Knoll and Sustainable Design

Each year Knoll sets key initiatives in the journey to sustainability. Focused on our impact to people and planet, Knoll reports material health product attributes and sets operational targets to reduce greenhouse gas emissions, waste generation and water use (in our North American facilities.)

Material transparency is a core Knoll sustainable design value, enabling us to optimize the design and performance of our products. Our material health program utilizes independent third-party certifications that provide an impartial and trustworthy foundation for industry-wide transparency. Certification by respected third parties ensures that all manufacturers are held to the same high standards. Knoll certifications include: Forest Stewardship Council (FSC®), Intertek’s Clean Air Program, Business and Institutional Furniture Manufacturer’s Association (BIFMA) LEVEL® certification, International Living Future Institute’s (ILFI) Declare labelling and Certified Environmental Product Declarations. In addition, Knoll is aligned with the U.S. Green Building Council and can help organizations achieve credits for Leadership in Energy and Environmental Design (LEED®), WELL and the Living Building Challenge (LBC) building certifications.

In our manufacturing operations, we focus on efficiency and impact. Knoll Office and Knoll Europe manufacturing locations are ISO 14001:2015 certified. Knoll sets objectives and targets to reduce energy, water and waste. These initiatives are part of a long-term strategy to further reduce energy consumption and lower our carbon footprint.

We also believe in helping our customers find viable options when decommissioning furniture or other related assets. ANEW’s Full Circle Program, in partnership with Knoll, allows customers to leverage buy-back and re-sale programs as well as explore options for repurposing or recycling that mitigate landfill impact through energy-from-waste conversion.

For more information about Knoll and sustainable design, visit www.knoll.com/environment.
### Knoll Color Program

**Core Paint Finishes, Smooth**

**P1 Smooth Paint Finishes**
- 111 Jet Black

### Front Finish, Quoin Mobile Cart

**Core Paint Finishes, Smooth**
- Core Paint Finishes, Textured

**Accent Paint Finishes, Smooth**
- Accent Paint Finishes, Textured

**Top Laminate, credenzas**
- Laminate Finishes

### Pull Finish, all products

Smooth Core Paint Finishes, Smooth
- Accent Paint Finishes, Textured

### Foot Finish, all foot kits

Select Textured Finishes as follows:
- 111T Textured Jet Black
- 114T Textured Folkstone Grey
- 115T Textured Medium Grey
- 118T Textured Bright White
- 613T Textured Silver

### Lock Finish, cylinder lock, all products

- C Chrome
- B Black

### Lock Finish, digital keypad or RFID lock, lockers

- NO Brushed Nickel

### Color

All inside and outside case surfaces are painted in the same specified paint color.

### Custom Color Policy

For all colors outside the standard palettes for Quoin storage as defined within this price list, Knoll will custom match your specification. Please submit the request using Knoll’s Custom Finish Planner available on Dealer Portal.

Custom colors will be processed at a P2 list price for finishes that are not metallic, clear or white. Metallic, clear and white finishes will be processed at a P3 list price.

Extended lead times may apply to custom paint match selections.

Quoin Foot Specifications

Quoin Raised Storage
Feet are nominally 3” high with black leveling glide. Foot kits are specified separately as kits and installed on-site.

Feet are available only for products as stated in the application notes on the pricing pages and within this section.

Application
Quoin storage units raised on feet may be used freestanding or ganged to panels or adjacent storage units as noted within applicable pricing sections.

When used freestanding, counterweights or ganging may be required. Refer to applicable counterweight specification information for details.

Components of uniformed depth may be ganged to one another via T-Feet. Components of differing depths may not utilize shared T-Feet for ganging.

When ganging two units together, (4) Corner Feet will be replaced by (2) T-Feet spanning the seam between the units.

Credenzas
To specify Quoin credenzas raised on feet, utilize standard credenza pattern numbers (V2C22 . .). Credenzas include pre-installed leveling glides to be removed on-site when utilizing foot kits.

Feet are additive to the height of a standard credenza. Overall height of a credenza raised on feet is 25.5” high.

Individual units 18”-36” wide require (4) Corner Feet per unit. Double credenzas 36”-72” wide require (4) Corner Feet and (2) T-Feet for additional support.

Lockers
Lockers for use with Feet (VLF . .) do not include pre-installed leveling glides. Applicable foot kits must be specified for use.

Foot kits may not be used with (VLG . .) pattern numbers.

Noted elevation heights of Lockers for Use with Feet include height of 3” feet. Case height of Lockers for Use with Feet is 3” less than Lockers with standard leveling glides to accommodate height of foot.

Individual Units, 8 Corner Feet

Ganged Units, 4 Corner Feet + 2 T-Feet

Corner Feet are available in a 4-piece kit or as 40-piece bulk kits. T-Feet are available in a 2-piece kit or as 20-piece bulk kits. Hardware is included to attach to storage unit.

### Order Information

1. **Base Pattern Number**
2. **Paint Finish**
   - See Finish Options page

### Order Code

Example: VAFC04P

- **VA**: Quoin, Accessory
- **F**: Foot Kit
- **C**: Corner
- **04**: Kit of 4
- **P**: Painted

### Specification Information

Foot kits are specified separately as kits and installed on site. Kits include hardware for attaching feet to Quoin storage unit.

Individual lockers or single credenzas require 4 corner feet. Double credenzas additionally require 2 T-feet for ganging and support.

When ganging two units side-by-side, units must be of uniformed depth. Two individual ganged units require 4 corner feet plus 2 T-feet at the seam.

### Application Notes

- Feet are nominally 3" high and include a black leveling glide.
- Feet are additive to the height of a standard credenza bringing the overall finished height of the credenza on feet to 25.5" high (nominal).
- Lockers for use with feet (VLF, pattern numbers) feature a shorter case to compensate for height of feet maintaining overall elevation height as noted.

*Foot kits are only compatible with Quoin Credenzas (V2G..) and Lockers For Use with Feet (VLF..)*
Quoin Mobile Pedestals

Quoin mobile pedestals offer a variety of configurations in 2 widths and 2 depths. Pedestal cases are preassembled and ship with drawers installed. Casters are field installed.

5 Configurations Available:
- Open with Shelf, 20” high
- Full Door, 20” high
- Box/File, 20” high
- File/File, 20” high
- Box/Box/File, 20” high

Mobile pedestals feature full overlay door or drawer fronts and casters. Pedestals are available with steel or cushion top. All mobile pedestals include 2 locking and 2 non-locking casters. Pedestals with drawers include additional non-locking caster mounted beneath file drawer for added stability as drawer is extended.

Available Sizes
Nominal Sizes (actual dimension)
- Height: 20” (19.91”), 26” (25.89”)
- Width: 12” (11.93”), 15” (14.9”)
- Depths: 18”, 24” (18.78”, 23.22”)

When specified, cushion top adds 1” to overall pedestal height.

Drawers and Filing
Each Box/File pedestal contains one 6” high box drawer and one 12” high file drawer. Each File/File pedestal contains two 6” high box drawers and one 12” high file drawer. Each File/Box/File pedestal contains two 6” high box drawers and one 12” high file drawer. Each File drawer includes 1 file bar set to accommodate side-to-side Letter or Legal filing.

Side-to-side filing hangs from back edge of drawer body providing clearance for storage of other small items or supplies within front section of drawer. Additional file bar kits are available to shift side-to-side filing to front portion of the drawer. 15” wide pedestals also accommodate front-to-back Letter filing. 12” wide pedestals do not accommodate front-to-back filing.

Box Drawer, Internal Dimensions
- Width: 9-5/16”, 12”
- Height: 4-7/16”
- Depth: 16-5/16”, 21-3/16”

File Drawer, Internal Dimensions
- Width: 9-5/16”, 12”
- Height: 9-1/4”
- Depth: 16-5/16”, 21-3/16”

Construction
Quoin mobile pedestals feature an innovative 1-piece wrapper design consistent with Quoin Lockers, providing optimal material efficiency without sacrificing strength and durability.
- Wrapper: 20-gauge steel
- Front vertical channel: 16-gauge steel
- Base: 16-gauge steel
- Top Support Crossrail: 16-gauge steel
- Finished Steel Top: 14-gauge steel
- Drawer Fronts: 20-gauge steel
- Drawer Bodies: 20 and 22-gauge steel
- Full extension, ball bearing drawer slides
- Door: 20 and 22-gauge steel
- Removable shelf: 20-gauge steel
- Cantilever shelf support: 16-gauge steel

Locks
Quoin mobile pedestals may be ordered non-locking or locking with cylinder lock and key. Lock drilling is omitted when specified as non-locking. Pedestals feature slim profile lock bezel to match specified lock core finish, available in black or chrome.

