Knoll and Sustainable Design

Each year Knoll sets key initiatives in our journey to sustainability. We are members of a global consortium on energy, have adopted a scientific, metrics-based approach to sustainable product design, and maintain a leadership position in establishing universal, verifiable, sustainability standards for our industry.

Knoll promotes independent third-party certification because it provides the most impartial and trustworthy foundation for industry-wide environmental compliance. Certification by established and respected third parties ensures that all manufacturers are held to the same high standards and that customers can trust a company’s declaration about the environmental benefits of its products. Knoll third-party partners include: the International Standards Organization (ISO); Forest Stewardship Council (FSC®); Rainforest Alliance; GREENGUARD® Environmental Institute; and The Business and Institutional Furniture Manufacturer’s Association (BIFMA) level® certification from Scientific Certification Systems (SCS).

In addition, Knoll is aligned with the U.S. Green Building Council and can help companies, healthcare organizations and educational institutions achieve Leadership in Energy and Environmental Design (LEED®) workplace certification.

Global Climate Change
• Knoll is a sponsor of the Clinton Global Initiative, which brings together a community of global leaders to devise and implement solutions to some of the world’s most pressing challenges, including environmental change.
• Knoll has a comprehensive Energy Management Program to increase energy efficiency in products and processes.

Life Cycle Assessment (LCA) Tool
• Life Cycle Assessment is a science-based measurement of a product’s environmental impacts throughout its life cycle, from raw materials sourcing through manufacture, shipping, use and re-use or end-of-life. LCA enables cradle-to-cradle implementation of sustainable practices.

Setting Industry Standards
• Knoll partners with MTS (The Institute for Market Transformation to Sustainability) to develop the SMaRT© Consensus Sustainable Products Standards, a set of consensus-based sustainable product standards based on the LEED® model, for all building products, fabric, apparel, flooring and carpet. MTS, the developer of SMaRT®, is an accredited American National Standards Institute (ANSI) standard developer.
• Knoll also partners with BIFMA (Business and Institutional Furniture Manufacturers Association) to promote level® sustainability standards for the contract furniture industry.
• Knoll has established FSC® (Forest Stewardship Council) certified wood as the standard for general office open plan office systems, casegoods and tables.
• Knoll has launched Full Circle, a resource recovery program developed with ANEW, to help customers extend the life cycle of surplus furniture, fixtures and equipment (FF&E) in an economically, socially and environmentally responsible manner.
• Our goal is to encourage all manufacturers in the contract furniture industry and related industries to adopt standards that will lead to sustainable products and practices.

For more information about Knoll and sustainable design, visit knoll.com/environment.
All Knoll Office Seating is GREENGUARD and GREENGUARD Gold certified.

All KnollExtra® products are GREENGUARD certified.

Visit GREENGUARD.org for more information and to find printable certificates for Knoll Office Seating that can be used for verification and LEED® submission.

GREENGUARD provides the only guide to certified low-emitting interior products and building materials. Its goal is to help building owners and managers, architects, interior designers and product specifiers build and furnish healthier offices, hospitals, schools and homes by providing a register of tested and certified low-emitting products and materials.

GREENGUARD certification is recognized by the U.S. Green Building Council’s LEED® Program. Air Quality Science, an independent indoor air quality laboratory, tests products submitted for certification using stringent environmental chamber testing protocols and current indoor air quality standard. Certification is administered by the GREENGUARD Environmental Institute (GEI), an industry-independent, non-profit organization.

GREENGUARD Gold certification complies with the State of California’s Department of Health Services Standard Practice (CA Section 01350) for testing chemical emissions from building products used in schools, offices and other sensitive environments. Certified products can contribute to achieving credits in the CHPS Best Practices Manual for K-12 schools, the LEED® Green Building Rating System, Green Guide for Healthcare™, NAHB Green Building Guidelines, Green Globes, Regreen and numerous other local authorities’ green building codes.

Knoll Office Seating and KnollExtra® products can contribute to achieving LEED® credits. GREENGUARD-tested and certified office furniture is required for Credit 4.5 in the LEED-CI Indoor Environmental Quality section.

GREENGUARD Certification Program
• Internationally recognized for evaluating product emissions and certifying building materials, furnishings, finishes and cleaning products and processes that meet stringent indoor air quality criteria defined by GEI.
• Products undergo rigorous, third-party testing to determine their impact on indoor air pollution with requirements for ongoing testing and verification.
• Certification confirms a manufacturer’s environmental responsibility, and signifies their environmental achievements through independent, third-party testing and verification.
• GREENGUARD Certified products are recommended by leading sustainable building programs, including:
  – U.S Green Building Council’s (USGBC) LEED Rating System,
  – National Association of Home Builders (NAHB) Green Building Guidelines,
  – Green Guide for Health Care (GGHC),
  – Collaborative for High Performance Schools (CHPS) Best Practices Manual,
  – New York City Department of Design and Construction Sustainable Design Specifications, among others.
An Overview

In the first part of the Price List you’ll find Lighting and Power Series.

The second part features a full range of desktop accessories including Smokador and Orchestra, perfect for panel-mounted or freestanding application.

Part three offers a broad range of systems support products, including technology management and communication boards.

Can’t find it? Consult the Table of Contents on page 1 or the Alpha-numeric Index on page 178.

Product Information on Each Page

The KnollExtra Price List was designed to provide you with everything you need to know in order to understand, specify, and care for KnollExtra products. On each page, the following features will assist you:

Description/Construction explains salient features, capabilities, materials, and country of origin.

Dimensions provide the overall space the product will require. Statistics are based on the maximum width, depth and height of the product.

Weight is based on the product itself. It does not include packaging or complementary items such as pens, memo paper or calendars.

Order Code/Ordering Information outlines exactly how to specify KnollExtra product and the full scope of finish options. The Order Code provides an example of how one pattern number is specified.

Custom Options reviews availability of special sizes, finishes etc.

For More Information

For more information, contact your Knoll sales representative, telephone Customer Service at 1-800-343-5665, or visit one of the Knoll showrooms listed on the last page of this book.

A Word About Finishes

KnollExtra finishes are designed to complement a broad range of interiors and office products.

Key KnollExtra finishes coordinate with specific Knoll systems finishes:

Placing Your Order

Use the Following Addresses

If you would like to send a standard lead time order to our order entry department, please use the following address:

For North American orders:
Knoll, Inc.
1235 Water Street
East Greenville, PA 18041
Attn: Order Entry

Fax: 215 679-1788
Tel: 800 343-KNOLL

All accepted orders will be confirmed in writing on the Knoll standard order confirmation form.

Ship-Complete Orders

Orders that must ship complete are to be so stated on the purchase order. Products with different lead times, combined on one order, can be acknowledged for shipment based on the longest of those lead times. Orders not marked “ship complete” will be released according to the confirmation, and invoiced in increments.

For More Information

For complete Knoll Selling Policy and warranty information, please refer to page 120 of this price list.

For additional information on KnollExtra, contact your Knoll representative, a Knoll dealer, or telephone Customer Services at 800 343-KNOLL.

