# Florence Knoll Relaxed Bench and Stool

Florence Knoll

**Knoll**

FLORENCE KNOLL RELAXED BENCH Used as a bench, ottoman or coffee table, new Relaxed Benches bring a softer sit and new sizes to the Florence Knoll Collection. The original design has been updated with a lower horizon to complement today's more casual lifestyle. Consistent with all of her designs, each piece has a spare, geometric profile that reflects the objective perfectionism and rational approach Florence Knoll learned from her mentor, Mies van der Rohe.

FLORENCE KNOLL Considered a seminal leader of 20th-century design, Florence Knoll grew up among designers. She studied architecture with Mies van der Rohe and gained her earliest professional experience with Marcel Breuer and Bauhaus founder, Walter Gropius. In partnership with her husband, Hans, she championed the Bauhaus approach to furniture design at Knoll: to offer objects that reflect design, technological innovation and mass production. Her intellect and keen eye brought Knoll to the forefront of modern design, thus creating the legacy that continues today. For her extraordinary contributions to architecture and design, Florence Knoll was accorded the National Endowment for the Arts' prestigious 2002 National Medal of Arts.
