Each year Knoll sets key initiatives in our journey to sustainability. We are members of a global consortium on energy, have adopted a scientific, metrics-based approach to sustainable product design, and maintain a leadership position in establishing universal, verifiable, sustainability standards for our industry.

Knoll promotes independent third-party certification because it provides the most impartial and trustworthy foundation for industry-wide environmental compliance. Certification by established and respected third parties ensures that all manufacturers are held to the same high standards and that customers can trust a company’s declaration about the environmental benefits of its products. Knoll third-party partners include: the International Standards Organization (ISO); Forest Stewardship Council (FSC®); Rainforest Alliance; GREENGUARD® Environmental Institute; and The Business and Institutional Furniture Manufacturer’s Association (BIFMA) level® certification from Scientific Certification Systems (SCS).

In addition, Knoll is aligned with the U.S. Green Building Council and can help companies, healthcare organizations and educational institutions achieve Leadership in Energy and Environmental Design (LEED®) workplace certification.

Global Climate Change

- Knoll is a sponsor of the Clinton Global Initiative, which brings together a community of global leaders to devise and implement solutions to some of the world’s most pressing challenges, including environmental change.
- Knoll has a comprehensive Energy Management Program to increase energy efficiency in products and processes.

Life Cycle Assessment (LCA) Tool

- Life Cycle Assessment is a science-based measurement of a product’s environmental impacts throughout its life cycle, from raw materials sourcing through manufacture, shipping, use and re-use or end-of-life. LCA enables cradle-to-cradle implementation of sustainable practices.

Setting Industry Standards

- Knoll partners with MTS (The Institute for Market Transformation to Sustainability) to develop the SMaRT© Consensus Sustainable Products Standards, a set of consensus-based sustainable product standards based on the LEED® model, for all building products, fabric, apparel, flooring and carpet. MTS, the developer of SMaRT®, is an accredited American National Standards Institute (ANSI) standard developer.
- Knoll also partners with BIFMA (Business and Institutional Furniture Manufacturers Association) to promote level® sustainability standards for the contract furniture industry.
- Knoll has established FSC® (Forest Stewardship Council) certified wood as the standard for general office open plan office systems, casegoods and tables.
- Knoll has launched Full Circle, a resource recovery program developed with ANEW, to help customers extend the life cycle of surplus furniture, fixtures and equipment (FF&E) in an economically, socially and environmentally responsible manner.
- Our goal is to encourage all manufacturers in the contract furniture industry and related industries to adopt standards that will lead to sustainable products and practices.

For more information about Knoll and sustainable design, visit knoll.com/environment.
All Knoll Office Seating is GREENGUARD and GREENGUARD Gold certified.

All KnollExtra® products are GREENGUARD certified.

Visit GREENGUARD.org for more information and to find printable certificates for Knoll Office Seating that can be used for verification and LEED® submission.

GREENGUARD provides the only guide to certified low-emitting interior products and building materials. Its goal is to help building owners and managers, architects, interior designers and product specifiers build and furnish healthier offices, hospitals, schools and homes by providing a register of tested and certified low-emitting products and materials.

GREENGUARD certification is recognized by the U.S. Green Building Council’s LEED® Program. Air Quality Science, an independent indoor air quality laboratory, tests products submitted for certification using stringent environmental chamber testing protocols and current indoor air quality standard. Certification is administered by the GREENGUARD Environmental Institute (GEI), an industry-independent, non-profit organization.

GREENGUARD Gold certification complies with the State of California’s Department of Health Services Standard Practice (CA Section 01350) for testing chemical emissions from building products used in schools, offices and other sensitive environments. Certified products can contribute to achieving credits in the CHPS Best Practices Manual for K-12 schools, the LEED® Green Building Rating System, Green Guide for Healthcare™, NAHB Green Building Guidelines, Green Globes, Regreen and numerous other local authorities’ green building codes.

Knoll Office Seating and KnollExtra® products can contribute to achieving LEED® credits. GREENGUARD-tested and certified office furniture is required for Credit 4.5 in the LEED-CI Indoor Environmental Quality section.

GREENGUARD Certification Program

- Internationally recognized for evaluating product emissions and certifying building materials, furnishings, finishes and cleaning products and processes that meet stringent indoor air quality criteria defined by GEI.
- Products undergo rigorous, third-party testing to determine their impact on indoor air pollution with requirements for ongoing testing and verification.
- Certification confirms a manufacturer's environmental responsibility, and signifies their environmental achievements through independent, third-party testing and verification.
- GREENGUARD Certified products are recommended by leading sustainable building programs, including:
  - U.S Green Building Council’s (USGBC) LEED Rating System,
  - National Association of Home Builders (NAHB) Green Building Guidelines,
  - Green Guide for Health Care (GGHC),
  - Collaborative for High Performance Schools (CHPS) Best Practices Manual,
  - New York City Department of Design and Construction Sustainable Design Specifications, among others.
An Overview

In the first part of the Price List you’ll find Lighting and Power Series.

The second part features a full range of desktop accessories including Smokador and Orchestra, perfect for panel-mounted or freestanding application.

Part three offers a broad range of systems support products, including technology management and communication boards.

Can’t find it? Consult the Table of Contents on page 1 or the Alpha-numeric Index on page 176.

Product Information on Each Page

The KnollExtra Price List was designed to provide you with everything you need to know in order to understand, specify, and care for KnollExtra products. On each page, the following features will assist you:

- **Description/Construction** explains salient features, capabilities, materials, and country of origin.
- **Dimensions** provide the overall space the product will require. Statistics are based on the maximum width, depth and height of the product.
- **Weight** is based on the product itself. It does not include packaging or complementary items such as pens, memo paper or calendars.
- **Order Code/Ordering Information** outlines exactly how to specify KnollExtra product and the full scope of finish options. The Order Code provides an example of how one pattern number is specified.
- **Custom Options** reviews availability of special sizes, finishes etc.

For More Information

For more information, contact your Knoll sales representative, telephone Customer Service at 1-800-343-5665, or visit one of the Knoll showrooms listed on the last page of this book.

A Word About Finishes

KnollExtra finishes are designed to complement a broad range of interiors and office products.