Maintaining Your Purchase

**Maintenance**
While KnollExtra relies on highly durable materials in each product line, regular basic maintenance will ensure the longevity of your product. Most stains, marks, and discolorations can be removed by following the simple instructions outlined on this page.

**Plastic**
Windex and a dry cloth.

**Stainless Steel:**
Windex and a dry cloth.

**Antique Brass, Brushed Zinc and Black Oxide:**
A damp cloth with no cleaning agents.

**Satin Brass:**
Pledge.

**Linoleum:**
Windex and a dry cloth.

**Contemporary and Traditional Standard Leathers:**
Mild soap and water on a soft cloth.

**Spinneybeck Leathers:**
As a result of the high quality aniline dye process, most scratches or minor stains can be removed simply by gently rubbing them with your fingers. The body’s natural oils revitalize the leather. For stubborn stains, use mild soap and water. Take care to wash the surface evenly since soaps may slightly alter the leather’s tonality.

**Surf Collection:**
Wipe nylon skin using warm water and mild detergent. Do not use abrasives.

**Office Automation Accessories/Storage Drawers:**
Clean with a soft cloth and Windex, Fantastik, Endust or other non-abrasive household cleaners. Remove stubborn stains with SofScrub.

For Surf Board and VDT Sleeve soft touch paints, never use abrasives.

Clean with lukewarm water and a soft cloth.

**Marker Boards:**
For day-to-day use, surface requires only a dry cleaning with a standard felt eraser or dry cloth. For best results, keep marker board and marker pens at room temperature. KnollExtra suggests Bic Great Erase BOLD marker pens which are designed for use on marker boards. All marker pens should be tightly capped and stored horizontally when not in use.

Follow the instructions below as a periodic maintenance program, or to remove stubborn stains:

1. Clean with EV-1 or any liquid ammonia-added cleaner and rinse with clean water, then dry. For best results, wash board like a window with sponge and squeegee.

2. Interim cleaning may be done by sprinkling a dry powdered cleanser on an eraser and applying to the board in a circular motion. Rinse with clean water, then dry.

3. To remove crayon, scotch tape, or other stubborn materials, apply a mild solvent or paste made with scouring powder and water.

**Fabric Boards:**
Despite the durability of most panel textiles, fabric boards are subject to long-term soiling and wear. A regular maintenance program will significantly lessen soil and dirt build up or staining on your fabric boards. Cleaning is particularly important in areas adjacent to air conditioning or ventilation systems.

Remember to consult the care instructions provided by the fabric manufacturer. The general recommendations below should apply to most fabric boards.

1. Avoid excessive heat or moisture which can affect finishes and adhesives. Never allow fabric panels to become wet inside the core. Room temperature should be maintained between 50 and 85 degrees; humidity should be maintained between 20 and 50%.

2. Avoid contact with sharp edges which could puncture the surface.

3. Do not handle fabric boards more than necessary. Avoid bending or flexing the panels; this could break the bond between the surface and core materials.

4. Grease or oil should be wiped off immediately upon contact. Remove excess grease or oil by blotting. Use hot water and mild soap to remove any remaining residue.

5. Whenever possible, clean only with warm water and mild soap. Use caution when applying cleaning agents, particularly those that contain alcohol, strong alkalis, or solvents. These ingredients may react to the vinyl backing or adhesives used in the fabric boards. Always test cleaning agents on fabric from the rear of the panel before using on the front.

6. Care should be taken in using strong room cleaners or pesticides. Their fumes may contain agents which lead to the loosening of the fabric board glue bond.

**Pop Up Screens:**
Clean with soap and water. For greasy stains, use a cleaning agent, first testing in a less visible area.
## LED Light Series: Sparrow®

**Order Code**

Example: **LED-1-S-CLMP-111**  
- **LED**: LED  
- **S**: Sparrow  
- **CLMP**: Open Table Clamp Mount  
- **111**: Black

**Ordering Information**

1. Pattern number  
2. Frame Finish  
3. Mount  
4. Light Finish  

**Additional Information**

- **Sparrow** is available in a black or white light finish with stainless steel or black frame.  
- **Occupancy sensor** (LED PIR) can be added to any LED light and must be ordered separately.  
- **UL Certified.**  
- **Frame Finish Options:** Black (B)  
  Silver (S)  
- **Light Finish Options:** Black (111)  
  White (110)

**Light Source Information**

9 watts single multichip LED.  
50,000 hours lifespan.

**Height Range**

- Articulates 18° to 90°  
- Table clamp: 2.5” to 21.4”  
- Antenna beam side: 3.5” to 22.3”  
- Freestanding: 4.3” to 23.2”

**Construction**

- Lamp: LED, cast aluminum housing, stainless steel frame and plastic reflector and lens.  
- Antenna beam side mount: die cast aluminum.  
- Freestanding base: plastic and cast iron.  
- Occupancy sensor: extruded aluminum body, plastic face, end cap and lens.

**Design Awards**

- Best of NeoCon 2013 Silver Award.  
- Sparrow is TAA compliant.

**Occupancy Sensor**

- Universal occupancy sensor

## Ordering Information

- **Order Code:** LED-2-AD-19-01-BLK
- **Type of Light:** Highwire
- **Length:** 19"
- **Connector:** In-line
- **Finish Options:** Black (BLK), Silver (SLV)

### Additional Information

- Light ships with magnet and wood screw-in mounts.
- Occupancy sensor (LED PIR) can be added to any light and must be ordered separately.
- Occupancy sensor requires an additional 4.5" of clearance in addition to the length of the light.
- UL Certified.

### Light Source Information

- 9 watts, 35 LEDs
- 27 watts, 75 LEDs
- 50,000 hours lifespan

### Construction

- Highwire: LEDs, extruded aluminum housing, plastic reflector end caps.
- Occupancy sensor: extruded aluminum body, plastic face, end caps and lens.

### Design Awards

- Best of NeoCon 2013 Silver Award.
- Highwire is TAA compliant.

Ordering Information

Specify:
1. Pattern number
2. Frame Finish
3. Mount
4. Certification/plug type:
  - CE - Europe and Middle East (not UK)
  - PSE - Japan
  - UK - UK and Singapore
  - SAA - Australia

Standard lead times do not apply for International orders; your account manager can request lead times.

Frame Finish:
- Black (B)
- Silver (S)

Light Finish Options:
- Black (111)
- White (118)

Additional Information

Sparrow is available in a black or white light finish with stainless steel or black frame.

Occupancy sensor (LED PIR) can be added to any LED light and must be ordered separately.

UL Certified.

Light Source Information

9 watts single multichip LED.
50,000 hours lifespan.

Height Range

Articulates 18° to 90°
- Table clamp: 2.5” to 21.4”
- Antenna beam side: 3.5” to 22.3”
- Freestanding: 4.3” to 23.2”

Construction

Lamp: LED, cast aluminum housing, stainless steel frame and plastic reflector and lens.
Table clamp mount: steel.
Antenna beam side mount: die cast aluminum.
Freestanding base: plastic and cast iron.
Occupancy sensor: extended aluminum body, plastic face, end caps and lens.

