A Price List Overview
Where do I send my order? How should I maintain my marble table?
From textile options to wood polishes, the KnollStudio price list is designed to provide you with everything you need to know in order to understand, specify, and care for furniture in the KnollStudio Collection.
This book is divided into three easy-to-use sections.
• Side Chairs and Lounge Seating
• Tables and Executive Office
• Propeller Table Series
For a quick overview of the collection's scope, review the Visual Index on pages 5-15. If you're looking for pieces by a specific designer, try the Designer Index on page 4.
Need furniture in a hurry? KnollStudio 20-day on pages 30-31 highlights KnollStudio pieces available in only twenty days.
Leathers, Textiles, and Finishes
If you're confused about which leather to select, pages 17-18 explains the broad selection of Spinneybeck leathers available for KnollStudio furniture.
Additional upholstery notes and Customer's Own Material (COM) information are available on page 18.
For detailed explanations of the many materials used in constructing KnollStudio furniture, consult page 27. A cross-reference of KnollStudio veneer or lumber finishes with standard Knoll Office veneers is provided on page 25. Easy-care maintenance information is also provided on pages 28-29.
Placing Your KnollStudio Order
For information about where to send your order and key terms and conditions, see page 33.
The complete Knoll Selling Policy is available on pages 422-423.
General Ordering Information and Knoll's Sustainability Statement is available on page 424.

Product Information On Each Page
On each page, the following features will assist you:
Description provides both the pattern number and a basic description of the product.
Dimensions provide the overall space the product will require. Statistics are based on the maximum width, depth, and height of the product.
Weight is based on the product itself. It does not include packaging. Weights are rounded to the nearest pound.
Weights of upholstered items do not include weight of textile/leather. To calculate total weight, multiply covering requirements by textile/leather weight, and add to product weight.
Pattern Number provides both the product identification number and all additional selections required for ordering. Finish options are enclosed in parentheses. Finish suffix descriptions are found under Finishes on the bottom portion of the page.
Order Code/Ordering Information outlines exactly how to specify KnollStudio product and the full scope of finishes and other options. The Order Code provides an example of how one pattern number on the page is specified.
20-Day pieces available in 20 days ex-factory are noted with helicopters ** next to the items. Additional information is provided under Ordering Information and in the 20-Day section of this book.
Construction provides specific materials and finishes employed, as well as specific construction details.
Textiles and Leather Grades list by price group all KnollTextiles and Spinneybeck Leathers approved for each seating piece. This list is derived through careful examination of the textile or leather's distinctive upholstery characteristics and the form and structure of each piece of furniture. KnollTextiles or Spinneybeck leathers that are not listed have been rejected because Knoll cannot ensure their performance on that product. To view the full range of colorways available for each fabric or leather, consult any Knoll or Spinneybeck representative.

Cal 133 Technical Bulletin
Many KnollStudio products meet California Technical Bulletin 133. Information for specifying these items is on page 19. Items available are indicated with a flame § . Applicable upcharge will be listed on the respective price list page.

Greenguard
Many KnollStudio products meet Greenguard environmental standards. Please see page 24 for a complete listing of products.

CPSIA Testing
Many knoll kids products meet the consumer Product Safety Improvement Act of 2008 for Children's Products, 16 C.F.R. 1303 CPSIA Title 1 Section 101 for Total Lead in Substrates and Surface Coatings. For a complete listing of approved products, please refer to individual price list pages.

Note to Knoll Dealer Sellers:
The products contained in this price list are also available through the Knoll Essentials program, with limited exceptions. For additional information, please contact your customer service representative or visit Knoll Exchange.

For More Information
For more information, contact your KnollStudio representative, a Knoll Space retailer or e-tailer, or telephone Customer Services at 800 343-KNOLL. To find the retailer or showroom nearest you, visit www.knoll.com.
Spinneybeck Leather Grades

For the ultimate in comfort, durability, and prestige, many KnollStudio products can be upholstered in Spinneybeck leathers.

Spinneybeck leathers are made from the top 2% of the world’s finest hides, inspected numerous times during production to ensure evenness of grain, surface, color and the absence of scars.

After tanning, all Spinneybeck leathers are drum-dyed, a time-consuming procedure which ensures color penetration throughout the hide. Each hide is then finished in the manner which will best bring out its individual character.

Spinneybeck leathers are all full-grain aniline drum-dyed products imported from Italy.

The following Spinneybeck leathers are approved for application on KnollStudio products. Leathers are grouped into five price categories referred to as “grades.” The selection of approved leathers varies by product. Please refer to the pricing page of each product line for more information.

Square footage requirements for Customer’s Own Leather (COL) are listed on the left side of the pricing page. Please refer to Upholstery Notes on page 18 and The Knoll Selling Policy on pages 422-423 for further information regarding COL.

For further information call Spinneybeck at 1-800-482-7777.

Textile and Leather Notes

All seating in this price list includes the cost of applied fabric or leather. To simplify ordering, the seating is arranged into specific upholstery grades and priced accordingly. Samples and prices of cut textiles are available on request. For a full list of the Spinneybeck leathers available, see page 17.

Leather

The Natural Qualities of Leather
Natural leather is unique. Because every animal is different, each hide has its own individual color, texture, and life-marks. In fact, our leathers are painstakingly treated to retain their natural appearance and hand. Range marks are not camouflaged. Colors and texture vary, and will do so more with age as the leather mellows and takes on a rich patina.

Spinneybeck Leathers

Spinneybeck offers full-grain Italian leathers.

Spinneybeck features three different tanning processes which preserve the leather. The first is mineral tannage, in which chromium salts are used; the second is vegetable tannage, in which bark tanning is used; and the third is a combination of the first two processes. Each leather is tanned in the manner which will best accentuate its unique characteristics.

Spinneybeck leathers are drum-dyed which tumbles the leather over and over for smooth, even coloring which tumbles the leather over and

Grain Sueded Leathers (Ducale Velour, Marissia)

Full grain leathers that have been lightly buffed to raise the nap of the surface are referred to as “grain sueded” leathers. This produces the soft hand of sueded leathers. For maximum soil resistance and durability, these leathers have received an impregnated soil resistance treatment during the drum-dye process which permeates the leather, making it repellent to liquid and dirt.

Textile

Classic Boucle

Classic Boucle is with spun Boucle yarn that is a blend of wool and nylon that is pieced dyed. Color can vary from lot-to-lot and it is important to use the same lot for multiple piece orders. Please note sales order when items must match. Classic Boucle, Pearl contains natural, un-dyed wool and will have darker hairs woven within the textile.

