optional marker tray runs the length of the crossmember.**
- **The optional marker cup mounts to the side.**
- **To prevent dry erase markers from drying out, store them with the cap down in the optional cup.”**
Selling Policy

Terms & Conditions of Sales

This Selling Policy supersedes all previous selling policies. Prices, discounts and product offerings are subject to change without notice.

Sales by Knoll, Inc., or Knoll NetWorks America Inc. (“Seller”) of Knoll Product Lines (“Products”) within the United States and Canada are made only on the terms which are contained in this Selling Policy. Seller hereby gives notice of its objection to any different or additional terms and conditions. This sale is expressly conditional upon Purchaser’s assent to the terms and conditions set forth below. Additional terms and conditions may apply to KnollStudio and KnollTextiles orders. These terms and conditions may be modified or supplemented only by a written document signed by an authorized representative of Seller. These terms and conditions supersede any prior or contemporaneous agreements or correspondence between Purchaser and Seller. Written quotations expire thirty (30) days from the date of issuance and can be withdrawn by written notice anytime during that period. Where Purchaser and Seller have entered into the Knoll Electronic Terms and Conditions, all orders, acknowledgements, invoices and other business communications placed or transmitted in accordance with the Knoll Electronic Terms and Conditions shall be deemed to be in writing and signed and shall be valid for all purposes as if they were originated and maintained in documentary form.

Ordering Information

All orders must be in writing. The product pattern number(s) contained on Seller’s order acknowledgement shall be the basis for all delivery commitments and terms and conditions. Changes and delays after the time when Seller can defer production, Purchaser will be invoiced for the Product, payable in accordance with standard terms, when the order is ready for shipment. Seller may transfer the Product to storage, in which case all expenses incurred in connection with storage, including demurrage, preparation for storage, storage charges and handling shall be payable by Purchaser upon submission of invoices by Seller. Risk of loss to the Product shall pass to the Purchaser upon delivery of the Product into storage.

Order Confirmation

A purchase order is not binding on Seller until Purchaser has received Seller’s order confirmation or acknowledgement.

Pricing Policies

List prices are subject to change without notice.

List prices shall be those prices in effect on the date of receipt of a complete purchase order unless shipment is requested more than ninety (90) days after order entry in which case prices in effect on the date of shipment apply. List prices include specified freight costs. Unless specified in writing by Seller, no other charges are included in Seller’s list prices.

Taxes

All sales, use, excise and other taxes applicable to the sale of the Products shall be paid by Purchaser. If Purchaser claims an exemption from any tax, Purchaser shall submit to Seller the appropriate exemption certificates.

Terms of Payment

Payment for one hundred percent (100%) of the net order amount is due within thirty (30) days of the date of invoice, which is generally issued upon shipment. In case of any discrepancies, such as shortages, and Seller is notified in writing within ten (10) days of receipt of Product, only that portion may be deducted and the balance paid. For orders greater than $100,000 net, a fifty percent (50%) deposit is due at the time of order placement, with the remainder due within thirty (30) days of the date of invoice.

KnollStudio orders less than $2,000 require payment for one hundred percent (100%) of the net order amount (including any applicable sales tax and charges for inside delivery, special packaging, etc.), due at time of order placement. For KnollStudio orders greater than $2,000, a one-half (50%) deposit is due at time of order placement with the remainder (including any applicable sales tax and charges for inside delivery, special packaging, etc.) due prior to shipment.

If, in the judgment of Seller, Purchaser’s financial condition does not justify the terms of the payment, Seller may require full or partial payment in advance. Past due accounts shall be charged one and one-half percent (1.5%) per month, or the highest rate permitted by law, whichever is less, and will be added to the outstanding balance. In the event Purchaser defaults on payment, Purchaser shall be liable for all collection costs, including reasonable attorney’s fees and costs.

Changes and Cancellation

Purchase orders may not be changed or cancelled, in whole or in part, without prior written consent of Seller. Changes may effect delivery dates. Expenses incurred because of changes shall be charged to Purchaser. In the event of cancellations, Purchaser will be liable for reasonable cancellation charges established by Seller. Orders for special Product, orders including “COM” (hereinafter defined) material and orders pursuant to expedited delivery programs, may not be canceled.

