Power and Connectivity

JD Table
Power and Connectivity

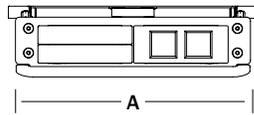

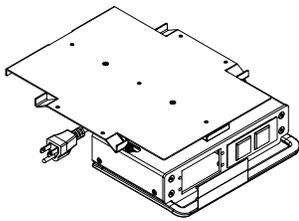

JD tables offer two power box options, one fixed and one slide-out, that mount flush with the surface of the table to deliver convenient access to power with a minimal footprint. Both are available as cord set or hardwire.

All JD tables and power boxes come with pre-drilled holes to facilitate installation, as well as with built-in wire managers on the aprons and bases. Wires are handled vertically through bases and horizontally through aprons.

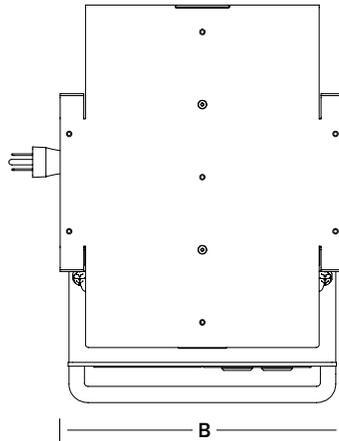

STATEMENT OF LINE

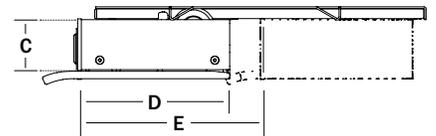

Slide-Out Box

Front View
A 8.75"

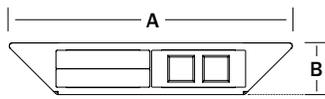

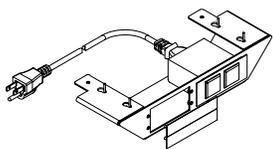

Top View
B 9.25"

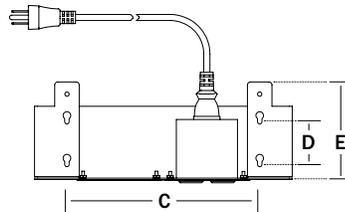

Side View