Knoll Upholstery Restrictions

Every Knoll leather and fabric is exhaustively tested on each Knoll upholstered item. This is done in addition to the most extensive program of independent fabric testing in the industry. On furniture, testing ensures precise fit and appearance, without stretch, puddling, telegraphing or other common problems frequently encountered when careful factory pre-qualification is eliminated.

When Knoll suggests that a particular leather or fabric not be used on an object, this does not mean the material is defective in any way; it only implies less than perfect performance with the form and structure of a specific item on furniture.

Instructions for Ordering Nano-Tex

The minimum for Nano-Tex on KnollStudio orders is 1-lot of $206 net for up to 65 yards. Nano-Tex orders of 65 yards or more is $3.00 net/yard.

Dealer instructions for ordering Nano-Tex:

1) Visit knolltextiles.com/technical documents and open the Nano-Tex specifications to see if the fabric is approved with the finish.
2) If approved, check the seating matrix at knolltextiles.com to see if the fabric alone is approved on the chair. (If yes, proceed to #3).
3) Contact your account manager with the fabric name, treatment required, and name and pattern number of desired chair. They will see if Knoll has tested this fabric with finish/treatment on said chair. In most cases, application testing has not been done and they will contact the appropriate parties to initiate approval and determine leadtime for testing.
4) If approved, book order with a suffix of N (for Nano-Tex) after the fabric pattern number.
5) The fabric grade will remain the same. Add line item for finish/treatment required and multiply the finish cost by the number of yards required.

Customer’s Own Material (COM)

Customer’s Own Leather (COL)

While Knoll is pleased to cooperate with COM/COL selections, an extra charge is required to help offset receiving and handling costs. Such charges are included under the COM/COL title of the price columns in this price list. Prior to order placement, a sample cutting of actual COM/COL must be submitted to Knoll in East Greenville or through your regional Knoll office for preliminary approval of intended item (8” x 8” minimum memo sample if solid; if COM has a repeat, the sample must be large enough to show the repeat).

Even after such preliminary approval, Knoll reserves the right to reject COM/COL, including, if necessary, the item intended for use with COM/COL, if Knoll considers the customer-supplied material inadequate for any reason. When COM/COL is accepted, KnollStudio assumes no responsibility for its appearance, durability, color fastness or any other quality after upholstered on a Knoll product.

Published yardage requirements are based upon Knoll 52” width material unless specified otherwise. Leather requirements are based on whole hides with a minimum of 50 square feet per hide. However, in some cases, the nature or pattern of COM/COL will require additional yardage/square feet and/or additional labor charges. When this is necessary, the customer will be notified at the same time that the preliminary sample is approved.

If your COM/COL is approved, you may send the required amount for the product to:

Knoll, Inc.
1235 Water St
East Greenville, PA 18041
Attn: Customer Resources

COM/COL must be marked with designated approval number and customer’s name.

For additional information, see Customer’s Own Material (COM) under Selling Policy on pages 422-423.
**Test Objective**
California Technical Bulletin 133 (Cal 133) is a full-scale seating test, not a component test. Testing must be performed on the designated seating unit and textile together. Component data alone cannot be used to certify compliance with the regulation. Under Cal 133 you cannot assume that seating or textiles that have passed individually will pass together.

**Test Procedure**
The seating unit is exposed to a square open flame gas burner for 80 seconds, positioned at the center of the seating unit, two inches from the back and one inch from the seat.

**Scope**
Cal 133 only applies to seating units. The bulletin is designed for high risk public areas:
- Nursing homes
- Health care facilities
- Public auditoriums
- Hotels (more than 10 seating units in one room)
- Motels (more than 10 seating units in one room)
- Jails and prisons

Tables and desks are not covered by the bulletin. Variations may occur in individual states with regards to specific application. In California only, compliance is at the discretion of the fire marshall in any building which is fully sprinklered.

**KnollStudio Approvals**
Tested seating units have been tested in a worst case scenario thus covering other fabrics of lighter weight and same construction. When specifying Cal 133, the seating unit may be constructed with a fire resistant foam and a fire blocker will be laminated to the textile.

**How To Specify**
It is easy to specify Cal 133 on KnollStudio seating. Simply add the suffix “C” to the end of the pattern number prior to the textile selection. Approved textile selections must have the suffix 133 added to the end of the pattern number.

Example: Bertoia side chair, chrome, seat pad in Common Ground/Basalt 420C-C-K-K448/12-133

**Testing Additional Product**
If you would like to test a specific product:
Specify chair and textile desired - adding appropriate C and 133 codes as explained.

Testing lead time will be the standard lead time of the chair plus 4 - 6 weeks for testing procedure.

Test cost will be the regular price of the chair plus $500 for the testing procedures.

Cal 133 tested and approved fabrics and seating units are indicated with a flame.

Each year Knoll sets key initiatives in our journey to sustainability. We are members of a global consortium on energy, have adopted a scientific, metrics-based approach to sustainable product design, and maintain a leadership position in establishing universal, verifiable, sustainability standards for our industry.

Knoll promotes independent third-party certification because it provides the most impartial and trustworthy foundation for industry-wide environmental compliance. Certification by established and respected third parties ensures that all manufacturers are held to the same high standards and that customers can trust a company’s declaration about the environmental benefits of its products. Knoll third-party partners include: the International Standards Organization (ISO); Forest Stewardship Council (FSC®); Rainforest Alliance; GREENGUARD® Environmental Institute; and The Business and Institutional Furniture Manufacturer’s Association (BIFMA) level® certification from Scientific Certification Systems (SCS).

In addition, Knoll is aligned with the U.S. Green Building Council and can help companies, healthcare organizations and educational institutions achieve Leadership in Energy and Environmental Design (LEED®) workplace certification.

**Global Climate Change**
- Knoll is a sponsor of the Clinton Global Initiative, which brings together a community of global leaders to devise and implement solutions to some of the world’s most pressing challenges, including environmental change.
- Knoll has a comprehensive Energy Management Program to increase energy efficiency in products and processes.

**Life Cycle Assessment (LCA) Tool**
- Life Cycle Assessment is a science-based measurement of a product’s environmental impacts throughout its life cycle, from raw materials sourcing through manufacture, shipping, use and re-use or end-of-life. LCA enables cradle-to-cradle implementation of sustainable practices.