Freight Prepaid

Freight is prepaid and included in the price of all Products, except KnollTextiles, within the 48 contiguous United States for orders placed with Knoll, Inc. and within Canada, excluding the Yukon, Northwest Territories, Nunavut and Newfoundland for orders placed with Knoll North America Corp. Packing is tested for rigorous motion and transportation but is not guaranteed to protect furniture from all conditions. If special packaging is required for any reason, please consult with your sales representative or dealer. Seller shall select the method of shipment and routing. Freight for all KnollTextiles orders is prepaid and added to the invoice.

Delivery/Freight Charges

For shipments outside the contiguous United States and Canada, Purchaser is responsible for the cost of freight from point of embarkation, including any handling and transportation charges incidental to loading at the point of departure and unloading at the final destination. Conditions beyond the control of Seller, including weather, available facilities and traffic conditions, may affect exact time of delivery. Seller shall not be responsible for specific carrier delivery date or time unless it has made a specific delivery commitment, in writing.

Nonstandard methods of shipment and/or additional services are available upon request. Purchaser will be billed for the differential cost of any special services in excess of standard surface carrier freight costs. Premium charges, at Purchaser’s request, will be added for airfreight, exclusive use of vehicle and extra, export or special packaging. Accessorial charges will be added for inside delivery, extra labor, reconsignment and redelivery.

Claims

All shipments for Knoll Products within the contiguous United States and Canada are F.O.B. Origin. All risk of loss passes to Purchaser at time of delivery to carrier. Purchaser shall inspect all Products upon receipt and notify Seller within ten (10) working days after receipt of any damage or defects which are, or should be, apparent from an inspection of the Product and its packaging. Failure of Purchaser to notify Seller during the ten (10) working day period shall constitute acceptance of the Products and waiver of any apparent defects, errors or shortages. For all claims relating to Product damaged in transit or for any other claims relating to or arising out of the transportation of the Product, Purchaser must seek recovery from the carrier and Seller has no liability to Purchaser for such claims. Seller may, upon request, assist Purchaser with filing of such claims with the carrier, but Seller will not be liable for any of these transportation related claims.

Seller’s Security Interest

Until Seller receives the full payment for the Product, Seller shall have a security interest in the Product. Purchaser agrees to perform all acts, including but not limited to the execution and filing of documentation, which may be necessary to perfect and assure the security interest of Seller.

Returns

The return of Products without a written authorization by Seller shall not be accepted. To receive authorization for Product return, please call Customer Service. All Products that are returned pursuant to a valid authorization shall be subject to a twenty-five percent (25%) restocking charge. Products not currently offered for sale by Seller (including COM) shall not be authorized for return. All returned Products must be unused, in original condition and in the original Seller packing cartons. No refund or credit shall be given for damaged Products.

Held Orders/Storage

If Purchaser requests that an order be held or delayed, prices and terms and conditions in effect at the time of shipment shall apply. If Purchaser requests a delay after the time when Seller can defer production, Purchaser will be invoiced for the Product, payable in accordance with standard terms, when the order is ready for shipment. Seller may transfer the Product to storage, in which case all expenses incurred in connection with storage, including demurrage, preparation for storage, storage charges and handling shall be payable by Purchaser upon submission of invoices by Seller.
Selling Policy

Customer’s Own Material

A Purchaser who requests a fabric or other surface material not standard to Seller’s line of Products (“COM”) must submit samples of the requested material to Seller prior to entry of a purchaser order. Seller shall determine if the material is suitable to its manufacturing processes and meets any requirements of Underwriters Laboratories. If the COM is acceptable, Seller will then establish a price for using the COM or the Product in question. For a description of the procedures for submitting samples and testing, contact customer resources or your sales representative. Seller shall have no responsibility for the appearance, condition, performance, durability, colorfastness or any other physical attribute of the COM. Purchaser shall indemnify and hold Seller harmless for any damages, injuries or losses arising out of or related to use of the COM on the Product.

Warranty

Seller warrants to the original Purchaser only that the Products Seller manufactures and sells to Purchaser are free of defects in workmanship and materials, during the applicable warranty period set forth below.

Warranty period set forth below is for 24-hour, 7 days a week, multi shift use (includes parts and labor to repair).