Locks are randomly keyed unless otherwise specified. Other keying options include keyed alike or keyed with lock cored K001-K250. To specify units as such, reference KnollKey Lock Program.

Pulls
Quoin standard 5” finger pull is factory installed; positioned horizontally 3/8” from top of drawer fronts. Pull is positioned vertically 1” below top edge of door for pedestals with full door.

Cushions
Mobile pedestals may be specified without a finished top for use with field installed cushion top (specified separately). Cushion top may not be applied to mobile pedestals with finished steel top. Cushions are available in a range of KnollTextiles, Spinneybeck leather or upholstered (specified separately). Cushion top may not be applied to mobile pedestals with finished steel top. Cushions are available in a range of KnollTextiles, Spinneybeck leather or upholstered (specified separately). Cushion top may not be applied to mobile pedestals with finished steel top. Cushions are available in a range of KnollTextiles, Spinneybeck leather or upholstered.

Planning
Quoin mobile pedestals are designed to plan with all other Knoll Office products including height adjustable tables. Casters provide adequate clearance to roll overtop. Tone or k.stand height adjustable table foot for enhanced planning efficiency. Refer to table clearance requirements when planning Quoin pedestals beneath height adjustable tables.

Pedestal Accessories
Optional accessory kits include:
- Additional File Bar kits for 12w or 15w pedestals
- Plastic pencil trays for 15” wide pedestal Box drawers
- Pedestal accessories are specified separately, see Pedestal Accessories.
Quoin Mobile Cart
The Quoin Mobile Cart offers a multi-functional solution for personal storage within a compact size. Available in one size and configuration, the Quoin Mobile Cart includes a removable bin, open cubby, tray top and seat. Mobile Cart is non-locking.

Available Sizes
Nominal Sizes (actual dimensions)
Height: 17’ (17.4’)
Width: 12’ (12.0’)
Depth: 18’ (18.0’)

Construction
Quoin Mobile Cart features a 1-piece wrapper design consistent with Quoin Lockers, providing optimal material efficiency without sacrificing strength and durability.

Removable Bin
The lower bin can be partially extended for use as a personal drawer or fully removed, bringing contents to the desktop or other easy to access surface. Bin is composed of steel and finished with paint selected as “Front Finish”. Removable bin includes two round finger holes, one each front and back. Black rubber grommet pull is included to finish hole if desired.

Fixed Shelf and Open Cubby
A factory-installed fixed shelf is located immediately above removable bin to conceal bin contents and form open cubby above. Fixed shelf is steel and finished with paint selected as “Front Finish”. Interior of outer case wrapper forms the vertical sides of the open cubby, finished in paint selected as “Case Finish”. Clear dimensions of open cubby are: 10.4” wide x 17.9” deep x 8.75” high.

Tray Top
A factory-installed tray top is formed on sides and back creating a nominally 2” high tray to store papers, mobile technology or other items. Tray Top is composed of steel and finished with paint selected as “Front Finish”. Notched back allows charging cords to exit the tray and be plugged into an outlet.

Tray Pad
A black tray pad is included to add cushion beneath devices sitting in the tray or for use as a mousepad. Tray pad may be placed as desired and is not permanently attached.

Upper Shelf
A small upper shelf is designed to sit within tray top. Upper shelf is moveable within tray or removable allowing it to serve as a laptop stand. When placed within the tray, upper shelf can serve as a seated surface.

Casters
4 factory-installed casters are included, 2 non-locking casters in the back and 2 locking casters in the front.

Finishes
Cart may be specified as monochromatic, available in all Knoll Core finishes (specify front finish to be “same as case”) or two-toned. When specified as two toned, Case Finish is applied to outer wrapper and vertical surfaces of open cubby. Case Finish may be selected from all standard Knoll Core Paints. Front Finish applies to all other surfaces including Bin, Fixed Shelf, Tray Top and Upper Shelf. Front Finish may be selected from all standard Knoll Core Paints or Accent Paints. Casters, tray pad and rubber grommet pulls on bin are black.

Example: VPM201218BFSSL

- **VPM** Quoin, Pedestal Mobile
- **20** 20” High
- **12** 12” Wide
- **18** 18” Deep
- **BF** Box / File
- **S** Steel Top
- **L** Cylinder Lock
- **(118)** Case Finish, Bright White
- **(~)** Front Finish, same as Case
- **H** Hard Casters
- **(T)** Pull Style, 5” Finger Pull
- **(118)** Pull Finish, Bright White
- **(C)** Lock Finish, Chrome

**Specific Information**

Mobile pedestals with steel top are not intended for use as a seat. If seated use is required, specify pedestal without top and field installed cushion top. Steel top is factory-installed.

Door or drawer front finish may be specified as “same as case” or in a contrasting P1, P2 or P3 paint finish. When contrasting front finish is specified, list price is determined by Case Finish price category.

Patterns listed above include standard cylinder lock. To specify as non-locking, substitute final character with (N), deduct $15 list. Example: VPM201218BFSSN.

Open pedestals include (1) removable steel shelf.

Pedestals with full door do not include shelf.

Pedestals with full door are available with standard or Soft Close hinge option.

**Application Notes**

Mobile pedestals include 4 casters (2 locking). Pedestals with drawers include additional non-locking caster mounted beneath file drawer for added stability. Casters are field installed.

Finished Height of 20” high mobile pedestals with finished steel top are designed to fit beneath the following height adjustable tables at their lowest position:

- Tone Standard Electric Range k. stand
- Tone Standard Electric Range k. bench
- Telescope Standard Electric Range k. bench

Finished Height of 26” high mobile pedestals are designed to fit beneath standard fixed height worksurfaces. Casters provide adequate clearance to roll overtop Tone, k. stand or k. base foot.

Each file drawer within 12” wide pedestals includes (1) file bar allowing side-to-side Letter or Legal filing to be hung from back edge of the drawer body.

### Specific Information

Mobile pedestals with steel top are not intended for use as a seat. If seated use is required, specify pedestal without top and field installed cushion top. Steel top is factory-installed.

Door or drawer front finish may be specified as "same as case" or in a contrasting P1, P2 or P3 paint finish. When contrasting front finish is specified, list price is determined by Case Finish price category.

Patterns listed above include standard cylinder lock. To specify as non-locking, substitute final character with (N), deduct $15 list.

Example: **VPM201218BFSSLN**

Mobile pedestals include 4 casters (2 locking). Pedestals with drawers include additional non-locking caster mounted beneath file drawer for added stability. Casters are field installed.

Finished Height of 20" high mobile pedestals with finished steel top are designed to fit beneath the following height adjustable tables at their lowest position:
- Tone Standard Electric Range
- k. stand Standard Electric Range
- Extended Electric Range Telescope
- Standard Electric Range
- k. bench Standard Electric Range
- Extended Electric Range

Finished Height of 26" high mobile pedestals are designed to fit beneath standard fixed height worksurfaces.

Casters provide adequate clearance to roll overtop Tone, k. stand or k. base foot.

File drawers of 15" wide pedestals provide front-to-back Letter filing and include one File bar for side-to-side filing. Additional side-to-side file bar may be added, specify separately.

Plastic pencil tray is available for use within Box drawers of 15" wide pedestals, specified separately.

### Order Code
- Example: VPM201518BFNSL

### Specific Information
- **Quoin mobile pedestals without top require field installed cushion top (specified separately).** Once cushion is installed mobile pedestal may be used as seated surface.
- **Door or drawer front finish may be specified as “same as case” or in a contrasting P1, P2 or P3 paint finish.** When contrasting front finish is specified, list price is determined by Case Finish price category.
- Patterns listed above include standard cylinder lock. To specify as non-locking, substitute final character with (N), deduct $15 list. Example: VPM201218BFNSL N.
- Open pedestals include (1) removable steel shelf.
- Pedestals with full door do not include shelf.
- Pedestals with full door are available with standard or Soft Close hinge option.
- Plastic pencil tray is available for use within Box drawers of 15” wide pedestals, specified separately.

### Application Notes
- Mobile pedestals include 4 casters (2 locking). Pedestals with drawers include additional non-locking caster mounted beneath file drawer for added stability. Casters are field installed.
- Finished Height of 20” high mobile pedestals with finished steel top are designed to fit beneath the following height adjustable tables at their lowest position:
  - Tone Standard Electric Range
  - k. stand Standard Electric Range
  - k. stand Extended Electric Range
  - Telescope Standard Electric Range
  - k. bench Standard Electric Range
  - k. bench Extended Electric Range
- Finished Height of 26” high mobile pedestals are designed to fit beneath standard fixed height worksurfaces.
- Casters provide adequate clearance to roll overtop k. base foot.
- File drawers of 15” wide pedestals provide front-to-back Letter filing and include one File bar for side-to-side filing. Additional side-to-side file bar may be added, specify separately.

