Knoll and Sustainable Design

Each year Knoll sets key initiatives in our journey to sustainability. We are members of a global consortium on energy, have adopted a scientific, metrics-based approach to sustainable product design, and maintain a leadership position in establishing universal, verifiable, sustainability standards for our industry.

Knoll promotes independent third-party certification because it provides the most impartial and trustworthy foundation for industry-wide environmental compliance. Certification by established and respected third parties ensures that all manufacturers are held to the same high standards and that customers can trust a company’s declaration about the environmental benefits of its products. Knoll third-party partners include: the International Standards Organization (ISO); Forest Stewardship Council (FSC®); Rainforest Alliance; GREENGUARD® Environmental Institute; and The Business and Institutional Furniture Manufacturer’s Association (BIFMA) level® certification from Scientific Certification Systems (SCS).

In addition, Knoll is aligned with the U.S. Green Building Council and can help companies, healthcare organizations and educational institutions achieve Leadership in Energy and Environmental Design (LEED®) workplace certification.

Global Climate Change

• Knoll is a sponsor of the Clinton Global Initiative, which brings together a community of global leaders to devise and implement solutions to some of the world’s most pressing challenges, including environmental change.
• Knoll has a comprehensive Energy Management Program to increase energy efficiency in products and processes.

Life Cycle Assessment (LCA) Tool

• Life Cycle Assessment is a science-based measurement of a product’s environmental impacts throughout its life cycle, from raw materials sourcing through manufacture, shipping, use and re-use or end-of-life. LCA enables cradle-to-cradle implementation of sustainable practices.

Setting Industry Standards

• Knoll partners with MTS (The Institute for Market Transformation to Sustainability) to develop the SMaRT© Consensus Sustainable Products Standards, a set of consensus-based sustainable product standards based on the LEED® model, for all building products, fabric, apparel, flooring and carpet. MTS, the developer of SMaRT®, is an accredited American National Standards Institute (ANSI) standard developer.
• Knoll also partners with BIFMA (Business and Institutional Furniture Manufacturers Association) to promote level® sustainability standards for the contract furniture industry.
• Knoll has established FSC® (Forest Stewardship Council) certified wood as the standard for general office open plan office systems, casegoods and tables.
• Knoll has launched Full Circle, a resource recovery program developed with ANEW, to help customers extend the life cycle of surplus furniture, fixtures and equipment (FF&E) in an economically, socially and environmentally responsible manner.
• Our goal is to encourage all manufacturers in the contract furniture industry and related industries to adopt standards that will lead to sustainable products and practices.

**Custom Color Policy**

For all colors outside the standard palettes for Quoin storage as defined within this price list, Knoll will custom match to your specification according to the following requirements.

The request for custom paint color must be accompanied by a purchase order and by a master color match applied to metal, having dimensions of at least 3" X 5".

Knoll will evaluate the sample to determine application feasibility.

Upon approval for application, Knoll will forward two factory samples with assigned Knoll color name and code for customer approval. One of the approved samples must be signed and returned to Knoll before an order may be placed.

Upon receiving customer approval, Knoll will enter the order.

Custom colors will be processed at a P2 list price for standard non-metallic finishes or at a P3 list price for metallic, clear and white finishes.

Extended lead-times may apply to custom paint match selections. Please consult your Customer Service Representative for current lead-time information.

For further assistance with ordering or specification of Quoin storage products, consult your Knoll sales representative.
Quoin Lockers
Quoin Lockers are 12" and 15" wide steel construction cabinets offered in 3 depths and 3 heights.

Available Sizes (nominal)
Height: 42", 50", 57"
Width: 12", 15"
Depth: 18.75", 24", 30"

Lockers include right or left full overlay hinged door, factory-installed dual prong coat hook and one adjustable shelf.

Lockers ship assembled including steel top.

Lock heights are designed to align dimensionally with underside of Dividends Horizon panel top cap.

