KnollStudio®
Avio Sofa System

Modular and linear, with a visually light structure that blends into any setting, Avio skillfully balances spatial relationships and proportions. The sofa combines functional and aesthetic poise by contrasting the slim structural framework with the substantial volume of the upholstery. An ideal sofa for home and for contract applications, it is perfectly suited to the stylistic direction set by Florence Knoll.

Two-seat sofa (right)
and three-seat bench (below)
Piero Lissoni is an award-winning architect, designer, and art director. Lissoni describes his design approach as “humanistic,” meaning that he places the human experience at the center of his work. Whether he is designing a small-scale product or larger hotel project, he is known for his keen attention to detail and proportion. In 1986, he and Nicoletta Canesi founded Lissoni Associati, a multidisciplinary architecture and design firm based in Milan. This was followed by the opening of the visual communications company Graph.x in 1996 and later by the architecture firms Lissoni Architettura and the New York based Lissoni, Inc.