**Setting Industry Standards**
- Knoll partners with MTS (The Institute for Market Transformation to Sustainability) to develop the SMaRT© Consensus Sustainable Products Standards, a set of consensus-based sustainable product standards based on the LEED® model, for all building products, fabric, apparel, flooring and carpet. MTS, the developer of SMaRT®, is an accredited American National Standards Institute (ANSI) standard developer.
- Knoll also partners with BIFMA (Business and Institutional Furniture Manufacturers Association) to promote level® sustainability standards for the contract furniture industry.
- Knoll has established FSC® (Forest Stewardship Council) certified wood as the standard for general office open plan office systems, caseworks and tables.
- Knoll has launched Full Circle, a resource recovery program developed with ANEW, to help customers extend the life cycle of surplus furniture, fixtures and equipment (FF&E) in an economically, socially and environmentally responsible manner.
- Our goal is to encourage all manufacturers in the contract furniture industry and related industries to adopt standards that will lead to sustainable products and practices.

For more information about Knoll and sustainable design, visit knoll.com/environment.
GREENGUARD™

- The most respected independent testing program for low-emitting products.
- GREENGUARD™ - certified products help reduce indoor air pollution and create healthier interior environments.
- Knoll GREENGUARD™ - certified products help achieve points for the U.S. Green Building Council’s LEED – CI (Commercial Interiors) Program.
- GREENGUARD™ - tested and certified office furniture is required for Credit 4.5 in the LEED – CI Indoor Environmental Quality section.

GREENGUARD™ provides the only guide to certified low-emitting interior products and building materials. Its goal is to help building owners and managers, architects, interior designers and product specifiers build and furnish healthier offices, hospitals, schools and homes by providing a register of tested and certified low-emitting products and materials. GREENGUARD™ certification is recognized by LEED. Air Quality Science, an Independent indoor air quality laboratory, tests products submitted for GREENGUARD™ certification using stringent environmental chamber testing protocols and current indoor air quality standards. Certification is administered by the GREENGUARD™ Environmental Institute.

Wood Compatibility Matrix

To match KnollStudio wood side chairs with Knoll Office or KnollStudio veneer finishes, please specify the appropriate Special code. Finishes are matched on either maple or beech basewood depending on depth of color.

Please note: this match is complimentary in color only. Perception can be affected by the variation in the grain of the basewood.

Example: 37A-BQV436-K784/74
37A, Riccio Side Chair
BQV436, V2 Natural Veneer - Medium Brown Cherry
K784/74, Knoll Velvet/Moss

To match Propeller, Pixel, and LSM with Knoll Office or KnollStudio finishes, please submit a request through CPD. Any of the finishes listed below may be used at no additional upcharge.

KnollStudio Natural Materials
Wood, marble, granite, and slate are natural materials that vary. Use material samples and printed sample materials as reference only. KnollStudio printed and finish samples offer an example of what an “average” natural material may look like, within a range of acceptance carefully delineated by Knoll. Because of the breadth of variations possible with any natural material, Knoll specialists select these materials with stringent criteria, accepting only the top 3-5% of what is available.

Wood
Knoll Natural Veneers
All natural finishes are selected from the finest hardwoods available around the world. Veneers are flat cut and carefully matched so that cathedral or heart patterns are perfectly balanced. Natural veneers also are cut to allow a generous margin of quarter-grain figuring ensuring invisible splicing.

Laminated Plywood (Cirene) e De Padova laminated plywood shells are made of the world’s top 3-5% veneers available. The unique lamination process allows for an extremely thin yet sturdy shell with unmatched flexibility and dimensionality. Shells are natural veneer.

Marble, Granite and Slate
Knoll selects the highest quality, structurally sound marble, granite and slate available, through a host of quarries in Africa, South America, Greece, Turkey, Spain, Slovenia and Italy. Because each mountain range and quarry have their own signature, every marble piece - even within a single quarry - is unique. Hues, veins, crystals, fossils, clouds, and distinctive marks will vary from piece to piece. This is the extraordinary character of stone as a material. Below are the marbles, granites, travertines, and slates that KnollStudio offers:

Coated Marbles
Coated Marbles
Coated marbles have transparent, high-polish, polyester coating to prevent use-associated stains. Even with this protection, coated marbles should not be used outdoors. Stains should be wiped immediately. Coating will yellow over time.

Satin Coated Marble
Satin coated marbles have transparent satin polyester coating to prevent use-associated stains. This satin finish gives the stone a natural, honed appearance while providing the same protective qualities as the Coated Marbles. Even with this protection, satin coated marbles should not be used outdoors. Stains should be wiped immediately. Coating will yellow over time.

Arabescauto
Ivory white with dark grey veining. May contain random green veins.

Calacatta
Ivory white. Gold and beige random veins with additional veins varying from cream to green and grey.

Carrara
White background with grey veining.

Emperor Dark
Dark Brown with light brown and white veining. Natural finished stones will contain open fissures and pin-holes, which is considered a natural desirable trait.

Empire Beige
Yellowish-cream with yellow and rose colored veining and fissures.

Grey Marble
Grey with black and white veins. Hues vary in tone and intensity.

Nero Marquina
Rich black with random veins that can vary from white to gold.

Verde Alpi

Natural Marbles
Natural marbles have a protective sealer to protect the stone from aging and staining. Sealer has to be renewed periodically (see product maintenance on page 28). Natural marbles are not suitable for outdoor use.

With proper care, your KnollStudio furniture should last for years to come. To help ensure the longevity of your purchase, below are helpful hints on routine cleaning for your KnollStudio piece. Most basic maintenance can be performed with common household cleaning products.

Textiles
See KnollTextiles website for detailed cleaning and care instructions. Wipe all spills immediately. Brush and vacuum every three to four months. Use a foam upholstery cleaner as directed semi-annually, or more frequently if necessary. Try a hidden area to test for color fastness.

Spinneybeck Leathers
Leather is hardy and will adjust to its environment. It mellows gracefully with age. Leather is expected to change; even the oils from our hands help to develop the patina.

Full grain, aniline leather is undemanding. It breathes, has a life of its own, and requires little care. It should not be abused by harsh cleaners, or substances such as wax or mink oils which will clog the pores. A periodic wipe with a damp cloth is a sufficient means of cleaning under normal conditions.

Spinneybeck now offers a leather maintenance kit specifically designed for the 28 quantities offered. The kit includes a cleaner, conditioner and ink-remover and can be ordered by calling 1 800 482-7777. There are three types of kits:
- finished products
- full aniline products
- brush-sueded products

The following guidelines will help you to maintain the beauty of the leather without destroying any of its natural characteristics.