50" and 57" high lockers, 18.75" and 24" deep must be ganged for stability. All 30" deep lockers may be used freestanding. All 42" high lockers may be used freestanding.

Construction
Quoin lockers feature an innovative 1-piece wrapper design providing optimal material efficiency without sacrificing strength and durability.

• Wrapper: 20-gauge steel
• Slotted vertical channel: 16-gauge steel
• Base: 18-gauge steel
• Support Crossrails; 16-gauge steel
• Door Outer Panel: 20-gauge steel
• Door Inner Panel: 22-gauge steel
• Adjustable Shelves: 20-gauge steel
• Cantilever Shell Support: 14-gauge steel
• Leveling glides: ½" diameter steel stem with 1-5/16" of adjustment providing up to 1-7/8" clearance beneath locker, 4 leveling glides included per locker.

Internal Clearances Internal Height:
A: 12-1/16"
B: 12-1/2"
C: 11-5/8"
D: 6-1/4"
E: 13-1/2"

Adjustable shelves ship-factory installed in lowest position, one per locker.

Actual dimensions to nearest ¼ of an inch

Exterior Dimensions
Actual Height: 41⅜", 48⅜", 56⅜"
Actual Width: 12", 15"
Actual Depth: 18¾", 23¾", 29¾"

*Actual dimensions to nearest ¼ of an inch

Locks
Quoin lockers may be ordered with or without locks. No lock hole is drilled on units specified as non-locking.

Locks may be specified black or chrome. Flush-mount lock housing matches specified lock finish.

Locks are randomly keyed unless otherwise specified. Other keying options include keyed alike or keyed with lock cores K001-K250. To specify units as such, reference KnollKey Lock Program.

Pulls
Quoin standard 5" finger pull is factory installed; vertically positioned 1" below top edge of door.

Coat Hook
Factory installed dual prong coat hook is positioned centered front-to-back on side opposite hinge. Coat hooks are composed of steel with nickel plated finish.

### Specific Information

- All lockers with hinged door include factory installed, dual-prong coat hook and one adjustable shelf installed in lowest shelf position. See Specification information for additional shelf positions.
- Deduct $15 from the list price for non-locking units. Substitute the final "L" with a "N" within the pattern number to designate a non-locking unit, example (VLG501224FDLSSL).
- Add $15 per pull to the list price for Anodized Nickel (AN) or Anodized Aluminum (AA) pull finish.

### Application Notes

- Lockers include a finished steel top.
- When specified non-locking, lock drilling is omitted from door front.
- Dimensions listed under 'w', 'h', 'd' are actual to the nearest 1/64".
- Additional shelf positions.
- 50" and 57" high lockers, 18.75" and 24" deep must be ganged for stability.
- All lockers 42" high may be used freestanding.
- All lockers 30" deep may be used freestanding.

All lockers 30" deep may be used freestanding.
Wall Mounting Suggestions
The following information is provided only as a guide, and represents minimum recommendations only. Knoll does not accept responsibility for the attachment of any Knoll product to a Customer’s site wall. Wall specification/construction is the responsibility of the Customer and its structural engineer/architect. Failure to properly attach Knoll products to adequate wall structures can lead to property damage and/or personal injury.

You should consult your own structural engineers and/or architects and must not rely on the information provided herein.

It is the responsibility of the Customer and its structural engineers/architects to verify that the permanent structural walls (studs, blocks, solid masonry, etc.) on which the Knoll products are intended to be mounted are designed appropriately to support the product weight, PLUS 3 lbs. per linear inch for each useable shelf length.

NOTE: A cabinet’s top is considered a “useable shelf” and MUST be included in the calculation of the total load for an overhead cabinet.

It is the responsibility of the Customer and its structural engineer/architects to specify the fasteners and method for attaching the Knoll supplied wall mounting cleat, bracket, frame, etc. to the supporting wall and to confirm that the installers have adhered to these specifications. For all local building standards and codes, and additional requirements (including, but not limited to, seismic conditions) the Customer should always consult local code agencies.