Design Awards

Best of NeoCon 2013 Silver Award.
Sparrow is TAA compliant.

**Markerboard Cleaning Cloth**

80 x 30 cm microfiber cloth

**Markers**

Set of 4 markers

**Magnetic Accessory Cup**

Optional cup to hold dry erase markers and microfiber cloth eraser and/or personal device power cords; magnetic application can be applied to any side of the Power Cube.

---

**Order Code**

Example: ACT-PW-PC-36-36-13-1E

| ACT | Activity Spaces |
| PW | Power Collection |
| PC | Power Cube |
| 36-36-13 | 36" x 36" |
| 1E | Electrical outlets on one side |

**Ordering Information**

Specify: 1. Pattern number

Finish note:

- Power Cube finish is white markerboard paint.
- Optional Magnetic Accessory Cup must be specified in one of the following finishes:
  - Code: Description
    - 111: Jet Black
    - 115: Medium Grey
    - 118: Bright White
    - 130: Dark Red
    - 131: Slate Blue

**General Notes**

- Each electrical module has either 4 outlets or 3 outlets and 2 USB ports, depending on specification.
- Power Cube is 13" high with 4 levelers, hard wired comes with 72" whip. Cord set comes with 72" cord with a 3-prong plug for 120V outlets. Base includes one slot per corner for choice of cord exit.
- Power Cube finish is white markerboard paint.
- Magnetic Accessory Cup: See page 40.

**Construction**

- Power Cube: Powder coated steel, steel and nylon levelers
- Magnetic Accessory Cup: See page 40.

---

**Note:** Each Power Cube comes with:

- a whiteboard finish and ships with 4 dry erase markers (blue, green, red and black) and a microfiber cloth eraser.
- 4 dry erase markers from drying out, store them with the cap down in the optional cup.

**Power Disc:**

- Max Load: 120V, 15A, 50/60 Hz
- Voltage Protection Rating: L-N 600V, L-G 600V, N-G 600V
- UL Listed Receptable Power Tap/ Surge Protection Device

- 17' 3-prong cord recesses in base for flat surfaces or can be threaded through standard grommet.

- on/off switch with LED indicator

- Unit weighs 4.3 lbs.

- Made in China for Knoll.

Magnetic Accessory Cup

A large accessory cup for application to any magnetic surface. Fits dry erase markers, power cords, etc.

- Interior diameter is 3.7"; interior height is 4.4".
- Weight: 1.1 lbs.

Order Code: ACT-CUP-MG

Construction:
Die cast aluminum with textured powder coat paint, wool felt insert, neodymium magnets and steel fasteners.

Note: A non-magnetic version of this accessory cup is available on Interpole (replace MG in pattern code with IP, see Antenna Workspaces price list for pricing) and Scribe Mobile Markerboards (see page 194 for specifications and pricing).

Pacemakers and items sensitive to magnetic fields should be kept 3.5" from product.

To prevent dry erase markers from drying out, store them with the cap down. To protect magnetic surface, avoid dragging the cup when repositioning.

Mounting Options

Please note: Flat panel monitor arms cannot be mounted on Orchestra® load bars. Flat panel monitor arms can be mounted on Orchestra® slat wall only when mounted on an architectural wall. Please review before mounting. Please see p.128 for flat panel monitor support mount options.

Dividends Panel mounting note:
Slat board mounts on panel slots which are 5½–7½" below the top-cap, depending on the height of the panel.

Panel, stanchion and wall-mounted brackets:
Wall, stanchion, or panel-mounted brackets are included in the list price.

Custom Options

Note:
Slat board is available in custom lengths of up to 96". Please note that for all lengths greater than 66", load bar will be painted, not anodized. Brackets are currently available for virtually every major office system. Panel-mounted brackets for other systems can be developed. Minimum of 100 sets per bracket. Tooling and set-up charges may be required.

Construction

Corrosion-resistant T6063-T5 painted or anodized aluminum. End caps are 14 gauge steel painted matte black. Bottom rail is filled with 57° Delta plastic pellets to support papers on Info Rail. Brackets are available in matte black. Corrosion-resistant die-cast aluminum painted black. Manufactured in the United States.

   SAP-MA-3-CLMP-K
   Sapper triple monitor support table clamp kit
   111
   Jet Black
   B
   Black knob

Ordering Information
Specify:
1. Pattern number
2. Finish where required
   Kits do not require any additional mounting specifications.
   Standard Monitor Arm Finish Options:
   Jet Black (111), Medium Grey (115), Bright White (116)
   Silver Monitor Arm Finish Option:
   Silver (SILV)
   Knob Finish Option:
   Red (R), Black (B)

Ordering Note
Please note a triple monitor support includes two standard arms plus one triple monitor support bracket with a movement joint. The monitor in the middle can rotate, tilt and swivel but has no depth adjustment. See page 128 for further details.
USA made triple monitor arm kits are available in a silver finish for a $119 upcharge to standard finish by specifying a 613 finish. Kits with a 613 finish (which come with foreign components) are BAA (Buy American Act) and TAA compliant (Trade Agreements Act).

Mounting and Application Information
See page 128 for comprehensive mounting, application and construction information.
## Sapper Monitor Arm Collection
### Easy Order Triple Monitor Support Kits
by Richard Sapper

Kit includes everything needed to mount three monitors to a worksurface, slat wall or wall: two standard arms, 16/H11033 mast (unless otherwise specified), movement joints (includes fast release monitor plate), adjustment knob, cable management clips, triple monitor support bracket and mounting option (see right for options).

**Mounting and Application Information**

To mount monitors on Horsepower, counter weights are necessary to keep the unit stable. A down-mounted cabinet or metal shell along with a ballast kit are required, available in the Antenna price list. Please reference the Horsepower Tech Cart planning guide.

Horsepower Mounts can be ordered separately. To mount monitors up to 20lbs, order one Sapper 24" mast, a Sleeve Arm, movement joint and one Horsepower Mount.

To mount a monitor up to 30lbs, order two Sapper 24" masts, two Sleeve Arms (no movement joint needed), two Horsepower Mounts and a corresponding VESA plate.

Horsepower, down-mounted cabinets and ballast kits must be purchased separately, available in the Antenna price list.
**Sapper™ Monitor Arm Collection**

**Mounting, Construction and Application Information**

**Monitors:**
- **Maximum weight of 20 lbs** for single arms, 30 lbs for double, and 40 lbs for triple monitor setup.
- **VESA compatibility:** Your monitor must be VESA compatible to use a Sapper Monitor Arm. If you have a non-VESA monitor, please contact Morrison Network for alternative mounting solutions.

**Weight Limitations:**
- **Single arm:** 20 lbs.
- **Double arm:** 30 lbs.
- **Triple arm:** 40 lbs.

**Mounting and Application Information:**
- **All Sapper standard monitor arms:**
  - **Maximum weight of 20 lbs** for single arm.
  - **Maximum weight of 30 lbs** for double arm.
  - **Maximum weight of 40 lbs** for triple arm.
- **Sapper Monitor Arms are intended to be connected directly to monitors or VESA plate adaptors.** Mounts are not intended to support any additional devices that are connected or mounted to monitors. Leading monitors with additional devices, even within the weight support limits, will affect the functionality of Sapper Monitor Arms and will void their warranty.