Naked Leather
(Capi, Cervo, Copenhagen, Cordovan, Distressed, Prima, Saddle)
Naked leathers contain no foreign substances that act as a barrier against spillage or staining. They should be selected with this in mind.

The only recommended cleaning method for naked leather is to wipe the entire surface with a soft wooden cloth and water. Do not spot rub for it will darken only that area. The idea is to even out any abrasions or stains.

With use, naked leather develops a beautiful patina that removes many small scratches and abrasions as body oils moisturize and revitalize the leather. Substantial body oil marks will also dissipate over time, particularly if rubbed down with cool water.

Protective Finished Leathers
(Acqua, Alaska, Amazon, Andes, Antique, Arizona, Derby, Ducale, España, Forte, Hand Tipped, Portofino, Riva, Sabrina, Salon, Torello, Velluto Pelle, Vicenza, Volo)
For high traffic use, breathable protective finish allows leather not only to be practical but also easy to maintain. It can be cleaned by wiping the entire surface with a soft cloth and a very mild solution of Ivory Flakes and cold water, followed by wiping the entire surface with water alone.

Grain Sueded Leather (Ducale Velour, Marissa)
For maximum soil resistance and durability these leathers have received an impregnated soil resistant treatment in the drum which permeates the leather making it repellent to liquid and dirt.

Grain sueded leather can be maintained with moderate care because spillage will bead and roll off. However, spillage should not be allowed to puddle, and should be blotted dry immediately. For normal care, leather should be brushed occasionally, with a sueded cleaning block to help remove general soilage.

If you have further questions about the care and maintenance of Spinneybeck leather, call Spinneybeck Customer Service at 800 482-7777.

Cowhide Slings, Belting Leather
For normal cleaning, use a soft cloth dampened with a solution of mild soap or detergent (Ivory Flakes) well dissolved in water. Rub very lightly, never pressing hard. Do not use solvents because dye may run. For scratches, use liquid shoe polish and buff when dry. Any liquids spilled on leather should be mopped up as soon as possible in order to avoid being absorbed by the leather.

Natural Caning
Use water and glycerin every three months to keep cane from drying out.

Vinyl
Clean frequently with a mild detergent and water. Use leather or plastic cleaners for unusually heavy use. Do not use solvents such as gasoline because plastic surface will gum and deteriorate.

Wood
Clean with a commercial brand of liquid furniture polish twice a month. For stubborn dirt or light scratches, rub lightly with very fine steel wool before using furniture polish. To rejuvenate luster, apply a furniture cream as a last step. Do not use water or household solvents; they will destroy the protective finish.

Lacquer Finishes on Wood
(Florence Knoll credenza)
Frequent cleaning recommended: once per week with heavy use or once per month with light use. Clean with ordinary household soaps or detergents, well dissolved in water. Polish with lemon oil using a very soft cloth. For stubborn dirt or light scratches, uniformly apply Cleanbright Liquid Ebony or Guardsman liquid furniture polish with cheesecloth. Allow ten minutes to dry and wipe with a clean, dry cloth. For nicks, chips, and deep scratches, contact a professional refinisher. Never use abrasives.

Teak
Do not apply teak oil if you are using your furniture outdoors. For teak furniture used indoors, wipe surface with soft cloth to remove dust. Apply thin layer of teak oil using a paint brush and wipe excess using a soft cloth. Oil can be applied every 3 months to maintain rich color.

Wood Frame Chairs
Clean with dry and soft cloth. Rub smoothly with damp, lukewarm cloth. Treat stubborn stains with household soap solution or a solution with dishwashing liquid. Wipe off with clean, dry cloth. Do not use acid or abrasive detergents.

Marble with Polyester Coating
Wash with lukewarm water. Wash more thoroughly with Windex, Fantastik, Ivory Flakes in warm water, or other non-abrasive solutions. Rinse with warm water and dry with a soft cloth.

Natural Marbles/Marbles without Polyester Coating
Cleaning: Wipe off stains and liquid spills immediately with water and soft cloth. Never use steel wool or other abrasives on marble.

Maintenance: The mineral surface of marble is very porous and easily absorbs moisture and fluids causing staining and discoloring. If applied on a yearly basis, impregnators or penetrating sealers protect the interior of the stone, inhibit discoloration and allow the stone to breathe and release water vapor.

To restore a uniform luster, clean surface from any grit or debris, then remove all topical coatings with Stoneguard Stripper. Use Marbalex to rinse surface, then let top dry for twelve hours before applying stone impregnator. Apply SCI Impregnator using a clean and dry applicator brush. After five minutes, wipe off the excess with soft, white terrycloth. If impregnator is absorbed within five minutes apply second coat at least twelve hours later.

Never use steel wool or other abrasives on marble.

Slate
Apply a generous amount of soap solution (1:5) to the table top with a hard brush. Wipe off the top with a clean, damp cloth. Repeat as often as required. Apply mineral oil or lemon oil as needed to protect surface and maintain color.
Granite
Clean with Windex, Fantastik, or other non-abrasive solutions on a regular basis. Apply a marble wax to improve luster and protect finish. Routine maintenance will prevent the stone from darkening with use from body oils, and will help maintain an evenness of color.

Vetro Bianco
Wash surface with lukewarm water. Clean more thoroughly with a non-abrasive solution such as Windex or Fantastik. Rinse with warm water and dry with a soft cloth. Wipe off stains immediately with water and a soft cloth. Never use steel wool or other abrasives on surface.

Glass/Acrylic Polycarbonate
Clean with Windex, Fantastik or other non-abrasive cleaning solutions. Wipe dry with a clean cloth.

Laminate/Melamine
Scrub with Windex, Fantastik, Mr. Clean, or other household soaps or detergents well dissolved in water, or with a very soft cloth dampened with alcohol or a synthetic thinner. For a dull finish, rub with jeweler’s rouge as a polishing agent and finish with paste wax. Never use abrasives. Remove stubborn stains with Soft Scrub.

Stainless Steel
Use Windex, Fantastik, or other non-abrasive household cleaners. For small scratches, rub with Comet, Ajax, or other mild abrasives in the direction of the grain. Apply a coat of auto wax to maintain beauty.

Chrome/Satin Chrome
Clean with Windex or an automotive chrome cleaner such as Semi-Chrome twice a month. Apply a coat of hard paste wax to protect against moisture.

Nickel
Clean with Windex, Fantastik, or other non-abrasive cleaning solutions. If discoloration occurs, rub lightly with a fine steel wool to restore luster. Steel wool Grade #0000 is recommended. Touch-up with a clear lacquer to prevent oxidation.