### Mounting the Knoll Supplied Cleat, Bracket, Frame, etc.

Insert a 2” X 6” wood block, #2 grade or better, (or a Danback™ flexible wood backing system) horizontally between each of the studs to accommodate the full width of the cabinet, and beyond to the next stud.

Fasten the Knoll supplied cabinet wall mounting cleat, bracket, frame, etc. directly to the masonry wall every 6”.

For wall mounting structures that have a rectangular frame-like configuration: fasten the top horizontal element of the frame to the wall every 6”, and fasten the lower horizontal element to each wall stud, using one fastener per stud.

Insert a 2” X 6” wood block, #2 grade or better, horizontally between each of the exposed studs.

Fasten the wood block to each stud using three screws at the ends of each block. (Fasten the Danback™ as directed by the manufacturer)

Fasten the Knoll supplied wall mounting cleat, bracket, frame, etc. directly to the wood block every 6”.

For wall mounting structures that have a rectangular frame-like configuration: fasten the top horizontal element of the frame to the wood block every 6”, and fasten the lower horizontal element to each wall stud, using one fastener per stud.

Insert a 2” X 6” wood block, #2 grade or better, horizontally between each of the exposed studs.

Fasten the wood block to each stud using three screws at the ends of each block.

Replace the drywall and repair as desired.

Fasten the Knoll supplied wall mounting cleat, rail, frame, etc. directly to the wood block every 6”.

For wall mounting structures that have a rectangular frame-like configuration: fasten the top horizontal element of the frame to the wood block every 6”, and fasten the lower horizontal element to each wall stud, using one fastener per stud.

In the desired location of the cabinet mounting rail, remove an 8” high section of drywall the width of the cabinet, and beyond to the next stud.

Insert a 2” X 6” wood block, #2 grade or better, horizontally between each of the exposed studs.

Fasten the wood block to each stud using three screws at the ends of each block.

Replace the drywall and repair as desired.

Fasten the Knoll supplied wall mounting cleat, rail, frame, etc. directly to the wood block every 6”.

For wall mounting structures that have a rectangular frame-like configuration: fasten the top horizontal element of the frame to the wood block every 6”, and fasten the lower horizontal element to each wall stud, using one fastener per stud.

### Graham Wall Hung Shelf

*Graham Wall Hung Shelf Bracket (and others like it) requires full support behind the full height of the bracket*

The Graham Wall Hung Shelf Bracket (and others like it) requires full support behind the full height of the bracket.

This should be accomplished by insertion of additional 2”X 6” wood blocking between the studs as defined above.

The Graham Wall Hung Shelf Bracket (and others like it) requires full support behind the full height of the bracket.

This should be accomplished by insertion of additional 2”X 6” wood blocking between the studs as defined above.

The Graham Wall Hung Shelf Bracket (and others like it) requires full support behind the full height of the bracket.

This should be accomplished by insertion of additional 2”X 6” wood blocking between the studs as defined above.

### Fasten the Knoll supplied wall cleat with...

- #10 x 2 1/2” Grabber Woodys Screws or equiv. @ 6" c/c, screwed directly into the wood blocking
- 3/16” x 3 1/2” Tapcon Masonry Screws or equiv. @ 6" c/c with 1-1/4” embedment, screwed directly into the masonry wall
- #10 x 2 1/2” Grabber Woodys Screws or equiv. @ 6" c/c, screwed directly into the wood blocking

Fasten the Knoll supplied wall mounting cleat, rail, frame, etc. directly to the wood block every 6”.

For wall mounting structures that have a rectangular frame-like configuration: fasten the top horizontal element of the frame to the wood block every 6”, and fasten the lower horizontal element to each wall stud, using one fastener per stud.

In the desired location of the cabinet mounting rail, remove an 8” high section of drywall the width of the cabinet, and beyond to the next stud.