  1. Base Pattern Number
  2. Textile Type
  3. Textile Finish

### Order Code

- **Example:** VPMC1218
  - **VPM:** Quoin, Pedestal Mobile
  - **C:** Cushion Top
  - **12:** 12" wide
  - **18:** 18" deep
  - **(-):** Standard
  - **(VO):** Volo

### Specification Information

- For use with Quoin mobile pedestals without finished top only. Cushions may not be applied to Quoin mobile pedestals specified with finished steel top.
- Cushion may not be applied to Quoin Mobile Cart.

### Application Notes

- Pedestal cushion includes hardware to attach to Quoin mobile pedestal without finished top. Cushions are field installed.
- For perforated leather, add $105 to the list price.
- Use Grade U pricing for customer’s own leather. Specify 11.5 square feet of material per 18" deep cushions and 14.5 square feet of material per 24" deep cushion.
Quoin Credenzas
Quoin credenzas are nominally 22.5" high and are available in a variety of open and drawer configurations. Credenzas cases are preassembled; tops are installed on site. Credenzas with more than one unit (double units and box/file with open) contain two preassembled cases and one common top that are assembled on site. Five configurations are available:

- Single Open
- Double Open
- Single Box/File
- Double Box/File
- Box/File with Open

Each Box/File unit contains one 6" high box drawer and one 12" high file drawer. File drawer allows for side-to-side letter or legal filing and front-to-back letter filing.

- Internal height: 9¾"
- Internal width: 26 ¾" and 32 ¾"
- Internal depth: 15 ¾"

Open Quoin credenzas include one adjustable shelf, standard. The Quoin credenza case features two shelf positions to either align horizontally with adjacent credenza drawer fronts or to accommodate binder storage.

Available Sizes (Nominal)
- Depth: 18.75"
- Height: 22 ½"

Construction
Credenza specifications:
- Outer wrapper: 20-gauge steel
- Drawer front: 20-gauge steel
- Back: 20-gauge
- Full extension ball bearing drawer slides
- Leveling glides: ⅜" diameter steel stem with a 1⅜" of height adjustment
- Extended Leveling glides: ⅜" diameter steel stem; provides 2¾" clearance when fully extended
- Standard interlock feature prevents both drawers from being opened at the same time for added stability.

Locks
Quoin credenzas with drawers are available non-locking or locking with cylinder lock and key. Lock drilling is omitted when specified as non-locking.

Locks are randomly keyed unless otherwise specified. Other keying options include keyed alike or keyed with lock cores K001-K250. All locks are factory-installed and can be specified with black or chrome finish.

Pulls
Quoin standard 5" finger pull is factory installed; positioned horizontally ⅜" from top of drawer fronts.

Planning
When planning credenza overlaying a table foot, Extended Leveler kit may be specified separately. Confirm clearance and overall credenza height when planning with height adjustable tables.

When planning credenza with VACS22P Template credenza spacer to support a Dividends Horizon worksurface, specify one credenza spacer per credenza. In this application, front leveling glides must be moved from the standard position to the secondary location within base. Template credenza spacer may not be used with credenzas raised on feet.

Quoin Credenzas may be planned on raised feet, see Quoin Raised Foot Specifications page for details.

When planning credenza in freestanding application, counterweight may be required. See credenza counterweight specifications for details.

Shelf Clearances
- Shelf Position 1
  - A: 11 ¾"
  - B: 6 ½"
- Shelf Position 2
  - A: 11 ¾"
  - B: 5 ½"
Credenza Counterweight Application
Select Quoin credenzas require counterweight for use in freestanding applications. Credenzas secured to a panel, supporting a worksurface with a credenza spacer or ganged back-to-back with another unit do not require counterweight.

Single or double open units without drawers do not require counterweight.

When required, counterweights are specified separately and are field installed.

Reference the following list of pattern numbers and corresponding counterweight kits required for freestanding applications:

  - (139): Top laminate, Light Ash
  - (T): Pull Style, 5" Finger Pull
  - (118): Pull Finish, Bright White
  - (B): Lock Finish, Black

### Specific Information
Credenzas are non-handed upon specifications. Double units may be arranged as left or right handed upon installation. Ganging hardware (provided) attaches units from the underside, allowing units to be converted in the future.

Credenzas include factory installed leveling glides. Leveling glides must be removed during installation if installing with raised foot kit (specified separately).

L1/L2 pricing is based on laminate top finish.

### Application Notes
- Credenzas may be used in freestanding position. Complete units without drawers do not require counterweight. Units with drawers may require counterweight in freestanding position. See credenza Specification Information for details.
- Extended leveler kit may be specified separately for credenzas overlaying table foot.
- May be used with raised foot kit (specified separately).
- Each open case unit includes 1 removable shelf, field installed.

### Specific Information

Credenzas are non-handed upon specifications. Double units may be arranged as left or right handed upon installation. Ganging hardware (provided) attaches units from the underside, allowing units to be converted in the future.

Credenzas include factory installed leveling glides. Leveling glides must be removed during installation if installing with raised foot kit (specified separately).

L1/L2 pricing is based on laminate top finish.

### Application Notes

Credenzas may be used in freestanding position. Complete units without drawers do not require counterweight. Units with drawers may require counterweight in freestanding position. See credenza Specification Information for details.

Extended leveler kit may be specified separately for credenzas overlaying table foot.

May be used with raised foot kit (specified separately).

</tr>
</tbody>
</table>

### Specification Information

- For use with Quoin credenzas only.
- Cushions mount atop credenza laminate top. Cushion does not replace credenza top.
- Cushions are designed to be centered front-to-back on credenza with slight reveal on each front and back.
- Cushion are preassembled with hook and loop velcro for mounting to credenza top.

### Application Notes

For Customer’s Own Material (COM) applications, specify the following yardage per cushion:

- 18” - 36 wide cushions: 1.25 yards
- 42” wide cushions: 1.5 yards

**Specific Information**

- Ganging brackets may be used to attach side-by-side credenzas to one another.
- Ganging hardware attaches units from the underside allowing handedness to be determined on-site or converted in the future.
- Credenzas each include one half of a ganging kit, standard. Bulk kits may be specified separately if additional brackets are required.

**Application Notes**

- Extended leveler kit may be specified separately for units overlaying table foot.
- Units with drawers require counterweight in freestanding position. Refer to Series 2 Overview - Series 2 Credenza section for specifics.
- Extended leveler kit may not be used with Quoin lockers.
- Credenza spacer may be used to support one end of a Dividends Horizon worksurface. Spacer may not be used with credenzas raised on feet.

<tbody>
<tr>
<td>VA2CW3015</td>
<td>Credenzas with drawers may require counterweight when used in freestanding position. Refer to Quoin Credenza Specifications to identify the appropriate kit.</td>
</tr>
</tbody>
</table>

**Application Notes**

Counterweight kits include mounting hardware and brackets to install the counterweight plates.

Counterweight plates are mounted to the back panel behind file drawer(s) inside credenza.

Counterweight kits are specific to Quoin credenzas and may not be used for Quoin lockers.
Quoin Lockers
Quoin Lockers are 12" and 15" wide steel construction cabinets offered in 4 depths and 5 heights.

Available Sizes (nominal)
Height: 28", 36", 42", 50", 57"
Width: 12", 15"
Depth: 15", 18", 24", 30"

Lockers with full door include right or left full overlay hinged door, dual prong coat hook and one adjustable shelf. Desk supporting lockers exclude coat hook.

Open lockers without door include 1-3 factory installed, adjustable shelves in quantities as noted below.
28", 36" high: 1
42" high: 2
50" high: 3
57" high: 3

When specified with finished steel top, top shelves assembled with coat hook installed. Lockers ship assembled including steel top.

When specified without finished steel top, individual or common laminate top must be specified separately. Lockers specified without top include appropriate top attachment hardware. No top lockers with full door, 36" high and taller, include coat hook for field installation.

Lockers are designed to align dimensionally with underside of Dividends Horizon panel top cap. Lockers for use with feet are designed to maintain alignment with corresponding Dividends Horizon panel when installed on raised feet (specified separately).

Select lockers require ganging or counterweight for stability. See Locker Stability Requirements for details.

Construction
Quoin lockers feature an innovative 1-piece wrapper design providing optimal material efficiency without sacrificing strength and durability.