Copper (uncoated)
Polish using a soft cloth and metal polish cream such as BlueMagic®. Do not use harsh abrasive or steel wool.

Polished Aluminum
Clean with Windex, Fantastik, or other non-abrasive cleaning solutions. Coat with a hard paste wax semi-annually to maintain luster and prevent discoloration.

Anodized Aluminum
Clean with mild soaps, detergents, or other non-abrasive cleaning agents. Apply paste wax or DuPont non-abrasive car polish #7 twice a year to prevent oxidation.

For stubborn stains or discolorations, apply naval jelly aluminum cleaner.

Urethane Edge
Clean with household soaps and detergents well dissolved in water. Do not use abrasive cleaning solutions.

Epoxy
Clean with Windex, Fantastik, or other ordinary non-abrasive household soaps, detergents, or ammonia at least once a month to prevent yellowing. For scratches and chips, rub with Comet, Ajax, or other mild abrasives. For deeper scratches, contact Knoll Customer Service for touch-up paint. Shine with a high grade auto polish. Never use harsh abrasives or steel wool.

Rilsan
Clean with Windex, Fantastik, or other ordinary non-abrasive household soaps or detergents. For ink stains on white surfaces, use Soft Scrub. For scratches and chips, rub with Comet, Ajax, or other mild abrasives. For deeper scratches, use a good grade automotive acrylic-lacquer touch-up paint. Shine with a high grade auto polish. Never use harsh abrasives or steel wool.

Porcelain
Clean with damp cloth using water or Windex. Do not use any abrasive detergent.

Powder Coat Paint
Clean with Windex or Endust using a soft cloth. Remove stubborn stains with Soft Scrub.

Polyester Shell
Clean with Windex or soap and water. Do not use any abrasive detergent.

Plastic Seat Shells
Use damp cloth to clean. Do not use detergent or soap or any abrasive detergent.

Cotton Webbing
Use damp cloth to clean. Do not use detergent or soap or any abrasive detergent.

Moving Parts
Lubricate moving parts every six months.

Swivel Mechanism
Apply a paste-type grease to swivel mechanism once a year.

Plastic/Polyethylene
Clean using a soft rag, either dry or wet. When needed, use mild pH-balanced soap diluted in water. Do not use abrasives, sponges, acidic products or solvents containing ammonia.

To remove scuff marks, lightly rub scuff mark with a dry, non-scratch scour pad, like Scotch-Brite.
An assortment of our most popular products are available to ship in twenty working days:

**Scope:**
The KnollStudio 20-Day program offers a selection of products, finishes and upholstery materials for KnollStudio products only. 20-Day products and finishes are denoted by a helicopter (ilians) on the relevant page of the price list. See page 31 for a list of products and finishes, and maximum order quantities that are available within the 20-Day program.

Knoll will upholster 20-Day pieces in any approved KnollTextile or Spinneybeck leather that is in stock in sufficient quantity at time of order entry if not denoted otherwise. To check availability, call 1-800-523-0346 for KnollTextiles and 1-800-482-7777 for Spinneybeck leathers or contact your KnollStudio sales representative.

The upholstery scope listed below represents KnollTextiles and Spinneybeck leathers that are guaranteed to be in stock to support upholstered pieces on the 20-Day program unless noted otherwise in the upholstery column on page 31.

**Availability:**
20-Day orders can be fulfilled pending availability. Before specifying a 20-Day order, please check the lead time sheet on Knoll Exchange or contact your KnollStudio sales or customer resources representative to ensure availability.

Maximum order quantities are listed on page 31. Please check with your customer resources representative for availability of larger quantities.

For specific terms and conditions, consult the Knoll Selling Policy on pages 422-423.

**Specification Guidelines:**
20-Day orders should contain the following:

- Orders should be specified separately from standard lead time orders. Separate delivery charges may apply.
- A special prefix is required for 20-Day items. Please make sure all 20-Day items are marked with a “KS” prefix, as outlined on page 31.
- Full payment is required, including applicable tax and delivery fees.
- No changes or cancellations are allowed.
- 20-Day products are only available in the continental United States and Canada.

Placing Your KnollStudio Order

Use the Following Address:
If you would like to send an order directly to our order entry departments, please use the following address:

Knoll, Inc.
P.O. Box 157
East Greenville, PA 18041
Attn: Order Entry
Fax: 215 679-1570
Tel: 800 343-KNOLL

When Placing Your Order, Include:
- All information requested on the order form.
- Local taxes for the “delivered to” address.
- For orders $2,000 or under (including applicable taxes and delivery/installation fees, if any), full payment must be made when order is placed.
- For orders over $2,000, a deposit equal to one-half of the complete order value is required at order placement. Balance must be settled before shipment.
- For 20-day orders, please adhere to the specification guidelines on page 30.

Key Points to Remember:
All accepted orders will be confirmed in writing on the Knoll standard acknowledgement form. A copy of the acknowledgement will be mailed to the customer prior to production.

Freight within the 48 contiguous United States and Canada, excluding the Yukon, Northwest Territories and Newfoundland, is prepaid and included in the price of all orders.

For residential orders, Knoll strongly recommends White Glove delivery service to most locations in the Continental United States and Canada. White Glove service includes inside delivery, unpacking, furniture installation and removing cartons and crates. The fee for this service will be quoted at the point of purchase.

KnollStudio’s limited warranty covers all furniture against manufacturing defects in this price list for a period of five years after delivery to the customer.

All pricing is in U.S. dollars.

Stones
Seats and Coffee Table

Molded Polyethylene Stones:
Polyethylene stones have a integral edge with a light texture and a low gloss finish, available in one color.

Regional Molded Polyethylene Stones:
Recycled polyethylene stones are composed of 100% recycled polyethylene in six colors. Black spots will appear randomly on the surface of the stone. Colors will vary slightly from stone to stone. Warranty claims for color variations will not be honored.

Weighted Polyethylene Stones:
Adult and child stones in molded polyethylene can be specified with or without weight. For stones with weight, sand is added at the factory. Weight can be adjusted in the field through access on underside of the stones. There is no option for a sand kit if the Stones are ordered without weight. The coffee table option for a sand kit if the Stones are weighted polyethylene can be specified with or without weight. The coffee table can only be specified without weight.

Seat cushions (not shown):
Seat cushions are 2.5” thick, solid foam pieces with impervious edge and fabric or leather zip-lock cover. Seat cushions are fully upholstered on top and bottom. Seat cushions are not attached to Stones.

