**BLACK ANDES:** Black with reflective mica crystallines.

Black Andes is a natural granite, featuring a penetrating sealer to protect the stone from aging and staining. The sealer must be renewed periodically. Granite has a non-porous density; therefore it does not require a protective polyester coating.

**CARE AND MAINTENANCE:** Clean with Windex, Fantastik or other non-abrasive solutions on a regular basis. Apply a marble wax periodically to improve luster and protect finish. Routine maintenance will prevent the stone from darkening with use from body oils and will help maintain color uniformity.

**NOTE:** Granite is a natural material. Hues, veins, crystals, fossils and distinctive marks will vary from piece to piece. Please use this sample card only as a guide.