Key KnollExtra finishes coordinate with specific Knoll systems finishes:

Use the Following Addresses

If you would like to send a standard lead time order to our order entry department, please use the following address:

For North American orders:
Knoll, Inc.
1235 Water Street
East Greenville, PA 18041
Attn: Order Entry

Fax: 215 679-1788
Tel: 800 343-KNOLL

All accepted orders will be confirmed in writing on the Knoll standard order confirmation form.

Ship-Complete Orders

Orders that must ship complete are to be so stated on the purchase order. Products with different lead times, combined on one order, can be acknowledged for shipment based on the longest of those lead times. Orders not marked “ship complete” will be released according to the confirmation, and invoiced in increments.

For More Information

For complete Knoll Selling Policy and warranty information, please refer to page 178 of this price list. For additional information on KnollExtra, contact your Knoll representative, a Knoll dealer, or telephone Customer Services at 800 343-KNOLL.

Maintaining Your Purchase

While KnollExtra relies on highly durable materials in each product line, regular basic maintenance will ensure the longevity of your product. Most stains, marks, and discolorations can be removed by following the simple instructions outlined on this page.

Plastic
- Windex and a dry cloth.

Stainless Steel:
- Windex and a dry cloth.

Antique Brass, Brushed Zinc and Black Oxide:
- A damp cloth with no cleaning agents.

Satin Brass:
- Pledge.

Linoleum:
- Windex and a dry cloth.

Contemporary and Traditional Standard Leathers:
- Mild soap and water on a soft cloth.

Spinneybeck Leathers:
- As a result of the high quality aniline dye process, most scratches or minor stains can be removed simply by gently rubbing them with your fingers. The body’s natural oils revitalize the leather. For stubborn stains, use mild soap and water. Take care to wash the surface evenly since soaps may slightly alter the leather’s tonality.

Surf Collection:
- Wipe nylon skin using warm water and mild detergent. Do not use abrasives.

Office Automation Accessories/Storage Drawers:
- Clean with a soft cloth and Windex, Fantastik, Endust or other non-abrasive household cleaners.
- Remove stubborn stains with SoftScrub.
- For Surf Board and VDT Sleeve soft touch paints, never use abrasives. Clean with lukewarm water and a soft cloth.

Marker Boards:
- For day-to-day use, surface requires only a dry cleaning with a standard felt eraser or dry cloth. For best results, keep marker board and marker pens at room temperature. KnollExtra suggests Bic Great Erase BOLD marker pens which are designed for use on marker boards. All marker pens should be tightly capped and stored horizontally when not in use.
- Follow the instructions below as a periodic maintenance program, or to remove stubborn stains:
  1. Clean with EV-1 or any liquid ammonia-added cleaner and rinse with clean water, then dry. For best results, wash board like a window with sponge and squeegee.
  2. Interim cleaning may be done by sprinkling a dry powdered cleanser on an eraser and applying to the board in a circular motion. Rinse with clean water, then dry.
  3. To remove crayon, scotch tape, or other stubborn materials, apply a mild solvent or paste made with scouring powder and water.

Fabric Boards:
- Despite the durability of most panel textiles, fabric boards are subject to long-term soiling and wear. A regular maintenance program will significantly lessen soil and dirt build up or staining on your fabric boards. Cleaning is particularly important in areas adjacent to air conditioning or ventilation systems. Remember to consult the care instructions provided by the fabric manufacturer. The general recommendations below should apply to most fabric boards.
  1. Avoid excessive heat or moisture which can affect finishes and adhesives. Never allow fabric panels to become wet inside the core. Room temperature should be maintained between 50 and 85 degrees; humidity should be maintained between 20 and 50%.
  2. Avoid contact with sharp edges which could puncture the surface.
  3. Do not handle fabric boards more than necessary. Avoid bending or flexing the panels; this could break the bond between the surface and core materials.
  4. Grease or oil should be wiped off immediately upon contact. Remove excess grease or oil by blotting. Use hot water and mild soap to remove any remaining residue.
  5. Whenever possible, clean only with warm water and mild soap. Use caution when applying cleaning agents, particularly those that contain alcohol, strong alkalis, or solvents. These ingredients may react to the vinyl backing or adhesives used in the fabric boards. Always test cleaning agents on fabric from the rear of the panel before using on the front.

Surf Board and VDT Sleeve soft touch paints, never use abrasives. Clean with lukewarm water and a soft cloth.

KnollExtra suggests Bic Great Erase BOLD marker pens which are designed for use on marker boards. All marker pens should be tightly capped and stored horizontally when not in use.

### Additional Information

- **Sparrow**: Available in a black or white light finish with stainless steel or black frame.
- **Occupancy Sensor (LED PIR)**: Can be added to any LED light and must be ordered separately.
- **UL Certified**.
- **Light Source Information**
  - 9 watts single multichip LED, 50,000 hours lifespan.

### Height Range

- **Articulates**: 18° to 90°
- **Table clamp**: 2.5" to 21.4"
- **Antenna beam side**: 3.5" to 22.3"
- **Freestanding**: 4.3" to 23.2"

### Construction

- Lamp: LED, cast aluminum housing, stainless steel frame and plastic reflector and lens.
- Table clamp mount: steel.
- Antenna beam side mount: die cast aluminum.
- Freestanding base: plastic and cast iron.
- Occupancy sensor: extruded aluminum body, plastic face, end caps and lens.

### Design Awards

- **Best of NeoCon 2013 Silver Award**
- Sparrow is TAA compliant.

Order Code Example:

- ACT-PW-PC-24-24-13-1E
  - ACT: Activity Spaces
  - PW: Power Collection
  - PC: Power Cube
  - 36-36-13: electrical outlets on one side

Ordering Information:

- Specify 1. Pattern number
- Finish note: Power Cube finish is white markerboard paint.
- Optional Magnetic Accessory Cup must be specified in one of the following finishes:
  - Code: Description
    - 111: Black
    - 115: Medium Gray
    - 118: Bright White
    - 130: Dark Red
    - 131: Slate Blue

General Notes:

- Each electrical module has either 4 outlets or 3 outlets and 2 USB ports, depending on specification.
- Power Cube is 13” high with 4 levelers. Hard wired comes with 72” whip. Cord set comes with 72” cord with a 3-prong plug for 120V outlets. Base includes one slot per corner for choice of cord exit.