Insert a 2” X 6” wood block, #2 grade or better, (or a Danback™ flexible wood backing system) horizontally between each of the exposed studs.

Fasten the wood block to each stud using three screws at the ends of each block.

Replace the drywall and repair as desired.

Fasten the Knoll supplied wall mounting cleat, rail, frame, etc. directly to the wood block every 6”.

For wall mounting structures that have a rectangular frame-like configuration: fasten the top horizontal element of the frame to the wood block every 6”, and fasten the lower horizontal element to each wall stud, using one fastener per stud.

Selling Policy

Terms & Conditions of Sales

This Selling Policy supersedes all previous selling policies. Prices, discounts and product offerings are subject to change without notice.

Ordering Information

All orders must be in writing. The product pattern number(s) contained on Seller’s order acknowledgement shall be the final expression of the order.

Order Confirmation

A purchase order is not binding on Seller until Purchaser has received Seller’s order confirmation or acknowledgment.

Pricing Policies

List prices are subject to change without notice.

List prices shall be those prices in effect on the date of receipt of a complete purchase order unless shipment is requested more than ninety (90) days after order entry in which case prices in effect on the date of shipment apply. List prices include specified freight costs. Unless specified in writing by Seller, no other charges are included in Seller’s list prices.

Freight is prepaid and included in the price of all Products, except KnollTextiles, within the 48 contiguous United States for orders placed with Knoll, Inc. and KnollTextiles orders. These terms and conditions may be modified or supplemented only by a written document signed by an authorized representative of Seller. KnollTextiles orders less than $2,000 require payment for one hundred percent (100%) of the net order amount (including any applicable sales tax and charges for inside delivery, special packaging, etc.), due at time of order placement. For KnollStudio orders greater than $2,000, a one-half (50%) deposit is due at time of order placement with the remainder (including any applicable sales tax and charges for inside delivery, special packaging, etc.) due prior to shipment.

Delivery/Freight Charges

Nonstandard methods of shipment and/or additional services are available upon request. Purchaser will be billed for the differential cost of any special services requested.

Partial shipments may be made and invoiced by Seller.

Returns

Purchaser upon delivery of the Product into storage.

Seller’s Security Interest

Past due accounts shall be charged one and one-half percent (1.5%) per month, or the highest rate permitted by law, whichever is less, and will be added to the outstanding balance. In the event Purchaser defaults on payment, Purchaser shall be liable for all collection costs, including reasonable attorney’s fees and costs.

Claims

All shipments for Knoll Products within the contiguous United States and Canada are F.O.B. Origin. All risk of loss passes to Purchaser at time of delivery to Purchaser. All Products that are returned pursuant to a valid authorization shall be subject to a twenty-five percent (25%) of list restocking charge. Products not currently offered for sale by Seller (including COM) shall not be authorized for return. All Products that are returned pursuant to a valid authorization shall be subject to a twenty-five percent (25%) of list restocking charge. Products not currently offered for sale by Seller (including COM) shall not be authorized for return. All returned Products must be unused, in original condition and in the original packaging. Accessorial charges will be added for inside delivery, extra labor, reconsignment and redelivery.

Claims

All shipments for Knoll Products within the contiguous United States and Canada are F.O.B. Origin. All risk of loss passes to Purchaser at time of delivery to carrier. Purchaser shall inspect all Products upon receipt and notify Seller within ten (10) working days after receipt of any damage or defects which are, or should be, apparent from an inspection of the Product and its packaging. Failure of Purchaser to notify Seller within the ten (10) working day period shall constitute acceptance of the Products and waiver of any apparent defects, errors or shortages. For all claims relating to Product damaged in transit or for any other claims relating to or arising out of the transportation of the Product, Purchaser must seek recovery from the carrier and Seller has no liability to Purchaser for such claims. Seller may, upon request, assist Purchaser with filing of such claims with the carrier, but Seller will not be liable for any of these transportation related claims.