**Mounting and Application Information:**
- **Weight limits for individual mounting options:** Outlined below. Taken together (both the mounting option weight limit and the individual arm limit) you can determine the best mounting approach for your client given the number of monitors, the horizontal distance, and the weight of those monitors. Weight limits are outlined by mounting option on the next few pages.
- **Maximum weight limits:**
  - **20 lbs** for single arm.
  - **30 lbs** for double arm.
  - **40 lbs** for triple arm.

**Maximum Weight on a 32” Monitor:**
- **Double or Stacked Monitor:** Please note while four monitors (two-on-two) are considered your maximum limit, if the weight of those monitors weighs 18 lbs (2 monitors x 18 lbs each), you can only use the slat wall mount and when it is wall-mounted as outlined below. Knoll cannot be held responsible for the structural integrity of a wall so please work with clients to ensure their wall is structurally sound to hold the slat beam, arm configuration and the monitor weight.

**Slat Wall Direct Mounting (for both standard and compact arms):**
- **For single monitor mounting:** You can use either the slat wall mount or direct wall mount. For double or triple monitor mounting, you must use the slat wall mount. The slat wall direct mount cannot be used for multiple monitors.
- **For use on architectural walls only as outlined further on this page:** Knoll cannot be held responsible for the structural integrity of a wall so please work with clients to ensure their wall is structurally sound to hold the slat beam, arm configuration and the monitor weight.

**Direct Wall Mounting:**
- **For single monitor mounting:** You can use either the direct wall mount or direct wall mount. For double or triple monitor mounting, you must use the slat wall mount. The slat wall direct mount cannot be used for multiple monitors.
- **For use on architectural walls only as outlined further on this page:** Knoll cannot be held responsible for the structural integrity of a wall so please work with clients to ensure their wall is structurally sound to hold the slat beam, arm configuration and the monitor weight.

**Full Fix Mounting:**
- **For double or triple monitor mounting:**
  - You must first test your monitor weight.
  - Please note with this configuration, you must test your monitor weight prior to installation to ensure correct setting to accommodate the thickest worksurfaces. Note that when used for individuals, you will need to stagger users across the table.

**Dividends Horizon Benching Mounting:**
- **For use on architectural walls only as outlined further on this page:** Knoll cannot be held responsible for the structural integrity of a wall so please work with clients to ensure their wall is structurally sound to hold the slat beam, arm configuration and the monitor weight.

**Crinion Open Table Center Channel Mounting:**
- **For single monitor mounting:** You must check if your monitor can be mounted to the center channel. Note that when used for individuals, you will need to stagger users across the table.

**Fixed Table Mounting:**
- **Mount cannot be used for multiple monitors.**

**Mount with screws to attach the adaptor to the monitor or VESA plate (M8 screws).**

**VESA plate adaptors are necessary for all monitors to be mounted on a Sapper 50 due to weight specifications.**

**VESA specifications:**
- **Maximum monitor height on a VESA plate:**
  - **Single arm:** up to 24”.
  - **Double arm:** up to 30”.
  - **Triple arm:** up to 40”.

**VESA plate adaptors:**
- **VESA mounts are sold separately.**
- **Contact Apple directly for VESA adaptors options:**
  - Single monitor: M8 screws.
  - Double or triple monitor: M6 screw(s).
  - *Please note this limit accommodates up to 95% of monitors weighs 18 lbs (2 monitors x 18 lbs each equals 54 lbs maximum) per single monitor, (3 monitors x 18 lbs each equals 90 lbs maximum) per double monitor, and (4 monitors x 18 lbs each equals 72 lbs maximum) per triple monitor.*

**Mounting and Application Information:**
- **For double or triple monitor mounting:**
  - You must first test your monitor weight.
  - Please note with this configuration, you must test your monitor weight prior to installation to ensure correct setting to accommodate the thickest worksurfaces.

**Tilt and Swivel Mount:**
- **Maximum weight on a Tilt and Swivel Mount:**
  - **Single arm:** up to 20 lbs.
  - **Double arm:** up to 30 lbs.
  - **Triple arm:** up to 40 lbs.

**Tilt and Swivel Mounts:**
- **Maximum weight on a Tilt and Swivel Mount:**
  - **Single arm:** up to 20 lbs.
  - **Double arm:** up to 30 lbs.
  - **Triple arm:** up to 40 lbs.

**Tilt and Swivel Mounts:**

**Tilt and Swivel Mounts:**
- **Maximum weight on a Tilt and Swivel Mount:**
  - **Single arm:** up to 20 lbs.
  - **Double arm:** up to 30 lbs.
  - **Triple arm:** up to 40 lbs.
Gates Clips

that go on the mast to keep wires tidy to the monitor to plastic cable management clips installation and removal of monitors. There are External cable management allows for easy Monitor Arms adjustability.

channel mount will be necessary for full slot side, then a SapperXYZ with extended channel mount. If overheads are mounted on the pole may have residual markings.

Interpole Mounting Sapper arms can be mounted on either the slot or channel sides of Interpole with the proper mount. Mounts can be moved after installation but the pole may have residual markings.

Beams

For the beam solutions, there are beam cord management clips on the back of the beam (8 on the small, 10 on the medium) that can hold wires from the monitor to the mast cable management. The beam mast cable management is wider than the standard mast cable management to accommodate multiple monitor wires.

Set Screw to Prevent Arm Removal

Compatible: The Sapper Monitor Arm Collection is not compatible with the Wishbone Flat Panel Monitor Support System (i.e., Wishbone, Zorro or Rotation arm, posts, tool bars, brackets, mounting, etc.). They have been designed independently and as such parts from one system cannot be used with the other.

Monitors cannot be mounted on KnollExtra® Orchestra® load bars.

Installation Instructions: Comprehensive installation instructions will be shipped with product and are also available on Knoll Exchange for easy reference.

Construction: Arm: die-cast aluminum with a cold rolled steel top plate Mast: anodized aluminum extrusion Beam: anodized extruded aluminum Adjustment knob: nylon overmolded with a TPU overmold Movement joint (includes fast release monitor plate): plastic bushings, zinc and plastic molded plastic tilt friction components and glass filled nylon VESA plate Movement joint side: aluminum, powder coated silver VESA plate adapters: steel Table clamp, grommet mount, fixed table mount, Antenna center beam center mount: steel Slot wall and wall mounts (both mast mount and direct, both standard and compact arms): die-cast aluminum with steel back plates; Double arm bracket: die-cast aluminum, steel top plate, extruded aluminum posts, plastic upper and lower bushings; Triple support arm bracket: die-cast aluminum, steel top plate, extruded aluminum posts, plastic upper and lower bushings; Mast-to-beam bracket: aluminum, powder coated silver Cable management: transparent polycarbonate clips on the mast and beams; plastic guides under standard arms; Antenna and Quadruple support arm bracket: die-cast aluminum Two-Piece Table Clamp, Drop Table Clamp, Heavy-Duty Table, Clamp, Grommet, Fixed Table and Antenna Center Beam Table Mounting: die-cast Aluminum Antenna Table Center Beam Side Mounting: die-cast Aluminum Slot Wall and Wall Mounts both Direct Mast Mounting, Direct Mounting and Sapper 50 Direct Mounting (for both standard and compact arms): Die-cast Aluminum with steel back plates; Quadruple arm bracket: Die-cast Aluminum Horsepower mounts: die-cast aluminum, powder coated. Steel VESA mounts.