Construction:

- Power Cube: Powder coated steel, steel and nylon levelers
- Magnetic Accessory Cup: See page 38.

Note: Each Power Cube comes with a whiteboard finish and ships with 4 dry erase markers (blue, green, red, and black) and a microfiber cloth eraser.

To prevent dry erase markers from drying out, store them with the cap down in the optional cup.

Power Disc:

- Max Load: 120V, 15A, 50/60 Hz
- Voltage Protection Rating: L-N 600V, L-G 600V, N-G 600V
- UL Listed Reel to Reel Power Tap/ Surge Protection Device
- 10’ 3-prong cord recesses in base for flat surfaces or can be threaded through standard grommet
- On/off switch with LED indicator
- Unit weighs 4.3 lbs.
- Made in China for Knoll.

## Ordering Information

### Specifying:
1. Pattern number
2. System Suffix
3. Finish
4. Mounting Option

### Special sizes and small quantities:
- Anodized aluminum finish: Silver Anodized (SV)
- Painted Core aluminum finishes:
  - Medium Grey (113)
  - Black (111)
  - Blue Mist Metallic (611)
  - Brown (112)
  - Dark Grey (113)
  - Folkstone Grey (114)
  - Sandstone (116)
  - Night White (118)
  - Medium Grey Metallic (612)

### Painted Legacy aluminum finishes:
- Medium Metallic Grey (DG)
- Soft Grey (E)
- Warm Putty (WP)
- Flint (F)
- Black (BK)

**Mounting Options**

- **Please note:** Flat panel monitor arms cannot be mounted on Orchestra® load bars. Flat panel monitors can be mounted on Orchestra® slat wall only when mounted on an architectural wall. Please see p. 128 for flat panel monitor support options.
- **See page 54 for mounting options.**

**Custom Options**

- **Note:** Load Bar/Info Rails are available in custom lengths. Please note that for all lengths greater than 66", load bar will be painted, not anodized. Contact your local Knoll Customer Service representative for details.

**Construction**

- **Load bar INFO rail:** Corrosion-resistant T-6063 painted or anodized aluminum. End caps are textured polyethylene plastic. Load Bar is filled with 1/2 Delrin plastic pellets to support papers on info rail.
- **Manufactured in the United States.**

**Design Awards**

### Mounting Options

Please note: Flat panel monitor arms cannot be mounted on Orchestra® load bars. Flat panel monitor arms can be mounted on Orchestra® slat wall only when mounted on an architectural wall. Please review before mounting. Please see page 1.126 for flat panel monitor support mount options.

### Custom Options

#### Note:
- Slat board is available in custom lengths of up to 96”. Please note that for all lengths greater than 66”, load bars will be painted, not anodized.
- Brackets are currently available for virtually every major office system. Panel-mounted brackets for other systems can be developed. Minimum of 100 sets per bracket. Tooling and set-up charges may be required.

### Construction

- Corrosion-resistant T6063-T5 painted or anodized aluminum. End caps are 11 gauge steel painted matte black. Bottom rail is filled with 3/8” Delrin plastic pellets to support papers on Info Rail.
### Mounting Options

**Panel Mounted Bracket** (Deep Universal only). Based on 1" centers. Set of 2.

**Panel Mounted Bracket** (Dividends Panel only). Set of 2.

**Panel Mounted Bracket** (Shallow Universal only). Based on 1" centers. Set of 2.

**Stanchion-Mounted Bracket** (Calibre only). Set of 2.

**Stanchion-Mounted Bracket** (Currents workshelf and stanchion). Set of 2.

**Panel Mounted Bracket** (Reff only). Set of 2.

**Wall-Mounted Bracket**. Set of 2.

**Worksurface-Mounted Bracket**. For load bars and 6 1/2" slat boards only. Set of 2. Black finish.

* No charge when ordered with Load Bar or Slat board, configured in load bar and slat board pattern numbers when ordered with load bars and slat boards.

### Mounting and Application Information

To mount monitors on Horsepower, counter weights are necessary to keep the unit stable. A down-mounted cabinet or metal shelf along with a ballast kit are required, available in the Antenna price list. Please reference the Horsepower Technology Cart planning guide.

**: All Sapper mount kits for Horsepower include sleeve arms in black finish only. The mounts which attach to the Horsepower are available in all Antenna colors.**

**Sapper Monitor Arm kits can be mounted to 30", 36" and 48" wide independent Horsepower and support screen widths up to 32", 36" and 50" wide overall on corresponding units.**

**Horsepower, down-mounted cabinets or shell and ballast kit must be purchased separately, available in the Antenna price list.**

**Mounting and Application Information**

To mount monitors on Horsepower, counter weights are necessary to keep the unit stable. A down-mounted cabinet or metal shell along with a ballast kit are required, available in the Antenna price list. Please reference the Horsepower Tech Cart planning guide.

Sapper Monitor Arm kits can be mounted to 30”, 36” and 48” wide Independent Horsepower and support screens widths up to 32”, 38” and 50” wide overall on corresponding units.

To mount a monitor up to 20lbs, order a Sapper 24” mast, a Sleeve Arm, movement joint and one Horsepower Mount.

To mount a monitor up to 30 lbs, order two Sapper 24” masts, two Sleeve Arms (no movement joint needed), two Horsepower Mounts and a corresponding VESA plate.

Horsepower, down-mounted cabinets and ballast kits must be purchased separately, available in the Antenna price list.
Proof 100319
Sapper™ Monitor Arm Collection
Mounting, Construction, and Application Information

Mounting and Application Information:
All Sapper standard monitor arms:
• Maximum weight of 20 lbs per arm, weight limits vary by mounting option
• Ship with standard fast release movement joint
• Offer 165 degrees of monitor tilt up and down, 180 degrees of rotation for portrait and landscape viewing
• Fold in themselves to be highly compact when fully compressed (only 4.75”/120 mm thick solid)

Sapper Monitor Arms are intended to be connected directly to monitors or VESA plate adaptors. Monitor Arms are not intended to support any additional devices that are connected to mounted to monitors. Loading monitors with additional devices, even within the weight support limits, will affect the functionality of Sapper Arm and will void its warranty.