Should any failure to conform with this limited warranty appear to a Product listed below during the applicable warranty period from the date of shipment, Seller shall, upon prompt written notice, repair or replace, at its option and costs, the affected part or parts.

This warranty does not apply to:

• Damage caused by a carrier other than the Seller.
• Normal wear or tear or acts or omissions of parties other than Seller (including user modification, improper use or installation of Products).
• COM or other third party materials applied to Products.
• Products not installed by or under the auspices of a Knoll Dealer.
• Dramatic temperature variations or exposure to unusual conditions.
• Changes in surface finishes, including colorfastness due to aging or exposure to light.
• Except as specifically noted above, textiles and upholstery supplied by KnollTextiles and Spinneybeck FilzFelt (consult current price lists for applicable warranties).

Natural variations occurring in wood, marble, and leather shall not be considered defects, and the Seller does not guarantee the colorfastness or matching of the colors, grains or textures, or surface hardness of such materials. The Seller also does not guarantee the colorfastness of fiberglass panel surfaces.

THE EXPRESS WARRANTIES CONTAINED HEREIN ARE IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTIES OF MERCHANTABILITY AND FITNESS FOR PARTICULAR PURPOSE AND ALL OTHER WARRANTIES ARISING FROM COURSE OF DEALING OR USAGE OF TRADE.

The remedies provided above are the Purchaser’s sole remedies for any failure of Seller to comply with its obligations regarding the workmanship of its Products. Correction of any nonconformity in the manner and for the period of time provided shall constitute complete fulfillment of all liabilities of Seller, with respect to or arising out of the Product furnished hereunder.

Delay/Force Majeure

Seller shall not be liable for failure to perform or for delay in performance due to fire, flood, strike or other labor difficulty, act of God, act of any governmental authority or of the Purchaser, riot, embargo, fuel or energy shortage, wrecks or delay in transportation, inability to obtain necessary labor, materials or manufacturing facilities from usual sources or failure of suppliers to meet their contractual obligations, or due to any cause beyond its reasonable control. If any such event occurs, Seller may extend delivery dates by a period of time necessary to overcome the effect of such delay, allocate available Product or cancel any purchase order.

Compliance with Law

Selling Policy is SOLELY RESPONSIBLE FOR COMPLIANCE WITH ALL APPLICABLE FEDERAL, STATE AND LOCAL LAWS, ORDINANCES, REGULATIONS, RULES AND STANDARDS RELATING TO THE INSTALLATION, MAINTENANCE, USE AND OPERATION OF THE PRODUCTS.

Patents

Subject to the following provisions, Seller shall, at its own expense, defend or, at its option, settle any claim, suit or proceeding brought against the Purchaser, and/or its vendees, mediate and immediate, so far as based on an allegation that any Product or any part thereof furnished hereunder constitutes a direct or a contributory infringement of any claim of any patent of the United States or Canada. This obligation shall be effective only if Purchaser shall have made all payments then due hereunder and if Seller is notified promptly in writing and given authority, information and assistance for the defense of said claim, suit or proceeding. Seller shall pay all damages and costs awarded in such suit or proceedings so defended.

The foregoing indemnity does not apply to the following:

• Products supplied according to a design other than that of Seller, and which is required by the Purchaser.
• Combination of the Product with another product not furnished hereunder unless Seller is a contributory infringer.

Limitations of Liability

ANY SETTLEMENTS OF A SUIT OR PROCEEDING MADE WITHOUT SELLER’S WRITTEN CONSENT.

• Products supplied according to a design other than that of Seller, and which is required by the Purchaser.
• Normal wear or tear or acts or omissions of parties other than Seller (including user modification, improper use or installation of Products).
• COM or other third party materials applied to Products.
• Products not installed by or under the auspices of a Knoll Dealer.
• Dramatic temperature variations or exposure to unusual conditions.
• Changes in surface finishes, including colorfastness due to aging or exposure to light.
• Except as specifically noted above, textiles and upholstery supplied by KnollTextiles and Spinneybeck FilzFelt (consult current price lists for applicable warranties).

Natural variations occurring in wood, marble, and leather shall not be considered defects, and the Seller does not guarantee the colorfastness of fiberglass panel surfaces.

