

# W-Bleach & W-S Bleach Cleaning Instructions **Knoll**Textiles

## General Cleaning Information

Regular and proper maintenance of your fabric permits less frequent cleaning.

Maintenance is routine, on-going care which reduces soil build-up on a fabric's surface. Maintenance also includes promptly treating spots and stains.

Vacuum fabric regularly with a proper upholstery attachment to thoroughly remove airborne dust and lint. Pile fabrics may require light brushing using a non-metallic soft bristle brush to restore its appearance.

Do not rub or brush excessively or you may cause fuzzing.

---

Household bleach should be diluted on a 1:4 ratio with water. Wet clean white lint free cloth and blot stain. Rinse cleaned area with clean white lint free cloth and clear water.

**W—Bleach:** Clean with water-based cleaning agents, foam or 1:4 solution of household bleach and water, as desired.

**W—S Bleach:** Clean with water-based clean agents, foam, mild water-free solvents or 1:4 solutions of bleach and water, as desired.

**Do not over wet the fabric or damage to the infill materials or adhesives may occur!**

PRE-TEST ANY CLEANING METHOD RECOMMENDED IN AN INCONSPICUOUS AREA OF THE FABRIC FIRST TO DETERMINE IF THE METHOD WILL HARM THE FABRIC OR WALLCOVERING ADHESIVE BOND.

### **CAUTION!**

*Bleach can be used in recommended dilution.*

*Bleach can severely affect color of other fabric types.*