*Please note this limit accommodates up to 95% of monitors on the market. There is not a specific monitor size maximum limitation for a single Sapper Monitor Arm. There is a monitor size maximum limitation for the small wall mount (12” x 12” in which you are trying to put it). When mounting two monitors, the maximum outer horizontal build-out for monitor is 31.8” for a cockpit-style (33.9” for a tall position flush next to each other). For three monitors, the maximum outer horizontal width per monitor is 19.4” for a cockpit-style and 20.5” for a flat position flush next to each other in a row. Clients can accommodate larger screen monitors in triplets by turning screen monitors to a portrait position.

Sapper multiple monitor Standard Arm Configurations:

Size Limits:

<table>
<thead>
<tr>
<th>Monitor Arm</th>
<th>Description</th>
</tr>
</thead>
</table>
| Monitor Arm | Our Sapper monitor arms are compatible with the international Vesa Electronics Standard (vesa) mounting interface standard and a monitor must be compliant with this standard to be mounted. The standard monitor mount (20 lbs max) has the Vesa standard 75 mm x 75 mm holes (100 mm x 100 mm (3.94” x 3.94”) hole pattern), the Sapper 50mm monitor mount (50 lbs max) has the Vesa standard 100 mm x 100 mm (3.94” x 3.94”) hole pattern. If your customer has a rescued monitor back with only 75 mm x 75 mm holes, additional space will be needed to ensure proper fit. Contact Customer Service for more details including part and pricing information. VESA plate adaptor ship with set-screws. Adapt with proper mounting instructions and may require spacers. Knoll VESA plate adaptor ships with screws to attach the arm to the monitor but do not ship with screws to attach the adapter to the monitor or VESA plate. If you are customizing the wall mount, the arm configuration and the monitor weight. Please see product breakdown on the following pages to ensure compatibility with your specific application needs.

Knoll and its dealers will not take the responsibility for mounting the monitor to the arm. The end user must confirm VESA mounting compliance and mount the monitor using caution per VESA spec. You must choose the correct VESA holes. For double or triple monitor mounting, you must use the standard arm with the compact mount. Slat Wall Mast Mounting:

For single monitor mounting, you can use either the direct wall mast mount or direct wall mount. For double or triple monitor mounting, you must use the slat wall mast mount. The slat wall direct mount cannot be used for multiple monitors. For on use architecture walls only as outlined further on this page. Knoll cannot be held responsible for the structural integrity of a wall so please work with clients to ensure their walls is structurally sound and able to support the slat board, the arm configuration and the monitor weight.

Mounting your monitor, you can use either the direct wall mast mount or direct wall mount. For double or triple monitor mounting, you must use the slat wall mast mount. The slat wall direct mount cannot be used for multiple monitors. Knoll cannot be held responsible for the structural integrity of a wall so please work with clients to ensure their walls is structurally sound and able to support the slat board, the arm configuration and the monitor weight.

Slat Wall Direct Mounting (for both standard and compact arm):
For single monitor mounting, you can use either the direct wall mast mount or direct wall mount. For double or triple monitor mounting, you must use the slat wall mast mount. The slat wall direct mount cannot be used for multiple monitors. Knoll cannot be held responsible for the structural integrity of a wall so please work with clients to ensure their walls is structurally sound and able to support the slat board, the arm configuration and the monitor weight.

Direct Wall Mounting (for both standard and compact arm):
For single monitor mounting, you can use either the direct wall mast mount or direct wall mount. For double or triple monitor mounting, you must use the slat wall mast mount. The slat wall direct mount cannot be used for multiple monitors. Knoll cannot be held responsible for the structural integrity of a wall so please work with clients to ensure their walls is structurally sound and able to support the slat board, the arm configuration and the monitor weight.

Slat Wall Mast Mounting:
For single monitor mounting, you can use either the slat wall mast mount or direct slat wall mount. For double or triple monitor mounting, you must use the slat wall mast mount. The slat wall direct mount cannot be used for multiple monitors. For on use architecture walls only as outlined further on this page. Knoll cannot be held responsible for the structural integrity of a wall so please work with clients to ensure their walls is structurally sound and able to support the slat board, the arm configuration and the monitor weight.

Dividends Horizon Benching Mounting:
This mount is intended to provide maximum worksurface or desk usage by mounting to the center channel. Note that when used for individuals, you will need to stagger users across the table.

Antenna Table Center Beam Side Mounting:
This mount allows you to clear the flip door while attaching your monitor to the center channel arm. Note that when used for individuals, you will need to stagger users across the table.

Antenna Table Center Beam Center Mounting:
This mount is intended to provide maximum workzone or desk usage by mounting to the center beam. Note that when used for individuals, you will need to stagger users across the table.

Deep-Heavy-Duty Wall Mounting:
This mount is intended for heaver workloads or industrial environments. Please refer to contact customer service for more details including part and pricing information.

Grommet Mounting:
With all systems furniture, it is important to pass mounting the functional path through grommet mount cover and where the load rating is 300 lbs (12 slat systems). Use the standard mount with the compact arm or a Vesa standard arm with the compact mount. use the standard mount with the compact arm or a Vesa standard arm with the compact mount.

XYZ Sapper XYZ
MA Monitor arm
30S 30 Single
CLMP Two-piece table clamp mounting option
K Kit
STI Jet Black Finish

Ordering Information
Specify:
1. Pattern number
2. Finish
3. Mount Finish Option Note:
   All mounting options come in a black finish, with the exception of the Antenna Centre Beam Side Mount which will come in the same finish color that was specified for the arm.
   Sapper XYZ 30 uses Sapper XYZ Crossbar mounts and cable management clips.

Ordering Note
Due to extensive adjustability of Sapper XYZ monitor arms, a mock-up is recommended to ensure it is suited for the specific workstation, particularly if placed in front of a wall or panel.