- Wrapper: 20-gauge steel
- Slotted vertical channel: 16-gauge steel
- Base: 18-gauge steel
- Support Crossrails: 16-gauge steel
- Top: 20-gauge steel
- Door Outer Panel: 20-gauge steel
- Door Inner Panel: 22-gauge steel
- Adjustable Shelves: 20-gauge steel
- Cantilever Shelf Support: 14-gauge steel
- Leveling glides: 1/8" diameter steel stem with 1-5/16" of adjustment providing up to 1-7/8" clearance beneath locker, 4 leveling glides included per locker.

Internal Clearances Internal Height:
A: 12 5/8"n
B*: 12 5/8"
C: 11 5/8"
D: 6 5/8"
E: 13 5/8"
F+: 17 3/8"
*B and F dimension reduced by 3/16" when specified for use with feet (VLF pattern numbers)

Actual dimensions to nearest 1/16th of an inch

Exterior Dimensions
Finished Height: 34 5/8", 41 5/8", 48 5/8", 56 5/8"
Actual Width: 12", 15"

Actual dimensions to nearest 1/16 of an inch

Common Laminate Tops
Common laminate tops may be specified to gang lockers in locker bank applications. Laminate tops are 5/16" thick laminate with ABS Edgeband.

Common tops are designed to span a single run of up to 8 lockers of consistent width and depth or back-to-back locker banks of up to 16 lockers of consistent width and depth.

To specify locker bank application, lockers must be specified with “no top” option and appropriate number of locker ganging brackets must be specified separately (VARQ01 or VARQ10), see locker accessories for details.

Select locker banks require counterweight for stability. See Locker Stability Requirements for details.

Locks
Quoin lockers with full door may be ordered with or without locks. No lock hole is drilled when specified as non-locking.

Lock options include cylinder lock with key, digital keypad lock or RFID lock.

Cylinder locks feature flush-mount lock housing to match specified lock finish, available in black or chrome. Cylinder locks are randomly keyed unless otherwise specified. Other keying options include keyed alike or keyed with lock core K001-K250. To specify units as such, reference KnollKey Lock Program.

Digital keypad and RFID lock options are available with brushed nickel faceplate finish. Keyless locks ship program-ready in shared use mode. Refer to Keyless Locking Specifications for details.

Hinges
Standard (S) or soft close (Q) hinges are available for all lockers with full door.

Pulls
Quoin standard 5" finger pull is factory installed; vertically positioned 1" below top edge of door.

Coat Hook and Coat Rods
Lockers 36"-57" high with door include factory installed coat hook, centered front-to-back. Top mount coat rods are available to replace standard coat hook within 18-30" deep lockers, see Locker Accessories for details.
Locker Specifications

Locker Stability and Accessories

Locker Stability
Quoin lockers are tested per ANSI/BIFMA X5.9-2019 requirements. Select locker applications require ganging or counterweight to comply with stability requirements.

Individual Lockers
The following lockers may be used freestanding without additional stability accommodations:
• All 28"/H11033, 36"/H11033 and 42"/H11033 high lockers
• All 30" deep lockers

The following lockers require ganging or counterweight to meet stability requirements:
• 50"/H11033 Hx12"/H11033, 15"/H11033 Wx15"/H11033, 18"/H11033, 24"/H11033
• 57"/H11033 Hx12"/H11033, 15"/H11033 Wx15"/H11033, 18"/H11033, 24"/H11033

Counterweight Requirements
Counterweights are available to provide additional stability to Quoin lockers as needed. When required, counterweights are specified separately and field installed.

GR = Ganging to a panel or wall required

Ganging Kits
A variety of ganging kits are available to provide additional stability as required. Counterweights are not required when ganging units except in locker bank applications as described in Counterweight Requirements chart.

All ganging kits are specified separately and field installed. Applications include:
• Panel attachment brackets (VARDL01, VARDR01) secure Quoin locker to Dividends Horizon panel.
• Locker to credenza ganging kit (VARS01) secures Quoin locker to Quoin credenza.

Dividends Horizon Panel Bracket for Quoin Locker Stability

Worksurface Mount Bracket
Worksurface mount brackets allow Quoin lockers to support one end of a Dividends Horizon fixed height worksurface. When specified, worksurface mount bracket replaces otherwise required support at the end of the worksurface (cantilever, support leg or similar).

Worksurface mount brackets are specified separately and field installed. Installation requires attachment through locker side panel and is intended to be permanent. Brackets are available in all core smooth and textured paint colors. Due to visibility of bracket within locker, it is recommended bracket finish coordinates with specified locker case finish.

Worksurface mount bracket applications require locker and attached worksurface to be of uniform depth.

### Specific Information

- Desk supporting lockers include 1 removable shelf.
- Lockers with full door (FD) listed above include standard cylinder lock. For additional lock options, substitute with:
  - N = Non-Locking, deduct $15
  - D = Digital Keypad lock, add $560
  - R = RFID Lock, add $605
- Example (VLG281524FDLNSL):
  - Programming and Manager Key(s) are required for D or R lock types, specified separately. See Digital Keypad and RFID lock specifications for details.
- Lockers with full door are available with soft close hinges. Specify Q hinge type, add $75 list.

### Application Notes

- Desk supporting lockers do not include coat hook.
- Desk supporting lockers include hardware to attach to laminate top. Steel top option is not available for desk supporting units.
- Desk supporting lockers are intended to support one end of a worksurface or may be used in freestanding or bank applications. Finished height (28½" nominal) aligns with standard Dividends Horizon worksurface height.
- When specified non-locking, lock drilling is omitted from door front.
- Dimensions listed under “w”, “h”, and “d” are actual to the nearest 1/26".

### Specific Information

All open lockers include adjustable height shelves in quantities indicated above. Shelves are factory installed. See Specification Information for shelf positions and clearances.

Lockers are designed to align with underside of Dividends Horizon panel top cap.

Lockers include (4) adjustable leveling glides.

Above listed lockers include a finished steel top. Lockers may be specified without a steel top for use with an individual or common laminate top, specified separately, to specify locker without top, substitute top option character with an "N" and deduct $40 list (Example: VLG421224OSSN).

Dimensions listed under ‘w’, ‘h’, ‘d’ are actual to the nearest 1/16.

50” and 57” high lockers, 15”, 18” and 24” deep (nominal) require ganging or counterweight for stability. See Locker Stability Requirements for details.

All lockers 42” and 36” high may be used freestanding.

All lockers 30” deep may be used freestanding.

  - Full Finish, Bright White
- **(B)**
  - Lock finish, Black

### Specific Information

All lockers 36" high and taller with hinged door include factory installed, dual-prong coat hook and one adjustable shelf installed in lowest shelf position. See Specification Information for additional shelf positions.

Above listed pattern numbers include standard cylinder lock. For additional lock options, substitute the final “L” of pattern number with:
- N = Non-Locking, deduct $40
- D = Digital Keypad lock, add $60
- R = RFID lock, add $60

Example (VLG501215FDLSSL):
- Programming and Manager Key(s) are required for D or R lock types, specified separately. See Digital Keypad and RFID lock specifications for details.

Lockers with full door are available with soft close hinges. Specify Q hinge type, add $75 list.

### Application Notes

Above listed lockers include a finished steel top. Lockers may be specified without a steel top for use with an individual or common laminate top, specified separately, to specify locker without top, substitute top option character with an “N” and deduct $40 list (Example: VLG421224FDLSSL).

When specified non-locking, lock drilling is omitted from door front.

Dimensions listed under ‘w’, ‘h’, ‘d’ are actual to the nearest 1/6. 50" and 57" high lockers, 15", 18" and 24" deep (nominal) require ganging or counterweight for stability. See Locker Stability Requirements for details.

All lockers 42" and 36" high may be used freestanding.

All lockers 30" deep may be used freestanding.

**Specific Information**

All lockers 36” high and taller with hinged door include factory installed, dual-prong coat hook and one adjustable shelf installed in lowest shelf position. See Specification Information for additional shelf positions.

Above listed pattern numbers include standard cylinder lock. For additional lock options, substitute the final “L” of pattern number with:

- N = Non-Locking, deduct $15
- D = Digital Keypad lock, add $560
- R = RFID lock, add $605

Example (VLG501224FDLSSLN).

Programming and Manager Key(s) are required for D or R lock types, specified separately. See Digital Keypad and RFID lock specifications for details.

Above listed lockers include a finished steel top. Lockers may be specified without a steel top for use with an individual or common laminate top, specified separately, to specify locker without top, substitute top option character with an “N” and deduct $40 list (Example: VLG421224FDLSSLN).

When specified non-locking, lock drilling is omitted from door front.

Dimensions listed under ‘w’, ‘h’, ‘d’ are actual to the nearest 1/64”.