**Mounting and Application Information**

See page 130 for comprehensive mounting, application and construction information.
### Sapper XYZ® Monitor Arm Series

**Mounting, Construction and Application Information**

#### Double Cockpit Mounting

<table>
<thead>
<tr>
<th>Arm</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Sapper XYZ Crossbar</td>
<td>Fixed point on the center beam or in the frame side of Interpole. Use a Direct Channel Mount. If overheads are installed on the same side of Interpole, use a Direct Channel Mount (not available for Sapper XYZ arms).</td>
</tr>
</tbody>
</table>

#### Double Flat Mounting

- **Sapper XYZ Crossbar:**
  - Attach the monitor to the arm using customer's screws. 
  - Please follow installation instructions closely (available in each kit Exchange). 

- **Sapper XYZ Single Monitor Arm:**
  - The monitor is mounted directly to the post. 

#### Clamp Mounting

**Two-Piece Table Clamp Mounting**

- The two-piece table clamp is easy to install or remove and works on most worksurfaces or desks that are a minimum of 15\(\text{"}\) thick solid core. The maximum worksurface thickness is 2\(\text{"}\). There are four settings to accommodate a range of worksurface thicknesses. It is important to mock up the table clamp, particularly on competitive products, to ensure a proper fit. The clamp is not compatible with Morrison Network.

#### Table Clamp Mounting

- This clamp is one piece and works on most surfaces. The deep table clamp mount is intended to clear most knoll-edge (45\(\text{°}\) angle) desks or worksurfaces.

#### Grommet Mounting

- With all systems furniture, it is important to place equipment and peripheral infrastructure on the electrical socket. On Sapper XYZ single arms and Sapper XYZ arms, there is a cable management block in the channel under the arm that will contain wires from the monitor to plastic cable management clips that go on the port. On Sapper XYZ Crossbar, there are two hooks and loop fasteners strips on the crossbar to neatly drop cables down to the plastic cable management clip attached to the post.

#### Cable Management

- External cable management allows for easy installation and removal of monitors and keeps wires tidy to the electrical socket. On Sapper XYZ single arms and Sapper XYZ arms, there is a cable management block in the channel under the arm that will contain wires from the monitor to plastic cable management clips that go on the post. On Sapper XYZ Crossbar, there are two hooks and loop fasteners strips on the crossbar to neatly drop cables down to the plastic cable management clip attached to the post.

#### Arm Adjustment

- **The Sapper XYZ monitor arm collection offers intuitive one touch adjustment:**
  - To adjust the height, you simply lift the monitor to the desired position.
  - To adjust the depth, you simply pull or push the monitor in or out.
  - You can also rotate the monitor 360 degrees for landscape or portrait viewing, adjust the swivel back and forth 180 degrees and up and down 153 degrees. The single arm folds in and out fully, with screws that fully compressed to approximately 23\(\text{"}\) when fully extended. Sapper XYZ Crossbar folds in and out fully, 2.95\(\text{"}\) fully compressed to 18.38\(\text{"}\) when fully extended.

- **Due to the extensive adjustability of Sapper XYZ monitor arms, a 2.95\(\text{"}\) adjustment is recommended to ensure it is suited for the specific workstation, particularly if placed in front of a wall or panel.**

**Antenna Table Center Beam Side Mounting**

- This mount allows you to clear the flip door while allowing for maximum worksurface and individual height adjustment without the need to sacrifice space. Please note a screen can be mounted in the center beam with a monitor arm in front of it. The fit is for use on a desk or desk with the screen.

**Interface Mounting**

- Sapper XYZ arms can be mounted on the either the desk or channel sides of Interpole with the proper mount.

**Physical Mounting**

- All Sapper XYZ monitor arms are compatible with the integrated VESA Mount adapters. The monitor can be mounted on Sapper and Sapper XYZ. All other Apple displays must be mounted on Sapper 50 due to weight specifications.

**Clamp Weight Adjustment:**

- **The Sapper XYZ and Sapper XYZ Crossbar monitor arms are intended for up to 10 lbs on a single arm and 18.5 lbs on a Sapper XYZ Crossbar.** Other monitor weights up to 20 lbs can be accommodated by adjusting the weight adjustment nut to the proper weight using the Allen key wrench on the back of the movement joint. Note that the 20 lb setting is not visible on the scale. Turn clockwise to decrease weight or counterclockwise to increase weight to appropriate level. The arm should be held in a downward position if increasing the weight setting or an upward position if decreasing the weight setting. When proper weight is set, the arm should stay exactly where you place it.

**Temperature Note:**

- Sapper XYZ Crossbar's gusset strain weight tolerance performance may be reduced by 1-2 lbs when used in temperatures below 0\(\text{°}\)F or above typical office temperatures.

**Fast Release:**

- Allows for swift installation and removal of flat panel monitors by merely popping the quick release pin up to remove monitor with monitor in place back plate attached. Be sure to lift arm to the highest position before removing monitor, or the arm will quickly move upwards.

**Theft Deterrence:**

- All movement joints are set with a set screw in the fast release pin, to prevent fast release if so desired.

**Compatibility:**

- The Sapper XYZ monitor arms are not compatible with the previous Monitor Arm Collection. It has been designed independently and as such parts from one system cannot be used with the other, with the exception of the movement joint. Finish colors are consistent across the Sapper XYZ and Sapper Monitor Arm Collection portfolios.

**Installation Instructions:**

- Comprehensive installation instructions will be shipped with product and are also available on Knoll Exchange for easy reference.
### Adjustable Keyboard Supports

#### Ordering Information

**Example:** OAK-21HP-AL-BK-PT-22

1. Pattern number
2. Track length
3. Track length options: Options: 20”, 23”, 25”, 22”, 22” (all in inches)
4. Minimum clearance required is the length of the track plus 1”.

### Construction

**Platforms:** All platforms are HDPE.

- **Widths:** All platforms are HDPE.
- **Wristrests:** polyurethane mold with polypropylene insert.
- **Mechanisms:** All arms are steel with a powdercoat finish. Tracks are steel with nylon glides.

#### Mechanism Attributes

- **Advanced Easy Lift arm:**
  - Variable height adjustment of 0° (up 2.38, down 5.9)
  - Soft touch knob adjusts tilt from 10° to (-) 15°
- **Short easy lift arm:**
  - Variable height adjustment of 5.1° below the worksurface
  - Soft touch knob adjusts tilt from 10° to (-) 20°
- **Sit/Stand arm:**
  - Variable height adjustment of 14.2° (up 8.5°, down 5.9°)
  - Soft touch knob adjusts tilt from 10° to (-) 15°

- **Pivot feature:**
  - Allows the keyboard platform to move independently from arm, allowing it to stay parallel to the worksurface as the arm is moved laterally.