Mounting and Application Information
See page 154 for comprehensive mounting, application and construction information.
**Sapper XYZ® Monitor Arm Series**

**Easy Order Sapper XYZ 30 Arm Kits**
by Richard Sapper

Kit includes everything needed to mount one monitor to a worksurface: Sapper XYZ 30 monitor arm, Sapper 50 movement joint, cable management clip and mounting option (see right for options).

Order Code
Example: XYZ-MA-C-111
XYZ - Sapper XYZ
MA - Monitor Arm
C - Crossbar monitor arm
111 - Jet Black finish

Ordering Information
Specify:
1. Pattern number
2. Finish

Standard Monitor Arm Finish Options:
Jet Black (111)
Medium Grey (115)
Bright White (116)

Silver Monitor Arm Finish Option:
Silver (613)

Ordering Note
Due to extensive adjustability of Sapper XYZ monitor arms, a mock-up is recommended to ensure it is suited for the specific workstation, particularly if placed in front of a wall or panel.

Mounting and Application Information
See page 154 for comprehensive mounting, application and construction information.
Double Cockpit

For Sapper XYZ Crossbar, the maximum outer horizontal width per monitor is 25.5" for a cockpit and 26.522" for a flat positioning flash next to each other.

Sapper XYZ Crossbar:
- Maximum weight of 30 lbs. per arm and maximum width of 20 lbs. per arm
- Folded into itself to be 7.38" when fully compressed
- Offer 153 degrees of monitor tilt
- Folds into itself to be highly lightweight (weighs only 4 pounds)
- Crossbar folds in and out from 7.8 to 21.9" when fully extended

Double Flat

For Sapper XYZ Crossbar, the maximum outer horizontal width per monitor is 25.5" for a cockpit and 26.522" for a flat positioning flash next to each other.

Sapper XYZ Crossbar:
- Maximum weight of 30 lbs. per arm and maximum width of 20 lbs. per arm
- Folded into itself to be 7.38" when fully compressed
- Offer 153 degrees of monitor tilt
- Folds into itself to be highly lightweight (weighs only 4 pounds)
- Crossbar folds in and out from 7.8 to 21.9" when fully extended

Antenna Table Center Beam Side Mounting:
This mount allows you to clear the flip-down monitor for maximum work surface usage and individual height adjustment without the need to sacrifice space. Please note a screen can be mounted in the center of the beam with a monitor arm in front of it. The fit is snug and flush with the screen.

Interpole Mounting
Sapper XYZ arms can be mounted on either the slot or channel sides of Interpole with the proper mount.

If mounted on the slot side of Interpole use a Direct Connection Mount. If overheads are mounted on the slot side of Interpole, use an Extended Channel Mount (not available for Sapper Crossbar).

Grommet Mounting:
- With all systems furniture, it is important to note monitor placement and keep wires tidy to the electrical outlet. On Sapper XYZ single arms and Sapper XYZ 30 arms there is a cable management block in the channel under the arm that will contain wires from the monitor to plastic cable management clips that go on the post. On Sapper XYZ Crossbar, there are two loops and hook fastener strips on the crossbar to neatly dodge cables down to the plastic cable management clip attached at the arm mount.

Cable Management:
External cable management allows for easy installation and removal of monitors and keep wires tidy to the electrical outlet. On Sapper XYZ single arms and Sapper XYZ 30 arms there is a cable management block in the channel under the arm that will contain wires from the monitor to plastic cable management clips that go on the post. On Sapper XYZ Crossbar, there are two loops and hook fastener strips on the crossbar to neatly dodge cables down to the plastic cable management clip attached at the arm mount.

Arm Adjustment:
The Sapper XYZ monitor arms collection offers intuitive one touch adjustment. To adjust the height, you simply lift the monitor to the desired position. To adjust the depth, you simply pull or push the monitor in or out. You can also rotate the monitor 360 degrees for landscape or portrait viewing, adjust the swivel bar and bend 180 degrees and lift up and down 153 degrees. The single arm folds in and out from 27" fully compressed to approximately 21" when fully extended. Sapper XYZ Crossbar folds in and out from 27" fully compressed to approximately 21" when fully extended.

Due to the extensive adjustability of Sapper XYZ monitor arms, a lock-up is recommended to ensure it is suited for the specific worktop, particularly if placed in front of a wall or panel.

</table>

**Mechanism Attributes**

- **Advanced Easy Lift arm**
  - Variable height adjustment of 3.5° (up to 16°, down 6.5°)
  - Sub-tray knob adjusts lift from 10° to (+) 20°

- **Short easy (f) arm**
  - Variable height adjustment of 5.1° below the work surface
  - Sub-tray knob adjusts lift from 10° to (+) 20°

- **Side/Stand arm**
  - Variable height adjustment of 14.2° (up 8.3°, down 5.9°)
  - Sub-tray knob adjusts lift from 10° to (+) 15°

**Application Notes**

- Keyboard supports provide a more ergonomic working environment by allowing for height and tilt adjustment of the keyboard. When not in use, the keyboard support should be completely under the work surface to free vital workspace
- Dimensions above are for the platform only. For full configuration details, all component measurements and application suggestions refer to the Keyboard Measurements on Knoll Exchange.

### Construction

- **Platforms**: All platforms are HDPE. Wrist rests are polyurethane mold with polypropylene insert.
- **Mechanisms**: All arms are steel with a powdercoat finish. Tracks are steel with nylon glides.
- **Finish**: All finish. Tracks are steel with nylon glides.

**Antenna and Tone Mounting Note**

- Keyboard support must be specified with a sliding track that is less than the depth of the top and anything below the top such as a power harness or cable basket.
- For taller individuals, we recommend using a dual pivot solution with the track mounted on the diagonal to maximize knee space.

**Order Information**

**Example:** OAK-21HP-AL-BK-PT-(16,18,22,23,25)

**Construction**

- Keyboard support must be specified
- With a sliding track that is less than the depth of the top and anything below the top such as a power harness or cable basket.
- For taller individuals, we recommend using a dual pivot solution with the track mounted on the diagonal to maximize knee space.