50” and 57” high lockers, 15”, 18” and 24” deep (nominal) require ganging or counterweight for stability. See Locker Stability Requirements for details.

All lockers 42” and 36” high may be used freestanding.

All lockers 30” deep may be used freestanding.

Specific Information

All lockers 36” high and taller with hinged door include factory installed, dual-prong coat hook and one adjustable shelf installed in lowest shelf position. See Specification Information for additional shelf positions.

Above listed pattern numbers include standard cylinder lock. For additional lock options, substitute the final “L” of pattern number with:

N = Non-Locking, deduct $15
D = Digital Keypad lock, add $560
R = RFID lock, add $605

Example (VLG501524FDLSSL).

Programming and Manager Key(s) are required for D or R lock types, specified separately. See Digital Keypad and RFID lock specifications for details.

Lockers with full door are available with soft close hinges. Specify Q hinge type, add $75 list.

Application Notes

Above listed lockers include a finished steel top. Lockers may be specified without a steel top for use with an individual or common laminate top, specified separately, to specify locker without top, substitute top option character with an “N” and deduct $40 list (Example: VLG421224FDLSSL).

When specified non-locking, lock drilling is omitted from door front.

Dimensions listed under ‘w’, ‘h’, ‘d’ are actual to the nearest 1/16”.

50” and 57” high lockers, 15”, 18”, and 24” deep (nominal) require ganging or counterweight for stability. See Locker Stability Requirements for details.

All lockers 42” high may be used freestanding.

All lockers 30” deep may be used freestanding.

**Order Information**

1. **Base Pattern Number**
2. **Paint Finish**

See Finish Options page

**Order Code**

Example: VLF421224OSS

**Specific Information**

**Foot kits not included, must be specified separately and installed on site.**

All open lockers include adjustable bright shelves in quantities indicated above. Shelves are factory installed. See Specification Information for shelf positions and clearances.

Lockers for use with feet are designed to align with underside of Dividends Horizon panel top cap with foot kits installed.

Lockers for feet do not include leveling glides.

**Application Notes**

Above listed lockers include a finished steel top. Lockers may be specified without a steel top for use with an individual or common laminate top, specified separately. To specify locker without top, substitute top option character with an “N” and deduct $40 list (Example: VLG421224OSN).

Dimensions listed under ‘w’, ‘h’, ‘d’ are actual to the nearest 1/6".

50" and 57" high lockers, 15", 18" and 24" deep (nominal) require ganging or counterweight for stability. See Locker Stability Requirements for details.

All lockers 42" and 36" high may be used freestanding.

All lockers 30" deep may be used freestanding.

1. **Base Pattern Number**
2. **Lock Option**
   - D = Digital Keypad Lock
   - L = Cylinder Lock
   - N = Non-locking
   - R = RFID Lock
3. **Paint Finish**
   - See Finish Options page
4. **Pull Style**
   - T = 5" Finger pull
5. **Pull Finish**
   - See Finish Options page
6. **Lock Finish**

---

### Order Code

Example: VLF421224FDLSSL

#### Quoin, Locker for Feet

- 42 = 42" High
- 12 = 12" Wide
- 24 = 24" Deep
- FDL = Full Door Left
- S = Steel Top
- L = Steel Door

#### Paint Finish, Bright White

- (118) = (118) = Paint Finish, Bright White

#### Standard Hinge

- (S) = Standard Hinge

#### Pull Style, 5" Finger pull

- (T) = Pull Style, 5" Finger pull

#### Pull Finish, Bright White

- (118) = Pull Finish, Bright White

#### Lock finish, Black

- (B) = Lock finish, Black

---

### Specific Information

Foot kits not included, must be specified separately and installed on site.

- All lockers 36" high and taller with hinged door include factory installed, dual-prong coat hook and one adjustable shelf installed in lowest shelf position. See Specification Information for additional shelf positions.

- Above listed pattern numbers include standard cylinder lock. For additional lock options, substitute the final "L" of pattern number with:
  - N = Non-Locking, deduct $15
  - D = Digital keypad lock, add $50
  - R = RFID lock, add $605

- Example (VLF501224FDLSSL)

- Lockers for feet do not include leveling glides.

- Lockers for use with feet are designed to align with underside of Dividends Horizon panel top cap with foot kits installed.

- Lockers with full door are available with soft close hinges. Specify Q hinge type, add $75 list.

---

### Application Notes

- Above listed lockers include a finished steel top. Lockers may be specified without a steel top for use with an individual or common laminate top, specified separately. To specify locker without top, substitute lock option character with an “N” and deduct $40 list price (Example: VLG421224FDLNSL).

- When specified non-locking, lock drilling is omitted from door front.

- Dimensions listed under ‘w’, ‘h’, ‘d’ are actual to the nearest 1/6".

- 50" and 57" high lockers, 15", 10" and 24" deep (nominal) require ganging or counterweight for stability. See Locker Stability Requirements for details.

- All lockers 42" and 36" high may be used freestanding.

- All lockers 30" deep may be used freestanding.

**Specific Information**

Ganging kits (VARQ01, VARQ10 pattern numbers) are required for use with VLTC or VLB common tops, specified separately.

Tops are designed to span a maximum of (8) lockers of uniformed width side-by-side, flush with no gap.

VLTB back-to-back tops are designed to be used over lockers of the same depth, positioned back-to-back flush with no gap.

**Application Notes**

For use with Quoin lockers with “no top” option only.

Hardware to attach laminate tops is included with each “no top” Quoin locker.

Common locker top design features a slight overhang on all 4 sides.

Some locker bank applications may require counterweight for stability. See Locker Stability Requirements for details. Counterweights must be specified separately if required.

2. Laminate Finish
3. Edge band Finish

**Order Code**

- **Example:** VLTCS3618L
- **VL:** Quoin, Locker
- **C:** Common top, Single Run
- **36:** 36" Wide
- **18:** 18 3/4" Deep
- **L:** Laminate
- **118:** Laminate finish, Bright White
- **118:** Edgeband finish, Bright White

**Specific Information**

- Ganging kits (VARQ01, VARQ10 pattern numbers) are required for use with VLTG or VLJT common tops, specified separately.
- Tops are designed to span a maximum of 8 lockers of uniformed width side-by-side, flush with no gap.
- VLTB back-to-back tops are designed to be used over lockers of the same depth, positioned back-to-back flush with no gap.

**Application Notes**

- For use with Quoin lockers with “no top” option only.
- Hardware to attach laminate tops is included with each “no top” Quoin locker.
- Common locker top design features a slight overhang on all 4 sides.
- Some locker bank applications may require counterweight for stability. See Locker Stability Requirements for details. Counterweights must be specified separately if required.

3. **Edge Band Finish**

**Order Code**

Example: VLT3618L

**Specific Information**

- Ganging kits (VARQ01, VARQ10 pattern numbers) are required for use with VLTC or VLTB common tops, specified separately.
- Tops are designed to span a maximum of (8) lockers of uniformed width side-by-side, flush with no gap.
- VLTB back-to-back tops are designed to be used over lockers of the same depth, positioned back-to-back flush with no gap.

**Application Notes**

- For use with Quoin lockers with “no top” option only.
- Hardware to attach laminate tops is included with each “no top” Quoin locker.
- Common locker top design features a slight overhang on all 4 sides.
- Some locker bank applications may require counterweight for stability. See Locker Stability Requirements for details. Counterweights must be specified separately if required.

### Specification Information

- **Lockers with full door include (1) adjustable shelf, standard. Open lockers without door include 1 to 3 shelves depending on locker height. Above shelf kits may be specified when additional shelves are required.**
- **Locker shelves may only be installed in pre-determined locations. See Specification Information for shelf position details.**
- **Worksurface mount bracket application requires visible bracket mounted within locker. Specifying bracket in finish to match locker case is recommended.**

### Application Notes

- **Worksurface mount bracket application requires locker and worksurface to be of uniformed depth.**
- **Worksurface mount bracket application satisfies locker stability requirements.**
- **Worksurface mount bracket requires field drilling through locker side panel.**

#### Specific Information

- Quoin lockers may require additional stability when used in freestanding applications. Stability may be provided by various ganging methods or with counterweight kit.
- See published Specification Information for stability guidelines.
- Counterweight kits are specified separately and field installed.
- Counterweight kits include mounting hardware and brackets to install the counterweight plates.
- Locker counterweights are installed beneath the unit.
- Locker counterweight kits are intended for Quoin lockers and may not be used for Quoin credenzas.
Digital Keypad and RFID Lock Specifications

To convert Digital Keypad lock to Assigned Use mode, follow the sequence listed within the appropriate User Guide.