Held Orders/Storage

If Purchaser requests that an order be held or delayed, prices and terms and conditions in effect at the time of shipment shall apply. If Purchaser requests a delay after the time when Seller can defer production, Purchaser will be invoiced for the Product, payable in accordance with standard terms, when the order is ready for shipment. Seller may transfer the Product to storage, in which case all expenses incurred in connection with storage, including demurrage, preparation for storage, storage charges and handling shall be payable by Purchaser upon submission of invoices by Seller. Risk of loss to the Product shall pass to the Purchaser upon delivery of the Product into storage.
Selling Policy

Customer's Own Material

A Purchaser who requests a fabric or other surface material not standard to Seller’s line of Products (“COM”) must submit samples of the requested material to Seller prior to entry of a purchaser order. Seller shall determine if the material is suitable to its manufacturing processes and meets any requirements of Underwriters Laboratories. If the COM is acceptable, Seller will then establish a price for using the COM or the Product in question. For a description of the procedures for submitting samples and testing, contact customer resources or your sales representative. Seller shall have no responsibility for the appearance, condition, performance, durability, colorfastness or any other physical attribute of the COM. Purchaser shall indemnify and hold Seller harmless for any damages, injuries or losses arising out of or related to the use of the COM on the Product.

Warranty

Seller warrants to the original Purchaser only that the Products Seller manufactures and sells to Purchaser are free of defects in workmanship and materials, during the applicable warranty period set forth below.

Warranty period set forth below is for 24-hour, 7 days a week, multi shift use (includes parts and labor to repair).

Should any failure to conform with this limited warranty appear to a Product listed below during the applicable warranty period from the date of shipment, Seller shall, upon prompt written notice, repair or replace, at its option and costs, the affected part or parts.

Product and Period of Warranty

Lifetime: Antenna Workspaces, AutoStrada, Caliber, Crinon Open Table, Currents, Dividends Horizon, Morrison, Refl Profiles laminate, Rockwell Unscripted, Series 2 Storage, Template, Quoin and other non-wood components (except cascade edge worksurfaces, operational parts, controls, electrical, Lighting, Series 2 Veneer Front Storage, digital locks, upholstery, textiles and leathers, special or custom products, see below)

12 Years: Chadwick, Generation by Knoll, k. task, Life, Moment, MultiGeneration by Knoll, Olio, ReGeneration by Knoll, Remix, and Toboggan seating (except seating upholstery, textiles, leathers and finishes, see below)

10 Years: Anchor Storage except digital locks, Antenna Workspaces, AutoStrada, Crinon Open Table, Dividends Horizon, Dividends Horizon Satellite Surfaces, Refl Profiles, Rockwell Unscripted, Quoin wood components, Template wood components, Series 2 Veneer Front Storage, cascade edge worksurfaces, Wood Casegoods (The Graham Collection) except wood casegoods upholstered surfaces, see below), Reuter overheads, Reuter vertical storage, KnollExtra Sapper Monitor Arm Collection, Sapper XYZ Monitor Arm Series, Adjustable keyboard mechanisms and platforms, Communication Boards (except fabric board textiles, cork and FilzFelt, see below), Smokador collection (except leathers, see below), Orchestra Universal Systems Accessories, k. lounge structural components, KnollStudio Pixel and Propeller, Tone bases.

5 Years: Operational parts, controls, electrical, Lighting (except light ballasts, bulbs and power supply, see below), special or custom product, wood veneer products and plywood, Currents handcrank, KnollStudio, Rockwell Unscripted wire bases, Spark Series seating structural elements, structural elements of all KnollStudio outdoor products including all Richard Schultz designed products, KnollExtra CPU holders and all universal storage drawers and Power Collection, k. bench (except changes in finish, see below) and k. stand bases (except changes in finish, see below)

3 Years: Rockwell Unscripted upholstery (except textiles and leather), Office Seating upholstery, textiles, leathers and finishes. Fabric boards textiles and Smokador Collection leathers, KnollExtra Pop Up Screens.