**Antenna**

- In order to mount on Antenna or Tone, specify the 16” track only.
Freestanding Ergonomic Accessories

VDT Sleeve
- Racetrack-shaped sleeve slides over worksurface to create VDT corner.
- Creates 17 5/8" wide VDT corner, 9" from worksurface corner.
- Can be adjusted to any angle, or removed when not needed.
- Heavy-gauge steel with felt backing to prevent scuffing.
- 1 1/4", 1 3/4" and 2 1/2" worksurface thicknesses.
- 1/4" screw holes on underside for optional attachment to worksurface.
- Available in two metallic and two soft-touch finishes.

<td>7.5” x 9.3”</td>
<td>17”</td>
<td>OA-CPU2-MTL</td>
<td>$418.00</td>
</tr>
</tbody>
</table>

### Additional Information
- **Adjustable Sling CPU Holder:**
  - Accommodates equipment 2.5”-64” wide by 8”-59” high.
  - Slides on track under the worksurface and swivels 360° for easy CPU access.
  - Weight capacity of 75 lbs.
- **Adjustable Vertical CPU Holder:**
  - Accommodates equipment 3.5”-9.3” wide by 13.5”-22.3” high.
  - The lockable Vertical CPU Holder accommodates a CPU depth range of 14.8”-22.3”.
  - Slides on track under worksurface and swivels 360° for easy CPU access.
  - Weight capacity of 115 lbs.

### Mounting Note
- CPU holders come standard with a 17” long track. They mount on worksurfaces 18” or deeper.
- The lockable Adjustable Vertical CPU Holder offers theft deterrence with a heavy-duty, tamper-proof locking nut with pentagonal key.

### Antenna, Tone and Telescope Mounting
- **Antenna:**
  - In order to mount on Antenna Workspace, an adapter is needed, available through the Antenna price list. Pattern code YAPCU.
- **Tone:**
  - In order to mount on Tone T-leg and 24” deep C-Leg, an adapter is needed, available through the Antenna price list. Pattern code YACPU. 30” deep C-Leg provides enough track clearance.
- **Telescope:**
  - Due to legroom clearance, CPUs cannot mount on Telescope tables less than 27” wide. For mounting on tables 27” or wider, only one power supply tray can be installed opposite from the CPU holder, and the YACPU adapter from the Antenna price list is needed.
**Height-Adjustable Table Leg CPU Holders**

</tbody>
</table>

**Ordering Information**

Specify:
1. Pattern number
2. Finish

Options:
- Smooth Painted Finish: Jet Black (111), Brown (112), Dark Grey (113), Folkstone Grey (114), Medium Grey (115), Sandstone (116), Salt Grey (117), Beige, Metallic (611), Medium Metallic Grey (612), Silver (613), Bright White (118)

**Construction**

CPU holders are made of painted steel with adhesive-backed rubber liners and a nylon adjustment knob.

**Mounting Note**

Height adjustable table leg CPU holders are designed to attach around the leg of Knoll height adjustable tables, resting on the foot of the leg.

**Table Compatibility**

Height adjustable table leg CPU holders will work with Tonic, Boll, and K. stand height adjustable tables. The attachment for the table leg is not compatible with K. bench, Antenna Workspace, or Telescope.

### Ordering Information

- **Specify**: 1. **Pattern number**

- **Additional Information**: Each clip is 5.67" x 1.57". Available in black finish only.

- **Construction**: Glass reinforced molded nylon.

### Mounting Options

- **Swivel mounting**: Install using the primary center screw only.

- **Fixed mounting**: Install using the three screws provided (primary center screw and two side screws). A double-sided stick pad is included for ease of installation when fixed mounting.

### Mounting Note

- On average, use two clips per workstation.

---

**Order Code**

- **Example**: TM-CM-CLIPS-S2
- **TM**: Technology Management
- **CM**: Cable Management
- **CLIPS**: Clips
- **S2**: Set of 2

**Note:**

- If your system is not listed, contact your KnollExtra representative or Customer Service for appropriate panel-mounted bracket to specify.
- If your system is not listed, contact your Knoll sales representative or Customer Service for pricing information.

**Construction**

Satin anodized aluminum frame (can be powder coated black). Porcelain coating on cold rolled and laminated to corrugated and hardwood with a Styler backing. All Universal Marker Boards are magnetized. Manufactured in the United States.
Fabric Boards

- Standard fabric board has 3/8" thick mineral board
- Construction with squared corner
- Rounded corner or radius edge, available at upcharge
- Panel or wall mounting options.

24" W x 42" H x 1/2" fabric board
24" W x 48" H x 1/2" fabric board
24" W x 54" H x 1/2" fabric board
24" W x 60" H x 1/2" fabric board
24" W x 66" H x 1/2" fabric board
24" W x 72" H x 1/2" fabric board
24" W x 78" H x 1/2" fabric board
24" W x 84" H x 1/2" fabric board
24" W x 90" H x 1/2" fabric board
24" W x 96" H x 1/2" fabric board
24" W x 102" H x 1/2" fabric board
24" W x 108" H x 1/2" fabric board
24" W x 114" H x 1/2" fabric board
24" W x 120" H x 1/2" fabric board

Example: F-24-16-( )-A-( )( )( )

F-24-16-( )-A-( )( )( )

Panel-mounted brackets: Please note if a panel-mounted bracket is included in the list price but must be specified separately. To specify appropriate panel-mounted bracket, consult the KnollExtra Bracket Chart on page 12.

Wall-mounted applications must be specified as flush (F-WM-F) or reveal (F-WM-R). Both options are appropriate for any smooth, clean surface. Flush wall-mount option utilizes velcro squares.

Rounded wall-mount option provides 1/2" clearance for wire management behind fabric board.

Fabric boards mount with 4 brackets onto 2 black painted wall rails that screw into wall to ensure rigidity. For other mounting options and pricing, contact Customer Service.

Under overhead specification note:
For application under a system overhead, provide clearance distance between the worksurface and the bottom of the overhead or task light.

Sasy by Rafe fabric board specification note:
Please note if a panel-mounted fabric board will be used contiguous to another fabric board, drawings are required and there will be an upcharge.

60" wide boards in fabric grades 35, 35a and 50.

Due to grades 50, 55 and 60 fabric widths being less than the width of a 60" board, contact your KnollExtra representative or Customer Service for pricing and fabric ordering information.

Construction

3/8" thick mineral board for durable, highly tactile surface.

