

Cleaning Disinfectants Suitable for Use on Knoll Products

As of September 21, 2020

The following spreadsheet is a list of potential cleaning agents that have been tested for use on select Knoll products. These cleaning agents and concentrations are recommended on the EPA's List N: Products with Emerging Viral Pathogens. Note that Knoll cannot attest to these cleaning agents' efficacy in cleaning or disinfecting your products.

Some additional helpful guidelines/information about disinfection can be found here:
