Government of Canada
GCworkplace | Fit-Up Standards

GCworkplace is a term developed to describe the new way of working across the Government of Canada. It encompasses four elements: space, people, technology and greening. All these elements must work together to redefine the work experience. GCworkplace is different from Workplace 2.0 and previous planning strategies in that it supports a flexible environment made up of a wide variety of different functional settings. All employees are empowered to choose where and how to work based on day-to-day activities, functional requirements and personal preferences.

Fundamental Criteria of GCworkplace:
- Equal Access to Space
- Designed for Activities
- Variety of Workpoints
- Functionally Zoned
- Modular and Adaptive

...to create the best conditions for a culture of innovation within the Public Service by leveraging modern digital tools that will enable us to collaborate government-wide efficiently. We aim to design healthy workplaces that are green and sustainable for the future while putting into place actions that ensure inclusivity and offer flexibility to all our employees.

PSPC vision statement

GCworkplace Design Is Based On Seven Dimensions:

The optimal GCworkplace is

- Flexible
- Green
- Efficient
- Inclusive
- Digital
- Healthy
- Collaborative
r/evolution workplace™ is the Knoll platform that helps customers define their ideal work environment. We work with you to create workspaces that best align with your strategic business goals today, with an eye toward the future.

We have defined five approaches to workplace planning as building blocks with which we help you achieve your goals:

+ Perimeter
+ Core
+ Efficient
+ Adaptive
+ Immersive

Each approach uniquely addresses real estate, technology and employee needs, creating distinct choices in look, feel and functionality. We provide ideas and strategies to improve the effectiveness of each approach.

The Five Planning Approaches in Detail

The following page provides greater detail on the r/evolution workplace planning approaches.

The Changing Nature of Work

The pace and nature of work are changing at an energetic clip. Rapid technology innovations and a competitive economy are driving organizations to seek new ways to innovate and increase speed-to-market. The workforce is also changing. At no other time in history have organizations been so diverse; this has drastically shifted expectations about the ecosystem of the workplace.

These factors are driving a dramatic evolution of the workplace. Organizations are recognizing the workplace as a powerful tool to drive their missions forward. Yet, in this age of instant communication, of breaking down physical barriers and of customizing everything to suit your needs, there are seemingly endless workplace planning considerations that can be difficult to navigate.

Knoll helps you create a modern workplace that supports not only processes but also people, culture and innovation. While these dynamics make planning more complex, they also offer an exciting level of freedom and opportunity for organizations to reimagine what their workplaces can do. Your people and your real estate are your greatest investments. Let us help you create a workplace that inspires your people to do and feel their best.
Work Modes

FOCUS is “heads-down” individual work, which requires concentration and an absence of distraction.

SHARE is short-term interaction, between small numbers of people.

TEAM is group work, among a larger number of people, working toward a specific goal or activity.

SOCIAL activity is the informal behavior that provides personal connection and opportunities to learn and mentor.

Perimeter planning, centered on enclosed individual spaces along the perimeter and large open spaces found at the building core, is ideal for independent and structured work. This creates a linear experience with prescribed circulations paths, providing privacy and generous space for focused work.

Core planning provides abundant access to natural light. Long sight lines are achieved through open spaces around the architectural perimeter while private, enclosed spaces are planned at the building core. Inclusive, approachable and transparent, this structure allows for a balance of focused, shared and team work.

Efficient planning can create energy and effective collaboration in environments where space is at a premium. Few private offices, narrow circulation and compact work settings help maximize space while promoting shared and team work. Privacy is encouraged through small enclaves and accessible refuge areas.

Adaptive planning offers a variety of assigned and unassigned spaces to support diverse work tasks, functions and interactions. Together, these spaces, along with abundant amenities and user-adjustable elements, are interwoven throughout the plan to promote adaptation and social connections.

Immersive planning blurs the lines between work space types—to enhance interaction, invite connected experiences and create a sense of hospitality at every exchange. Comfortable furnishings and fluid boundaries characterize this group-based workplace where the actions of the people themselves define the space. The result: an environment that can transform at a moment’s notice and evolve with use.

Task Chairs (Rotary Office Chairs)

Be true to form.
Innovative in its simplicity, this work chair minimizes materials and components. The straightforward design leverages flexible and durable materials that respond to your movements, providing comfort and ergonomic support throughout the day without interrupting your work flow.
The first chair that lets you sit how you want.

This award-winning office chair offers a new standard of comfort and unrestrained movement. Responding to ergonomic research, which challenges the idea that we only sit in a single forward-facing position, Generation is designed to support the range of postures and workstyles typical of today’s workplace. Generation takes the idea of elastic design—where a product rearranges itself in response to its user—to a new level.

**Task Chairs | Generation by Knoll**

Tuned to perform.

The performance you need – the upholstered comfort you love.

Inspired by the idea of bringing pre-existing elements together to make something entirely new, Remix pairs upholstered comfort with innovative Flex Net Matrix™ technology for active, all day support. Remix delivers unexpected performance in a familiar form. By combining traditional and innovative elements, Remix infuses movement into a traditionally static upholstered chair.

**Task Chairs | Remix**
Task Chairs | Life®

With intuitive adjustments, a slim silhouette and broad color and finish palette, Life sets the standard for ergonomics and innovative design. The advanced control automatically adjusts to the weight of your body, providing personalized and effortless ergonomic support.
High Task Chair (Stool)

Be true to form. Innovative in its simplicity, this work chair minimizes materials and components. The straightforward design leverages flexible and durable materials that respond to your movements, providing comfort and ergonomic support throughout the day without interrupting your work flow.
Side Chairs | Remix®

Tuned to perform.
The perfect complement to Remix Work and High Back chairs, Remix Side offers responsiveness for various work modes while satisfying a traditional aesthetic. It pairs cushioning for immediate comfort with resilient yet pliable flexors to provide an unexpected amount of back flex, collaborative or training areas for the value-seeking customer interested in a tailored look.
Side Chairs | MultiGeneration by Knoll®

A multipurpose chair that lets you sit how you want.

MultiGeneration by Knoll encourages collaboration with a responsive, open design that supports multiple postures and a diversity of people in shared, team and large group environments.

Recognizing that we fidget - from tapping our feet to twirling our pens - to keep us alert and engaged, Formway Design gave MultiGeneration form and function that encourage natural movement, allowing us to focus, interact and communicate effectively.

With Arms & Casters

Side Chairs | Moment™

Streamlined Guest Seating

Taking its cue from the cantilevered form of the classic Tubular Brno chair by Ludwig Mies van der Rohe, Moment is a practical solution for the guest chair that most offices require. Moment complements our diverse portfolio of office seating and furniture with its pure expression of the cantilevered form.
Side Chairs | Newson Aluminum Chair

Marc Newson 2018

Honoring the cantilevered chairs of Ludwig Mies van der Rohe, the Newson Aluminum Chair, 90 years later, is a forward-looking expression that synthesizes simplicity, material and precision, in the Modernist tradition.
Category 1 | Interconnecting Panels and Freestanding Systems

DIVIDENDS HORIZON®

Office Design for the Dynamic Workplace

Dividends Horizon has the versatility to provide thoughtful primary workspaces for focus work and concentration, inspiring Activity Spaces to encourage teamwork and collaboration, and distinctive private office and conference spaces to support organizational structure and large teams. A consistent aesthetic and a robust set of common components and finish options support the wide range of demands of a dynamic and evolving office design.

Rapidly changing technology, the competitive economy and a diverse workforce are driving organizations to reimagine their workplace to compete for talent, increase speed to market and engage their people. Dividends Horizon helps organizations accomplish these goals, balancing concentration and collaboration; structure and innovation; cost containment and attract and retain.

KEY BENEFITS

A Robust and Versatile Workstation Solution

Dividends Horizon provides both strength and versatility in all workplace applications. Well-chosen horizons, diverse floor plans and the right combination of modular and freestanding furniture offer clients and designers the freedom to make the most of their workplace.

Architectural Delineation of Space

Dividends Horizon delivers the right balance of concentration and collaboration. Panels provide a sense of privacy, refuge and organization in primary workspaces, while open weave screens and glass elements delineate space between primary and Activity Spaces without blocking light.
Category 1 | Interconnecting Panels and Freestanding Systems

Cost Efficiency and Reduced Cost of Ownership

As organizations anticipate and address changes in the workplace, cost is a primary consideration. Dividends Horizon is an open plan system designed to evolve, delivering exceptional initial value and continued efficiency to minimize the total cost of ownership.
Category 1 | Interconnecting Panels and Freestanding Systems

ANCHOR™
A total solution for storage in the workplace, Anchor™ creates space to store personal and professional belongings securely, as well as to house group materials.