The Straight Chair is part of a collection. Please refer to the Splay-Leg table on page 356.

Specify:
1. Pattern number
2. Finish

Ordering Information

- Finish:
  American Walnut (suffix AW)

- Maintenance:
  See pages 28-29.

- Note:
  The Straight Chair is Greenguard certified.

Each chair features George Nakashima's signature under the seat.

Construction

- Frame:
  Constructed from solid American Walnut, turned American Walnut legs and stretchers, and contrasting Hickory spindles, clear low-sheen finish and nylon glides.

- Note:
  American Walnut exhibits a high degree of natural color characteristics, ranging from chocolate, grey and purplish-browns to deep honey. Color variation will soften and become more uniform over time.

Designers: Joseph and Linda Ricchio, 1990

In the late 1980s, Joseph and Linda Ricchio, a husband-and-wife design team, created the JR Chair for Knoll, introducing a new approach to seating design. The JR Chair featured a unique combination of materials and construction techniques, including an upholstered seat and a wood frame. The chair was available in various wood finishes, including natural beech, and could be specified with different upholstery options.

Construction:
- The JR Chair was made from a combination of wood and upholstery materials, offering a blend of comfort and durability.
- The seat was upholstered, providing cushioning for the user.
- The wood frame was robust and stable, ensuring the chair's longevity.

Order Code:
- The JR Chair could be specified with different finishes and materials, allowing for customization.
- The order code system included codes for the wood finish, seat option, and upholstery, facilitating easy ordering and manufacturing.

Approved KnollTextiles Grades/Fabrics:
- KnollTextiles provided a variety of upholstery options, including domestic and imported materials, to complement the JR Chair.

Appendix:
- The Appendix included information about the finishes available, the materials used, and the construction details of the JR Chair.
- It also provided a list of the design team and their qualifications, highlighting their role in the creation of the JR Chair.

Ordering Information

Glass finish:
Clear glass

Maintenance:
See pages 28-29.

Construction

Clear glass top:
Top is 3/4" thick optically clear glass with a jeweled polished, chamfered edge.

Bronze base:
Constructed from four sand-cast bronze panels, connected by machined bronze plates and bronze hardware. The interior of the panels are CNC machined and hand polished to a mirror finish, contrasting the rough-hewn exterior.

Aluminum base:
Constructed from four die-cast aluminum panels, connected by aluminum connector plates and stainless steel hardware. The interior of the panels are finished in a smooth gloss black powder coat paint, contrasting the matte textured black powder coat paint exterior.

Note:
To mark our 75th anniversary, the Washington Corona coffee table in bronze is limited to an edition of 75. Each piece is numbered and comes with a bronze miniature that serves as a commemorative signature plate.

The Washington Corona coffee table is Greenguard certified.

- Face Off table
- G2 Clear Glass
- GC Clear Maple

**Note:**
The Gehry tables are part of a collection. Please refer to Gehry side chairs and lounge seating starting on page 126.

**Specify:**
1. Pattern number
2. Top finish selection

**Ordering Information:**
- Glass top finish: Clear Glass (suffix G2)
- Laminated top finish: White (suffix W)
- Maple base finish: Clear (suffix GC)
- Shipping note: Top ships separately.

**Signature:**
The underside of each piece in the Gehry Collection is embossed with Frank Gehry’s signature and the Knoll logo.

**Maintenance:**
See pages 28-29.

**Construction:**
- **Face Off Cafe Table tops:**
  - 3/8" thick tempered clear glass with polished edge;
  - 5/8" thick textured laminate top with clear solid edgeband. Four bolts attach table top to base.
- **Face Off Cafe Table base:**
  - Constructed of hard white maple veneers in 2 1/4" wide, 1/34" thick strips. Laminated to 7-ply thickness with high-bonding urea glue. All wood grains run in the same direction for resilience. State-of-the-art thermoset assembly glue provides structural rigidity without the need for metal connectors. Solid maple center column prevents cracking. Arched base design allows ample leg room.
- **Glides:**
  - Clear plastic with a matte finish.

*available on 2521T only

### Construction

- **Top:** Thick plate glass or coated marble with transparent polyester coating to help eliminate use-associated stains. Marble tops arrive with a 1/8" thick high density particle board spacer glued underneath the perimeter and rests on the table frame with double sided adhesive.
- **Base:** Legs are made of solid steel bars and connected to horizontal steel tube rails using steel connectors.

**Maintenance:** Refer to pages 28-29.

*Note:* The KnollStudio logo and signature of Florence Knoll are stamped into the base of the table.

**Substructure:**
- Larger tables, 2523T and 2524T, include an added cross bar between the rails and feature a tension rod substructure to help support the weight of the marble top. Four steel rods connected to the top corners of the table base converge into a chrome box attached to the cross bar. This hidden structure prevents any deflection of the marble.

**Prior to Ordering:**

**Installation Requirements Package:**
Please contact your KnollStudio sales representative to obtain a complete installation requirement package before submitting an order.

**Spatial Considerations:**
Please consider these spatial dimensions before ordering the 04 Counter:
- Individual beam dimensions: 94 1/2 inches length, 15 3/4 inches square width/height
- Height of the overall counter: 47 inches
- Clear circular footprint required: 13.6 foot diameter
- Total assembled weight: 925 lbs

**Note:** Once installed, the 04 Counter is a permanent structure in your space, akin to building a wall. It cannot be easily removed to install flooring, lay a rug, etc. Please think through the alignment and underlayment prior to installation.

**Site Flooring Requirements**

These site flooring requirements are solely the customer’s responsibility and must be completed prior to installation:
- A minimum of 4" solid concrete floor foundation must be present at the installation site.
- The floor under the mounting plate should be level to within .05 inches
- The floor under the first box should be level to within .25 inches
- No electrical, plumbing, HVAC or reinforcements can be imbedded in the flooring
- Raised floors are not acceptable
- If there is floor covering, there can be no gap between the floor covering and the concrete

**BARCELONA TABLE**

- Clear Glass Top: 3/4" thick top with a 1/8" wide beveled edge. Top and edges have a slight green tint.
- Starphire™ Glass Top: Starphire glass is more clear and luminous than regular glass. The low iron content gives glass a crystal quality. 1/8" bevel edge has an exceptionally clear character.
- Polished Chrome Base: Hand-ground and hand-buffed to a mirror finish. Single piece construction.