### Specifications and Features

- Brushed Nickel finish
- Vertical body orientation
- Recessed-mount, factory installed
- All metal lock housing
- Automatic (motorized) ½” dead bolt
- Powered by 4 premium AA batteries (included)
- Duracell CopperTop or Energizer brand batteries required. Rechargeable batteries are not recommended.
- Shared Use Mode is default, locks may be converted to Assigned Use Mode
- Tamper guard
- Audible and visible usage indicators
- Lock can be bypassed with a Manager Key if code is forgotten, RFID credential is lost or in case of battery failure.
- LED usage indicator prompts the lock’s LED to flash when the unit is locked, indicating the locker is in use. The default setting for this feature is ON, however the LED usage indicator can be turned off for Digital Keypad locks at any time by following the procedure listed in the user guide.
- Typical battery life is 3-5 years (based on length of usage). Turning the LED usage indicator feature off extends battery life.

### Digital Keypad Lock

- Operated with a user-selected 4-digit code

To specify a locker or pedestal with a Digital Keypad lock, select “D” in the pattern number for the lock option. Example: VLG421224FDLSS(D) - Locker with full door 42H x 12W x 24D, steel door, steel top, Digital Keypad lock. When specified, Digital Keypad lock is factory installed. Instructions for programming are included.

### RFID Lock

- Operated with a compatible RFID Card or employee badge.
- Knoll RFID locks operate on 13.56 MHz frequency with both iClass (ISO 15693) and Mifare (ISO 14443).

To specify a locker or pedestal with a RFID lock, select “R” in the pattern number for the lock option. Example VLG421224FDLSS(R) - Locker with full door 42H x 12W x 24D, steel door, steel top, RFID lock. When specified, RFID lock is factory installed. Instructions for programming are included.

### User Key

- User Keys allow ADA access to Digital Keypad or RFID locks for users unable to operate the keypad or RFID reader.
- User Keys are used by touching key to prongs of the lock to lock and unlock the unit.

### Manager Key

- Manager Key is used to bypass a locked unit.
- Manager Keys are registered to locks using the Programming Key.
- Up to (6) Manager Keys may be registered to each lock. This allows the client to design a lock system that suits their management access requirements.
- Additional Manager Key(s) may be registered to a lock without erasing previously registered Manager Keys.
- Provides external power in case of battery failure.

### Programming Key

- The Programming Key is a communication device used to initialize locks out of factory default mode and to register Manager Keys to the locks. It is used to transfer, but not store information.
- Only one Programming Key should be specified per installation site. Multiple Programming Keys cannot be used in conjunction with each other.
- Add-on or phased orders for Digital Keypad or RFID locks should be initialized and programmed using the original Programming Key.
- Used to turn on/off Digital Keypad lock features such as LED usage indicator and auto unlock.
- Provides external power in case of battery failure.
- If a programming key is lost, a Replacement Programming Key may be ordered but the original Programming Key will become obsolete.

---

### Application

Quoin lockers with Digital Keypad or RFID lock options support applications where units are shared by multiple users providing a secure storage alternative to a standard key lock. This eliminates the use of a standard key which can easily be misplaced or taken offsite.

The Digital Keypad lock option requires input of a user-selected 4-digit code while the RFID lock operates when the user presents a compatible RFID card to the lock. To operate, the user must press the C or Key button depending on lock type, enter code or present RFID card, then press the Key button again to lock or unlock the unit.

If an RFID credential is lost or a code is forgotten, a Manager Key (specified separately) can be used to bypass the lost or forgotten credential and unlock the unit. In situations where a user is unable to operate the keypad or RFID reader, a User Key (specified separately) can be utilized to override code input or RFID requirement, allowing the lock to comply with ADA requirements.

Each installation site with Digital Keypad or RFID lock requires one Programming Key and at least one Manager Key, specified separately.

All Digital Keypad and RFID locks are shipped program-ready for Shared Use mode. Initial setup is required on-site prior to use. See Keyless Locking Guide for procedure details.

To operate in Shared Use mode, the user will select an unused unit, place their items within and follow the locking procedure. Once their items are retrieved, the lock will remain unlocked until it is locked by the next user. Locks may be converted to Assigned Use mode in which the lock remains locked until accessed by assigned user(s).

To convert an RFID lock to Assigned Use mode, an Assigned Use Reset Key must be used. Reset Key expires 6 weeks from date of order.

---

### Technical Details

- **Digital Keypad lock**
  - Quoin lockers with Digital Keypad lock options support applications where units are shared by multiple users providing a secure storage alternative to a standard key lock. This eliminates the use of a standard key which can easily be misplaced or taken offsite.
  - Each installation site with Digital Keypad lock requires one Programming Key and at least one Manager Key, specified separately.
  - All Digital Keypad locks are shipped program-ready for Shared Use mode. Initial setup is required on-site prior to use. See Keyless Locking Guide for procedure details.
  - To operate in Shared Use mode, the user will select an unused unit, place their items within and follow the locking procedure. Once their items are retrieved, the lock will remain unlocked until it is locked by the next user. Locks may be converted to Assigned Use mode in which the lock remains locked until accessed by assigned user(s).
  - To convert an RFID lock to Assigned Use mode, an Assigned Use Reset Key must be used. Reset Key expires 6 weeks from date of order.

- **RFID lock**
  - Quoin lockers with Digital Keypad or RFID lock options support applications where units are shared by multiple users providing a secure storage alternative to a standard key lock. This eliminates the use of a standard key which can easily be misplaced or taken offsite.
  - Each installation site with Digital Keypad lock requires one Programming Key and at least one Manager Key, specified separately.
  - All Digital Keypad locks are shipped program-ready for Shared Use mode. Initial setup is required on-site prior to use. See Keyless Locking Guide for procedure details.
  - To operate in Shared Use mode, the user will select an unused unit, place their items within and follow the locking procedure. Locks may be converted to Assigned Use mode in which the lock remains locked until accessed by assigned user(s).
  - To convert an RFID lock to Assigned Use mode, an Assigned Use Reset Key must be used. Reset Key expires 6 weeks from date of order.
Calculating the total number of manager keys

The Digital Keypad and RFID lock systems are flexible, allowing the client to choose the number of manager keys required. Solutions may range from simple to complex, depending on client needs. It may be helpful to create a chart to organize and calculate the number of manager keys required, similar to the examples shown below.

Considerations:

- If units will be located on different floors, consider ordering keys that can be registered to bypass all locks as a floor-specific “master key”.
- If units will be located within different zones or areas, consider ordering keys that can be registered to locks within specific zones on each floor.
- If the client would like to create a “master key”, one or more manager keys can be registered to all locks to act as a “master key”.
- Only one Programming Key is required per site regardless of total number of locks or Manager Keys.

Manager key count examples

Sample project is a three story space, each floor is divided into three zones containing a varied number of lockers. Example 1 is a simple lock system showing two manager keys registered to all locks, regardless of floor or zone. Example 2 is a more complex solution showing manager keys registered to locks in a layered approach. At the lowest management level, keys are registered specific to zone, followed by keys that are floor-specific and at the top level, keys are registered to all locks to be used as overall master keys.

The manager key counts shown in the examples are sample numbers; the ratio of manager keys to the number of locks is decided by the client.

Example 1:
Two (2) manager keys registered to all locks throughout the space. No manager keys registered specific to floor or zone.

Example 2:
- Manager keys registered to all locks within each specific zone on each floor. Number of manager keys is decided by client. Once registered, these manager keys may be used to bypass any lock within that zone on that floor, but will not be able to bypass any of the other units.
- One (1) manager key for each floor registered to all locks in all zones on that floor, used as first, second and third floor “master keys”.
- Two (2) manager keys registered to all locks, in all zones on all floors used as “overall master keys”.

Wall Mounting Suggestions
The following information is provided only as a guide, and represents minimum recommendations only. Knoll does not accept responsibility for the attachment of any Knoll product to a Customer’s site wall. Wall specification/construction is the responsibility of the Customer and its structural engineer/architect. Failure to properly attach Knoll products to adequate wall structures can lead to property damage and/or personal injury.

You should consult your own structural engineers and/or architects and must not rely on the information provided herein.

It is the responsibility of the Customer and its structural engineers/architects to verify that the permanent structural walls (studs, blocks, solid masonry, etc.) on which the Knoll products are intended to be mounted are designed appropriately to support the product weight, PLUS 3 lbs. per linear inch for each useable shelf length.

**NOTE: A cabinet’s top is considered a “useable shelf” and MUST be included in the calculation of the total load for an overhead cabinet.**

It is the responsibility of the Customer and its structural engineer/architects to specify the fasteners and method for attaching the Knoll supplied wall mounting cleat, bracket, frame, etc. to the supporting wall and to confirm that the installers have adhered to these specifications. For all local building standards and codes, and additional requirements (including, but not limited to, seismic conditions) the Customer should always consult local code agencies.

