Proof 032918 k.™ lounge Visual Index
California Technical Bulletin 133 (Cal 133) is a full-scale seating test, not a component test. Testing must be performed on the designated seating unit and textile together. Component data alone cannot be used to certify compliance with the regulation. Under Cal 133 you cannot assume that seating or textiles that have passed individually will pass together.

Test Procedure
The seating unit is exposed to a square open flame gas burner for 80 seconds, positioned at the center of the seating unit, two inches from the back and one inch from the seat.

Scope
Cal 133 only applies to seating units. The bulletin is designed for high risk public areas:
- Nursing homes
- Health care facilities
- Public auditoriums
- Hotels (more than 10 seating units in one room)
- Motels (more than 10 seating units in one room)
- Jails and prisons

Tables and desks are not covered by the bulletin. Variations may occur in individual states with regards to specific application. In California only, compliance is at the discretion of the fire marshal in any building which is fully sprinklered.

Knoll Office Approvals
Tested seating units have been tested in a worst case scenario thus covering other fabrics of lighter weight and same construction. When specifying Cal 133, the seating unit may be constructed with a fire resistant foam and a fire blocker will be laminated to the textile.

How To Specify
It is easy to specify Cal 133 on Knoll Office seating. Simply add the suffix “C” to the end of the pattern number prior to the textile selection. Approved textile selections must have the suffix 133 added to the end of the pattern number.

Example: KL2G Bench, three seat, upholstered in Venue/Noir.
KL2G-C-K1558/12-133

Testing Additional Product
If you would like to test a specific product:
Specify lounge chair and textile desired - adding appropriate C and 133 codes as explained.

Test cost will be the regular price of the chair plus $500 for the testing procedures.

Cal 133 tested and approved fabrics and seating units are indicated with a flame. All prices below are list.