#### Antenna and Tone Mounting Note

Keyboard support must be specified with a sliding track that is less than the depth of the top and anything below the top such as a power harness or cable basket. For taller individuals, we recommend using a dual pivot solution with the track mounted on the diagonal to maximize knee space.

**Antenna:**
- In order to mount on Antenna Workspaces, an adapter is needed, available through the Antenna price list. Pattern code YAK.
- For 3D deep C-Leg tables, use the 16” track only.

**Tone:**
- In order to mount on Tone T-Leg and 24” deep C-Leg tables, an adapter is needed available through the Antenna price list. Pattern code YAK.
- For 30” deep C-Leg tables, specify the 16” track only.

Freestanding Ergonomic Accessories

**VDT Sleeve**
- Racetrack-shaped sleeve slides over worksurface to create VDT corner.
- Creates 17 5/8" wide VDT corner, 9" from worksurface corner.
- Can be adjusted to any angle, or removed when not needed.
- Heavy-gauge steel with felt backing to prevent scuffing.
- 1 1/4", 1 3/4" and 2 1/2" worksurface thicknesses.
- 1/4" screw holes on underside for optional attachment to worksurface.
- Available in two metallic and two soft-touch finishes.

</table>

**Surf Board VDT Corner**
- Fits any worksurface thickness or edge profile.
- Creates generous 24" wide VDT corner, 14" from worksurface corner.
- Can be adjusted to any angle, or removed when not needed.
- Integral non-handed mouse pad.
- Felt back and rubber bumpers protect worksurface.
- Designed by Ross Lovegrove and Stephen Peart.

  - A: 1 1/4" sleeve
  - E: Soft grey finish

**Construction**
- **VDT sleeve:**
  - Heavy-gauge steel in painted finish.
  - Felt backing protects worksurface.
  - Manufactured in the United States.

- **Surf Board:**
  - Rigid steel plate with 1" thick rolled front detail.
  - Black rubber bumpers and non-scruffing felt back.

<td>Sling</td>
</tr>
</tbody>
</table>

**Ordering Information**

Specify:

1. Pattern number

**Construction**

**Adjustable Sling CPU Holder**

- Black painted glass filled nylon mounting mechanism. Woven nylon sling.
- Slides on track under worksurface and swivels 360° for easy CPU access.
- Weight capacity of 75 lbs.

**Adjustable Vertical CPU Holder**

- Black painted steel frame with glass filled nylon slide clamp.
- White: Black painted steel.
- Lockable Vertical CPU Holder: Offers theft prevention with a heavy-duty, tamper-proof locking nut with pentagonal key.
- Slides on track under worksurface and swivels 360° for easy CPU access.
- Weight capacity of 115 lbs.

**Mounting Note**

CPU holders come standard with a 17" long track. They mount on work surfaces 18" or deeper.

**Antenna, Tone and Telescope Mounting**

- **Antenna:**
  - In order to mount on Antenna Workspace, an adapter is needed. Available through the Antenna price list. Pattern code YAPCU.

- **Tone:**
  - In order to mount on Tone T-leg and 24" deep C-Leg, an adapter is needed. Available through the Antenna price list. Pattern code YACPU. 30" deep C-Leg provides sufficient track clearance.

- **Telescope:**
  - Due to legroom clearance, CPUs cannot mount on Telescope tables less than 27" wide. For mounting on tables 27" or wider, only one power supply tray can be installed opposite from the CPU holder, and the YACPU adapter from the Antenna price list is needed.
### Cable Management

</table>

### Order Code

| Example | Technology Management | Cable Management | Clips | Set of 2 |

### Additional Information

- Each clip is 5.67” x 1.5” w.
- Available in black finish only.
- Glass reinforced molded nylon.

### Mounting Options

- **Swivel mounting**: Install using the primary center screw only.
- **Fixed mounting**: Install using the three screws provided (primary center screw and two side screws). A double-sided stick pad is included for ease of installation when fixed mounting.

### Mounting Note

- On average, use two clips per workstation.
## Storage

### Pencil Drawers

### Application Notes

- Pencil Drawers can be used with virtually any Knoll or competitor wood worksurface.
- **Universal Pencil Drawer:**
  - Minimum depth worksurface for drawer is 24". On freestanding Morrison Network systems, a 30" deep worksurface is required.
  - Minimum depth worksurface for drawer is 10".
  - Pencil Drawer attaches 2 5/8" below the underside of wood worksurfaces at any location. Mounting hardware and template included.

- **BackPack® Lock option:**
  - Lock attaches to slides in field. Removable for use elsewhere.

- Call Customer Service for availability and minimum requirement.

### Design Awards

### Construction

- **Universal Pencil Drawer:**
  - Durable vacuum-formed ABS plastic drawer in a matte black, textured finish. Three-quarter extension, ball-bearing metal slides with smooth, silent movement.
  - Manufactured in the United States.

- **BackPack® Pencil Drawer:**
  - Durable 20-gauge steel painted black. Full-extension ball-bearing metal slides with click-stop in half-open position.
  - Die-cast zinc lock painted black.
  - BackPack® Pencil Drawer manufactured in Canada.
## Universal Marker Boards

  OR-WB-WM  
  $44.

### Ordering Information
- Specify:
  1. Pattern number
  2. Frame finish
  3. Mounting option
  4. System suffix (panel and top cap-mounted only)
  5. Marker Tray (optional)
  6. Marker Tray finish

### Mounting Options
- **Rail-Mounted:** Standard option. Includes load bar clip and adhesive-backed rubber bumper to protect panel fabric and prevent deflection.
- **Panel-Mounted:** To ensure rigidity, specify two sets and brackets.

### Construction
- Satin anodized aluminum frame (can be powder coated black).
- Porcelain coating on cold rolled steel laminated to corrugated and hardboard with a Mylar backing. All Universal Marker Boards are magnetized.
- Manufactured in the United States.
Fabric Boards

- Standard fabric board has 1/2" thick mineral board construction with squared corner.
- Rounded corner or radiused edge, available at up-charge.
- Panel or wall mounting options.

Panel-mounted brackets:
- Panel-mounted brackets are included in the list price but must be specified separately. To specify appropriate panel-mounted bracket, consult the KnollExtra Bracket Chart on page 32.
- Panel-mounted bracket size must match height of fabric board.

Rounded corner/radiused edge options:
- Wall-mounted applications must be specified as flush (F-WM-F) or reveal (F-WM-R). Both options are available for any smooth, clean surface. Flush wall mount option utilizes velcro squares.
- Round wall mount option provides 1/2" clearance for fire management behind fabric board. Fabric boards mount with 4 brackets onto 2 black painted wall rails that screw into wall to ensure rigidity. For other mounting options and pricing, contact Customer Service.