Manufactured in the United States.

</tbody>
</table>

**Order Code**

- Example: F-WM-14-16-36-S2-A-40-W337/4

**Ordering Information**

- Specify:
  1. Pattern number
  2. Corner/edge detail
  3. Fabric grade
  4. Fabric selection
  5. Mounting option pattern number
  6. System suffix (panel-mounted option only)

**Mounting Options**

- Standard fabric board has squared corner and rectilinear edge details. See above for edge upcharge.
- Thickness option:
  - Standard fabric board has 1/2" thick mineral board.

**Panel-mounted brackets:**

- Panel-mounted brackets are included in the list price but must be specified separately. To specify appropriate panel-mounted bracket, consult the Knoll sales bracket chart on page 12.

- Panel mounted bracket size must match height of fabric board.

**Wall-mounted applications**:

- Applications must be specified as flush (F-WM-F) or reveal (F-WM-R). Both options are appropriate for any smooth, clean surface.

**Under overhead specification note**:

- For application under a system overhead, provide clearance distance between the worksurface and the bottom of the overhead or task light.

**Side by side fabric board specification note**:

- Panel mounted bracket size must match height of fabric board.

**Construction**

- 1/2" thick mineral board for durable, highly tactile surface.

**Corner/Edge Detail**

- S1. Squared corner/Rectilinear edge
- R2. Rounded corner/Radiused edge

**Custom Options**

- For specials contact Customer Service. Maximum fabric board size is 120"W x 24"H. Fabric must be railroaded on any panel wider than 60".

- Customer's own material:
  - For approval, submit at least one yard of fabric for application testing. For panel-mounted applications, all COMs and textiles that are not pre-approved must be UL-tested. Please consult Knoll sales Customer Service for details.

</tr>
</tbody>
</table>

### Construction

**Whiteboard:** Honeycomb core with medium-density fiberboard skin, high pressure laminate finish and ABS edge.

**Crossmember:** Aluminum

**Legs:** Steel

**Cup:** Die cast aluminum with wool felt insert and steel fasteners.

**Note:** Each markerboard ships with four dry erase markers (blue, green, red and black) and a microfiber cleaning cloth.

**Overall height from floor is 72" high with writable surface starting 25" from floor.**

The optional marker tray runs the length of the crossmember. The optional marker cup mounts to the side.

To prevent dry erase markers from drying out, store them with the cap down in the optional cup.

This Selling Policy supercedes all previous selling policies. Prices, discounts and product offerings are subject to change without notice.

Sales by Knoll, Inc., or Knoll North America Corp. ("Seller") of Knoll Product Lines within the United States and Canada are made only on the terms which are contained in this Selling Policy. Seller hereby gives notice of its objection to any different or additional terms and conditions. This sale is expressly conditional upon Purchaser’s assent to the terms and conditions set forth below. Additional terms and conditions may apply to KnollStudio and KnollTextiles orders. These terms and conditions may be modified or supplemented only by a written document signed by an authorized representative of Seller. These terms and conditions supersede any prior and/or contemporaneous agreements or correspondence between Purchaser and Seller. Written quotations expire thirty (30) days from the date of issuance and can be withdrawn by written notice anytime during that period. Where Purchaser and Seller have entered into the Knoll Electronic Terms and Conditions, all orders, acknowledgements, invoices and other business communications placed or transmitted in accordance with the Knoll Electronic Terms and Conditions shall be deemed to be in writing and signed and shall be valid for all purposes as if they were originated and maintained in documentary form.

Ordering Information
All orders must be in writing. The product pattern number(s) contained on Seller’s order acknowledgment shall be the final expression of the order.

Order Confirmation
A purchase order is not binding on Seller until Purchaser has received Seller’s order confirmation or acknowledgment.

Pricing Policies
List prices are subject to change without notice.

List prices shall be those prices in effect on the date of receipt of a complete purchase order unless shipment is requested more than ninety (90) days after order entry in which case prices in effect on the date of shipment apply. List prices include specified freight costs. Unless specified in writing by Seller, no other charges are included in Seller’s list prices.

Taxes
All sales, use, excise and other taxes applicable to the sale of the Product shall be paid by Purchaser. If Purchaser claims an exemption from any tax, Purchaser shall submit to Seller the appropriate exemption certificates.

Terms of Payment
Payment for one hundred percent (100%) of the net order amount is due within thirty (30) days of the date of invoice, which is generally issued upon shipment. In case of any discrepancies, such as shortages, and Seller is notified in writing within ten (10) days of receipt of Product, only that portion may be deducted and the balance paid. For orders greater than $100,000 net, a fifty percent (50%) deposit is due at the time of order placement, with the remainder due within thirty (30) days of the date of invoice.

KnollStudio orders less than $2,000 require payment for one hundred percent (100%) of the net order amount (including any applicable sales tax and charges for inside delivery, special packaging, etc.), due at time of order placement. For KnollStudio orders greater than $2,000, a one-half (50%) deposit is due at time of order placement with the remainder (including any applicable sales tax and charges for inside delivery, special packaging, etc.) due prior to shipment. If, in the judgment of Seller, Purchaser’s financial condition does not justify the terms of the payment, Seller may require full or partial payment in advance. Past due accounts shall be charged one and one-half percent (1.5%) per month, or the highest rate permitted by law, whichever is less, and will be added to the outstanding balance. In the event Purchaser defaults on payment, Purchaser shall be liable for all collection costs, including reasonable attorney’s fees and costs.

Changes and Cancellation
Purchase orders may not be changed or cancelled, in whole or in part, without prior written consent of Seller. Changes may affect delivery dates. Expenses incurred because of changes shall be charged to Purchaser. In the event of cancellations, Purchaser will be liable for reasonable cancellation charges established by Seller. Orders for special Product, orders including “COM” (hereinafter defined) material and orders pursuant to expedited delivery programs, may not be canceled.