CALIBRE AND SERIES 2
In today’s office landscape, change is constant and available workspace is slowly disappearing. Knoll filing and storage products — featuring Calibre® and Series 2 lateral files, mobile pedestals and architectural towers in a vast array of sizes, configurations and colors — maximize your organizational options without compromising valuable workspace.
KNOLL SUPPLY ARRANGEMENTS WITH THE GOVERNMENT OF CANADA

Category 2 | Freestanding Height Adjustable Work Surfaces

TONE™

Setting the Tone™ for a Healthy Workplace

Tone Height-Adjustable Tables offer personalized solutions for the workspaces, providing the ultimate in user comfort and adjustability. By accommodating a diversity of work modes, Tone supports a healthier and more productive work environment.

Tone Height-Adjustable Tables enable users to shape their space to support the work at hand. Recent studies suggest that moving throughout the day can have a positive impact on health and well-being. Knoll height-adjustable tables help to create a highly adaptable workspace, reducing discomfort by allowing users the freedom to sit or stand throughout the day.

Advanced Ergonomic Performance

Tone enables users to shift from seated to standing height throughout the day, enhancing wellness and preventing injuries. As part of the Knoll ergonomic toolkit, Tone easily accommodates ergonomic KnollExtra accessories, including monitor arms, keyboard supports and desktop lights, improving physical health while promoting collaboration.

Flexible Planning

With a neutral aesthetic, a slim foot and a range of finish options, Tone integrates seamlessly with Knoll open plan, private office and Activity Spaces furniture. Plan Tone with Knoll systems, Technology Wall or as a stand-alone desk and incorporate accessories including privacy screens, modesty panels, power and data modules and cable management to customize any spaces.

Comprehensive Scope

Tone Height-Adjustable tables are available with 7 base types, including Extended Electric, Electric, Pneumatic, Extended Hand crank, Hand crank, Pin-Set and Fixed, in a range of shapes and sizes to meet a variety of planning needs.

K.™ BENCH

A Straightforward Height-Adjustable Benching System.

k. bench is a height-adjustable benching system, that offers choice and brings exceptional value to the workplace.

k. bench delivers a clean, compact workstation solution with intuitive adjustments. Slim upholstered, laminate or veneer screens offer variable or fixed visual privacy. k. bench modular power system and cable management accessories keep cables out of sight and out of mind.

1 Advanced Ergonomic Performance

2 Flexible Planning

3 Comprehensive Scope
Category 3 | Filing and Storage Cabinets (Metal and Laminate)

KNOLL FILING AND STORAGE PRODUCTS – including lateral files, pedestals, towers, credenzas and bookshelves – maximize your organizational options without compromising valuable workspace. All of our storage portfolios are designed to blend with Knoll systems, tables and technology walls.

Filing and Storage: Maximum 54” High
Personal Storage Towers: Either 54” or 66” High
Category 4 | Wood Veneer Freestanding Products

PROGRAMMATIC PLANNING FOR THE WHOLE OFFICE

Borrowing from the functionalist vision of the modernist masters, Reff Profiles™ delivers a progressive and efficient architectural presence for private offices, administrative areas and open plan environments. Building on a long history, Reff Profiles continues its tradition of wood excellence and design flexibility - an important criterion for planning the future workplace.

Knoll Supply Arrangements with the Government of Canada
GCworkplace Typicals
Workstation - Primary | Individual | Open

**DESCRIPTION**
Mid to long-term workspace with proximity and access to others. Supports individual focus activities such as reading, writing, researching.

**PLANNING TIPS**
- Primarily located in proximity to perimeter windows;
- At least one work surface per workstation to be height adjustable;
- Any surface with monitor(s) to be 30” deep to allow for use of monitor arm(s);
- Panels should not exceed 54” high; can be lower based on zone and activity being performed;
- Include adjustable ergonomic task chair and task lighting;
- Provide power modules at surface;
- Optional open storage can be included for bags or purses.

**IT PROFILE**
- 1 or 2 monitors
- Port replicator
- Power and USB outlets for charging
- LAN drop where required.

**ACCESSIBILITY TIPS**
- 1100mm minimum clear aisle width
- 1700mm minimum turning diameter
- Power modules should be located below edge of worksurface

**OCCUPANTS:** 1

**VISUAL PRIVACY:** Low-Medium

**ACOUSTIC PRIVACY:** Low (STC N/A)

**AVERAGE SIZE:** 3.5m²

**POSTURE:** Formal

---

**Note:** Various Sizes Available For Different Configuration

**Category 1A Interconnecting Panels** GoCUID PAFRBHPB30 [Line 15, 36H x 30W Panel with Power below worksurface]

**Category 5 Ancillary** GoCUID 5MOADUARMCLPMTXXXXX [Line 11, Dual Sapper XYZ Monitor Arm, Clamp Mount]

**Category 5 Ancillary** GoCUID 5PMOWKSMTACUSBXXXXX [Line 20, Reff Clamp-On Outlet, 2 Power/ 1 Dual USB]
Touchdown - Primary | Individual | Open

DESCRIPTION
Individual landing workspace for short-term work or when checking in between other work activities. Supports typical office activities such as correspondence, writing or reading.