Selling Policy

Terms & Conditions of Sales

This Selling Policy supercedes all previous selling policies. Prices, discounts and product offerings are subject to change without notice.

Sales by Knoll, Inc., or Knoll North America Corp. (“Seller”) of Knoll Product Line(s) (collectively, “Products”) within the United States and Canada are made only on the terms which are contained in this Selling Policy. Seller hereby gives notice of its objection to any different or additional terms and conditions. This sale is expressly conditional upon Purchaser’s assent to the terms and conditions set forth below. Additional terms and conditions may apply to KnollStudio and KnollTextiles orders. These terms and conditions may be modified or supplemented only by a written document signed by an authorized representative of Seller. These terms and conditions supercede any prior and/or contemporaneous agreements or correspondence between Purchaser and Seller. Written quotations expire thirty (30) days from the date of issuance and can be withdrawn by written notice anytime during that period. Where Purchaser and Seller have entered into the Knoll Electronic Terms and Conditions, all orders, acknowledgements, invoices and other business communications placed or transmitted in accordance with the Knoll Electronic Terms and Conditions shall be deemed to be in writing and signed and shall be valid for all purposes as if they were originated and maintained in documentary form.

Ordering Information

All orders must be in writing. The product pattern number(s) contained on Seller’s order acknowledgement shall be the product pattern number(s) which Seller agrees to furnish. The price of all Products shall be as quoted by Seller and shall be subject to change without notice. List prices are subject to change without notice. List prices are those prices in effect on the date of receipt of a complete purchase order unless shipment is requested more than ninety (90) days after order entry in which case prices in effect on the date of shipment apply. List prices include specified freight costs. Unless specified in writing by Seller, no other taxes are included in Seller’s list prices.

Pricing Policies

List prices are subject to change without notice. List prices shall be those prices in effect on the date of receipt of a complete purchase order unless shipment is requested more than ninety (90) days after order entry in which case prices in effect on the date of shipment apply. List prices include specified freight costs. Unless specified in writing by Seller, no other taxes are included in Seller’s list prices.

Changes and Cancellation

Purchase orders may not be changed or cancelled, in whole or in part, without prior written consent of Seller. Changes may effect delivery dates. Expenses incurred because of changes shall be charged to Purchaser. In the event of cancellations, Purchaser will be liable for reasonable cancellation charges established by Seller. Orders for special Product, orders including “COM” (hereinafter defined) material and orders pursuant to expedited delivery programs, may not be cancelled.

Freight Prepaid

Freight is prepaid and included in the price of all Products, except KnollTextiles, within the 48 contiguous United States for orders placed with Knoll, Inc. and within Canada, excluding the Yukon, Northwest Territories, Nunavut and Newfoundland for orders placed with Knoll North America Corp. Packing is tested for rigorous motion and transportation but is not guaranteed to protect furniture from all conditions. If special packaging is required for any reason, please consult with your sales representative or dealer. Seller shall select the method of shipment and routing. Freight for all KnollTextiles orders is prepaid and added to the invoice.

Delivery/Freight Charges

For shipments outside the contiguous United States and Canada, Purchaser is responsible for the cost of freight from point of embarkation, including any handling and transportation charges incidental to loading at the point of departure and unloading at the final destination. Conditions beyond the control of Seller, including weather, available facilities and traffic conditions, may affect exact time of delivery. Seller shall not be responsible for specific carrier delivery date or time unless it has made a specific delivery commitment, in writing. Nonstandard methods of shipment and/or additional services are available upon request. Purchaser will be billed for the differential cost of any special services in excess of standard surface carrier freight costs. Premium charges, at Purchaser’s request, will be added for airfreight, exclusive use of vehicle and extra, export or special packaging. Accessorial charges will be added for inside delivery, extra labor, reconsignment and redelivery.

Claims

All shipments for Knoll Products within the contiguous United States and Canada are F.O.B. Origin. All risk of loss passes to Purchaser at time of delivery to Purchaser. All claims relating to Products and any apparent defects, errors or shortages. For all claims relating to Product damaged in transit or for any other claims relating to or arising out of the transportation of the Product, Purchaser must seek recovery from the carrier and Seller has no liability to Purchaser for such claims. Seller may, upon request, assist Purchaser with filing of such claims with the carrier, but Seller will not be liable for any of these transportation related claims.

Seller’s Security Interest

Until Seller receives the full payment for the Product, Seller shall have a security interest in the Product. Purchaser agrees to perform all acts, including but not limited to the execution and filing of documentation, which may be necessary to perfect and assure the security interest of Seller.

Returns

The return of Products without a written authorization by Seller shall not be accepted. To receive authorization for Product return, please call Customer Service. Nonstandard methods of shipment and/or additional services are available upon request. Purchaser will be billed for the differential cost of any special services in excess of standard surface carrier freight costs. Premium charges, at Purchaser’s request, will be added for airfreight, exclusive use of vehicle and extra, export or special packaging. Accessorial charges will be added for inside delivery, extra labor, reconsignment and redelivery.

Held Orders/Storage

If Purchaser requests that an order be held or delayed, prices and terms and conditions in effect at the time of shipment shall apply. If Purchaser requests a delay after the time when Seller can defer production, Purchaser will be invoiced for the Product, payable in accordance with standard terms, when the order is ready for shipment. Seller may transfer the Product to storage, in which case all expenses incurred in connection with storage, including demurrage, preparation for storage, storage charges and handling shall be payable by Purchaser upon submission of invoices by Seller. Risk of loss to the Product shall pass to the Purchaser upon delivery of the Product into storage.

March 15, 2020
Customer's Own Material

A Purchaser who requests a fabric or other surface material not standard to Seller's line of Products ("COM") must submit samples of the requested material to Seller prior to entry of a purchase order. Seller shall determine if the material is suitable to its manufacturing processes and meets any requirements of Underwriters Laboratories. If the COM is acceptable, Seller will then establish a price for using the COM or the Product in question. For a description of the procedures for submitting samples and testing, contact customer resources or your sales representative. Seller shall have no responsibility for the appearance, condition, performance, durability, colorfastness or any other physical attribute of the COM. Purchaser shall indemnify and hold Seller harmless for any damages, injuries or losses arising out of or related to the use of the COM on the Product.

Delay/Force Majeure

Seller shall not be liable for failure to perform or for delay in performance due to fire, flood, strike or other labor difficulty, act of God, act of war or terrorism, act of delay/force majeure.

Warranty

Seller warrants to the original Purchaser only that the Products Seller manufactures and sells to Purchaser are free of defects in workmanship and materials, during the applicable warranty period set forth below.

Warranty period set forth below is for 24-hour, 7 days a week, multi shift use (includes parts and labor to repair).

Should any failure to conform with this limited warranty appear to a Product listed below during the applicable warranty period from the date of shipment, Seller shall, upon prompt written notice, repair or replace, at its option and costs, the affected part or parts.

Product and Period of Warranty

Lifetime: Antenna Workspaces, AutoSteda, Calibre, Circon Open Table, Currents, Dividends Horizon, Morrison, Refl Profiles laminate, Rockwell Unscripted.

Series 2 Storage, Template, Quoiz and other non-wood components (except cascade edge worksurfaces, operational parts, controls, electrical, Lighting, Series 2 Veneer Front Storage, digital locks, upholstery, textiles and leathers, special or custom products, see below)

12 Years: Chadwick, Generation by Knoll, k. task, Life, Moment, MultiGeneration by Knoll, Ollio, ReGeneration by Knoll, Remix, and Toboggen seating (except seating upholstery, textiles, leathers and finishes, see below).

10 Years: Anchor Storage except digital locks, Antenna Workspaces, AutoSteda, Circon Open Table, Dividends Horizon, Dividends Horizon Satellite Surfaces, Refl Profiles, Rockwell Unscripted, Quoiz wood components, Template wood components, Series 2 Veneer Front Storage, cascade edge worksurfaces, Wood Casegoods (The Graham Collection) (except wood casegoods upholstered surfaces, see below), Reuter overheads, Reuter vertical storage, KnollExtra Sapper Monitor Arm Collection, Sapper XYZ Monitor Arm Series, Adjustable keyboard mechanisms and platforms, Communication Boards (except fabric board textiles, cork and FilzFelt, see below), Smokador collection (except leathers, see below), Orchestra Universal Systems Accessories, k. lounge structural components, KnollStudio Pixel and Propellor, Tone bases and Lcserena.