THE EXPRESS WARRANTIES CONTAINED HEREIN ARE IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTIES OF MERCHANTABILITY AND FITNESS FOR PARTICULAR PURPOSE AND ALL OTHER WARRANTIES ARISING FROM COURSE OF DEALING OR USAGE OF TRADE.

The remedies provided above are the Purchaser’s sole remedies for any failure of Seller to comply with its obligations regarding the workmanship of its Products. Correction of any nonconformity in the manner and for the period of time provided shall constitute complete fulfillment of all liabilities of Seller, with respect to or arising out of the Product furnished hereunder.

Delay/Force Majeure

Seller shall not be liable for failure to perform or for delay in performance due to fire, flood, strike or other labor difficulty, act of God, act of any governmental authority or of the Purchaser, riot, embargo, fuel or energy shortage, wrecks or delay in transportation, inability to obtain necessary labor, materials or manufacturing facilities from usual sources or failure of suppliers to meet their contractual obligations, or due to any cause beyond its reasonable control. If any such event occurs, Seller may extend delivery dates by a period of time necessary to overcome the effect of such delay, allocate available Product or cancel any purchase order.

Compliance with Law

Selling Policy is SOLELY RESPONSIBLE FOR COMPLIANCE WITH ALL APPLICABLE FEDERAL, STATE AND LOCAL LAWS, ORDINANCES, REGULATIONS, RULES AND STANDARDS RELATING TO THE INSTALLATION, MAINTENANCE, USE AND OPERATION OF THE PRODUCTS.

Patents

Subject to the following provisions, Seller shall, at its own expense, defend or, at its option, settle any claim, suit or proceeding brought against the Purchaser, and/or its vendees, mediate and immediate, so far as based on an allegation that any Product or any part thereof furnished hereunder constitutes a direct or a contributory infringement of any claim of any patent of the United States or Canada. This obligation shall be effective only if Purchaser shall have made all payments then due hereunder and if Seller is notified promptly in writing and given authority, information and assistance for the defense of said claim, suit or proceeding. Seller shall pay all damages and costs awarded in such suit or proceedings so defended.

The foregoing indemnity does not apply to the following:

• Products supplied according to a design other than that of Seller, and which is required by the Purchaser.
• Combination of the Product with another product not furnished hereunder unless Seller is a contributory infringer.

Limitations of Liability

• Any settlements of a suit or proceeding made without Seller’s written consent.

Purchaser’s remedies set forth herein are exclusive and the liability of Seller with respect to the breach of this agreement or any contract entered into between the parties pursuant hereto shall not exceed the price of the Product or part on which such liability is based.
General Ordering Information

The Products
This guide encompasses all standard products for this product group.

Sizes
Dimensions listed in this guide are indicated as:
H = height
W = width
D = depth
Dia. = diameter
Rad. = radius

Pricing
All prices shown are list.

How to Order
Select pattern numbers and quantities required for your complete installation. Product questions can be addressed in the specific sections of this guide or by contacting your sales representative or customer resource representative at 1-800-343-5665.

Next, select options (if required), along with colors and finishes appropriate to each product. Reference the Finishes and Fabrics pages for color designations.

On large installations, an item’s “designated area” can be specified to assist in product organization and handling.

To expedite complete / correct entry of your order, be certain all pattern numbers, quantities, colors and area identifications are completely specified. Also, include complete purchase order numbers, bill-to and ship-to addresses, a contact name and specific factory shipping dates required.

Mail all orders to:
Knoll, Inc.
1235 Water Street
East Greenville, PA 18041
Attention: Order Entry

Once your order is entered at Knoll, an acknowledgment will be mailed to you. You will be advised of your scheduled shipping date within five days of the original acknowledgment. If it is necessary to revise your order, please contact your customer resource representative.

Sustainability Statement

Sustainable design is a key component of Knoll’s environmental focus. Our commitment to social responsibility and a healthy environment has prompted us to further articulate our longstanding environmental programs and, with encouragement and support from our colleagues in the industry, we have re-energized our focus on such “green” initiatives as life cycle analysis and LEED™ certification. Knoll is proud to have contributed to projects that have received LEED certification from the U.S. Green Building Council.

For the latest information on Knoll products that help our customers achieve LEED certification, log on to knoll.com, click on “About Knoll” and then “Environmental Focus.”