Under overhead specification note:
For application under a system overhead, precise clearance distance between the worksurface and the bottom of the overhead or task light.

Wall-mounted applications must be specified as flush (F-WM-F) or reveal (F-WM-R). Both options are available for any smooth, clean surface. Flush wall mount option utilizes velcro squares.

</tr>
<tr>
<td>5</td>
<td>Mounting option pattern number</td>
</tr>
<tr>
<td>6</td>
<td>System suffix (panel-mounted option only)</td>
</tr>
</tbody>
</table>

### Ordering Information

Specify:
1. Pattern number
2. Corner/edge detail
3. Fabric grade
4. Fabric selection
5. Mounting option pattern number
6. System suffix (panel-mounted option only)

Standard fabric board has squared corner and rectilinear edge details. See above for edge upcharge.

Thickness options:

- Standard fabric board has ½" thick mineral board.
- Panel-mounted brackets are included in the list price but must be specified separately. To specify appropriate panel-mounted bracket, consult the Knoll sales bracket chart on page 12.

Panel mounted bracket size must match height of fabric board.

Wall-mounted applications must be specified as flush (F-WM-F) or reveals (F-WM-R). Both options are appropriate for any smooth, clean surface.

Flush wall-mount option utilizes velcro squares.

### Custom Options

For special sizes:
For special contact Customer Service. Maximum fabric board size is 120"W x 24"H. Fabric must be railroaded on any panel wider than 60".

Customer's own material:
For approval, submit at least one yard of fabric for application testing. For panel-mounted applications, all COMs and textiles that are not pre-approved must be UL-tested. Please consult Knoll sales Customer Service for details.

### Corner/Edge Detail

- S1. Squared corner/Rectilinear edge
- R2. Rounded corner/Radiused edge
- S2. Squared corner/Radiused edge

### Construction

- ½" thick mineral board for durable, highly tackable surface.
## Scribe™ Mobile Markerboards

by Antenna Design

**LW**
Laminate Whiteboard

**30 54**
30" x 54" Surface

A
One cup and one tray

111
Jet Black finish

### Application Notes

Marker storage options
Marker storage options (trays and cups) must be ordered with markerboard and are not retrofittable in the field. Replace \( \times \) in pattern with:

<table>
<thead>
<tr>
<th>Code</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>S</td>
<td>One tray</td>
</tr>
<tr>
<td>D</td>
<td>Two trays</td>
</tr>
<tr>
<td>C</td>
<td>One cup</td>
</tr>
<tr>
<td>E</td>
<td>Two cups</td>
</tr>
<tr>
<td>A</td>
<td>One cup and one tray</td>
</tr>
<tr>
<td>B</td>
<td>One cup and two trays</td>
</tr>
<tr>
<td>F</td>
<td>Two cups and one tray</td>
</tr>
<tr>
<td>G</td>
<td>Two cups and two trays</td>
</tr>
</tbody>
</table>

### Construction

**Whiteboard:** Honeycomb core with medium-density fiberboard skin, high pressure laminate finish and ABS edge.

**Crossmember:** Aluminum

**Legs:** Steel

**Cup:** Die cast aluminum with wool felt insert and steel fasteners.

### Note

Each markerboard ships with four dry erase markers (blue, green, red and black) and a microfiber cleaning cloth.

Overall height from floor is 72" high with writable surface starting 25" from floor.

The optional marker tray runs the length of the crossmember. The optional marker cup mounts to the side.

To prevent dry erase markers from drying out, store them with the cap down in the optional cup.

Selling Policy

Terms & Conditions of Sales
This Selling Policy supersedes all previous selling policies. Prices, discounts and product offerings are subject to change without notice.

Ordering Information
All orders must be in writing. The product pattern number(s) contained on Seller’s order acknowledgment shall be the final expression of the order.

Pricing Policies
List prices are subject to change without notice.

Order Confirmation
A purchase order is not binding on Seller until Purchaser has received Seller’s order confirmation or acknowledgment.

Taxes
List prices shall be those prices in effect on the date of receipt of a complete purchase order unless shipment is requested more than ninety (90) days after order entry in which case prices in effect on the date of shipment apply. List prices include specified freight costs. Unless specified in writing by Seller, no other sales taxes, excise taxes, use taxes, or other taxes shall be included in the list prices.

Terms of Payment
Payment for orders greater than $100,000 net, a fifty percent (50%) deposit is due at the time of order placement, with the remainder due within thirty (30) days of the date of invoice.

Changes and Cancellation
Purchase orders may not be changed or cancelled, in whole or in part, without prior written consent of Seller. Changes may effect delivery dates. Expenses incurred because of changes shall be charged to Purchaser. In the event of cancellations, Purchaser will be liable for reasonable cancellation charges established by Seller. Orders for special Product, orders including “COM” (hereinafter defined) material and orders pursuant to expedited delivery programs, may not be canceled.

Freight Prepaid
Freight is prepaid and included in the price of all Products. All exceptions are noted on the purchase order. Knoll Studio orders require payment for one hundred percent (100%) of the net order amount (including applicable sales and charges for inside delivery, special packaging, etc.), due at time of order placement. For Knoll Studio orders greater than $2,000, a one-half (50%) deposit is due at time of order placement with the remainder (including any applicable sales and charges for inside delivery, special packaging, etc.) due prior to shipment.

Delivery/Freight Charges
For shipments outside the contiguous United States and Canada, Purchaser is responsible for the cost of freight from point of embarkation, including any handling and transportation charges incidental to loading at the point of departure and unloading at the final destination.

Claims
All shipments for Knoll Products within the contiguous United States and Canada are F.O.B. Origin. All risk of loss passes to Purchaser at time of delivery. Purchaser shall inspect all Products upon receipt and notify Seller within ten (10) working days after receipt of any damage or defects which are, or should be, apparent from an inspection of the Product and its packaging. Failure of Purchaser to notify Seller within the ten (10) working day period shall constitute acceptance of the Product and waiver of any apparent defects, errors or shortages. For all claims relating to Product damaged in transit or for any other claims relating to or arising out of the transportation of the Product, Purchaser must seek recovery from the carrier and Seller has no liability to Purchaser for such claims. Seller may, upon request, assist Purchaser with filing of such claims with the carrier, but Seller will not be liable for any of these transportation related claims.

Seller’s Security Interest
Until Seller receives the full payment for the Product, Seller shall have a security interest in the Product. Purchaser agrees to perform all acts, including but not limited to the execution and filing of documentation, which may be necessary to perfect and assure the security interest of Seller.

Returns
The return of Products without a written authorization by Seller shall not be accepted. To receive authorization for Product return, please call Customer Service. All Products that are returned pursuant to a valid authorization shall be subject to a twenty-five percent (25%) restocking charge. Products not currently offered for sale by Seller (including COM) shall not be authorized for returns. All returned Products must be unused, in original condition and in the original Seller packing cartons. No refund or credit shall be given for damaged Products.