5 Years: Operational parts, controls, electrical, Lighting (except light ballasts, bulbs and power supply, see below), special or custom product, wood veneer products and plywood, Currents hand crank, KnollStudio, Rockwell Unscripted wire bases, Spark Series seating structural elements, structural elements of all KnollStudio outdoor products including all Richard Schultz designed products, KnollExtra CIP holders and all universal storage drawers and Power Collection, k. bench (except changes in finish, see below) and k. stand bases (except changes in finish, see below).

3 Years: Rockwell Unscripted upholstery (except textiles and leathers), Office Seating upholstery, textiles, leathers and finishes. Fabric boards textiles and Smokador Collection leathers, KnollExtra Pop Up Screens.

2 Years: Anchor Storage digital locks, Quoiz digital locks, all other KnollExtra product and KnollTextiles Ultrasuede.

This warranty does not apply to:

• Damage caused by a carrier other than the Seller.
• Normal wear and tear or acts or omissions of parties other than Seller (including user modification, improper use or installation of Products).
• COM or other third party materials applied to Products.
• Products not installed by or under the auspices of a Knoll Dealer.
• Dramatic temperature variations or exposure to unusual conditions.
• Changes in surface finishes, including colorfastness due to aging or exposure to light.
• Except as specifically noted above, textiles and upholstery supplied by KnollTextiles and Spinneybeck FilzFelt (consult current price lists for applicable warranties).

Natural variations occurring in wood, marble, and leather shall not be considered defects, and the Seller does not guarantee the colorfastness or matching of the colors, grains or textures, or surface hardness of such materials. The Seller also does not guarantee the colorfastness of fiberglass panel surfaces.

THE EXPRESS WARRANTIES CONTAINED HEREIN ARE IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTIES OF MERCHANTABILITY AND FITNESS FOR PARTICULAR PURPOSE AND ALL OTHER WARRANTIES ARISING FROM COURSE OF DEALING OR USAGE OF TRADE.

The remedies provided above are the Purchaser's sole remedies for any failure of Seller to comply with its obligations regarding the workmanship of its Products. This remedy is not exhaustive in manner and for the period of time provided shall constitute complete fulfillment of all liabilities of Seller, with respect to or arising out of the Product furnished hereunder.

Compliance with Law

PURCHASER IS SOLELY RESPONSIBLE FOR COMPLIANCE WITH ALL APPLICABLE FEDERAL, STATE AND LOCAL LAWS, ORDINANCES, REGULATIONS, RULES AND STANDARDS RELATING TO THE INSTALLATION, MAINTENANCE, USE AND OPERATION OF THE PRODUCTS.

Subject to the following provisions, Seller shall, at its own expense, defend or, at its option, settle any claim, suit or proceeding brought against the Purchaser, and/or its vendees, mediate and immediate, so far as based on an allegation that any Product or any part thereof furnished hereunder constitutes a direct or a contributory infringement of any claim of any patent of the United States or Canada. This obligation shall be effective only if Purchaser shall have made all payments then due hereunder and if Seller is notified promptly in writing and given authority, information and assistance for the defense of said claim, suit or proceeding. Seller shall pay all damages and costs awarded in such suit or proceedings so defended.

The foregoing indemnity does not apply to the following:

• Products supplied according to a design other than that of Seller, and which is required by the Purchaser.
• Combination of the Product with another product not furnished hereunder unless Seller is a contributory infringer.
• Any settlements of a suit or proceeding made without Seller's written consent.

Ultimate Liability

SELLER, ITS CONTRACTORS, AUTHORIZED DEALERS AND SUBCONTRACTORS OR SUPPLIERS OF ANY TIER SHALL NOT BE LIABLE TO PURCHASER FOR ANY SPECIAL, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING FROM A BREACH OF THIS AGREEMENT.

Purchaser's remedies set forth herein are exclusive and the liability of Seller with respect to the breach of this agreement or any contract entered into between the parties pursuant hereto shall not exceed the price of the Product or part on which such liability is based.
KnollKey Lock Program

General Information

Following is the KnollKey lock policy, applicable to all products.

Knoll furniture can be ordered keyed-alike or random keyed. Key-alike and random keying instructions cannot be mixed on any single order. Only one of the two instructions can be used on an individual order. When an order is submitted with mixed (key-alike and random) instructions, Knoll will release the order as key-alike only and lock cores will have to be specified separately.

Key-alike

For the convenience of the user, furniture may be keyed alike at no charge. Write “Key-alike” in the description of your purchase order for any pedestal, overhead, file or other item you wish to have keyed alike.

Using the key-alike instructions, order cores and keys as line items on your purchase order. Do NOT submit a key-alike form. The Knoll East Greenville Lock Center will select key numbers from the standard range of K 001 - K 250. Key numbers will not be repeated unless over 250 sets are ordered. Lock cores keyed-alike will ship separately from the product, ready for field installation.

There is no charge for key-alike orders if placed with the furniture order. IF THE KEY-ALIKE ORDER IS NOT PLACED AT LEAST TWO WEEKS PRIOR TO THE FURNITURE SHIP DATE, A $50 HANDLING CHARGE AND AIR FREIGHT CHARGES WILL APPLY.

If product is ordered and shipped random-keyed, additional lock cores for key-alike are billable.

Random-Keying

To specify product keyed-random, write “key-random” in the product description. Random-keyed product is shipped with the lock core factory installed. A shrouded key is included. Random means no effort has been made to match key numbers, or to make them different.

Keys

A Knoll shrouded key is shipped with every lock core. 250 Key numbers are available. For numbers above 250, contact Custom Product Development. Additional keys and key blanks are available. See service parts for more information.

Master Keying

Knoll locks can be controlled by means of a master key. There is no additional per-lock charge for master keying. A letter of approval from the client must accompany orders for master keys.

Installing Lock Cores

Lock cores can be installed or removed in the field by using a change key. Cores must be in the unlocked position to be removed. See service parts for change key pattern number and pricing.

Lock Distribution

All orders for key-alike lock cores/keys are packaged and shipped from the East Greenville Lock Center, regardless of where the pedestals, overhead, or other units are produced. Random keyed product will have cores factory-installed.

How to Specify Key-Alike

Following is an example of how to specify key-alike for a cluster of 10 workstations.

Step 1 - Using the project floorplan, count the number of locks in each workstation.

Step 2 - Count the number of workstations with the same quantity of locks. Group together the workstations with a like number of locks.

Step 3 - For the first group (5 sets of 2 locks), enter the number of workstations in the quantity column.

Step 4 - Then enter the pattern number “KSPEC_ _ _” and add a suffix for the number of locks for that group (i.e., for 2 locks per station, add the suffix “2”). Up to 30 lock cores are available in a set (i.e., KSPEC 30).

Step 5 - Repeat for other groups.

Your Key instructions are complete. Knoll will select key numbers for each set from 250 available numbers. Additional key numbers are available through Custom Product Development. For additions to existing installations, specify desired key numbers in the description.

General Ordering Information

The Products
This guide encompasses all standard products for this product group.

Sizes
Dimensions listed in this guide are indicated as:
H = height
W = width
D = depth
Dia. = diameter
Rad. = radius

Pricing
All prices shown are list.

How to Order
Select pattern numbers and quantities required for your complete installation. Product questions can be addressed in the specific sections of this guide or by contacting your sales representative or customer resource representative at 1-800-343-5665.

Next, select options (if required), along with colors and finishes appropriate to each product. Reference the Finishes and Fabrics pages for color designations.

On large installations, an item’s “designated area” can be specified to assist in product organization and handling.

To expedite complete / correct entry of your order, be certain all pattern numbers, quantities, colors and area identifications are completely specified. Also, include complete purchase order numbers, bill-to and ship-to addresses, a contact name and specific factory shipping dates required.

Mail all orders to:
Knoll, Inc.
1235 Water Street
P.O. Box 157
East Greenville, PA 18041
Attention: Order Entry

Once your order is entered at Knoll, an acknowledgment will be mailed to you. You will be advised of your scheduled shipping date within five days of the original acknowledgment. If it is necessary to revise your order, please contact your customer resource representative.

Sustainability Statement

Sustainable design is a key component of Knoll’s environmental focus. Our commitment to social responsibility and a healthy environment has prompted us to further articulate our longstanding environmental programs and, with encouragement and support from our colleagues in the industry, we have re-energized our focus on such “green” initiatives as life cycle analysis and LEED™ certification. Knoll is proud to have contributed to projects that have received LEED certification from the U.S. Green Building Council.

For the latest information on Knoll products that help our customers achieve LEED certification, log on to knoll.com, click on “About Knoll” and then “Environmental Focus.”