2 Years: Anchor Storage digital locks, Quoin digital locks, all other KnollExtra product

This warranty does not apply to:

• Damage caused by a carrier other than the Seller.
• Normal wear and tear or acts or omissions of parties other than Seller (including user modification, improper use or installation of Products).
• COM or other third party materials applied to Products.
• Products not installed by or under the auspices of a Knoll Dealer.
• Dramatic temperature variations or exposure to unusual conditions.
• Changes in surface finishes, including colorfastness due to aging or exposure to light.
• Except as specifically noted above, textiles and upholstery supplied by KnollTextiles and Spinneybeck FilzFelt (consult current price lists for applicable warranties).

Natural variations occurring in wood, marble, and leather shall not be considered defects, and the Seller does not guarantee the colorfastness or matching of the colors, grains or textures, or surface hardness of such materials. The Seller also does not guarantee the colorfastness of fiberglass panel surfaces.

THE EXPRESS WARRANTIES CONTAINED HEREIN ARE IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTIES OF MERCHANTABILITY AND FITNESS FOR PARTICULAR PURPOSE AND ALL OTHER WARRANTIES ARISING FROM COURSE OF DEALING OR USAGE OF TRADE.

Delay/Force Majeure

Seller shall not be liable for failure to perform or for delay in performance due to fire, flood, strike or other labor difficulty, act of God, act of war or terrorism, act of any governmental authority or of the Purchaser, riot, embargo, fuel or energy shortage, wrecks or delay in transportation, inability to obtain necessary labor, materials or manufacturing facilities from usual sources or failure of suppliers to meet their contractual obligations, or due to any cause beyond its reasonable control. If any such event occurs, Seller may extend delivery dates by a period of time necessary to overcome the effect of such delay, allocate available Product and/or cancel any purchase order.

Compliance with Law

Purchaser is solely responsible for compliance with all applicable federal, state and local laws, ordinances, regulations, rules and standards relating to the installation, maintenance, use and operation of the products.

Patents

Subject to the following provisions, Seller shall, at its own expense, defend or, at its option, settle any claim, suit or proceeding brought against the Purchaser, and/or its vendees, mediate and immediate, so far as based on an allegation that any Product or any part thereof furnished hereunder constitutes a direct or a contributory infringement of any claim of any patent of the United States or Canada. This obligation shall be effective only if Purchaser shall have made all payments then due hereunder and if Seller is notified promptly in writing and given authority, information and assistance for the defense of said claim, suit or proceeding. Seller shall pay all damages and costs awarded in such suit or proceedings so defended.

The foregoing indemnity does not apply to the following:

• Products supplied according to a design other than that of Seller, and which is required by the Purchaser.
• Combination of the Product with another product not furnished hereunder unless Seller is a contributory infringer.
• Any settlements of a suit or proceeding made without written consent of Seller.

Limitations of Liability

Seller, its contractors, authorized dealers and subcontractors or suppliers of any tier shall not be liable to Purchaser for any special, indirect, incidental or consequential damages arising from a breach of this agreement.

Purchaser's remedies set forth herein are exclusive and the liability of Seller with respect to the breach of this agreement or any contract entered into between the parties pursuant hereto shall not exceed the price of the Product or part on which such liability is based.
KnollKey Lock Program

General Information

Following is the KnollKey lock policy, applicable to all products.

Knoll furniture can be ordered keyed-alike or random keyed. Key-alike and random keying instructions cannot be mixed on any single order. Only one of the two instructions can be used on an individual order. When an order is submitted with mixed (key-alike and random) instructions, Knoll will release the order as key-alike only and lock cores will have to be specified separately.

Key-alike

For the convenience of the user, furniture may be keyed alike at no charge. Write “Key-alike” in the description of your purchase order for any pedestal, overhead, file or other item you wish to have keyed alike. Using the key-alike instructions, order cores and keys as line items on your purchase order. Do NOT submit a key-alike form. The Knoll East Greenville Lock Center will select key numbers from the standard range of K 001 - K 250. Key numbers will not be repeated unless over 250 sets are ordered. Lock cores keyed-alike will ship separately from the product, ready for field installation.

