Knoll

## Pop Up

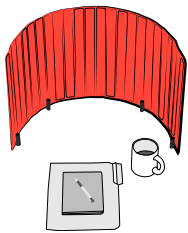

### Desktop Screen

Work and social activity are fluid, rarely tied to a fixed schedule and location. An adaptive environment relies on the ability for people to re-shape the space over and over as their needs evolve.

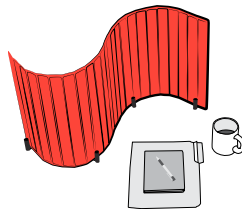

Pop Up desktop screens bring personal privacy to the adaptive workplace, providing the flexibility to shape space by creating a personal boundary for concentration and visual privacy. Lightweight and easy to roll up, Pop Up is ready to provide privacy on the move.

### Warranty