**MR TABLE**

- Top: 3/8" thick clear polished plate glass.
- Frame and legs are tubular and rectangular stainless steel welded together. Stainless construction buffed to a mirror finish.

### Ordering Information

#### Order Code
- **Example:** DS02-118-WHT-YEL
  - DS02: Round table
  - 118: White laminate top
  - WHT: White leg finish
  - YEL: Yellow rail finish

#### Top Finish:
- Laminate, outdoor: Bright White (suffix O118)
- Glass: Clear Glass (suffix G2)
- Natural Marble: Carrara, honed (suffix GCO)
- Engineered Stone: Vetra Bianco (suffix VB)

#### Construction
- **Frame:**
  - Frames are constructed from extruded aluminum rails, which are connected using die-cast aluminum 'X' and 'Y' shaped castings. Structural steel legs join the table's extruded aluminum rails through a blind assembly, seamlessly tying the leg to the cope detailed rail.
  - Stainless steel hardware and fasteners are used throughout the table's construction.

- **Outdoor Laminate:**
  - White laminate faces with black phenolic core. Core is constructed of FSC certified craft paper and phenolic resin.

- **Glass:**
  - 1/2" thick clear tempered glass.

- **Marble:**
  - Honed natural Carrara marble.

- **Engineered Stone:**
  - Polished, bright white surface is nonporous and more compact than most granites. Comprised of 93% fused quartz. It does not yellow or stain and is scratch resistant. Suitable for outdoors.

- **Glides:**
  - Non-marking indoor/outdoor grey nylon glide protects the table and the floor. An adjustable-height indoor glide kit is also included.

### Note:
- All finishes and surfaces are suitable for outdoor use.
- Maintenance:
  - See pages 20-29.

### Construction

**Frame:**  
Frames are constructed from extruded aluminum rails, which are connected using die-cast aluminum ‘X’ and ‘Y’ shaped castings. Structural steel legs join the table’s extruded aluminum rails through a blind assembly, seamlessly tying the leg to the cope detailed rail. Stainless steel hardware and fasteners are used throughout the table’s construction.

All painted parts are finished in ultra-durable outdoor polyester powder coat finish. Steel legs are pre-treated with a zinc-rich epoxy primer that provides a robust base of protection from the elements.

Tops are elevated off the table’s base using cast aluminum (glass) or nylon spacers (laminates, marble, or engineered stone). All tops are secured to the base using threaded metal inserts and fasteners. For glass tops, the plated finished aluminum spacer acts as a glass bolt and is attached to the glass using an ultra-strong adhesive.

**Glides:**  
Non-marking indoor/outdoor grey nylon glide protects the table and the floor. An adjustable height indoor glide kit is also included.

---

**Notes:**  
Marble tops are treated to resist stains with a topical sealer, which requires maintenance. Natural marbles will develop a rich patina when used outdoors. Natural finished marbles will contain open fissures and pin-holes, which is considered a natural desirable trait.

---

**Outdoor Laminates:**  
White laminate faced with black phenolic core. Core is constructed of FSC certified craft paper and phenolic resin.

**Glass:**  
1/2” thick clear tempered glass.

**Marble:**  
Honed natural Carrara marble.

**Engineered Stone:**  
Polished, bright white surface is non-porous and more compact than most granites. Comprised of 93% fused quartz. It does not yellow or stain and is scratch resistant. Suitable for outdoors.

**Glades:**  
Non-marking indoor/outdoor grey nylon glide protects the table and the floor. An adjustable height indoor glide kit is also included.

Construction

Frames:
Frames are constructed from extruded aluminum rails, which are connected using diecast aluminum 'X' and 'Y' shaped castings. Structural steel legs join the table's extruded aluminum rails through a blind assembly, seamlessly tying the leg to the cope detailed rail. Stainless steel hardware and fasteners are used throughout the table's construction.

All painted parts are finished in ultra-durable outdoor polyester powder coat finish. Steel legs are pre-treated with a zinc-rich epoxy primer that provides a robust base of protection from the elements.

Tops are elevated off the table's base using cast aluminum (glass) or nylon spacers (laminate, marble, or engineered stone). All tops are secured to the base using threaded metal inserts and fasteners. For glass tops, the plated brushed aluminum spacer acts as a glass bolt and is attached to the glass using an ultra-strong adhesive.

Outdoor Laminates:
White laminate faces with black phenolic core. Core is constructed of FSC certified craft paper and phenolic resin.

Glass:
1/2" thick clear tempered glass.

Marble:
Honed natural Carrara marble.

Note:
Marble is treated to resist stains with a topical sealer, which requires maintenance. Natural marbles will develop a rich patina when used outdoors. Natural finished marbles will contain open fissures and pin-holes, which is considered a natural desirable trait.

Engineered Stone:
Polished, bright white surface is nonporous and more compact than most granites. Composed of 93% fused quartz. It does not yellow or stain and is scratch resistant. Suitable for outdoors.

Glides:
Non-marking indoor/outdoor grey nylon glide protects the table and floor. An adjustable-height indoor glide kit is also included.

KnollStudio Vol. One
This Selling Policy supersedes all previous selling policies. Prices, discounts and product offerings are subject to change without notice.

Sales by Knoll, Inc. or Knoll North America Corp. (“Seller”) of Knoll Product Lines (hereinafter “Products”) within the United States and Canada are made only on the terms which are contained in this Selling Policy. Seller hereby gives notice of its objection to any different or additional terms and conditions. This sale is expressly conditional upon Purchaser’s assent to the terms and conditions set forth below. Additional terms and conditions may apply to KnollStudio and KnollTextiles orders. These terms and conditions may be modified or supplemented only by a written document signed by an authorized representative of Seller. These terms and conditions supersede any prior and/or contemporaneous agreements or correspondences between Purchaser and Seller. Written quotations expire thirty (30) days from the date of issuance and can be withdrawn by written notice anytime during that period. Where Purchaser and Seller have entered into the Knoll Electronic Terms and Conditions, all orders, acknowledgements, invoices and other business communications placed or transmitted in accordance with the Knoll Electronic Terms and Conditions shall be deemed to be in writing and signed and shall be valid for all purposes as if they were originated and maintained in documentary form.

All orders must be in writing. The product pattern number(s) contained on Seller’s order acknowledgment shall be the final expression of the order.

A purchase order is not binding on Seller until Purchaser has received Seller’s order confirmation or acknowledgment.

List prices are subject to change without notice.

List prices shall be those prices in effect on the date of receipt of a complete purchase order unless shipment is requested more than ninety (90) days after order entry in which case prices in effect on the date of shipment apply. List prices include specified freight costs. Unless specified in writing by Seller, no other charges are included in Seller’s list prices.