PLANNING TIPS
- Locate in groupings in any zone, in proximity to perimeter windows when possible;
- Consider providing a grouping adjacent to main entrance, when possible, for visitors and quick access;
- Surfaces can be at desk height, counter height, or a combination of both;
- Include appropriate seating depending on surface type;
- Provide power modules at work surface (may be shared by multiple users).

IT PROFILE
- Power and USB outlets for charging

ACCESSIBILITY TIPS
- Provide at least one grouping or section of a grouping at desk height (minimum height 700mm)
- Power modules should be located below edge of worksurfaces

OCCUPANTS: 1

VISUAL PRIVACY: Low

ACOUSTIC PRIVACY: Low (STC N/A)

AVERAGE SIZE: 1.5m² / seat

POSTURE: Formal or Casual

Note: Various Sizes Available For Different Configuration

1. Category 6 Collaborative Tables
   GoCUID 6CKKAI4K48L4TYXX
   [Line 550, Antenna Big Table with Power | Counter Height]

2. Category 6 Kitchenette Seating

   [Line 52, Muuto Visu Bar Stools | Counter Height]
Focus Pod - Primary | Individual | Open

DESCRIPTION
For mid-term individual focused work; a secluded workpoint that supports quiet concentration in an open work environment.

PLANNING TIPS
- Best suited for Quiet and Transitional zones;
- Semi-enclosed furniture solution;
- Can be planned on its own or in clusters;
- Provide adequate task lighting.

IT PROFILE
- Power & USB charging
- 1 Monitor (if furniture type supports)

ACCESSIBILITY TIPS
- Consider accessible surface heights where possible
- Include a variety of focus pods; some with wider access

OCCUPANTS: 1
VISUAL PRIVACY: Medium - High
ACOUSTIC PRIVACY: Medium (STC N/A)
AVERAGE SIZE: 4m²
POSTURE: Formal or Casual

Note: Various Sizes Available For Different Configuration
Focus Room - Primary | Individual | Enclosed

DESCRIPTION
For short, mid or long term Individual focused work where a high level of privacy is required. Can also be used for private conversations.

PLANNING TIPS
- Ideally located in Quiet and Transitional zones;
- Enclosed room with demountable and/or drywall partitions;
- Consider sliding door to optimize space;
- Glazed partition on at least one wall to allow light penetration (privacy film to be applied in accordance with applicable codes and standards);
- Provide adequate task lighting and informal secondary seating.

IT PROFILE
- Power & USB charging
- LAN drop if applicable
- 1 or 2 monitors

ACCESSIBILITY TIPS
- Height-adjustability for seating and work surface
- Contrasting surround on sliding door with handle
- Preferred layout to avoid having back to door
- 1700 mm minimum turning diameter

OCCUPANTS: 1-2

VISUAL PRIVACY: Medium - High

ACOUSTIC PRIVACY: Medium (STC 35)

AVERAGE SIZE: 7.5m²

POSTURE: Formal or Casual

Note: Various Sizes Available For Different Configuration
Study - Primary | Individual | Enclosed

DESCRIPTION
A grouping of quiet individual workpoints in an enclosed room, supporting individual quiet work in a group setting.

PLANNING TIPS
- Locate in a Quiet Zone;
- Enclosed room with demountable and/or drywall partitions and sliding door;
- Glazed partition on at least one wall to allow light penetration (privacy film to be applied in accordance with applicable codes and standards);
- Include a variety of individual workpoints (work surfaces, soft seating, layout space, etc);
- A minimum of 10 seats is recommended.

IT PROFILE
- Power & USB charging
- LAN drop if applicable
- No phone use

ACCESSIBILITY TIPS
- Clear aisle width 1100mm minimum
- 1700mm minimum turning diameter at ends of room
- Controls and outlets 400mm-1200mm vertical reach
- Power modules should be located below edge of work surfaces
- Contrasting surround on sliding door with handle
- Individual task lighting

OCCUPANTS: 10+
VISUAL PRIVACY: Low - Medium
ACOUSTIC PRIVACY: Medium (STC 45)
AVERAGE SIZE: 3m² per occupant