Held Orders/Storage
If Purchaser requests that an order be held or delayed, prices and terms and conditions in effect at the time of shipment shall apply. If Purchaser requests a delay after the time when Seller can defer production, Purchaser will be invoiced for the Product, payable in accordance with standard terms, when the order is ready for shipment. Seller may transfer the Product to storage, in which case all expenses incurred in connection with storage, including demurrage, preparation for storage, storage charges and handling shall be payable by Purchaser upon submission of invoices by Seller. Risk of loss to the Product shall pass to the Purchaser upon delivery of the Product into storage.
Selling Policy

Customer’s Own Material

A Purchaser who requests a fabric or other surface material not standard to Seller’s line of Products (“COM”) must submit samples of the requested material to Seller prior to entry of a purchaser order. Seller shall determine if the material is suitable to its manufacturing processes and meets any requirements of Underwriters Laboratories. If the COM is acceptable, Seller will then establish a price for using the COM or the Product in question. For a description of the procedures for submitting samples and testing, contact customer resources or your sales representative. Seller shall have no responsibility for the appearance, condition, performance, durability, colorfastness or any other physical attribute of the COM. Purchaser shall indemnify and hold Seller harmless for any damages, injuries or losses arising out of or related to use of the COM on the Product.

Warranty

Seller warrants to the original Purchaser only that the Products Seller manufactures and sells to Purchaser are free of defects in workmanship and materials, during the applicable warranty period set forth below.

Warranty period set forth below is for 24-hour, 7 days a week, multi shift use (includes parts and labor to repair). Should any failure to conform with this limited warranty appear to a Product listed below during the applicable warranty period from the date of shipment, Seller shall, upon prompt written notice, repair or replace, at its option and costs, the affected part or parts.

2 Years: Anchor Storage digital keypad lock, all other textiles except textiles and leather product

This warranty does not apply to:

• Damage caused by a carrier other than the Seller.
• Normal wear and tear or acts or omissions of parties other than Seller (including user modification, improper use or installation of Products).
• COM or other third party materials applied to Products.
• Products not installed by or under the auspices of a Knoll Dealer.
• Dramatic temperature variations or exposure to unusual conditions.
• Changes in surface finishes, including colorfastness due to aging or exposure to light.
• Except as specifically noted above, textiles and upholstery supplied by KnollTextiles and Spinneybeck FilzFelt (consult current price lists for applicable warranties).

Natural variations occurring in wood, marble, and leather shall not be considered defects, and the Seller does not guarantee the colorfastness or matching of the colors, grains or textures, or surface hardness of such materials. The Seller also does not guarantee the colorfastness of fiberglass panel surfaces.

The EXPRESS WARRANTIES CONTAINED HEREIN ARE IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTIES OF MERCHANTABILITY AND FITNESS FOR PARTICULAR PURPOSE AND ALL OTHER WARRANTIES ARISING FROM COURSE OF DEALING OR USAGE OF TRADE.

The remedies provided above are the Purchaser’s sole remedies for any failure of Seller to comply with its obligations regarding the workmanship of its Products. Correction of any nonconformity in the manner and for the period of time provided shall constitute complete fulfillment of all liabilities of Seller, with respect to or arising out of the Product furnished hereunder.

Delay/Force Majeure

Seller shall not be liable for failure to perform or for delay in performance due to fire, flood, strike or other labor difficulty, act of God, act of war or terrorism, act of any governmental authority or of the Purchaser, riot, embargo, fuel or energy shortage, wrecks or delay in transportation, inability to obtain necessary labor, materials or manufacturing facilities from usual sources or failure of suppliers to meet their contractual obligations, or due to any cause beyond its reasonable control. If any such event occurs, Seller may extend delivery dates by a period of time necessary to overcome the effect of such delay, allocate available Product or cancel any purchase order.

Compliance with Law

PURCHASER IS SOLELY RESPONSIBLE FOR COMPLIANCE WITH ALL APPLICABLE FEDERAL, STATE AND LOCAL LAWS, ORDINANCES, REGULATIONS, RULES AND STANDARDS RELATING TO THE INSTALLATION, MAINTENANCE, USE AND OPERATION OF THE PRODUCTS.

Patents

Subject to the following provisions, Seller shall, at its own expense, defend or, at its option, settle any claim, suit or proceeding brought against the Purchaser, and/or its vendees, mediate and immediately, so far as based on an allegation that any Product or any part thereof furnished hereunder constitutes a direct or a contributory infringement of any claim of any patent of the United States or Canada. This obligation shall be effective only if Purchaser shall have made all payments then due hereunder and if Seller is notified promptly in writing and given authority, information and assistance for the defense of said claim, suit or proceeding. Seller shall pay all damages and costs awarded in such suit or proceedings so defended.

The foregoing indemnity does not apply to the following:

• Products supplied according to a design other than that of Seller, and which is required by the Purchaser.
• Combination of the Product with another product not furnished hereunder unless Seller is a contributory infringer.

Limitations of Liability

SELLER, ITS CONTRACTORS, AUTHORIZED DEALERS AND SUBCONTRACTORS OR SUPPLIERS OF ANY TIER SHALL NOT BE LIABLE TO PURCHASER FOR ANY SPECIAL, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING FROM A BREACH OF THIS AGREEMENT.

Purchaser’s remedies set forth herein are exclusive and the liability of Seller with respect to the breach of this agreement or any contract entered into between the parties pursuant hereto shall not exceed the price of the Product or part on which such liability is based.

**General Ordering Information**

**The Products**
This guide encompasses all standard products for this product group.

**Sizes**
Dimensions listed in this guide are indicated as:
H = height
W = width
D = depth
Dia. = diameter
Rad. = radius

**Pricing**
All prices shown are list.

**How to Order**
Select pattern numbers and quantities required for your complete installation. Product questions can be addressed in the specific sections of this guide or by contacting your sales representative or customer resource representative at 1-800-343-5665.

Next, select options (if required), along with colors and finishes appropriate to each product. Reference the Finishes and Fabrics pages for color designations.

On large installations, an item’s “designated area” can be specified to assist in product organization and handling.

To expedite complete / correct entry of your order, be certain all pattern numbers, quantities, colors and area identifications are completely specified. Also, include complete purchase order numbers, bill-to and ship-to addresses, a contact name and specific factory shipping dates required.

**Mail all orders to:**
Knoll, Inc.
1235 Water Street
East Greenville, PA 18041
Attention: Order Entry

Once your order is entered at Knoll, an acknowledgment will be mailed to you. You will be advised of your scheduled shipping date within five days of the original acknowledgment. If it is necessary to revise your order, please contact your customer resource representative.

**Sustainability Statement**

Sustainable design is a key component of Knoll’s environmental focus. Our commitment to social responsibility and a healthy environment has prompted us to further articulate our longstanding environmental programs and, with encouragement and support from our colleagues in the industry, we have re-energized our focus on such “green” initiatives as life cycle analysis and LEED™ certification. Knoll is proud to have contributed to projects that have received LEED certification from the U.S. Green Building Council.

For the latest information on Knoll products that help our customers achieve LEED certification, log on to knoll.com, click on “About Knoll” and then “Environmental Focus.”