There is no charge for key-alike orders if placed with the furniture order. IF THE KEY-ALIKE ORDER IS NOT PLACED AT LEAST TWO WEEKS PRIOR TO THE FURNITURE SHIP DATE, A $50 HANDLING CHARGE AND AIR FREIGHT CHARGES WILL APPLY.

If product is ordered and shipped random-keyed, additional lock cores for key-alike are billable.

Random-Keying

To specify product keyed-random, write “key-random” in the product description. Random-keyed product is shipped with the lock core factory installed. A shrouded key is included. Random means no effort has been made to match key numbers, or to make them different.

Keys

A Knoll shrouded key is shipped with every lock core. 250 Key numbers are available. For numbers above 250, contact Custom Product Development. Additional keys and key blanks are available. See service parts for more information.

Master Keying

Knoll locks can be controlled by means of a master key. There is no additional per-lock charge for master keying. A letter of approval from the client must accompany orders for master keys.

Installing Lock Cores

Lock cores can be installed or removed in the field by using a change key. Cores must be in the unlocked position to be removed. See service parts for change key pattern number and pricing.

Lock Distribution

All orders for key-alike lock cores/keys are packaged and shipped from the East Greenville Lock Center, regardless of where the pedestals, overhead, or other units are produced. Random keyed product will have cores factory-installed.

How to Specify Key-Alike

Following is an example of how to specify key-alike for a cluster of 10 workstations.

Step 1 - Using the project floorplan, count the number of locks in each workstation.

Step 2 - Count the number of workstations with the same quantity of locks. Group together the workstations with a like number of locks.

Step 3 - For the first group (5 sets of 2 locks), enter the number of workstations in the quantity column.

Step 4 - Then enter the pattern number “KSPEC_ _ _” and add a suffix for the number of locks for that group (i.e., for 2 locks per station, add the suffix “2”). Up to 30 lock cores are available in a set (i.e., KSPEC 30).

Step 5 - Repeat for other groups.

General Ordering Information

The Products
This guide encompasses all standard products for this product group.

Sizes
Dimensions listed in this guide are indicated as:
H = height
W = width
D = depth
Dia. = diameter
Rad. = radius

Pricing
All prices shown are list.

How to Order
Select pattern numbers and quantities required for your complete installation. Product questions can be addressed in the specific sections of this guide or by contacting your sales representative or customer resource representative at 1-800-343-5665.

Next, select options (if required), along with colors and finishes appropriate to each product. Reference the Finishes and Fabrics pages for color designations.

On large installations, an item’s “designated area” can be specified to assist in product organization and handling.

To expedite complete / correct entry of your order, be certain all pattern numbers, quantities, colors and area identifications are completely specified. Also, include complete purchase order numbers, bill-to and ship-to addresses, a contact name and specific factory shipping dates required.

Mail all orders to:
Knoll, Inc.
1235 Water Street
P.O. Box 157
East Greenville, PA 18041
Attention: Order Entry

Once your order is entered at Knoll, an acknowledgment will be mailed to you. You will be advised of your scheduled shipping date within five days of the original acknowledgment. If it is necessary to revise your order, please contact your customer resource representative.

Sustainability Statement

Sustainable design is a key component of Knoll’s environmental focus. Our commitment to social responsibility and a healthy environment has prompted us to further articulate our longstanding environmental programs and, with encouragement and support from our colleagues in the industry, we have re-energized our focus on such “green” initiatives as life cycle analysis and LEED™ certification. Knoll is proud to have contributed to projects that have received LEED certification from the U.S. Green Building Council.

For the latest information on Knoll products that help our customers achieve LEED certification, log on to knoll.com, click on “About Knoll” and then “Environmental Focus.”