Freight Prepaid
Freight is prepaid and included in the price of all Products, except KnollTextiles, within the 48 contiguous United States for orders placed with Knoll, Inc. and within Canada, excluding the Yukon, Northwest Territories, Nunavut and Newfoundland for orders placed with Knoll North America Corp. Packing is tested for rigorous motion and transportation but is not guaranteed to protect furniture from all conditions. If special packaging is required for any reason, please consult with your sales representative or dealer. Seller shall select the method of shipment and routing. Freight for all KnollTextiles orders is prepaid and added to the invoice.

Delivery/Freight Charges
For shipments outside the contiguous United States and Canada, Purchaser is responsible for the cost of freight from point of embarkation, including any handling and transportation charges incidental to loading at the point of departure and unloading at the final destination. Conditions beyond the control of Seller, including weather, available facilities and traffic conditions, may affect exact time of delivery. Seller shall not be responsible for specific carrier delivery date or time unless it has made a specific delivery commitment, in writing. Nonstandard methods of shipment and/or additional services are available upon request. Purchaser will be billed for the differential cost of any special services in excess of standard surface carrier freight costs. Premium charges, at Purchaser’s request, will be added for airfreight, exclusive use of vehicle and extra, export or special packaging. Accessorial charges will be added for inside delivery, extra labor, reconsignment and redelivery.

Claims
All shipments for Knoll Products within the contiguous United States and Canada are F.O.B. Origin. All risk of loss to the Product shall pass to the Purchaser upon delivery of the Product into storage.

Seller’s Security Interest
Until Seller receives the full payment for the Product, Seller shall have a security interest in the Product. Purchaser agrees to perform all acts, including but not limited to the execution and filing of documentation, which may be necessary to perfect and assure the security interest of Seller.

Returns
The return of Products without a written authorization by Seller shall not be accepted. To receive authorization for Product return, please call Customer Service. All Products that are returned pursuant to a valid authorization shall be subject to a twenty-five percent (25%) of list restocking charge. Products not currently offered for sale by Seller (including COM) shall not be authorized for returns. All returned Products must be unused, in original condition and in the original Seller packing cartons. No refund or credit shall be given for damaged Products.

Held Orders/Storage
If Purchaser requests that an order be held or delayed, prices and terms and conditions in effect at the time of shipment shall apply. If Purchaser requests a delay after the time when Seller can defer production, Purchaser will be invoiced for the Product, payable in accordance with standard terms, when the order is ready for shipment. Seller may transfer the Product to storage, in which case all expenses incurred in connection with storage, including demurrage, preparation for storage, storage charges and handling shall be payable by Purchaser upon submission of invoices by Seller. Risk of loss to the Product shall pass to the Purchaser upon delivery of the Product into storage.
Customer’s Own Material

A Purchaser who requests a fabric or other surface material not standard to Seller’s line of Products (“COM”) must submit samples of the requested material to Seller prior to entry of a purchase order. Seller shall determine if the material is suitable to its manufacturing processes and meets any requirements of Underwriters Laboratories. If the COM is acceptable, Seller will then establish a price for using the COM or the Product in question. For a description of the procedures for submitting samples and testing, contact customer resources or your sales representative. Seller shall have no responsibility for the appearance, condition, performance, durability or any other physical attributes of the COM. Purchaser shall indemnify and hold Seller harmless for any damages, injuries or losses arising out of or related to the use of the COM on the Product.

Delay/Force Majeure

Seller shall not be liable for failure to perform or for delay in performance due to fire, flood, strike or other labor difficulty, act of God, act of war or terrorism, act of any governmental authority or of the Purchaser, riot, embargo, fuel or energy shortage, wrecks or delay in transportation, inability to obtain necessary labor, materials or manufacturing facilities from usual sources or failure of suppliers to meet their contractual obligations, or due to any cause beyond its reasonable control. If any such event occurs, Seller may extend delivery dates by a period of time necessary to overcome the effect of such delay, allocate available Product or cancel any purchase order.

Compliance with Law

PURCHASER IS SOLELY RESPONSIBLE FOR COMPLIANCE WITH ALL APPLICABLE FEDERAL, STATE AND LOCAL LAWS, ORDINANCES, REGULATIONS, RULES AND STANDARDS RELATING TO THE INSTALLATION, MAINTENANCE, USE AND OPERATION OF THE PRODUCTS.

Patents

The Purchaser agrees that the Seller, its contractors, authorized dealers and subcontractors or suppliers of any tier shall not be liable to Purchaser for any special, indirect, incidental or consequential damages arising from a breach of this Agreement.

Purchaser’s remedies set forth herein are exclusive and the liability of Seller with respect to the breach of this agreement or any contract entered into between the parties pursuant hereto shall not exceed the price of the Product or part on which such liability is based.
The Products
This guide encompasses all standard products for this product group.

Sizes
Dimensions listed in this guide are indicated as:
H = height
W = width
D = depth
Dia. = diameter
Rad. = radius

Pricing
All prices shown are list.

How to Order
Select pattern numbers and quantities required for your complete installation. Product questions can be addressed in the specific sections of this guide or by contacting your sales representative or customer resource representative at 1-800-343-5665.

Next, select options (if required), along with colors and finishes appropriate to each product. Reference the Finishes and Fabrics pages for color designations.

On large installations, an item’s “designated area” can be specified to assist in product organization and handling.

To expedite complete / correct entry of your order, be certain all pattern numbers, quantities, colors and area identifications are completely specified. Also, include complete purchase order numbers, bill-to and ship-to addresses, a contact name and specific factory shipping dates required.

Mail all orders to:
Knoll, Inc.
1235 Water Street
East Greenville, PA 18041
Attention: Order Entry

Once your order is entered at Knoll, an acknowledgment will be mailed to you. You will be advised of your scheduled shipping date within five days of the original acknowledgment. If it is necessary to revise your order, please contact your customer resource representative.

Sustainability Statement

Sustainable design is a key component of Knoll’s environmental focus. Our commitment to social responsibility and a healthy environment has prompted us to further articulate our longstanding environmental programs and, with encouragement and support from our colleagues in the industry, we have re-energized our focus on such “green” initiatives as life cycle analysis and LEED™ certification. Knoll is proud to have contributed to projects that have received LEED certification from the U.S. Green Building Council.

For the latest information on Knoll products that help our customers achieve LEED certification, log on to knoll.com, click on “About Knoll” and then “Environmental Focus.”