For KnollTextiles orders less than $2,000, and special packaging, etc.), due at time of order placement. For KnollStudio orders greater than $2,000, a one-half (50%) deposit is due at time of order placement with the remainder due within thirty (30) days of the date of invoice.

Payment for one hundred percent (100%) of the net order amount is due within thirty (30) days of the date of invoice, which is generally issued upon shipment. In case of any discrepancies, such as shortages, and Seller is notified in writing within ten (10) days of receipt of Product, only that portion may be deducted and the balance paid. For orders greater than $100,000 net, a fifty percent (50%) deposit is due at the time of order placement, with the remainder due within thirty (30) days of the date of invoice.

KnollTextiles orders that are returned pursuant to a valid authorization shall be subject to a twenty-five percent (25%) of list restocking charge. Products not currently limited to the execution and filing of documentation, which may be necessary to perfect and assure the security interest...
**Selling Policy**

**Customer’s Own Material**
A Purchaser who requests a fabric or other surface material not standard to Seller’s line of Products (“COM”) must submit samples of the requested material to Seller prior to entry of a purchaser order. Seller shall determine if the material is suitable to its manufacturing processes and meets any requirements of Underwriters Laboratories. If the COM is acceptable, Seller will then establish a price for using the COM or the Product in question. For a description of the procedures for submitting samples and testing, contact customer resources or your sales representative. Seller shall have no responsibility for the appearance, condition, performance, durability, colorfastness or any other physical attribute of the COM. Purchaser shall indemnify and hold Seller harmless for any damages, injuries or losses arising out of or related to the use of the COM on the Product.

**Warranty**
Seller warrants to the original Purchaser only that the Products Seller manufactures and sells to Purchaser are free of defects in workmanship and materials, during the applicable warranty period set forth below.

Warranty period set forth below is for 24-hour, 7 days a week, multi shift use (includes parts and labor to repair).

Should any failure to conform with this limited warranty appear to a Product listed below during the applicable warranty period from the date of shipment, Seller shall, upon prompt written notice, repair or replace, at its option and costs, the affected part or parts.

This warranty does not apply to:
- Damage caused by a carrier other than the Seller.
- Normal tear and wear or acts or omissions of parties other than Seller (including user modification, improper use or installation of Products).
- COM or other third party materials applied to Products.
- Products not installed by or under the auspices of a Knoll Dealer.
- Dramatic temperature variations or exposure to unusual conditions.
- Changes in surface finishes, including colorfastness due to aging or exposure to light.
- Except as specifically noted above, textiles and upholstery supplied by KnollTextiles and Spinneybeck FilzFelt (consult current price list for applicable warranties).

Natural variations occurring in wood, marble, and leather shall not be considered defects, and the Seller does not guarantee the colorfastness or matching of the colors, grains or textures, or surface hardness of such materials. The Seller also does not guarantee the colorfastness of fiberglass panel surfaces.

**Delay/Force Majeure**
Seller shall not be liable for failure to perform or for delay in performance due to fire, flood, strike or other labor difficulty, act of God, act of war or terrorism, act of any governmental authority or of the Purchaser, riot, embargo, fuel or energy shortage, wrecks or delay in transportation, inability to obtain necessary labor, materials or manufacturing facilities from usual sources or failure & suppliers to meet their contractual obligations, or due to any cause beyond its reasonable control. If any such event occurs, Seller may extend delivery dates by a period of time necessary to overcome the effect of such delay, allocate available Product or cancel any purchase order.

**Compliance with Law**
Purchaser is solely responsible for compliance with all applicable Federal, State and Local Laws, Ordinances, Regulations, Rules and Standards relating to the installation, maintenance, use and operation of the Products.

**Patents**
Subject to the following provisions, Seller shall, at its own expense, defend or, at its option, settle any claim, suit or proceeding brought against the Purchaser, and/or its vendees, mediate and immediate, so far as based on an allegation that any Product or any part thereof furnished hereunder constitutes a direct or a contributory infringement of any claim of any patent of the United States or Canada. This obligation shall be effective only if Purchaser shall have made all payments then due hereunder and if Seller is notified promptly in writing and given authority, information and assistance for the defense of said claim, suit or proceeding. Seller shall pay all damages and costs awarded in such suit or proceedings so defended.

The foregoing indemnity does not apply to the following:
- Products supplied according to a design other than that of Seller, and which is required by the Purchaser.
- Combination of the Product with another product not furnished hereunder unless Seller is a contributory infringer.
- Any settlements of a suit or proceeding made without Seller’s written consent

**Limitations of Liability**
SELLER, ITS CONTRACTORS, AUTHORIZED DEALERS AND SUBCONTRACTORS OR SUPPLIERS OF ANY TIER SHALL NOT BE LIABLE TO PURCHASER FOR ANY SPECIAL, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING FROM A BREACH OF THIS AGREEMENT.

Purchaser’s remedies set forth herein are exclusive and the liability of Seller with respect to the breach of this agreement or any contract entered into between the parties pursuant hereto shall not exceed the price of the Product or part on which such liability is based.

How to Order
Select pattern numbers and quantities required for your complete installation. Product questions can be addressed in the specific sections of this guide or by contacting your sales representative or customer resource representative at 1-800-343-5665.

Next, select options (if required), along with colors and finishes appropriate to each product. Reference the Finishes and Fabrics pages for color designations.

On large installations, an item’s “designated area” can be specified to assist in product organization and handling.

To expedite complete / correct entry of your order, be certain all pattern numbers, quantities, colors and area identifications are completely specified. Also, include complete purchase order numbers, bill-to and ship-to addresses, a contact name and specific factory shipping dates required.

Mail all orders to:
Knoll, Inc.
1235 Water Street
P.O. Box 157
East Greenville, PA 18041
Attention: Order Entry

Once your order is entered at Knoll, an acknowledgment will be mailed to you. You will be advised of your scheduled shipping date within five days of the original acknowledgment. If it is necessary to revise your order, please contact your customer resource representative.

Sustainability Statement

Sustainable design is a key component of Knoll’s environmental focus. Our commitment to social responsibility and a healthy environment has prompted us to further articulate our longstanding environmental programs and, with encouragement and support from our colleagues in the industry, we have re-energized our focus on such “green” initiatives as life cycle analysis and LEED™ certification. Knoll is proud to have contributed to projects that have received LEED certification from the U.S. Green Building Council.
